City Manager
Joseph Gall, ICMA-CM

Assistant City Manager
Tom Pessemier, P.E.

Dear Homeowner/Occupant:

The City has awarded Rychart Excavation Inc. (contractor) the Lincoln Street Storm Project.

Beginning June 16th our contractor will begin replacing the storm line on Lincoln Street between Willamette to Division. It is anticipated that the project will be completed by the middle of July.

This work will include:

- Installation of storm main line
- Installation of storm laterals to property line on both sides of Lincoln Street
- Installation of a number of storm inlets to intercept surface water

During the construction the road will remain open to vehicular and pedestrian traffic but you may experience delays.

Once the storm line project is complete, pending Council approval, the City will pave the street in late summer. You will be notified when that work will begin.

To read more about the project and to view drawings for the work please visit our Current Projects page at www.sherwoodoregon.gov/publicworks.

These projects are being funded from your storm water and street maintenance fees that collected on your utility bill each month.

Should you have any concerns regarding the project, please do not hesitate to contact Rich Sattler at 503.925.2319 or sattlerr@sherwoodoregon.gov.

We appreciate your patience as we continue our efforts to improve our infrastructure to support the City of Sherwood.

Sincerely,

Craig Sheldon
Public Works Director
