**Re: Notice of Upcoming Construction Activity  
Highland Drive Storm Sewer and Paving (Willamette St. to Pine St.)**

Dear Home Owner/Resident,

Due to the condition of the roadway and storm sewer system on SW Highland Drive, it has been designated to be reconstructed to provide a resurfaced road with an improved storm sewer system. The new street will have a paved width of 22 feet. Some of the driveways on the lower side of the street will have asphalt berms through the driveways to keep street surface runoff from draining down driveways.

Along with the paving of SW Highland Drive, the existing storm sewer system will be abandoned with a new storm sewer being constructed to receive street water runoff.

We anticipate construction to begin in April with a completion date of late June 2016.

Due to the location and nature of the work, please anticipate that access to your property will be affected and may even be unavailable for short periods of time. It will be part of the contractor's work to inform neighbors when access will be limited or unavailable.

We appreciate your patience during the construction period. Should you have any questions, please do not hesitate to contact Craig Christensen, P.E at (503) 925.2301 or [christensenc@sherwoodoregon.gov](mailto:christensenc@sherwoodoregon.gov).
