Re: CUP 14-01, Conditional Use Permit for Threat Dynamics

Good Morning,

I am writing in support of the Conditional Use request made by the applicant noted above. Normally I would not consider written support necessary for something as minor as this but, when it applies to firearms, there may be knee jerk reactions in opposition and I wanted to assure the Planning Department that their citizenship can certainly support this retailer.

I have had the opportunity to visit the store in Tualatin and have found it to be a clean, modern and friendly environment. The sales clerks were pleasant and knowledgeable and their products well displayed. Since the loss of the retail store GI Joes, there has been a vacuum in Sherwood regarding the sales and supply supporting the sporting industry. Sherwood also has a very long history supporting the firearm industry with our neighbor, the Tri-County Gun Club.

Thank you for your attention and, to reiterate, I support this conditional use permit as meeting the goals and interest of the City of Sherwood.
