

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	We take advantage of exercise equipment and mostly enjoy relationships formed in the 9 ½ years we have been members. The assistance we have received from the staff has been invaluable.	There are already so many opportunities we can't take advantage of all of them.	No change in current arrangement. Let the Y run the Y.	When and if it became affordable, probably larger pool.		Why fix it if it ain't broke? Maintain the status quo with YMCA excellent management, excellent staff.
F	Diversity of offering to all ages.	Rock climbing for seniors.	Make sure accessible to all ages and financial ability	Basketball and fitness trail with stops for exercise	Replacement community recreational facility.	Where else do you see 6 decades of people in a high energy cardio class?
F	Enjoy the indoor soccer field in Old Town.	More rock climbing, outdoors training, adult leagues and more ability to keep up with the new exercise trends.	Should be under Parks and Recreation. Keep any profit local.	Another pool, tennis courts, another basketball gym space, skate board area and more use of the outdoor space.	To continue to be used as a recreation space or a plan to have another area as a new recreation space.	The existing facility is dirty, smelly and over priced for what they offer. Classes aren't very daytime worker friendly.
F	There is good family choices, flexible hours. Organized dance fitness is good. Very welcoming and no high pressure style sales people.	Need more dance classes. The class sizes are too big.	Provide resources and support the facility. If it's not broke don't fix.	Bigger pool would be nice with hot tub and sauna. Upgrade equipment.	Guarantee fitness center. If it was sold to a for profit company I would not attend. Insurance to still provide coverage and membership for medicare and silversneakers.	If I wanted to go to a non-YMCA facility I would. I like the non profit and I don't want to be pressured or feel unwelcome.
F	Nothing.	I would like to see the Y gone.	The City owns the building. You rent from them. Get over yourself.	Sell the property. If the Y can buy it fine.	The high cost to the taxpayer.	The Y has not worked with the City. It worked behind closed doors. It shut the City out.
F	Everything. I love that they offer 5 am classes since I have to drive downtown to work by 8 am. The friendship and community and staff. The variety is great. The affordability and the discount for having my kids in other YMCA programs.	None. I thing the Y offers a wide variety of programs for all levels of skill.	I believe they should renew the Y contract and support the Y.	Outside courts or equipment.	How to keep everthing the same as possible. Same affordability, teachers and programs.	I would be heartbroken and devastated if the Y was taken away. When I moved my family to Sherwood 2 years ago, on of the reasons was the Y. I made my best friends at 5:10 am classes at the Y. My kids are learning to swim there. It is such a source of community, positivity and happiness. Please don't take our Y away!!!

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	I love Yoga programs. My daughter is in swimming programs. She is doing very well and I would like her to continue it. My daughter participated in the summer camp which was fun for her.	I think right now we have a lot of variety of programs offered by the Y and we are happy with them.	City is responsible for community welfare and development and by having the facility leased to the Y they are serving the purpose.	I think swimming pool needs to be expanded as its small right now.	Community development. There are no health facilities or swimming facilities.	I think its more an emotional attachment to the Y and we would like it be kept like it is.
F	Yoga session, child care and child watch.	More, offer kids swimming sessions and gymnastics.	Not to let our Y go!!	We are extremely satified with the current facility.	We expect not to sell the facility. Please.	Please don't sell our Y!! We love it and we enjoy it throughly.
F	All inclusive; young, old, all economic levels. Group fitness classes.	Summer time lunch for kids who get/need reduced cost lunches during the school year. Snacks/lunch for all kids in the community	Encouraging and overseeing community services.	Larger pool, more child care room, racquetball, and permanent cycling dedicated room. Commercial kitchen for community food service.	Loss of community center and services. Financial gain from sale vs. loss of community services.	
F	I love the classes, the pool, the programs offered. I love that showers are offered to the homeless in the community, that there is a free place for teens to go after school. I feel that the YMCA is very inclusive. Healthy kids day. There are great family programs, programs for those with disabilities, free childcare.		It seems to be working well as it is.	Larger pool, racquetball court, steam room and hot tub.		I think the Y is a wonderful facility for the City of Sherwood and surrounding communities. They offer so much for everyone, regardless of age, race, gender, everyone!
F	Staff and things for all ages.	They do a great job with current offerings	To support the facility and its staff.	Outdoor areas and sports fields.	The City should not be able to sell without a vote and signed written assurance that there is no business or financial interest related to any Council member or elected official.	The Y should stay!

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Swim program, Yoga program, exercise programs, friendly and helpful management, affordable access to seniors	Advanced yoga program for seniors. Nutrition program for seniors given by dietitian.	None. We do not want to see any changes.	A special time when seniors can lap swim and not share with young swimmers. Possibly enforcing a slow lane.	They should not consider selling the Y. Keeping the Y non profit.	Senior top 10 requirements for good health and survival are movement and social interaction. Therefore the Y should be affordable to all seniors. At present these goals are being accomplished.
F	Keep our Y with senior affordable memberships.	Traffic on Woodhaven Dr. Speeders.	Tai Chi and Yoga oversight and support.	Larger pool	Experienced Y managers and not for profit.	Senior access to swim lanes.
F	This was not a Town Hall meeting. Structured to benefit the Council. Constricted the free flow of information among participants.					The sustainability of a City is dependent on the community it creates. The Y fosters community and family values.
F	Very competent staff with many activity opportunities. Good training on equipment and a staff interested in providing a safe environment for fitness activities.	I love the programs currently available at the Y.	Leave it the way it is. There is no reason to change anything!	Racquetball court would be nice. It is already very nice as it is.	What it would be used for after the sale. Quite ridiculous to consider selling.	There is not any good reason to change any thing. Already has been established that the City would have negative cash flow! Duh!
F	Everything.	None that I can think of.	As it has been!	Another pool with locker space.	Would be a shame to sell it!	
F	Group exercise, cycling, childwatch, swimming, swim lessons, yoga, the instructors are great and it is affordable		Cooperative with them, grateful and thankful to have such a wonderful resource.	Larger cycle room, bigger childwatch area, covered outdoor play area, larger pool so there can be open swim during swim lessons and swim practice.	If sold, the buyer may not have the best interest of the community in mind.	I am very thankful for the Y and would be very dissappointed if it were no longer the operator of the facility. Thanks for listening.
F	Zumba, TBC and regular gym.		Please don't interfere.	We are satisfied with what we have right now.	Please keep the Y as it is.	

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Very family oriented and focused on health, prevention of illness and injury. They help people from all income levels and people with disabilities.	The Y offers a lot of fitness classes and at various times. The trainers and instructors are very dedicated and committed to our health and well being.	I would like to see the Y continue as it has been. The Y is run well and if it were turned into a private facility it wouldn't be the same. It would be too much like a "meat market" and not inviting to me.	A sauna would be great in each locker room. A separate room for spin classes would be nice so the bikes can stay out.	Where will the teen center be? Where will the special needs classes go? Where will the homeless take their Sunday showers? Where will the seniors have their silver sneakers classes?	We would like to keep the Y managed as it is. Many people are member and benefit from the current format. If the City sold it where would people go to get these services. A new gym would be too expensive and not a useful.
F	I like the way the Y runs their programs and see no reason for the City of Sherwood to interfere.		Just take the monies the Y generates through their programs and fundraisers. Should the City decide to run it check neighboring City's expenses. Should the City decide to sell, I'm sure your school programs would suffer.	Pool only if all the senior classes are offered. Would a larger pool be beneficial.	I think the City would make a grave mistake selling to anyone that does not put everyone, babies to gray haired first.	The Y has afforded me, an old lady, to exercise and ease my aches by providing organized classes in the pool that other facilities in the area don't have. I travel 8 miles three times a week to attend. Without those classes my membership will be cancelled.
F	Yoga, pilates, basketball, open gym, weights, everything, elliptical, treadmill, senior programs and affordability.	Why can't the citizens vote? Please answer. More yoga and pilates.	The City vote should be limited. The decision should be made by the citizens!!	Bigger pool and maybe outdoor. More space for classes. Vote from the citizens.	How this will impact the citizens who have asked for a vote.	I think I have made it VERY clear that this, from the beginning, should have gone out to the citizes for a vote!! That's democracy. The Y has been a huge blessing to so many and why take this away from them without at least putting it to a vote. This is not the definition of a Town Hall meeting.
F	The quantity and quality of exercise classes. The flexible hours. The quality of instructors.	More Yoga classes throughout the day.	The City should let the citizens of Sherwood vote on the decision of the Y.	Outdoor pool would be awesome.	Price on dues. Most families will not be able to afford a higher rate. Number of exercise classes being offered. Quality instructors.	Please leave the Y alone! We love our Y and it benefits so many people from old, young, low income families, etc. Please, please, please don't sell the Y!

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	All inclusive; young, old, all economic levels. Group fitness classes.	The wide array of programs offered at the Y are very diverse. Continue offering these programs. Keep the Y.	Unless there are issues stay out of it! The citizens of Sherwood voted for the initial Y bond; therefore the citizens of Sherwood should have the right to vote on any significant change to the Y! If it isn't broke don't fix it!	If the Y is expanded, larger area for workouts.	The Y should be giving first priority to purchase. Why has the City not pursued negotiations for a new contract with the Y. The consultants report was clear - negotiate with the Y.	The Y is the community of Sherwood. A for profit facility can not and will not provide the services nor the member fees provided by the Y. A for profits objective is to make money, not to serve the citizens of Sherwood. The outreach to the citizens of Sherwood can not and will not be replaced by a for profit entity. Keep our Y.
F	The current facility (Y) has met all my needs. Classes, instructors are excellent. I use the Y 6 times per week. They have classes for all levels of fitness.	As above I do cardio, tabata, circuit, conditioning, yoga - all needs met.	Absolutely no role other than allowing the Y to operate the facility. Its not broken don't fix it. City own depends on voter approval to maintain a budget. Y members totally allow the facility to run without City money.	It seems to work great as is. The Y organization has been around for years and knows how to run an efficient program. I've lived in City own rec centers and they don't work. Private gyms are only for money not members.	Don't sell, 18 years and great service why change. What would City do with the money if sold and would taxes be increased. Why sell!!! Everyone is happy as is. If sell then sell to the Y.	You ran a feasibility study for \$30,000 or more and totally ignore what they recommend. They said it would cost the City more money and that they advised to renegotiate with the Y. What does the Mayor or Council not understand in the verbage. The Y is a community not just a gym.
F	I like the diversity of programs that offer so many alternatives to all ages. As a new need arises, the Y finds a way to meet it.	The current programs meet my need. The current "balance" classes are great for those of use who are more senior in age.	The City's role should be to assure that the facility is meeting the needs of all citizens of Sherwood. It has needs to assure that those of all incomes can afford to join and belong.	The current facility needs to allow more room as it is too crowded now. Before expanding you need to assess the needs of the citizens.	What advantages are there to the City by not owning the facility. Need to get a fair price. Need to assure that the buyer will meet the needs of the members.	I recognize the need to solicit proposals from companies that want to run the facility but the membership costs will probably increase and the programs offered will probably not be as diverse as now. I fail to see the reason for someone other than the Y to run the facility.
F	Excellent selection of services for "senior" members of the community. Provides two very important components for healthy "aging" - exercise and social interaction. Services provided at fair pricing-"Silver Sneakers" for seniors.			Larger pool.		

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Classes are offered for all ages and ability groups. The assistance offered on the 12 week healthy fitness program. The many hours the facility is open. The ability to participate in programs without additional money. Child care and after school programs.	The current offerings have already exceeded my expectations.	Providing the facility and the maintenance functions for the facility which I believe is the current arrangement. This has been a successful 20 year partnership which benefits all ages of the City.	If expanded I suggest have a different area for the indoor walking track and add additional lanes.	Equal to or better than current location. The cost of the new facility should not exceed the current cost. Market value of the current facility.	RFP criteria should exclude all of the current programming and fee structures as a baseline. The RFP should also have a cost vs benefit analysis, ie. Can any other provider or the City itself offer the same programming and structure without exceeding the current cost of the contract with the Y.
F	It's a great place for older people to get out and get moving and meet people. Keep young people headed in working with other people.	I'm happy with things the way they are and people who work there care about what the people want and are willing to help.		Another pool.		I want it to stay the way it is.
F	Senior fitness classes		The same as it has been - it seems like it is going great as is.	More group exercise areas and a larger pool.	Why would you want to sell it? What for profit compnay could have the positive impact that our Y does.	I am afraid that a for profit company would cancel many of the grams for teens and seniors.
F					Selling? Outrageous. The City needs some independent thinkers (ignore Middleton) who view this community as an asset and a responsibility. The Y is working and working well and working hard. Assist them and do not put up roadblocks for the sake of egos.	
F	Silver Sneakers and adult swim hours.	Bigger pool and more adult swimming opportunities	City should be the happy check cashier.	Larger pool.	Never sell it!	I think the Y does a bang up job running the Y. Keep it going. The staff is always customer friendly. Keep it rolling the way it is!

For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Pre/post natal water fitness. The Y can not be replaced. Its not the fitness classes, pool, basketball court etc. It's the atmosphere that can only re created through the history of the YMCA. The Childcare is wonderful!		Support	Keep it the way it is.	How many lives would be negatively affected because of the loss of the YMCA.	There needs to be some things in life that do not need to be "bigger" and "better"....they don't need to be.
F	I've already fill out a sheet and answered these questions but I wanted to comment on this meeting format. Only the really aggressive could be heard. All of us quieter folks went unheard.	If you could have asked the question from the mike-invited 4 to 5 people to comment, then asking for a show of hands be all those who agree with each speaker you would have gotten more information.	Thanks for trying! Please keep the Y strong. Members and staff will use the facility as best we can.			
F	Variety, times classes are offered and equipment.	Is all great!	Stay out of it!	Nothing, I don't want to pay more.	Why sell?	Please sent this to vote if you decide to get ride of the Y. If bad decisions are made it will affect the whole community. We love the Y as is.

For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Childcare-not just that it is free, but that it is safe! My 2 year old isn't in with 10 years olds and they are played with not just watching a movie in a small room like the big box gyms.	Older kids sports, fitness classes other than dance-kickboxing, less mills, more pilates. Youth volleyball.		Better classrooms and real mirrors! Bigger! Better indoor track. Windows - the cardio room is depressing.	Keep it family oriented. The last thing we need is another "meat market" facility. They are soul less	I'm not sure this helps but I just moved from Provo, Utah and they have an amazing rec center there. It has dedicated senior activities and an entire wing available to them. There are multiple sport courts, exercise rooms, indoor track, modern equipment, indoor and outdoor water parks and lap pool with bleachers. They offer on and off sight youth programs and many other things. The reason I mention it is because it is in an area with very young families as well and many seniors. It is really what the Y needs to aspire to become. It has everything so people feel it is worth belonging to it and it is affordable.
F			None. Sign the contract and get out of the way.		Don't evey think about it.	Contract with the Y as soon as possible and end this farce.
F	Non profit status, affordable recreation, family oriented and community service oriented.	Larger pool/additional adult pool. Larger locker rooms.	Keep status quo! Its unique and working well.	Pool, locker rooms, hot tub, sauna, steam room and family oridented indoor amentities.	Y relations with community, youth programs and after school day care, aquatic lessons, swim team, geriatric programs, emergency shelter and homeless showers.	I believe the discussion concerning the Y should be how do we expand its services to account for population projects of Sherwood.

F	That is is a warming shelter, the variety that crosses to all age groups/abilities/needs, the 12 week fitness program, the financial aid, the insurance paid memberships, the maximization of the facilities (class rooms, pool, gym) the orientation/mission of the Y is to serve others, to build community and include all.	Some add/new adult sport leagues.	Liaison with businesses and government, maintenance of grounds and parking lot.	New pool, full size gym and new locker rooms.	Sherwood is considered a desirable place for raising a family - home values are based upon this. The Y is an attractive item in the list of community amenities - losing it would make Sherwood less personal as it is a very community oriented operation.	If the Y isn't meeting performance expectations - perhaps its time to sit down, talk, set goals and create a cooperative relationship. I see everyday how people who come to the Y are enriching their lives. The autistic child watch, seniors improving movility with therapy in the pool, with fitness instructors and those with health problems getting support to change their lives. I do not know of anywhere else this happens day in and day out.
F	Wide variety, always looking to revise and expand.	More programs for seniors who are not disabled but who don't want to compete with 20-40 year olds.	Oversight-checks and balances.	Larger rooms for classes.	The needs of the community members- not the financial needs of the City. I don't believe the City is losing money.	I live in Wilsonville and I come here because it is covered under my insurance plan. If this facility goes private I will no longer come to Sherwood. If I have to pay out of pocket may as well stay in Wilsonville.
F	Great variety, great staffing. Accommodates the full spectrum of community benefits regarding health for the individual, the family, the youth and senior citizens considerations.	I have not thought about this.	Promote it.	I don't know, but I am sure they would have input from the comments it receives.	How would the sale benefit the community of Sherwood.	

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	The variety of classes offered for all age groups-especially active older adults at this location and the satellite facility at Boones Ferry Community Church.	More active older adult classes that works on partnership with community, ie. Medical places, city facilities to offer more services , better use of resources-synergy effect.	Partner with it-work in community to help each other. End any hostility-take out any negative energy and work on all our strengths!	Outdoor pool and hot tub.	Why sell? Who would benefit? Then it would not be representative of the community. The Y is a charity-not answerable to profit!	Why was the survey so expensive? When similar information was available. Will the voters be allowed to make the decision? "we the people" Leave it to the people to decide. Support is shown in the numbers here tonight! The Y is doing a great job. It's not a gym-its a community! I met people who are now close friends here! The City took over supplying the water and the cost to me has increased! Why would changing the ownership benefit the community!
F	Great and afforable swim programs, dance fitness classes.	New sports oriented programs, ie fencing, scuba diving, kayaking/canoeing.	They can stay as it is or sell it to the Y.	Hot tub, steam room and sauna.	They need to have the people of Sherwood have their vote for it!	I like the Y facility as it exists, affordable enough for our family of 5, offers enough variety of programs for us to participate in as a family with the Sherwood community. I am grateful that they graciously allow our toastmasters club to meet in the conference area, greatest personal improvement group I have ever found.
F	Appreciate the offering for all ages. Personally, I have enjoyed the 12 week intro class and all the options for seniors. Current programming is afforable and available to a wide population, and offers a variety of fitness options. Good equipment, lots of classes.	A continuation of fitness and health classes, possibly more senior classes.	To insure that the faciltiy continues to serve the whole population of Sherwood (and surrounding areas). To promote a fitness and health faciltiy (in addition to parks that offer recreation options) for broad age ranges.	Possibly a steam and or infra red sauna.	I must be assured to continue to serve the whole population. Not become an expensive "spa" for an exclusive group. Keep providing for children, teens, active adults, and seniors and a non-profit that allows all income levels to participate. Let the members decide.	The Y provides a great service to Sherwood residents and those from surrounding cities. I see no reason to make major changes. Upgrades and improvements, yes, but turning it into some "fitness club", No. Why disrupt a good thing. Why is the City trying to railroad through a change that the citizens don't want?!?

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	A lot of programs and activities cater to seniors and children. I enjoy the many health and fitness classes.	Really can't think of anything right now.	Leave things as they are! All of the many members are very please with the Y as it is.	Add a steam room, a jacuzzi and sauna.	The City should consider the existing members of the Y.	
F	I like the programming for seniors and so enjoy the children's presence and seeing them dropped off school buses of young people. The small town community feel (the only thing to remind us this is a small town). The staff is so familiar, incredible customer service. Zumba gold has been so beneficial to my physical health. Please keep Mary Weber.		None. As City Council members you should support the Y.		Please don't do this.	
F			The City should not care about the Ys programming. They lease the building and pay their bills and are in good standing in the community. Why is all the conversation about recreational facility. Use the word YMCA!!			
F	That the YMCA is running it.	Ask the operator and it's members	Maintain the building and sign the renewal with the Y.	Ask this question after signing the contract and with a citizen bond committee.	Do not sell it! If so, why not sell the Library to Borders.	Listen to the citizens, sign the renewal with the Y and stop screwing around. Poor communication and the questions are sad!
F	Classes on evenings and weekends. Senior and youth programs.	More classes on Sundays. Larger or second pool and hot tub.	Supportive and welcoming.			
F	Y is perfect for Sherwood.	No thank you.		There is no needed for 20,000 small town. Y is just right for Sherwood.		Y is right fit for Sherwood. Low price, fit every family member, close by. Please let the Y stay!

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Love the dance fitness program and other classes! Wish we had a big studio in main building! People are great and we are a community. We serve 6 generations.	Better weights in one place.	I think we should keep the Y because of its community and caring. We paid for the building so the City should re-negotiate.	More lap swim with no kids in the laps during lap time. Locker room update! Another studio in main building. Bigger stretch room. Weights in one area.	The community of the Y - we are like a family! "For profit" won't care about that and they won't make upgrades if they don't feel they'll make money.	"If it ain't broke, why fix it?" Just do some expansion. We need to have the Y and the City sit down and negotiate a contract with a clean slate!
F	Activity for every age. Baby to senior. Inclusive, rock climbing wall and classes, values and community incorporated into every class and interaction, diverse programs offerings- don't have to go to different facilities to get different activity formats.	Pickle ball for youth, senior rock wall, Stem/Steam	Renew contract and continue to partner with the Y.	Lap pool, larger spaces for group exercise, free weights and child watch. Universal changing rooms.	Need to find a balance between adding financial value and community value.	My children have been raised at the Y. In that community setting they have learned independence, had values reinforced, and learn foundational social skills. They are intelligent, well balanced, and connected to their community because of their growing up years at the Y. A health club could never do that.
F	The Y offers programs for everybody from birth to death.	None. The Y does a great job!	None. The City should sell the building to the Y and support their efforts.		I think that the Y should be considered a community asset. Everything possible should be done to make sure the Y stays in the Sherwood area. The City should consider what costs it will incur if it keeps the building.	The City needs to realize that the culture at the Y can't be duplicated by any other agency.
F	The price, easy access and the classes.		None. The Y can stand on its own. It's been doing a fine job without the City's involvement. They also do great things for the community.	I think it's fine the way it is. If you expand it then the cost will go up. It's so affordable for a low income family. If expanded, a pool and racquetball court.	Do not sell nor get involved. If you have the ability to sell, sell it to the Y.	Please don't get involved. Leave it just like it is. If the City owns the property and wants to sell, sell it to the Y. I appreciate the military discount and Kaiser discount.
F	Love the staff and all the classes offered, AOA and community involvement.		Help support it.			

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	That they are offered and taught by friends and fellow community members that not only teach because it's their job. They are members themselves who show the love that they have for their own well being/by giving their love and decication, happily, to those of us who look forward to being with our Y familiy each and every week.	More offereing for the 7 to 14 age group in the way of after school classes like exercise, dance, gymnastics as well as "youth sports" teams offered for this age group.	Surveying the entire community and absolutely demand a city ballot vote before any management changes are made. The City should sell the building only to the Y. Otherwise the City should not have any part in running the Y.	Indoor/outdoor expanded pool, skate park, outdoor sport court and allowing homless to shower more nights in the week.	Requiring a vote of the community!	There is no other entity that can offer within its community a safe haven and destination from baby to great grandparents that fuels our minds, bodies and souls. We stay fit at the Y, we make friends at the Y, we live life together at the Y. Please make us proud, happy and relieved with the news that everything possible will be done to keep the Y here for us to love!
F	Mostly everything.				Sell to the Y and let them run it. How will membership costs be controlled.	20 years ago we voted for building a Y, not a City run or recreational facility.
F	Great community resource. Facility must be upgraded.	Sports leagues for older kids but facility must be upgraded.	A steward ensuring world-class community is maintained and fostered for the future.	Competition pool! All of Sherwood has the 3 lanes at the Y. That's not indicative of a commitment to growing a world-class community. There's opportunity to lever this with new HS, short-sighted to not have pool facility at the new \$180 million High School.	Profit. A buyer committed to Sherwood's growth. Zoning is the City's ace in the hole.	Deferred maintenace is a big issue. City can do a better job of educating the community on what's happening with process. There's confusion and too much emotion governing the conversation. There's a difference between operator of the facility and the facility itself. The facility must be upgraded. The City owns the facility. Those are separate issues from the operator question, RFP, etc. Many community members are allowing emotion to cloud this, creating an opportunity for the City educate and create a win win.

March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	I need to be honest and say I have not been in a position to use the current program recently. However, I was an active user some years ago and the Teen Center was a real asset. I also used to enjoy Tai Chi and semi private swimming lessons as a adult and used the ellipticals. However, though happy they existed, this did not compare to what we previously had available in the midwest.	Prior to moving to Sherwood 10 years ago, I was accustomed to a huge privately run fitness center very nearby, compared to that which had a giant non lap pool indoors for practice, ellipticals always available, the Y was a disappointment, but the kids swim lessons did work fine for my son.	The City currently owns the facility and the contract is up. It is responsible for the City to evaluate objectively if the facility is meeting the needs for which it is intended and make an objective decision based on many factors: fiscal responsibility, meeting community needs, especially meeting the needs as originally intended. The Teen Center is something that may have orginally been out of the scope but obviously some sort of similar service is needed. What else has this center organically become. Is it within scope? If not how does the community still meet these essential needs.	A larger or 2nd pool is very much needed to encourage adults learning to swim. Continuing to expand wellness offerings such as Tai Chi or stress management/mindfulness/meditation.	Would a buyer significantly expand the facility to meet the needs of a rapidly growing community? Can the Y manage a similar expansion if needed. Also, there is a spritually diverse population in Sherwood - is a spiritually/non-spiritually neutral facility appropriate, while still supporting and acknowledging we have a strong faith community to support specific spiritual classes.	The Y has been a positive presence in our lives over the years that we used it. But a large community (private) rec center was also very, very positive before we moved here. The Teen Center is wonderful and if the facility changes, the City needs to identify all the diverse needs being met by the Center. Also meeting low income needs is important. I'm also aware of really positive experiences relatives have had in other states with community run facilities. Growth is very important to consider, as is diversity.
F	I currently use the Y through my medical insurance provided by providence through Silver and Fit.	I'm very pleased with the current offerings.	Stay out of trying to do something that disrupts the Ys effectiveness.	Larger room for the seniors which will probably be the fastest growing group going forward.	The City shouldn't try selling the facility.	"Better to be through stupid than open one's mind and remove all doubt". Plese leave the Y to function by itself.
F	I like swimming and other activities. Don't sell the Y.	Baseball because it's fun.		Baseball hats and balls.		Don't sell the YMCA. Many people will lose jobs. We love the Y.
F	I appreciate the exercise classes offered at the Y. Without them I question whether or not I would do any kind of regular movement. I appreciate the fact that the Y is multi generational facility. Great well trained welcoming staff.	I would like to see more offereing of the same type of class at different times throughout the day.	A supportive role-not just with finances but also in an oversite role. It would be nice to know that they actually visit the facility and interact with the patrons.	Perhaps expanded classroom facilities for classes such as Silver and Fit.	My hope is that you don't consider selling the facility - certainly not to a for profit organization.	

**Sherwood Town Hall Meeting

For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	The excellent children's programs. 10 weeks to fitness-good way for the non fit to start. The Silver Sneakers and Silver and Fit programs for seniors. The various runs, Easter Egg Hunts and variety of community programs.	Evening Silver Sneakers type programs for seniors who still work during the day. More programs for handicapped, such as a Parkinson's fitness group.	Totally supportive! Nothing except good schools make families want to live in Sherwood more than the Y. Health and fitness are most families major recreational past times at this time and the Y is positioned to support that.	Definitely need a second competitive sized pool for the swim team and adult fitness. Current pool is good for kids, seniors and handicapped. Need more dressing rooms facilities - possibly a children/adult area and a senior/handicapped/adult area.	What could you possibly do to provide all that the Y does? Why would you want to change? What does Sherwood need more?	I live outside City boundaries yet have been a Y member since 1998. The Y helps many folks besides City dwellers and a non resident fee makes that fair. It seems to consider any chage except improving the Y will be counter productive and short sighted. Just visit the Y and see all the smiling faces.
F	Everything-all the programs/classes/instructors are awesome. Great pricing too far the whole community. We don't want to have higher taxes to pay for a different org to take over.	"No" big box gym or Parks & Rec	Support the YMCA!	More studio space and expand the pool.	What damage it would do to the community.	Please don't get rid of our wonderful Y! As you see the community is for the Y!
F	Accessible and affordable for all. The Y offers financial assistance if needed. Thorough programming includes many activies for children to older adults.	I am happy with the services provided by the Y.	None. Let the Y do what they have been doing successfully for years. Keep the building in working order so the Y can operate.	Outdoor basketball court, tennis court and bigger pool.	I would not join a privately owned facility.	The Y is a wonderful community addition. It may not be a profitable venture for the City but the values is promotes are worth everything. "Love, respect, honesty, responibility and service". That is what Sherwood should thank the Y for.

March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Swim club and swim lessons.	Water polo, kayaking classes and tri-athlon training.	I don't know as long as the citizens needs are being met, I don't think it really matters.	Competitive pool and diving facility. Pool should include deck space for hosting swim meets.	What's best for the citizens and community.	I really think a new swimming facility would benefit the entire community. The comment that running a pool would cost a million a year is not based on any facts. Newberg makes a profit on their pool and was able to build a brand new facility. It is time for the City and School District and Parks and Rec to work together to find a way to get Sherwood a much needed swimming facility.
F	The group exercise instructors are amazing! The atmosphere is so inclusive-feel very welcome. Kids love the pool, husband loves the gym portion. For our 7 person family its affordable.	More weekend and Sunday classes. Love all group exercise classes. Teens are coming to our dance classes a lot now. More teen group classes.	Work with the Y-make adjustment to a new contract but please don't let go of these relationships we've built. Cannot imagine my life without the Y. Their instructors saved my life!	Larger dance floors. We get at time 40-50 people to come. A stage to better see the instructors. Better sound system. Keep the instructors.	How many families would be hurt by this? An outside company will not put Sherwood first.	I spend a lot of time at the Y taking dance fitness classes. It's my life! I've never been able to stick to a gym. The instructors keep me coming back. I would be lost without them! In 13 years as a Sherwood resident I've only now felt acceptance. Members since Jan. 2016.
F	I like the programming as it is affordable and the management is courteous and effective.		To own and monitor the facility.	Add an additional lane to the pool and more pickle ball courts.	Why would we want to sell it? Why fix something that is not broken.	The Y has done a fantastic job filling a community service. Why even think of fixing a problem that doesn't exist. I propose that not only should it be re-negotiate with the Y for another 20 years but include a performing arts center with Y contract since it is being so seldom used.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Great classes with wonderful instructors, varied class times, love the 5 am classes, swim lessons, birthday parties, free child watch, community outreach and scholarships.	More water classes.	Renew contract with the Y.	Extra classrooms and indoor/outdoor pool.	Suck it up and do the right thing.	The Y has changed my life for the better. I've become stronger physically and mentally. With all the support and help from the instructors I've completed several 1/2 marathons and soon to be 2 full marathons. Without their love and support I'm positive I wouldn't be where I am today. This is a community and we care!
F	Diverse classes with differend skill levels and ages. I like the variety of times and hours the Y is open.		I think the City should support large scale projects and maintenance to the Y, but not manage it.	A crossfit section. Maybe some heavy bags for punching.	Trying to find someone to mirror the current business plan of the Y.	The Y ties this City together. Great place for the whole family to go, get in shape, bond with others, and relieve stress making a happier place to live. It impresses making good choices and being positive.
F	Let's look at Woodhaven park! After 15 years it looks beautiful and with a change of weather I know we will see it used to its limits.		None. Leave it out only.	Who is going to pay for any expansion.	Speaking of the Y facility which was paid for by the Sherwood taxpayers. How will the money come back to them.	Has a contract been written and approved by City Councilors. That should be done before expecting any group can stand and see if they would be a good fit and could live with the City demands or to be able to negotiate their wants.
F	Excellent choices, great variety, quality instructors, flexible class schedules and my blue cross pays for this so I can stay healthy.	Tango dancing classes!	Let the Y do what they do well.	Can't think of any at the moment.	The community input and their choices.	Why did this all get started?
F	There is something for everyone. Very well staffed and planned. I participate in the aqua program-good variety of abilities and physical needs. A fairly newcomer to the area and I plan to try several other classes.		Encourage and support. If it ain't broke, don't try to fix it. The Y has experience in running this type of facility and does an excellent job. I speaks well of the quality of this community.		The location is so great for this and surrounding area - why sell it?

For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	The Y active older adult program is the most comprehensive health and exercise program that I know of in the metro area for seniors. It is a vital part of maintaining my personal health. Indoor track and cardio equipment. Aqua-exercise programs.	Traditional Tai Chi	Maintain the grounds and external building as per the original contract. Monitor the performance of designated operator of the facility to be sure the agreed on functions are performed.	Additional lap swim space in the pool.	What would the building be used for by the buyer? We need to have a recreational facility. Would the buyer be nonprofit or for profit. How would the City benefit from a sale? Since operation costs the City nothing now?	I am appalled that the City has waited this long to begin negotiations for a new contract with the Y to continue operation of the rec facility. The Y has done a fair job serving it's members and the community with it's programs for all ages and assistance to disadvantaged members of the community.
F						Stop referring to this as the rec facility, it is way more: a community center, meeting place, socializing location, care facility, the list goes on and on.
F	Variety of classes-something for everyone, cheerful personnel and a lot of senior programs.	Additional pool dues to multiple use.	Support the YMCA.	Pool, larger classrooms and hot tub and steam room.	Selling what facility?	Is this meeting about the Y? The meeting is not what I expected and did not gain any information. If Silver Sneakers were discontinued, the Y would lose lots of seniors. The Y has strong organization and well managed. If City involved the cost will increase. The Y provides socialization and friendship. The Y is family oriented.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	I appreciate the variety of offering for a variety of ages. The affordability of things offered works well for our median income family. In addition, the Y has worked hard to hire incredible highly quality staff members for the programs offered.	I would love more early childhood/pre-school programs. I would also love to see martial arts offered.	The City should be supportive, but not overbearing.	A larger pool and a larger group exercise space would be great!	First of all, it shouldn't be considered. Both the study conducted and the fact that the Y is a successful facility support that. There are numerous communities within the Y that have literally changed and molded the course of peoples' lives within them. Selling the facility even if it became another fitness facility would obliterate most of all that.	My family has been calling the Y our second home for over 3 years now. My son has grown up under the care of the child watch staff, and I have grown ridiculously in love with a fitness format I never thought I had access to: dance. Our dance fitness community is hundreds of members strong, and has truly become my family. We not only dance together between 1 to 10 hours a week, we care deeply for one another. Taking away what is currently inexistence and working would be devastating on so many levels.
F	It's in a convenient location and it's cheap.	Put weights in the same place.	If it's already a publically-owned facility, don't sell it. We should have enough building space in this City for a public rec facility to operate alongside private ones. They serve different markets. This shouldn't be an either or situation.	Public use turf field - we built soccer fields at Snyder Parks but the average citizen never has a chance to use them because of kids soccer games.	Use the taxpayer money that goes currently to the Y to offer additional rec services. Why is there no building space for a private fitness company to occupy aside from this one.	
F	The Y has some wonderful programs.		To support these programs.			
F	I like the Silver Sneakers circuit classes. The instructors are awesome. The pool and lifeguards are a big part of family enjoyment. I enjoy playing pickle ball in the gym three days a week. I think the programs offered to challenged young people are invaluable to our community.	Same programs but a bigger gym so we could have room for more pickle ball courts.	The Y is doing a fantastic job. We don't want to lose the payment of one insurance company to our membership dues.	More pickle ball courts. Larger classrooms for Silver Sneakers classes.	Why sell it? We don't want to lose Silver Sneakers classes and having our insurance company paying our dues. We don't need a fancy club. We need facilities for average and under priviledged people of our community.	I'm concerned that if the Y was not running our rec facility that our insurance company would not pay our dues. If there is to be any change the citizens should be voting on the issue!

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Price-it took our family 9 months to be able to afford a family membership. Free teen center and child watch.		Renew the contract to let the Y run the facility or sell it to the Y. Do not let a private company come in - no one will be able to afford the increased cost.		Sell only to the Y.	I haven't even lived here a year and I can see/feel how political this issue is. I don't know the history but there is no one better equipped to run a rec center than the YMCA. Also, this facility is so much more than a rec facility. It is the heart of the community.
F	I love, love, love most everything about the Y from the swim lessons to adult classes. The Y is a place for my entire family. My youngest is 1 year old and my 8 year old has taken sports programs and swim since she was 2 years old. We have been members for 15 years if there was no Y or equivalent of a facility we would be very sad for the community!	I really think the Y provides a large range of prgrams for the entire family. I don't see too many gaps in programming. What I do see is the lack of support from a City that should be working alongside the Y to make it a better stronger place for the community.	There should be a support network for the Y like a big brother or sister. They should try to help in necessary ways to help the growth and well being of their mission.	I would love to see a bigger pool area with sauna and hot tub. Also growing up my Y had a wonderful gymnastics space for competitive gymnastics. I think this would be a big plus for the current facility.	That it should be continued to be run by an organization that is non-profit that provides recreational sports for kids and families. We need a place that keeps monthly dues so that all people regardless of social economic status can afford using and also that provides assistance to those in need!	I am just really concerned that the City is not seeing the benefit of the current operator the Y. I am baffed that there is any consideration to changing the facility and or getting rid of it entirely would be detrimental to the community and its growing family populations. Please listen to your community and really see how beneficial the Y is to it!
F	Family friendly atmosphere. Programs for children, families without extra funds, childcare, community outreach programs, summer camps, fitness classess, after school programs, the teen center, programs for seniors, swim lessons, etc.	Expanded pool facility- 6 to 8 lane pool for more water sport programs (a full swim team that can host meets). Water polo, etc. More fitness classes in the evenings (barre, spin, yoga)	A support system. The should be a resource for the recreational facility, bridging the rec program and the City's goals to best support the people of this community.	Pool! Large enough for the team to host meets and for other water programs to be added (water polo). An expanded teen center program and family resource center.	Non-profit with a community outreach focus. Reasonable, consistant dues which go directory toward funding programs which enrich our community and supports our town.	The Y has spent years helping to support and grow with this community. They create a place for all Sherwood residents (families, youth, seniors, etc.) It would be a terrible blow to the Sherwood community if the Y were no longer here.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Love 2 hours of free childcare services while I work out. Love kids rec sports. Love having lifeguard and kids swim lessons/programs/open and family swim. Love being able to have birthday parties. Look forward to being able to have my kids workout with me in a family friendly environment centered on Christian values.	Wish the childrens rec sports were increased in number of sports and ages. Consider City league sports for adults.	Support it! Other Ys such as the one in Ashland are hugely supported by the City and it just make the Y that much more amazing. With more support from the City the Y in Sherwood could be even better than it already is!	Larger pool, outdoor pool and water slide. Bigger childcare area with more interaction and bigger play area.	Selling it to a non profit that emphasizes community care as major focus. Want childrens rec sports, health and fitness education for community and health and wellness activities for elderly.	We strongly value the Y and its focus on caring for the City! The Y is so supportive of the entire community and that is really important to us. They offer a lot of financial assistance to ensure that all families in Sherwood can have opportunities for sports/health/fitness/swim. Our family does not want to have a different company come in. We want the Y to stay in Sherwood.
F	Everything. There shouldn't be any changes to the current contract.	None.	The City shouldn't have any role in running or managing the Y. The Mayor seems to have a vendetta against the "Y" simply because her son misbehaved at the Y and got kicked out as a result. This issue is nothing but the Mayor trying to get revenge. Shame on the Mayor! The consultant study was a waste of taxpayer money.	The facility is just fine as it is.	Don't sell the facility!	This meeting was a joke. A show of hands would have reflected an overwhelming vote against making any changes in the current contract.
F	I am quite pleased with the number and variety of programs offered by the Y. The Y is able to provide a range of services within their budget. Without an infusion of cash, I don't see how they could do much better.	How would new service be funded. This is dumb.	The City should sign a contract with the Y and spend staff time doing something more beneficial than this activity.	How would be this be funded. This is a joke.	If the City sold the facility, the City staff should begin looking for new jobs.	This event is pointless. I've worked in State, County and private non profit organizations. I know a waste of time when I see one. Shame on you!
F	I like all the programming. However, I wish more were able to be offered in aquatics. For instance: masters swimming program, water polo.		Lease the building to the Y. Help expand facilities for the sake of the City. Quit making this a political stalemate which affects the citizens of Sherwood in a negative manner. Shame on the City for drawing this out...

F	Everything!	Whirl pool and expand the pool.	Supporting non profit that serves the community and scholarships for the disadvantaged.	Expand the pool and put in a whirl pool.		The Y has partnered with St. Francis Catholic Church in Sherwood for the last 5 years providing showers to our shelter guests. Showers are such a big part of the severe weather shelter ministry providing renewed self dignity to our brothers and sisters living without homes. Our volunteers bus our guests over the Y every Sunday night (November to March) because our parish hall where we hold our shelter is without showers. Several positive relationships have been developed between our guests, volunteers and employees of the Y. The Y has also donated items for our guest and provided a positive spirit of service to the vulnerable in our community.
F	Swimming, aquatics, active tracks, knowlegable staff who are friendly and accomadating.	Possible extra lanes for swimming, showers for hope shelter in the evening on Sunday night as your doing now.	None.	Larger pool and extra showers.	Plan to sell property to Y. Possible 20 year contract or 30 or long term renewable lease.	The employees at the Y are very polite, friendly, helpful, knowledgable. They really do care about the success of the Y. You can feel it. Great staff.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Plenty of equipment, always available, hours of operation, amazing staff, pleasant non stress environment and very affordable.	Everything we need is already offered.	As the lessor of the facility only. Why if a pool is for swim team/water polo, etc. is a pool for this not included at the new high school? Why should a for profit organization provide this or why should a non profit provide this?	None as relates to us.	It should not be sold but continued to be run by the successful Y organization. It should remain a non profit endeavor. Selling creates suspicion of personal gain vs what is good for the community and the wishes of the Y members and users.	We are very happy with the existing program and facility. Keep the existing facility and perhaps build an adjoining building - run by the Y facilitation/lessee-only if seen as needed by members. We are not interested in another athletic facility/lessee or owner who will charge more money for memberships and provide a more corporate relationship and also family centered experience and program. Responding to the Mayor's final thoughts: a for profit gym providing Silver Sneakers is not a substitute for the current Y Silver Sneakers program. There is a spirit in the Y running this facility that isn't recreated simply by mimicking programs.
F	The question I want to answer is not on here. We can have recreation anywhere, the real question should be what does the Y bring that no other entity brings. Fellowship whole experience, mind body and soul.					
F	I like how much they do for all aspects of our community (seniors, teens, children, moms, families, the homeless) for so little money		Pleasing the community.	Larger pool with more lap lanes and bleachers and hot tub.	None. No private gym could provide for the community as much as the Y does and any other facility would cost the community more.	I have lived in many towns and belonged to many gyms. No other town or gym has provided me with the level of community I have experienced at the Y. I feel deeply rooted in this community because of what I have experienced at the Y.

F	Swim Team and teen center.	Water polo, synchronized swimming, kayak and water aerobics.		Competition pool.	No comment.	Sherwood needs another pool.
F	I love all of the group exercise classes! I attend a variety of them and on most weekdays I go to two classes a day, the maximum 2 hours of child watch allowed. Child watch has also been a Godsend, allowing me some personal time and freedom and my son absolutely loves it!	None that I can think of. I honestly don't have time for more. There is so much offered, it's great as is!	I think that thus far, the City hasn't had to do much because the Y runs itself very efficiently. I really hope it doesn't change hands and that it stays a Y!	I don't really feel that it needs expansion; it already has so much going for it. Plus, I would hate to see it close for the remodeling and expansion.	A significant drop in the current membership due to increased cost and lack of community feeling and values.	The Y has been such a boon to our family of 3 soon to be 4. I will be gravely devastated if it becomes something other than the Y. I have made so many friend there and feel a bond of commradery with the fellow classmates. I love child watch, as does my 2 year old son. The affordable cost of membership really works for my family as my husband pays off his student loans. If it changes, we will not continue to be members.
F	The Y programs are diverse and well managed for a variety of exercise and healthy events to maintain well being and involvement from pickle ball, yoga, tai chi, swimming and rock climbing.	Adding a few more lanes to the pool to accommodate more competitive programs for school teams.	The City should oversee the programs for overall safety and diversity for the memberships. Seeking "full restorative immunity" by the City is a clue to the danger of skate board facility on city owned property.	The Y is not central in Sherwood; it is peripheral. There is room to expand in more location, ie. Behind or next to the police department.	The Y manages like facilities all over the USA, they have experience and valuable input.	As a former rotary member for 10 years the idea of a skateboard parks is not in the proper location; for example, the skateboard park in Tigard is across from the Police Station. The skateboard park in West Lynn is full of garbage from attendants who are mostly not residents. A lot of pot smoking and late night partying.
F	Accommodates everyone, all ages, delivers a true sense of community. The Y cares about us!	None. I love the Y as it is.	None. Let the experts do it, let the City leave the Y alone.	Perhaps a 2nd pool.	The City has mishandled lots of other things (H2O-I'd still like to know where the money is). They need to stay away.	A for profit facility would cost us 2 to 3 times more. There would be an elimination of less profitable lines of business (see \$31,000 study). Older people and children would get cut. They won't care about us as a community, only our money.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Variety and low fees.	More swim classes in larger pool!	Support the Y. Form a partnership to grow and expand!		Another non profit.	We need a bigger facility and new pool!
F	Family oriented-youth, senior, swim, etc. 12 week programs.		Stay out of it! Let the Y stay the Y!	Larger pool and hot tub.	Why sell? Who would benefit? It will not represent the community this is non profit. We are here to help.	
F	In over 13 years of attending senior classes in Texas and San Francisco the low impact aerobics classes attended at the Y here are by far the best I have experienced in variety, quality and instructors.		Keep the Y.		Don't sell.	No.
F	Breadth of service and age levels served. Adjusts over time as requirements and request. Great staff.	Can't image I would have a need that can't be met today.	Stay out of the way-if the Y does not serve members to their satisfaction they'll leave and the Y will fail.	Pool #2 and expanded workout space.	The 9000 members and the services provided them.	Over 9000 being served by the Y. Nearly 100 programs offered in a year, 10 to 15 community events supported by the staff and volunteers, over 110 full and part time staff and about half are Sherwood residents, over 120 volunteers and over 80 are residents, approximately 950 receiving financial assistance in a year, over 800 households surveyed in a market study giving Sherwood Y a rating of excellent, 0 dollars of taxpayer funds spent on operations since it opened in 1998, over \$1.5 million spent by the Y to complete the construction of the facility including the teen center.

March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Love all the programs. I think this is great place. Its made a world of difference in my health and well being. Classes and training for developmentally disabled.	Power lifing for seniors. More Silver Fit classes.	Leave this facility to be run by the Y.	The Y has been more than accomodating with building facilities without cost to the City.	Resign because you won't be re-elected. Plus you will lose seniors money.	I'm tired of the Y being used for political purposes.
F	Silver and fit programs. Exercise equipment.		The City should get out of the business of running the Y facility.		You should resign if you want to sell the facility. The Y is great as it is. Leave it the way it is today.	The Y is great the way it is now. I'm on a fixed income and Kaiser pays for my wife and I to be members.
F	I like that the Y is cross generational, all ages and athletic abilities are honored. I think for younger family's in the community the child watch center is very important.	Need another pool. It is heavily used and the community would benefit from an additional pool.	The City should, as a partner, support the Y and all it's programs that make for amore liveable community.	A new additional pool! When I am there on Saturday morning in the pool there is a swim team practice, adult aerobics, zumba and children's swimming lessons, all in one pool.	That the new owner has comparable programs for the community: child watch, teens, silver sneakers, pool and proper maintenance of exercise equipment. It should be equal to what exists and more what is the point taking away a viable community support system.	Yes, its inconceivable to me that thye even spent time and valuable money on this question of continuing the Y. And since you did spend money on it, the City's, hence taxpayer money: listen to what they said about how great the Y is and how much the community uses it. Why put such a wonderful place which is open to all in jeopardy?
F	All of the active older adult programs. All of the variety of group exercise classes.				Please don't sell.	
F	Super! Great programs! Loving and caring staff. They are friendly and greet us as we enter. It is a happy, joyful place! We love the pool and the work out stations upstairs.	Add another pool.	Provide the building.	Another pool.	Please don't.	Keep the Y! It is the smartest money wise. You can't find a better staff.

For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	We appreciate the wide variety of classes offered. There is something for everyone! The instructors do an excellent job. It's great to see the handicapped able to attend classes to benefit them.	A larger pool to accommodate the full water aerobic classes would be a positive addition. Also independent aerobic's could be alongside lap swimmers.	Renew the contract. This Y is loved and appreciated by its community. The parking lot is always full. Please support it.	Yes to the pool and racquetball court.	This would be a sad day. I can't imagine anyone other private company being able to maintain the wide variety of classes. The cost to participate would also increase to the public.	I cannot think of one negative comment. The classes are terrific. The instructors are wonderful. The front staff is always encouraging, kind and wonderful. The cost is very accomodating. I love the place as a whole.
F	Perfect. As a senior citizen I appreciate the variety of classes available to my generation. Right now I attend an off site facility since I live in Wilsonville but the people and staff are so great. I plan to start adding more classes at the Y.		Landlord. Maybe just leave the Y alone.		Please don't.	
F	Affordable, love the programming for seniors. From Wilsonville so appreciate only traveling to Tualatin for classes. Outreach to Tualatin.		Leave the Y alone.			Great staff at Tualatin. Good variety of classes.
F	Variety of classes, friendly and helpful staff, multiple programs for seniors and kids, introductory program to get member acquainted with facility, and new programs to fit different ages in the population.		Be supportive of the Y. The cost for membership is a positive thing for seniors and families. They should encourage rather than try to find ways to get rid of the Y leadership. Encourage growth and perhaps more swimming lanes for the high school.

F	A good variety of exercise resources for me, very friendly staff, like to see students from Sherwood school, child care is wonderful-allows a lot of young families to participate.	Senior programs, some programs have meals on wheels or senior meals-good public service, there could be a link with the senior center.	Great resource for youth, coordinate other City programs with the Y. What role does the Parks Dept play? Child care-service to children in art and pay.	Another pool to separate lap swimmers from pool activities. City or school could use a pool for water polo.	How would this sale affect social well being of community? Privatization to develop exercise facility would really change focus on children, young adults and seniors. Many insurance services pay for use of Y.How would another user take this into account?	The Y is an open and welcome place for all people of many religious groups or of money. Its been a good way to meet a great variety of people.
F	Broad offerings of classes, services and equipment. Especially fond of aquatic programs and wide schedule.	Additional or different programs would be fine if current offering continued unchanged.	Renew contract with the Y! Everything positive to say about the operations of the Y!	Larger deep water pool.	Make sure the Y is able to purchase it to continue its continually habitual quality programming for the community. Consider the voice of the community.	Y staff are extraordinary. The current facility is an amazing corner store to the community. Keep the Y program there. I am unaware of any other uses of this property which the community would want. No strip mall, no condos, no park, please!
F	A very diverse mix of programs and great operation hours.	Workshops would be nice, ie. Master gardners, arts and crafts, educational lectures on history and current events.	Do not get into it! The Y does a great job. Are we talking YMCA at this meeting? Are we talking Rec. programs by the City?			
F	Love the senior programs offered. I especially love the satellite program in Tualatin and Boones Ferry Church. Always a large crowd attending. Cardio, Yoga, fitness, walking, kids basketball, swim lessons and soccer programs.	I love everything the Y does for the City. Fitness for seniors.	Support the current program! Keep the Y!	Bigger pool and racquetball courts.	Service already being offered not being cut for seniors.	

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Everything: price, steadfastness of it and you can count on it!		Let the Y be the Y as is!	Updating and larger pool and/or outside pool.	Keep the Y as is a non profit. The rates are straight perfect for the socio-economies of Sherwood. We are what we are. There are a lot of great programs. Facility needs updating and some new equipment and that's it. Keep it simple until we break over a population of 25,000 and have more businesses and taxes from them supporting the City. Do something to the facade like "a mini facelift".	The Y is the Y. Let it be the city needs to stay out.
F	All of the group classes are phenomenal and have great number in attendance. Especially the 503 cardio groove class. I've never had any problems with any staff or other members. I played almost every sport growing up through the Y and I even learned to swim there. It is also a great employment option as I know some of my friends work there. The volunteer options are great as well as the teen center for young adults.	None that I could think of. I heard multiple times that this is a personal political issue. If so, really? How selfish do you have to be to do this	None. The Y is there own non profitable operation that has been working just fine ever since I could remember. I don't understand what the City is trying to do to the Y.	A larger pool or outdoor pool would be nice, but isn't necessary. Possibly larger dance studios for larger classes.	That they have no business selling it because that's cheap. Sounds like the City would be in it for the money, which is extremely dumb and inconsiderate.	The Y provides an amazing environment for kids from as low as 1 to 2 years old all the way up to late 70s/maybe 80s. It makes no sense to sell the building to another company that would come in and get rid of the programs and environment. Say LA Fitness came they could remodel or tear down (with permission) and once they start up, I can imagine there is a good chunk of families that wouldn't be able to afford that new membership fee/service. Why would you take away an opportunity such as the Y provides for all ages?

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	I really like the Y now and it's existing programs-fitness classes. The Y is great please don't change it. I love my classes and instructors.	I feel like it works great as is. As a member my needs are met.	None. They do find and don't interfere. If it's not broken don't fix it. The City struggles to take care of the water bills and running the City.	The Y - the existing facility meets the needs of most of the members.	Don't! Why?	I have heard the decisions was made before this meeting. I feel like the members should have a vote or say. The outcome affects us. Why did we spend \$31,000 for a study and the Mayor and Council are not listening or hearing what the recommendation was made. I feel so frustrated and angry. Why did you waste that money.
F	I love the programs available for 50+ because they offer one on one, getting started, free babysitting, progress charts. The chance to meet friends, continuing education in nutrition and health. These will go away if sold. The grams meet community needs in many ways. Using medicare to help serious work out safe.	I would like to see an expanded pool or another pool as it is getting crowded. More classes in off hours.	I think politics should stay out of it. Let the community run the facility. It would be a burden to the government and the people will no longer have a say in what we need or want. What does the City know about running a physical education program anyways?	Yes another pool, racquetball and tennis courts, or whatever the members can afford for the their members.	The City should not sell the facility. It will greatly impact many seniors and low income families who use the Y extensively. I would want to know what the City would pay for it anyhow. It seems it runs well now. The City would have to tax it to grow it. The Y functions well and can continue so without a tax to Sherwood.	The Y has played a major part in my life. Helping me get back into fitness and meeting friends my own age and providing free baby sitting for grandma. I don't see the City paying for this. We have many people outside Sherwood who drive far just because of the programs provided by the Y.
F	I like the large variety of classes and the personal caring nature of all classes at the Y. The programs at the Y cater to a very wide variety of ages from babies to seniors. No other "recreational" facility is as inclusive as the Y.	I think that the tween age could use additional programs mostly 11 to 14ish. More family group X classes would be nice.	The City could be supportive of it-not run it or control it. The City of Sherwood wouldnt be what it is without the Y.	A larger pool, locker room and additional studio or two for group X are all a must have along with more childcare areas.	The City should consider what would be best for the community and consider all we serve outside Sherwood as well and sell the building to the Y - whom is inclusive and meets the needs in the broadest way possible.	I find it deplorable that the City intentionlly didn't say YMCA. The Y is the best fit for our community and values that Sherwood is known for and draws people near and far. I've been a member of many fitness/rec centers over the years and none have had the safe environment mixed with quality of staff, classes, equipment and so much more. The Y is more than a rec facility and does so much good for the community.

March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Honest family oriented. Kind loving and giving. I have over 30 years working out in gyms. Not one has these qualities as the Y. Golds gym, Ballys gym. By the way the City is run there is no way they can do it for the money. Best child program in any gym.	Racquetball, larger weight area and studio space.	Sell it to the Y.	Racquetball and larger area for machines.	Sell to the Y. No one can run it like the Y. Is not about hip cool crap. It's about family community not some corporate gym.	Fact is no City can run it for what a private company like the Y can. They raise money by people who love their community. No corporate company can run it for the money the Y runs it for. We are members of the Y for 16 years and love it. Sell it to them and get out of the recreational mindthrought. Its a waste of tax money.
F	Wide ranges of activities, volunteer and paid help. I appreciate: personal fitness facilities, fitness/health counseling, varieties of yogo, senior activities and teen activities.	More yoga, walking/running group training and activities.			Service to citizens and to other Y members and cost to the members.	The Y currently feels like a community center for a wider community and this seem like an added benefit to Sherwood and surrounding areas.
F	The variety of physical and information classes. Good programs for seniors.	More Tai Chi for balance and form.	Should the City be involved? The Y works well now.	Second swimming lap pool, sauna, hot tub.	Why would this be done? It works well now. Who benefits by changing ownership/direction.	Enjoy the friendly welcoming family atmosphere of the Y. I love that children and seniors are welcome. It feels like a community center.
F	One of the best parts of "the Y" is reciprocity with other locations. If you travel, you are a member of any YMCA. This includes "the Hoop" in Beaverton or a Y in New York City. The City of Sherwood or private operator would never offer this!	More opportunity for teen and youth sport, ie. Basketball, ping pong, etc. More evening classes. More evening open pool time.	Own the land or building - It would cost way too much for the City to start up and run this facility today. All the Y's equipment would get moved out and the City couldn't afford to replace it? These tables are terrible to write on.	Another pool, tennic courts, more basketball courts, outdoor courts and a skate park open to all.	The facility is part of what has made Sherwood a "livable City". It was built as a rec facility for the citizens of Sherwood and must stay that way - not become more government.	The "big issue" the City has with the YMCA is the Mayor's personal vendetta against the Y and the "yes girls" on Council these last two years wo willing to do what she wants. Walt Hitchcock and Council at that time knew what they were doing and what a bargain the City got by having the YMCA run the facility. Too many members of current Council have no clue what's going on.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	The many classes offered, the many offerings for children, the expertise of instructors in fitness classes, the social setting for some seniors, summer activities for children and senior activities (Silver Sneakers and Silver and Fit).	Additional classes and activities for children and larger pool.	The City's role should be in assisting in the health and welfare of the community which is the goal of the Y.	Larger pool, more space for group activities.		I strongly encourage the continuation of the lease for the Y! This is taxpayer money used to the best advantage! Taxpayer money built the facility! The Y is part of the fabric of our community. Politics and money shouldn't have been a factor.
F						We need classes for senior exercise, warm pool, better equipment, programs for special needs children and adults.
F	I work out on my own and don't really utilize any programs. However, I do appreciate that my insurance-paid Silver Sneakers is accepted so I can use the facility for free.	Yoga, meditation, stretching programs during late afternoon or evening for working adults. Programs seem geared to elders or young families.	Ideally the City would operate parks and rec programs and facility that would encompass specialty parks, pools, gymnasium, etc. Practically it seem impossible to finance such a possibility. Outside interest would likely need a profit based operation and we would both gain and lose.	It is a non-welcoming, old minimally functioning facility. It should be thoroughly replaced with a modern building. Its only advantage is that it is here in Sherwood!	Other locations that could be available for a new facility, economic impacts on the community, what funds other than facility sales could be available, how to finance building and then maintenance and operation, and what to include in a planned new facility.	The Y does a good job in a limiting environment and offers a great deal of community support. It is to be commended for that. Could it be better? Yes. Should we negotiate a new contract and stick with the Y? A strong possibility.
F	It's very good for children and seniors. Definitely keep "Silver Sneakers" program for seniors.	Have more evening classes.	Sell the current building. It is outdated and inadequate. Bring in an outside operation like LA fitness or build a new, state of the art rec center that anticipates a Sherwood with 40,000 people.	Larger pool with several swim lanes. 2 to 3 racquetball courts. Main gym equipment space should be on the main floor. Current building is unwelcoming, old and needs to be replaced.		Don't make it all about the children. Most gyms for are adults only-perhaps have a separate wing for children (12 and under) activities. Have lost of am and evening cardio classes. If you build a new building, don't scimp. Do it right and do it first class and people will come.
F	Most comprehensive older adult program anywhere accessible in one facility (at least 15 mile radius).	Continue older adult program.	As it is - allow Y to continue to administer it and keep older adult programs.	Additional exercise rooms to accommodate growing older adult programs.	That there are no older adult programs that include warm water aerobic, strength and flexibility and balance training.	Allow Y to stay as it is.

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Large variety of fitness classes for all ages, free 2 hours of fantastic child care for members, inclusive environment within every new class I have walked into (not a feel of "you're not welcome" as I've had at previous gyms).	Better advertising for young children programming (3-7)	Landlord. In charge of building maintenance and safety issues that arise.	Larger family changing room area, larger pool outside (the plan the Y had years ago was great!).	Offering to Y first.	It would be a huge blow to our family should the Y no longer be a part of our lives. As a stay home mom of 3 young girls, I can honestly say my ability to go to the Y, drop off my girls, and have the environment available for me to put myself first and exercise/socialize be a part of a community where I feel loved and love being. I would be not in a healthy state, physically or emotionally. (Sorry for the run-on sentence, hoping my passion is pouring out as I'd hoped it would speaking).
F	The wide variety offered. It's great for "Silver Sneakers" and we frequently use for our grand children.	It seem to hit pretty well now and the Y seem to really adapt well to demand.	Maintenance of outside facilities.	I don't feel any one facility can even try to fill all athletic needs.	Don't do it! We are so lucky to have the facility being run by such a great organization as the Y.	If something isn't broken why make such a fuss to fix it! I certainly hope that all this commotion is not a part of some politico's temper tantrum, as a common rumor seem to say. I would also like to see the feasibility study made public.
F	Number of programs for seniors and knowledge of trainers.	More programs for seniors and teens. Add classes.	Select qualified operator. Monitor operation.	Rooms for work out classes. More pace for teen center	Use of facility by new owner. Price paid. Experience of new owner in operating a health facility.	
F	A skate board park would be a liability and ultimately a disaster to be removed.	Nutritional programs for seniors.	Oversee. Professional YMCA managers.	Few more swim lanes.	Only YMCA managers.	9000 members and growing.

F	Variety of programs for all ages-toddler to senior citizen. Pleasant and well trained staff. Y meets the need of wide range-handicapped, toddler, youth, adult, senior "Silver Sneakers. Pool.	Expansion of beginning level programs to higher levels being able to adopt programs to develop as the need arises.	Supportive! Thankful for the programs and facility that we know. See the value to our citizens - physical, emotional and social.	Survey the community to determine what is needed.	How the loss of such a facility affects the citizens of Sherwood.	Does the City Council plan to include citizen input in a more structured format before reaching a decision.
F						<p>The Y is not about programming. It's about community and family. None of these questions asked how we feel about the YMCA. Y is family and community. I am very disappointed we are not being given a chance to speak about how the Y has affected us as community members. We chose to move to Sherwood primarily due to the Y. We left one at our last town and were delight to have one right here in Sherwood in 2002. Once we saw the Y we stopped looking elsewhere. My kids learned to swim at the Y. They took karate, rock climbing, summer camps, little kids soccer camps, teen fitness classes, teen center and now my eldest takes yoga with her dad and I. We feel safe and welcome here. They attended teen groups at the Y. Will a fitness chain offer all this? I have made life long friends at the Y, maintained friendships with workout buddies and made relations with my caring Y teachers. The Y represent Christian values. I am not a Christian but the values are positive traits we should all strive for. Will the homess be able to shower at a chain fitness club? What about summer camps and youth sports teams? I am so disappointed we were not offered a town hall format as advertised. Please maintain the contract with the Y. The Y is community and family!</p>

F					Maintina the site for recreation. Do not allow rezoning for commercial or residential use.	
F	I like everything about the Y. Don't change it because of your personal agenda.		The City should continue to partner with the Y.		Don't commercialize Sherwood and sell to a private, for profit, rec center.	I am very frustrated with the waste of time, money and resources spent on the Mayor's personal agenda. You should all be ashamed of yourselves and I hope that the voters make sure no one that supports privatization of the Y gets re-elected.
F	Programs for seniors.		I think the City should keep the Y and just renegotiate the contract with the Y.	Larger pool.	I don't think the City should sell it. If its sold, it should be maintained as a recreational facility and it should be non profit.	Why does the City even consider selling the Y.
F	Subsidized membership for low income people, free childcare, free exercise classes with membership, free movement classes for children, yoga, water aerobics classes, loving teachers, a lobby where you can sit and have a cup of coffee with friends, classes and support programs for special ed people, pre-natal and post-natal water aerobics, new moms groups, subsidized membership for seniors, food drives for foster kids and fostering community.

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	<p>The Y is very supportive of the community. When my husband lost his job, the Y gave us subsidized membership. That kept us physically and mentally healthy in a very stressful time. We don't qualify for subsidized preschool and don't make enough to pay for preschool. My boys (2 and 5) spend 6 hours a week in child watch. This is their main experience with a classroom setting. Through child watch, they are learning important lessons such as how to listen to adults, go to the bathroom by themselves. The Y is helping to prepare them for school.</p>					<p>This is not about a recreational facility. This is about community. The Y supports us in many more ways than just fitness. The Y is a hub for the community. There are cheaper gyms in Sherwood I could join, but none that provide the community support of the Y.</p>
F	<p>They serve our community with community in mind. Never a profit in mind.</p>	<p>The programs at the Y are never set in concrete. The programs (and classes) that are poorly attended are cancelled. The programs and classes that are well attended survive. New ones pop up to see if there is interest.</p>	<p>The same as now: No participations.</p>	<p>Good as is.</p>	<p>What will the City do with the money? Will taxes be increased when the new company comes in?</p>	<p>The Y is more than a gym. It is a community center, employing special needs people, giving scholarships for those who are not in a position to pay the very low Y rates. I would like to know why anyone would want to sell the facility to any other than the Y. It works well! We love the Y!</p>
F	<p>Variety of programs such as health and fitness, teen activities, sponsorship of low income individuals and senior offerings.</p>	<p>Perhaps a few senior offerings for seniors who are still employed.</p>	<p>City could not take over the Y. It is fine just as it is. Money and politics should not be mixed with the Y.</p>	<p>Larger pool and more space for exercise equipment and room for more classrooms.</p>	<p>Y should not be sold. Needs to stay a commercial facility.</p>	<p>It is not cost effective to see or take over the Y. The elected officials need to actually listen to and follow through with the wishes of the citizens. Do a better job than was done on the dog park.</p>

March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	The Y offers Silver and Fit and Silver Sneakers which offer classes, medical fitness, socialization. Other management companies may not offer these or lifeguards for the pool! We want the Y to stay the Y.	If it isn't broke don't fix it.	Making sure citizens have a fitness center that allows senior programs and insurance backing.	Outdoor sport court with basketball hoop.	If we lose Silver and Fit and Silver Sneakers we will not continue our membership and you will lose the senior population.	
F	Offers variety of programs for different groups. Facility offers good offering for quality variety.	Greater use of outdoor space for camps and maybe a basketball court outside.	Be wise enough to provide a good facility and let experts run the place. Don't try to run it yourself.	Outdoor sport court would be nice for basketball when the indoor court is in use or for nice weather events.	Why sell it - if it's not broke don't try to fix it.	
F	I like the variety of programs offered and specifically those geared for the seniors. Its great that most programs are included in the membership fee.	I am satisfied with the programs that are available. I love the zumba gold and Mary Weber. It is geared for seniors. The Y is the most important part of the recreational facilities in Sherwood.	I don't see why the City needs to be involved with this facility at all. We can come and go as is convenient. The atmosphere is like family-very personal and friendly. It's a home town facility that needs to stay just as it is.	I think the pool facility is fine. Good that it is open for exercise classes.	All employees should be considered and offered further employment. They are a big positive part. The doors should be open to members as conveniently as they are now.	Our community needs a facility where our children are welcome and safe. I believe you are going to lose members over this. We have enough other fitness businesses in town. The Y is the one that is most family oriented. Why don't you tell us what the plan is? At this point we aren't sure.
F	There is a variety of programs for older adults - the classes are professionally conducted. The instructor are friendly and helpful. I never feel awkward or out of place - even though I am 70 and new to exercise. I love the Y. If I had to go to a for profit club I would not go.	The Y needs more room. You have outgrown the facility and exercise classes are overcrowded in the summer especially. The pool is too small for all of the activities - Silver Sneakers pool classes are awkward at times.	It definitely should not be involved in running the day to day operations. The Y does an excellent job. Own the building if you want otherwise stay out of it.	A larger pool, separate lap pool, separate childrens area with water slide, hot tub, sauna and more showers.	Selling it to something like LA fitness or 24 Hour fitness would ruin everything good about the Y. I am 70 and I don't want to be at a facility geared at 40 and 50 year olds. This is a place to exercise and make friends. Don't screw that up!	If you can't make it better leave it alone. If you can't make it bigger leave it alone. If you want to sell it to anyone other than the Y, don't. If you think government can run a health club, I disagree. If its not broke don't fix it.

March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	I like the range of activities offered and the dedication of the Y personnel.	More fitness programs at more times during the day.	Should not manage the facility but use an organization with proven track record. The Y!	Larger pool and a pool for lap swimming.	Why sell something that is working well? Does the building need capital improvements? Is the building too old? What is the rationale for selling?	Look at the people here. This is an important topic for the City. It should be on the main priorities.
F	It is free with my healthcare through Kaiser. The warm water senior exercise, fitness machines, children's classes, senior discounted memberships, classes for seniors. Programs are available to adult and kids that are mentally handicapped.	Continuation of current programs, senior warm water exercise, fitness machines and exercise classes for seniors, Silver Sneakers.	Keep it as it is - this costs the City nothing but offers to seniors programs that could not be replace if another for profit organization took over. If a for profit took over and did not make a profit they would leave and we the seniors would be left without low cost exercise options and the community "family" the Y offers Sherwood seniors.	Let the current classes be expanded. The Y offers seniors programs that are not available anywhere else in Sherwood - if you get rid of the Y you will be eliminating affordable health opportunities for seniors.	They should change their mind! Seniors would lose big time. Silver Sneakers programs at night.	You could not have chosen a poorer way of getting our voices heard! People are crowded around the questions monopolizing the committee people making it impossible to hear or be heard! You need a moderator and single question at a time so all could hear and then speak when recognized. Did you set this up this way so you would not hear our concerns? To us it is the Y, to you it is the recreational facility. The Y supplies us seniors with our recreational needs!
F	I like that the Y is the current operator of the programming.	Y bus to go out into apartment complexes and teach lessons. Second pool. Additional sport courts.	Expand facility and rent to YMCA.	Second pool, expand fitness floor and senior options.	How do you know if will stay a rec facility!	Keep the Y!
F			A skate board park would be a liability and a financial disaster at the YMCA.			

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	My wife, who has physical issues, and I have a place to workout without any pressure to "keep up with the Jones" mentality. Also, my wife has a water exercise class that she attends. We also participate in the Y's 12 week exercise class. They have a Tai Chi class - better balance - that my wife can attend to gain her balance.	More fitness programs for seniors.	Be supportive of the Y and their programs along with their membership. Footprint in the community.	Larger pool, racquetball courts and hot tub.	Loss of senior programs along with programs geared to the children and teen, increase of crime, rate increase that would price current members out of the market, and loss of scholarships the Y provides.	
F	Affordable prices for the extensive programming. Great instructors, well informed by Y standards. More classes than I could possibly attend. I have a bad back and Y instructors have guided me into classes that would relieve my pain. Keep Silver Sneakers.	Larger swim pool so several classes or activities can happen at the same time. Otherwise I'm satisfied with the rest.	Be a good landlord to the Y. Don't try to replace a tried and true exercise expert non profit. The City does not have the expertise. Also, the City cannot operate at the lower price the Y can.	New 6 lane competition pool, hydrotherapy pool, 1 or 2 lanes reserved for slower seniors in existing swim lanes.	Give the Y first chance to buy. City mothers and fathers should stick to politics and let the Y do exercise expertise. Citizens need to vote on selling the facility.	I have heard the City would have to raise prices. I'm a senior of fixed income and those higher prices would exclude me. I need to exercise 5 days a week. We miss Renee Brouse as the local Y manager. Please hire her back. We don't want a company from Florida to buy the facility. I am so afraid of what the City will do.
F					It feels like there is more here than just recreational use. The Y is supposed to be a community use for all things.	Sherwood needs the Y for the recreational use of the families of Sherwood. Nothing else is geared for families - teen center is so very important!

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Like the childcare programs offered through the Y. It's one of the kind where it has 3 rooms for children to be watch as well as the playground. Like the benefits of military/veteran receive.	Would like a weight lifting class.	The City's role is to partner with the third party vender is to ensure the community building.	Women's work out area, racquetball court, update the weight lifting room.	Consider the community out-reach programs. Consider the benefits that the military/veteran receive. Consider the child programs that the Y offers. Consider how outside communities would be impacted.	Better communicate the plans for the "recreational program"! While we must consider other proposals, we must keep in mind the community that was built around the Y programs. Several cities around Sherwood would be impacted. Ultimately I feel as the public should be kept informed and be able to have several opportunities to voice our opinion.
F	It's a non profit that is more than a recreational facility. Free child watch, programs for seniors, care for the homelss, teen center. It's a community hub in a way no for profit would or could be. Plus, 1000 local families get financial aid.	Renegotiate the contract. Let them figure out programming.	Sit down and negotiate a new contract. Get it done or get out of the way.	Larger pool.	It shouldn't consider it. This is a gym for the community. Put politics aside and get a new deal.	A new contract negotiation should have started years ago. You dropped the ball City Council. Get it done now.
F	Adult, non profit, staff, fitness.	Keep what we have with the Y. Water polo team, hot tubs, sauna, Silver Sneakers, Silver Fit, meditation room, Tai Chi.	City Council and City should not manager a recreational center. Take care of facility.	Larger pool, lap pool, pickle ball, separate adult pool, bleachers, coffee shop.		

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Everything! Group exercise classes: yoga, muscle conditioning. Kids programs are inexpensive at the Y. I can afford all my kids to participate in a sport. The swimming lessons also. They listen to the community and add classes/programs accordingly. The child watch program is great!	Additional programs can be decided at anytime. The Y has done a great job adding classes/programs as they are requested. You are not considering our community when you talk about the number of jobs that will be lost!	The City should help maintain the facility and make sure it is meeting the needs of the community. Otherwise the majority of the input should be from the members of the facility. I love the donations that the Y gives back to the community in both money and programs.	A larger pool would be nice, especially adding an outdoor portion. Larger area for the children.	The voice of the voters in the community should be considered! It has been clear all along the community doesn't want the facility sold.	The Y has done a great job maintaining the facility, even covering the cost of fixing the building. The City has ignored issues that the Y has taken it upon themselves to fix. They have shown over and over that not only are they a great organization but that they are part of the community! The Y has proven they love being in Sherwood as much as we love having them here.
F	This question should have been worded differently. Saying "programming" feels like a forced way of asking this. The values and community of the Y organization. The sense of inclusion across ages, abilities, ethnicities. Small children and seniors are there everyday. The Y knows how to run a facility like this. Another type of gym will not have the same sense of inclusion. Silver Sneakers, dance fitness, instructors that care and are part of our community. Other "gyms" feel like they just want your money. People at the desk know my name.	Supplement what we have. Running and walking groups. Coffee shop.	Don't change - sign another contract with the Y or if they can afford it, let the Y buy and run the building. If not, support it as an awesome community resource. How much impact does community opinion make?	Right now it has everything I need.	My first thought is don't sell. They should consider the fact that we might end up with a cold "membership interest only" gym like 24 hour fitness. We don't need this. We need our community Y. They should only sell to the Y. If they aren's able to buy it, there should be another contract between the City and the Y.	Yes, I am frustrated that we are at this point, have spent City money and time on something that started as a personal beef of our current Mayor. I also feel like these question were written in such a way as to take away from the Y. This Y is so much more than a gym! It is a place of community where all are welcome, no one is turned away, and even those less fortunate can get help. This is our community center and selling the building to be a gym would lessen the quality of life in Sherwood.
F	The dance classes are the best anywhere. My husband and I come to the Y 5 to 6 days a week for dance, senior activities, yogo and pilates. No for profit gym comes anywhere near.	Expand the dance offering to every day of the week.				

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	Diversity of programming for children, teens, adult, seniors and special needs. The value for cost is like nothing else in the area. Price per family for a huge schedule of group exercise, swim, weights, etc. in unparalleled. And truly if you've been involved at the Y in almost any fashion you know this is about so much more than programming! This is about community and what has been built at the Y.	I would like to see more flexibility with the City for the Y to make decisions on things like fundraisers, use of facility. This question about "different programming" is frankly what looks like a very veiled attempt to get people thinking in "your" terms away from the Y and towards a "rec facility". It feels like you think the citizens are not bright enough to see that the Mayor has a political agenda and does not think the citizens should have a voice.	The City should have no role or keep it as is. I have no interest in the City taking over and running programming. It is never better to have government run and control facilities such as this, especially when the Y has proven to do such a successful job.	Larger group exercise studios. We often reach capacity in group exercise for many classes which is frustrating for new people coming in. Stage for instructors. Café, skate park, larger pool if the citizens vote on a bond.	The only considerations should be selling to the Y or renewing the contract with the Y. The study revealed what made the most sense. Thanks for spending my tax dollars on that, now listen to it.	The Y is more than a "recreational facility". You make people feel unheard and unvalued when you fail to hear us say that the community at the Y is like no other! The City, 24 hour fitness, LA fitness, Boys and Girls Club will not be able to replicate what has been built. The study was pretty crystal clear!
F	Dance fitness in evening. Low gym fees.	Dance fitness on Saturday afternoon and Thursday afternoon. Hot birkrems yoga.	The City should not be involved. Keep it run by the Y.	Jacuzzi spa and steam room.		Keep it YMCA run. Do not raise taxes.
F	The programming serves the youth, seniors and transitioning students with special needs as well as adults. The variety of classes and activities serve all.	Tennis.	It should support the level of community involvement that is currently exhibited. A for profit organization won't support this community!	Larger studio rooms, tennis courts, skate board park, coffee shop, stage for dance fitness and mirrors.	The new owners role in the community. Any new owner if any, needs to continue serving the entire community: youth, adults seniors and special needs.	This community needs this center to operate as is! Although the building, equipment could use some work, but the spirit of the facility must remain!
F	Silver Sneakers, yoga and zumba. Love it!	Larger pool-more hours open for public swimming.	Same as it is now.	Larger pool.	Should not try to run the facility.	

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F	I love the dance fitness instructors and classes. Also the free child care and military/veteran discounts. The classes build a community with people of every size and age Love it!	If possible more dance fitness (503, Barre and U Jam). A teen class would be fun. Also a teen running group. It's more than programming it a community.	The Y is awesome. It is an affordable, fun place to grow community and make friends. Please keep it the same.	Lots of people I know including me would enjoy a hot tub. So many people would be thrilled to have a just dance fitness room with a stage and party lights.	The City should consider the families who can't afford other gyms and families who have made so many friends from what the Y has done. Also the families who could not afford to pay extra taxes. If it is sold it should remain a YMCA.	The Y has inspired me to work out with friends while having a great time. The dance fitness instructors have grown a varied community from 14 year olds to grandmas. They have become a family through dance. If you can come up with a dance fitness class with awesome instructors and a huge class filled with people of all ages and sizes, let me know.
F	Caring instructors, all ages are included, the diversity of programming is amazing. There is truly something for everyone. There are classes ranging from yoga to dance fitness to cycle to water fitness. If classes aren't your thing then there is fitness equipment. I like the fact that the programming is at an affordable cost-classes are free and special programming is very reasonable for families. If families are not able to pay financial assistance is available. The teen center programs help many kids also.	Definitely keep all programming and if something needs to be added then those classes can be in addition to the programming that is there. What I like about the Y is that they are so open to trying new things. All it takes is interest from members and they will add new programs. I love how numerous training at their facility so that new programs can be offered. Learning and growing is so important and I really appreciate the fact that the Y accomplishes that.	The City should have as small a role as possible. My husband lived in a town where the Y became City owned. Membership plummeted because dues went up so much. Programs were not because the City couldn't afford to run them - staff was cut drastically because the City couldn't afford to keep them. And taxes went up drastically. Please keep the City out!	More studios for classes and dance studios with mirrors for dance as well as being able to use those studios for strength/circuit/AOA classes. I am not a water person, but many people other than myself would love more lap lanes. Also more basketball courts and a racquetball court would be appreciated. Some want outdoor pool.	We would need a company to run the facility that embodies the values of the Y. If the City sells without taking this into consideration that would be very irresponsible. To leave out a group for any reason in the process of new ownership would be political suicide for Councilors.	Thank you for having this! The table are hard to write on so please contact me if something needs clarification. What is lacking here is a question about what makes the Y special. The answer to that is the community that has been established and cultivated there. The people care about each other and help and support each other. The Y has been life changing for many people!
F	I love the variety of classes that are offered. I love that there are dance classes with amazing instructors offered throughout the day/week. The instructors truly care about you and the environment is all inclusive; it feels like a family.	Using the trail as a part of the facility, more mommy and me classes for a variety of ages.		Basketball courts, larger dance studios.	It would be important to consider the amenities that are offered, the atmosphere and the impact on those who live near the facility.	We need more than just a plug and play facility, like 24 hour or Orange Theory. We need a place that feel like community and connects people with a sense of belonging while they work to better themselves.

For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
F			It should be run by an outside organization. Put it out to bid.			It should be paid for those who use it not taxpayers.
F	In general the Y does a great job, very good senior health classes.	Continue the Y programs. Its always possible to add additional classes for kids to promote active life styles.	Help in basic care of the facilities. Continue positive promotion of active life styles for all ages.			Since it has been such a positive member of the community continue the involvement of the Y.
B	Healthy Kids Day = 2	Various adult team sports	Can City provide the same values	Pool(s). Outdoor pool deck. Real lap pool-swim meets = 9	Would City staff work at new facility. City staff should not work at new facility.	
B	Birthday parties	Adult soccer league = 2	If it ain't broke why try to fix it? = 9	2nd pool separate and cooler = 3	Does selling the building benefit the community?	
B	Santa, Easter Bunny, 4th July Parade = 2	Rock climbing for seniors = 2	None = 4	Covered/can be moved. Enough lanes so both can swim at same time	What other company could take over services for so little.	
B	Yoga = 11	More youth sports programs (7-14) = 3	You'll destroy a perfectly run institution = 8	Increase deck space = 3	Wouldn't consider it.	
B	Athletic classes for adults = 4	More weekend programming for families = 2	Is it a political issue? If yes, let's discuss that = 4	Salt water pool = 4	Confused	
B	Pilates = 7	6:00 am or 6:30 Barre	Sign a contract with the YMCA = 32	Olympic size pool with starting blocks = 9	Who's bidding? = 2	
B	Diversity of programs (seniors) = 3	Les Mills class	None (no City involvement) No changes = 22	Deep enough pool for diving	Is there something else out there	
B	Entire active adult program = 24	Current classes a bit unprofessional	Support the YMCA = 27	Bleacher for pool = 4	If it ain't broke don't fix it = 2	
B	Better than any place in the area = 1	More varied than just dance fitness classes = 2	Maintenance (City should help)	Separate entrance for pool = 3	Community programs? = 2	
B	Swim team and swim lessons = 18	More Tai Chi = 3	Facility a vote of community members before management changes are made = 8	Separate changing facilities for pool	Swim teams? = 3

B	Silver Sneakers = 15	More party room (rentals)		VIPR	How will the cost stay low if sold with equal and better services	
B	Free to Kaiser member/Medicare = 6	More dance classes = 3		Fencing room	Would Sherwood still get good services?	
B	Running Club = 1	More child watch open hours including late hours = 5		Amatuer HAM radio	Where does the money come from if expanded?	
B	Fellowship = 4	Adult masters swimming program = 3		School district and City to put money to fund pool	If sold would it stay a rec facility = 4	
B	Volunteer programs for teens = 3	Gymnastics = 2			It's more than a rec facility, it's a community center = 2	
B	Innovation with offering new classes = 2	Amatuer radio class			Will there still be military discounts? Child care?	

**Sherwood Town Hall Meeting
March 14, 2017-Public Comments**

Forms (F) or Board Notes (BN).	What do you like about the current programming offered?	What additional or different programs would you like to see?	What should the City's role be in relation to a recreational facility?	If the existing recreational facility were to be expanded, what should be included? For example, larger pool, racquetball court, etc?	If the City were to consider selling the facility, what factors should be considered?	Are there any additional comments you would like to share?
B	Youth gymnastics = 1	Homeless hygiene program (more than showers)			Child care after school is heavily relied upon	
B	Programs that don't compete with local businesses = 1	Self defense classes for seniors and others = 2			Community programs offsite that the Y provides	
B	Post/prenatal water aerobics = 1	Photography class			Homeless services after hours = 2	
B	People treat you right. Staff competency = 3	Judo classes			Special needs programs/Chaplain services	
B	Affordable to those outside Sherwood = 2	Meditation/mindful relaxation for wellness (meditation rooms)= 2			Great place for kids	
B	Military and veterans discount = 9	Keep Silver Sneakers insurance reimbursement program = 6			Affordable	
B	Great instructor = 9	Keep Silver and Fit			Bang for your buck	
B	Free training/ wellness program = 4	Keep instructors for the senior classes			YMCA is better than local gyms	
B	Nonprofit aspect = 14	More evening classes			At Y insurance pays membership for some	
B	Financial aid = 10	Keep senior swim classes			NFS	
B	Free teen center = 16	Adult rugby league			Who is the City?	
B	Help for the homeless = 15	Sauna (men's and women's) = 5			Don't sell to a big gym = 5	
B	Babysitting classes and lifeguard training = 5	More support - adults learning to swim = 2			If it is sold to a big gym services will be lost, kids programs	
B	Free child watch and fun club = 22	Partnership with medical community			Community care and free child watch
