

Middle East Clean Tech

Trade Mission

Saudi Arabia, UAE, Israel

Join the U.S. Commercial Service for an Executive-Led trade mission promoting U.S. Clean Tech goods and services in the Middle East from **March 12 –17, 2023.**

The United States Department of Commerce, International Trade Administration (ITA), is leading an Executive-Led Clean Tech Business Development Mission to Saudi Arabia, the UAE, and Israel, with an optional stop in Qatar, in March 2023.

Participating firms will gain market insights, make industry contacts, solidify business strategies, and advance their own specific projects, all with the goal of increasing U.S. Clean Tech goods and service exports to the region.

This mission will include customized one-on-one business appointments with pre-screened potential buyers, agents, distributors, and joint venture partners. It will also allow for meetings with industry leaders as well as government officials, along with other networking events.

U.S. companies will:

- Gain market insights
- Make industry contacts
- Meet with government agencies
- Solidify business strategies
- Advance specific projects
- Identify potential partners and buyers

Attend customized business-to-business matchmaking appointments in the Middle East with pre-screened potential buyers, agents, distributors, and partners!
