Re: Final Question & Answer Log

Final Question & Answer Log

1. Can you provide the planholders list for this project?
 - a. You can find the planholder's list, as well as the pre-bid meeting sign-in sheet, on the bid web page here: <https://www.sherwoodoregon.gov/engineering/page/invitation-bid-cedar-creek-greenway-fence-improvements>.
2. Can alternate products be proposed that bidders believe to be equivalent or equal for the intended purpose?
 - a. Yes, and the following additional product has been pre-approved as an alternate product:
 - i. Dura-Crete S-Series (Heavy Duty Sound Walls): <https://dura-crete.net/sound-walls-2/>
 - ii. Dura-Crete Dry Cast S-Series (Aesthetic Screen Walls): <https://dura-crete.net/aesthetic-screen-walls-2/>
3. Can the wall heights and section widths between posts vary between 7' to 8' or do they have to be exactly 7' or 8' tall?
 - a. All dimensions may vary slightly depending upon the chosen product as long as the highest wall section doesn't exceed 8' above finished grade at the midpoint of each section. For example, a small portion of one section might be 6" below 7' height while another portion may be 8" over 7' and there may even be short sections a few inches over the 8' maximum height.
 - b. The goal is to provide the contractor with some flexibility to meet the intent of the project, while spanning root systems and underground utilities encountered along the way.
4. Is this intended to be a true Heavy Duty Sound Wall or an Aesthetic Screen Wall?
 - a. This is intended to be an "Aesthetic Screen Wall" with some inherent sound screening qualities.
 - b. There is NO sound dampening requirement or specification to meet, for example, submittals will not be checked against a minimum Sound Transmission Coefficient Rating,

although the goal is to have a product that also buffers sound at least to a 25-30 sound coefficient rating, although there will be no field testing performed to confirm the actual sound dampening of the actual wall installed (e.g. sound dampening characteristics will be inherent to the aesthetic wall product as-proposed).

5. Must the wall posts be set in concrete or can they be directly driven into the ground using a pneumatic H-pile hammer machine or similar pneumatic-pile hammering machine?
 - a. As long as the installation method meets the manufacturers recommendations, the contractor can use whatever methods they'd like including excavation & concrete encasement or pile-driving methods.
6. If the contractor proposes to use a pneumatic H-pile machine, will there be any formal field testing required, for example to confirm deflection or pull-out strength, and if yes, who will pay for this field testing?
 - a. No formal field testing would be required. The City will work with the engineer-of-record (AKS) to provide a field representative well versed in the local soils, likely a licensed geotechnical engineer, who will work directly with the contractor to determine when the piles have been driven to a sufficient depth.
 - b. The fence is not considered a permanent sound wall and is considered an "aesthetic" fence by the state highway, similar to a cedar fence or the previous 6' paneled aesthetic fence that was removed by the federally funded Cedar Creek Trail project in 2021
7. What is the intent of this project?
 - a. To replace the previously existing 6' tall pre-molded fence and landscaping that was impacted by the recent regional trail project with a similar, newer, taller and more substantially looking aesthetic fence w/ higher residual Sound Transmission Coefficient Rating than the previous fence, along with more substantial native landscaping along the new trail corridor.
8. When does the project need to be substantially complete?
 - a. June 30th, 2024 is the desired completion date and dependent upon the availability of the pre-cast/pre-molded products and delivery date, which can be negotiated with the low-bidder.
 - b. Intent is to have the majority of billable work completed by June 30th, 2024 to align w/ the end of the City budget cycle from July 1st to June 30th of each year.

 - (2) Pay all contributions or amounts due the Industrial Accident Fund from the Contractor or subcontractor incurred in the performance of this Contract.
 - (3) Not permit any lien or claim to be filed or prosecuted against the state or a county, school district, municipality, municipal corporation or subdivision thereof, on account of any labor or material furnished.
 - (4) Pay to the Department of Revenue all sums withheld from employees under ORS 316.167.
 - (5) Demonstrate that an employee drug testing program is in place.
- (b) As provided by ORS 279C.530, Contractor shall promptly, as due, make payment to any person, copartnership, association, or corporation furnishing medical, surgical, and hospital care services or other needed care and attention, incident to sickness or injury, to the employees of Contractor, of all sums that Contractor agrees to pay for the services and all moneys and sums that Contractor collected or deducted from the wages of employees under any law, contract, or agreement for the purpose of providing or paying for the services. It is a condition of this Contract that all employers working under this Contract are either subject employers that will comply with ORS 656.017 or employers that are exempt under ORS 656.126.
- (c) As provided by ORS 279A.110, Contractor may not discriminate against a subcontractor in the awarding of a subcontract because the subcontractor is a minority, women, or an emerging small business enterprise certified under ORS 200.055 or a business enterprise that is owned or controlled by or that employs a disabled veteran, as defined in ORS 408.225. If Contractor violates this subsection, City may regard the violation as a breach of contract that permits the City to: (1) terminate this Contract; or (2) exercise any remedies for breach of contract that are reserved in this Contract.
- (d) As provided by ORS 279C.520:
 - i. A person may not be employed for more than ten (10) hours in any one day, or forty (40) hours in any one week, except in cases of necessity, emergency, or when the public policy absolutely requires it, and in such cases, except in cases of contracts for personal services designated under ORS 279C.100, the employee shall be paid at least time and a half pay:
 - (1) For all overtime in excess of eight (8) hours in any one day or forty (40) hours in any one week when the work week is five (5) consecutive days, Monday through Friday; or
 - (2) For all overtime in excess of ten (10) hours in any one day or forty (40) hours in any one week when the work week is four (4) consecutive days, Monday through Friday; and
 - (3) For all work performed on Saturday and on any legal holiday specified in ORS 279C.540.
 - ii. Contractor must give notice in writing to employees who work on this Contract, either at the time of hire or before commencement of work on this Contract, or by posting a notice in a location frequented by employees, of the number of hours per day and days per week that the employees may be required to work.
 - iii. Contractor must comply with ORS 652.220 and shall not unlawfully discriminate against any of Contractor's employees in the payment of wages or other compensation for work of comparable character on the basis of an employee's membership in a protected class. Contractor's compliance

with this section constitutes a material element of this Contract and a failure to comply constitutes a breach that entitles City to terminate this Contract for cause.

- iv. Contractor may not prohibit any of Contractor's employees from discussing the employee's rate of wage, salary, benefits, or other compensation with another employee or another person. Contractor may not retaliate against an employee who discusses the employee's rate of wage, salary, benefits, or other compensation with another employee or another person.
- (e) Contractor must give notice in writing to employees who work on this Contract, either at the time of hire or before commencement of work on this Contract, or by posting a notice in a location frequented by employees, of the number of hours per day and days per week that the employees may be required to work.
- (f) As provided by ORS 279C.510, if this is:
 - (1) A contract for demolition, the Contractor shall salvage or recycle construction and demolition debris, if feasible and cost-effective.
 - (2) A contract for lawn and landscape maintenance, the Contractor shall compost or mulch yard waste material at an approved site, if feasible and cost-effective.
- (g) As provided by ORS 279C.515:
 - (1) If the Contractor fails, neglects or refuses to pay promptly a person's claim for labor or services that the person provides to the Contractor or a subcontractor in connection with this Contract as the claim becomes due, the City may pay the amount of the claim to the person that provides the labor or services and charge the amount of the payment against funds due or to become due the Contractor by reason of this Contract.
 - (2) If the Contractor or a first-tier subcontractor fails, neglects or refuses to pay a person that provides labor or materials in connection with this Contract within thirty (30) days after receiving payment from the City or the Contractor, the Contractor or first-tier subcontractor owes the person the amount due plus interest charges that begin at the end of the ten (10) day period within which payment is due under ORS 279C.580(4) and that end upon final payment, unless payment is subject to a good faith dispute as defined in ORS 279C.580. The rate of interest on the amount due is nine percent per annum. The amount of interest may not be waived.
 - (3) If the Contractor or a subcontractor fails, neglects or refuses to pay a person that provides labor or materials in connection with this Contract, the person may file a complaint with the Construction Contractors Board, unless payment is subject to a good faith dispute as defined in ORS 279C.580.
 - (4) Paying a claim in the manner authorized in this section does not relieve the Contractor or the Contractor's surety from obligation with respect to an unpaid claim.
- (h) As provided by ORS 279C.580, Contractor shall include in each subcontract for property or services Contractor enters into with a first-tier subcontractor, including a material supplier, for the purpose of performing a construction contract:
 - (1) A payment clause that obligates Contractor to pay the first-tier subcontractor for satisfactory performance under the subcontract within ten (10) days out of amounts the City pays to Contractor under this contract.
 - (2) A clause that requires Contractor to provide a first-tier subcontractor with a standard form that the first-tier subcontractor may use as an application for payment or as another method by which the subcontractor may claim a payment due from Contractor.
 - (3) A clause that requires Contractor, except as otherwise provided in this paragraph, to use the same form and regular administrative procedures for processing payments during the entire term of the subcontract. Contractor may change the form or the regular administrative procedures Contractor uses for processing payments if Contractor:
 - a. Notifies the subcontractor in writing at least 45 days before the date on which Contractor makes the change; and
 - b. Includes with the written notice a copy of the new or changed form or a description of the new or changed procedure.
 - (4) An interest penalty clause that obligates Contractor, if Contractor does not pay the first-tier subcontractor within thirty (30) days after receiving payment from the City, to pay the first-tier subcontractor an interest penalty on amounts due in each payment Contractor does not make in accordance with the payment clause included in the subcontract under paragraph (a) of this subsection. Contractor or a first-tier subcontractor is not obligated to pay an interest penalty if the only reason that Contractor or a first-tier subcontractor did not make payment when payment was due is that Contractor or a first-tier subcontractor did not receive payment from the City or Contractor when payment was due. The interest penalty:
 - a. Applies to the period that begins on the day after the required payment date and that ends on the date on which the amount due is paid; and
 - b. Is computed at the rate specified in ORS 279C.515(2).Additionally, Contractor, in each of Contractor's subcontracts, shall require the first-tier subcontractor to include a payment clause and an interest penalty clause that conforms to the standards set forth above in each of the first-tier subcontractor's subcontracts and shall require each of the first-tier subcontractor's subcontracts to include such clauses in the first-tier subcontractor's subcontracts with each lower-tier subcontractor or supplier.
- (i) Construction Contractors Board (CCB) requirements: Contractor must have a payment bond filed with CCB when required by ORS 279C.380 and 279C.390. Contractor and each subcontractor must have a public works bond filed with CCB before starting work under this Contract, unless exempt under state law.

The policy shall also contain an endorsement naming City as an additional insured, in a form satisfactory to City, and expressly providing that the interest of City shall not be affected by Contractor's breach of policy provisions. The policy shall be endorsed to state that the general aggregate limit of liability shall apply separately to the Contract.

7.2 Commercial Automobile Liability. Contractor shall maintain a Commercial Automobile Liability Insurance policy with coverage of not less than \$2,000,000.00 combined single limit per occurrence, with an annual aggregate limit of not less than \$2,000,000.00, for bodily injury, personal injury or property damage. The amount of the Performance Bond and Payment Bonds shall be increased whenever the Contract Sum is increased for any reason.

At the conclusion of the Construction and prior to Final Acceptance of the Work by the City, the Contractor shall provide a 10% Maintenance Bond for a period of **two (2) years** from the date of Final Acceptance by the City. Surety licensed to do business as a surety in the

to the City of all claims and all liability to the City under the Contract other than claims in stated amounts as may be specifically excepted by the Contractor in writing prior to the request for final payment for all things done or furnished in connection with this work and for every act and neglect of the Contractor, the City and its agents and others resulting to or arising out of this work. However, any payment, final or otherwise, or any acceptance, shall not release the Contractor or its sureties from any obligations under the Contract Documents or the Performance and Payment Bonds or diminish the Agency's rights under the Guaranty Provisions.

In addition to and not in lieu of any other warranties required under the Contract make all necessary repairs and replacements to remedy, in a manner satisfactory to the Engineer and at no cost to the Agency, any and all defects, breaks, or failures of the Work occurring during the specified warranty period due to faulty or inadequate materials or workmanship. Repair damage or disturbances to other improvements under within, or adjacent to the Work, whether or not caused by staining, washing, or slipping, when such damage or disturbance is caused, in whole or in part from activities of the Contractor in performing his duties and obligations under this Contract when such defects or damage occur within the warranty period. In case of an emergency where, in the opinion of the Engineer, delay would cause serious loss or damage, repairs may be made without notice being given to the Contractor with the Contractor or surety paying the cost of repairs. Failure of the Engineer to act in case of an emergency shall not relieve Contractor or Surety from

ability and payment of all such costs.

9. **Termination and Compensation.** City may terminate this contract or suspend the Work at any time as provided in the specifications.
10. **Performance for Goods and Services.** In performance of the Work, Contractor shall prefer materials that have been manufactured or produced in the state of Oregon, if price, fitness, availability and quality are otherwise equal.
11. **Non-Resident Contractor.** If Contractor is not a resident bidder as defined in ORS 279A.120, and the contract price exceeds \$10,000, the Contractor must report to the Department of Revenue, on the department's form, the total contract price, terms of payment, length of contract and such other information as the department may require before the Contractor may receive final payment under the Contract. The Contractor must provide copies of all forms filed with the Department to the City to receive final payment.
12. **Laws and Ordinances.** In addition to those laws, rules and ordinances specifically identified in this Contract, Contractor shall comply with and require all Subcontractors to comply with all applicable provisions of Federal, State and local statutes, ordinances, orders, rules and regulations.
13. **Default and Willful Violation.** If the Contractor willfully violates any of the provisions of the Sherwood Code, or any of the provisions of law governing public contracts, or if Contractor knowingly files false affidavits of compliance required under the Contract, Contractor shall

REVISED - SEE ADDENDUM 1

any of its obligations under this Contract, and the timeliness and quality of performance being of the essence, City may, at its option, terminate this contract upon written notice to Contractor. In the event of a termination of this Contract or a subcontract under these provisions, Contractor or the Subcontractor, if applicable, shall forfeit all rights under this Contract or the subcontract, as the case may be. The City's claim for damages under paragraph 15 and any other relief available to City resulting from the Contractor's breach shall survive a termination of the Contract.

14. **Liquidated Damages.** In the event the Work is not completed within the Contract Time as specified in Bid Statement or as may be extended in accordance with the Contract's terms, Contractor will pay to City, or City may withhold from any payment due Contractor, Liquidated Damages as specified in the specifications. The parties believe that due to the costs of bringing an action and the difficulty of establishing the exact amount of damages City will incur, it would be inconvenient and infeasible for City to bring an action for the actual damages it will incur because of Contractor's failure to complete the Work within the Contract Time. In order to compensate City for the damages City will suffer because of a delay, the amount City would be damaged for every Calendar Day completion is delayed is \$800.00 per Calendar Day. The parties agree that the sum set as Liquidated Damages is reasonably related to City's anticipated damages per Calendar Day after the Completion Date that the Work is not completed. Contractor agrees that any liquidated damages imposed under the Contract is the best estimate of the City's damages and is not a penalty. Contractor will not contend such sum as being other than the best measure of damages in the event liquidated damages become payable under these provisions.

15. **Notices.** Any written notices permitted or required by this Contract shall be deemed given when personally delivered, or five days after deposit in the United States mail, postage fully prepaid, certified, return receipt requested, addressed to the representatives of the parties as set forth below or when delivered by electronically confirmed facsimile transmission to the FAX address and attention of the representatives of the parties set for below:

Contractor: _____, Project Superintendent

City: City Engineer, City of Sherwood

or such other address as either party may provide to the other by notice given in accordance with this provision.

16. **Contract Documents/Interpretation.** Where possible, all parts of the Contract shall be interpreted in a manner that avoids conflict between the various documents and their provisions. In the event that any provision of this document conflicts with any provision of the specifications, the provision that is most detailed shall prevail. In the event that any other component part of the Contract conflicts with any provision of any other component

REVISED - SEE ADDENDUM 1

interpreted in accordance with the laws of the state of Oregon, without respect to conflict of laws principles. Notwithstanding any contrary provisions in the Contract Documents, any litigation arising out of or relating to this Contract shall be tried to a court without a jury. Any claim or action must be brought in the Circuit Court of Washington County, Oregon. If a claim or action must be brought in federal forum, then it shall be brought and conducted solely and exclusively within the United States District Court for the District of Oregon. In no event shall this paragraph be construed as a waiver by the City of any form of defense or immunity, whether sovereign immunity, governmental immunity or otherwise, from any claim or from the jurisdiction of any court. Contractor by execution of the Contract hereby consents to the personal jurisdiction of the courts referenced in this paragraph.

18. **Dispute Resolution.** Disputes will be resolved in accordance with Section 00199 of the General Conditions of ODOT's 2021 Standard Specifications as modified in the Supplemental Specifications and Project Special Provisions.
