ELECTIONS DIVISION

DIRECTOR

Dear Oregon Voter,

A healthy democracy is all about trust. As a voter, you deserve trustworthy information. As your Secretary of State, it's my job to provide it. The Oregon Elections Division is your official source for trusted information. It's the best place to get your questions answered and avoid false information.

Always use official sources of trusted information. oregonvotes.gov

Register to vote by April 26.

Did you know it takes less than 3 minutes to register or update your voter registration at oregonvotes.gov?

What you need to know about the May Election:

Closed Primary Elections for the Republican and Democratic Parties: The Republican and Democratic parties in Oregon hold closed primaries. This means only registered Democrats can vote for candidates running for the Democratic Party's nomination and only registered Republicans can vote for candidates running for the Republican Party's nomination. The winners of those primaries then face off in the General Election in November. To vote in the Republican or Democratic Primaries, you must be registered as a member of one of those parties by April 26.

New law! Ballots Postmarked by Election Day Will Count: In 2021 the Legislature passed a new law to allow ballots postmarked by 8 pm on Election Day to count. This improvement ensures that every vote cast on time gets counted. It may also delay the results of close races because it will take a few days for all the votes to be counted. But remember, even if ballots arrive by mail at your county clerk's office after election day **only ballots cast by 8 pm on Election Day will be counted.**

Optional Secrecy Sleeves: Many counties are no longer providing secrecy sleeves when they mail ballots because they slow down the processing of ballots. Regardless, your ballot is always secure and **private** — new and improved return envelopes and secrecy procedures at elections offices protect your privacy without the need for the extra sleeve.

Oregon's elections are the gold-standard in security, accessibility and transparency. But false information about elections is a real threat to trust in our democracy. We encourage you to always check information at trusted sources. Start with [Oregonvotes.gov](https://oregonvotes.gov), your official source for elections information in Oregon.

Additionally, you can find trusted information at your county elections office. Visit oregonvotes.gov/counties to contact your county's elections office.

Sincerely,

Shemia Fagan
Oregon Secretary of State

Election Day

Last day to return your ballot.

If you mail your ballot it must be postmarked by 8 pm election day.

Or return your ballot to an official drop box by 8 pm on election day.

oregonvotes.gov/myvote

Use this online tool to check or update your registration status and track your ballot.

Where do I vote?

In Oregon, we vote by mail. There are no polling places. Instead you can vote anywhere you choose.

If you're registered to vote by **April 26**, your ballot will be mailed between **April 27** and **May 3**. Your county elections office will mail it to the address in your voter registration record.

If you don't receive your ballot by May 6, call your county elections office.

What if I've moved?

Ballots are not forwardable. To receive your ballot update your voter registration information at oregonvotes.gov/myvote.

If election day is less than 5 days away, call your county elections office for instructions on how to get your ballot.

How can I get my ballot early?

You may request an absentee ballot if you will be away from home on election day. Complete the Absentee Ballot Request Application at oregonvotes.gov/myvote or call your county elections office.

How do I complete my ballot?

Your ballot packet will include instructions on how to complete and return your ballot. Follow the instructions!

Why don't I get to vote for Governor?

Oregon's primaries are closed. You must be a member of the Democratic or Republican party to choose that party's nominees.

If your ballot does not include candidates for Governor it means you're not a registered Democrat or Republican. You will be able to vote for Governor at the General Election in November.

What if my dog eats my ballot?

If your ballot is lost, destroyed, or damaged in a way that stops you from voting, call your county elections office and ask for a replacement ballot.

Do I have to vote on everything?

No. Your ballot will still be counted, even if you don't for every contest or measure on it.

Can I change how I voted?

If you have mailed or dropped off your ballot, your vote cannot be changed. If you still have your ballot follow the instructions that were sent with your ballot.

How do I return my ballot?

You can return your ballot by mail, no stamp needed. If mailed, your ballot must be postmarked on or before **8 pm on May 17**.

Or return your ballot to any county elections office or official drop box. You can find the nearest drop box, along with a map of how to get there, at oregonvotes.gov/dropbox or by contacting your county elections office.

County elections offices are open election day from 7 am to 8 pm.

Is the secrecy sleeve required?

If you received a secrecy sleeve, you don't have to use it unless you want to.

If you didn't receive a secrecy sleeve, your county is one of the many that have incorporated additional security features into the ballot return envelope.

Do I have to sign my ballot return envelope?

For your vote to count, yes. Your signature is a security measure used to verify your identity. You're the only person who can sign your ballot return envelope. Power of Attorney documents do not apply to voting.

If you cannot sign your name contact your county elections office for more information.

Your ballot is only counted if the signature on the ballot return envelope matches signatures in your voter registration record.

If your signature does not match or you forget to sign the envelope, the county will notify you. You will have until 21 days after the election to prove you were the one who signed the envelope.

If my name is on the ballot return envelope, is my vote really secret?

Yes. After signature verification, your ballot is separated from the ballot return envelope before it is unfolded and reviewed.

Was my ballot counted?

As a registered voter, you can track the status of your ballot at oregonvotes.gov/myvote.

When will election results be known?

Initial results are released beginning at **8 pm, May 17** and will continue to be updated through election night and the days following.

Between election night and the date the election results are certified, the unofficial results reported on oregonvotes.gov will change.

This change represents ballots that were postmarked by 8 pm on election night, being received and counted.

The final winner or result of a close contest may not be known until the election is certified and the official abstract of votes published. Final certified results will be available 37 days after the election.

Do I need a provisional ballot?

If your eligibility to vote can't be determined you will be issued a provisional ballot.

To obtain a provisional ballot, go to your county elections office in person and fill out a Provisional Ballot Request Form.

Your provisional ballot will only be counted if you are determined to be eligible to vote.

How do I file a complaint?

Any registered voter may file a written complaint alleging that a violation of an election law has occurred.

The complaint should provide evidence showing a violation and must be signed by the voter. Anonymous complaints will not be accepted.

Complaints should be sent to:

Secretary of State, Elections Division
255 Capitol St NE, Suite 126
Salem, OR 97310

Would you give someone going door to door your ballot to put in a drop box for you?

Not safe. In 2018, 97 people did this and had their vote not count because the ballot was turned in after Election Day. [Don't be fooled.](#)

Would you believe a talk radio personality who says your political party is changed when you go to DMV?

Not true. The political party you are registered with never changes because of a DMV transaction. If you are not already registered you will be registered as not affiliated. [Don't be fooled.](#)

Would you believe a story that Oregon Motor Voter is automatically registering non-citizens to vote when they get a driver's license?

Not true. Only individuals who show proof of citizenship at DMV are eligible to be automatically registered to vote under Oregon Motor Voter. [Don't be fooled.](#)

Would you believe a social media post, phone call or text message that your voter registration has been cancelled?

Not true. Anytime your voter registration is updated, you are sent a confirmation of the changes. [Don't be fooled.](#)

Would you register to vote on a website you saw on social media instead of registering at the official Secretary of State site, oregonvotes.gov/register?

Not safe. In 2018 many people used third party sites thinking they were registering to vote. But the information was never sent to the Elections Division and they could not vote. These sites can also steal your personal info. [Don't be fooled.](#)

Would you trust election information like deadlines, drop box locations and results from any website other than the official Secretary of State site, oregonvotes.gov?

Not safe. Only use official information located on the Secretary of State's website or your county elections website. [Don't be fooled.](#)

Would you believe a social media post that says your ballot can be rejected without you knowing about it?

It can't. If your ballot is rejected you will be notified and may have the chance to fix it. Plus you can view the status of your ballot at oregonvotes.gov/myvote. [Don't be fooled.](#)

Would you believe a social media post that says because of record high voter turnout, Democrats vote on Tuesday and Republicans vote on Wednesday?

Not true. All ballots must be received or mailed with a valid postmark by 8 pm, May 17, 2022. [Don't be fooled.](#)

Would you believe a headline that says it is too late to secure the upcoming election?

Not true. Election security in Oregon has never been stronger and is continually being improved. [Don't be fooled.](#)

Ensuring the Accuracy of Your **Vote!**

Oregon elections are secure. There are detailed processes and procedures in place that are continuously evaluated to identify improvements and to develop contingency plans, ensuring our systems and our votes are secure.

Some security measures you may be more familiar with than others. For example the signature on your ballot return envelope is compared to the signatures in your voter registration record and your ballot is only counted if the signatures match. Another security feature is that all elections in Oregon must be conducted using a paper ballot.

Other security features which you may not be as familiar with include:

- Every county elections office files a security plan with the Secretary of State every year that details the tools and processes they use to secure elections in their county.
- Each day a copy of the voter registration database is backed up and saved to ensure accurate information is preserved should a bad actor gain access.
- All voting systems (machines and programs) used to count ballots in Oregon have been certified by a federally accredited voting system test laboratory and have been further analyzed to ensure the system is secure before the Secretary of State approved of their use.
- The Department of Homeland Security has conducted onsite physical and cyber threat assessments at each of Oregon's 36 county election offices.
- All ballots are counted in secure rooms at each of Oregon's 36 county election offices. Security cameras are in place to record 24 hours a day. No voting systems are connected to the internet.
- The Oregon TIGER (Threat Information Gathering and Election Resources) Team identifies threats and vulnerabilities to Oregon's election system and applies the resources of federal, state, and local governments to mitigate those threats and vulnerabilities. Members of the TIGER Team consist of the Oregon Elections Division, US Cybersecurity and Infrastructure Security Agency, Oregon Emergency Management, Oregon Chief Information Officer- Cyber Security Services, Oregon National Guard, Oregon Titan Fusion Center, US Postal Service Inspector General's Office and FBI.
- Prior to any ballots being counted, counties test voting systems for logic and accuracy. This testing entails marking test ballots and running them through the vote counting machines to ensure results produced by the voting machines match how the test ballots were marked. This same process is followed after the election to confirm there was no change to the programming.

The US Department of Homeland Security and the FBI have confirmed that no vote tally systems in Oregon, or anywhere else in the US have been hacked. You can have confidence that your ballot will be counted as you mark it and that there will be no tampering with the ballot at any step in the election process. Voting in Oregon has never been more secure or more accurate.

Political Party Statements

At the Primary Election, a statewide political party that intends to nominate candidates for the general election may file a statement about the party's principles and its candidates. The party's statement may also oppose the principles and candidates of other political parties or organizations.

The following political parties did not submit a statement for the 2022 Primary Election:

- Constitution Party of Oregon
- Pacific Green Party
- Working Families Party of Oregon

Duties and Responsibilities of Precinct Committeepersons

Precinct Committee Persons (PCPs) encourage voter registration, vote on official party business, elect county party leadership and nominate State Representatives or State Senators when there is a vacancy in one of those offices.

PCPs are only permitted for major political parties. The Democratic Party of Oregon and the Oregon Republican Party have both chosen to elect PCPs.

Each precinct is allotted a number of PCPs based on the count of registered voters in the precinct. Individuals can only file for (or serve in) one precinct at a time. However, PCP candidates can choose whether they want to file to serve in the precinct they live in or a related one.

Find more information at oregonvotes.gov.

Candidates

Oregon statute (ORS 254.155) requires the Secretary of State to complete a random order of the letters of the alphabet to determine the order in which the names of the candidates will appear on the ballot.

The alphabet for the **2022 Primary Election** is:

O, R, A, Q, J, S, L, H, P, Z, I, W, M, C, N, G, K, T, E, Y, F, D, V, B, U, X

Candidate statements included in the pamphlet are separated by office type and position and are further arranged in the same random order in which the names of candidates will be printed on the ballot. In the primary election pamphlet, partisan candidate statements are further separated by political parties.

Statements are arranged in the following manner:

- Democratic candidates by position in ballot order
- Republican candidates by position in ballot order
- nonpartisan candidates by position in ballot order

Candidates pay a fee, or submit signatures in lieu of paying the fee, for space in the voters' pamphlet. The information required by law—pertaining to occupation, occupational background, educational background and prior governmental experience—has been certified as true by each candidate.

Democratic Party

The Democratic Party of Oregon is more than one million strong, fighting for progress, and helping elect Democrats across the state who are committed to the people of their communities.

Democrats believe that we're stronger together than we are on our own – that this country succeeds when everyone gets a fair shot, everyone does their fair share, and everyone plays by the same rules. Our party is focused on building an economy that lifts up all Americans, not just those at the top.

Oregon Democrats work hard promoting health care access, living wage jobs, education, clean energy and more because EVERY Oregonian, from the Idaho border to the Pacific deserves to thrive and see their kids succeed.

In Washington, D.C. and in Salem, Democrats are passing legislation to support working families, ensure voting is accessible, easy, and secure, and fight for all Oregonians, regardless of race, gender, sexual orientation, religion, class, or physical ability.

Oregon Democrats Stand For:

- A right to health care for all
- Quality public schools
- Protection for labor unions and workers' rights
- Action to respond to climate change
- Humane immigration reform policies
- Racial and gender equality
- Protecting Social Security and expanding access to pensions
- Growing good jobs for Oregonians
- Criminal justice reform
- LGBTQ+ rights
- Gun safety measures
- Campaign finance reform

Independent Party

Are you tired of extremism and polarization?

Are you tired of being manipulated by politicians who say one thing

to get your vote and then do another?

If so, then maybe the Independent Party of Oregon is for you.

A 2021 Gallup poll found that 62% of Americans want a viable third party and that the Democratic and Republican parties "do such a poor job representing the American people that a third party is needed." Are you one of them? The only way to build a third party is to join one.

The Independent Party of Oregon (IPO) believes in fiscally responsible policies to restore our middle class and address the real problems we face.

Government reform: We work to restore integrity to our institutions by achieving campaign finance reform and voting reforms that make our democracy more representative.

People centered policies: We work on policies that bring us together, like addressing the high cost of living, especially for housing; homelessness; addiction; and working to address the impact of fire and extreme weather on our communities.

Facts:

- Fastest growing party in Oregon, adding over 140,000 members since 2007 (4.7% of Oregon registered voters).
- About 6.5% of all local office holders (city council members, commissioners, mayors) are IPO members.
- We're highly informed, rational, non-tribal voters.
- Supports policies that are good for all Oregonians, even when it means we share in some sacrifice.
- Our platform is fiscally responsible, socially compassionate, and environmentally aware.
- We fight to keep big money from buying government policy at all levels of government.

If you agree:

CHANGE YOUR REGISTRATION TO INDEPENDENT PARTY

Search: "Oregon voter registration" and click on "Update"

Today, government policies in Oregon are crafted by and for powerful corporations, large unions, and the wealthy. Government is not accountable to regular people. Politics is too partisan. There is not enough problem-solving.

We work to:

- Oppose spending on inefficient government programs.
- Increase transparency in government, especially on how tax dollars are spent.
- Require that political advertisements name their largest funders.
- Improve education and job training opportunities for Oregonians.
- Protect the environment and the climate.
- Protect Oregon consumers from ripoffs and abuse, including medical billing.
- Provide incentives for business creation and expansion in Oregon, but only if the incentives return greater public benefit than they cost.

2022 ELECTIONS

Our 2022 nomination process will be conducted this Summer. Check www.indparty.com for updates.

COMMUNITY BASED CANDIDATES

We support candidates who have the backing and trust of their local communities, not the special interests that dominate the Republican and Democratic agendas. These special interests accounted for nearly all of the \$150 million spent on Oregon political campaigns in 2018 and most of the \$44 million spent on Oregon lobbying. Regular voters can't match those big dollars. But we can band together and fight them with our voting power

WE ARE HAVING AN IMPACT

We have worked on several policies to protect taxpayers, consumers, and our environment over the years, but our main focus has been to restore power to ordinary citizens.

We helped pass campaign finance reform in Multnomah County in 2016 and Portland in 2018 by passing ballot measures to change the county and city charters to limit campaign contributions to \$500 each and require that political ads name their 5 largest funders and their sources of funds.

In April 2020, our co-chairs won the reversal of the 1997 Oregon Supreme Court decision that the Oregon Constitution does not allow limits on political contributions. We supported Measure 107 (2020), which then amended the Oregon Constitution to allow contribution limits and disclosure requirements.

We helped stop the Legislature from making Oregon's campaign finance laws even worse. The Center for Public Integrity ranks Oregon's state-level campaign finance system as the worst in America - except for Mississippi.

VOTE. THINK. BE. INDEPENDENT.

Libertarian Party

The Libertarian Difference

How do you know what a political candidate stands for? A lot of political speech these days consists of using a lot of words to say very little of substance. Politicians would rather be unclear and ambiguous. They're happy to say vague but nice-sounding things, but afraid of being pinned down on concrete issues because they don't want voters to realize that they disagree!

By contrast, Libertarians are not afraid of stating their positions, or the principles that brought them to those positions. Libertarianism is not just a collection of disconnected policy ideas, it is a coherent political philosophy grounded in the importance of individual freedom. These are our principles:

Libertarian Party Statement of Principles

We, the members of the Libertarian Party, challenge the cult of the omnipotent state and defend the rights of the individual.

We hold that all individuals have the right to exercise sole dominion over their own lives, and have the right to live in whatever manner they choose, so long as they do not forcibly interfere with the equal right of others to live in whatever manner they choose.

Governments throughout history have regularly operated on the opposite principle, that the State has the right to dispose of the lives of individuals and the fruits of their labor. Even within the United States, all political parties other than our own grant to government the right to regulate the lives of individuals and seize the fruits of their labor without their consent.

We, on the contrary, deny the right of any government to do these things, and hold that where governments exist, they must not violate the rights of any individual, namely:

1. the right to life – accordingly we support the prohibition of the initiation of physical force against others;
2. the right to liberty of speech and action – accordingly we oppose all attempts by government to abridge the freedom of speech and press, as well as government censorship in any form; and
3. the right to property – accordingly we oppose all government interference with private property, such as confiscation, nationalization, and eminent domain, and support the prohibition of robbery, trespass, fraud, and misrepresentation.

Since governments, when instituted, must not violate individual rights, we oppose all interference by government in the areas of voluntary and contractual relations among individuals. People should not be forced to sacrifice their lives and property for the benefit of others. They should be left free by government to deal with one another as free traders; and the resultant economic system, the only one compatible with the protection of individual rights, is the free market.

Be A Libertarian

If these principles appeal to you, we invite you to switch your voter registration to "Libertarian" to join the cause of advancing liberty and freedom. There are never any dues or fees required to participate in our elections or conventions, or to be a candidate for public office, and party leadership is directly elected by our members. There are many opportunities for true grassroots activism.

Join the Libertarian party, and vote for Libertarian candidates! The Libertarian Party of Oregon conducts its own primary election without taxpayer funding, unlike the major parties who use your tax dollars to benefit themselves. Our members will receive a separate Libertarian ballot to select candidates to advance to the general election.

The Libertarian Party of Oregon has nominated more candidates for public office than all other minor parties combined. Libertarians are not right or left or center, but we stand on principle and champion your freedom to do what you want with both your life and your money. We want to compassionately unravel our overbearing government while minimizing the pain to those who have been made dependent on it.

WE SUPPORT: real campaign finance reform, Medicare for All, equal rights (including same-sex marriage), and \$15 minimum wage for all, now.

WE OPPOSE: the corruption of elections by big money, Wall Street bailouts, bloated military spending, "corporate personhood," and NAFTA, WTO, and other "free trade" deals that let corporations override labor, consumer protection, and environmental policies.

Real Campaign Finance Reform

Oregon Democrats and Republicans have never enacted limits on political campaign contributions. **Campaign spending for Oregon state and local offices has skyrocketed from \$4 million in 1996 to \$83 million in 2018.** Winning a contested race for the Legislature (about 15,000 votes needed for a House seat) now typically costs over \$750,000 and often over \$1 million per candidate.

The State Integrity Investigation of the Center for Public Integrity (2015) ranked Oregon 2nd worst of 50 states in controlling political financing to avoid corruption, beating only Mississippi.

Invest in Oregon

Oregon's \$139 billion of state investment funds should be invested in public works and jobs for Oregonians, instead of in businesses almost entirely outside of Oregon. The State pays over \$1 billion in fees every year (mostly undisclosed) to vulture capitalists, corporate raiders and leveraged buyout artists who use Oregon funds to invest in any sort of corporation (including fossil fuels) and even makers of spyware used to oppress activists worldwide.

Oregon local governments borrow about \$4 billion per year, mostly for infrastructure improvements, and pay huge fees (around \$200 million per year) to Wall Street firms to issue the bonds, along with high bond interest.

Let's cut out the Wall Street middle men. Local governments should borrow the needed funds from the State. The Bank of North Dakota funds local infrastructure improvements at interest of 2%. If a State Bank of Oregon were to charge local governments an interest rate of 3%, local governments would save an additional \$40 million per year in interest on every year's issuance of bonds. After 10 years, they would be saving \$400 million per year in interest, plus avoiding the \$200 million per year in fees to Wall Street.

Grassroots Democracy

Oregonians need to be able to effectively use the initiative process, including electronic signatures to avoid spread of disease and allow wider participation. We support the use of STAR Voting or Ranked Choice Voting to break 2-party domination.

Human Rights

We believe that all human beings are fundamentally worthy of respect and dignity. We support equal rights for all, including same-sex marriage. We support the rights of trans kids and adults to participate without discrimination in all aspects of life. We support Medicare for All comprehensive health care. We oppose cuts in Social Security & Medicare benefits.

Environmental Justice

We support policies that will protect Oregonians' air, water, land, and forests and the world's climate. We support an Oregon Green New Deal and would tax harmful emissions that cause climate change and the diesel emissions that cause cancer. We oppose offshore oil & gas drilling and shipping fossil fuels for export from Pacific Northwest ports. We would require labeling of genetically engineered food. We oppose aerial spraying of pesticides/insecticides in the management of forests and the foreign export of logs from all forests in Oregon.

Fair Taxation

Oregon has the 4th highest income tax of any state on lower-income working families. We oppose government promotion of gambling, including video poker, which is a hidden, regressive tax.

Republican Party

Who Republicans are:

The Oregon Republican Party is a community of primarily lower and middle-income class citizens. We believe in the principles of limiting the power and dominance of government and corporate big business, lowering taxes/fees, and the fundamental basic right that all citizens have the right to make their own decisions without fear of being persecuted by the government or the cooperate elite. Big government and big business must not be allowed to become so dominant that we as citizens cease to be in control of our own lives! We are fast approaching this point of no return.

The basics of what Republican candidates and volunteers are working for:

- A state where people of all races and backgrounds can respectfully communicate and live their lives in peace and prosperity.
- A statewide community that truly loves and respects their neighbor's right to participate in society without fear of those in power and the political majority.
- To maintain and expand the right to freely assemble and peacefully voice our support or opposition to the matters of the day in all publicly owned spaces.
- The right to freely speak, communicate and express one's opinions without being censored by corporate social media giants.
- The principle that parents are the ones to decide what is proper for their children to be taught in our public school system, and that government should never replace mothers and fathers as the parent.
- That tax dollars follow the child to whatever school their parents approve of. Public or private.
- True respect for our neighbor's right to choose what is put into their own and their children's bodies.
- Separation of church and state. The government must never again be allowed to force itself on institutions of faith like what was seen during the COVID era. A government with no restrictions is an entity that will oppress and persecute any individual or group that stands in its way. It is the duty of God-fearing people to stand against said government.
- The right to earn a living and not be hindered by special interests or our government in the form of barriers to entry and over-regulation.
- The right to start your own small business without government-imposed high fees and barriers to entry. The low and middle-class citizens falter and big business dominates when regular people cannot afford to enter and compete in the free marketplace.
- Strong investment in public safety and enforcement of just laws, and consequences for those who commit violent action against peaceful and law-abiding citizens.
- Strong consequences for those who commit sexual assault against any citizen, but especially harsh consequences/sentences for those who commit such assaults against children.
- Establishing laws that prohibit government and internet information-based private businesses from censoring or promoting the censorship of available information on the internet for citizens of legal age.
- Upholding and expanding basic property rights. Ownership rights of land, homes, vehicles, cell phones/computers, and any other pieces of property a citizen may poses must be protected from government overreach, control, and seizure.

Regardless of your current political affiliation, we hope that you will join us in rescuing our beloved Oregon from extremist politics and help us restore balance and true mutual respect for the rights and values of all who call our beautiful state home!

US Senator

Ron Wyden

Democrat

Occupation: US Senator

Occupational Background: Director, Oregon Legal Services for the Elderly; Co-founder, Oregon Gray Panthers

Educational Background: Stanford University, BA; University of Oregon Law School, JD

Prior Governmental Experience: US Congress

Public service means listening to Oregonians' priorities.

That's why I've held open-to-all town halls in each of Oregon's 36 counties each year—that's over 1,000 and counting.

Oregon is coming back from double-digit unemployment during the pandemic's darkest days. But I've heard Oregonians' anger about serious challenges—soaring food and housing costs, insufficient mental health care in our communities, homelessness, and crime.

In COVID's first months, I secured new unemployment insurance and tax relief to help families and small businesses survive the unprecedented economic crisis.

I've consulted with mental health providers and law-enforcement to pass a groundbreaking law based on Oregon's innovative model for responding to crises in the streets with trained first-responders. And I've secured funds for emergency housing for Oregonians in crisis.

To save Oregonians' money, I passed tele-health legislation giving people access to cost-saving at-home medical visits, and am fighting Big Pharma's price gouging on life-saving medicines like insulin.

To attack inflation and escalating housing costs, I am reducing red-tape, encouraging more housing supply and promoting a sustainable domestic timber industry. I'll continue to fight for first-time homebuyers getting a down payment on the American dream.

With Big Oil profits skyrocketing while Oregonians pay at the pump, I'm overhauling the tax code by ending special tax breaks for these profiteers. And I'm creating incentives for American-made renewable energy and fighting the climate crisis.

My Secure Rural Schools law has brought over \$3.5 billion for Oregon schools and roads. And I wrote the law banning raids on wildfire prevention funds.

I'm proud to be called "the Senate's biggest privacy hawk" and will continue my focus on protecting Americans' privacy from both business and government intrusions.

There's much more to do. I am honored to be your public servant, and ask for your vote.

Community Involvement-Assistant track coach-Pole Vault & Multi Events; President- Southern Oregon Land Conservancy, Jackson County Citizens League, Friends of Jackson County.

Travel-52 Countries; 49 States.

Experienced- Brent Thompson's 40 years of varied public service experience is reflected in his writings on land use planning, transportation, and the threat of continued US population growth (alternativestogrowth.com).

Brent Thompson knows the legal structure we need to evolve aesthetic, walkable, comfortable, economically viable, and compact resource conserving communities.

Brent Thompson understands that endless growth threatens farmland, forest land, and the beauty of Oregon's 300 mile coastline. Current thinking favoring endless national population growth must cease if the US is to help reverse global warming and stop environmental losses. Ignoring concepts such as "carrying capacity", "sustainability", "national optimum population, and the Native American concept of thinking ahead Seven Generations further compromises Oregon's quality of life.

Americans everywhere are losing assumed givens such as adequate water resources and freedom of movement.

Americans including Oregonians must now cope with droughts, overburdened highways, and teeming airports in an increasingly impersonal, alienated, distraught, and angry society.

Oregonians now need Senators who don't default on their obligation to keep Oregon, Oregon and who don't "con" us with environmental tokenism. We'll achieve prosperity without endless growth.

Send Brent Thompson to the US Senate. He can think Seven Generations ahead. We need that.

William E Barlow III

Democrat

Occupation: CEO, 18 Oaks Sign Company

Occupational Background: Willamette Valley Medical Center

Prior Governmental Experience: Oregon: Department of Consumer and Business Services, Building Codes Division, Electrical and Elevator Board; City of McMinnville: Enrichment Services Advisory Committee.

"I alone can fix it" (Trump, 2016) opposes everything American democracy stands for. It was right to condemn the statement, and it is right to condemn the presumption. No lone politician can fix it, but all together, we will.

We see the homeless, we fear the crime, and we struggle with the skyrocketing costs of living. Graduates strapped with debt go from commencement to their childhood bedroom, unable to find affordable housing and unable to make a fair living wage. Clearly, Senator Wyden's town hall meetings have not resulted in the change we need. Low wages, historic inflation, record-high tuition, violent crime, and extreme weather events are destroying Americans' mental health. Change must come – and Oregon Democrats are going to have to decide what role they will play in bringing it about.

He's in the majority; he has a lifetime of experience and a chairmanship. However, the elder statesman is no longer getting the job done. Polls of registered Oregon voters show 88% of individuals feel their quality of life is declining. Put simply, Senator Wyden should not be running for a fifth term. It's time to stop 40 years of incrementalism, submitting to the established decorum, and endless positioning for the next election.

If America is to fully live up to its creed, we must defend against both voter and candidate disenfranchisement. Career politicians cannot claim to support voters' rights yet maintain a system that discourages the rights of new candidates to challenge. Currently, voters' rights are an absurd pretense to the gerrymandered election of an indefinite incumbent. Democrats have a deep bench, let's use it.

Please, will you vote for a new nominee?

Georgetown University, MBA

Prior Governmental Experience: Peace Corps volunteer, Peace Corps headquarters staff

Scott is focused on bold ideas for a better American future and a stronger Democratic Party.

As Scott walks neighborhoods from Portland to Astoria, he has heard again and again that you want accountability and results. You want government to answer the phone, not leave you on hold. You want practical solutions not ideology; action not name-calling. Scott sees these as minimum requirements. You deserve much more.

To build a better post-pandemic future, Scott will focus on:

- Economy. Stabilizing our economy after pandemic disruptions and inflation.
- Jobs. Developing high wage Jobs of the Future on the frontiers of science and technology
- Chips. Championing global leadership for Oregon’s semiconductor industry.
- Homeless. Funding transitional housing to end our homelessness crisis.
- Modernize. Modernizing public services to be innovative and responsive.
- College. Innovating to cut cost, increase access, reduce student debt.

Scott brings skills and experience that can make a difference in Washington:

- Practical experience with cutting edge technology from Cloud to AI.
- Work as a Change Agent from African villages to the halls of Fortune 500 companies.
- Deep skills innovating and troubleshooting across large organizations.
- A clean slate with no favors to repay, no status quo to uphold.

The case for change

- We are running out of time to solve our biggest challenges in a world growing more unstable by the day.
- We urgently need new ideas in Congress.
- The incumbent has had 10 years - Isn’t that enough?
- This is your chance for a change.

Last, Scott believes our democracy will be tested in 2024. In advance, we must try harder to expand the Democratic coalition to more rural and working-class Americans and change the electoral math.

On May 17, we urge you to choose a Bold New Future and give Scott a chance.

Cody Reynolds

Democrat

Occupation: Business Owner

Occupational Background: Business Owner, Advisor, Investor, Soldier

Educational Background: West Point Graduate

Prior Governmental Experience: Enlisted Soldier, United States Army Officer

I'm a proud veteran, and businessman. Growing up my family struggled and, at thirteen, I ended up caring for my brother with disabilities. We lived together in a trailer far from school and it was hard, but it taught me the importance of serving others. It's why I moved to Oregon to help my sister raise my nephew. Then, I joined the Army, served on the front lines in the Middle East, and graduated from West Point.

Following an injury, I was honorably discharged, and I had to find a new path. I knew whatever I did next I had to continue to serve. I understand the difference a good paycheck can make, so I started businesses that created hundreds of jobs where families could make ends meet, and I became a mentor for young entrepreneurs and disadvantaged youth.

Now, I'm running for office to make a difference for families like mine: hardworking Oregonians who just need a chance to get ahead. You deserve a representative who only works for you. That's why I'm not taking any money from corporations and big special interests, and funding this campaign myself.

We are at a crossroads; we can continue to send the same politicians to DC, or we can send fresh voices with new perspectives.

My priorities in Washington:

We must increase access to affordable, high-quality health-care. We have to get creative with options like making Medicare available to anyone who wants it.

We must address the homelessness crisis with urgency and compassion. We can pursue proven, community-based solutions like building more housing and expanding access to mental health and drug treatment.

Oregon should be the epicenter of the green technology revolution. Together, we must ensure that our economy supports our values and the dignity of our workers.

I ask for your vote.

Teresa has dedicated her career to expanding opportunity for everyone in our community. As our state representative in Salem, she's fought for a future where everyone in Oregon has a fair shot to succeed. As our Member of Congress, she will continue fighting for Oregon in Washington DC.

Andrea Salinas for Congress

As the daughter of a Mexican immigrant, Andrea’s parents taught her that a better future for their children was worth fighting for.

Today, as a mom and State Representative, Andrea is driven by those values, dedicating herself to fighting for her daughter—and every Oregonian—so we can build a stronger, healthier future for the next generation.

Andrea has been on the frontlines fighting for:

- **REPRODUCTIVE RIGHTS** – When Trump attempted to block abortion access, **Andrea helped pass the nation’s strongest reproductive rights law** that protects Oregonians’ right to choose. In Congress, Andrea will fight to protect reproductive health care.
- **AFFORDABLE HEALTH CARE** – When prescription drug prices were getting out-of-control, **Andrea stood up the pharmaceutical industry to hold them accountable** and passed a bill that lowered drug costs for Oregonians. Health care is still too expensive – Andrea will work to allow Medicare to negotiate to reduce drug costs.
- **CLIMATE ACTION** – Andrea knows we need urgent solutions to our climate crisis. Her record of standing up to corporate polluters to reduce carbon emissions, protecting clean air and water, and putting Oregon on a path to 100% clean energy is why **she’s the only candidate in the race endorsed by the Oregon League of Conservation Voters**. We can trust Andrea to take bold action to protect our environment for the next generation.

Andrea is ready to bring our fight to Congress and get to work for progressive change for Oregon families.

Prior Governmental Experience: Chair, Oregon Medical Board, Planned Parenthood Advocates of Oregon

My dad struggled with mental illness and addiction, never getting the help he needed. Fortunately, my public school teachers provided me with the support I needed to succeed. In medical school, I worked multiple jobs to pay for my education while raising my children. For the last 30 years I've cared for thousands of patients, including on the frontlines of COVID. I'm running for Congress because I know firsthand the problems with our fragmented healthcare system. I will fight for a healthier Oregon: from access to affordable health care, increasing mental health providers and substance abuse programs, tackling our homelessness crisis, to protecting reproductive freedom.

Working Harder for a Healthier Oregon

"My friend, and fellow physician, Dr. Harder has been there for us since day one of the pandemic, caring for her patients and saving lives in Salem. In Congress, I know that Kathleen will always put our health and safety first," **Trevor Phillips, MD, Salem City Councilor**

"As a practicing physician for 30 years, Kathleen knows how homelessness and mental health struggles impact health and safety for so many families throughout our community. I'm supporting Kathleen Harder, because she will push for more affordable housing and mental health services to help people get back on their feet," **Vanessa Nordyke, Salem City Council**

"Dr. Harder is the only person running for Congressional District 6 that lives, works, and has raised a child in Salem. I know she will take the concerns of the Mid-Willamette Valley to Congress and fight for the people of our community," **Former State Rep. Brian Clem**

"Dr. Kathleen Harder has my full support for representing the new 6th Congressional District. She knows the people of this district better than anyone else in the race," **State Rep. Paul Evans**

A Scientist Who Will Tax the Rich and Fight Climate Change

I'm a scientist from Tigard. I grew up in a union family and worked my way through college—earning my PhD researching groundbreaking renewable energy technologies to combat climate change. I've seen firsthand how the wealthy and corporations pollute our environment and exploit workers.

Real progress requires standing up to the dark-money billionaires and corporations who put profit before people. I will pass bold solutions to climate change, like the [Green New Deal](#), push for single-payer [Medicare for All](#), demand a [wealth tax](#) on the top 1%, work to [raise wages](#) so everyone can afford to live in Oregon, and [expand Social Security](#). I have never taken corporate contributions, and I never will.

Matt West: Bold Action to Save the Planet

- I know [stopping climate change will take bold, new solutions](#). I'll use my scientific background to push for America to be carbon neutral by 2035 by putting a price on carbon, holding corporations responsible for their emissions, and funding private and public carbon capture.
- [A lifetime member of the Democratic Socialists of America, I am the only candidate in this race dedicated to taking on big corporations and the super wealthy so regular people can get ahead](#). I supported Bernie Sanders in both presidential primaries and I strongly support single-payer Medicare for All. I'll never stop fighting for a large wealth tax on billionaires.
- [Trump and the Republicans who supported the January 6th attacks must be prosecuted](#). I want to put science back into our democracy by tackling misinformation and bringing truth back to Congress. That means holding Trump and his followers accountable.
- [We'll bring progressive values to Washington](#). Black Lives Matter. A woman's right to choose isn't up for debate. Housing is a human right.

US Representative, 6th District

Carrick Flynn

Democrat

Occupation: Disaster Prevention Specialist

Occupational Background: Economic Development

Educational Background: University of Oregon, Yale Law School

School

Prior Governmental Experience: Worked with the White House and Congress on pandemic prevention and bringing good-paying computer chip jobs back to Oregon

I spent my career fighting poverty and risks from pandemics and other disasters, because I know what it means to have one moment change a family's trajectory. Growing up in rural Oregon, my family went from broke to homeless when we lost everything in the flood of '96. Fortunately, I got a one-in-a-thousand opportunity to attend UO when I won a scholarship. I got another one-in-a-thousand opportunity when I was able to attend Yale Law. But here's the thing—poor kids in Oregon shouldn't have to get as lucky as I did to build a good, secure life. I know what it's like to live without a safety net and to hit the ground hard when you fall without one. We need more people in Congress who understand the struggles working families face.

I'm running for Congress to focus on long-term solutions for Oregonians: bringing more high-tech jobs to Oregon, building a strong clean energy economy, and preventing disasters—like pandemics—that can destroy so much so quickly. I know the life-changing value of a good job. I know the importance of providing Oregonians without a college degree the opportunity to earn a family-supporting wage, with healthcare and a secure retirement. If elected, I will bring expertise to the issues that matter most to Oregonians and will deliver real solutions—not partisan politics.

I am proud to be endorsed by so many, including:

- Andrew C. Weber, President Obama's Assistant Secretary of Defense for Nuclear, Chemical & Biological Defense
- Frank Bubenik, Mayor of Tualatin, Oregon
- Dr. Kevin Esvelt, Oregonian, MIT, Inventor of CRISPR Gene Drives, Biosecurity Expert

Occupation: State Treasurer

Occupational Background: Oregon Treasurer, Oregon State Representative

Educational Background: University of Washington,

MBA; Willamette University, BA.

Prior Governmental Experience: 2017-present; State Representative, 2007-2016

"I'm frustrated with where Oregon is today. We must urgently provide homeless Oregonians with safe, stable housing and access to mental health and addiction services while cleaning up our public spaces; get illegal guns off our streets and reduce gun violence; and make sure schools stay open, so our kids don't fall further behind. As governor, I will challenge the status quo in Salem to create a brighter future for all."

- Treasurer Tobias Read

A Vision for a Stronger Oregon

A parent of two kids in public schools, Treasurer Read believes we should measure Oregon's progress by the well-being of our kids. As governor, he will create a universal pre-K program for every child, expand access to affordable childcare, and make raising literacy and graduation rates a top priority. He'll build more housing of all types to bring down the cost of living, get tough on gun violence, and continue Oregon's leadership in investing in clean energy to combat climate change.

A Record of Results

Treasurer Read created a program that helped more than 100,000 Oregonians save over \$150 million for retirement, and tens of thousands save for college. He's cut Wall Street fees, saving taxpayers more than \$500 million. He's doubled the state's investment in clean energy, and led the charge to create the Elliott State Research Forest. As a legislator, he was a leader in passing full-day kindergarten and establishing Oregon's rainy day fund.

"Oregon needs a Governor with a statewide record of tackling tough issues, delivering results, and fighting for Oregonians living in every corner of this great state. That's why I'm supporting Tobias. Oregon needs his proven and steady leadership."

A BETTER OREGON FOR OREGONAINS

I want to improve Oregon's education, clean Oregon's air, help the cities and counties, help the homeless/houseless and stop the shootings.

Education: I want four special classes about nine weeks long for seventh graders. Why seventh graders? Because that's when they become teenagers and is a TUFF TIME OF LIFE!

1. Money Management: This will give them a good understanding of saving and investing.
2. Civics: Every American needs to know how our government works. Maybe they will take over some day.
3. LifePlan: What do I want to do in life? This class will explore fields of work.
4. Law Related Education: The students will study the Court System. They have class time and a tour of the Court House. When I was a Director of the Multnomah Education Service District, the managers of the program said "IT WAS VERY EFFECTIVE."

The schools must stress throughout the school experience that you must graduate from high school. If you don't graduate from high school you may fail in life and become an economic cripple!

Clean Air: There are many big things in the works for clean air. We can aim is to use cleaner fuels. Many newer vehicles can use E-85 gas. I will run Oregon State vehicles on E-85 gas.

We need to help the cities and counties to help the homeless/homeless. The state can and will aid to solve this problem!

Stop the shootings: If the local police will not or can not stop the gun violence the State Police or National Guard will step in. It must end!

Elect JOHN SWEENEY for Governor. He will be working for you. jsweeney88@gmail.com.

Patrick E Starnes

Democrat

Occupation: Starnes has worked as a freelance cabinetmaker for over 30 years. Currently, he and his wife make their living restoring old homes.

Occupational Background:

Besides furniture-making, Starnes also worked as a truck driver, bartender, and teaching assistant.

Educational Background: Starnes graduated from the University of Oregon with a degree in History.

Prior Governmental Experience: Starnes has over ten years of experience as an elected school board member. He has served on the Soil and Water District, Roseburg City Parks Commission, City Budget committee, and on the board of Umpqua Watersheds fighting for old-growth.

GET BIG MONEY OUT OF POLITICS:

Oregonians know that big money is corrupting our democracy. Starnes is the only candidate for governor who is taking no corporate dollars and no PAC money. **His loyalty is to the people of Oregon, not wealthy interests.** He was instrumental in getting Campaign Finance Reform on the ballot in 2020. He promises to set campaign contribution limits in his first 100 days.

OHP FOR ALL:

Starnes is the only candidate for governor calling for universal, single-payer healthcare by improving and expanding OHP to all Oregonians. OHP4All would be funded by a wealth tax on the largest corporations and on junk food producers who contribute to poor health outcomes.

HOUSING AND EQUITY:

By creating the Oregon Shelter Fund, we can tackle the housing crisis and the state can finally use matching local and federal dollars to provide affordable housing and vital services. Revenue will be generated from a Vacancy Fee on abandoned homes, often held by out-of-state banks who use them as tax write-offs.

Starnes will promote Inclusion & Diversity with effective legislation to advance equity to all regardless of race, ethnicity, age, gender, sexual orientation, disability, or economic status.

WILDFIRE/CLIMATE:

Climate change is happening. We must fully fund public transportation that is fast, frequent, free, and carbon-neutral, while protecting carbon sinks such as healthy forests and soils. The time is now!

George Carrillo for Governor

Effective Leadership Committed to Oregon

George Carrillo is a champion for the unheard voices of Oregonians. He believes that change cannot effectively happen without community engagement, accountability, equity, inclusion, and connection. George believes in the power of effective leadership where outcomes don't come at the expense of our workforce and their well-being. He is running for Governor to bring unity in advocacy without creating further division. He sees the beauty, strength, and opportunity in people to make our state a better place.

Dear Fellow Oregonian,

I'm a proud father, husband, Marine Corps disabled veteran, prior Sheriff Deputy, and Oregonian. I'm running for governor because health, housing, and opportunity shouldn't be determined by your background, location, and privilege. As a person of color that has climbed the ranks in state leadership, I understand the power dynamics of oppression and can identify it in state systems. The higher I move up, the clearer the problem becomes. I'm not a career politician. Our government doesn't understand the populations they serve. It's time to fix what's broken in Oregon politics. We face incredible challenges, but together we can achieve more than any single person could ever do alone and I'm confident that together we will overcome them.

I ask for your vote to:

- Disrupt the school to prison pipeline
- Implement a new economic strategy for urban and rural Oregon to expand clean, renewable energy projects to create jobs and protect our environment
- Increase funding to unions and not allow another PERS reform bill that cuts public employees' retirement funds, especially when there were and are always other options to manage the state's debt.

Educational Background: University of Oregon, B.S.; University of Washington, M.A.

Prior Governmental Experience: State Representative (2007-2022), Speaker of the House (2013-2022)

Proven Progressive Fighter Ready to Tackle Oregon's Challenges

I started my public service twenty years ago at Oregon Food Bank, trying to make things better. It wasn't just about food. People needed good jobs, affordable housing, and quality health care.

I ran for office to be a **force for positive change**, fight for our communities, and deliver results for all Oregonians.

As Oregon's House Speaker, I fought to:

- Support working families by **raising the minimum wage, guaranteeing paid sick leave**, and starting a paid family leave program.
- **Address our crisis of homelessness** by protecting renters during the pandemic, increasing funding for affordable housing construction, and converting unused motels into shelters.
- **Invest \$1 billion more per year in public schools** to help more Oregon kids graduate and succeed.
- **Fight climate change** by putting Oregon on a path to 100% clean electricity by 2040.
- **Keep our communities safer from gun violence** by expanding criminal background checks.
- Stand up against Trump's attacks on women by **passing the nation's strongest abortion access law**, guaranteeing access to reproductive health care for all Oregonians.

I'm running for Governor to tackle our state's biggest challenges:

- Reduce homelessness and make housing affordable.
- Expand access to mental health and substance abuse treatment.
- Protect the environment and create jobs in clean energy.
- Fight to protect hard-working families from the rising cost of living.

Democrat

Occupation: Representative, Care Oregon

Occupational Background: customer service

Educational Background: Duquesne University

Prior Governmental Experience: n/a

Oregon desperately needs a well-informed hard-working everyday citizen willing to use the governorship to enact progressive change.

I am a grassroots candidate unlike Kotek and Read, who are part of the elite Democratic establishment backed by special interests/big dollar corporate lobbyists. Too many Oregonians live the paycheck-to-paycheck struggle, just one financial disaster away from homelessness.

As an immigrant who gained citizenship through adoption, I learned at a very young age to be a fighter for rights, being born without arms and surrendered to an orphanage at birth.

To learn more about our progressive campaign visit <https://www.trimbleforgov.com> or call 503-383-9693 to speak with me directly.

I will never be caught sitting on my hands, as I will be working hard for you:

- Pro-Choice, Pro-Union, Pro-Environment, Pro-Racial Justice, Pro-LGBTQ+
- Forgive/make free in-state tuition/debt
- Grant state residential status to those without documentation to participate in state programs and pay taxes
- Pardon many nonviolent/nonsexual related former state convicts
- Expand OHP to all Oregonians regardless of income
- Curtail healthcare costs/prescription drug prices
- Subsidize medical tourism where/when appropriate
- Lower rents of middle-to-low-income by at least \$100 at multi-unit apartment properties initially
- Cap rents of middle-to-low-income to 30% of their income ultimately in my first term
- Ban all rent related nonrefundable fees including application/pet fees
- Raise minimum hourly wage to \$15
- Institute a living wage of \$25 hourly at all companies reporting billion dollar plus earnings quarterly along with profit sharing
- Require all corporations pay a use-of-public-infrastructure tax
- Repeal bike excise tax replace with tax incentives/credits
- Earthquake retrofit infrastructure

I will defend our environment by improving accessibility of commuters on foot/bike or fare free 24/7 public-transit within our urban communities, and expanding safety distance to 6-feet for bikes. I will transition more cars to be electric/hydrogen by 2030. I will drive a massive reduction in cost of utilities while transitioning to renewables and weatherizing existing infrastructure.

Governor

Wilson R Bright

Democrat

Occupation: Retired business owner

Occupational Background: Owned and operated Rose City Textiles, RCT Fabrics and Portland Apparel Development Co-op

Educational Background: 5 times around the world

Prior Governmental Experience: Lifelong Democratic Oregon Voter

If I were to be elected governor, I would put a plan into action that would alleviate the homelessness situation. My plan returns thousands of citizens back to living productive and healthy lives, simultaneously creating clean streets that we all can feel proud of.

A Plan to End Homelessness in Oregon

I end homelessness by building safe places, however I would do so out in the countryside to foster an environment removed from the availability of hard drugs. (Meth, Crack, Heroin, Fentanyl). I would create three 40-acre safe places in the country: two in the Willamette Valley and one in Deschutes County. Each center will provide a safe place that includes a cafeteria, drug rehabilitation, medical facilities, job training, and job placement for over 3,000 people each. They include:

- Basic food provided for free, option to work for extras.
- Private 8x8 shelters with heat/ac. Solar canopy provides electricity.
- Guaranteed employment at minimum wage working at the center, being a street cleaner or tree planter.
- Automatic savings plan for when ready to leave.

Affordable Housing and Jobs

My plan is to additionally develop affordable housing units in every major city. Selling these affordable units back to the citizens. A portion of these units will be available for ownership through a rent-to-own program. Work, pay rent, stay clean and earn your own home. Prosperity awaits!

Education

It's time we revolutionize the education system to raise expectations and raise results. Let's use technology to empower our kids to achieve more.

Environment

Our climate is ideal for growing carbon-reducing trees. What if we become pioneers in carbon capture with innovative planting to create a new green energy future for Oregon.

Climate change is Oregon's biggest issue. It drives water shortages and wildfires, destroys homes and farms, and harms tourism. It threatens our prosperity whether we're red, blue, rich, poor, urban or rural. Our Governor and Legislature have plenty to do, but legislation is slow while our own decisions can turn on a dime. We are all in this together, so we voters must drastically reduce our own fossil fuel use and insist that our elected representatives follow our lead at the state level. We can do this: Voter's Pamphlet readers are community leaders!

Buying electric leaf blowers, home heating / air conditioning systems and hot water heaters means investing in our future. If you're lucky and you have the means, upgrade to an all-electric HVAC, hot water heater or leaf-blower right away. Greenhouse gas emissions go up as income goes up, so it's double the bang for the buck! If you don't, replace a broken fossil fuel powered item with an electric one. Air travel is a huge source of emissions. Don't cut out flying completely, just cut back. Vacation in Oregon!

Natural gas is 95% methane. Methane leaks all the way from the fracking well to our kitchen stoves. Methane traps 120 times as much heat as CO2 when it has just leaked into the atmosphere. It also breaks down over 12 years to be only 25 times as bad as CO2. The fastest way to decrease our atmosphere's heat trapping effect right now is to eliminate as much natural gas as possible.

Ask your candidate what their carbon footprint is. Mine's about 5 tons (carboncalculator.com) – no offsets. Tell your friends you are voting and donating based on who you think will do the most to fix climate change.

Oregon public schools changed my life. They're where I experienced stability and opportunity. Investing in our schools is crucial for our future. **That's why I've worked for our schools for 13 years.**

Today, our schools are ground zero for political battles, losing sight of students. **Not on my watch. Elected Chair of our school board unanimously by a politically divided board, I've brought people together in contentious times. Real progress for students includes:**

- A K-12 Spanish-Immersion program and Career and Technical High School – innovative programs to prepare students for success.
- Increasing school counselors and psychologists as kids face record mental health needs.
- Working with parents, educators and administrators to make our district the first in the area to return to in-person instruction. Safely.
- Raising graduation rates to 99%.

As a small business owner and mom of three public school students, I know Oregonians are stretched thin. In the Senate, I'll put division aside, work hard, fight for our public schools and:

Making Oregon the Healthiest State

Elizabeth joined the Oregon Senate to make Oregon the healthiest state in the nation. Ten years later, her accomplishments include: advancing Oregon's Coordinated Care system, raising the legal age for tobacco to 21, passing the nation's first universally-offered nurse home visiting program for families welcoming new babies, and investing millions in behavioral health and addiction services.

"Elizabeth's commitment to helping people reach their potential by ensuring recovery and wrap-around services means many more Oregonians enjoy healthy, productive lives."
 Alan Evans, Founder, Helping Hands Reentry Outreach Centers

Supporting Local Business

A long-time resident of Northwest Portland, Elizabeth knows small businesses are the backbone of our community. Throughout the COVID-19 pandemic, Elizabeth worked to support businesses across the state, allocating state loans and grants during uncertain economic times.

"Elizabeth understands that small businesses make a big impact in Oregon's economy. We need her advocacy for us in state government." Erica Lurie, Owner, Garnish Apparel

Fighting for a Healthy Environment

Elizabeth knows a healthy Oregon also means a green Oregon - which is why she has supported common-sense climate policy throughout her career. She has secured millions in investments in conservation, water infrastructure and planning, and clean energy jobs.

"We need seasoned legislators in Salem to help us tackle increasingly tough issues. I trust Elizabeth to make smart investments with our tax dollars and work across the aisle to support both urban and rural Oregonians. I'm proud to endorse her." Jim Doherty, Morrow County Commissioner

"Ben is a committed leader with a hopeful vision for Oregon's future. No one will work harder to deliver results for all Oregonians."

- Governor Barbara Roberts

Lower the Cost of Living: I support reducing the cost of healthcare and prescription drugs, expanding affordable childcare options, and creating more living-wage jobs to promote economic mobility.

Build a World-Class Public Education System: We can lift academic achievement by investing in preschool for all, reading programs, and CTE. We must support educators and lower the cost of higher education.

Invest in Affordable Housing and Address Homelessness: We must build more housing, make purchasing easier for first-time home buyers, and expand access to mental health and addiction services.

Protect Oregon's Environment: I love this state and believe deeply in protecting the natural beauty that makes it special. We must combat and build resilience to wildfires, droughts, and the consequences of climate change.

"Ben is exactly what Oregon needs right now — a bright, visionary public servant committed to solving our most complex problems in a way that builds community."

Since 2015, I have sought to be a steady and thoughtful voice for Beaverton and SW Portland. There is yet more to do, and I would be honored to continue serving as your State Representative.

Economic Recovery - We will be rebuilding our economy for many years. We must support small businesses and workers, encourage local entrepreneurs, and invest in workforce training. I am also working to reduce the cost of child care, health services, and housing to help boost family budgets.

Healthy and Safe Learning - I seek to get our schools back to normal. That means keeping facilities open, supporting teachers and staff, and prioritizing safety and face to face learning for students.

Houselessness is a Tragedy - We need a multi-part response, including affordable housing, beefing up shelters and support services, and discouraging urban camping.

Community Safety - Community safety and an equitable justice system are vital priorities. Our enforcement resources should focus on preventing violent crime and protecting our neighbors.

Healthcare

As a doctor and a mom, I know how important healthcare is. I also know that **access** to healthcare means little if you can't afford your medication, can't visit the doctor because of high deductibles, or can't miss work for an appointment. We all know the system is broken, and I will fight to fix it so you and your family can get and stay healthy.

Affordable Housing

We need 140,000 new homes right now to house every Oregonian. These homes must be affordable so working- and middle-class families can live where they work and play. Long commutes take time away from family and worsen the climate crisis.

Workers' Rights

Farm workers, who have worked throughout the pandemic to feed us, just won the right to overtime pay in Oregon. But we must do more. Like all workers, their voice deserves to be heard, including through the right to form a union, bargain collectively, and have safe workplaces especially with climate-induced wildfires and extreme heat. Workers' rights advance social and economic justice.

Big Corporate Donations

My opponent has accepted thousands from oil and gas companies. I do not accept donations from organizations that do not align with my values and will never accept money from corporate PACs.

Change is Never Easy

We need new leadership in Salem. I will work with anyone ready for bold change. Join us as we build coalitions for an Oregon that works for everyone.

I will help build an Oregon that works for all of us, and ensure that our government preserves the rights of all Oregonians while making sure everyone has equal access to every opportunity they can.

The cost of living is rising, making it harder for families and seniors on a fixed income to live comfortably. This, along with a lack of affordable housing is contributing to the homelessness epidemic. I will work to ensure that jobs with liveable wages are readily available.

I believe the Democratic ideal is for every person to have an equal voice in our government and our society, but too often it feels like every *dollar* gets an equal voice, instead. I will work to reduce the corrosive effect money is having on our politics.

The legislature made progress on several issues during this year's short session, including improving health care coverage, fair treatment for agricultural workers, protecting our environment, addressing our housing crisis, and other issues. I will continue to build on that work, furthering progress on these issues and many more they didn't address. I'm asking for your vote so that we can keep Oregon moving forward together.

- Addressed our homeless crisis with rent relief, housing units, shelter beds, and programs to support homeownership.
- Provided financial support to businesses to respond and recover from the pandemic.

Jennifer Kinzey

Occupation: I am an attorney doing public defense in Hillsboro. I represent kids, mothers, and fathers in Juvenile Dependency cases.

Occupational Background: I have been a lifeguard, a server, a cafe manager, a valet, a prosecutor, and a public defender.

Educational Background: BA in Political Science and Theatre, Juris Doctorate, Masters in Law in International Law and Governance.

Prior Governmental Experience: Prior to working in public defense, I worked in the Multnomah County District Attorney's Office as a Special Prosecutor applying criminal law and alternative resolution in Community Court. I worked to resolve cases with services instead of jail.

I am running for House District 34 to put **What We Value** into our laws and our budget.

My stance on a few of the issues affecting the daily lives of those in my district:

- **Childcare:** We need universal childcare that includes home-based daycares to increase access to high-quality, culturally-informed childcare.
- **Infrastructure:** We need a better commute for those who work in healthcare, hospitality, tech, and other industries. Sunset Highway (26) needs better signage, revision of redundant exits, and reworking how one-way and two-way traffic feed into the highway to reduce accidents and slow-downs.
- **Housing:** We need affordable housing in every neighborhood. We need to stop moving homeless camps around between neighborhoods and actually coordinate services to get them housed and off the streets.

I vow to seek out and listen to people affected by the problem; DAs and public defenders for criminal laws, healthcare workers for healthcare laws, construction workers and unions for laws on bidding for State work, and our BIPOC, disabled, queer, immigrant, and any disadvantaged communities on all legislation because every law impacts each group in a different way. I promise to use my skills to put **What We Value** into law effectively.

Occupation: Small business owner; Advocate

Occupational Background: Journalism; Meyer Memorial Trust Advisory Committee, Black and Beyond the Binary board Treasurer

Educational Background: Prescott College, BA Journalism and Multimedia

Zeloselos Marchandt: The Right Choice for Beaverton

Just like you, Beaverton is my home. It's where my partner and I chose to raise our son, enjoy the natural beauty, and grow our small business. After nearly four decades living in Washington County, I'm ready to represent us in Salem where I can keep fighting for Beaverton families.

Housing & Homelessness:

We can't wait to solve our homelessness crisis. I've been a leader in making housing procurements more accessible to the community. Our safe neighborhoods need more affordable housing, more first-time buyer programs, emergency shelter, renter protections, and wraparound services so more people can have a place to call home.

Working Families and Civil Rights:

I will continue supporting our essential workers and *all* families, regardless of gender identity or sexuality, with fair wages, strong safety protections, and access to affordable, high-quality healthcare, including abortion.

Improving Schools:

As a parent and a guest teacher, I know we need to invest in schools so students receive the instruction they need five days a week. We need peer support programs for educators so we can retain more talented teachers and teachers of color.

Combating Climate Change:

My business, like many in Oregon, depends on natural resources, preserving and honoring the land we grow food on. I'll bring bold leadership to the fight for our climate, because the next generation depends on us.

Farrah Fights for Human Rights!

Promised opportunities are not available to many of us because the status quo has prioritized corporate greed over human need. With your support, I will fight to guarantee every Oregonian's vital needs are met.

The rising cost of **housing** hurts working families, our economy, and leaves thousands of our neighbors homeless. Bringing down the cost of housing by expanding renter protections and establishing a right to rest will be my highest priority.

So many in our community still can't afford the **healthcare** they need. I will fight for a single-payer – Medicare for All style – system so you don't have to worry about costs or fighting insurance companies when you need healthcare.

Climate change is no longer a problem of the future, as recent extreme weather events show. We need a just green transition that addresses the whole picture by regulating big polluters, creating good jobs, and providing safe landing places for workers in fossil fuel industries.

Community leaders endorsing Farrah:

"I've known Farrah from her time on the Human Rights Advisory Committee. She has always been an unrelenting advocate for human rights and she shows up time and time again for candidates and her community. "I have known Darin Harbick as a coach and community builder. His character and competency are undeniable and his leadership is exactly what Oregon needs."

First Things First - Constitutional Conservative

Darin Harbick will support our US Constitution and the rights granted therein. This includes a rock solid defense of the 2nd Amendment - no compromise. Freedom of speech guaranteed by the 1st Amendment - taking on the titans of the tech industry - no more censorship by tech giants.

Fixing our Forests

Oregon's forests are one of the worlds most renewable resources but those forests must be managed sustainably while providing access to Oregonians.

Fixing the Southern Border

Open borders means the Mexican cartels are trafficking drugs and individuals into the United States. US sovereignty demands we secure the southern border now.

Stop the spending - Balance the budget - Stop inflation

As a small business owner, Darin can't spend more than he brings in. Our government must stop the insane spending. Inflation is killing the middle class and Oregonians on fixed incomes. It's time for a balanced budget amendment and fiscal responsibility.

PARTNERS TO SAVE AMERICA

Fellow Oregonians, as a nurse and wildlands firefighter, I have devoted my professional life to saving the lives of others -- sometimes at the risk of my own. In 1990, while with the John Day helitack crew, I entered a firestorm to rescue a civilian bus driver. For this, I received the U.S. Agriculture Department's highest award.

Today, America's history and institutions are under assault. Patriots with heroes' hearts must step to the fore. I ask for your vote and prayers as we strive together to save our beloved country.

I will oppose the reckless Democrat spending that kills jobs, explodes the national debt, and fuels inflation.

BORDER SECURITY

Democrat open-borders policies have unleashed a tidal wave of illegal immigration that threatens our public safety and national security. We must:

- Mandate employers vet new hires for legal U.S. presence;
- End "catch-and-release" policies that free illegal aliens into U.S. communities;
- Complete the border wall.

PUBLIC SAFETY

Across America, crime is exploding. Ron Wyden's response? To co-sponsor a bill to make policing harder and more dangerous. When elected, I will champion policies to protect those who protect us.

FOREST MANAGEMENT

Last summer, catastrophic fires burned hundreds of thousands of acres, destroyed homes, and snuffed out lives. One reason: "Environmental" policies that restrict logging, thinning, and grazing on public lands. As your U.S. Senator, I will work to reinstate these proven ways to clear the undergrowth and diseased trees that fuel wildfires.

RIGHTS

I support:

- The right of all, born and unborn, to life;
- The right to keep and bear arms;
- And the right to free, fair, and secure elections untainted by fraud.

Our corporate-owned government has waged its war on 'WE THE PEOPLE! Thanks to Democrats and many corrupt Republicans, what used to be a free society, is now regressing into a form of modern slavery. The globalists have decided that our current imperialism, economic elitism, and social destruction are not enough for their greed and their thirst for power, but totalitarian technocracy is the ultimate goal. The past two years showed us how DC's politicians are standing against 'we the people' by using the COVID event to advance their heinous agendas. Agendas started with destroying small businesses, transferring the wealth to the top, and continued with increasing government spying, forced unjustifiable isolation, limited freedoms, funding tyranny, censorship, and criminalizing dissent. This war, under the pretext of Climate Change, is now targeting our rights to private property, transportation, and the worst of all is destroying our food supply.

I am running for peace, integrity, government accountability, and to defend our targeted family values, our rights to free expression, and to bear arms. I want to protect our sovereignty, put the government in its small place, and bring back the economic power to the people by localizing our economy, ending the 'New NAFTA', eliminating the Federal Reserve, and cutting our spending-driven taxes.

Globalizing our economy and concentrating the political power in the federal government have weakened the people's power, hijacked our democracy, destabilized our communities, and allowed the welfare state to cripple this country. The founding fathers understood that decentralizing the political power and recognizing the sovereignty of the people and the states are the only way to ensure that the government does not become tyrannical.

This year, Republicans have the chance to send a different message to the entire country, that 'this is the time for a REAL change and it is time to fight'. Choose a fighter!

- Husband

Born and raised in Prineville Oregon, I worked in the tire industry for 22 years and have worked in the datacenter industry for 9 years. I joined the Oregon Army National Guard after 9/11 at the age of 29 to serve my State and Country. After a tour in Iraq in 2010 I was appointed to the Prineville City Council in 2011 and was recently elected Mayor in 2020.

My family are loggers, farmers, cattlemen, and ranchers in Oregon who are still very active in all those industries. I understand what rural Oregonians want and need in a Senator and I will deliver for them in the US Senate. As a city Councilor and as Mayor of Prineville, I have worked on many projects that can be replicated across the State. I have been a direct part of projects involving natural resources, water mitigation, and publicly owned property that have put Prineville on the map as a leader in the State.

I am proud to say that I am the only Mayor in Oregon that passed legislation which was judicially validated and could help businesses fight Covid related fines from OSHA. I have also listened to the residents of Prineville and passed a resolution stating that myself, and the city council support the freedom of its citizens to choose their own healthcare and to be free from government mandates that would force them out of work. I will serve the citizens of Oregon in the US Senate with the same servant mentality as I have the citizens of Prineville and put the power back in the hands of the people.

Federal Government fails financial audits and has an unsustainable business model. Unchecked it will take us, our children, their children, the Constitution and the Bill of Rights straight to the bottom.

We all know:

- The National Debt is \$30 Trillion and growing. Federal agencies disregard fiduciary responsibilities and minimal garden-variety business practices.
- Trimming the budget and/or Federal Agencies by 5%-10% will not eliminate the debt any better than minimum credit-card payments.
- Most politicians believe in remaining in office first and foremost. Continually spending your money pandering for votes, passing laws that disparage your rights, and making trespassing, crime, drug use and anti-social activity your problem by exonerating perpetrators.
- 'Establishment Politicians' never take on "the problem." They "happy-talk" the symptom to get you riled up, then tear down our Nation by cooperating with socialist solutions.
- "Electable Candidates" always meet "half way" on tyrannical and unconstitutional legislation. Making more problems via their "solutions" and ignoring the problems that were created by their previous "solutions."

It is time to Hire someone with the qualifications and backbone to revive our ailing Republic:

- Strong Moral Compass and sworn commitment to the US Constitution
- 40 years of small business
- 30 years corporate leadership
- Manufacturing, Farming, Administration, Real Estate, Finance, Quality Management
- 25 years Corporate Boards
- 20 years Business/Financial Consulting
- 8 years local government

I have Legislation planned that will:

- Drastically cut Federal Spending
- Return Control of Oregon's Resources to Oregonians
- Transfer control over taxation and spending to States
- Prevent tyrannical dictates by Federal bureaucrats
- Address 'Minimum Wage'
- Return "Rule of Law" to our streets
- Stop hate rhetoric of unconstitutional separatist groups
- Stop legislators from promoting anti-nationalism and riots

I believe in God, the Constitution, YOU and Oregon's future! Put me to work saving your Freedom, Rights and Liberty.

Nathan A Sandvig

Republican

Occupation: Executive, Rye Development

Occupational Background: Energy Development

Educational Background: United States Military

Academy at West Point, BS George Washington University, MS

Prior Governmental Experience: Captain, U.S. Army

Nate Sandvig is running for Congress to bring normalcy to life and sanity back to Washington, D.C. As an Iraq veteran, West Point graduate, energy executive, and father of four, Nate is running for Congress to honorably serve his country as he has before as a Captain of the U.S. Army. Nate knows what it means to protect our freedoms, and he'll bring his leadership and common-sense to Washington as our next Congressman.

Following his father who answered the call to serve in Vietnam, Nate served as a leader both in peacetime and in war in the 101st Airborne Division, where he deployed to Bosnia, and the 2nd Infantry Division in Iraq. Nate's record of service makes him the right man for the mission of getting life back to normal and bringing sanity to Congress.

Nate knows what strong leadership on the world stage looks like against authoritarian regimes and condemns the incompetence of Biden's Afghanistan withdrawal and any appeasement of wars of aggression by China or Russia. As an energy executive, Nate fights to secure America's energy independence right here at home, a pillar of true prosperity and national security, and will advocate for full funding for border security and enforcement.

In Congress, Nate will work to rein in the reckless spending that's driving inflation, causing gas prices and groceries to skyrocket, will vehemently oppose the Defund the Police movement, and stand with parents to prioritize children over teachers unions. Nate will govern based on common sense — and will leverage his proven leadership experience to serve and fight for you in Congress.

Nate has called Oregon home for over a decade. He is a proud father to four energetic and amazing children—James, Pearl, Jack, and Bo.

Integrity. Compassion. Excellence.

I've lived in the Willamette Valley for over 47 years and I'm running for Congress because we need leaders who listen and bring people together to get results without compromising fundamental principles. That's how I've approached tough issues in law enforcement and as an Oregon State Representative. When it comes to the issues important to Oregonians, you'll always know where I stand.

- Better Government, Not Bigger Government

Mike Erickson: a Conservative Businessman, *Not* a Politician

Fighting Back Against Government Overreach

Politicians are determined to trample on your rights. We've seen it with mask mandates and efforts to take away your Second Amendment rights. I will fight against any **future overreach**.

Lowering Taxes & Bringing Back Fiscal Responsibility

Spending is out of control. Politicians nationally and in Oregon have made it their mission to put this country into more debt, causing inflation levels we have not seen in 40 years. Their actions are **hurting Oregon families**. As a small business owner, I understand that government spending and regulations are out of control. I will work to cut back regulations and rein in spending.

Guaranteeing Free & Secure Elections

Ensuring that our elections are free, fair, and not tainted by fraud is essential to our democracy. I will sponsor legislation that seeks to **ban ballot harvesting** and **require audits** of our elections when necessary.

Protecting America's Interests: At the Pump and the Border

Energy independence is a national security issue. It ensures that America can keep energy costs low for families. I will be a strong advocate to **increase US oil production** so that we can create jobs, lower costs for families, and increase security. We also need to **secure the border** to stop illegal immigration and drugs from coming into the country.

"Our lawmakers have not acted to prevent crime and lawlessness in the Portland metro area and Willamette Valley. Mike is the one candidate who will fight to support our hard-working police officers." – **David Bishop, Former Beaverton and Newberg Police Chief**

Occupation: General Contractor

Occupational Background: Contractor; Taxpayer Advocate; Radio Host; Gold Rush television show

Educational Background: Graduated Portland Bible College (1976)

Prior Governmental Experience: Governor Atiyeh's Task Force on Workers Compensation Reform; Klamath County Budget Advisory Committee; Chief Petitioner on numerous pro-taxpayer ballot measures

BILL SIZEMORE

No more Mandates and Shutdowns; No more lawless homeless encampments; No ignoring violent rioters; No teaching kids Wokeness or Critical Race Theory; No highway or bridge tolls

BALLOT MEASURE ACCOMPLISHMENTS

Bill Sizemore has saved Oregon taxpayers billions of dollars in property taxes. He successfully placed on the ballot good government measures to require voter approval for all tax increases; place 3% limit on real property assessment increases; make federal income taxes fully deductible on state returns; require just compensation for regulatory takings of private property, reform PERS; require English immersion for immigrant students; require schools to ignore seniority and keep the best teachers when there are layoffs; stop public employee unions from using public resources to collect political funds; and require obtaining employee consent before taking money out of their paychecks for politics.

BILL SIZEMORE

THE CANDIDATE PUBLIC EMPLOYEE UNIONS FEAR MOST

Public employee unions know that as governor Bill Sizemore will break the stranglehold they have on Oregon politics. Consequently, they have assassinated Bill's character, sued him for millions, and even tried to bribe him out of politics. But he has not backed down. Read the truly shocking details at www.FriendsofBillSizemore.com.

BILL SIZEMORE

COURAGEOUS, TESTED, DECISIVE

Oregon's next governor must not be someone who merely says they will be bold and unwavering. The stakes are simply too high. In this election, we are in a battle for the very soul of our country and Oregon desperately needs proven, conservative leadership to reverse Oregon's frightening downward slide. Bill Sizemore has proven beyond any doubt that he will stand up to the political establishment and be exactly the governor Oregon needs at this critical time. **Please vote for Bill Sizemore.**

Occupation: Multi-business owner, entrepreneur, tech CEO & cybersecurity expert.

Occupational Background: 21+ years building businesses from the ground up. Currently owns and operates two nationwide

high-tech companies that specialize in cybersecurity and telecommunications.

Educational Background: Lincoln High School

Prior Governmental Experience: N/A

TRANSPARENCY! TRANSPARENCY! TRANSPARENCY!

Oregon is a mess. Electing another politician will not fix it. We need a CEO who delivers results.

Nick Hess advocates for **high-quality education, smaller government, deregulation, fiscal responsibility, support of small business, lower taxes, and freedom for all.**

NICK'S VISION FOR OREGON

We must return Oregon to pristine conditions and protect our state for future generations. Nick envisions a state with clean and safe streets, low crime, and a thriving economy with high-paying jobs. With these improvements, Oregon will become a hub that grows, attracts, and fosters the next generation of leaders. That means raising the quality of education in our public schools and ensuring a prosperous future for our children.

AS GOVERNOR, NICK WILL

- Ensure 100% transparency of state data including: election, budget, healthcare & education.
- Decrease government regulation to support economic growth.
- Fund established organizations and proven models to combat the homelessness crisis.
- Enforce a zero-tolerance policy for violent crimes.
- Hire and train high-quality law enforcement.
- Fight for parents' right to take ownership over their child's education.
- Modernize Oregon's digital infrastructure.

"Nick reminds me of my uncle Vic. The Republican party didn't support his run in 1978 against established politicians but ran anyway and won because he knew he was the right choice for Oregon. Nick is what Oregon needs and he has my full support." - David Atiyeh

As a fiscally responsible, socially moderate Portland native, your vote for Nick gives Republicans a real chance of winning in November. Nick's campaign is a movement for all Oregonians that will bring us real conservative leadership for the first time since Vic Atiyeh 36 years ago.

But 325 words can't fix Oregon. Visit votehess.com to see what's possible.

Oregonians are Frustrated

With rising crime, homelessness, prolonged mandates, poor education, and failed leadership, many don't recognize our state anymore.

Dr. Bud Pierce has a Prescription for Oregon.

Bud Pierce is ready to heal our state. As a janitor's son who worked as a bag boy after his father died, Bud learned the value of hard work early. Bud went to medical school, joined an oncology practice, and got right to work treating cancer patients. Today, Bud tirelessly works over **70 hours each week, saving lives as a cancer doctor.** Now, Bud is ready to put that real-world leadership to work, saving our state.

A Plan for Oregon

Restore Public Safety. The first job of the government is protecting its citizens. We must **fully fund law enforcement**, arrest and incarcerate lawbreakers, and make our streets safe again.

Solve Homelessness. Create more permanent housing; **no more tent cities in Oregon.** Ensure people experiencing homelessness have access to life-saving resources and return to a productive life. Oregonians' public spaces need to be vibrant, clean, and safe.

End Government Mandates. The government has abused the power of mandates. **We must let citizens make their own decisions** about what's best for them and their families from now on.

Excellence in Schools. Oregon has one of the worst graduation rates in the nation. The Governor's solution was just lowering graduation requirements. **Oregon schools need to champion reading, writing, math, and science fundamentals.** Teach students how to think, not what to think.

Make Oregon Affordable. Government policies have caused prices of everything from food to gasoline to increase. Oregon families are suffering. We must lower taxes, support our small businesses, and get government out of the way.

Community Service: Board Member, Sandy Community Action Center; Board Member, Vietnam War Memorial Fund; Community Impact Award for Distinguished Service in Clackamas County

Leading the Fight Against Lockdowns

I orchestrated the statewide protest against lockdowns and led a lawsuit to overturn Governor Brown's illegal mandates on restaurants, bars, gyms, and schools. Main Street Oregon has had no better advocate.

School Choice & Parental Rights First

My wife MacKensy and I formed the Oregon Moms Union to organize communities to fight back against out-of-control government bureaucrats and school boards mandating masks and vaccines, pushing Critical Race Theory, and silencing parents in public meetings. It's one thing to believe in something – it's another to do something about it.

Public Safety & Holding Criminals Accountable

As mayor, I expanded our police force while other cities defunded them. Enforcing existing laws and giving police the resources to do their jobs needs to be one of our highest priorities.

Plan to Handle Homelessness

I'm the only candidate to propose a plan to address the culture of criminality around tent and car camping—using state resources instead of being hamstrung by local governments and their far-left agendas.

Pro-Life, Pro-Gun Rights, Pro-Trump

I have a track record of being consistently pro-life and unshaking in my defense of our Second Amendment. President Trump's policies on energy independence, supporting law enforcement and veterans, and bolstering our military made our country great again, and I plan to do the same for Oregon as your next governor.

Do you want that back?**

I'm a 7th generation Oregonian and small business owner, NOT a politician. I was raised on a Baker County cattle ranch, which my family still operates.

The definition of insanity is repeating the same thing, and expecting different results. We don't need another establishment politician. We need a **qualified, COMMON SENSE, grassroots** Republican nominee for governor - **someone who understands the ENTIRE state**. I'm that candidate.

I authored Resolution 3881 in 2021, which the national media called the "common sense sanctuary city" resolution, standing against the mandates, and forming a statewide coalition of officials to protect our communities in terms of economics, crime and mental health. In 2018, I helped author Baker County's 2A Preservation Ordinance, and passed a 2A resolution at a city level this year. I located plaintiffs for the Elkhorn Baptist v. Kate Brown case, which temporarily lifted the emergency order.

I BELIEVE:

- We **MUST** protect the Second Amendment and defend the Constitution.
- Allowing our beautiful, valuable forests to burn annually is **BAD** management.
- Parents, **NOT** politicians, should control decisions that shape our children's education.
- We should **STAND WITH** our police, **NOT** defund them.
- **ENABLING** our homeless **DOESN'T WORK**.
- The government has **NO PLACE** in our personal medical decisions.
- **FAILED** government and over-regulation cripple our businesses.
- The unborn are **PRECIOUS** assets and we must fight for them.
- **THRIVING** farmers, ranchers, loggers and miners equal a self-sufficient state.
- The rural-urban divide **MUST END**.
- **FAIR** elections are critical to keeping our republic.
- America is the **SHINING LIGHT** on the hill—and we have to fight to save her, state by state.

Governor

Tim McCloud

Republican

Occupation: Professional

Occupational Background: Administration

Educational Background: Eastern Oregon University

Prior Governmental

Experience: Local and State

McCloud is a working class American who has overcome homelessness while raising a family, attending school full time, and running a business; not a lifelong politician with a multi-million dollar advertising campaign. In his life, Tim stands firm against bullying and discrimination. As Governor, McCloud will stand strong for the freedom of all Oregonians and against discrimination. Raised by his mom and grandma, Tim was shaped with compassion from a young age and taught to protect others. A husband, father of 3 daughters, and brother to 3 sisters, he'll fight for women's issues.

McCloud has advocated for vulnerable Oregonians: seniors, individuals with disabilities, foster youth, individuals with mental health issues, and persons in economic crisis. Tim has experience championing for children and families in the courts and foster care systems. His leadership in community events and local commissions prepared him for making tough decisions. McCloud will roll up his sleeves for greater access to individual healthcare options for our seniors, veterans, and the medically fragile.

McCloud is committed to getting Oregon back to work; keeping schools open, thriving small businesses, and affordable quality childcare. As a former small business owner, Tim understands the time, expense, and difficulty it takes to operate a business in Oregon. Tim believes that businesses, great paying jobs, safer neighborhoods and a thriving economy are essential to our communities. As Governor of Oregon, Tim will listen to Oregonians: on our environment, economy and ways of life, because every Oregonian matters. God bless Oregon and the United States of America.

Como Gobernador de Oregon, Tim McCloud reducirá el costo de vida, mejorará la educación de los estudiantes y creará caminos hacia el estatus de ciudadanía. Conduciré para mejorar nuestro entorno natural y nuestra economía. Queremos mejores trabajos y viviendas, más libertad y calles más seguras. ¡Dios nos bendiga, Oregon y a los Estados Unidos de América!

RESTORE SAFE COMMUNITIES

Stop “defunding police” and support local law enforcement. Allow our first responders to do their jobs in protecting our communities.

Remove repeat violent offenders from our streets. Hold district attorneys accountable for their abuse of power when they fail to prosecute criminals.

Self defense is a human right. The right to bear arms is critical to a safe society. Preserve and protect our 2nd amendment rights.

REOPEN OUR STATE

End ineffective mandates that destroy our economy.

Remove the destructive regulations that slow job creation.

End the assault on medical professionals that is reducing hospital capacity and harming public safety.

REDUCE COST OF LIVING

Government action increased the cost of living and government action can help bring it back down.

Stop driving the cost of housing up through massive government spending projects sold as solutions to homelessness.

Encourage growth of our economy and private sector jobs, not government.

REIMAGINE EDUCATIONAL

Equal Educational Opportunity is the civil right’s battle of our generation. We achieve it through school choice.

Return to local control of schools and actively encourage more parent involvement, not less.

Teach “history” not “theory.” Focus on mastering the basics in preparing our children to succeed.

There is a terrible sickness in Oregon that needs a cure, and it has nothing to do with a flu variant that has been given a name. The pandemic that is smothering our State is officials jettisoning what it means to be an American in order to declare the supremacy of government and to claim unprecedented power.

It is time for Americans to rally around the Constitution and to use it as a Compass to guide the fight against the tyranny that is threatening our freedoms.

I will be asking Oregonians to have the courage to only obey mandates, orders, and laws that are in harmony with the principles of the Constitution, and to set up their hearts, cities, and counties as Constitutional Sanctuaries.

I have a fifteen point Charter of Liberty that will begin the restoration of Oregon back to its proper place of freedom and prosperity. Here are some of the points:

1. *Each County will return to a traditional, open, transparently honest Election system, with in person voting using voter ID on Election Day only.*
2. *Ban imposition of mandated health measures or medical procedures.*
3. *Move school funding directly to Parents.*
4. *As unborn children have an inalienable right to life, pass law to restrict abortion.*
5. *No surgeries or medications to feign a sex change on minors younger than 21. No biological males in female sports, restrooms, dressing rooms, or locker rooms.*
6. *The 2nd Amendment is a Citizens' Concealed Carry permit.*

WE NEED A CEO TO REFORM OREGON!

Like you, I'm heartbroken over the condition of our state. For years we were told that raising taxes would fix public education, improve our communities, and help the less fortunate. **Despite the billions of dollars spent, schools are still struggling, businesses are leaving, and we have some of the most expensive housing in the nation.** Meanwhile violent crime, drug addiction and unsheltered homelessness are destroying our urban centers.

I'm running for Governor because Oregon needs exceptional leadership to recover from decades of mismanagement and lack of accountability. **In my lifetime I have gone from homeless teen to CEO of a world-class, microchip manufacturing company.** All Oregonians should be given the opportunity for success.

Together we will:

- Create an economic environment where small businesses can grow, housing is affordable, childcare is accessible, and families thrive. Protect our natural resource jobs.
- Empower parents through school choice. Prioritize core academics and hands-on learning. Focus on education - not indoctrination.
- Provide police and first responders with the funding and tools they need to keep our communities safe. Ensure criminals are prosecuted and stay behind bars.
- Stop the humanitarian crises in our communities by moving our unsheltered homeless people off the streets and into life-changing treatment programs. Make our public places safe again.
- Stop proposed freeway tolls on our local highways.
- Protect your personal freedom and Second Amendment rights. No more mandates.

Join me, and let's take the anger, frustration, and hopelessness we are feeling and turn it into something much more positive - building a great future for Oregon!

"Jessica thinks outside the box. She'll empower Oregonians, not control and regulate us."

Occupation: Superintendent of schools

Occupational Background: 27-year public educator; Small business owner

Educational Background:

Eastern Washington University: Masters in Educational Leadership; Whitworth University: Bachelors in History/Biology/Education

Prior Governmental Experience: Legislative policy advisor

I am a husband, father, educator, farmer, and long-time champion of students' and parents' rights. As the Alsea School Superintendent, I broke ranks to keep Alsea schools open full-time during the COVID shutdowns. In January, I implemented a Masks-Optional policy which sparked a movement, garnered national attention, and catalyzed an end date for indoor masking.

Oregon needs a courageous solutionist for complex problems, not another establishment politician.

I have fought government overreach and corruption my entire career. I uphold Constitutional and community values through service and responsiveness to the will of the people.

As your next governor, I will:

Restore Excellence in Education by:

- Re-implementing graduation standards, elevating academic expectations, and investing in special education;
- Insisting on parents' rights in their child's education;
- Ridding classrooms of political and social agendas/curricula;
- Championing school choice by directing tax dollars to follow the child.

Re-establish Community Safety and the Rule of Law by:

- Fully funding law enforcement and holding law-breakers accountable;
- Re-criminalizing drugs and cleaning up homeless camps;
- Addressing the homeless crisis through individualized support that treats ALL causative factors.

Empower Individual Freedom and Responsibility by:

- Ending any unconstitutional mandates and tracking systems;
- Breaking up the over-reaching Oregon Health Authority and restoring local control of healthcare to community care organizations;
- Codifying the sanctity of the patient-doctor relationship and full informed consent.

Revitalize Our Economy by:

- Re-establishing rights and resources to farmers, ranchers, loggers, and miners;
- Cutting taxes to small and medium businesses;
- Resurrecting our deep-water ports making Oregon the new gateway to the west, bringing workers back;
- Driving down inflation by lowering taxes and deregulating government.

Republican OUTSIDER Bridget Barton

Weak-kneed politicians have failed. But I'm no politician. I'm an OUTSIDER.

I don't owe anything to anyone; I will be YOUR voice.

I'm not afraid to do hard things. I started a conservative business in Oregon. I've been in recovery from alcoholism for 40 years. I broke horses to put my kids through college. I'm not building a political career.

I'm relentlessly optimistic, and

I'll make the tough choices to unleash Oregon. -Bridget

Tim Mueller, Retired Linn County Sheriff

Bridget is a steadfast supporter of law enforcement and the Second Amendment. Unlike career politicians, she's an outsider with nothing to lose and won't back down.

Indra Nicholas, Owner, Udders Ice Cream, Grants Pass

I fought Kate Brown's mask and closure mandates. Bridget is one of us. She understands we want freedom to make our own choices. Bridget was first to organize a lawsuit against Kate Brown during COVID. She'll fight for us.

Angelita Sanchez, Founding Member, Timber Unity

Bridget has never been afraid to buck the establishment and dig in hard for our rural families and blue-collar communities.

Christy Thompson,

West Linn-Wilsonville School Board Member

Bridget is a mom and a woman of faith. She will refocus Oregon schools on academic excellence and standards for kids and embrace parent involvement once again.

Jen Jacobson, Owner, Beloved Cheesecakes, Silverton

Career politicians have made gas, food, and everything else more expensive. Like me, Bridget grocery shops for her family and runs a small business. She will put a hard stop to new laws that increase prices—especially on gas and groceries.

Andy Duyck, Lifelong Farmer,

Owner, Duyck Machine Inc, Washington County

Bridget is THE Republican to beat the left in November. She hired Virginia Governor Glenn Youngkin's own campaign strategist and they're running to win.

JOHN VELEZ FOR BALANCE

There is an opportunity for REAL BALANCE in Oregon. My goal is to listen to everyone's concerns, find balance and advocate common-sense policies that will help our Small Businesses, Cities, School Districts, Veterans, and the people that live, work, and care about our District.

PROTECTING THE COMMUNITY

I will strongly support our First Responders, who compassionately keep our communities safe. I will advocate for sound policies that keep us safe while also expecting the funds we use for mental health and drug addiction to be audited annually for results. We need practical, proven methods to keep our community safe while providing for those in need who genuinely want help.

LOCAL CONTROL AND STANDARDS FOR EDUCATION

There needs to be a check and balance in our education system, and that is local control of our school boards. Radical Democrats in Salem should not be dictating what our local school boards can handle themselves. I will also push for achievable standards in our education system and push back on bad education policies. We need to make our kids smarter!

SUPPORTING SMALL LOCAL BUSINESS

I will be a fierce advocate in helping them succeed. As a small business owner myself, I understand the challenges of many people here in our communities. We all win with a strong core of small local businesses and manufacturing.

WASHINGTON COUNTY DESERVES A STATE SENATOR WHO WILL LISTEN TO OUR NEIGHBORS & VOTE FOR OUR COMMUNITY!

As an immigrant from Spain who came to America as a child, I am grateful every day to be an American and for the freedoms we have that others around the globe don't.

That's why it has been so disappointing to see lawmakers in Oregon vote to make our communities less safe, schools less accountable for educational outcomes, and to hurt small businesses with government mandates.

As a small business owner, I know how difficult it is to be responsible for the livelihoods of employees, working to make sure they have family-wage jobs with good benefits. But new laws have made it extremely difficult to run businesses, causing them to take their capital investments out of Oregon.

Lawmakers vote to release criminals early from their sentences, resulting in rising property and drug crimes. Having been personally been a victim of crime recently, Oregon is going the wrong direction on public safety.

And as a mother, I'm concerned that record-high education funding is being misspent. Graduation rates reflect money isn't reaching the teachers or our kids in their classrooms.

I'm standing up for those of us who are frustrated seeing Oregon's race to failure. **We deserve better.** Please join me in electing better leadership in Salem.

I'd appreciate your vote to be our State Senator!

Dear Fellow Citizen:

Remember the Founders found it necessary to develop rules for the organization of government through the U.S. Constitution; that law is the set of rules which government enforces through its deputies and police, its courts, and its other agencies to settle disputes; that liberty and justice cannot survive without Christian-Mosaic purposes of grace and law, inestimable progress (revelation) acknowledged by the seventh U.S. President: "The Bible is the Book upon which this Republic rests."

If there were no law, or if these aren't enforced in once beautiful Portland-Multnomah during the past two years, every person could do just as he or she pleased, resulting in chaos and unlawful violence.

Looking for cause: A citation index for scientific research and higher learning lists Marx and Lenin higher than the Bible. This has brought deception to liberated people, because Marxism-Leninism proposes separation of conscience and political power instead of separation (and limitation) of political powers, one-party elections, absolute top-to-bottom party discipline, and suppression of all opposition, in Portland from Republicans for example. That philosophy rejects God but has been finding wide acceptance, in science and public safety, including judicial power called non-partisan, in public education and health care, suppressing and ignoring dissent on curriculum and treatment & medication. Witnessed by indifference, lack of discourse & love and some officials who obviously believe they are what they merely represent.

Had enough?

Then, fellow citizen, reject unlimited government control & idolatrous manipulation and defend your unalienable individual rights, elect legislative power that doesn't counterfeit but waves the flag of the United States of America and the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

Cheerfully,

Our families, businesses, and communities have been increasingly negatively impacted by progressive leftist policies. Oregonians deserve better. I am running because I care about our families and this beautiful state. Simply put, I will provide balance against government overreach and mandates. In these last two years have I have seen people come together to protect our God-given inalienable rights. People want leaders who will stand up to the agendas that infringe on our rights.

I support:

- Liberty and personal freedoms for all. No mandates!
- Parents and their rights to make independent decisions regarding health and education for their families. We need choice in schools and money following the student.
- The US and Oregon Constitutions. I will uphold our Bill of Rights.
- Safe communities.
- Fair and friendly business policies that support small businesses.

ABOUT WENDY

I am a graduate of OSU with a major in mathematics and a minor in psychology. I have been in the financial world since 1992. At times I worked several jobs to get through college. **I am a fighter and a survivor winning the cancer battle twice.** My son's sports brought back my love for them and soon found me coaching multiple youth sports which continued over a decade. As well as volunteering on sports boards, and PTA (past treasurer). **With my husband of 29 years, we are raising our teenage son.**

FIGHTING FOR OREGON

Traditional Oregon values, parent's rights, educational excellence, and keeping our medical profile private, are all important to me. It is time to address the homeless population. It is time to get people back to work and reduce state spending.

WORKING FOR REDUCING TAXES

Oregon has property tax, income tax, and now a hidden sales tax (CAT), causing friends and family to leave this beautiful state. **Oregon is too expensive.** I will work to reduce spending and lower the need for excessive taxes. Audit all funds to ensure project monies are being utilized as intended and cut government waste.

All tax increases should be a vote of the people, not a signature on an Executive Order.

PROTECTING THE CONSTITUTION

The freedoms secured to us by the Constitution and Bill of Rights are what I stand for. It is time to bring common sense back to the table and the will of the people, not career politicians, to the forefront. Medical freedom includes all things medical remaining private.

The State is working aggressively to destroy generations of Oregonians through lockdowns, school closures and tyrannical state actions - all in the name of "safety" and "equity."

After my family business was destroyed in 2020 by lockdowns, lawlessness and cancel culture, I decided to take a stand. I founded Free Oregon, Inc., a non-partisan 501c4 fiercely fighting against government overreach. Free Oregon unified tens of thousands of Oregonians to defend the freedoms of first responders, teachers and healthcare workers; restore back to basics education in our schools; hold government accountable to operate within the law; and expose and punish political corruption. As your representative for Senate District 19, I will continue this fight against the relentless attacks on our freedoms and "clean house" in Salem.

TOP PRIORITIES IN SALEM

- Limit the powers of governor, OHA, ODE and OSHA
- Reverse Covid mandates and return to constitutionally guaranteed medical freedoms and bodily autonomy
- Support and fully fund public safety infrastructure
- Protect 2nd Amendment rights
- Reverse unconstitutional gun laws imposed on law abiding citizens
- Stop political indoctrination in our public schools, restore statewide standards, remove divisive CRT and return school districts to local control
- Lower taxes; reduce the size of state government; support small business and defend property rights

Leadership and Ideas for Oregon:

Oregon's short term vision of our future has led to the government protecting the government from the People. 40 years of "Spend now, pay later, tax more" has only increased the size of government causing the current leadership to work outside the Constitution to govern Oregon. Our future is being consumed by a government that can't see past what government wants to spend your tax dollars on today.

Issues:

Are the People of Tigard safe? Legislation is needed to prevent elected office holders from being able to selectively enforce the law. High density housing and Light Rail are lighting a fuse to exploding crime rates. Why build such things that destroy the livability of Tigard? The People want safety and reliable funding for the Police.

The real problem with PERS: The Judicial Branch of government is protecting their PERS retirement before protecting the Constitution from government misconduct and overreach. The People need the entire Judicial Branch off of PERS. Judges will protect their retirement before they protect the People.

Public Education in Oregon has been destroyed. We must use a Voucher system that will allow Parents to decide the type and quality of education they want for their children. Vouchers for School Choice, special needs, and Charter Schools are what the People want.

PERS itself: A commitment was made to government employees for a retirement pension. I stand for making sure that that commitment is kept. Legislation must be made to fund that commitment so employee control over their future instead of future governments looking at your retirement as a source of money to spend.

A vote for Bob Niemeyer is a vote for Safety, Protecting the People from government, common sense, and limiting government to what they are supposed to do.

Occupation: Journeyman Plumber

Occupational Background: US Marine Corps

Educational Background: Clackamas Community College

Prior Governmental Experience: None

I volunteered for the United States Marine Corps after September 11th but before we went to war with Iraq. I felt the calling to serve the country that had guaranteed every freedom I had grown to love. Today I feel that calling again, to serve our state that has had so many freedoms stripped away by one party rule. This one-party state is constantly looking for a little more power and just a little more money to solve all our problems. The fact is our state has one of the worst education systems in the nation, the homelessness has never been improved by any of their policies and we are one of the most heavily taxed states in the nation. When your party comes first, and the people come second, your freedoms come last. One party rule doesn't work as we all know in our beloved state of Oregon. Help me to restore balance to our state and let's end this one-party rule.

As your state representative I will stand up to protect your inalienable rights including but not limited to;

- Right to medical freedom**
- Right to self-defense**
- Right of parents in education**
- Right of free speech**
- Right to move freely within our country**
- Right to religious freedom**

The last few years have shown Oregonians, how important it is to have a voice that stands strong with conviction in the belief of basic rights. I will tirelessly educate voters when their rights are being ignored. In standing for my values, I have turned down many opportunities in my past. I will continue to stand strong in my values regardless of the consequence.

I am Proudly Endorse by these amazing grassroots organizations. I have been working with them, they have boots on the ground and make our voices louder.

FAMILY: Married to Anna for 38 years. Blessed with two sons, a law enforcement officer, and a former Marine now a production manager. We have loved living in this beautiful State Oregon for more than 31 years.

REPUBLICAN BACKGROUND AND COMMITMENT: After selling my interest in a small business partnership in 2020 and retiring, I realized that voting and contributing money alone were not enough. I sought an appointment as Precinct Committee Person. Last year, I was also appointed to the Oregon Republican Party State Convention as a Delegate where I worked on the GOP platform and actively participated at the Convention. While volunteering for candidates, I gained considerable insight into the many real problems facing average Oregonians and this inspired me to step forward and serve my community as your State Representative.

MY PERSONAL MESSAGE: We are a constitutional republic that draws its authority from the consent of the governed. Somehow many of our political leaders have forgotten this truth.

As your State Representative, I will focus on improving our transportation system, reducing congestion, and opposing new tolls. Furthermore, I want to ensure that parents have options for how they educate their children and that school districts focus on the fundamentals. I'll work hard to ensure we take care of the most vulnerable in society and make policy decisions that support private sector job growth.

I humbly ask for your vote.

What do you think?

Do your state legislators:

- make themselves available to hear and acknowledge your concerns?
- deliberate issues with balance and compromise?
- protect the rights of individuals and families?
- create an environment that allows small businesses to thrive?
- address the crime and public safety concerns in your neighborhood?
- care about the exploding population density of our neighborhoods?
- respect the right of local school boards to make the decisions that are right for their own districts?
- adequately address the maintenance of roads and traffic congestion in our communities?

If you answered *NO* to any of these questions, then maybe you would like a change in leadership.

The legislature has repeatedly overruled the will of the people. I will do my legislative business as directed by you, my constituents. I care about your concerns. My door will be open to you, not only in Salem but here in our district, where we live.

We need to listen to one another, find common ground, and build on the fundamental principles and values that we share.

I hope we agree on the principles of inalienable rights of life, liberty, and the pursuit of happiness; the dignity and worth of every person; justice with the rule of law; individual freedom and responsibility; volunteerism; and the belief that family and faith should be protected from government intrusion.

I strongly believe that these solid, foundational principles will help us build free and prosperous communities together.

I Will Fight to Reign In Crime.

The highest purpose of our police is to secure the life, property, and rights of the people. Like the rest of us, Police must obey the law and be held accountable when they don't. At the same time, police must be able to vigorously enforce the law confident we have their backs. We need to adequately fund, train, and honor the vast majority of police who serve with honor and heroism. Enough of this crime wave – let's take our streets back.

I Will Fight to Reign In Homelessness.

Like you, I want to help and show compassion to people struggling to survive. But widespread homelessness and aggressive panhandling is no answer. Both threaten our health and safety. It's time to shut down homeless camps and tent communities. At the same time, we need to work with our churches, communities, and networks of shelters and services to make alternatives of homelessness safer and more accessible. Facilitating job creation, instead of chasing employers away, will also reduce homelessness.

I Will Fight to Empower Parents.

Schools and teachers are important, but PARENTS should be the primary directors of their childrens' education - not government officials. School curriculum, teaching methods, board policies, and other such things must fully transparent and easily accessible to parents. Money should follow students into any accredited public, private, charter, or home school chosen by parents because poor, working, and middle class parents should have more of the same choices that rich parents have. Our schools should be as diverse as our children are.

I am a life-long Oregonian, who recognizes the downhill trajectory of Oregon's quality of life. Growing up a few blocks away from where I now live and where I and my children went to school, I know how District 28 has declined. Most of our problems have been created or aggravated by incumbent politicians who persist in failed policies. Here are a few places to start in building an Oregon that works for everyone:

TAXES—Every session of the legislature, we are burdened with additional taxes. Oregonians on the margins are faced with a growing cost of living. As these burdens add up, they fall into the camps of the homeless or otherwise live degraded financial lives. The pressure on our citizens causes mental health problems. The legislature then builds a bureaucracy to deal with the problem necessitating further taxation. The loop closes in on more and more Oregonians every year. Stop higher and higher taxation!

EDUCATION—I believe parents are the sole authority over the mind and bodies of their children. Our educational establishment should stick with the traditional subjects and methods parents expect.

CRIME and PUNISHMENT—Victim rights need to be respected and justice should be fair and certain. Abuse of prosecutorial discretion has led to more crime, not less. Every Oregonian should feel safe! Police reform should not prevent law enforcement from doing its job.

HOMELESSNESS—As noted above, reform of Oregon's social order should start with government. Coordinating desperate bureaucracies should allow Oregon to focus on solving the problem in a cost-effective way.

ROADS and BRIDGES—In order to keep our air as clean as possible, roads should accomodate the natural growth in traffic and avoid traffic delays due to inadequate road surfaces.

Occupation: Small Business Owner

Occupational Background: Event planning, winery

Educational Background: Glencoe High School. Southern Oregon University. Bachelors from George Fox University.

Prior Governmental Experience: Washington County Sheriff's Posse

ABOUT GINA MUNSTER MOORE

My family and I moved to Northwestern Hillsboro back in 1974. We landed on a small 8 acre farm in Helvetia. This was when Hillsboro had addresses like Route 61-S. We finally were able to buy horses, chickens and ducks. I grew up taking part in horse 4-H. I started my first year in the Hillsboro School district at West Union Elementary. I was a Washington County Junior Rodeo Court Princess in 1978.

I have two grown daughters and own a small business in Hillsboro.

FIGHTING FOR WESTERN WASHINGTON COUNTY

We must have a strong voice for our Forest Grove, Cornelius and West Hillsboro area. I will not be "just" another vote for the Governor or Democrat leadership, instead I will work to represent the people here, not Portland.

SUPPORTING SMALL BUSINESS

Our community is made up of a large amount of small businesses. I will be a fierce advocate in helping them be successful. Helping them keep employees, lowering their tax burden, and removing harmful regulations.

PROTECTING THE COMMUNITY

We must be supporting our local police departments and fire departments. I will be a strong advocate for our police departments so they have the resources to keep our community safe.

LOCAL CONTROL AND STANDARDS FOR EDUCATION

There needs to be a check and balance in our education system, that is local control of our school boards. Salem should not be dictating what our local school board can handle themselves. I will also push for achievable standards in our education system.

WORKING FOR MEANINGFUL TRANSPORTATION STRATEGIES

We must invest in better streets and transportation corridors in West Washington County. With the increased number of people moving to our communities, we need to help our local cities with funding.

Todd is a native NW Oregonian born and raised in the Portland and Scappoose areas. Hillsboro has been his home for 29 years. He understands the needs of Hillsboro seeing the many changes over time. He is a lifelong Republican with a conservative grassroots family upbringing and values.

Todd Is Willing to Fight For You

Todd wants to focus on our **Fundamental Liberties**, as guaranteed in the US and State Constitutions.

- He wants to take back our individual rights so we can make free decisions.

- Preserve and maintain our 2nd amendment, to secure our right of self-defense.

Leadership with a pioneering vision to help families and businesses

Todd has worked with both large and small businesses and small non-profits and understands their needs. He helped provide and manage their financial needs. Failed government is continuing to strangle them. He wants to reduce the regulations.

My wife and I have been raising our family in Hillsboro for twenty years, and serving in our schools for most of that time. Last year I ran for school board, and fought alongside other parents to open our schools sooner to help our most vulnerable students. I spoke up for parental rights. Looking at recent legislation (e.g. SB1521), it is clear that this fight is for control over our laws, not just our local schools and board.

We need to...

Protect our freedoms

- COVID has shown us that our state government has too much power.
- Other states suffered less impact with fewer restrictions.
- Mandates have stalled our children's education and hurt small businesses.
- We need to reconsider limits on what our government can mandate.

Keep public school decisions local

- The superintendent should be accountable to the school board, who answer to parents and voters. Salem is changing this formula to centralize control.
- Salem's one-size-fits-all programs are crippling our local schools.
- Over 3% of our students are trying to transfer out to other districts or charter schools because their needs are not met in local public schools. Private schools are overflowing. These alternatives should be open to all students.
- Parents should have more say in their children's education.

The past two years have shown real divisions across our state. In Salem, I will actively work with both sides to find the best solutions for Oregon.

I Will Promote Mental Health Legislation.

The number of Oregonians experiencing mental health issues has grown significantly during the pandemic. However, our health care system has not rallied to respond. As a result, we see more and more Oregonians suffer the impacts of untreated mental health and addictions in our schools, on our streets, and, sadly in our jails. I am not driven by political ideology. Data, research, and best practices inform my policy positions and how they best benefit citizens. It is NOT government's role to solve every problem, but it IS our job to provide fair and equitable opportunity for all who seek it.

A leader at the state level must be prepared to be fiscally conservative and financially creative in order to minimize costs and spending so we can best meet our obligations for essential services, while not burdening businesses and citizens with non-stop increases in taxes/fees.

- A **comprehensive Timber and Forest Management policy**. Our environment is getting devastated by poor timber practices. We must reinstate common-sense logging, thin targeted forests, and create more fire breaks/roads to ensure the protection our forests, animal species and our air.
- Legislation to **restrict Metros' areas of responsibility** and give back power and control over public policy to the cities/counties.
- Legislation to implement **term-limits for elected officials, and campaign finance reform** to remove the corruption and money of special interest on our political process and our politicians.
- Fund to subsidize the minimizing of SDC charges and land costs in targeted developments around the state so cities/counties can **build 'affordable single-family' homes**. We must support home ownership and help lower and middle-income individuals build wealth through equity!
- Provide incentives to cities and counties to increase the **development of master-plan tiny home communities**.
- I would support a thorough review/audit of all state departments and consider **cuts to some non-essential services** to better prepare the state for contingencies and policy priorities.

ABOUT AERICK ESTEP

A long time Oregonian raising four boys with his wife, Leslie, in West Linn. He excels in business and non-profit service, serving his community through volunteering and investing in his city and county.

CARE FOR NEIGHBORS

Millions of dollars have been given to care for the homeless yet encampments grow. The State is responsible for public safety yet it has ignored or dismissed crime. The plight of small businesses and communities are talked about yet ignored and often penalized. Caring for our neighbors shouldn't be a talking point. Care for our neighbors must be **prioritized, emphasized, and achieved.**

HUMBLE GOVERNMENT

The status quo of the State has been anything but humble. It has increased taxes and pushed for more intrusion into the lives of individuals, businesses, and communities. The legitimate task of pandemic response has been ramped up to indefinite and comprehensive control. Government is a powerful tool and that is why it must be used humbly. Aerick will **expect excellence** in what the Government must do and provide a dissenting voice where it intrudes.

TRANSPARENT INSTITUTIONS

The status quo of the State is to be hidden and unaccountable. Schools, the Oregon Health Authority, and many other institutions play a defining role in our lives and that is why their lack of transparency has been so painful. Parents delegate responsibility of their children to schools. Parents must know how and why decisions are being made. The Oregon Health Authority has run roughshod over our lives and we don't know when their influence will lessen. **Institutions are important but they must welcome feedback and be held accountable.**

CIVIL RIGHTS ARE FOR EVERYONE.

The Bureau of Labor and Industries (BOLI) Commissioner works for all Oregonians by enforcing labor and civil rights in the workplace, housing and public spaces. BOLI also oversees apprenticeships.

I AM A STRONG, COMMON-SENSE LEADER.

I've been a worker, employer, manager, business owner, and elected public servant. This array of experiences means I can see things from many viewpoints. **I'm the only candidate in this race with elected executive leadership experience and a record of solid decision-making in a non-partisan role.**

It's not enough to know labor laws. **Oregonians need a BOLI Commissioner with a proven history of balancing the competing needs of different groups.** As Yamhill County Commissioner, I work with everyone — rural and urban, immigrant and long-been-here, younger and older, business and workers — to create a better place.

MY PRIORITIES:

1. Guarantee all Oregonians know their workplace and civil rights, know where to go for help, and know they will get swift, fair resolutions.
2. Ensure that we have an independent, fully-staffed, responsive civil and worker rights agency, capable of enforcing our laws.
3. Expand apprenticeships and support apprentices with childcare, so that all Oregonians have access to debt-free, high-skill, high-wage work.

ENDORSEMENTS:

I'm endorsed by elected officials, union members, business owners, organizers, Democrats, Independents, & Republicans from all over Oregon, including:

Occupational Background: Judge, Oregon Court of Appeals (2016-2021); Judge, Circuit Court, Deschutes County (2012-2015); Sr. Asst.

Attorney General, Oregon Department of Justice (2008-2011); attorney in private practice (2000-2007); public defender (1993-1999)

Prior Governmental Experience: Judge of the Oregon State Circuit Court and Court of Appeals; Assistant Attorney General, Oregon Department of Justice; Judge pro tem; Juvenile Court Referee

Elect Justice DeHoog: In January, Governor Brown honored me with an appointment to the Oregon Supreme Court, choosing from among highly qualified appellate judges, trial court judges, and attorneys. With my appointment, the Governor continued in her commitment to ensure that Oregon's judicial seats are filled with dedicated, fair-minded, and capable judges of all backgrounds and points of view. And by choosing a longtime Bend resident, the Governor recognized that those of us living east of the Cascades should have a voice in Oregon's most important affairs. I am asking you to do the same by voting to retain me in this new role.

Experience: Nearly my entire career has been spent serving the public in some way, starting as a trial lawyer providing public-defender services and culminating in my six years on the Oregon Court of Appeals, where I have read thousands of appeals, heard hundreds of arguments, and been the authoring judge on almost 200 opinions. At every stage I have been recognized for the quality of my work, my efforts to ensure that all perspectives be heard and considered, and my collegial approach.

Previous legal activities: Oregon State Bar Ethics Committee; Constitutional Law Section Executive Committee (former chair); Oregon Council on Court Procedures; Judicial Conduct Committee.

Current/recent community work: Board Member, NeighborImpact regional community action agency; board liaison to Central Oregon Head Start/Early Head Start Policy Council; Uniting for Action on the Oregon Economy workshop planning committee.

Occupational Background: Judge, Oregon Court of Appeals, since October 2003, and as Presiding Judge since 2011; adjunct law professor

at Lewis & Clark School of Law (2018, 2020 to present), University of Oregon School of Law (2020 to present), and Willamette University School of Law (2020 to present); attorney in private civil practice in Portland, Oregon (1992 to 2003) and Detroit, Michigan (1989 to 1992)

Prior Governmental Experience: Judge on the Oregon Court of Appeals since 2003

EXPERIENCE. Judge Ortega has authored well over 800 opinions and has participated in thousands of cases during her time on the Court of Appeals. She strives to approach each case with care and compassion, and to make her written work accessible and accountable to the public's need for transparency, thoughtfulness, and humility from its leaders.

LEADERSHIP. Judge Ortega has received numerous awards for judicial and community leadership, including on issues of access to justice. She is a frequent speaker and discussion leader on addressing the gaps that exist between the goal of justice and the lived experience of people who interact with the legal system. She relentlessly makes space for the voices of the unheard and leads by example in a practice of listening to those voices herself.

INTEGRITY. Judge Ortega has committed her life's work to the ideal of justice for all. She knows there is much to do to make that ideal a reality and is tireless in engaging that work. In addition to heavy community involvement that includes service on boards and committees both inside and beyond the legal community, she mentors, teaches, and works relentlessly to learn from scores of students, lawyers, and community members, most especially those at the margins.

America, though not perfect, is the greatest nation on earth - I believe in the ideals articulated in our founding documents. I share Justice Clarence Thomas' perspective that "[T]he Declaration of Independence. . . establishes a moral ideal that we as citizens are duty bound to uphold and sustain." Our judicial system aims to do justice.

The cornerstone of a constitutional republic is self-government. The law should be applied to all people, in all places, at all times, in the same manner. In other words, the rule of law does **not** mean "rules for thee, but not for me." Unfortunately, some in government use their power to tell the average citizen how to live, work, and play. "We the People" instituted civil government to serve the public – not to force the public to serve the government. As such, the judiciary has a constitutional role in providing a check against the excesses of the other two branches of government.

In my opinion, the current court is relatively diverse, except in judicial philosophy. People who really know me, understand that I am not an activist. If you want a judge to insert their personal views of how culture should be molded – then don't vote for me. I also know what it is like to have the boot of the government on my neck. Those who are intoxicated with their power have attempted to remove my liberty of conscience and freedom of speech. Unfortunately, cancel culture looms large in our society today. Casting your vote for me is one way to push back.

Experienced

In 2016, after 35 years in private practice, I was honored to be elected to serve on the Washington County Circuit Court bench. Since 2019, I've served as the Chief Civil judge. My duties include service on the court's Arbitration Commission, the civil Bench-Bar committee, the court's Executive committee and work with civil department staff to process cases as efficiently as possible with the resources available to us.

In private practice, working in the firm my grandfather founded in 1903, I had the pleasure of representing a wide cross section of fellow Oregonians with their small business, consumer, employment, injury, contract, trust and probate matters. That background has been very useful in understanding, and ruling upon, the wide variety of civil cases that are on my docket daily.

I ask for your support to continue to serve as a judge for Washington County.

BRIAN DECKER

True Justice. Real Safety.

We need a change. Our current District Attorney says, "You get more of the same if you vote for me." The truth is gun violence is increasing, we're not addressing the root causes of crime, and victims are getting bullied and threatened.

Washington County deserves better.

As a prosecutor in the Obama administration, Brian took on gun violence by locking up traffickers to get illegal guns off the streets. As District Attorney, Brian Decker will focus on:

- **Prioritizing Prevention.** Smart public-safety policy means preventing crimes before they occur and addressing problems like addiction, mental illness, and poverty. We must rehabilitate nonviolent offenders away from criminal behavior.
- **Serving Victims.** Those who have been harmed by crime deserve a voice in our justice system. The current system coerces and traumatizes victims—rather than supporting them.
- **Ensuring Equal Justice for All.** Brian will enforce the highest ethical standards and address racial discrimination to promote justice for everyone.
- **Protecting Democracy.** Brian will defend Oregon's vote-by-mail and local election officials from Trump-inspired attacks on democracy.
- **Real Public Safety & Accountability.** No one should get special treatment. No one is above the law.
