## Cedar Creek Trail Project Questionnaire for Appointment to the Local Trail Advisory Committee

The Cedar Creek Trail project will have a local Trail Advisory Committee comprised of members who live near the project area, have a particular interest in the trail or a certain area of expertise in the development of the trail. We hope to have a good geographic mix of people from the various neighborhoods along the corridor as well as a variety of trail users to lend their voice and recommendations to the Parks Board. The Parks Board will collect the names of those interested in the participating on the Committee and forward their recommended list of names for approval to the City Council for appointment. The following information will assist the Board in making their recommendation to Council.

The role of the committee will be to provide a recommendation to the Parks Board for the alignment of the trail and recommend certain trail design elements like landscaping, trail materials, furniture, signage, and parking. The committee member will be a representative of their neighborhood and/or trail use to provide the Board with that particular interest and perspective. Thank you for your interest in this project!
