

Utility Locating Services

DATE October 20th, 2023

BID ADDENDUM NO. 2

Clarifications to Submitted Questions

Question #10: Are these locating service only the locates done above ground? For example: using a UAT underground utility locator and paint marking each utility. Or is the Cit of Sherwood requesting the hydro-excavation side of this and the markings will be done by 811? Or both marking and hydro-excavating to put eyes on the utility?

Response: The RFP is for the locating of our utilities and the marking of the utilities per the OAR's-Oregon Utility Notification Center. There is no mention of hydro-excavating in the RFP.

This ADDENDUM shall be signed and attached to the Bidder's Proposal.
