

Engineering Services for Capital Improvement Projects

DATE October 25, 2023

BID ADDENDUM NO. 1

Clarifications to Submitted Questions

Question #1 The RFP requires the Proposer's project team shall include a State of Oregon Registered Professional Engineer. Would the City be willing to waive this requirement? Reading the scope of work, it does not appear that any of the described work requires an engineer's stamp, but rather project management and RFP issuance for engineering services.

Response: A licensed civil engineer is required for this position.

This ADDENDUM shall be signed and attached to the Bidder's Proposal.
