Transportation SDC Rate Study Notice of Public Open House

**Thursday August 25, 2016
6:00 PM**

**City Hall Community Room
22560 SW Pine Street**

The City is in the process of updating its Transportation System Development Charge (SDC) rate methodology and related development classification rates. The current transportation SDC rates are based on an original Transportation System Plan (TSP) and related rate study which was generated in 2005. In 2014, the TSP was updated which provides a new and expanded listing of transportation improvement projects. The final step is to update the transportation SDC rate methodology and development classification rates to be concurrent with the updated TSP.

The City will be holding an open house to present information to the public on the proposed SDC rate methodology and related development classification rates. The public is encouraged to attend, to ask questions, and to provide comments.

For more information on the Transportation SDC Rate Study, please contact Bob Galati P.E., City Engineer at 503-925-2303 or by email at galatib@sherwoodoregon.gov.
