10. STEPS TO MULTI-USE TRAIL
11. EXPANDED WOODCHIP PLAY AREA
12. BENCH SEATING AREA, TYP.

Desire to pursue path across creek. Key connector to park. Consider saving from this phase for that

Trees to be planted here should not grow so high as to block view from homes to natural area

Provide more dog waste bags (with trash cans by them) around the park

Shift path further away from homes & provide plantings to buffer/screen

Rotate restroom/picnic shelter so bathroom doors are toward street. Allows parents to see kids from playground

Provide benches around perimeter & open play area

Alternative location for bball court if retained

Open unprogrammed field area is valued to allow multiple flexible activities

Potential future community garden should not be here

How about a flag pole somewhere in the park?

Add a low fence on north side of parking lot

Need for a bball court at all?

Sign parking area for no overnight parking & enforce
