RE: Completeness Response – LU 2022-012 Chestnut Inn and Parkway Village South Self-Storage

Dear Eric,

Thank you for reviewing the Site Plan Review application for a new hotel and self-storage building on Lots 1 and 2 of Parkway Village South subdivision. This letter and accompanying information respond to your request for additional information that we received in the letter dated May 4, 2022 (attached). The list of additional information requested is shown below in italics, with the Applicant's response directly below.

Required Information

- 1. All lots within Parkway Village South are impacted by the proposal. Lots 1, 2, 3, and 5 are included in the Property Line Adjustment application and Lot 4 is impacted by the proposed Modification to Lot 2. List all properties in the Parkway Village South plat on the application form and provide the deed and a current title report for each property.*

Response: Please see the updated application form (Exhibit B) and current title report (Exhibit C) for each property. All of the requested information has been provided.

- 2. The owner listed on the deed / title report should be listed as the owner on the application form. The owner of Lot 3 is different than the owner of the remaining lots.*

Response: Please see the updated application form (Exhibit B). All of the requested information has been provided.

- 3. Provide a copy of the recorded CC&Rs demonstrating shared use and rights to common areas of Parkway Village South. The development code standards including parking, vehicle access, landscaping, and tree canopy were met under a shared approach in the 2017 Site Plan approval and 2018 Minor Modification approval.*

Response: Please see the current title reports (Exhibit C), including a copy of the recorded covenants, conditions, and restrictions (CC&Rs). This document provides for shared use of common areas, parking, etc. All of the requested information has been provided.

- 4. Provide a copy of the shared access easements for vehicle access in Parkway Village South per Condition of Approval B3 of SP 17-01. If legal shared access has not been established, reciprocal access easements will be required as a Condition of Approval.*

Response: Please see the recorded CC&Rs (Exhibit C), which include reciprocal access easements for Lots 1 through 5. Additional documentation should not be necessary but can be provided if required as a condition of approval. All of the requested information has been provided.

5. *The eastern driveway does not meet access spacing standards for a collector status road. The narrative is required to address the Transportation Facilities Modifications criteria in SZCDC § 16.106.020(E). A response to the criteria does not guarantee approval.*

Response: As discussed in the City of Sherwood (City) Staff and Engineering Department Completeness Review comments, the existing eastern driveway approach does not meet access spacing standards. The Applicant does not elect to proceed with a transportation design modification to retain the existing full movement access. As shown on the updated Preliminary Plans (Exhibit A), the eastern driveway access has been converted to an emergency vehicle only access, which is planned to be gated to prohibit public access. Please disregard the "Site Access" portion of the *Trip Generation Estimates for Parkway Village South (Hotel and Self-Storage Facility)* technical memorandum prepared by Kittelson & Associates, Inc. All of the requested information has been provided.

6. *Revise the plans to show the intersection spacing for all driveways on Century Dr. on both sides of the street within 150 ft. of the property line.*

Response: Please see the updated Preliminary Dimensioned Civil Site Plan (Exhibit A), updated to show the intersection spacing for driveways on the north side of Century Drive. All of the requested information has been provided.

7. *Provide a summary of the neighborhood meeting including questions from the public and applicant responses. If no questions were raised, the meeting summary can state a presentation was made by the applicant, but no questions were raised by the public.*

Response: The Neighborhood Meeting Documentation, included in Exhibit F of the initial application submittal, contains a summary of the neighborhood meeting held on March 21, 2022. As described in the summary, a presentation was made by the Applicant and one member of the public attended the meeting. Please see the updated Neighborhood Meeting Summary (Exhibit F), updated to state "no questions were received from the public." All of the requested information has been provided.

8. *Provide the full proposed square footage of the hotel.*

Response: The hotel is planned to include a ground floor footprint of ±27,800 square feet. Each story above the ground floor is anticipated to include ±25,400 square feet. However, the total square footage of the hotel may range from ±78,600 (three stories) to ±104,000 square feet (four stories), depending on future floor configurations and associated room arrangements. Regardless of square footage, the hotel is envisioned to include 100 rooms. All of the requested information has been provided.

Advisory Comments

1. *As part of the 2017 Site Plan and 2018 Minor Modification approvals, a shared approach for parking, landscaping, etc. was taken to show compliance with the development code standards. The proposed modification to Lot 2 will impact compliance with development code standards for Lots 3, 4 and 5. The application is required to demonstrate how all lots in Parkway Village South continue to meet development code standards with parking, landscaping, etc. being removed and modified on Lot 2. A shared approach can be taken to the entire development, or certain lots can be grouped together to show compliance separately. The CC&Rs recorded against the property*

will also need to be updated to reflect the findings and shared approach to common improvements in any land use approval.

Response: The above comment is understood. Please see the Parkway Village South Modification Explanation (Exhibit R), containing calculations and associated parking and landscaping modification exhibits. As demonstrated in Exhibit R, the entire site exceeds the required amount of tree canopy, parking landscape area, and large trees. Additionally, the overall landscape area (defined as “other site landscaping”) also increases from the Minor Modification approval (City File No. MSSP 18-08), showing 21 percent of the total Parkway Village South site area is intended to be landscaped. Further, the Parking Landscape Area Calculation sheet (Exhibit R) and approved Minor Modification plans illustrate the changes made to parking stalls with this application. As noted, 41 stalls are modified from the previous Minor Modification on Lot 2, and 118 parking stalls are provided on Lots 1 and 2 with the current Major Modification. A shared approach to parking will continue to be implemented to meet the requirements of the Sherwood Municipal Code (Code), Chapter 16.94, as further discussed below. All of the requested information has been provided.

2. *Staff does not concur that no parking is required for 690 self-storage units. Additional evidence / examples of other storage facilities without parking could support the argument. In addition, no parking is proposed for the office space associated with the storage units. Parking should be provided for the office space.*

Response: As discussed in the application narrative, parking requirements for self-storage/mini-warehousing are not provided in the Code. As such, the Planning Commission (Review Authority) may determine alternate off-street parking and loading requirements for a use not specifically listed in this section.

The Preliminary Dimensioned Civil Site Plan (Exhibit A) illustrates 118 parking spaces are planned on Lots 1 and 2, described in Table 1, below.

Table 1: Parking Summary

Land Use	Parking Standard (stalls)	Parking Required (stalls)	Parking Provided (stalls)
Hotel (±100 rooms)	1 per room	±100	100
Self-Storage (±690 units)	Not identified in Code	±7	0 ¹
Flexible Tenant Areas/Industrial Support Services (±10,200 square feet)	1.6 per 1,000 square feet	±16	16
Building lease office (±960 square feet)	1.6 per 1,000 square feet	±1.5	2
Total Parking Stalls		±125	118

¹ 1,500 square feet loading/unloading space amounting to four oversized stalls is provided near the front of the industrial facility.

According to the calculations and analysis below, seven additional stalls may be required to be provided for the self-storage units. Pursuant to the Sherwood Municipal Code, Chapter 16.94 – Off-Street Parking and Loading, below, shared parking is allowed provided satisfactory evidence is provided to the City. The following responses demonstrate compliance with the applicable criteria.

SHERWOOD MUNICIPAL CODE

Title 16 – Zoning and Community Development Code

Division II. – LAND USE AND DEVELOPMENT

Chapter 16.94 – OFF-STREET PARKING AND LOADING

16.94.010 – General Requirements

...

C. Options for Reducing the Required Parking Spaces

1. Two (2) or more uses or, structures on multiple parcels of land may utilize jointly the same parking and loading spaces when the peak hours of operation do not substantially overlap, provided that satisfactory evidence is presented to the City, in the form of deeds, leases, or contracts, clearly establishing the joint use.

a. Within commercial, institutional and public, or industrial zones, shared parking may be provided on lots that are within five hundred (500) feet of the property line of the use to be served.

b. Shared parking is allowed if the application can show that the combined peak use is available by a parking study that demonstrates:

(1) There is a sufficient number of parking spaces to accommodate the requirements of the individual businesses; or

- (2) That the peak hours of operation of such establishments do not overlap, and
- (3) That an exclusive permanent easement over a delineated area has been granted for parking space use.

Response: This application includes two adjacent properties (within 500 feet of each other), zoned Light Industrial Planned Unit Development, and involves shared parking between two uses whose peak hours of operation do not substantially overlap. The following information serves as satisfactory evidence to demonstrate that shared parking is feasible on the property.

The storage facility serves as a space to store goods and materials. Patrons may pull their vehicle up to individual ground floor units/garage doors along the perimeter of the facility to access their storage materials for loading. Based on the nature of the enclosed self-storage building, patrons leasing a unit on an upper story will need to briefly leave their vehicle to enter the building. As shown on the Preliminary Plans (Exhibit A), a $\pm 1,500$ -square-foot loading area is provided central to the rear of the facility, with oversized spaces to accommodate moving trucks, trailers, pickups, etc. This amounts to double the loading area required for an industrial building over 50,000 square feet (i.e. 750 square feet of loading area is required).

As discussed in the Transportation Documentation (Exhibit L) prepared by Kittelson & Associates, Inc., the ± 690 -unit self-storage facility is associated with 126 average daily trips. According to the Institute of Transportation Engineers' (ITE's) *Trip Generation Manual* (11th Edition), the ± 690 units are expected to generate 13 weekday peak hour trips—where 6 trips are projected to be patrons entering the site and 7 trips are anticipated to be patrons exiting the site. This data indicates that the parking demand will be under 7 spaces during the peak hour of each day, with even lower demand during the other hours of operation.

In addition to generating a small number of trips, trips to self-storage facilities also tend to be short in duration. Users will briefly stop at the facility to pick up or drop off items then leave; even initial move-ins and move-outs are limited in duration due to individual unit size. This is in contrast to other commercial and industrial uses (e.g. retail shopping, restaurant dining, medical establishments) where trips from employees and patrons are commonly longer. As such, the covered $\pm 1,500$ -square-foot loading area, will allow approximately four vehicles (at a time) to park and spend a few minutes loading/unloading near the main entrance of the facility.

Additionally, the flex-use facility is planned to accommodate a small leasing office and four tenant spaces, defined as professional support service areas. The office is ± 960 square feet; the four flexible tenant spaces provide $\pm 2,550$ square feet of area each, totaling $\pm 10,200$ square feet. According to Table 1, above, industrial land uses require 1.6 vehicle parking spaces per 1,000 square feet of gross leasable area. Based on the total flexible tenant area ($\pm 10,200$ square feet) and leasing office (± 960 square feet), ± 18 vehicle spaces are provided. There are 521 parking stalls provided to the entire Parkway

Village South site; It is reasonably assumed that the additional parking needs for the self-storage units described above (i.e. seven stalls) will be met by utilizing parking stalls nearest the building.

Thank you for your review of the updated materials for the Site Plan Review involving the Major Modification on Lots 1 and 2 of Parkway Village South. With this information, we believe the application is now complete. Due to project time constraints, we respectfully request, per Oregon Revised Statute (ORS) 227.178(2)(a), below, that the subject application be deemed complete with this resubmittal so that the land use review process may proceed.

If you have any questions, please contact me at (503) 563-6151. We appreciate your assistance in reviewing our application.

Sincerely,

AKS ENGINEERING & FORESTRY, LLC

City Zoning: Light Industrial Planned Unit Development (LI-PUD)

I. Executive Summary

Langer Family, LLC (Applicant) is pleased to submit this application to the City of Sherwood for a hotel and storage facility on Lots 1 and 2 of Parkway Village South subdivision (recorded as Document No. 2019-034798). The Parkway Village South campus is zoned Light-Industrial Planned Unit Development (LI-PUD) and currently contains existing improvements (on Lots 3, 4, and 5) that were reviewed and approved through City of Sherwood File Nos. SP 17-01/SUB 17-03. Existing site improvements include paved circulation and parking areas, site lighting and landscaping, trash enclosures, public infrastructure extensions (franchise utilities, sewer, water, etc.), and the Langer's Entertainment Center building. This application involves two properties located in the northeast portion of Parkway Village South, southeast of the intersection of SW Century Drive and SW Langer Farms Parkway (Tax Lots 1100 and 1200 of Washington County Assessor's Map 2S 1 29DC). The property is accessed by two existing driveways on the south side of SW Century Drive; both access points are planned to remain. The project site totals ±4.85 acres and planned project features include:

- ±100-room hotel
- Mixed-use storage facility including ±690 self-storage units and four flexible tenant units
- Paved parking, circulation, and directional signage
- Specified loading areas and accessible/carpool parking stalls
- On-site landscaping, fencing, open space areas, and courtyard
- Trash enclosure, site lighting, fire hydrant, etc.
- Outdoor amenities (e.g. pavilions, hot tub, swimming pool, etc.)
- Extension of public services (e.g. potable water, sanitary sewer, stormwater management, franchise utilities, etc.)
- Stormwater management infrastructure
- Skybridge connecting the hotel to Langer's Entertainment Center (future phase)

Although Lots 1 and 2 are the focus of this consolidated land use application, the Parkway Village South Overall Site Plan (Exhibit A) and artistic architectural renderings (included in Exhibit D), portray the associated and envisioned improvements for the entire campus. The Preliminary Architectural Materials (Exhibit D), illustrate a vibrant pedestrian-oriented environment, characterized with established businesses, restaurants, inviting spaces, and convenient parking and access for patrons. The Transportation Documentation (Exhibit L) demonstrates this application will result in lower traffic volumes, specifically fewer daily trips, than previously assumed/approved for the campus. Completion of this project will bring life to an existing urban property that is uniquely vacant in comparison to the surrounding area.

Application Description

As discussed in further detail in the application materials, this submittal involves the following application elements intended to facilitate successful development of the subject site:

- **Lot Line Adjustment** – to reconfigure the common boundary between the hotel and storage facility (between Lot 1 and Lot 2 of Parkway Village South subdivision plat), and center the common boundary along the shared driveway aisle (between Lot 1, Lot 2, Lot 3, and Lot 5)
- **Site Plan Review** – to initiate the envisioned site plan on Lot 1 (currently vacant; not associated with an existing land use approval)

-
- **Major Modification to Approved Site Plan** – to implement a change of use on Lot 2 from an approved daycare facility to a hotel and modify the approved building size in an amount greater than 10 percent
 - **Conditional Use Permit** – to allow a hospitality land use (site a hotel) on Lot 2, within the Light Industrial base zoning district

This written narrative, together with the preliminary plans and other documentation included in the application materials, establishes that the application complies with all applicable approval criteria of the Sherwood Zoning and Community Development Code (SZCDC). This documentation provides the basis for the City to approve the application.

II. Background Information

Background

Parkway Village South has been involved in previous land use actions over the years. The PUD designation was assigned as part of the Langer Family PUD application (PUD 95-01) approved (without a preliminary plat) by the City of Sherwood on April 26, 1995. The Langer Family PUD is hereafter referred to as the “PUD.” The subject property was included as Phase 6 of the PUD.

In January 2008, the City approved an application (PUD 07-01) covering the land uses that are permitted within the PUD. The 2008 City decision is memorialized in a development agreement—the Amended and Restated Development Agreement dated 2010 (included as Exhibit H). Consistent with the PUD (95-01) (e.g. originally approved without a preliminary plat), the ‘Langer Farms’ Subdivision (SUB 12-02) was approved, and the plat recorded in March 2013 (Document No. 2013025409). In June 2017, Partition Plat 2017-019 (a replat of Lot 4 of ‘Langer Farms’) was recorded, resulting in two parcels. Thereafter in December 2017, the Parkway Village South Site Plan and Subdivision (SP 17-01/SUB 17-03) were approved. In March 2019, the Parkway Village South Subdivision (a replat of Parcel 2 of Partition Plat 2017-019) was recorded, resulting in five lots. The property is currently configured as Lots 1 and 2 of Parkway Village South subdivision plat (Document No. 2019-034798).

Following the approvals above, a Minor Modification to the Parkway Village South Site Plan (SP 17-01/SUB 17-03) was submitted to modify two of the approved commercial areas. The Minor Modification (MMSP 18-08) was approved by the City of Sherwood on April 1, 2019; MMSP 18-08 is the most recent casefile on the subject property and includes transportation documentation relevant to this application.

Development Agreement

Oregon Revised Statute (ORS) 92.040(2) states that after September 9, 1995, when a local government approves a subdivision application inside an urban growth boundary (UGB), only those local government laws implemented under an acknowledged plan and in effect at the time of the subdivision application apply to subsequent construction on the property, unless the Applicant elects otherwise. This vesting remains in place for 10 years after approval of the subdivision, pursuant to ORS 92.040(3).

A request for vesting determination of SP 17-01 was submitted to the City of Sherwood in October 2021. The Vesting Determination Documentation, including the City’s response, are included as Exhibit N. At the pre-application conference, staff discussed the operating self-storage facility is no longer a permitted use in the LI zoning district under current development code; however, the use was permitted on the site in 2012 when the subject property was created by the Langer Farms subdivision plat. Self-storage is

therefore a permitted use on the site until August 28, 2022 (i.e. 10 years), pursuant to ORS 92.040. For further information, please see the pre-application conference documentation included as Exhibit I.

Setting

The site is located north of SW Oregon Street and east of SW Langer Farms Parkway, on the south side of SW Century Drive. As stated above, the property is zoned Light-Industrial Planned Unit Development (LI-PUD) and surrounded by similar land uses, including:

Table 1: Description of Surrounding Area

Area	Jurisdiction	Zoning	Acreage	Land Uses
North	City of Sherwood	Agricultural F	±14 acres	Industrial/commercial retail (i.e. Walmart Supercenter)
South	City of Sherwood	Light Industrial Planned Unit Development (LI-PUD)	±4.20 acres	Regional stormwater facility, drainage channel, and vegetated corridor
East	City of Sherwood	Light Industrial (LI)	±37.5 acres	Industrial campus (i.e. warehouses/facilities, etc.)
West	City of Sherwood	Light Industrial Planned Unit Development (LI-PUD)	±7.5 acres	Industrial/commercial retail (i.e. Parkway Village South, Langer’s Entertainment Center, etc.)

III. Applicable Review Criteria

SHERWOOD ZONING AND COMMUNITY DEVELOPMENT CODE

Title 16 – Zoning and Community Development Code

Division II. – LAND USE AND DEVELOPMENT

Chapter 16.31 - INDUSTRIAL LAND USE DISTRICTS

16.31.010 - Purpose

- B. Light Industrial (LI) - The LI zoning district provides for the manufacturing, processing, assembling, packaging and treatment of products which have been previously prepared from raw materials. Industrial establishments shall not have objectionable external features and shall feature well- landscaped sites and attractive architectural design, as determined by the Commission.

Response: The site is within the LI-PUD zoning district. Therefore, this section is applicable.

16.31.020 - Uses

- A. The table below identifies the land uses that are permitted outright (P), permitted conditionally (C) and not permitted (N) in the industrial zoning districts. The specific land use categories are described and defined in Chapter 16.88.
- B. Uses listed in other sections of this Code, but not within this specific table are prohibited.
- C. Any use not otherwise listed that can be shown to be consistent or associated with the uses permitted outright or conditionally in the

industrial zones or contribute to the achievement of the objectives of the industrial zones may be permitted outright or conditionally, utilizing the provisions of Chapter 16.88.

D. Additional limitations for specific uses are identified in the footnotes of this table.

Uses	LI
INDUSTRIAL	
Mini-warehousing or self-storage	N
COMMERCIAL	
Hospitality and Lodging	
Hotel/Motel	CU ¹²
Office and Professional Support Services	
Business and professional offices ³	P
³ Limited in size to five thousand (5,000) square feet in a single outlet and no more than twenty thousand (20,000) square feet in multiple outlets in the same development project. ¹² See special standard criteria for hospitality and lodging uses within the Light Industrial Land Use District SZCDC 16.31.040.	

Response: This application involves review of a self-storage facility with flexible tenant spaces and a hotel. As discussed in the background information above, the land uses that are permitted on site are memorialized in the Amended and Restated Development Agreement dated 2010 (included as Exhibit H) and the Vesting Determination Documentation (Exhibit N). Self-storage is not permitted in the LI zone under the current development code; however, “mini-warehousing” was a permitted use on the site when the parent property was created by subdivision (SUB 12-02). Establishing “mini-warehousing” or “self-storage” is therefore a permitted use until August 28, 2022, pursuant to ORS 92.040. For further details, please see the Pre-Application Conference Documentation (Exhibit I).

Additionally, the flexible tenant spaces within the self-storage facility are planned to contain ±2,500 square feet of area for private or business tenants. These spaces are generally permitted in the LI zone as ‘professional support services,’ shown in the table above. The tenant spaces do not exceed the limits on business and professional offices noted in the table above: 5,000 square feet in a single outlet or 20,000 square feet of the total building size.

Finally, a hotel is a conditional use within the LI zoning district, subject to special criteria of Sherwood Zoning and Community Development Code (SZCDC) 16.31.040. Please see the responses to SZCDC 16.31.040 within this document. As such, the envisioned uses are permitted conditionally or outright, as shown above. The criteria above are met.

16.31.030 - Development Standards

A. **Generally**

No lot area, setback, yard, landscaped area, open space, off-street parking or loading area, or other site dimension or requirement, existing on, or after, the effective date of this Code shall be reduced below the minimum required by this Code. Nor shall the conveyance of any portion of a lot, for other than a public use or right-of-way, leave a lot or structure on the remainder of said lot with less than

minimum Code dimensions, area, setbacks or other requirements, except as permitted by Chapter 16.84 (Variances and Adjustments).

Response: As discussed in this written document and shown on the Preliminary Plans (Exhibit A), the application demonstrates consistency with the applicable requirements of the SZCDC. Further, the Preliminary Property Line Adjustment Plan (Exhibit A), illustrates that the lot dimensions meet the standards of the LI-PUD zoning district. This application does not involve variances or adjustments.

B. Development Standards

Except as otherwise provided, required minimum lot areas and dimensions and setbacks shall be:

Development Standards by Zone	LI
Lot area – industrial uses:	10,000 SF
Lot area – commercial uses (subject to Section 16.31.050)	10,000 SF
Lot width at front property line:	100 feet
Lot width at building line:	100 feet
Front yard setback ¹¹	20 feet
Side yard setback ¹⁰	None
Rear yard setback ¹¹	None
Corner lot street side ¹¹	20 feet
Height ¹¹	50 feet
¹⁰ When a yard is abutting a residential zone or public park, there shall be a minimum setback of forty (40) feet provided for properties zoned Employment Industrial and Light Industrial zones, and a minimum setback of fifty (50) feet provided for properties zoned General Industrial.	
¹¹ Structures located within one hundred (100) feet of a residential zone shall be limited to the height requirements of that residential zone.	

Response: As shown on the Preliminary Property Line Adjustment Plan (Exhibit A), this application involves a lot line adjustment between Tax Lots 1100, 1200, 1300, and 1500 of Washington County Assessor’s Map 2S129DC. The general purpose is to reconfigure the common boundary between the hotel and storage facility (between Lot 1 and Lot 2 of Parkway Village South subdivision plat), and center the common boundary (between Lot 1, Lot 2, Lot 3, and Lot 5) along the shared drive aisle. After the lot line adjustment, the reconfigured properties will be at least 10,000 square feet with widths greater than 100 feet.

Further illustrated in Exhibit A, the planned self-storage building is set back greater than 20 feet along the front lot line of SW Century Drive. The planned hotel is set back greater than 20 feet along the front lot line (parallel to the common drive aisle). As shown, the planned buildings comply with the applicable setbacks above. Additionally, the project site is not located within 100 feet of a residential zoning district. As such, according to footnote 11 (above) the height limitations of residential zoning districts are not applicable. The Preliminary Architectural Materials (Exhibit D) show the heights of the planned buildings do not exceed 50 feet. Therefore, the standards above are met.

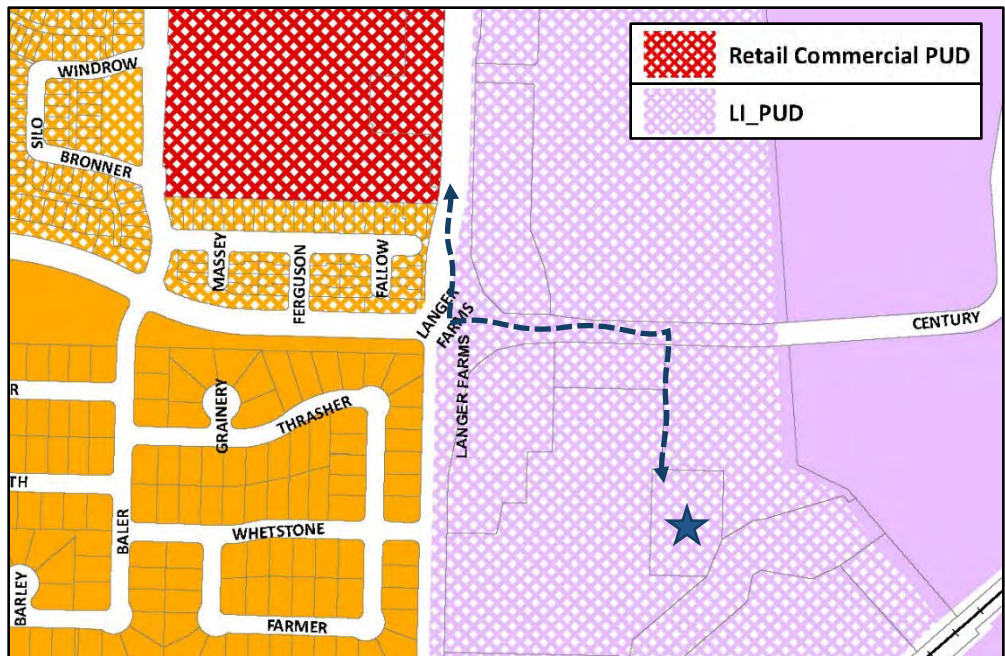

16.31.040 - Special Standards Hospitality and Lodging Uses Within the Light Industrial Zone

A. Siting

- Hotels/motels within the Light Industrial zone must be sited within 1/4 mile from the General Commercial and/or Retail Commercial zone.

Response: As shown on the Preliminary Plans (Exhibit A), the hotel is planned to be located on Tax Lot 1200 (Lot 2 of Parkway Village South subdivision plat). Figure 1, below, illustrates a direct route from the site (depicted with a star symbol) is less than 1/4-mile (approximately 0.19 miles) from land zoned Retail Commercial on the City of Sherwood Zoning Map. The criterion is met.

Figure 1: Surrounding City of Sherwood Zoning

B. Development and Design

- The development of hotels/motels in the Light Industrial zone shall use the urban design standards in SZCDC Section 16.90.20.D.6.a—c. As an alternative to the standards in Section 16.90.20.D.6.a—c the commercial design review matrix may be applied (Section 16.90.020.D.6.d). A development must propose a minimum of sixty (60) percent of the total possible points to be eligible for exemption from the standards in Section 16.90.020.D.6.a—c.
- A hotel/motel shall provide a minimum of 200 square feet of interior floor area for conference and/or meeting rooms, exclusive of dining, breakfast and lobby areas.

16.31.050 - Employment Industrial (EI) Restrictions

16.31.060 - Tonquin Employment Area (TEA) Commercial Nodes Use Restrictions

Response: The subject site is not zoned EI or TEA. Therefore, the sections above are not applicable and have been omitted for brevity purposes.

16.31.070 - Community Design

For standards relating to off-street parking and loading, energy conservation, historic resources, environmental resources, landscaping, access and egress, signs, parks and open space, on-site storage, and site design, the applicable provisions of Divisions V, VIII and IX will apply.

Response: The applicable standards are addressed later within this narrative.

16.31.080 - Floodplain

Except as otherwise provided, Section 16.134.020 shall apply.

Response: The subject site is not mapped with floodplain resources. Therefore, the section above is not applicable and has been omitted for brevity purposes.

Chapter 16.40 – PLANNED UNIT DEVELOPMENT

16.40.030 - Final Development Plan

A. Generally

Upon approval of the PUD overlay zoning district and preliminary development plan by the Council, the applicant shall prepare a detailed Final Development Plan as per this Chapter, for review and approval of the Commission. The Final Development Plan shall comply with all conditions of approval as per Section 16.40.020. In addition, the applicant shall prepare and submit a detailed site plan for any non-single-family structure or use not addressed under Section 16.40.020(B)(6), for review and approval, pursuant to the provisions of Chapter 16.90. The site plan shall be processed concurrently with the Final Development Plan.

Response: As discussed previously in the application background information, the subject site includes a portion of Phase 6 of the Parkway Village South PUD (Tax Lots 1100 and 1200 of Washington County Assessor’s Map 2S 1 29DC). The PUD designation was assigned as part of the Langer Family PUD application (PUD 95-01), referred to in this narrative as the “PUD,” that was approved (without a preliminary plat) by the City of Sherwood on April 26, 1995.

In January 2008, the City approved an application (PUD 07-01) covering the land uses that are permitted within the PUD. The 2008 City decision is memorialized in a development agreement – the Amended and Restated Development Agreement, dated 2010 (included as Exhibit H). Consistent with the PUD (95-01), the Langer Farm’s Subdivision (SUB 12-02) was approved, and the plat recorded in March 2013 (Document No. 2013025409). In June 2017, Partition Plat 2017-019 (a replat of Lot 4 of Langer Farms) was recorded, resulting in 2 parcels. Thereafter in December 2017, the Parkway Village South Site Plan and Subdivision (SP 17-01/SUB 17-03) were approved. In March 2019, the Parkway Village South subdivision plat (a replat of Parcel 2 of Partition Plat 2017-019) was recorded, resulting in 5 lots. The property is currently configured as Lots 1 and 2 of Parkway Village South subdivision plat (recorded as Document No. 2019-034798).

2010 Amended and Restated Development Agreement

Consistent with the PUD approval and the 2010 Development Agreement (included as Exhibit H), this Site Plan Review application provides specific details for land uses,

buildings, landscaping, site circulation, and access. The project complies with the PUD Development Agreement and 1995 PUD Design Guidelines as stated below:

1995 PUD Design Guidelines

The PUD approval established design guidelines for the PUD in 1995. Based on previous discussions with City staff and review of past decisions, the design standards entail a two-page undated document entitled “Sherwood Village Retail/Commercial Design Guidelines.” The document (Exhibit O) is comprised of four headings: 1. Retail Building Construction, 2. Landscaping, 3. Signage, and 4. Lighting.

1. RETAIL BUILDING CONSTRUCTION

A. Exterior materials and treatment (trim, etc.)

- 1) Predominantly wood exterior.
- 2) Exterior windows and doors will have minimum 1 inch x 3 inch surrounds painted white.
- 3) Paint: Light tone palettes (white, off-white, grey, beige, tan}, or similar as per Design Review Committee's approval.

B. Shapes of openings

- 1) Arched openings and bays encouraged.

C. Storefronts

- 1) Storefronts should have trimmed openings similar to above A. 2.).

D. Roofs

- 1) Pitched roof forms are encouraged.
- 2) Large amounts of flat roof are discouraged.

Response: The criteria listed above are “guidelines” and not mandatory “standards.” Therefore, the Applicant only needs to show general conformance with the applicable guidelines rather than strict adherence to them. Further, while neither the planned self-storage facility nor the hotel are considered ‘retail buildings,’ this application nonetheless demonstrates consistency with the design guidelines.

City approvals of previous phases of the Langer PUD have provided wide latitude and flexibility in the application of these design guidelines. Specifically, City approval of the Target shopping center (Phase 5) in the early 2000s and the Parkway Village (Phase 7) in 2012 were evaluated against the intent of these guidelines.

Page 10 of the Staff Report for the Parkway Village approval (SP 12-05/CUP 12-02) includes the finding:

The applicant is correct in that the guidelines are not intended to be prescriptive, and to the extent that the other phases of the Langer PUD has been developed with these standards, it is clear that a lot of latitude and flexibility has been provided to prior approvals. Arguably, the presence of the gabled roofs, addition of exposed wood, stone, and glass will provide a development that is much closer to achieving the guidelines than prior decisions.

Page 28 of the July 10, 2001 Revised Staff Report for the Target shopping center approval provides the following finding related to the guideline to provide a “predominantly wood exterior”:

Does not comply in the strict sense. The applicant states that wood exteriors are not typically used for such large buildings due to difficulty of maintenance and concern for fire safety. Therefore, the exterior is proposed, instead, to consist primarily of smooth face block that is accented with trim of darker split face block. The only glass is on the entry doors and windows at the NW corner of the store. The door and window surrounds are an industry standard size and the applicant states that the trim will be natural aluminum, which will be light-toned similar to white to provide similar contrast. Exterior building colors are proposed as a light tone palette (white, off-white, gray, beige or tan) in accordance with the Design Guidelines.

As shown on the Preliminary Architectural Materials (Exhibit D), colored elevations submitted with this application show building exteriors that incorporate board and batten, lap siding, wood columns, wood decking and canopies, and shingles. Other materials used include brick veneer, stone veneer, split-face concrete masonry unit (CMU), and metal roofing. While not all the materials are wood, they are materials that reflect the vernacular styles of the region and create a similar visual appeal. Robust Northwest-appropriate materials will weather well, and last long-term in the damp Pacific Northwest climate.

Further, brick and ledgerstone create a solid and timeless look, and the incorporation of siding with horizontal lap evokes a classic storefront look consistent with the guidelines. All windows will include trim of a color compatible with the external building materials. The second and third story pitched roofs contain board and batten siding, shingles, wood eaves and trimmed square windows. The project provides building exteriors that incorporate wood, light window surrounds, light or natural earth-tone colors, bays, storefronts, and pitched roofs. The ultimate result is a welcoming residential or village feel that meets the intent of the guidelines.

2. LANDSCAPING

- A. Barkdust is not to be substituted as grass in front yards.
- B. All driveways and vehicular storage areas shall be paved with asphalt, gravel, or other dust minimizing material.
- C. Trash and service areas must be screened from public view.

Response: Site landscaping is planned to include a mixture of shrubs, trees, and groundcover designed to complement the property, buildings, and hardscapes. The Preliminary Landscape Plan (Exhibit A) illustrates that bark dust is not planned to be substituted in place of grass, except perhaps in conjunction with plantings. Several types of vegetative groundcover are listed on the Preliminary Landscape Plan. Vehicle maneuvering areas and driveways will be paved and dust minimized. Walls and plantings are intended to be used to screen trash enclosures. The landscaping guidelines, above, are met.

3. SIGNAGE

A. Sign-Post Standards

- 1) Main thoroughfares will have upgraded sign post standards.
- 2) Retail and commercial development areas will use the approved City of Sherwood sign posts painted to match the main throughfare posts and the pedestrian light posts.

B. Entry Monuments

- 1) All entry monuments and common area signage will be designed by JKS Architects.
- 2) Sherwood Village monument signage will be at the following location:
 - a. The intersection of 12th Street and Sherwood Boulevard
 - b. The opposite end of 12th Street
 - c. The intersection of Langer Drive and Tualatin-Sherwood Highway.

C. Building Signage

- 1) All freestanding building signage will be of similar construction to the monument signage: wood or concrete, painted white, with a shingled roof, and approved by the Design Review Committee.
- 2) Shall follow City of Sherwood signage restrictions.

Response: This application does not include plans for signage or entry monumentation at this time. As such, the criteria are not applicable to this Site Plan Review application.

4. LIGHTING

- A. In addition to the City of Sherwood approved intersection street lights, all residential areas, 12th Street, and common areas will use a 6200MC-100HPS/12-DB-BK, RTANA-9'6"-4" w/lamp Trimble House pedestrian light fixture in pre-painted forest green, spaced at approximately 150 lineal feet apart, placing them on alternating sides of the street.

Response: As shown on the Existing Conditions Plan (Exhibit A), frontage improvements, including street lighting, along SW Century Drive have been implemented in accordance with City standards. Therefore, the criterion is not applicable to this Site Plan Review application.

Chapter 16.58 - VISION CLEARANCE AND FENCE STANDARDS

16.58.010 - Clear Vision Areas

- A. A clear vision area shall be maintained on the corners of all property at the intersection of two (2) streets, intersection of a street with a railroad, or intersection of a street with an alley or private driveway.
- B. A clear vision area shall consist of a triangular area, two (2) sides of which are lot lines measured from the corner intersection of the street lot lines for a distance specified in this regulation; or, where the lot lines have rounded corners, the lot lines extended in a straight line to a point of intersection, and so measured, and the third side of which

is a line across the corner of the lot joining the non-intersecting ends of the other two (2) sides.

- C. A clear vision area shall contain no planting, sight obscuring fence, wall, structure, or temporary or permanent obstruction exceeding two and one-half (2½) feet in height, measured from the top of the curb, or where no curb exists, from the established street center line grade, except that trees exceeding this height may be located in this area, provided all branches and foliage are removed to the height of seven (7) feet above the ground on the sidewalk side and ten (10) feet on the street side.

The following requirements shall govern clear vision areas:

1. In all zones, the minimum distance shall be twenty (20) feet.
2. In all zones, the minimum distance from corner curb to any driveway shall be twenty-five(25) feet.
3. Where no setbacks are required, buildings may be constructed within the clear vision area.

Response: Clear vision areas are required at the driveway intersection with SW Century Drive on the northern property boundary. Vision clearance requirements have been met, as demonstrated by the attached Preliminary Dimensioned Civil Site Plan and Preliminary Landscape Plan (Exhibit A). Plantings between 2½ and 7 feet in height, walls, fences, and other prohibited items have not been planned within clear vision areas. These criteria are met.

16.58.020 - Fences, Walls and Hedges.

- A. Purpose:

The fence standards promote the positive benefits of fences without negatively impacting the community or endangering public or vehicle safety. Fences can create a sense of privacy, protect children and pets, provide separation from busy streets, and enhance the appearance of the property by providing attractive landscape

materials. The negative effect of fences can include the creation of street walls that inhibit police and community surveillance, decrease the sense of community, hinder the safe movement of pedestrians and vehicles, and create an unattractive appearance. These standards are intended to promote the positive aspects of fences and to limit the negative ones.

B. Applicability:

The following standards apply to walls, fences, hedges, lattice, mounds, and decorative toppers. These standards do not apply to sound walls and landscape features that are not hedges.

D. Location—Non-Residential Zone:

1. Fences up to eight (8) feet high are allowed along front, rear and side property lines, subject to Section 16.58.010. (Clear Vision Areas) and building department requirements.
2. A sound wall is permitted when required as a part of a development review or concurrent with a road improvement project. A sound wall may not be taller than twenty (20) feet.
3. Hedges up to twelve (12) feet tall are allowed.

E. General Conditions—All Fences:

1. Retaining, masonry, concrete, and modular retaining walls may not be constructed within the eight-foot public utility easement (PUE) located on the front and corner street side yards, without approval from the City Engineer.
2. Fences must be structurally sound and maintained in good repair. A fence may not be propped up in any way from the exterior side.
4. The finished side of the fence must face the street or the neighboring property. This does not preclude finished sides on both sides.
5. Buffering: If a proposed development is adjacent to a dissimilar use such as a commercial use adjacent to a residential use, or development adjacent to an existing farming operation, a buffer plan that includes, but is not limited to, setbacks, fencing, landscaping, and maintenance via a homeowner's association or managing company must be submitted and approved as part of the preliminary plat or site plan review process per Section 16.90.020 and Chapter 16.122.
6. In the event of a conflict between this Section and the clear vision standards of Section 16.58.010, the standards in Section 16.58.010 prevail.
7. The height of a fence or wall is measured from the actual adjoining level of finished grade measured six (6) inches from the fence. In the event the ground is sloped, the lowest grade within six (6) inches of the fence is used to measure the height.
8. Call before you dig (811) if placing a fence within the public utility easement (PUE) to have your utility lines located. This easement area is usually located eight (8) feet across

the front yard and the side yard setback on a corner lot. Utility lines can be buried just beneath the surface.

Response: Walls or fences greater than 8 feet in height have not been planned, nor are any walls or fences planned within public utility easements (PUEs). Please see the attached Preliminary Plans (Exhibit A) for further details. These standards are understood; therefore, applicable criteria have been met or will be met upon installation of the fencing.

Division III. - ADMINISTRATIVE PROCEDURES

Chapter 16.70 - GENERAL PROVISIONS

16.70.010 - Pre-Application Conference

Pre-application conferences are encouraged and shall be scheduled to provide applicants with the informational and procedural requirements of this Code; to exchange information regarding applicable policies, goals and standards of the Comprehensive Plan; to provide technical and design assistance; and to identify opportunities and constraints for a proposed land use action. An applicant may apply at one time for all permits or zone changes needed for a development project as determined in the pre-application conference.

Response: A pre-application conference for this project was held on January 6, 2022. The documentation is included as Exhibit I. The criterion is met.

16.70.020 - Neighborhood Meeting

- A. The purpose of the neighborhood meeting is to solicit input and exchange information about the proposed development.
- B. Applicants of Type III, IV and V applications are required to hold a meeting, at a public location for adjacent property owners and recognized neighborhood organizations that are within 1,000 feet of the subject application, prior to submitting their application to the City. Affidavits of mailing, sign-in sheets and a summary of the meeting notes must be included with the application when submitted. Applicants for Type II land use action are encouraged, but not required to hold a neighborhood meeting.

Response: This application involves a Type III Conditional Use Permit, Type IV Site Plan Review, and a Type IV Major Modification to Approved Site Plan. A Neighborhood Meeting was held on March 21, 2022. Notice was provided to owners of property within 1,000 feet of the properties subject to Type III and IV review. One member of the public showed up to participate in the meeting. Please see Exhibit F for further documentation demonstrating consistency with the provisions of this section. Therefore, the criteria are met.

16.70.030 - Application Requirements

- A. Form
Any request for a land use action shall be made on forms prescribed and provided by the City and shall be prepared and submitted in compliance with this Code. A land use application shall be reviewed against the standards and criteria effective at the time of application submittal. Original signatures from all owners or their legal representative must be on the application form.
- B. Copies

To assist in determining the compliance of proposed land use actions with the Comprehensive Plan and provisions of this Code, applicants shall submit one (1) complete electronic copy of the full application packet, one reduced (8½ × 11) copy of the full application packet and the required number of hard copies as outlined on the applicable forms prescribed and provided by the City.

C. Content

1. In addition to the required application form, all applications for Type II-V land use approval must include the following:

a. Appropriate fee(s) for the requested land use action required based on the City of Sherwood Fee Schedule.

Response: The appropriate fees are included with the application.

b. Documentation of neighborhood meeting per 16.70.020.

Response: Neighborhood Meeting Documentation is included within Exhibit F.

c. Tax Map showing property within at least 300 feet with scale (1" = 100' or 1" = 200') north point, date and legend.

Response: The Washington County Assessor's Map is included within Exhibit J.

d. Two (2) sets of mailing labels for property owners of record within 1,000 feet of the subject site, including a map of the area showing the properties to receive notice and a list of the property owners, addresses and tax lots. Ownership records shall be based on the most current available information from the Tax Assessor's office.

Response: Public Notice Information is included within Exhibit G.

e. Vicinity Map showing a minimum radius of 500 feet around the property and the closest intersection of two Principal Arterial, Arterial, Collector or Neighborhood roads.

Response: The Preliminary Plans (Exhibit A) contain a vicinity map.

f. A narrative explaining the proposal in detail and a response to the Required Findings for Land Use Review for the land use approval(s) being sought.

Response: This written document satisfies the criterion above.

g. Two (2) copies of a current preliminary title report.

Response: A Preliminary Title Report is included within Exhibit C.

h. Existing conditions plan drawn to scale showing: property lines and dimensions, existing structures and other improvements such as streets and utilities, existing vegetation, any floodplains or wetlands and any easements on the property.

Response: Please see the Existing Conditions Plan within the Preliminary Plans (Exhibit A) showing the applicable information above. The property does not contain floodplains or wetlands.

- i. Proposed development plans sufficient for the Hearing Authority to determine compliance with the applicable standards. Checklists shall be provided by the City detailing information typically needed to adequately review specific land use actions.

Response: The City of Sherwood land use application forms and checklists are included within Exhibit B. The Preliminary Plans (Exhibit A) and the Preliminary Architectural Materials (Exhibit D) contain sufficient information for the Hearing Authority to determine compliance with the applicable standards.

- j. A traffic study, if required by other sections of this Code.

Response: Transportation documentation prepared by Kittelson & Associates, Inc. is included within Exhibit L.

- k. Other special studies or reports that may be identified by the City Manager or his or her designee to address unique issues identified in the pre-application meeting or during project review including but not limited to:
 - 1) Wetland assessment and delineation;
 - 2) Geotechnical report;
 - 3) Traffic study;
 - 4) Verification of compliance with other agency standards such as CWS, DSL, Army Corps of Engineers, ODOT, PGE, BPA, Washington County.

Response: There were no special study requirements identified at the pre-application conference. Please see the Service Provider Letter (SPL) from Clean Water Services (Exhibit E) demonstrating a site assessment is not necessary. Additionally, the required Tualatin Valley Fire & Rescue SPL is included as Exhibit M.

- l. Plan sets must have:
 - 1) The proposed name of the development. If a proposed project name is the same as or similar to other existing projects in the City of Sherwood, the applicant may be required to modify the project name.
 - 2) The name, address and phone of the owner, developer, applicant and plan producer.
 - 3) North arrow,
 - 4) Legend,
 - 5) Date plans were prepared and date of any revisions

- 6) Scale clearly shown. Other than architectural elevations, all plans must be drawn to an engineer scale.
- 7) All dimensions clearly shown.

Response: The Preliminary Plans (Exhibit A) contain the required information, as applicable. The submittal requirements are met.

- 2. Exemptions can be made when items in 16.70.030.C.1 are not necessary in order to make a land use decision, such as for text amendments to the development code. Additional written documentation may be necessary to adequately demonstrate compliance with the criteria.

Response: This application does not include or require exemptions. The criterion is not applicable.

Chapter 16.72 - PROCEDURES FOR PROCESSING DEVELOPMENT PERMITS

16.72.010 – Generally

A. Classifications

Except for Final Development Plans for Planned Unit Developments, which are reviewed per Section 16.40.030, all quasi-judicial development permit applications and legislative land use actions shall be classified as one of the following:

4. Type IV

The following quasi-judicial actions shall be subject to a Type IV review process:

...

- c. Site Plans — Greater than 40,000 square feet of floor area, parking or seating capacity.

...

Response: This application involves a Type I Property Line Adjustment(s), Type III Conditional Use Permit, Type IV Site Plan Review, and a Type IV Major Modification to Approved Site Plan. Therefore, a Type IV review process is required.

B. Hearing and Appeal Authority

- 1. Each Type V legislative land use action shall be reviewed at a public hearing by the Planning Commission with a recommendation made to the City Council. The City Council shall conduct a public hearing and make the City's final decision.
- 2. Each quasi-judicial development permit application shall potentially be subject to two (2) levels of review, with the first review by a Hearing Authority and the second review, if an appeal is filed, by an Appeal Authority. The decision of the Hearing Authority shall be the City's final decision, unless an appeal is properly filed within fourteen (14) days after the date on which the Hearing Authority took final action. In the event of an appeal, the decision of the Appeal Authority shall be the City's final decision.
- 3. The quasi-judicial Hearing and Appeal Authorities shall be as follows:

...

- d. The Type IV Hearing Authority is the Planning Commission and the Appeal Authority is the City Council.
 - 1) The Planning Commission shall hold a public hearing following public notice in accordance with Sections 16.72.020 through 16.72.080.
 - 2) Any person who testified before the Planning Commission at the public hearing or submitted written comments prior to the close of the record may appeal the Planning Commission's decision.

Response: The information above regarding Hearing and Appeal Authorities is understood.

C. Approval Criteria

- 1. The approval criteria for each development permit application shall be the approval standards and requirements for such applications as contained in this Code. Each decision made by a Hearing Authority or Appeal Authority shall list the approval criteria and indicate whether the criteria are met. It is the applicant's burden to demonstrate to the Hearing Authority and Appeal Authority how each of the approval criteria are met. An application may be approved with conditions of approval imposed by the Hearing Authority or Appeal Authority. On appeal, the Appeal Authority may affirm, reverse, amend, refer, or remand the decision of the Hearing Authority.
- 2. In addition to Section 1 above, all Type IV quasi-judicial applications shall also demonstrate compliance with the Conditional use criteria of Section 16.82.020.

Response: The applicable approval criteria have been addressed within this narrative. Please see the responses to Section 16.82.020. These criteria are met.

16.72.020 - Public Notice and Hearing

A. Newspaper Notice

Notices of all public hearings for Type III, IV and V land use actions required by this Code shall be published in a newspaper of general circulation available within the City two (2) calendar weeks prior to the initial scheduled hearing before the Hearing Authority and shall be published one additional time in the Sherwood Archer, Sherwood Gazette or similarly local publication, no less than 5 days prior to the initial scheduled hearing before the hearing authority.

B. Posted Notice

...

C. Mailed Notice

...

16.72.030 - Content of Notice

Public notices shall include the following information:

...

Response: Public notification is performed by the City of Sherwood. The standards above are understood and do not require action by the Applicant.

Chapter 16.82 – CONDITIONAL USE*

16.82.010 - Generally

A. Authorization

Uses permitted in zoning districts as conditional uses may be established, enlarged, or altered by authorization of the Commission in accordance with the standards and procedures established in this Chapter. If the site or other conditions are found to be inappropriate for the use requested, the Commission or Hearings Officer (cited below as Hearing Authority) may deny the conditional use.

B. Changes in Conditional Uses

Changes in use or expansion of a legal non-conforming use, structure or site, or alteration of structures or uses classified as conditional uses, that either existed prior to the effective date of this Code or were established pursuant to this Chapter shall require the filing of a new application for review conforming to the requirements of this Chapter if the proposed changes would increase the size, square footage, seating capacity or parking of existing permitted improvements by twenty percent (20%) or more.

C. Application and Fee

An application for a Conditional Use Permit (CUP) shall be filed with the City and accompanied by the appropriate fee pursuant to Section 16.74.010. The applicant is responsible for submitting a complete application which addresses all criteria of this Chapter and other applicable sections of this Code.

Response: This application involves establishing a new hotel land use on the site, which is conditionally allowed in the LI-PUD zoning district. The City application form and checklist are included in Exhibit B, and the associated fee is included with the submittal. The criteria above are met, as applicable.

16.82.020 - Permit Approval

A. Hearing Authority Action

1. The Hearings Authority shall conduct a public hearing pursuant to Chapter 16.72 and take action to approve, approve with conditions, or deny the application. Conditions may be imposed by the Hearings Authority if necessary to fulfill the requirements of the adopted Comprehensive Plan, Transportation System Plan, or the Code. The decision shall include appropriate findings of fact as required by this Section, and an effective date.
2. Conditional uses may be approved at the hearing for a larger development (i.e. business campus or industrial park), to include future tenants of such development, if the range of uses allowed as conditional uses are considered, and specifically approved, at the time of original application.

Response: The process above is understood. The planned hotel is a hospitality land use conditionally allowed in the LI-PUD zoning district, and the Conditional Use Permit will be reviewed as part of the consolidated application through the Type IV review process. The hotel is intended to be located on Tax Lot 1200 (Lot 2 of Parkway Village South subdivision plat), a portion of the greater Parkway Village South campus.

B. Final Site Plan

Upon approval of a conditional use by the Hearing Authority, the applicant shall prepare a final site plan for review and approval pursuant to Section 16.90. The final site plan shall include any revisions or other features or conditions required by the Hearing Authority at the time of the approval of the conditional use.

Response: The process above is understood and does not require action by the applicant at this time.

C. Use Criteria

No conditional use shall be granted unless each of the following is found:

1. All public facilities and services to the proposed use, including but not limited to sanitary sewers, water, transportation facilities, and services, storm drains, electrical distribution, park and open space and public safety are adequate; or that the construction of improvements needed to provide adequate services and facilities is guaranteed by binding agreement between the applicant and the City.

Response: As shown on the Preliminary Composite Utility Plan (Exhibit A), adequate public facilities and services are available and can be provided to the hotel as shown. Additionally, frontage improvements along SW Century Drive have been completed. The LI zoning district does not require the provision of open space or parkland. As illustrated on the Preliminary Landscape Plan, the site is designed to include attractive landscaped areas, outdoor amenities, and inviting leisure areas for guests. Further, a binding agreement between the applicant and the City can be executed, if required, to guarantee construction of needed improvements. The criterion is met.

2. Proposed use conforms to other standards of the applicable zone and is compatible with abutting land uses in regard to noise generation and public safety.

Response: As shown on the Surrounding Land Uses sheet of the Preliminary Plans (Exhibit A), the site is surrounded by LI-zoned land and similar uses. To the east is an industrial campus that supports a variety of warehouses and facilities and to the north, a commercial center with assorted retailers, including a Walmart Supercenter. To the west is the remaining Parkway Village South campus, approved for future retail buildings along SW Langer Farms Parkway & Century Drive, along with shared parking, landscaping, and circulation.

The hotel is planned to be located adjacent to the existing Langer’s Entertainment Center to provide proximal opportunities for dining and leisure. As shown on the Preliminary Plans (Exhibit A), a sky bridge is envisioned to connect the hotel with (future) Phase II of the Langer’s Entertainment Center and serve as a direct and safe pedestrian route. To the

south of the site is an existing regional stormwater facility and vegetated corridor, maintained by the City of Sherwood. This adjacent public tract contributes an additional natural buffer to the site, further alleviating potential impacts from the hotel. Therefore, the envisioned uses are compatible with the abutting land uses and are not foreseen to create adverse impacts in regard to noise generation and public safety. The criterion is met.

3. **The granting of the proposal will provide for a facility or use that meets the overall needs of the community and achievement of the goals and/or policies of the Comprehensive Plan, the adopted City of Sherwood Transportation System Plan and this Code.**

Response: The following pertinent goals and policies from the City of Sherwood 2040 Comprehensive Plan (adopted by Ordinance No. 2021-012) demonstrate siting a hotel amenity in the Parkway Village South campus will be a benefit to the community. The responses to the Comprehensive Plan are solely applicable to the Conditional Use Permit regarding the hotel (and not other application types within this consolidated narrative document).

City of Sherwood 2040 Comprehensive Plan

Thriving and Diversified Economy

Goal 1 Accelerate the growth of local businesses and attract new businesses that balance the City’s tax base, provide stable, high-wage jobs and capitalize on Sherwood’s location and enhance the high-quality of life.

POLICY 1.2 Encourage development of employment to increase the city’s tax base through a faster growth rate of jobs.

Response: A new hotel land use will create employment opportunities for the community and support the local economy through job creation. Hotels require a plethora of positions to facilitate a successful business, including but not limited to managerial positions, sales and marketing, guest services, room attendants, receptionists, restaurant and bar related services, cleaning and maintenance, convention and event specialists, etc. As shown on the Preliminary Plans (Exhibit A), the hotel is planned to include approximately 100 guest rooms, as well as a business suite/conference rooms. Therefore, it is anticipated that the planned hospitality amenity will generate a variety of supporting high-wage jobs; Policy 1.2, above, is satisfied.

POLICY 1.3 Pursue development of higher employment densities in areas with planned or existing public facilities, utilities, and transportation infrastructure.

Response: As shown on the Preliminary Plans (Exhibit A), the Parkway Village South campus is associated with existing improvements, as well as the approved future buildings. Public facilities, including water, sanitary sewer, franchise utilities, etc. are available to serve the site. Further, frontage improvements along SW Langer Farms Parkway and SW Century Drive have been completed for the PUD. The transportation network adjacent to the site is at its ultimate buildout and includes sidewalks, street trees, and lighting. As stated above, the hotel amenity will require and attract a diverse assortment of jobs and positions in a well-served area. This project is a ‘piece’ of the greater Parkway Village

South campus ‘puzzle’ and will lead to the eventual full buildout of the site, supporting Policy 1.3, above.

POLICY 1.4 Support business growth in Sherwood to diversify and expand commercial and industrial development in order to provide employment opportunities and expand the tax base.

Response: As stated above, the hotel amenity will require and attract a diverse assortment of jobs and positions to facilitate the business. The new employees and hotel guests will frequent the local area, spending money at restaurants, bars, retail stores, and entertainment opportunities. This activity will support Sherwood’s local economy and likely aid in the expansion of local businesses. Further, the commercial site development will generate significant system development charges (SDCs) within the City, providing additional capacity for community growth. As such, Policy 1.4, above is met.

POLICY 1.5 Retain and encourage growth of existing and new businesses in Sherwood. Allow and encourage development of commercial and industrial areas.

Response: As shown on the Surrounding Land Uses sheet of the Preliminary Plans (Exhibit A), the subject site is uniquely vacant in comparison to the surrounding area. A plethora of commercial establishments, including Langer’s Entertainment Center, Walmart, Menchies Frozen Yogurt, MOD Pizza, Killer Burger, Red Robin, Spaghetti Factory, Target, medical and dental facilities, gyms, etc., are within a quarter mile of the planned hotel location. The new hospitality amenity is also intended to provide a business suite/conference rooms which will draw unique professionals to the area and encourage conventions and events. Therefore, the hotel will bring life to a currently unused property and support the surrounding commercial and industrial area. Policy 1.5 is met.

POLICY 1.7 Attract businesses identified as Target Industries in Sherwood’s most recent Economic Opportunities Analysis.

POLICY 1.8 Support growth of businesses that create destinations and experiences for residents of Sherwood and visitors.

Response: As discussed in Sherwood’s most recent Economic Opportunities Analysis (dated September 2021), the target industries identified as having potential for growth in Sherwood include:

Services for visitors: Emphasis on experiences and destinations in and near Sherwood, especially related to agriculture and wineries, will drive demand for services for visitors including family-friendly events, farmers markets, specialty retail, wine tasting rooms, restaurants, or hotels.

Hotels are specifically identified above as a target service for visitors. As shown on the Preliminary Architectural Materials (Exhibit D), the hotel is planned to incorporate a sky bridge to connect to the future Langer’s Entertainment Center addition. Langer’s Entertainment Center is a family-friendly fun establishment, providing opportunities for dining, drinking, bowling, playing arcade games, exploring an adventure ropes course, and even more! As discussed throughout this written document, guests and employees attracted by the hotel will likely frequent other commercial opportunities nearby. Locating the hotel on this property will create an emphasis on a ‘destination experience’

in this area of Sherwood. Therefore, this application supports both Policy 1.7 and Policy 1.8 by facilitating an industry identified by the City of Sherwood as desirable.

4. Surrounding property will not be adversely affected by the use, or that the adverse effects of the use on the surrounding uses, the neighborhood, or the City as a whole are sufficiently mitigated by the conditions proposed.

Response: As discussed, the envisioned hotel is compatible with the abutting land uses and is not foreseen to create adverse impacts in regard to noise generation and public safety. Similarly, it is not anticipated that additional conditions will be necessary to mitigate impacts of a hotel in the LI zone. The LI zone encompasses uses permitted outright, such as warehousing and distribution, manufacturing, motor vehicle repair, truck rental, gas stations, etc. that are likely to be more impactful and intensive uses than a hotel. As shown on the Preliminary Plans (Exhibit A), the hotel campus is designed with inviting landscaping and leisure areas and is planned to be surrounded by shared parking and circulation facilities. Along the east property boundary, landscaped areas and a driveway provide a natural buffer near the existing industrial warehouse on the adjacent property (Tax Lot 150 of Washington County Assessor's Map 2S129D). To the west, the hotel is planned to connect to the Langer's Entertainment Center via a skybridge. Therefore, hotel accommodation in this area will be compatible with the surrounding area and the criterion is met.

5. The impacts of the proposed use of the site can be accommodated considering size, shape, location, topography and natural features.

Response: As shown on the Existing Conditions Plan (Exhibit A), the property gently slopes upward to the south and contains few existing natural resources. Additionally, the site is adjacent to an existing regional stormwater facility to the south, which is heavily vegetated with trees and plants. The Preliminary Dimensioned Civil Site Plan (Exhibit A) demonstrates that a combination of landscaping and fencing will be incorporated to create an inviting space for hotel guests, as well as mitigating potential impacts to neighboring LI-zoned sites (to the north, east, and west). Therefore, due to the surrounding zoning and existing industrial activities, impacts from the hotel use are not anticipated.

6. The use as proposed does not pose likely significant adverse impacts to sensitive wildlife species or the natural environment.

Response: This application is not anticipated to pose significant adverse impacts to sensitive wildlife species or the natural environment. As shown on the Existing Conditions Plan (Exhibit A), the site is vacant of structures and contains minimal existing vegetation. As discussed in this document, the property to the south contains a regional stormwater facility with associated vegetated corridor. Please see the Clean Water Services documentation within Exhibit J, stating a site assessment and service provider letter are not required for the project. Therefore, the criterion above is met.

7. For wireless communication facilities, no Conditional Use Permit will be granted unless the following additional criteria is found:

Response: This application does not involve wireless communication facilities. The criteria are not applicable and have been omitted for brevity.

8. The following additional criteria apply to transportation facilities and improvements subject to Conditional Use approval per Chapter 16.66. These are improvements and facilities that are (1) not designated in the adopted City of Sherwood Transportation System Plan (TSP), and are (2) not designed and constructed as part of an approved land use application.

Response: Off-site transportation facility improvements are not anticipated to be required by this application. As shown on the Preliminary Plans (Exhibit A), the project involves review of internal transportation elements including access, circulation, and parking improvements. The site improvements will be reviewed through this land use application process. Further, as illustrated in Exhibit A, improvements along the site's frontage on SW Century Drive are completed to City standards. Therefore, the criterion above is not applicable.

D. Additional Conditions

In permitting a conditional use or modification of an existing conditional use, additional conditions may be applied to protect the best interests of the surrounding properties and neighborhoods, the City as a whole, and the intent of this Chapter. These conditions may include but are not limited to the following:

1. Mitigation of air, land, or water degradation, noise, glare, heat, vibration, or other conditions which may be injurious to public health, safety or welfare in accordance with environmental performance standards.
2. Provisions for improvement of public facilities including sanitary sewers, storm drainage, water lines, fire hydrants, street improvements, including curb and sidewalks, and other above and underground utilities.
3. Increased required lot sizes, yard dimensions, street widths, and off-street parking and loading facilities.
4. Requirements for the location, number, type, size or area of vehicular access points, signs, lighting, landscaping, fencing or screening, building height and coverage, and building security.
5. Submittal of final site plans, land dedications or money-in-lieu of parks or other improvements, and suitable security guaranteeing conditional use requirements.
6. Limiting the number, size, location, height and lighting of signs.
7. Requirements for the protection and preservation of existing trees, soils, vegetation, watercourses, habitat areas and drainage areas.
8. Requirements for design features which minimize potentially harmful environmental impacts such as noise, vibration, air pollution, glare, odor and dust.

Response: It is understood the review body may apply conditions of approval specific to the conditional use.

E. Time Limits

Unless approved under Section 16.82.020.A.2 for a larger development to include future tenants of such development, authorization of a conditional use shall be void after two (2) years or such lesser time as the approval may specify unless substantial construction, in the City's determination, has taken place. The Hearing Authority may extend authorization for an additional period, not to exceed one (1) year, upon a written request from the applicant showing adequate cause for such extension, and payment of an extension application fee as per Section 16.74.010.

F. Revocation

Any departure from approved plans not authorized by the Hearing Authority shall be cause for revocation of applicable building and occupancy permits. Furthermore, if, in the City's determination, a condition or conditions of CUP approval are not or cannot be satisfied, the CUP approval, or building and occupancy permits, shall be revoked.

Response: The approval period and revocation criteria above are understood.

Division V. - COMMUNITY DESIGN

Chapter 16.90 - SITE PLANNING*

...

16.90.020 - Site Plan Review

A. Site Plan Review Required

Site Plan review is required prior to any substantial change to a site or use that does not meet the criteria of a minor or major modification, issuance of building permits for a new building or structure, or for the substantial alteration of an existing structure or use.

For the purposes of Section 16.90.020, the terms "substantial change" and "substantial alteration" mean any development activity as defined by this Code that generally requires a building permit and may exhibit one or more of the following characteristics:

...

Response: This application involves Site Plan Review for a new self-storage building with flexible tenant spaces, to be located on Tax Lot 1100 (Lot 1 of Parkway Village South subdivision plat). As such, this chapter is applicable to new buildings.

Additionally, the project involves a Major Modification to an Approved Site Plan (site plan modification) (City of Sherwood File No. SP 17-01) for a change of use to site a hotel on Tax Lot 1200 (Lot 2 of Parkway Village South subdivision plat). Therefore, this application meets the criteria for a Major Modification, and, pursuant to 16.90.020, the following standards are addressed.

D. Required Findings

No site plan approval will be granted unless each of the following is found:

1. The proposed development meets applicable zoning district standards and design standards in Division II, and all provisions of Divisions V, VI, VIII and IX.
2. The proposed development can be adequately served by services conforming to the Community Development Plan, including but not limited to water, sanitary facilities, storm water, solid waste, parks and open space, public safety, electric power, and communications.

Response: The criteria of the LI zoning district, including lot dimensional standards and setbacks, were demonstrated to be met previously in this written narrative. As shown on the Preliminary Plans (Exhibit A), the site can be adequately served with the applicable services and elements listed above. The LI zone does not require provision of parks and open space. As shown on the Preliminary Landscape Plan (Exhibit A), the site is planned to be attractively landscaped and meets the applicable requirements of the SZCDC. Further, the SPL from Tualatin Valley Fire & Rescue (Exhibit M) demonstrates public safety standards are met.

Additionally, this project involves a site plan modification to site a new hotel. According to Section 16.90.030.A.1.a.(3), the scope of the site plan modification review is limited to the modified element(s) and the associated impacts on public services, circulation, etc. This site plan modification does not impact staff findings or prior conditions of approval related to the provision of water, sanitary sewer, stormwater, or franchise utilities. As shown on the Preliminary Composite Utility Plan (Exhibit A), the site can be adequately serviced with applicable facilities. Therefore, the criteria above are met, as applicable.

3. Covenants, agreements, and other specific documents are adequate, in the City's determination, to assure an acceptable method of ownership, management, and maintenance of structures, landscaping, and other on-site features.

Response: This property is associated with the Amended and Restated Development Agreement (2010), included as Exhibit H. Additional agreements and specific documents for shared use and maintenance of parking, landscaping, circulation, etc. can be prepared and provided, if required as a condition of approval by the City. That said, the property is under the control of the Applicant and only one structure currently exists. Hence, agreements as anticipated above are not relevant at this time. The criterion is met.

4. The proposed development preserves significant natural features to the maximum extent feasible, including but not limited to natural drainage ways, wetlands, trees, vegetation (including but not limited to environmentally sensitive lands), scenic views, and topographical features, and conforms to the applicable provisions of Division VIII of this Code and Chapter 5 of the Community Development Code.

Response: As shown on the Existing Conditions Plan (Exhibit A), the subject site contains few existing natural resources, trees, and vegetation. The topography of the site is relatively flat and

slopes upward to the south; without environmentally sensitive areas. The Preliminary Landscape Plan (Exhibit A) illustrates existing vegetation is retained where possible. The Langer Farms subdivision plat includes Tract A (south of the site), a regional stormwater facility, drainage channel, and vegetated corridor owned and maintained by the City of Sherwood. Further, the CWS Service Provider Letter (Exhibit E) demonstrates natural resources are not impacted by this project.

Additionally, the site plan modification component will not impact significant natural features. As shown on the Preliminary Plans (Exhibit A), the extent of the modification involves a change of use for a vacant portion of the property (Tax Lot 1200), that contains few natural features, no trees, and minimal existing vegetation. As such, the criterion above is met as applicable.

5. For developments that are likely to generate more than 400 average daily trips (ADTs), or at the discretion of the City Engineer, the applicant must provide adequate information, such as a traffic impact analysis (TIA) or traffic counts, to demonstrate the level of impact to the surrounding transportation system. The developer is required to mitigate for impacts attributable to the project, pursuant to TIA requirements in Section 16.106.080 and rough proportionality requirements in Section 16.106.090. The determination of impact or effect and the scope of the impact study must be coordinated with the provider of the affected transportation facility.

Response: Transportation documentation, prepared by Kittelson & Associates, Inc., is included within Exhibit L. The documentation demonstrates the change of use (from a daycare to a hotel) and the new trips generated from the storage facility, will not have a significant impact on the surrounding transportation system. The modified site plan, and the self-storage and flexible tenant spaces (which no uses/trips were identified previously) results in fewer daily trips than those previously analyzed and approved by the City. Please see Exhibit L for further information. The criterion is met.

6. The proposed commercial, multi-family, institutional or mixed-use development is oriented to the pedestrian and bicycle, and to existing and planned transit facilities. Urban design standards include the following:

Response: The subject site is zoned LI-PUD and is not associated with multi-family, institutional, or mixed-use development. As discussed on page 5 of the City's Pre-Application Notes (Exhibit I), the planned hotel use is classified as 'commercial' and is required to meet the design standards of this section. Further, the planned storage facility use is classified as 'industrial' and is required to meet the design standards of SZCDC 16.90.020(D)(7). Therefore, the following responses demonstrate the planned hotel use complies with the commercial design standards, below.

- a. Primary, front entrances are located and oriented to the street, and have significant articulation and treatment, via facades, porticos, arcades, porches, portal, forecourt, or stoop to identify the entrance for pedestrians. Additional entrance/exit points for

buildings, such as a postern, are allowed from secondary streets or parking areas.

Response: As shown on the Existing Conditions Plan (Exhibit A), Tax Lot 1200 (Lot 2 of Parkway Village South subdivision plat) does not front right-of-way. The property is accessed by means of the existing driveway to SW Century Drive and an existing access easement to SW Whetstone Way/SW Langer Farms Parkway. As shown on the Preliminary Plans (Exhibit A), the primary, front entrance to the hotel is located on the west side of the site, oriented toward the central drive aisle. The Preliminary Architectural Materials (Exhibit D) illustrates significant architectural design elements are present on the front building façade. The vehicle/pedestrian entranceway is located at the primary entrance, including covered areas, stoops, and benches for pedestrians, as well as a covered, looped drop-off/loading area for vehicles. The criterion is met, as applicable.

b. Buildings are located adjacent to and flush to the street, subject to landscape corridor and setback standards of the underlying zone.

Response: As discussed previously, the hotel is planned to be sited on Tax Lot 1200 (Lot 2 of Parkway Village South subdivision plat), a property within an existing industrial/commercial center and without and street frontage. The property is accessed by means of the existing driveway to SW Century Drive and an existing access easement to SW Whetstone Way/SW Langer Farms Parkway. As such, the hotel building is located adjacent to and flush with the main, central driveway aisle. Further, the circulation aisle that winds north around the rear of the hotel is intended to be surfaced with grasscrete and landscaping to minimize stormwater runoff and create an inviting and upscale pedestrian route to the rear of the hotel. There are removable bollards located to restrict vehicle movement and provide emergency access for vehicle apparatus, as shown on the Preliminary Plans (Exhibit A). Therefore, the standard is satisfied as closely as practicable.

c. The architecture of buildings are oriented to the pedestrian and designed for the long term and be adaptable to other uses. Aluminum, vinyl, and T-111 siding are prohibited. Street facing elevations have windows, transparent fenestration, and divisions to break up the mass of any window. Roll up and sliding doors are acceptable. Awnings that provide a minimum 3 feet of shelter from rain are required unless other architectural elements are provided for similar protection, such as an arcade.

Response: As shown on the Preliminary Architectural Materials (Exhibit D) prepared by Schmidt Architects, the west elevation (front facing façade) of the building is oriented toward the central driveway aisle. As illustrated, the façade of the building is broken up using complex massing, recessing, and projecting elements. The building elevations include large windows and awnings that provide relief from the elements. The hotel is oriented toward the pedestrian, accommodating an extensive entranceway for pedestrian and vehicle loading/unloading, a covered area, and interconnected sidewalks leading to adjacent leisure areas, bicycle and vehicle parking areas, and adjacent sites. Further, the hotel is planned to connect to the adjacent Langer's Entertainment Center by way of a convenient

pedestrian skybridge, providing a direct, safe route for patrons and further shelter from weather.

Prohibited materials, including aluminum, vinyl, and T1-11 siding, are not planned to be used. As illustrated on the Architectural Materials Board within Exhibit D, the hotel is designed to incorporate an assortment of materials, including metal roofing, split face concrete masonry, lap siding, wood framing and detailing, ledgerstone, and Hardie-panel fiber cement board and batten. The color palette is intended to complement the existing Langer’s Entertainment Center, using burgundy roofing; portabella, mountain brown, and torque white siding; and trim elements including cedar wood framing and hawthorne wood stain. For further details, please see the Preliminary Architectural Materials (Exhibit D), demonstrating the hotel design meets the intent of the criterion above.

- d. As an alternative to the standards in Section 16.90.020.D.6.a—c, the following Commercial Design Review Matrix may be applied to any commercial, multi-family, institutional or mixed use development (this matrix may not be utilized for developments within the Old Town Overlay). A development must propose a minimum of 60 percent of the total possible points to be eligible for exemption from the standards in Section 16.90.020.D.6.a—c. In addition, a development proposing between 15,001 and 40,000 square feet of floor area, parking or seating capacity and proposing a minimum of 80 percent of the total possible points from the matrix below may be reviewed as a Type II administrative review, per the standards of Section 16.72.010.A.2.

Response: As discussed above, this application meets the intent of the standards in SZCDC(D)(6)(a-c). Therefore, the alternative commercial design review matrix need not be applied.

- 7. Industrial developments provide employment opportunities for citizens of Sherwood and the region as a whole. The proposed industrial development is designed to enhance areas visible from arterial and collector streets by reducing the "bulk" appearance of large buildings. Industrial design standards include the following:

Response: As documented on page 5 of the city’s Pre-Application Conference Documentation (Exhibit I), the planned storage facility use is classified as ‘industrial’ and is required to meet the design standards of SZCDC 16.90.020(D)(7). Therefore, the following responses demonstrate the planned storage use complies with the industrial design standards, below.

- a. Portions of the proposed industrial development within 200 feet of an arterial or collector street and visible to the arterial or collector (i.e. not behind another building) must meet any four of the following six design criteria:

Response: The storage facility is planned to be located on Tax Lot 1100 (Lot 1 of Parkway Village South subdivision Plat), with frontage on SW Century Drive, functionally classified as a

Collector street in the Sherwood Transportation System Plan (TSP). Therefore, responses in the remainder of this section demonstrate compliance with more than four of the design criteria of this section.

- 1) A minimum 15% window glazing for all frontages facing an arterial or collector.
- 2) A minimum of two (2) building materials used to break up vertical facade street facing frontages (no T-111 or aluminum siding).

Response: As illustrated on the storage facility material key within the Preliminary Architectural Materials (Exhibit D), an assortment of building materials (concrete masonry, ribbed metal siding, galvanized metal roofing, etc.) are used to incorporate complex massing in the new building's design. The facility is designed to complement the existing Langer's Entertainment Center, future hotel, and surrounding Parkway Village South campus improvements. The building materials incorporate an assortment of colors including terracotta, slate gray, weathered copper, cedar red, dark bronze, and umber brown. T1-11 and aluminum siding, prohibited materials listed above, are not included in the building façade design. The criterion is met.

- 3) Maximum thirty-five (35) foot setback for all parts of the building from the property line separating the site from all arterial or collector streets (required visual corridor falls within this maximum setback area).

Response: As shown on the Preliminary Plans (Exhibit A), the extent of the self-storage building along SW Century Drive (a Collector street) is located within the maximum 35-foot setback area. As such, the Preliminary Dimensioned Civil Site Plan complies with the intent of the provision above.

- 4) Parking is located to the side or rear of the building when viewed from the arterial or collector.

Response: As shown on the Preliminary Plans (Exhibit A), parking areas are located to the side and rear of the storage facility when viewed from the arterial. The criterion is met.

- 5) Loading areas are located to the side or rear of the building when viewed from the arterial or collector. If a loading area is visible from an arterial or collector, it must be screened with vegetation or a screen made of materials matching the building materials.

Response: As shown on the Preliminary Dimensioned Civil Site Plan (Exhibit A), there are four oversized loading stalls located at the rear of the storage facility. The loading area will not be visible from SW Century Drive (a Collector street) due to building placement and site landscaping. The criterion is met.

-
- 6) All roof-mounted equipment is screened with materials complimentary to the building design materials.

Response: As noted on Sheet A-4 of the Preliminary Architectural Materials (Exhibit D), roof-mounted equipment is not planned on the storage building. The criterion is met.

- 8. Driveways that are more than twenty-four (24) feet in width shall align with existing streets or planned streets as shown in the Local Street Connectivity Map in the adopted Transportation System Plan (Figure 17), except where prevented by topography, rail lines, freeways, pre-existing development, or leases, easements, or covenants.

Response: As shown on the Preliminary Dimensioned Civil Site Plan (Exhibit A), the existing (fully constructed) central driveway on SW Century Drive is 32 feet in width and aligns with the 32-foot driveway across the street at the Walmart Center. Additionally, the existing driveway apron on the east side of the site is 26 feet wide and aligns with the 32-foot driveway across the street (i.e. freight terminal for Walmart Center). Further, the planned circulation complies with the Local Street Connectivity Map in the Transportation System Plan (TSP), as additional streets are not identified for extension. The criterion is met.

E. Approvals

The application is reviewed pursuant to Chapter 16.72 and action taken to approve, approve with conditions, or deny the application for site plan review. Conditions may be imposed by the Review Authority if necessary to fulfill the requirements of the adopted Comprehensive Plan, Transportation System Plan or the Zoning and Community Development Code. The action must include appropriate findings of fact as required by Section 16.90.020. The action may be appealed to the Council in accordance with Chapter 16.76.

F. Time Limits

Site plan approvals are void after two (2) years unless construction on the site has begun, as determined by the City. The City may extend site plan approvals for an additional period not to exceed one (1) year, upon written request from the applicant showing adequate cause for such extension, and payment of an extension application fee as per Section 16.74.010. A site plan approval granted on or after January 1, 2007 through December 31, 2009, is extended until December 31, 2013.

Response: The criteria above are understood.

16.90.030 - Site Plan Modifications and Revocation

A. Modifications to Approved Site Plans

1. Major Modifications to Approved Site Plans

- a. Defined. A major modification review is required if one or more of the changes listed below are proposed:

...

-
- (5) An increase in the floor area or height proposed for non-residential use by more than ten (10) percent;

Response: This project involves a Major Modification to an Approved Site Plan (site plan modification) (City of Sherwood File No. SP 17-01) for a change of use to site a hotel on Tax Lot 1200 (Lot 2 of Parkway Village South subdivision plat). The planned hotel (a non-residential use) represents an increase in floor area and height by more than 10%. Therefore, this application meets the criteria for a Major Modification, and, pursuant to 16.90.020, the following standards are addressed.

...

b. **Approval Criteria.** An applicant may request a major modification as follows:

- (1) Upon the review authority determining that the proposed modification is a major modification, the applicant must submit an application form, filing fee and narrative, and a site plan using the same plan format as in the original approval. The review authority may require other relevant information, as necessary, to evaluate the request.

Response: This application submittal contains the narrative, filing fee, and additional items listed above. The City of Sherwood application forms and checklist are included as Exhibit B. The Preliminary Plans (Exhibit A) and Preliminary Architectural Materials (Exhibit D) contain the information necessary for the review authority to determine compliance with the major site plan modification criteria. As demonstrated on the Parkway Village South Overall Site Plan (Exhibit A), the site plan is formatted the same way as the original approval and details the area for modification, as well as existing and approved buildings, parking, landscaping, and circulation areas. Please see the accompanying materials; the submittal requirements are met.

- (2) The application is subject to the same review procedure (Type II, III or IV), decision making body, and approval criteria used for the initial project approval, except that adding a Conditional Use to an approved Type II project is reviewed using a Type III procedure.

Response: As discussed at the pre-application conference, the application should be reviewed through a Type IV process.

- (3) The scope of review is limited to the modification request and does not open the entire site up for additional review unless impacted by the proposed modification. For example, a request to modify a parking lot requires site design review only for the proposed parking lot and any changes to associated access, circulation, pathways, lighting, trees, and landscaping.

Response: It is understood that the scope of the review is limited to the modified elements of the approved site plan. This application involves a change of use (from an approved daycare to a planned hotel) and the modification includes an increase in floor area and height by more than 10 percent. As shown on the Preliminary Plans (Exhibit A), Tax Lot 1200 is vacant of structures, but is associated with common constructed improvements relative to the Parkway Village South campus. The nature of this site plan modification requires review of parking, landscaping, circulation, lighting, etc. for Tax Lot 1200 in relation to the improvements constructed and approved (but not yet constructed). The Overall Parkway Village South Site Plan (Exhibit A) notates the existing site improvements that are planned to remain unchanged. The modified elements are addressed in the respective code sections of this narrative. The criterion is understood.

- (4) Notice must be provided in accordance with Chapter 16.72.020.
- (5) The decision maker approves, denies, or approves with conditions an application for major modification based on written findings of the criteria.

Response: The criteria above are understood.

Chapter 16.92 - LANDSCAPING

16.92.010 - Landscaping Plan Required

All proposed developments for which a site plan is required pursuant to shall submit a landscaping plan that meets the standards of this Chapter. All areas not occupied by structures, paved roadways, walkways, or patios shall be landscaped or maintained according to an approved site plan.

Response: The Preliminary Landscape Plan, prepared by a licensed landscape architect, is included in Exhibit A. Unpaved areas not occupied by structures are planned to be landscaped and maintained in accordance with the submitted plans, as applicable.

16.92.020 - Landscaping Materials

A. Type of Landscaping

Required landscaped areas shall include an appropriate combination of native evergreen or deciduous trees and shrubs, evergreen ground cover, and perennial plantings. Trees to be planted in or adjacent to public rights-of-way shall meet the requirements of this Chapter. Plants may be selected from the City's "Suggested Plant Lists for Required Landscaping Manual" or suitable for the Pacific Northwest climate and verified by a landscape architect or certified landscape professional.

1. Ground Cover Plants

- a. All of the landscape that is not planted with trees and shrubs must be planted in ground cover plants, which may include grasses. Mulch is not a substitute for ground cover, but is allowed in addition to the ground cover plants.
- b. Ground cover plants other than grasses must be at least the four-inch pot size and spaced at distances

appropriate for the plant species. Ground cover plants must be planted at a density that will cover the entire area within three (3) years from the time of planting.

2. Shrubs

- a. All shrubs must be of sufficient size and number to be at full growth within three (3) years of planting.
- b. Shrubs must be at least the one-gallon container size at the time of planting.

3. Trees

- a. Trees at the time of planting must be fully branched and must be a minimum of two (2) caliper inches and at least six (6) feet in height.
- b. Existing trees may be used to meet the standards of this chapter, as described in Section 16.92.020.C.2.

Response: The Preliminary Landscape Plan (Exhibit A) shows a combination of trees, shrubs, and groundcover in landscaped areas, in compliance with the minimum standards of this section. These criteria are met.

B. Plant Material Selection and Preparation

- 1. Required landscaping materials shall be established and maintained in a healthy condition and of a size sufficient to meet the intent of the approved landscaping plan. Specifications shall be submitted showing that adequate preparation of the topsoil and subsoil will be undertaken.
- 2. Landscape materials should be selected and sited to produce a hardy and drought-resistant landscape area. Selection of the plants should include consideration of soil type, and depth, the amount of maintenance required, spacing, exposure to sun and wind, the slope and contours of the site, and compatibility with existing native vegetation preserved on the site.

Response: Appropriate plant material has been selected to meet the applicable standards for the specific space and purpose. Irrigation will be provided by a fully automatic, underground system. Plants will cover the landscaping islands without overgrowth. Construction plans and specifications will be prepared to the required standards and show adequate plant health and topsoil preparation. Planting notes and further details are provided on the landscaping plans. These criteria are met or will be met at the time of construction plan submittal.

C. Existing Vegetation

- 1. All developments subject to site plan review per Section 16.90.020 and required to submit landscaping plans per this section shall preserve existing trees, woodlands and vegetation on the site to the maximum extent possible, as determined by the Review Authority, in addition to complying with the provisions of Section 16.142.(Parks, Trees and Open Space) and Chapter 16.144 (Wetland, Habitat, and Natural Resources).

-
2. Existing vegetation, except those plants on the Nuisance Plants list as identified in the "Suggested Plant Lists for Required Landscaping Manual" may be used to meet the landscape standards, if protected and maintained during the construction phase of the development.
 - a. If existing trees are used, each tree six (6) inches or less in diameter counts as one (1) medium tree.
 - b. Each tree that is more than six (6) inches and up to nine (9) inches in diameter counts as two (2) medium trees.
 - c. Each additional three (3) inch diameter increment above nine (9) inches counts as an additional medium tree.

Response: The Preliminary Plans (Exhibit A), show the trees currently on site and the vegetation to be maintained. The Preliminary Landscape Plan reflects the applicable requirements in Section 16.142, which are addressed in the responses below. The applicable criteria are met.

D. Non-Vegetative Features

1. Landscaped areas as required by this Chapter may include architectural features interspersed with planted areas, such as sculptures, benches, masonry or stone walls, fences, rock groupings, bark dust, semi-pervious decorative paving, and graveled areas.
2. Impervious paving shall not be counted toward the minimum landscaping requirements unless adjacent to at least one (1) landscape strip and serves as a pedestrian pathway.
3. Artificial plants are prohibited in any required landscaped area.

Response: Required landscaping will be planted with trees, ground cover, and shrubs. Non-vegetative features are not planned to satisfy landscape requirements. These standards are met.

16.92.030 - Site Area Landscaping and Perimeter Screening Standards

A. Perimeter Screening and Buffering

1. **Perimeter Screening Separating Residential Zones:**

A minimum six-foot high sight-obscuring wooden fence, decorative masonry wall, or evergreen screen, shall be required along property lines separating single and two-family uses from multi-family uses, and along property lines separating residential zones from commercial, institutional/public or industrial zones subject to the provisions of Chapter 16.48.020 (Fences, Walls and Hedges).

 - a. For new uses adjacent to inventoried environmentally sensitive areas, screening requirements shall be limited to vegetation only to preserve wildlife mobility. In addition, the Review Authority may require plants and other landscaping

features in locations and sizes necessary to protect the privacy of residences and buffer any adverse effects of adjoining uses.

- b. The required screening shall have breaks, where necessary, to allow pedestrian access to the site. The design of the wall or screening shall also provide breaks or openings for visual surveillance of the site and security.
- c. Evergreen hedges used to comply with this standard shall be a minimum of thirty-six (36) inches in height at maturity, and shall be of such species, number and spacing to provide the required screening within one (1) year after planting.

Response: The subject property does not directly abut residential zones. Therefore, these criteria do not apply.

2. Perimeter Landscaping Buffer

- a. A minimum ten (10) foot wide landscaped strip comprised of trees, shrubs and ground cover shall be provided between off-street parking, loading, or vehicular use areas on separate, abutting, or adjacent properties.

Response: The abutting and adjacent properties to the west provide shared, off-street parking, loading, and vehicular use areas, to be used in conjunction with the subject site. Appropriate landscaping was previously provided in these areas. Additionally, perimeter landscaping buffering (much greater than 10 feet wide) is provided along the east and south property boundaries. This criterion is met, as applicable.

- b. The access drives to a rear lots in the residential zone (i.e. flag lot) shall be separated from abutting property(ies) by a minimum of forty-two-inch sight-obscuring fence or a forty-two-inch to an eight (8) feet high landscape hedge within a four-foot wide landscape buffer. Alternatively, where existing mature trees and vegetation are suitable, Review Authority may waive the fence/buffer in order to preserve the mature vegetation.

...

Response: The project site does not abut access drives within a residential zone. These criteria do not apply.

B. Parking Area Landscaping

1. Purpose

The standard is a landscape treatment that uses a combination of trees, shrubs, and ground cover to provide shade, storm water management, aesthetic benefits, and screening to soften the impacts of large expanses of pavement and vehicle movement. It is applied to landscaped areas within and around the parking lot and loading areas.

2. Definitions

- a. **Parking Area Landscaping:** Any landscaped area on the site that is not required as perimeter landscaping § 16.92.030 (Site Landscaping and Screening).
- b. **Canopy Factor**
 - (1) Landscape trees are assigned a canopy factor to determine the specific number of required trees to be planted. The canopy factor is calculated based on the following formula:
$$\text{Canopy Factor} = \text{Mature Height (in feet)} \times \text{Canopy Spread (in feet)} \times \text{Growth Rate Factor} \times .01$$
 - (2) **Growth Rate Factor:** The growth rate factor is three (3) for fast-growing trees, two (2) for medium growing trees, and one (1) for slow growing trees. The growth rate of a tree is identified in the "Suggested Plant Lists for Required Landscaping Manual."

3. Required Landscaping

There shall be at least forty-five (45) square feet parking area landscaping for each parking space located on the site. The amount of required plant materials are based on the number of spaces as identified below.

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows 118 parking stalls, which require 5,310 square feet of landscaping. The Preliminary Landscape Plan illustrates approximately ±6,067 square feet of interior parking lot landscaping and greater than ±63,883 square feet of landscaping when total landscaping on site is included. The criterion is met.

4. Amount and Type of Required Parking Area Landscaping

- a. **Number of Trees required based on Canopy Factor**

Small trees have a canopy factor of less than forty (40), medium trees have a canopy factor from forty (40) to ninety (90), and large trees have a canopy factor greater than ninety (90);

 - (1) Any combination of the following is required:
 - (i) One (1) large tree is required per four (4) parking spaces;
 - (ii) One (1) medium tree is required per three (3) parking spaces; or
 - (iii) One (1) small tree is required per two (2) parking spaces.
 - (iv) At least five (5) percent of the required trees must be evergreen.

-
- (2) Street trees may be included in the calculation for the number of required trees in the parking area.

Response: The ‘tree calculations’ on the Preliminary Landscape Plan (Exhibit A) describe the number of large trees planned to satisfy the tree canopy requirements for 118 parking stalls. Trees located within or adjacent to the parking areas are a combination of large (Green Vase Zelkova, London Planetree, Marshall Seedless Ash, Douglas Fir, and Scarlett Oak) and small (Magnolia, Dogwood, Chanticleer Pear, Western Red Cedar, and Bowhall Maple) tree selections to meet the required canopy factor required. Approximately 12.5 percent of the large trees provided in the parking lot are evergreen species (i.e. Douglas Fir), exceeding the minimum standard of 5 percent.

Based on the planned provision of 118 parking spaces and the calculations detailed on the Preliminary Landscape Plan (Exhibit A), the parking lot canopy requirements are met. Please see the tree canopy, shrub, and landscaping calculations listed in Exhibit A for further information.

b. Shrubs:

- (1) Two (2) shrubs are required per each space.
- (2) For spaces where the front two (2) feet of parking spaces have been landscaped instead of paved, the standard requires one (1) shrub per space. Shrubs may be evergreen or deciduous.

c. Ground cover plants:

- (1) Any remainder in the parking area must be planted with ground cover plants.
- (2) The plants selected must be spaced to cover the area within three (3) years. Mulch does not count as ground cover.

Response: Based on the planned provision of 118 parking spaces, 236 shrubs are required, and 1006 shrubs are planned within the parking lot landscaping area. The remainder of the parking area landscaping will be planted with ground cover and other landscaping. The selected plants are anticipated to cover their respective planting areas within three years of planting. These criteria are met.

5. Individual Landscape Islands Requirements

- a. Individual landscaped areas (islands) shall be at least ninety (90) square feet in area and a minimum width of five (5) feet and shall be curbed to protect the landscaping.
- b. Each landscape island shall be planted with at least one (1) tree.
- c. Landscape islands shall be evenly spaced throughout the parking area.

-
- d. Landscape islands shall be distributed according to the following:

...

- (2) Multi or mixed-uses, institutional and commercial uses: one (1) island for every ten (10) contiguous parking spaces.
- (3) Industrial uses: one (1) island for every twelve (12) contiguous parking spaces.

Response: The Preliminary Landscape Plan (Exhibit A) shows individual landscaped areas will be at least 90 square feet and have a minimum width of 5 feet. Islands contain at least one tree and will be curbed to protect landscaping. Islands are distributed as necessary to ensure there are no more than 12 contiguous parking spaces. These criteria are met.

- e. Storm water bio-swales may be used in lieu of the parking landscape areas and may be included in the calculation of the required landscaping amount.

Response: Stormwater bio-swales are not implemented on site. The criterion is not applicable.

f. Exception to Landscape Requirement

Linear raised or marked sidewalks and walkways within the parking areas connecting the parking spaces to the on-site buildings may be included in the calculation of required site landscaping provide that it:

- (1) Trees are spaced a maximum of thirty (30) feet on at least one (1) side of the sidewalk.
- (2) The minimum unobstructed sidewalk width is at least six (6) feet wide.
- (3) The sidewalk is separated from the parking areas by curbs, bollards, or other means on both sides.

Response: Exceptions to the landscaping requirements are not anticipated as part of this application. These criteria do not apply.

6. Landscaping at Points of Access

When a private access-way intersects a public right-of-way or when a property abuts the intersection of two (2) or more public rights-of-way, landscaping shall be planted and maintained so that minimum sight distances shall be preserved pursuant to Section 16.58.010.

Response: The Preliminary Landscape Plan (Exhibit A) shows plantings near the planned access points have been designed not to obstruct minimum sight distances. The criterion is met.

7. Exceptions

- a. For properties with an environmentally sensitive area and/or trees or woodlands that merit protection per Chapters 16.142 (Parks, Trees and Open Space) and 16.144 (Wetland, Habitat and Natural Areas) the landscaping standards may be

reduced, modified or "shifted" on-site where necessary in order to retain existing vegetation that would otherwise be removed to meet the above referenced landscaping requirements.

- b. The maximum reduction in required landscaping buffer permitted through this exception process shall be no more than fifty (50) percent. The resulting landscaping buffer after reduction may not be less than five (5) feet in width unless otherwise permitted by the underlying zone. Exceptions to the required landscaping may only be permitted when reviewed as part of a land use action application and do not require a separate variance permit.

Response: The landscaping has not been planned to require alteration or reduction due to existing environmentally sensitive areas, trees, or woodlands.

C. Screening of Mechanical Equipment, Outdoor Storage, Service and Delivery Areas

All mechanical equipment, outdoor storage and manufacturing, and service and delivery areas, shall be screened from view from all public streets and any adjacent residential zones. If unfeasible to fully screen due to policies and standards, the applicant shall make efforts to minimize the visual impact of the mechanical equipment.

Response: The Preliminary Landscape Plan (Exhibit A) shows that all mechanical equipment, outdoor storage, and service and delivery areas will be sited or sufficiently screened to restrict their visibility from public streets. This criterion is met.

D. Visual Corridors

Except as allowed by subsection 6. above, new developments shall be required to establish landscaped visual corridors along Highway 99W and other arterial and collector streets, consistent with the Natural Resources and Recreation Plan Map, Appendix C of the Community Development Plan, Part II, and the provisions of Chapter 16.142 (Parks, Trees, and Open Space). Properties within the Old Town Overlay are exempt from this standard.

Response: As the project site abuts Collector street SW Century Drive, visual corridor is required along the north property frontage. Fifteen-foot visual corridors have been illustrated on the Preliminary Dimensioned Civil Site Plan and Preliminary Landscape Plan (Exhibit A). These criteria are met.

16.92.040 - Installation and Maintenance Standards

A. Installation

All required landscaping must be in-ground, except when in raised planters that are used to meet minimum Clean Water Services storm water management requirements. Plant materials must be installed to current nursery industry standards. Plant materials must be properly supported to ensure survival. Support devices such as guy wires or stakes must not interfere with vehicular or pedestrian movement.

B. Maintenance and Mitigation of Landscaped Areas

-
1. Maintenance of existing non-invasive native vegetation is encouraged within a development and required for portions of the property not being developed.
 2. All landscaping shall be maintained in a manner consistent with the intent of the approved landscaping plan.
 3. Any required landscaping trees removed must be replanted consistent with the approved landscaping plan and comply with § 16.142, (Parks, Trees and Open Space).

C. Irrigation

The intent of this standard is to ensure that plants will survive the critical establishment period when they are most vulnerable due to lack of watering. All landscaped areas must provide an irrigation system, as stated in Option 1, 2, or 3.

1. Option 1: A permanent built-in irrigation system with an automatic controller installed.
2. Option 2: An irrigation system designed and certified by a licensed landscape architect or other qualified professional as part of the landscape plan, which provides sufficient water to ensure that the plants become established. The system does not have to be permanent if the plants chosen can survive independently once established.
3. Option 3: Irrigation by hand. If the applicant chooses this option, an inspection will be required one (1) year after final inspection to ensure that the landscaping has become established.

Response: The landscaping has been planned to be permanently irrigated with an automatic controller. This criterion is met.

Chapter 16.94 - OFF-STREET PARKING AND LOADING

16.94.010 - General Requirements

A. Off-Street Parking Required

No site shall be used for the parking of vehicles until plans are approved providing for off-street parking and loading space as required by this Code. Any change in uses or structures that reduces the current off-street parking and loading spaces provided on site, or that increases the need for off-street parking or loading requirements shall be unlawful and a violation of this Code, unless additional off-street parking or loading areas are provided in accordance with Section 16.94.020, or unless a variance from the minimum or maximum parking standards is approved in accordance with Chapter 16.84 Variances.

B. Deferral of Improvements

Off-street parking and loading spaces shall be completed prior to the issuance of occupancy permits, unless the City determines that weather conditions, lack of available surfacing materials, or other circumstances beyond the control of the applicant make completion impossible. In such circumstances, security equal to one hundred twenty five (125) percent of the cost of the parking and loading area is provided the City. "Security" may consist of a performance bond payable to the City, cash, certified check, or other assurance of

completion approved by the City. If the installation of the parking or loading area is not completed within one (1) year, the security may be used by the City to complete the installation.

C. Options for Reducing the Required Parking Spaces

1. Two (2) or more uses or, structures on multiple parcels of land may utilize jointly the same parking and loading spaces when the peak hours of operation do not substantially overlap, provided that satisfactory evidence is presented to the City, in the form of deeds, leases, or contracts, clearly establishing the joint use.

a. Within commercial, institutional and public, or industrial zones, shared parking may be provided on lots that are within five hundred (500) feet of the property line of the use to be served.

b. Shared parking is allowed if the application can show that the combined peak use is available by a parking study that demonstrates:

(1) There is a sufficient number of parking spaces to accommodate the requirements of the individual businesses; or

(2) That the peak hours of operation of such establishments do not overlap, and

(3) That an exclusive permanent easement over a delineated area has been granted for parking space use.

2. Mixed use projects are developments where a variety of uses occupies a development project or complex. For example, an eating establishment, professional office building and movie theater are all components of a mixed use site. It does not include a secondary use within a primary use such as an administrative office associated with a retail establishment. In mixed-use projects, the required minimum vehicle parking shall be determined using the following formula:

a. Primary use: i.e. that with the largest proportion of total floor area within the development at one hundred (100) percent of the minimum vehicle parking required for that use.

b. Secondary Use: i.e. that with the second largest percentage of total floor area within the development, at ninety (90) percent of the vehicle parking required for that use.

c. Subsequent use or uses, at eighty (80) percent of the vehicle parking required for that use.

D. Prohibited Uses

Required parking, loading and maneuvering areas shall not be used for long-term storage or sale of vehicles or other materials, and shall not be rented, leased or assigned to any person or organization not using or occupying the building or use served.

E. Location

...

2. For other uses, required off-street parking spaces may include adjacent on-street parking spaces, nearby public parking and shared parking located within five hundred (500) feet of the use. The distance from the parking, area to the use shall be measured from the nearest parking space to a building entrance, following a sidewalk or other pedestrian route. The right to use private off-site parking must be evidenced by a recorded deed, lease, easement, or similar written notarized letter or instrument.
3. Vehicle parking is allowed only on improved parking shoulders that meet City standards for public streets, within garages, carports and other structures, or on driveways or parking lots that have been developed in conformance with this code. Specific locations and types of spaces (car pool, compact, etc.) for parking shall be indicated on submitted plans and located to the side or rear of buildings where feasible.
 - a. All new development with forty (40) employees or more shall include preferential spaces for carpool/vanpool designation. Carpool and vanpool parking spaces shall be located closer to the main employee entrance than all other parking spaces with the exception of ADA parking spaces. Carpool/vanpool spaces shall be clearly marked as reserved for carpool/vanpool only.

...

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows that required off-street parking for the planned project can be accommodated entirely on site. The hotel land use will likely accommodate greater than 40 employees. Therefore, a carpool/vanpool parking space is provided (southwest of the hotel), as illustrated on the Preliminary Dimensioned Civil Site Plan (Exhibit A). These criteria are met.

F. Marking

All parking, loading or maneuvering areas shall be clearly marked and painted. All interior drives and access aisles shall be clearly marked and signed to show the direction of flow and maintain vehicular and pedestrian safety.

Response: Parking, loading, and maneuvering areas are planned to be marked, as shown on the Preliminary Plans (Exhibit A). The planned markings will clearly show the direction of flow and maintain safety for vehicles and pedestrians. The criterion is met.

G. Surface and Drainage

1. All parking and loading areas shall be improved with a permanent hard surface such as asphalt, concrete or a durable pervious surface. Use of pervious paving material is encouraged and preferred where appropriate considering soils, location, anticipated vehicle usage and other pertinent factors.
2. Parking and loading areas shall include storm water drainage facilities approved by the City Engineer or Building Official.

Response: Parking and loading areas will be improved with a permanent hard surface such as asphalt pavement. Stormwater will be captured on-site and conveyed to the planned facilities as illustrated on the Preliminary Storm Drainage Plan (Exhibit A). The criteria are met.

...

I. Parking and Loading Plan

An off-street parking and loading plan, drawn to scale, shall accompany requests for building permits or site plan approvals, except for single and two-family dwellings, and manufactured homes on residential lots. The plan shall show but not be limited to:

1. Delineation of individual parking and loading spaces and dimensions.
2. Circulation areas necessary to serve parking and loading spaces.
3. Location of accesses to streets, alleys and properties to be served, and any curb cuts.
4. Landscaping as required by Chapter 16.92.
5. Grading and drainage facilities.
6. Signing and bumper guard specifications.
7. Bicycle parking facilities as specified in Section 16.94.020.C.
8. Parking lots more than one (1) acre in size shall provide street-like features including curbs, sidewalks, and street trees or planting strips.

Response: The Preliminary Plans (Exhibit A) included with this application provide the information listed above. The criteria are met.

16.94.020 - Off-Street Parking Standards

A. Generally

Where square feet are specified, the area measured shall be the gross building floor area primary to the functioning of the proposed use. Where employees are specified, persons counted shall be those working on the premises, including proprietors, during the largest shift at peak season. Fractional space requirements shall be counted as a whole space. The Review Authority may determine alternate off - street parking and loading requirements for a use not specifically listed in this Section based upon the requirements of comparable uses.

Table 1: Minimum and Maximum Parking Standards (Metro spaces are based on 1 per 1,000 sq ft of gross leasable area)			
	Minimum Parking Standard	Maximum Permitted Parking Zone A ¹	Maximum Permitted Parking Zone B ²
Hotel or motel	1 per room	None	None
Industrial	1.6	None	None

¹ Parking Zone A reflects the maximum number of permitted vehicle parking spaces allowed for each listed land use. Parking Zone A areas include those parcels that are located within one-quarter (1/4) mile walking distance of bus

transit stops, one-half (½) mile walking distance of light rail station platforms, or both, or that have a greater than twenty-minute peak hour transit service.

² Parking Zone B reflects the maximum number of permitted vehicle parking spaces allowed for each listed land use. Parking Zone B areas include those parcels that are located at a distance greater than one-quarter (¼) mile walking distance of bus transit stops, one-half (½) mile walking distance of light rail station platforms, or both.

Response: Based on the ±100 room hotel and the parking ratio listed above, 100 parking spaces are required.

As discussed in the Pre-Application Conference Documentation (Exhibit I), parking requirements for self-storage/mini-warehousing are not provided in the development code. As such, the Planning Commission (Review Authority) may determine alternate off-street parking and loading requirements for a use not specifically listed in this Section.

The storage facility will generally only serve as a space to store goods and materials. Patrons may pull their vehicle up to individual ground floor units/garage doors along the perimeter of the facility to access their storage materials for loading. Based on the nature of the enclosed self-storage building, patrons leasing a unit on an upper story will need to briefly leave their vehicle to enter the building. As shown on the Preliminary Plans (Exhibit A), a ±1,500-square-foot loading area is provided central to the rear of the facility, with oversized spaces to accommodate moving trucks, trailers, pick-ups, etc. This amounts to double the loading area required for an industrial building over 50,000 square feet (i.e. 750 square feet of loading area is required). Further, the flex-use facility accommodates four tenant spaces, defined as professional support service areas. The four flexible tenant spaces provide ±2,550 square feet of area each, totaling ±10,200 square feet. According to Table 1, above, industrial land uses require 1.6 vehicle parking spaces per 1,000 square feet of gross leasable area. Based on the total flexible tenant area (±10,200 square feet), ±16 vehicle spaces are required.

The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows 118 parking spaces are planned on-site, greater than the minimum parking requirements listed and described above. Maximum parking does not apply to hotel or storage uses. These criteria are met.

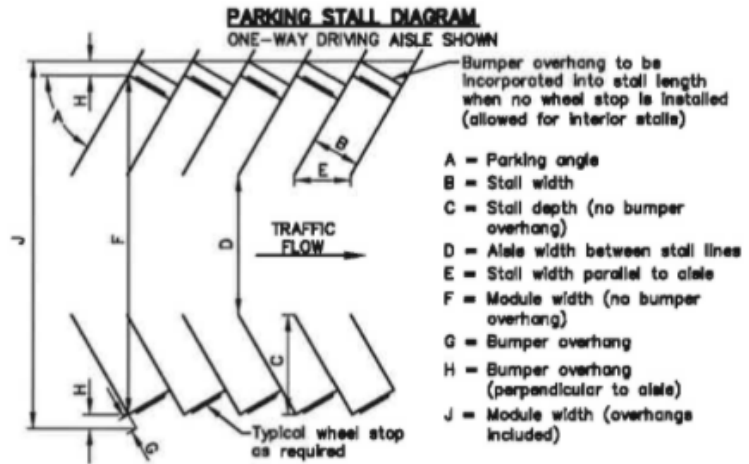

B. Dimensional and General Configuration Standards

- 1. Dimensions** For the purpose of this Chapter, a “parking space” means a stall nine (9) feet in width and twenty (20) feet in length. Up to twenty five (25) percent of required parking spaces may have a minimum dimension of eight (8) feet in width and eighteen (18) feet in length so long as they are signed as compact car stalls.

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows at least 75 percent of parking spaces are planned to be full size spaces, per the required dimensions above and Table 3, below. Compact parking spaces are not planned. These criteria are met.

- 2. Layout**

Parking space configuration, stall and access aisle size shall be of sufficient width for all vehicle turning and maneuvering. Groups of more than four (4) parking spaces shall be served by a driveway so as to minimize backing movements or other maneuvering within a street, other than an alley. All parking areas shall meet the minimum standards shown in the following table and diagram.

A	B	C	D	E	F	G	H	J
45°	8.0	16.5	24.0	11.3	57.0	3.0	2.5	62.0
	9.0	18.5	24.0	12.7	61.0	3.0	2.5	66.0
60°	8.0	17.0	24.0	9.2	58.0	3.0	2.5	63.0
	9.0	19.5	24.0	10.4	63.0	3.0	2.5	68.0
75°	8.0	16.5	26.0	8.3	59.0	3.0	3.0	65.0
	9.0	19.0	24.0	9.3	62.0	3.0	3.0	68.0
90°	8.0	15.0	26.0	8.0	56.0	3.0	3.0	62.0
	9.0	17.0	24.0	9.0	58.0	3.0	3.0	64.0

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows all parking spaces will be served by drive aisles that meet the applicable requirements for 90-degree parking. The criterion is met.

3. Wheel Stops

- a. Parking spaces along the boundaries of a parking lot or adjacent to interior landscaped areas or sidewalks shall be provided with a wheel stop at least four (4) inches high, located three (3) feet back from the front of the parking stall as shown in the above diagram.
- b. Wheel stops adjacent to landscaping, bio-swales or water quality facilities shall be designed to allow storm water runoff.

-
- c. The paved portion of the parking stall length may be reduced by three (3) feet if replaced with three (3) feet of low lying landscape or hardscape in lieu of a wheel stop; however, a curb is still required. In other words, the traditional three-foot vehicle overhang from a wheel stop may be low-lying landscaping rather than an impervious surface.

...

Response: Wheel stops can be provided, as required, to limit vehicle overhang onto sidewalks and landscaped areas adjacent to parking areas. The applicable criteria can be met.

6. Reduction in Required Parking Spaces

Developments utilizing Engineered storm water bio-swales or those adjacent to environmentally constrained or sensitive areas may reduce the amount of required parking spaces by ten (10) percent when twenty-five (25) through forty-nine (49) parking spaces are required, fifteen (15) percent when fifty (50) and seventy-four (74) parking spaces are required and twenty (20) percent when more than seventy-five (75) parking spaces are required, provided the area that would have been used for parking is maintained as a habitat area or is generally adjacent to an environmentally sensitive or constrained area.

Response: Engineered stormwater bio-swales are not provided (or required) to serve this lot. The project does not anticipate a reduced need for parking spaces; therefore, the Preliminary Dimensioned Civil Site Plan (Exhibit A) shows 118 parking spaces are provided (greater than the number of required stalls). The criteria are met.

7. Parking Location and Shared Parking

Owners of off-street parking facilities may post a sign indicating that all parking on the site is available only for residents, customers and/or employees, as applicable.

Response: Appropriate signage will be posted, as necessary. The criterion is understood.

C. Bicycle Parking Facilities

1. General Provisions

- a. **Applicability.** Bicycle parking spaces shall be provided for new development, changes of use, and major renovations, defined as construction valued at twenty-five (25) percent or more of the assessed value of the existing structure.
- b. **Types of Spaces.** Bicycle parking facilities shall be provided in terms of short-term bicycle parking and long-term bicycle parking. Short-term bicycle parking is intended to encourage customers and other visitors to use bicycles by providing a convenient and readily accessible place to park bicycles. Long-term bicycle parking provides employees, students, residents, commuters, and others who generally stay at a site for at least several hours a weather-protected place to park bicycles.

- c. **Minimum Number of Spaces.** The required total minimum number of bicycle parking spaces for each use category is shown in Table 4, Minimum Required Bicycle Parking Spaces.
- d. **Minimum Number of Long-term Spaces.** If a development is required to provide eight (8) or more required bicycle parking spaces in Table 4, at least twenty-five (25) percent shall be provided as long-term bicycle with a minimum of one (1) long-term bicycle parking space.
- e. **Multiple Uses.** When there are two or more primary uses on a site, the required bicycle parking for the site is the sum of the required bicycle parking for the individual primary uses.

Response: Per the ratio of “4 or 1 per 20 auto spaces, whichever is greater” in Table 4, six bicycle parking spaces are required for the planned hotel use. Due to the nature of the self-storage land use (which requires transportation of materials to and from leased units), bicycle spaces are not required for the storage facility. The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows the planned bicycle parking location near the front of the hotel. Long-term spaces are neither planned nor required, as the industrial use is required to provide less than eight bicycle parking spaces. The applicable criteria are met.

2. **Location and Design.**

a. **General Provisions**

- (1) Each space must be at least two (2) feet by six (6) feet in area, be accessible without moving another bicycle, and provide enough space between the rack and any obstructions to use the space properly.
- (2) There must be an aisle at least five (5) feet wide behind all required bicycle parking to allow room for bicycle maneuvering. Where the bicycle parking is adjacent to a sidewalk, the maneuvering area may extend into the right-of-way.
- (3) **Lighting.** Bicycle parking shall be at least as well lit as vehicle parking for security.
- (4) **Reserved Areas.** Areas set aside for bicycle parking shall be clearly marked and reserved for bicycle parking only.
- ...
- (6) **Hazards.** Bicycle parking shall not impede or create a hazard to pedestrians. Parking areas shall be located so as to not conflict with vision clearance standards.

Response: Planned bicycle parking has been located and designed to accommodate the design standards listed above. Per Table 4, six bicycle spaces are required for the planned land uses. The Preliminary Dimensioned Civil Site Plan (Exhibit A) illustrates the planned bicycle

parking location. A Preliminary Lighting Plan (Exhibit A) demonstrates adequate lighting is provided to the site, including the bicycle parking area. However, lighting fixture locations have not yet been determined; upon submittal of a Final Site Plan Review application, concurrent with a building permit submittal, a photometric plan is anticipated to be submitted to demonstrate compliance with the bicycle parking lighting requirement. The applicable criteria are met.

- b. **Short-term Bicycle Parking**
 - (1) Provide lockers or racks that meet the standards of this section.
 - (2) Locate inside or outside the building within thirty (30) feet of the main entrance to the building or at least as close as the nearest vehicle parking space, whichever is closer.

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows the planned location of short-term bicycle parking. Bicycle racks are located within 30 feet of the front of the hotel building, near the loading area and building entrance. These criteria are met, as applicable.

- c. **Long-term Bicycle Parking**
 - (1) Provide racks, storage rooms, or lockers in areas that are secure or monitored (e.g., visible to employees or customers or monitored by security guards).
 - (2) Locate the outside bicycle parking spaces within one hundred (100) feet of the entrance that will be accessed by the intended users.
 - (3) All of the spaces shall be covered.
- d. **Covered Parking (Weather Protection)**
 - (1) When required, covered bicycle parking shall be provided in one (1) of the following ways: inside buildings, under roof overhangs or awnings, in bicycle lockers, or within or under other structures.
 - (2) Where required covered bicycle parking is not within a building or locker, the cover must be permanent and designed to protect the bicycle from rainfall and provide seven-foot minimum overhead clearance.
 - (3) Where required bicycle parking is provided in lockers, the lockers shall be securely anchored.

Table 4: Minimum Required Bicycle Parking Spaces

Use Categories	Minimum Required Spaces
Commercial Categories	
Commercial parking facilities, commercial, outdoor recreation, major event entertainment	4 or 1 per 20 auto spaces, whichever is greater
Self-service storage	None

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) shows the planned locations for six required bicycle parking spaces (±5.9 for 118 vehicle parking spaces). Long-term or covered spaces are neither planned nor required. The applicable criteria have been met.

16.94.030 - Off-Street Loading Standards

A. Minimum Standards

...

2. The minimum loading area for non-residential uses shall not be less than ten (10) feet in width by twenty-five (25) feet in length and shall have an unobstructed height of fourteen (14) feet.
3. Multiple uses on the same parcel or adjacent parcels may utilize the same loading area if it is shown in the development application that the uses will not have substantially overlapping delivery times.
4. The following additional minimum loading space is required for buildings in excess of twenty thousand (20,000) square feet of gross floor area:
 - a. Twenty thousand (20,000) to fifty (50,000) sq. ft. - five hundred (500) sq. ft.
 - b. Fifty (50,000) sq. ft. or more - seven hundred fifty (750) sq. ft.

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) illustrates loading areas (for both the storage facility and hotel) meet the minimum requirements above. The loading areas are at least 10 feet in width by 25 feet in length with an unobstructed height of at least 14 feet. Both structures are planned to be greater than 50,000 square feet of gross floor area (each). Therefore, the additional minimum loading space of at least 750 square feet is planned to be provided (to both buildings). These criteria are met.

B. Separation of Areas

Any area to be used for the maneuvering of delivery vehicles and the unloading or loading of materials shall be separated from designated off-street parking areas and designed to prevent the encroachment of delivery vehicles onto off-street parking areas or public streets. Off-street parking areas used to fulfill the requirements of this Chapter shall not be used for loading and unloading operations.

Response: Areas designated for the maneuvering of delivery vehicles and loading areas are planned to be separated from off-street parking areas. These areas are designed to prevent the encroachment of delivery vehicles onto off-street parking areas or public streets. However, the nature of the self-storage facility accommodates loading and unloading for customers/patrons (not delivery vehicles) in the designated loading area between the building and parking area. These criteria are met.

...

Chapter 16.96 - ON-SITE CIRCULATION

16.96.010 - On-Site Pedestrian and Bicycle Circulation

A. Purpose

On-site facilities shall be provided that accommodate safe and convenient pedestrian access within new subdivisions, multi-family developments, planned unit developments, shopping centers and commercial districts, and connecting to adjacent residential areas and neighborhood activity centers within one-half mile of the development. Neighborhood activity centers include but are not limited to existing or planned schools, parks, shopping areas, transit stops or employment centers. All new development, (except single-family detached housing), shall provide a continuous system of private pathways/sidewalks.

B. Maintenance

No building permit or other City permit shall be issued until plans for ingress, egress and circulation have been approved by the City. Any change increasing any ingress, egress or circulation requirements, shall be a violation of this Code unless additional facilities are provided in accordance with this Chapter.

C. Joint Access

Two (2) or more uses, structures, or parcels of land may utilize the same ingress and egress when the combined ingress and egress of all uses, structures, or parcels of land satisfied the other requirements of this Code, provided that satisfactory legal evidence is presented to the City in the form of deeds, easements, leases, or contracts to clearly establish the joint use.

D. Connection to Streets

1. Except for joint access per this Section, all ingress and egress to a use or parcel shall connect directly to a public street, excepting alleyways with paved sidewalk.
2. Required private sidewalks shall extend from the ground floor entrances or the ground floor landing of stairs, ramps or elevators to the public sidewalk or curb of the public street which provides required ingress and egress.

Response: The site will connect directly to a public street, SW Century Drive. Ingress and egress per SZCDC are planned, with private sidewalks extending from the ground floor entrances to the public sidewalk via several connections to SW Century Drive. Therefore, these criteria are met.

E. Maintenance of Required Improvements

Required ingress, egress and circulation improvements shall be kept clean and in good repair.

F. Access to Major Roadways

Points of ingress or egress to and from Highway 99W and arterials designated on the Transportation Plan Map, attached as Appendix C of the Community Development Plan, Part II, shall be limited as follows:

...

- 3. All site plans for new development submitted to the City for approval after the effective date of this Code shall show ingress and egress from existing or planned local or collector streets, consistent with the Transportation Plan Map and Section VI of the Community Development Plan.

G. Service Drives

Service drives shall be provided pursuant to Section 16.94.030.

Response: The subject site is not located along a highway or arterial road. The site has two existing driveways from SW Century Drive along the northern property boundary. The driveways are consistent with the Transportation Plan Map and SCZDC. For further information, please see the Transportation Documentation (Exhibit L). These criteria are met.

...

16.96.030 - Minimum Non-Residential Standards

Minimum standards for private, on-site circulation improvements in non-residential developments:

A. Driveways

- 1. Commercial: Improved hard surface driveways are required as follows:

Required		Minimum Width	
Parking Spaces	# Driveways	One-Way Pair	Two-Way
1-49	1	15 feet	24 feet
50 & above	2	15 feet	24 feet

- 2. Industrial: Improved hard surface driveways are required as follows:

Required		Minimum Width	
Parking Spaces	# Driveways	One-Way Pair	Two-Way
1-249	1	15 feet	24 feet
250 & Above	2	15 feet	24 feet

- 3. Surface materials are encouraged to be pervious when appropriate considering soils, anticipated vehicle usage and other pertinent factors.

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) demonstrates that driveways are planned to meet or exceed the 24-foot minimum width requirement. Based on anticipated vehicle usage, pervious surfaces are not planned. These criteria are met.

B. Sidewalks and Curbs

- 1. A private pathway/sidewalk system extending throughout the development site shall be required to connect to existing development, to public rights-of-way with or without

improvements, to parking and storage areas, and to connect all building entrances to one another. The system shall also connect to transit facilities within five hundred (500) feet of the site, future phases of development, and whenever possible to parks and open spaces.

2. Curbs shall also be required at a standard approved by the Hearing Authority. Private pathways/sidewalks shall be connected to public rights-of-way along driveways but may be allowed other than along driveways if approved by the Hearing Authority.
3. Private Pathway/Sidewalk Design. Private pathway surfaces shall be concrete, asphalt, brick/masonry pavers, or other pervious durable surface. Primary pathways connecting front entrances to the right of way shall be at least 6 feet wide and conform to ADA standards. Secondary pathways between buildings and within parking areas shall be a minimum of four (4) feet wide and/or conform to ADA standards. Where the system crosses a parking area, driveway or street, it shall be clearly marked with contrasting paving materials or raised crosswalk (hump). At a minimum all crosswalks shall include painted striping.
4. Exceptions. Private pathways/sidewalks shall not be required where physical or topographic conditions make a connection impracticable, where buildings or other existing development on adjacent lands physically preclude a connection now or in the future considering the potential for redevelopment; or pathways would violate provisions of leases, restrictions or other agreements.

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) illustrates an accessible connection extending from the building entrances to other buildings on the site and extending to the existing public sidewalk along SW Century Drive. Raised walkways with curbs are provided to separate vehicles and pedestrians. Walkways are planned to be constructed of a durable and hard surface, meet applicable Americans with Disabilities Act (ADA) standards, and meet the applicable dimensional requirements. Driveway crossings will be marked, as applicable. These criteria, where applicable, are met.

16.96.040 - On-Site Vehicle Circulation

...

C. Connection to Streets

1. Except for joint access per this Section, all ingress and egress to a use or parcel shall connect directly to a public street, excepting alleyways.
2. Required private sidewalks shall extend from the ground floor entrances or the ground floor landing of stairs, ramps or elevators to the public sidewalk or curb of the public street which provides required ingress and egress.

...

Response: On-site vehicular circulation and direct vehicular access are planned to be provided to SW Century Drive. Private sidewalks will connect ground floor entrances of each building to the existing public sidewalk along SW Century Drive. These criteria are met.

Chapter 16.98 - ON-SITE STORAGE

...

16.98.020 - Solid Waste and Recycling Storage

All uses shall provide solid waste and recycling storage receptacles which are adequately sized to accommodate all solid waste generated on site. All solid waste and recycling storage areas and receptacles shall be located out of public view. Solid waste and recycling receptacles for multi-family, commercial, industrial and institutional uses shall be screened by six (6) foot high sight-obscuring fence or masonry wall and shall be easily accessible to collection vehicles.

...

Response: As shown on the Preliminary Plans (Exhibit A), an existing parking island southwest of the hotel is planned to be modified to locate a new trash and recycling enclosure. The enclosure is shown in a location with ease of access for hotel employees/ guests and is intended to be screened appropriately from view. The final location and orientation of the trash enclosures will be coordinated with Pride Disposal Company. These criteria are met.

Division VI. - PUBLIC INFRASTRUCTURE

Chapter 16.106 - TRANSPORTATION FACILITIES

16.106.010 – Generally

A. Creation

Public streets shall be created in accordance with provisions of this Chapter. Except as otherwise provided, all street improvements and rights-of-way shall conform to standards for the City's functional street classification, as shown on the Transportation System Plan (TSP) Map (Figure 17) and other applicable City standards. The following table depicts the guidelines for the street characteristics.

Type of Street	Right of Way Width	Number of Lanes	Minimum Lane Width	On Street Parking Width	Bike Lane Width	Sidewalk Width	Landscape Strip (exclusive of Curb)	Median Width
Arterial	60-102'	2-5	12'	Limited	6 feet	6-8'	5'	14' if required

16.106.020 - Required Improvements

A. Generally

Except as otherwise provided, all developments containing or abutting an existing or proposed street, that is either unimproved or substandard in right-of-way width or improvement, shall dedicate the necessary right-of-way prior to the issuance of building permits and/or complete acceptable improvements prior to issuance of occupancy permits. Right-of-way requirements are based on

functional classification of the street network as established in the Transportation System Plan, Figure 17.

B. Existing Streets

Except as otherwise provided, when a development abuts an existing street, the improvements requirement shall apply to that portion of the street right-of-way located between the centerline of the right-of-way and the property line of the lot proposed for development. In no event shall a required street improvement for an existing street exceed a pavement width of thirty (30) feet.

D. Extent of Improvements

1. Streets required pursuant to this Chapter shall be dedicated and improved consistent with Chapter 6 of the Community Development Plan, the TSP and applicable City specifications included in the City of Sherwood Construction Standards. Streets shall include curbs, sidewalks, catch basins, street lights, and street trees. Improvements shall also include any bikeways designated on the Transportation System Plan map. Applicant may be required to dedicate land for required public improvements only when the exaction is directly related to and roughly proportional to the impact of the development, pursuant to Section 16.106.090.
2. If the applicant is required to provide street improvements, the City Engineer may accept a future improvements guarantee in lieu of street improvements if one or more of the following conditions exist, as determined by the City:
 - a. A partial improvement is not feasible due to the inability to achieve proper design standards;
 - b. A partial improvement may create a potential safety hazard to motorists or pedestrians.
 - c. Due to the nature of existing development on adjacent properties it is unlikely that street improvements would be extended in the foreseeable future and the improvement associated with the project under review does not, by itself, provide a significant improvement to street safety or capacity;
 - d. The improvement would be in conflict with an adopted capital improvement plan;
 - e. The improvement is associated with an approved land partition on property zoned residential use and the proposed land partition does not create any new streets; or
 - f. Additional planning work is required to define the appropriate design standards for the street and the application is for a project that would contribute only a minor portion of the anticipated future traffic on the street.

Response: The subject property fronts SW Century Drive. Access to the site is gained from SW Century Drive, which is already constructed to the ultimate extent of required

improvement. A dedication of right-of-way is not required, and the applicable standards listed above are met.

E. Transportation Facilities Modifications

1. A modification to a standard contained within this Chapter and Section 16.58.010 and the standard cross sections contained in Chapter 8 of the adopted TSP may be granted in accordance with the procedures and criteria set out in this section.
2. A modification request concerns a deviation from the general design standards for public facilities, in this Chapter, Section 16.58.010, or Chapter 8 in the adopted Transportation System Plan. The standards that may be modified include but are not limited to:
 - ...
 - g. Access policy.
 - ...

Response: As discussed in the Transportation Documentation (Exhibit L), this application seeks deviation for the existing driveway access spacing requirement for the easternmost site access. This driveway is expected to function as a secondary/service and emergency access for the storage building. Full movement access is proposed for the new north-south drive aisle to be created at the existing east driveway approach on SW Century Drive. It is noted that the existing site access aligns with the full movement service entrance to the Walmart building to the north. For further transportation information, please see Exhibit L.

...

16.106.040 – Design

Standard cross sections showing street design and pavement dimensions are located in the City of Sherwood's Engineering Design Manual.

...

M. Vehicular Access Management

All developments shall have legal access to a public road. Access onto public streets shall be permitted upon demonstration of compliance with the provisions of adopted street standards in the Engineering Design Manual.

1. Measurement: See the following access diagram where R/W = Right-of-Way; and P.I. = Point-of-Intersection where P.I. shall be located based upon a 90 degree angle of intersection between ultimate right-of-way lines.
 - a. Minimum right-of-way radius at intersections shall conform to City standards.
 - b. All minimum distances stated in the following sections shall be governed by sight distance requirements according to the Engineering Design Manual.

- c. All minimum distances stated in the following sections shall be measured to the nearest easement line of the access or edge of travel lane of the access on both sides of the road.
- d. All minimum distances between accesses shall be measured from existing or approved accesses on both sides of the road.
- e. Minimum spacing between driveways shall be measured from Point "C" to Point "C" as shown below:

Response: The Preliminary Dimensioned Civil Site Plan (Exhibit A) demonstrates that the project will be served by driveways that conform to the applicable geometric requirements to establish legal access to SW Century Drive. These criteria are met.

2. Roadway Access

No use will be permitted to have direct access to a street or road except as specified below. Access spacing shall be measured from existing or approved accesses on either side of a street or road. The lowest functional classification street available to the legal lot, including alleys within a public easement, shall take precedence for new access points.

c. Collectors:

All commercial, industrial and institutional uses with one-hundred-fifty (150) feet or more of frontage will be permitted direct access to a Collector. Uses with less than one-hundred-fifty (150) feet of frontage shall not be permitted direct access to Collectors unless no other alternative exists.

Where joint access is available it shall be used, provided that such use is consistent with Section 16.96.040, Joint Access. No use will be permitted direct access to a Collector within one-hundred (100) feet of any present Point "A." Minimum spacing between driveways (Point "C" to Point "C") shall be one-hundred (100) feet. In all instances, access points near an intersection with a Collector or Arterial shall be located beyond the influence of standing queues of the intersection in

accordance with AASHTO standards. This requirement may result in access spacing greater than one hundred (100) feet.

....

Response: Parkway Village South has two existing approved permanent accesses along SW Century Drive, a Collector street. An additional driveway access to SW Century Drive was provided along the site's eastern property line as part of the site improvement process. This access is ideal for larger truck loading/unloading associated with the storage use and is expected to function as a secondary/services and emergency access for the hotel, given the hotel's building entrance, loading area, orientation of parking, etc. As discussed in Exhibit L, full movement access is planned for the drive aisle extending to the south from the existing approach on SW Century Drive. Therefore, these criteria are met.

16.106.060 – Sidewalks

A. Required Improvements

1. Except as otherwise provided, sidewalks shall be installed on both sides of a public street and in any special pedestrian way within new development.
2. For Highway 99W, arterials, or in special industrial districts, the City Manager or designee may approve a development without sidewalks if alternative pedestrian routes are available.

B. Design Standards

1. Arterial and Collector Streets

Arterial and collector streets shall have minimum six (6) or eight (8) foot wide sidewalks/multi-use paths, located as required by this Code. Residential areas shall have a minimum of a six (6) foot wide sidewalk and commercial industrial areas shall have a minimum of an eight (8) foot wide sidewalk.

C. Pedestrian and Bicycle Paths

Provide bike and pedestrian connections on public easements or right-of-way when full street connections are not possible, with spacing between connections of no more than 330 feet except where prevented by topography, barriers such as railroads or highways, or environmental constraints such as rivers and streams.

Response: The Existing Conditions Plan (Exhibit A) demonstrates sidewalks along SW Century Drive currently exist. The criteria above are met.

16.106.070 - Bike Lanes

If shown in Figure 13 of the Transportation System Plan, bicycle lanes shall be installed in public rights-of-way, in accordance with City specifications. Bike lanes shall be installed on both sides of designated roads, should be separated from the road by a twelve-inch stripe or other means approved by Engineering Staff, and should be a minimum of five (5) feet wide.

Response: As shown in Figure 13 of the TSP, Bicycle lanes are not currently required or provided along both sides of SW Century Road, per City specifications. The criterion is not applicable.

16.106.080 - Traffic Impact Analysis (TIA)

A. Purpose

The purpose of this section is to implement Sections 660-012-0045(2)(b) and -0045(2)(e) of the State Transportation Planning Rule (TPR), which require the City to adopt performance standards and a process to apply conditions to land use proposals in order to minimize impacts on and protect transportation facilities. This section establishes requirements for when a traffic impact analysis (TIA) must be prepared and submitted; the analysis methods and content involved in a TIA; criteria used to review the TIA; and authority to attach conditions of approval to minimize the impacts of the proposal on transportation facilities.

This section refers to the TSP for performance standards for transportation facilities as well as for projects that may need to be constructed as mitigation measures for a proposal's projected impacts. This section also relies on the City's Engineering Design Manual to provide street design standards and construction specifications for improvements and projects that may be constructed as part of the proposal and mitigation measures approved for the proposal.

B. Applicability

A traffic impact analysis (TIA) shall be required to be submitted to the City with a land use application at the request of the City Engineer or if the proposal is expected to involve one (1) or more of the following:

1. An amendment to the Sherwood Comprehensive Plan or zoning map.
2. A new direct property approach road to Highway 99W is proposed.
3. The proposed development generates fifty (50) or more PM peak-hour trips on Highway 99W, or one hundred (100) PM peak-hour trips on the local transportation system.
4. An increase in use of any adjacent street or direct property approach road to Highway 99W by ten (10) vehicles or more per day that exceed the twenty thousand-pound gross vehicle weight.
5. The location of an existing or proposed access driveway does not meet minimum spacing or sight distance requirements, or is located where vehicles entering or leaving the property are restricted, or such vehicles are likely to queue or hesitate at an approach or access connection, thereby creating a safety hazard.
6. A change in internal traffic patterns that may cause safety problems, such as back up onto the highway or traffic crashes in the approach area.

C. Requirements

The following are typical requirements that may be modified in coordination with Engineering Staff based on the specific application.

1. **Pre-application Conference.** The applicant shall meet with the City Engineer prior to submitting an application that requires a TIA. This meeting will be coordinated with Washington County and ODOT when an approach road to a County road or Highway 99W serves the property, so that the TIA will meet the requirements of all relevant agencies.
2. **Preparation.** The TIA shall be prepared by an Oregon Registered Professional Engineer qualified to perform traffic Engineering analysis and will be paid for by the applicant.
3. **Typical Average Daily Trips and Peak Hour Trips.** The latest edition of the Trip Generation Manual, published by the Institute of Transportation Engineers (ITE), shall be used to gauge PM peak hour vehicle trips, unless a specific trip generation study that is approved by the City Engineer indicates an alternative trip generation rate is appropriate.
4. **Intersection-level Analysis.** Intersection-level analysis shall occur at every intersection where the analysis shows that fifty (50) or more peak hour vehicle trips can be expected to result from the development.
5. **Transportation Planning Rule Compliance.** The requirements of OAR 660-012-0060 shall apply to those land use actions that significantly affect the transportation system, as defined by the Transportation Planning Rule.

D. Study Area

The following facilities shall be included in the study area for all TIAs:

1. All site-access points and intersections (signalized and unsignalized) adjacent to the proposed development site. If the site fronts an arterial or collector street, the analysis shall address all intersections and driveways along the site frontage and within the access spacing distances extending out from the boundary of the site frontage.
2. Roads and streets through and adjacent to the site.
3. All intersections needed for signal progression analysis.
4. In addition to these requirements, the City Engineer may require analysis of any additional intersections or roadway links that may be adversely affected as a result of the proposed development.

E. Analysis Periods

To adequately assess the impacts of a proposed land use action, the following study periods, or horizon years, should be addressed in the transportation impact analysis where applicable:

1. **Existing Year.**
2. **Background Conditions in Project Completion Year.** The conditions in the year in which the proposed land use action will be completed and occupied, but without the expected

traffic from the proposed land use action. This analysis should account for all City-approved developments that are expected to be fully built out in the proposed land use action horizon year, as well as all planned transportation system improvements.

3. Full Buildout Conditions in Project Completion Year. The background condition plus traffic from the proposed land use action assuming full build-out and occupancy.
4. Phased Years of Completion. If the project involves construction or occupancy in phases, the applicant shall assess the expected roadway and intersection conditions resulting from major development phases. Phased years of analysis will be determined in coordination with City staff.
5. Twenty-Year or TSP Horizon Year. For planned unit developments, comprehensive plan amendments or zoning map amendments, the applicant shall assess the expected future roadway, intersection, and land use conditions as compared to approved comprehensive planning documents.

F. Approval Criteria

When a TIA is required, a proposal is subject to the following criteria, in addition to all criteria otherwise applicable to the underlying land use proposal:

1. The analysis complies with the requirements of 16.106.080.C;
2. The analysis demonstrates that adequate transportation facilities exist to serve the proposed development or identifies mitigation measures that resolve identified traffic safety problems in a manner that is satisfactory to the City Engineer and, when County or State highway facilities are affected, to Washington County and ODOT;
3. For affected non-highway facilities, the TIA demonstrates that mobility and other applicable performance standards established in the adopted City TSP have been met; and
4. Proposed public improvements are designed and will be constructed to the street standards specified in Section 16.106.010 and the Engineering Design Manual, and to the access standards in Section 16.106.040.
5. Proposed public improvements and mitigation measures will provide safe connections across adjacent right-of-way (e.g., protected crossings) when pedestrian or bicycle facilities are present or planned on the far side of the right-of-way.

G. Conditions of Approval

The City may deny, approve, or approve a development proposal with conditions needed to meet operations and safety standards and provide the necessary right-of-way and improvements to ensure consistency with the future planned transportation system. Improvements required as a condition of development approval, when not voluntarily provided by the applicant, shall be roughly proportional to the impact of the development on transportation facilities, pursuant to Section 16.106.090. Findings in the development approval shall indicate how the required improvements

are directly related to and are roughly proportional to the impact of development.

Response: Transportation documentation prepared by Kittelson & Associates, Inc. is included as Exhibit L. The Trip Generation Letter meets the applicable requirements listed above. Please see Exhibit L for further information.

16.106.090 - Rough Proportionality

A. Purpose

The purpose of this section is to ensure that required transportation facility improvements are roughly proportional to the potential impacts of the proposed development. The rough proportionality requirements of this section apply to both frontage and non-frontage improvements. A proportionality analysis will be conducted by the City Engineer for any proposed development that triggers transportation facility improvements pursuant to this chapter. The City Engineer will take into consideration any benefits that are estimated to accrue to the development property as a result of any required transportation facility improvements. A proportionality determination can be appealed pursuant to Chapter 16.76. The following general provisions apply whenever a proportionality analysis is conducted.

B. Mitigation of impacts due to increased demand for transportation facilities associated with the proposed development shall be provided in rough proportion to the transportation impacts of the proposed development. When applicable, anticipated impacts will be determined by the TIA in accordance with Section 16.106.080. When no TIA is required, anticipated impacts will be determined by the City Engineer.

C. The following shall be considered when determining proportional improvements:

1. Condition and capacity of existing facilities within the impact area in relation to City standards. The impact area is generally defined as the area within a one-half-mile radius of the proposed development. If a TIA is required, the impact area is the TIA study area.
2. Existing vehicle, bicycle, pedestrian, and transit use within the impact area.
3. The effect of increased demand on transportation facilities and other approved, but not yet constructed, development projects within the impact area that is associated with the proposed development.
4. Applicable TSP goals, policies, and plans.
5. Whether any route affected by increased transportation demand within the impact area is listed in any City program including school trip safety; neighborhood traffic management; capital improvement; system development improvement, or others.
6. Accident history within the impact area.
7. Potential increased safety risks to transportation facility users, including pedestrians and cyclists.

-
8. Potential benefit the development property will receive as a result of the construction of any required transportation facility improvements.
 9. Other considerations as may be identified in the review process pursuant to Chapter 16.72.

Response: Proportionate share was determined to not be necessary/appropriate in regard to this project. For further information, please see the Transportation Documentation (Exhibit L). The criteria are not applicable.

Chapter 16.108 - IMPROVEMENT PLAN REVIEW

16.108.010 - Preparation and Submission

An improvement plan shall be prepared and stamped by a Registered Civil Engineer certifying compliance with City specifications. Two (2) sets of the plan shall be submitted to the City for review. An improvements plan shall be accompanied by a review fee as per this Section.

A. Review Fee

Plan review fees are calculated as a percentage of the estimated total cost of improvements and are set by the "Schedule of Development and Business Fees" adopted by Resolution of the Council. This schedule is included herein for the purposes of information, but is deemed to be separate from and independent of this Code.

B. Engineering Agreement

A copy of an agreement or contract between the applicant and Registered Civil Engineer for:

1. Surveying sufficient to prepare construction plans.
2. Preparation of construction plans and specifications.
3. Construction staking, and adequate inspection.
4. Construction notes sufficient to develop accurate as-built plans.
5. Drawing of accurate as-built plans and submission of reproducible mylars for finals to the City.
6. Certificate stating that construction was completed in accordance with required plans and specifications.

Response: Plans prepared by a registered civil engineer certifying compliance with City specifications will be submitted as part of construction permit submittal.

Chapter 16.110 - SANITARY SEWERS

16.110.010 - Required Improvements

Sanitary sewers shall be installed to serve all new developments and shall connect to existing sanitary sewer mains. Provided, however, that when impractical to immediately connect to a trunk sewer system, the use of septic tanks may be approved, if sealed sewer laterals are installed for future connection and the temporary system meets all other applicable City, Clean Water Services, Washington County and State sewage disposal standards.

16.110.020 - Design Standards

A. Capacity

Sanitary sewers shall be constructed, located, sized, and installed at standards consistent with this Code, the Sanitary Sewer Service Plan Map in the Sanitary Sewer Master Plan, and other applicable Clean Water Services and City standards, in order to adequately serve the proposed development and allow for future extensions.

B. Over-Sizing

1. When sewer facilities will, without further construction, directly serve property outside a proposed development, gradual reimbursement may be used to equitably distribute the cost of that over-sized system.
2. Reimbursement shall be in an amount estimated by the City to be a proportionate share of the cost for each connection made to the sewer by property owners outside of the development, for a period of ten (10) years from the time of installation of the sewers. The boundary of the reimbursement area and the method of determining proportionate shares shall be determined by the City. Reimbursement shall only be made as additional connections are made and shall be collected as a surcharge in addition to normal connection charges.

16.110.030 - Service Availability

Approval of construction plans for new facilities pursuant to Chapter 16.106, and the issuance of building permits for new development to be served by existing sewer systems shall include certification by the City that existing or proposed sewer facilities are adequate to serve the development.

Response:

According to comments provided by the City's Engineering Department in conjunction with the pre-application conference (PAC 2021-015), sanitary sewer service is available within SW Century Drive along the entire project site, and within a public easement along the south and east sides of the property. Therefore, extensions of the existing sanitary sewer system are not anticipated, and existing laterals can be used. Planned improvements related to sanitary sewer are shown on the Preliminary Composite Utility Plan in Exhibit A. The applicable standards are met.

Chapter 16.112 - WATER SUPPLY*

16.112.010 - Required Improvements

Water lines and fire hydrants conforming to City and Fire District standards shall be installed to serve all building sites in a proposed development. All waterlines shall be connected to existing water mains or shall construct new mains appropriately sized and located in accordance with the Water System Master Plan.

16.112.020 - Design Standards

A. Capacity

Water lines providing potable water supply shall be sized, constructed, located and installed at standards consistent with this Code, the Water System Master Plan, the City's Design and Construction Manual, and with other applicable City standards and specifications, in order to adequately serve the proposed development and allow for future extensions.

B. Fire Protection

All new development shall comply with the fire protection requirements of Chapter 16.116, the applicable portions of Chapter 7 of the Community Development Plan, and the Fire District.

C. Over-Sizing

1. When water mains will, without further construction, directly serve property outside a proposed development, gradual reimbursement may be used to equitably distribute the cost of that over-sized system.
2. Reimbursement shall be in an amount estimated by the City to be the proportionate share of the cost of each connection made to the water mains by property owners outside the development, for a period of ten (10) years from the time of installation of the mains. The boundary of the reimbursement area and the method of determining proportionate shares shall be determined by the City. Reimbursement shall only be made as additional connections are made and shall be collected as a surcharge in addition to normal connection charges.
3. When over-sizing is required in accordance with the Water System Master Plan, it shall be installed per the Water System Master Plan. Compensation for over-sizing may be provided through direct reimbursement, from the City, after mainlines have been accepted. Reimbursement of this nature would be utilized when the cost of over-sizing is for system wide improvements.

16.112.030 - Service Availability

Approval of construction plans for new water facilities pursuant to Chapter 16.106, and the issuance of building permits for new development to be served by existing water systems shall include certification by the City that existing or proposed water systems are adequate to serve the development.

Response: According to comments provided by the City's Engineering Department in conjunction with the pre-application conference (PAC 2021-015), there is currently a 12-inch diameter public water line within SW Century Drive along the full length of the project site. Planned improvements related to water lines are shown on the Preliminary Composite Utility Plan in Exhibit A. The applicable standards are met.

Chapter 16.114 - STORM WATER*

16.114.010 - Required Improvements

Storm water facilities, including appropriate source control and conveyance facilities, shall be installed in new developments and shall connect to the existing downstream drainage systems consistent with the Comprehensive Plan and the requirements of the Clean Water Services water quality regulations contained in their Design and Construction Standards R&O 04-9, or its replacement.

16.114.020 - Design Standards

A. Capacity

Storm water drainage systems shall be sized, constructed, located, and installed at standards consistent with this Code, the Storm Drainage Master Plan Map, attached as Exhibit E, Chapter 7 of the Community Development Plan, other applicable City standards, the

Clean Water Services Design and Construction standards R&O 04-9 or its replacement, and hydrologic data and improvement plans submitted by the developer.

B. On-Site Source Control

Storm water detention and groundwater recharge improvements, including but not limited to such facilities as dry wells, detention ponds, and roof top ponds shall be constructed according to Clean Water Services Design and Construction Standards.

C. Conveyance System

The size, capacity and location of storm water sewers and other storm water conveyance improvements shall be adequate to serve the development and accommodate upstream and downstream flow. If an upstream area discharges through the property proposed for development, the drainage system shall provide capacity to the receive storm water discharge from the upstream area. If downstream drainage systems are not sufficient to receive an increase in storm water caused by new development, provisions shall be made by the developer to increase the downstream capacity or to provide detention such that the new development will not increase the storm water caused by the new development.

16.114.030 - Service Availability

Approval of construction plans for new storm water drainage facilities pursuant to Chapter 16.106, and the issuance of building permits for new development to be served by existing storm water drainage systems shall include certification by the City that existing or proposed drainage facilities are adequate to serve the development.

Response:

According to comments provided by the City's Engineering Department in conjunction with the pre-application conference (PAC 2021-015), there is currently a 36-inch diameter public storm sewer along the east side of the project site, and an 18-inch diameter public storm sewer along the south side of the property. Planned improvements related to stormwater are shown on the Preliminary Storm Drainage Plan and Preliminary Composite Utility Plan in Exhibit A. The applicable standards are met.

Chapter 16.116 - FIRE PROTECTION*

16.116.010 - Required Improvements

When land is developed so that any commercial or industrial structure is further than two hundred and fifty (250) feet or any residential structure is further than five hundred (500) feet from an adequate water supply for fire protection, as determined by the Fire District, the developer shall provide fire protection facilities necessary to provide adequate water supply and fire safety.

16.116.020 - Standards

A. Capacity

All fire protection facilities shall be approved by and meet the specifications of the Fire District, and shall be sized, constructed, located, and installed consistent with this Code, Chapter 7 of the Community Development Plan, and other applicable City standards, in order to adequately protect life and property in the proposed development.

B. Fire Flow

Standards published by the Insurance Services Office, entitled "Guide for Determination of Required Fire Flows" shall determine the capacity of facilities required to furnish an adequate fire flow. Fire protection facilities shall be adequate to convey quantities of water, as determined by ISO standards, to any outlet in the system, at no less than twenty (20) pounds per square inch residual pressure. Water supply for fire protection purposes shall be restricted to that available from the City water system. The location of hydrants shall be taken into account in determining whether an adequate water supply exists.

C. Access to Facilities

Whenever any hydrant or other appurtenance for use by the Fire District is required by this Chapter, adequate ingress and egress shall be provided. Access shall be in the form of an improved, permanently maintained roadway or open paved area, or any combination thereof, designed, constructed, and at all times maintained, to be clear and unobstructed. Widths, height clearances, ingress and egress shall be adequate for District firefighting equipment. The Fire District, may further prohibit vehicular parking along private accessways in order to keep them clear and unobstructed, and cause notice to that effect to be posted.

D. Hydrants

Hydrants located along private, accessways shall either have curbs painted yellow or otherwise marked prohibiting parking for a distance of at least fifteen (15) feet in either direction, or where curbs do not exist, markings shall be painted on the pavement, or signs erected, or both, given notice that parking is prohibited for at least fifteen (15) feet in either direction.

Response: Adequate water supply is currently available to the subject site. Existing and planned fire hydrants are illustrated on the Preliminary Composite Utility Plan (Exhibit A). A service provider letter from Tualatin Valley Fire & Rescue is included as Exhibit M, demonstrating adequate access and flows are met for the new structures. No deficiencies have been identified. The applicable criteria are met.

16.116.030 - Miscellaneous Requirements

A. Timing of Installation

When fire protection facilities are required, such facilities shall be installed and made serviceable prior to or at the time any combustible construction begins on the land unless, in the opinion of the Fire District, the nature or circumstances of said construction makes immediate installation impractical.

B. Maintenance of Facilities

All on-site fire protection facilities, shall be maintained in good working order. The Fire District may conduct periodic tests and inspection of fire protection and may order the necessary repairs or changes be made within ten (10) days.

C. Modification of Facilities

On-site fire protection facilities, may be altered or repaired with the consent of the Fire District; provided that such alteration or repairs shall be carried out in conformity with the provisions of this Chapter.

Response: These standards are understood and fire protection installation will be timed so as to be serviceable prior to or at the time that combustible construction begins on the project site. These criteria are met or will be met as applicable.

Chapter 16.118 - PUBLIC AND PRIVATE UTILITIES

16.118.010 - Purpose

Public telecommunication conduits as well as conduits for franchise utilities including, but not limited to, electric power, telephone, natural gas, lighting, and cable television shall be installed to serve all newly created lots and developments in Sherwood.

16.118.020 - Standard

- A. Installation of utilities shall be provided in public utility easements and shall be sized, constructed, located and installed consistent with this Code, and applicable utility company and City standards.
- B. Public utility easements shall be a minimum of eight (8) feet in width unless a reduced width is specifically exempted by the City Engineer. An eight-foot wide public utility easement (PUE) shall be provided on private property along all public street frontages. This standard does not apply to developments within the Old Town Overlay.
- C. Where necessary, in the judgment of the City Manager or his designee, to provide for orderly development of adjacent properties, public and franchise utilities shall be extended through the site to the edge of adjacent property(ies).
- D. Franchise utility conduits shall be installed per the utility design and specification standards of the utility agency.
- E. Public Telecommunication conduits and appurtenances shall be installed per the City of Sherwood telecommunication design standards.
- F. Exceptions: Installation shall not be required if the development does not require any other street improvements. In those instances, the developer shall pay a fee in lieu that will finance installation when street or utility improvements in that location occur.

Response: The existing 8-foot-wide PUE (on Tax Lot 1100) is shown on the Preliminary Plans attached as Exhibit A. Franchise utilities are anticipated to be located and installed consistent with SZCDC, City, and utility company standards. These criteria are met.

16.118.030 - Underground Facilities

Except as otherwise provided, all utility facilities, including but not limited to, electric power, telephone, natural gas, lighting, cable television, and telecommunication cable, shall be placed underground, unless specifically authorized for above ground installation, because the points of connection to existing utilities make underground installation impractical, or for other reasons deemed acceptable by the City.

16.118.040 - Exceptions

Surface-mounted transformers, surface-mounted connection boxes and meter cabinets, temporary utility service facilities during construction, high capacity

electric and communication feeder lines, and utility transmission lines operating at fifty thousand (50,000) volts or more may be located above ground. The City reserves the right to approve location of all surface-mounted transformers.

Response: Utilities are currently located underground and do not require relocation. The location of surface-mounted transformers, connection boxes, and meter cabinets are planned to be determined with construction plans. These criteria are met.

Division VII. – LAND DIVISIONS, SUBDIVISIONS, PARTITIONS, LOT LINE ADJUSTMENTS AND MODIFICATIONS

Chapter 16.124 – PROPERTY LINE ADJUSTMENTS AND LOT CONSOLIDATIONS

16.124.010 - Approval Process

A. The City Manager or his or her designee may approve a property line adjustment by means of a Type I procedure as governed by Chapter 16.72, using approval criteria contained in this Chapter.

B. Time Limit on Approval

The property line adjustment decision shall be effective for one year from the date of approval.

C. Extension of Approval

If the adjustment is not recorded with the County within one year, the land use approval expires and must be resubmitted. The City Manager or his/her designee may, upon written request by the applicant, grant an extension up to one year upon a written finding that the facts have not changed to an extent sufficient to warrant re-filing of the property line adjustment and that no other development approval would be affected.

Response: The process described above is understood.

16.124.020 - Approval Criteria

A. The City Manager or his/her designee shall approve or deny a request for a property line adjustment in writing based on findings that the following criteria are satisfied:

1. No new lots are created

Response: As shown on the Preliminary Property Line Adjustment Plan (Exhibit A), the adjustments involve four separate lots. The purpose of the property line adjustment is to reconfigure the common boundary between the hotel and storage facility (between Lot 1 and Lot 2 of Parkway Village South subdivision plat) and center the common boundary along the shared driveway aisle (between Lot 1, Lot 2, Lot 3, and Lot 5). No new lots are created after the common property lines are adjusted. The criterion is met.

2. The adjusted lots comply with the applicable zone requirements.

Response: As discussed previously in Section 16.31, the lots comply with the applicable lot dimensional standards, setbacks, and uses of the LI zoning district. As shown on the Preliminary Plans (Exhibit A), Lot 1 and Lot 2 are currently vacant of structures and planned buildings demonstrate compliance with the applicable building setbacks upon reconfiguration. The purpose of the property line adjustment involving Lot 3 and Lot 5 is

to center the common boundary along the shared drive aisle. Therefore, adjusting the east boundaries of Lot 3 and Lot 5 will not impact existing improvements and the properties remain in compliance with lot dimensional standards, setbacks, etc. The criterion is met.

3. The adjusted lots continue to comply with other regulatory agency or department requirements.

B. If the property line adjustment is processed with another development application, all applicable standards of the Code shall apply.

Response: The property line adjustments are planned to be reviewed in conjunction with the other applications associated with this project. This consolidated application and accompanying materials demonstrate the reconfigured lots comply with applicable requirements. For further details, please see the Preliminary Property Line Adjustment Plan (Exhibit A) and Legal Descriptions (Exhibit Q). The criteria are met, as applicable.

16.124.030 - Filing and Recording Requirements

A. Recording Requirements If a property line adjustment is approved by the City, it does not become final until reviewed and approved by County in accordance with its property line adjustment recording requirements.

B. Time Limit The applicant shall submit the copy of the recorded property line adjustment survey map to the City within 30 days of recording and shall be completed prior to the issuance of any building permits on the re-configured lots.

Response: The process described above is understood and can be met.

Division VIII. - ENVIRONMENTAL RESOURCES

...

Chapter 16.142 - PARKS, TREES AND OPEN SPACES

16.142.040 - Visual Corridors

A. Corridors Required

New developments located outside of the Old Town Overlay with frontage on Highway 99W, or arterial or collector streets designated on Figure 8-1 of the Transportation System Plan shall be required to establish a landscaped visual corridor according to the following standards:

	Category	Width
3	Collector	10 feet

In residential developments where fences are typically desired adjoining the above described major street the corridor may be placed in the road right-of-way between the property line and the sidewalk. In all other developments, the visual corridor shall be on private property adjacent to the right-of-way.

Response: The project site is located outside of the Old Town Overlay district with frontage on Collector street SW Century Drive; therefore, a 10-foot-wide landscaped visual corridor is required adjacent to the Collector’s right-of-way. As shown on the Preliminary Landscape Plan (Exhibit A), these criteria are met.

B. Landscape Materials

The required visual corridor areas shall be planted as specified by the review authority to provide a continuous visual and/or acoustical buffer between major streets and developed uses. Except as provided for above, fences and walls shall not be substituted for landscaping within the visual corridor. Uniformly planted, drought resistant street trees and ground cover, as specified in Section 16.142.060, shall be planted in the corridor by the developer. The improvements shall be included in the compliance agreement. In no case shall trees be removed from the required visual corridor.

Response: Landscaping materials within the required visual corridor (along SW Century Drive) is planned to be planted in order to provide a continuous visual and acoustical buffer between the Collector street and the project site. Fences and walls have not been substituted for landscaping within the planned visual corridor. Uniformly planted, drought-resistant street trees and ground cover, as specified by Section 16.142.060, have been planned within these areas. These criteria are met.

C. Establishment and Maintenance

Designated visual corridors shall be established as a portion of landscaping requirements pursuant to Chapter 16.92. To assure continuous maintenance of the visual corridors, the review authority may require that the development rights to the corridor areas be dedicated to the City or that restrictive covenants be recorded prior to the issuance of a building permit.

Response: These standards are understood, and visual corridor area is planned to be maintained as a portion of site landscaping. These criteria are met.

D. Required Yard

Visual corridors may be established in required yards, except that where the required visual corridor width exceeds the required yard width, the visual corridor requirement shall take precedence. In no case shall buildings be sited within the required visual corridor, with the exception of front porches on townhomes, as permitted in Section 16.44.010(E)(4)(c).

Response: The Preliminary Plans show the planned visual corridor along SW Century Drive meets the applicable requirements of this section. These criteria are met.

16.142.060 - Street Trees

A. Installation of Street Trees on New or Redeveloped Property.

Trees are required to be planted to the following specifications along public streets abutting or within any new development or re-development. Planting of such trees shall be a condition of development approval. The City shall be subject to the same standards for any developments involving City-owned property, or when constructing or reconstructing City streets. After installing street trees, the property owner shall be responsible for maintaining the street trees on the owner's property or within the right-of-way adjacent to the owner's property.

1. **Location:** Trees shall be planted within the planter strip along a newly created or improved streets. In the event that a planter strip is not required or available, the trees shall be

planted on private property within the front yard setback area or within public street right-of-way between front property lines and street curb lines or as required by the City.

2. **Size:** Trees shall have a minimum trunk diameter of two (2) caliper inches, which is measured six inches above the soil line, and a minimum height of six (6) feet when planted.
3. **Types:** Developments shall include a variety of street trees. The trees planted shall be chosen from those listed in 16.142.080 of this Code.
4. **Required Street Trees and Spacing:**
 - a. The minimum spacing is based on the maximum canopy spread identified in the recommended street tree list in section 16.142.080 with the intent of providing a continuous canopy without openings between the trees. For example, if a tree has a canopy of forty (40) feet, the spacing between trees is forty (40) feet. If the tree is not on the list, the mature canopy width must be provided to the planning department by a certified arborist.
 - b. All new developments shall provide adequate tree planting along all public streets. The number and spacing of trees shall be determined based on the type of tree and the spacing standards described in a. above and considering driveways, street light locations and utility connections. Unless exempt per c. below, trees shall not be spaced more than forty (40) feet apart in any development.
 - c. A new development may exceed the forty-foot spacing requirement under section b. above, under the following circumstances:
 - (1) Installing the tree would interfere with existing utility lines and no substitute tree is appropriate for the site; or
 - (2) There is not adequate space in which to plant a street tree due to driveway or street light locations, vision clearance or utility connections, provided the driveways, street light or utilities could not be reasonably located elsewhere so as to accommodate adequate room for street trees; and
 - (3) The street trees are spaced as close as possible given the site limitations in (1) and (2) above.
 - (4) The location of street trees in an ODOT or Washington County right-of-way may require approval, respectively, by ODOT or Washington County and are subject to the relevant state or county standards.
 - (5) For arterial and collector streets, the City may require planted medians in lieu of paved twelve-foot wide center turning

lanes, planted with trees to the specifications of this subsection.

Response: Street trees have been planted within the planter strips adjacent to SW Century Drive. Street trees have been specified to meet the minimum specifications at planting. According to Casefile SP 17-01/SUB 17-03, varieties have been planted from those listed in SZCDC 16.142.080. These criteria are met.

16.142.070 - Trees on Property Subject to Certain Land Use Applications

A. Generally

The purpose of this Section is to establish processes and standards which will minimize cutting or destruction of trees and woodlands within the City. This Section is intended to help protect the scenic beauty of the City; to retain a livable environment through the beneficial effect of trees on air pollution, heat and glare, sound, water quality, and surface water and erosion control; to encourage the retention and planting of tree species native to the Willamette Valley and Western Oregon; to provide an attractive visual contrast to the urban environment, and to sustain a wide variety and distribution of viable trees and woodlands in the community over time.

B. Applicability

All applications including a Type II - IV land use review, shall be required to preserve trees or woodlands, as defined by this Section to the maximum extent feasible within the context of the proposed land use plan and relative to other codes, policies, and standards of the City Comprehensive Plan.

C. Inventory

1. To assist the City in making its determinations on the retention of trees and woodlands, land use applications including Type II - IV development shall include a tree and woodland inventory and report. The report shall be prepared by a qualified professional and must contain the following information:

- a. Tree size (in DBH and canopy area)
- b. Tree species
- c. The condition of the tree with notes as applicable explaining the assessment
- d. The location of the tree on the site
- e. The location of the tree relative to the planned improvements
- f. Assessment of whether the tree must be removed to accommodate the development
- g. Recommendations on measures that must be taken to preserve trees during the construction that are not proposed to be removed.

Response: As inventoried and described on the approved Tree Preservation and Removal Plans (Sheets C031 and C032 associated with the Parkway Village South As-Built) included as Exhibit P, the existing trees onsite were previously assessed (SP 17-03/SUB 17-01). The

required inventory materials, prepared by an arborist, are attached as Exhibit P. As shown on the Preliminary Demolition and Tree Removal Plan (Exhibit A), the following trees are located onsite:

Tree Number 26006, an Oregon Ash tree located on Tax Lot 1100, was previously assessed as dead. This dead tree is planned to be removed, as shown in Exhibit A.

Tree Number 26034, an Oregon Ash tree located on Tax Lot 1100, was previously assessed with declining health and poor structure ratings. This tree is planned to be removed, as shown in Exhibit A.

Tree Number 26048, an American Chestnut tree located on Tax Lot 1100, was approved for removal (SP 17-03/SUB 17-01). This tree remains in poor condition and is planned for removal with the siting of the hotel.

Tree Number 25975, a Douglas-fir tree located on Tax Lot 1100, was previously assessed in good condition, and planned for preservation. This tree is planned to be preserved, as shown in Exhibit A.

2. In addition to the general requirements of this Section, the tree and woodland inventory's mapping and report shall also include, but is not limited to, the specific information outlined in the appropriate land use application materials packet.

Response: The attached materials within Exhibit A and Exhibit P contain the applicable information, illustrating trees which are marked for preservation and removal with the listed required information. These criteria are met.

3. Definitions for the inventory purposes of this Section
 - a. A tree is a living woody plant having a trunk diameter as specified below at Diameter at Breast Height (DBH). Trees planted for commercial agricultural purposes, and/or those subject to farm forest deferral, such as nut and fruit orchards and Christmas tree farms, are excluded from this definition and from regulation under this Section, as are any living woody plants under six (6) inches at DBH. All trees six (6) inches or greater shall be inventoried.
 - b. A woodland is a biological community dominated by trees covering a land area of 20,000 square feet or greater at a density of at least fifty (50) trees per every 20,000 square feet with at least fifty percent (50%) of those trees of any species having a six (6) inches or greater at DBH. Woodlands planted for commercial agricultural purposes and/or subject to farm forest deferral, such as nut and fruit orchards and Christmas tree farms, are excluded from this definition, and from regulation under this Section.
 - c. A large stature tree is over 20 feet tall and wide with a minimum trunk diameter of 30 inches at DBH.

D. Retention requirements

-
1. Trees may be considered for removal to accommodate the development including buildings, parking, walkways, grading etc., provided the development satisfies of D.2 or D.3, below.

Response: Trees have been considered for removal based on the need to accommodate the construction of buildings, parking, walkways, and grading on the site. The Required Tree Canopy requirements are addressed below and shown on the Preliminary Landscape Plan (Exhibit A). This criterion is met.

...

3. Required Tree Canopy - Non-Residential and Multi-family Developments

Each net development site shall provide a variety of trees to achieve a minimum total tree canopy of 30 percent. The canopy percentage is based on the expected mature canopy of each tree by using the equation πr^2 to calculate the expected square footage of each tree. The expected mature canopy is counted for each tree even if there is an overlap of multiple tree canopies.

The canopy requirement can be achieved by retaining existing trees or planting new trees. Required landscaping trees can be used toward the total on site canopy required to meet this standard. The expected mature canopy spread of the new trees will be counted toward the required canopy cover. A certified arborist or other qualified professional shall provide an estimated tree canopy for all proposed trees to the planning department for review as a part of the land use review process.

	Commercial, Industrial, Institutional Public, and Multi-Family
Canopy Requirement	30%
Counted Toward the Canopy Requirement	
Street trees included in canopy requirement	No
Landscaping requirements included in canopy requirement	Yes
Existing trees onsite	Yes x2
Planting new trees onsite	Yes
<p>Mature Canopy in Square Feet Equation πr^2 or $(3.14159 * \text{radius}^2)$ (This is the calculation to measure the square footage of a circle. The Mature Canopy is given in diameter. In gardening and horticulture reference books, therefore to get the radius you must divide the diameter in half.</p>	
<p>Canopy Calculation Example: Pin Oak Mature canopy = 35' $(3.14159 * 17.5^2) = 962$ square feet</p>	

Response: The subject property contains existing trees which must be removed for site development because of planned building and improvement locations and grading requirements. Trees which do not interfere with the development of the site are planned to be preserved. The Preliminary Landscape Plan (Exhibit A) shows 94 new trees are planned in order to comply with the 30 percent tree canopy requirement. Therefore, these criteria are met to the extent that they apply.

TREE CANOPY CALCULATIONS				
COMMON NAME	SIZE	EXPECTED DIA. – SPREAD AREA	QTY.	CANOPY AREA
EDITH BOUGE MAGNOLIA	SMALL	15' – 177 S.F.	1	177 S.F.
GREEN VASE ZELKOVA	LARGE	38' – 1,134 S.F.	6	6,804 S.F.
HEART THROB DOGWOOD	SMALL	20' – 314 S.F.	7	2,198 S.F.
CHANTICLEER CALLERY PEAR	SMALL	15' – 177 S.F.	3	531 S.F.
LONDON PLANETREE	LARGE	40' – 1,257 S.F.	18	22,626 S.F.
MARSHALL SEEDLESS ASH	LARGE	40' – 1,257 S.F.	8	10,056 S.F.
DOUGLAS FIR	LARGE	30' – 707 S.F.	7	4,949 S.F.
EXISTING DOUGLAS FIR	LARGE	30' – (707 S.F. COUNTED TWICE) 1,414 S.F.	1	1,414 S.F.
MAGNIFICA HACKBERRY	LARGE	40' – 1,257 S.F.	13	16,341 S.F.
SCARLET OAK	LARGE	40' – 1,257 S.F.	4	5,028 S.F.
WESTERN RED CEDAR	SMALL	15' – 177 S.F.	19	3,363 S.F.
BOWHALL MAPLE	SMALL	15' – 177 S.F.	9	1,593 S.F.

TOTAL EXPECTED TREE CANOPY COVERAGE PROVIDED ±75,080 S.F.

TREE CANOPY REQUIRED: ±233,552 S.F. (NET SITE AREA) x 30% TREE CANOPY = ±70,066 S.F. AREA REQUIRED.

The Preliminary Landscape Plan (Exhibit A) shows, paired with the calculations above, an expected tree canopy coverage provided of ±75,080 square feet, greater than 30 percent of the required total net site area (±70,066 square feet tree canopy required). The criteria applicable to this industrial project are met.

4. The City may determine that, regardless of D.1 through D.3, that certain trees or woodlands may be required to be retained. The basis for such a decision shall include; specific findings that retention of said trees or woodlands furthers the purposes and goals of this Section, is feasible and practical both within the context of the proposed land use plan and relative to other policies and standards of the City Comprehensive Plan, and are:
 - a. Within a Significant Natural Area, 100-year floodplain, City greenway, jurisdictional wetland or other existing or future public park or natural area designated by the City Comprehensive Plan, or
 - b. A landscape or natural feature as per applicable policies of the City Comprehensive Plan, or are necessary to keep other identified trees or woodlands on or near the site from being damaged or destroyed due to windfall, erosion, disease or other natural processes, or
 - c. Necessary for soil stability and the control of erosion, for managing and preserving surface or groundwater quantities or quality, or for the maintenance of a natural drainageway, as per Clean Water Services stormwater management plans and standards of the City Comprehensive Plan, or
 - d. Necessary in required buffers between otherwise incompatible land uses, or from natural areas, wetlands and greenways, or
 - e. Otherwise merit retention because of unusual size, size of the tree stand, historic association or species

type, habitat or wildlife preservation considerations, or some combination thereof, as determined by the City.

Response: These standards are understood. These situations are not anticipated on the project site.

...

7. All trees, woodlands, and vegetation located on any private property accepted for dedication to the City for public parks and open space, greenways, Significant Natural Areas, wetlands, floodplains, or for storm water management or for other purposes, as a condition of a land use approval, shall be retained outright, irrespective of size, species, condition or other factors. Removal of any such trees, woodlands, and vegetation prior to actual dedication of the property to the City shall be cause for reconsideration of the land use plan approval.

Response: This application does not involve lands for dedication. This standard is understood, but not applicable to this project.

E. Tree Preservation Incentive

Retention of existing native trees on site which are in good health can be used to achieve the required mature canopy requirement of the development. The expected mature canopy can be calculated twice for existing trees. For example, if one existing tree with an expected mature canopy of 10 feet (78.5 square feet) is retained it will count as twice the existing canopy (157 square feet).

Response: Trees designated for preservation have been calculated, where applicable, towards the mature canopy requirements for the proposed development at the specified rate. As shown on the Preliminary Plans (Exhibit A), a Douglas-fir tree is planned to be preserved and is shown 'counted twice' in the Tree Canopy Calculations table. The criterion is met.

F. Additional Preservation Incentives

1. **General Provisions.** To assist in the preservation of trees, the City may apply one or more of the following flexible standards as part of the land use review approval. To the extent that the standards in this section conflict with the standards in other sections of this Title, the standards in this section shall apply except in cases where the City determines there would be an unreasonable risk to public health, safety, or welfare. Flexibility shall be requested by the applicant with justification provided within the tree preservation and protection report as part of the land use review process and is only applicable to trees that are eligible for credit towards the effective tree canopy cover of the site. A separate adjustment application as outlined in Section 16.84.030.A is not required.
2. **Flexible Development Standards.** The following flexible standards are available to applicants in order to preserve trees on a development site. These standards cannot be combined with any other reductions authorized by this code.
 - a. **Lot size averaging.** To preserve existing trees in the development plan for any Land Division under

Division VII, lot size may be averaged to allow lots less than the minimum lot size required in the underlying zone as long as the average lot area is not less than that allowed by the underlying zone. No lot area shall be less than 80 percent of the minimum lot size allowed in the zone;

Response: Land division is not planned as part of this project; therefore, these criteria do not apply.

b. Setbacks. The following setback reductions will be allowed for lots preserving existing trees using the criteria in subsection (1) below. The following reductions shall be limited to the minimum reduction necessary to protect the tree.

(1) Reductions allowed:

(a.) Front yard - up to a 25 percent reduction of the dimensional standard for a front yard setback required in the base zone. Setback of garages may not be reduced by this provision.

(b.) Interior setbacks - up to a 40 percent reduction of the dimensional standards for an interior side and/or rear yard setback required in the base zone.

(c.) Perimeter side and rear yard setbacks shall not be reduced through this provision.

Response: The site contains few existing trees. Setback reductions are not sought; therefore, these criteria do not apply.

c. Approval criteria:

(1.) A demonstration that the reduction requested is the least required to preserve trees; and

(2.) The reduction will result in the preservation of tree canopy on the lot with the modified setbacks; and

(3.) The reduction will not impede adequate emergency access to the site and structure.

Response: A reduction in lot size or setbacks is not requested as part of this application; therefore, these criteria do not apply.

3. Sidewalks. Location of a public sidewalk may be flexible in order to preserve existing trees or to plant new large stature street trees. This flexibility may be accomplished through a curb-tight sidewalk or a meandering public sidewalk easement recorded over private property and shall be reviewed on a case by case basis in accordance with the provisions of the Engineering Design Manual, Street and Utility Improvement Standards. For preservation, this flexibility shall be the minimum required to achieve the

desired effect. For planting, preference shall be given to retaining the planter strip and separation between the curb and sidewalk wherever practicable. If a preserved tree is to be utilized as a street tree, it must meet the criteria found in the Street Tree section, 16.142.060.

Response: The site contains few existing trees. The criterion above is not applicable.

4. Adjustments to Commercial and Industrial development Standards. Adjustments to Commercial or Industrial Development standards of up to 20 feet additional building height are permitted provided;
 - a. At least 50% of a Significant Tree stand's of canopy within a development site (and not also within the sensitive lands or areas that areas dedicated to the City) is preserved;
 - b. The project arborist or qualified professional certifies the preservation is such that the connectivity and viability of the remaining significant tree stand is maximized;
 - c. Applicable buffering and screening requirements are met;
 - d. Any height adjustments comply with state building codes;
 - e. Significant tree stands are protected through an instrument or action subject to approval by the City Manager or the City manager's designee that demonstrates it will be permanently preserved and managed as such;
 - (1.) A conservation easement;
 - (2.) An open space tract;
 - (3.) A deed restriction; or
 - (4.) Through dedication and acceptance by the City.

Response: Adjustments to industrial building height have not been planned. These criteria do not apply.

G. Tree Protection During Development

The applicant shall prepare and submit a final Tree and Woodland Plan prior to issuance of any construction permits, illustrating how identified trees and woodlands will be retained, removed or protected as per the Notice of Decision. Such plan shall specify how trees and woodlands will be protected from damage or destruction by construction activities, including protective fencing, selective pruning and root treatments, excavation techniques, temporary drainage systems, and like methods. At a minimum, trees to be protected shall have the area within the drip line of the tree protected from grading, stockpiling, and all other construction related activity unless specifically reviewed and recommended by a certified arborist or other qualified professional. Any work within the dripline of the tree shall be supervised by the project arborist or other qualified professional onsite during construction.

Response: As shown on the Preliminary Plans (Exhibit A), the tree planned for preservation is not near site disturbing activities. As shown on the Preliminary Landscape Plan, the existing tree is to remain located in a landscaped courtyard, over ±100 feet east of the rear parking area behind the hotel. Adequate tree protection will be provided onsite during construction. The criteria are met, as applicable.

16.142.090 – Recommended Street Trees

- A. Recommended Street Trees:
[Section table skipped for brevity.]
- B. Recommended Street Trees under Power Lines:
[Section text skipped for brevity.]
- C. Prohibited Street Trees:
 - Acer, Silver Maple
 - Acer, Boxelder
 - Ailanthus, gladiolosa – Tree-of-heaven
 - Betula; common varieties of Birch
 - Ulmus; common varieties of Elm
 - Morus; common varieties of Mulberry
 - Salix; common varieties of willow
 - Coniferous Evergreen (Fir, Pine, Cedar, etc.)
 - Populus; common varieties of poplar, cottonwood and aspen
 - Female Ginkgo
- D. Alternative Street Trees: Trees that are similar to those on the recommended street tree list can be proposed provided that they are non-fruit bearing, non-invasive and not listed on the prohibited street tree list. A letter from a certified arborist must be submitted, explaining why the tree is an equivalent or better street tree than the recommended street trees that are identified in this section.

Response: As shown on the Preliminary Plans (Exhibit A), required street trees currently exist along the property’s frontage on SW Century Drive. Therefore, the standards above are not applicable to this application.

Chapter 16.146 - NOISE

16.146.010 - Generally

All otherwise permitted commercial, industrial, and institutional uses in the City shall comply with the noise standards contained in OAR 340-35-035. The City may require proof of compliance with OAR 340-35-035 in the form of copies of all applicable State permits or certification by a professional acoustical engineer that the proposed uses will not cause noise in excess of State standards.

16.146.020 - Noise Sensitive Uses

When proposed commercial and industrial uses do not adjoin land exclusively in commercial or industrial zones, or when said uses adjoin special care,

institutional, or parks and recreational facilities, or other uses that are, in the City's determination, sensitive to noise impacts, then:

- A. The applicant shall submit to the City a noise level study prepared by a professional acoustical engineer. Said study shall define noise levels at the boundaries of the site in all directions.
- B. The applicant shall show that the use will not exceed the noise standards contained in OAR 340-35-035, based on accepted noise modeling procedures and worst case assumptions when all noise sources on the site are operating simultaneously.
- C. If the use exceeds applicable noise standards as per subsection B of this Section, then the applicant shall submit a noise mitigation program prepared by a professional acoustical engineer that shows how and when the use will come into compliance with said standards.

16.146.030 - Exceptions

This Chapter does not apply to noise making devices which are maintained and utilized solely as warning or emergency signals, or to noise caused by automobiles, trucks, trains, aircraft, and other similar vehicles when said vehicles are properly maintained and operated and are using properly designated rights-of-way, travel ways, flight paths or other routes. This Chapter also does not apply to noise produced by humans or animals. Nothing in this Chapter shall preclude the City from abating any noise problem as per applicable City nuisance and public safety ordinances.

Response: The subject site is surrounded by other land zoned either LI or LI-PUD and does not directly adjoin residentially zoned lands. Noise levels are expected to similar to nearby industrial uses. The flexible tenant industrial spaces, located within the enclosed storage facility, do not typically generate noise beyond that associated with traffic entering and leaving the site, along with other activities typical of an urban area. These uses will be within the required standards and adverse impacts are³ not anticipated. These criteria are met.

Chapter 16.148 - VIBRATIONS

16.148.010 - Generally

All otherwise permitted commercial, industrial, and institutional uses shall not cause discernible vibrations that exceed a peak of 0.002 gravity at the property line of the originating use, except for vibrations that last five (5) minutes or less per day, based on a certification by a professional engineer.

16.148.020 - Exceptions

This Chapter does not apply to vibration caused by construction activities including vehicles accessing construction sites, or to vibrations caused by automobiles, trucks, trains, aircraft, and other similar vehicles when said vehicles are properly maintained and operated and are using properly designated rights-of-way, travelways, flight paths or other routes. Nothing in this Chapter shall preclude the City from abating any vibration problem as per applicable City nuisance and public safety ordinances.

Response: Vibration levels are expected to be similar to nearby industrial uses. Elevated levels of vibration, beyond what is expected in an urban area, are not anticipated. Therefore, these

uses will be within required standards and adverse impacts are not expected to occur. These criteria are met.

Chapter 16.150 - AIR QUALITY

16.150.010 - Generally

All otherwise permitted commercial, industrial, and institutional uses shall comply with applicable State air quality rules and statutes:

- A. All such uses shall comply with standards for dust emissions as per OAR 340-21-060.
- B. Incinerators, if otherwise permitted by Section 16.140.020, shall comply with the standards set forth in OAR 340-25-850 through 340-25-905.
- C. Uses for which a State Air Contaminant Discharge Permit is required as per OAR 340-20-140 through 340-20-160 shall comply with the standards of OAR 340-220 through 340-20-276.

16.150.020 - Proof of Compliance

Proof of compliance with air quality standards as per Section 16.150.010 shall be in the form of copies of all applicable State permits, or if permits have not been issued, submission by the applicant, and acceptance by the City, of a report certified by a professional engineer indicating that the proposed use will comply with State air quality standards. Depending on the nature and size of the use proposed, the applicant may, in the City's determination, be required to submit to the City a report or reports substantially identical to that required for issuance of State Air Contaminant Discharge Permits.

16.150.030 - Exceptions

Nothing in this Chapter shall preclude the City from abating any air quality problem as per applicable City nuisance and public safety ordinances.

Response:

Air quality impacts are anticipated to be similar to nearby industrial uses. Odorous or unusual emissions, beyond what is expected in an urban area, are not anticipated. The uses will be within required standards and are not anticipated to create adverse impacts. These criteria are met.

Chapter 16.152 - ODORS

16.152.010 - Generally

All otherwise permitted commercial, industrial, and institutional uses shall incorporate the best practicable design and operating measures so that odors produced by the use are not discernible at any point beyond the boundaries of the development site.

16.152.020 - Standards

The applicant shall submit a narrative explanation of the source, type and frequency of the odorous emissions produced by the proposed commercial, industrial, or institutional use. In evaluating the potential for adverse impacts from odors, the City shall consider the density and characteristics of surrounding populations and uses, the duration of any odorous emissions, and other relevant factors.

16.152.030 - Exceptions

Nothing in this Chapter shall preclude the City from abating any odor problem as per applicable City nuisance and public safety ordinances.

Response: Odor impacts are expected to be similar to nearby commercial or industrial uses. Odorous or unusual emissions, beyond what is expected in an urban area, are not anticipated. The uses will be within required standards and therefore without adverse impacts. These criteria are met.

Chapter 16.154 - HEAT AND GLARE

16.154.010 - Generally

Except for exterior lighting, all otherwise permitted commercial, industrial, and institutional uses shall conduct any operations producing excessive heat or glare entirely within enclosed buildings. Exterior lighting shall be directed away from adjoining properties, and the use shall not cause such glare or lights to shine off site in excess of one-half (0.5) foot candle when adjoining properties are zoned for residential uses.

16.154.020 - Exceptions

Nothing in this Chapter shall preclude the City from abating any heat and glare problem as per applicable City nuisance and public safety ordinances.

Response: The subject site does not adjoin any properties designated for residential uses, as those are located across the SW Langer Farms Parkway right-of-way to the west. Exterior lighting is planned to be directed away from adjoining properties. These applicable criteria are met.

Chapter 16.156 - ENERGY CONSERVATION

16.156.010 - Purpose

This Chapter and applicable portions of Chapter 5 of the Community Development Plan provide for natural heating and cooling opportunities in new development. The requirements of this Chapter shall not result in development exceeding allowable densities or lot coverage, or the destruction of existing trees.

16.156.020 - Standards

- A. **Building Orientation** - The maximum number of buildings feasible shall receive sunlight sufficient for using solar energy systems for space, water or industrial process heating or cooling. Buildings and vegetation shall be sited with respect to each other and the topography of the site so that unobstructed sunlight reaches the south wall of the greatest possible number of buildings between the hours of 9:00 AM and 3:00 PM, Pacific Standard Time on December 21st.
- B. **Wind** - The cooling effects of prevailing summer breezes and shading vegetation shall be accounted for in site design. The extent solar access to adjacent sites is not impaired vegetation shall be used to moderate prevailing winter wind on the site.

Response: The new buildings are oriented in a north-south direction, generally consistent with the orientation of the lot. The buildings are set back from the property boundaries and each other as needed, while still allowing truck and fire safety access circulation around the buildings. Therefore, the buildings are generally positioned to allow unobstructed sunlight access to their southern walls.

The site does not have a significant number of existing trees that may shade these future buildings or moderate winter winds. However, the Preliminary Landscape Plan shows that trees will be planted and, at maturity, will provide shade and a buffer to winter winds on the site. These criteria are met.

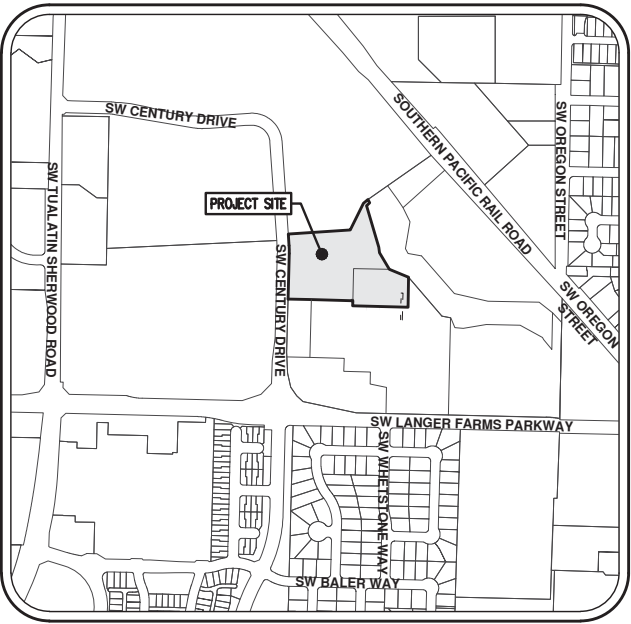

IV. Conclusion

The required findings have been made, and this narrative and accompanying documentation demonstrate that the application is consistent with the applicable provisions of the City of Sherwood Zoning and Community Development Code. The evidence in the record is substantial and supports approval of the application. The City of Sherwood can rely upon this information in its approval of the application.

DETAILED TREE INVENTORY FOR PARKWAY VILLAGE SOUTH

AKS JOB NO. 5656-02

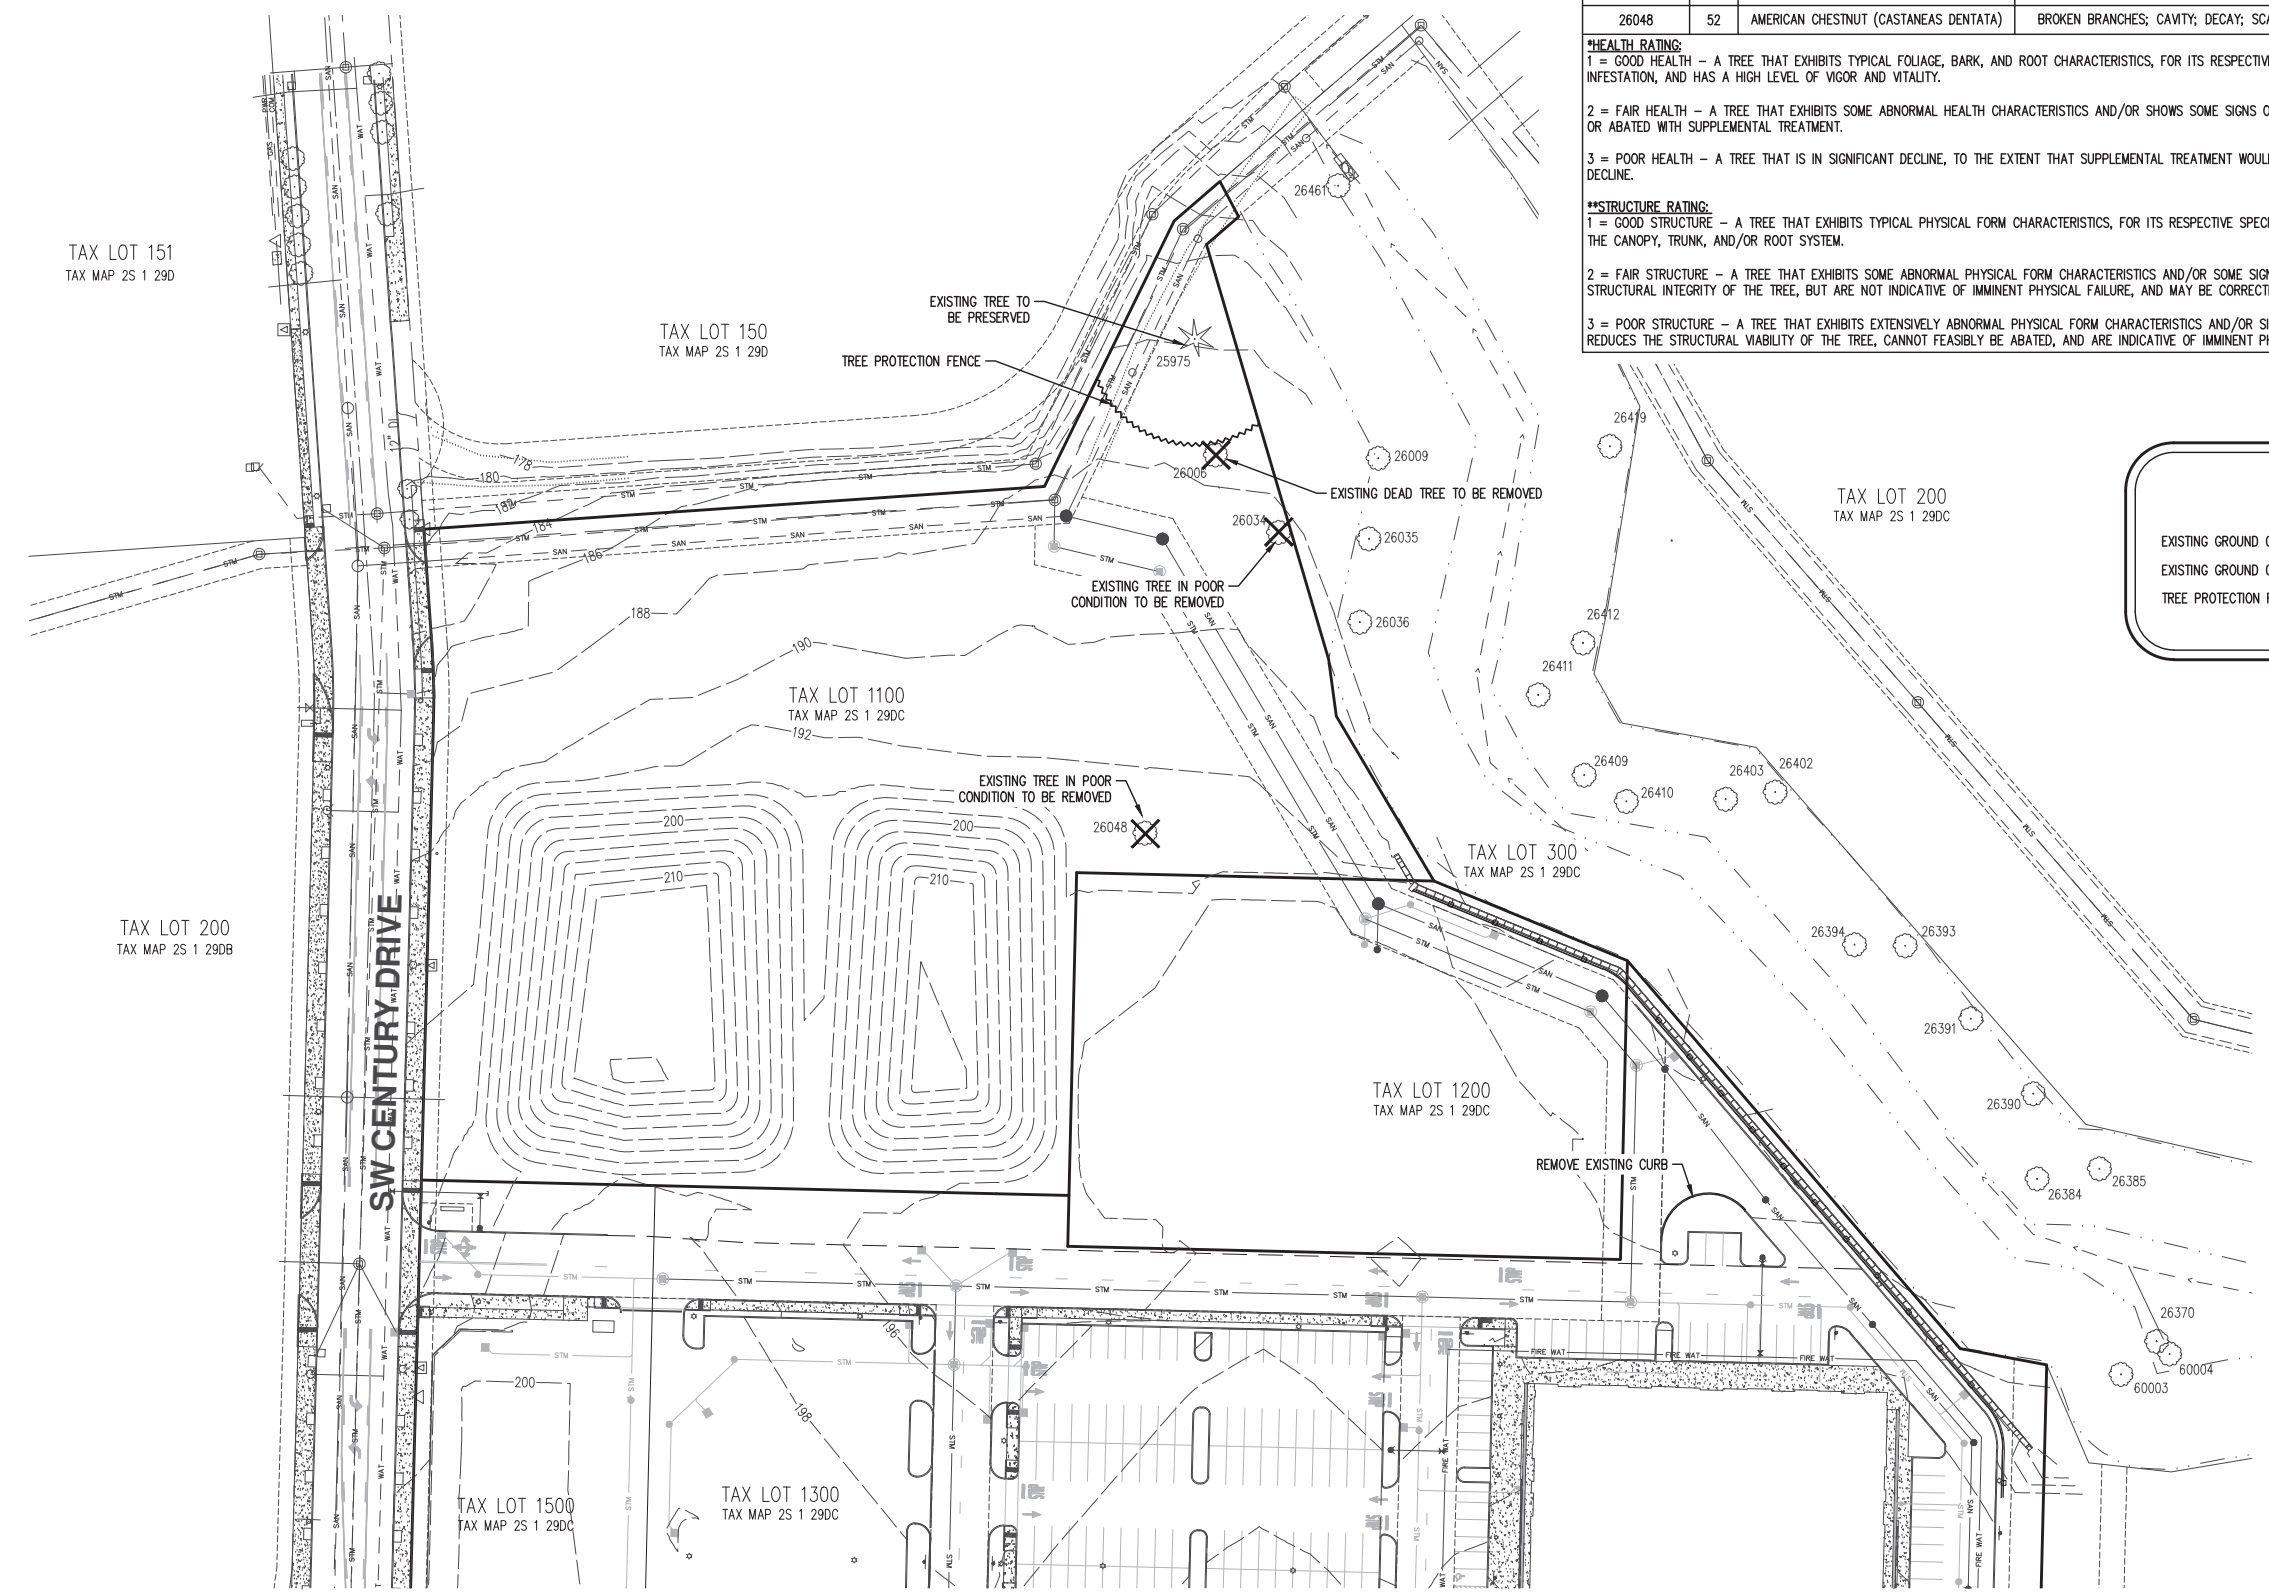

TREE #	DBH (IN.)	TREE SPECIES COMMON NAME (SCIENTIFIC NAME)	COMMENTS	HEALTH RATING*	STRUCTURE RATING**	PRESERVE/ REMOVE
25975	53	DOUGLAS-FIR (PSEUDOTSUGA MENZIESII)		1	1	PRESERVE
26006	14	OREGON ASH (FRAXINUS LARIFOLIA)	CAVITY; DECAY; BROKEN BRANCHES; DEAD	3	3	REMOVE
26034	14	OREGON ASH (FRAXINUS LARIFOLIA)	CAVITY; DECAY; CROOKED; DECLINING	2	3	REMOVE
26048	52	AMERICAN CHESTNUT (CASTANEA DENTATA)	BROKEN BRANCHES; CAVITY; DECAY; SCARS; CRACKS	2	3	REMOVE

***HEALTH RATING:**
 1 = GOOD HEALTH – A TREE THAT EXHIBITS TYPICAL FOLIAGE, BARK, AND ROOT CHARACTERISTICS, FOR ITS RESPECTIVE SPECIES, SHOWS NO SIGNS OF INFECTION OR INFESTATION, AND HAS A HIGH LEVEL OF VIGOR AND VITALITY.
 2 = FAIR HEALTH – A TREE THAT EXHIBITS SOME ABNORMAL HEALTH CHARACTERISTICS AND/OR SHOWS SOME SIGNS OF INFECTION OR INFESTATION, BUT MAY BE REVERSED OR ABATED WITH SUPPLEMENTAL TREATMENT.
 3 = POOR HEALTH – A TREE THAT IS IN SIGNIFICANT DECLINE, TO THE EXTENT THAT SUPPLEMENTAL TREATMENT WOULD NOT LIKELY RESULT IN REVERSING OR ABATING ITS DECLINE.

****STRUCTURE RATING:**
 1 = GOOD STRUCTURE – A TREE THAT EXHIBITS TYPICAL PHYSICAL FORM CHARACTERISTICS, FOR ITS RESPECTIVE SPECIES, SHOWS NO SIGNS OF STRUCTURAL DEFECTS OF THE CANOPY, TRUNK, AND/OR ROOT SYSTEM.
 2 = FAIR STRUCTURE – A TREE THAT EXHIBITS SOME ABNORMAL PHYSICAL FORM CHARACTERISTICS AND/OR SOME SIGNS OF STRUCTURAL DEFECTS, WHICH REDUCE THE STRUCTURAL INTEGRITY OF THE TREE, BUT ARE NOT INDICATIVE OF IMMINENT PHYSICAL FAILURE, AND MAY BE CORRECTED USING ARBORICULTURAL ABATEMENT METHODS.
 3 = POOR STRUCTURE – A TREE THAT EXHIBITS EXTENSIVELY ABNORMAL PHYSICAL FORM CHARACTERISTICS AND/OR SIGNIFICANT STRUCTURAL DEFECTS THAT SUBSTANTIALLY REDUCES THE STRUCTURAL VIABILITY OF THE TREE, CANNOT FEASIBLY BE ABATED, AND ARE INDICATIVE OF IMMINENT PHYSICAL FAILURE.

TREE CANOPY CALCULATIONS				
COMMON NAME	SIZE	EXPECTED DIA. - SPREAD AREA	QTY.	CANOPY AREA
EDITH BOUGE MAGNOLIA	SMALL	15' - 177 S.F.	1	177 S.F.
GREEN VASE ZELKOVA	LARGE	38' - 1,134 S.F.	6	6,804 S.F.
HEART THROB DOGWOOD	SMALL	20' - 314 S.F.	7	2,198 S.F.
CHANTICLEER CALLERY PEAR	SMALL	15' - 177 S.F.	3	531 S.F.
LONDON PLANETREE	LARGE	40' - 1,257 S.F.	18	22,626 S.F.
MARSHALL SEEDLESS ASH	LARGE	40' - 1,257 S.F.	8	10,056 S.F.
DOUGLAS FIR	LARGE	30' - 707 S.F.	7	4,949 S.F.
EXISTING DOUGLAS FIR	LARGE	30' - (707 S.F. COUNTED TWICE)	1	1,414 S.F.
MAGNIFICA HACKBERRY	LARGE	40' - 1,257 S.F.	13	16,341 S.F.
SCARLET OAK	LARGE	40' - 1,257 S.F.	4	5,028 S.F.
WESTERN RED CEDAR	SMALL	15' - 177 S.F.	19	3,363 S.F.
BOWHALL MAPLE	SMALL	15' - 177 S.F.	9	1,593 S.F.

TOTAL EXPECTED TREE CANOPY COVERAGE PROVIDED: ±75,080 S.F.
 TREE CANOPY REQUIRED: ±233,552 S.F. (NET SITE AREA) x 30% TREE CANOPY = ±70,066 S.F. AREA REQUIRED.

TREE CALCULATIONS

118 PARKING STALLS/4 = 29.5 "LARGE TREES" REQUIRED UNDER CODE
 56 "LARGE TREES" PROVIDED IN WHICH 7 (12.5%) ARE CONIFERS
 1 "LARGE TREE" TO BE PRESERVED
 39 "SMALL TREES" PROVIDED IN WHICH 19 (48.7%) ARE CONIFERS
 39 PERIMETER BUFFER TREES PROVIDED
 95 TOTAL SITE TREES PROVIDED.
 ±63,883 S.F. LANDSCAPE AREA PROVIDED DIVIDED BY 95 SITE TREES = 1 TREE PER 672 S.F.
 "LARGE TREES" AS PER CITY OF PORTLAND TREE AND LANDSCAPING MANUAL.

SHRUB CALCULATIONS

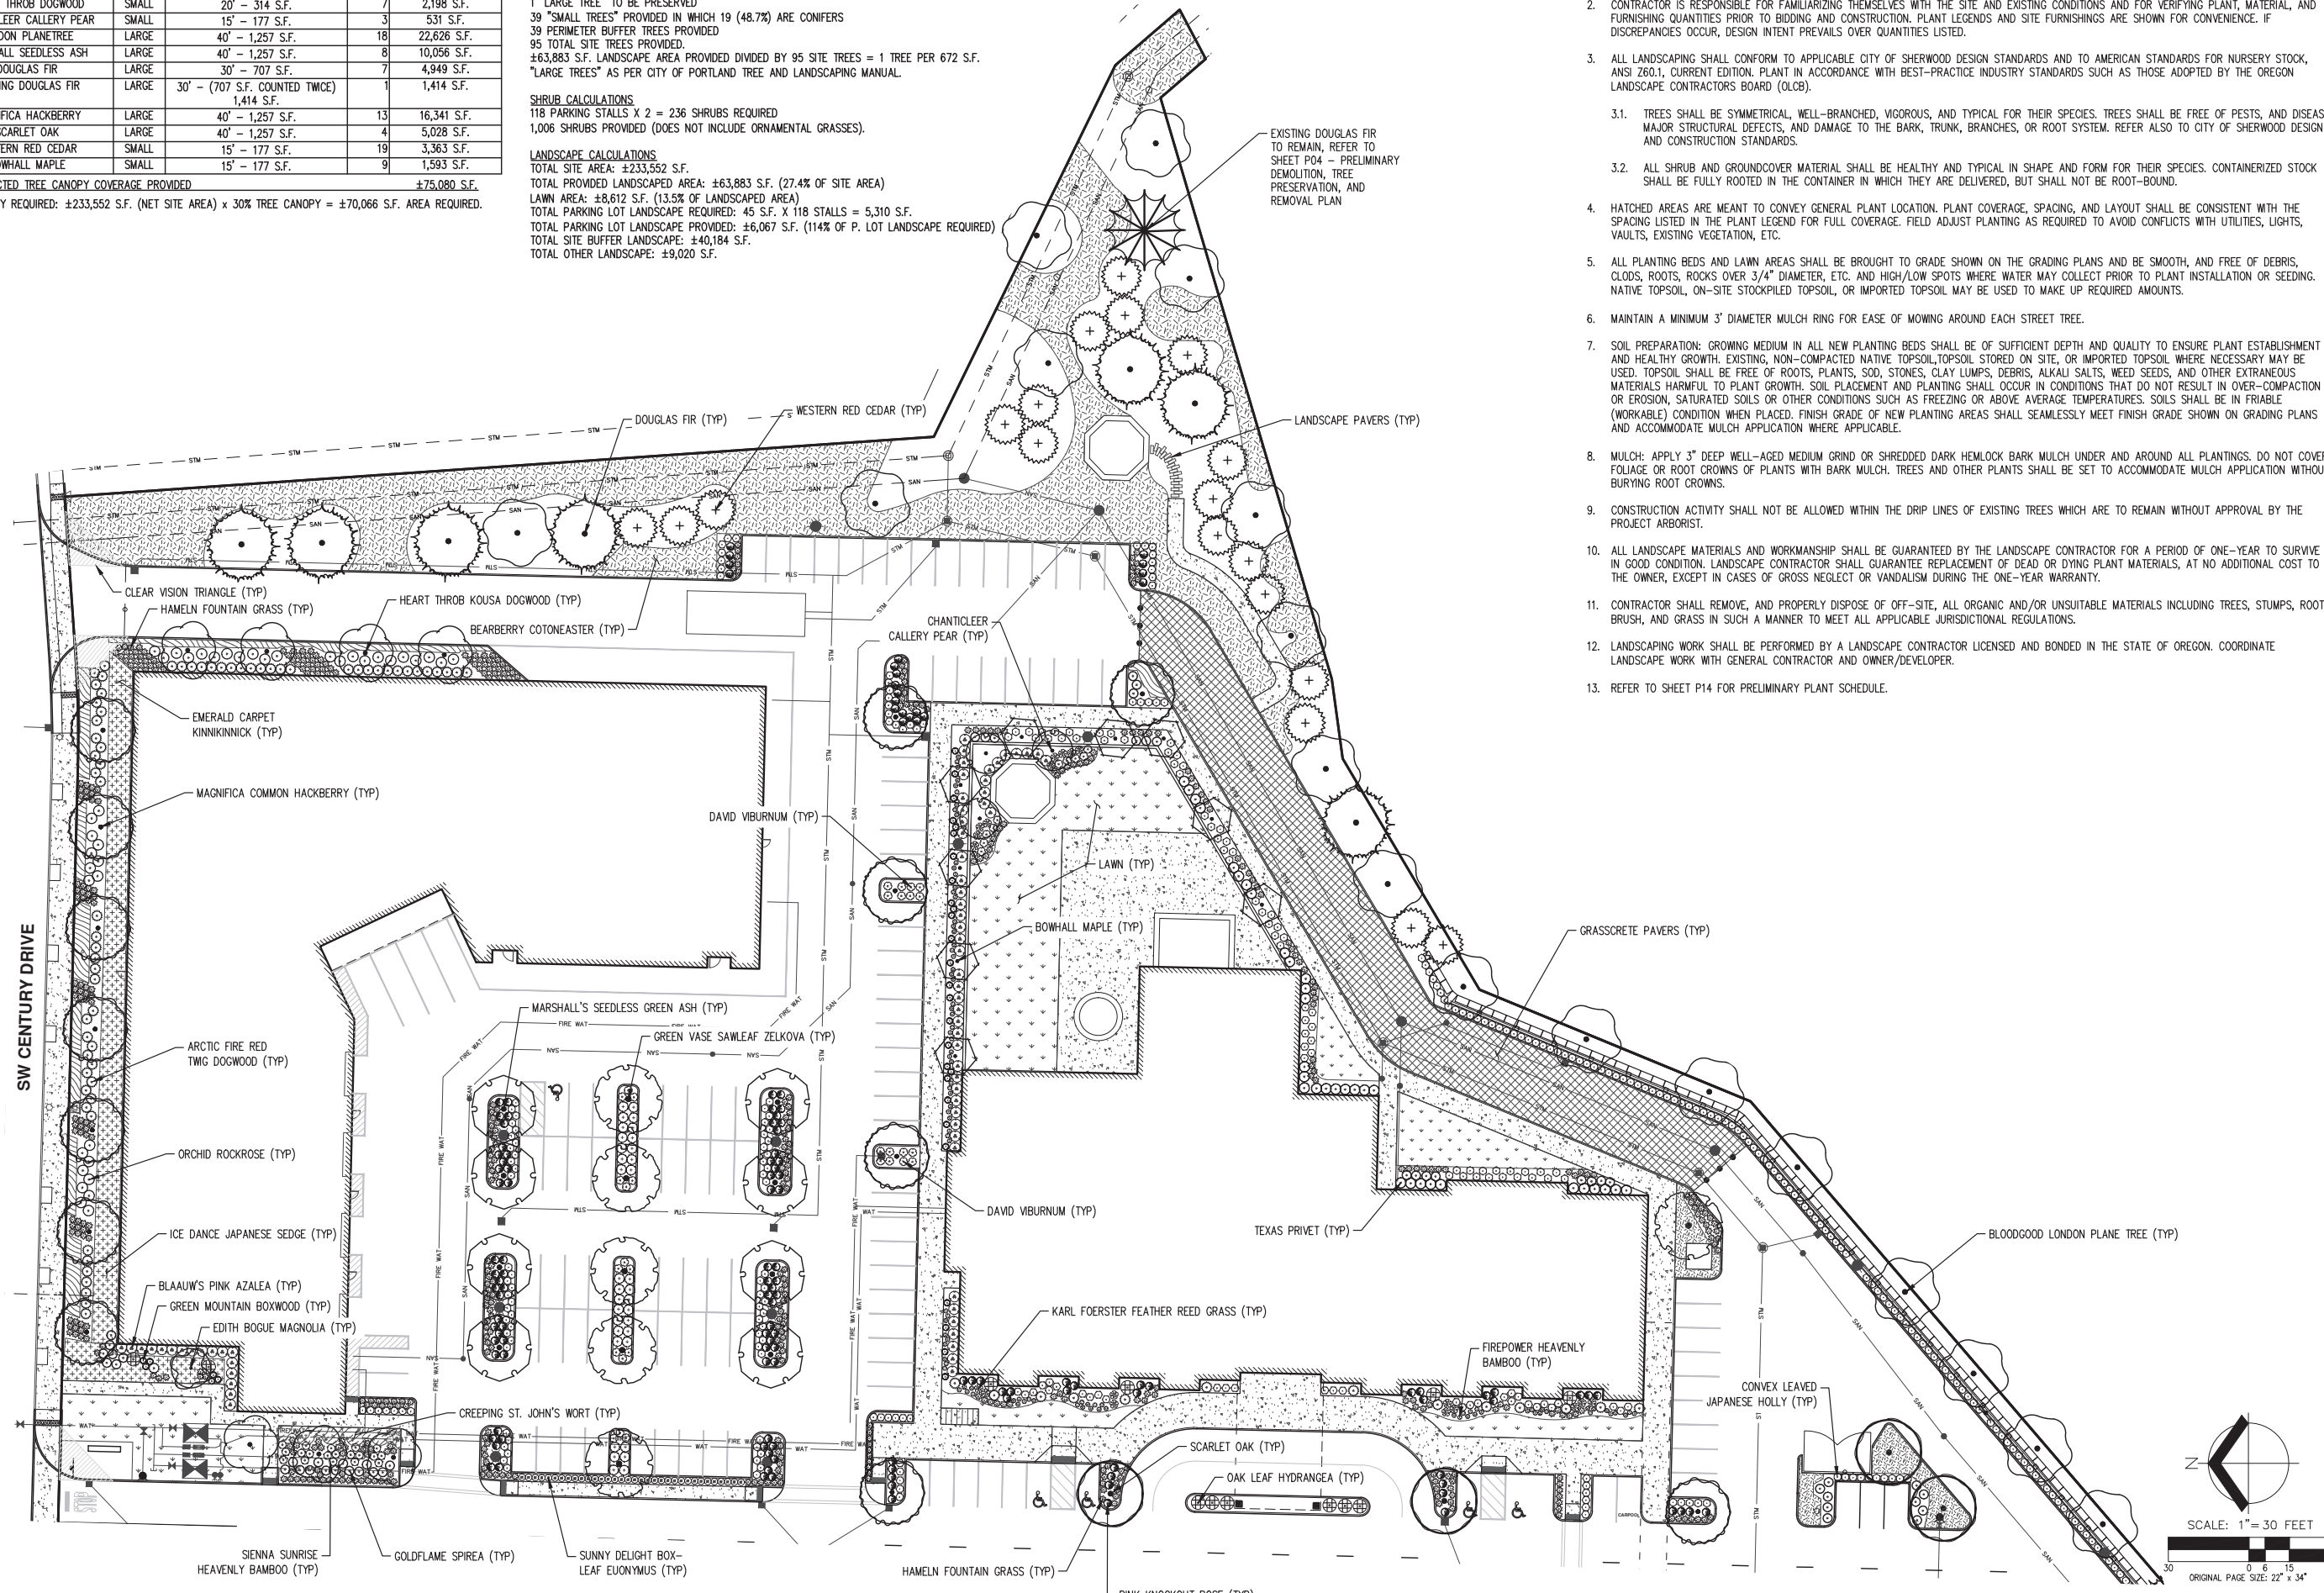

118 PARKING STALLS X 2 = 236 SHRUBS REQUIRED
 1,006 SHRUBS PROVIDED (DOES NOT INCLUDE ORNAMENTAL GRASSES).

LANDSCAPE CALCULATIONS

TOTAL SITE AREA: ±233,552 S.F.
 TOTAL PROVIDED LANDSCAPED AREA: ±63,883 S.F. (27.4% OF SITE AREA)
 LAWN AREA: ±8,612 S.F. (13.5% OF LANDSCAPED AREA)
 TOTAL PARKING LOT LANDSCAPE REQUIRED: 45 S.F. X 118 STALLS = 5,310 S.F.
 TOTAL PARKING LOT LANDSCAPE PROVIDED: ±6,067 S.F. (114% OF P. LOT LANDSCAPE REQUIRED)
 TOTAL SITE BUFFER LANDSCAPE: ±40,184 S.F.
 TOTAL OTHER LANDSCAPE: ±9,020 S.F.

GENERAL LANDSCAPE NOTES

- PLANTING AND PRODUCT SPECIFICATIONS WHERE SHOWN ARE TO CONVEY DESIGN INTENT AND MAY BE REVISED OR SUBSTITUTED WITH APPROVAL PRIOR TO INSTALLATION DUE TO AVAILABILITY, UNFORESEEN SITE CONDITIONS, ETC. WHERE ALLOWABLE UNDER CITY OF SHERWOOD CODE STANDARDS.
- CONTRACTOR IS RESPONSIBLE FOR FAMILIARIZING THEMSELVES WITH THE SITE AND EXISTING CONDITIONS AND FOR VERIFYING PLANT, MATERIAL, AND FURNISHING QUANTITIES PRIOR TO BIDDING AND CONSTRUCTION. PLANT LEGENDS AND SITE FURNISHINGS ARE SHOWN FOR CONVENIENCE. IF DISCREPANCIES OCCUR, DESIGN INTENT PREVAILS OVER QUANTITIES LISTED.
- ALL LANDSCAPING SHALL CONFORM TO APPLICABLE CITY OF SHERWOOD DESIGN STANDARDS AND TO AMERICAN STANDARDS FOR NURSERY STOCK, ANSI Z60.1, CURRENT EDITION. PLANT IN ACCORDANCE WITH BEST-PRACTICE INDUSTRY STANDARDS SUCH AS THOSE ADOPTED BY THE OREGON LANDSCAPE CONTRACTORS BOARD (OLCB).
 - TREES SHALL BE SYMMETRICAL, WELL-BRANCHED, VIGOROUS, AND TYPICAL FOR THEIR SPECIES. TREES SHALL BE FREE OF PESTS, AND DISEASE, MAJOR STRUCTURAL DEFECTS, AND DAMAGE TO THE BARK, TRUNK, BRANCHES, OR ROOT SYSTEM. REFER ALSO TO CITY OF SHERWOOD DESIGN AND CONSTRUCTION STANDARDS.
 - ALL SHRUB AND GROUND COVER MATERIAL SHALL BE HEALTHY AND TYPICAL IN SHAPE AND FORM FOR THEIR SPECIES. CONTAINERIZED STOCK SHALL BE FULLY ROOTED IN THE CONTAINER IN WHICH THEY ARE DELIVERED, BUT SHALL NOT BE ROOT-BOUND.
- HATCHED AREAS ARE MEANT TO CONVEY GENERAL PLANT LOCATION, PLANT COVERAGE, SPACING, AND LAYOUT SHALL BE CONSISTENT WITH THE SPACING LISTED IN THE PLANT LEGEND FOR FULL COVERAGE. FIELD ADJUST PLANTING AS REQUIRED TO AVOID CONFLICTS WITH UTILITIES, LIGHTS, VAULTS, EXISTING VEGETATION, ETC.
- ALL PLANTING BEDS AND LAWN AREAS SHALL BE BROUGHT TO GRADE SHOWN ON THE GRADING PLANS AND BE SMOOTH, AND FREE OF DEBRIS, CLODS, ROOTS, ROCKS OVER 3/4" DIAMETER, ETC. AND HIGH/LOW SPOTS WHERE WATER MAY COLLECT PRIOR TO PLANT INSTALLATION OR SEEDING. NATIVE TOPSOIL, ON-SITE STOCKPILED TOPSOIL, OR IMPORTED TOPSOIL MAY BE USED TO MAKE UP REQUIRED AMOUNTS.
- MAINTAIN A MINIMUM 3" DIAMETER MULCH RING FOR EASE OF MOWING AROUND EACH STREET TREE.
- SOIL PREPARATION: GROWING MEDIUM IN ALL NEW PLANTING BEDS SHALL BE OF SUFFICIENT DEPTH AND QUALITY TO ENSURE PLANT ESTABLISHMENT AND HEALTHY GROWTH. EXISTING, NON-COMPACTED NATIVE TOPSOIL/TOPSOIL STORED ON SITE, OR IMPORTED TOPSOIL WHERE NECESSARY MAY BE USED. TOPSOIL SHALL BE FREE OF ROOTS, PLANTS, SOD, STONES, CLAY LUMPS, DEBRIS, ALKALI SALTS, WEED SEEDS, AND OTHER EXTRANEOUS MATERIALS HARMFUL TO PLANT GROWTH. SOIL PLACEMENT AND PLANTING SHALL OCCUR IN CONDITIONS THAT DO NOT RESULT IN OVER-COMPACTION OR EROSION, SATURATED SOILS OR OTHER CONDITIONS SUCH AS FREEZING OR ABOVE AVERAGE TEMPERATURES. SOILS SHALL BE IN FRIABLE (WORKABLE) CONDITION WHEN PLACED. FINISH GRADE OF NEW PLANTING AREAS SHALL SEAMLESSLY MEET FINISH GRADE SHOWN ON GRADING PLANS AND ACCOMMODATE MULCH APPLICATION WHERE APPLICABLE.
- MULCH: APPLY 3" DEEP WELL-ACED MEDIUM GRIND OR SHREDDED DARK HEMLOCK BARK MULCH UNDER AND AROUND ALL PLANTINGS. DO NOT COVER FOLIAGE OR ROOT CROWNS OF PLANTS WITH BARK MULCH. TREES AND OTHER PLANTS SHALL BE SET TO ACCOMMODATE MULCH APPLICATION WITHOUT BURYING ROOT CROWNS.
- CONSTRUCTION ACTIVITY SHALL NOT BE ALLOWED WITHIN THE DRIP LINES OF EXISTING TREES WHICH ARE TO REMAIN WITHOUT APPROVAL BY THE PROJECT ARBORIST.
- ALL LANDSCAPE MATERIALS AND WORKMANSHIP SHALL BE GUARANTEED BY THE LANDSCAPE CONTRACTOR FOR A PERIOD OF ONE-YEAR TO SURVIVE IN GOOD CONDITION. LANDSCAPE CONTRACTOR SHALL GUARANTEE REPLACEMENT OF DEAD OR DYING PLANT MATERIALS, AT NO ADDITIONAL COST TO THE OWNER, EXCEPT IN CASES OF GROSS NEGLIGENCE OR VANDALISM DURING THE ONE-YEAR WARRANTY.
- CONTRACTOR SHALL REMOVE, AND PROPERLY DISPOSE OF OFF-SITE, ALL ORGANIC AND/OR UNSUITABLE MATERIALS INCLUDING TREES, STUMPS, ROOTS, BRUSH, AND GRASS IN SUCH A MANNER TO MEET ALL APPLICABLE JURISDICTIONAL REGULATIONS.
- LANDSCAPING WORK SHALL BE PERFORMED BY A LANDSCAPE CONTRACTOR LICENSED AND BONDED IN THE STATE OF OREGON. COORDINATE LANDSCAPE WORK WITH GENERAL CONTRACTOR AND OWNER/DEVELOPER.
- REFER TO SHEET P14 FOR PRELIMINARY PLANT SCHEDULE.

By submitting this form the Owner, or Owner's authorized agent/ representative, acknowledges and agrees that City of Sherwood employees, and appointed or elected City Officials, have authority to enter the project site at all reasonable times for the purpose of inspecting project site conditions and gathering information related specifically to the project site.

Note: See City of Sherwood current Fee Schedule, which includes the "Publication/Distribution of Notice" fee, at www.sherwoodoregon.gov. Click on Government/Finance/Fee Schedule.

Owner/Applicant Information:

Applicant: <u>Langer Family, LLC</u>	Phone: <u>Please contact consultant, below</u>
Applicant Address: <u>28185 SW Heater Road</u>	Email: <u>Please contact consultant, below</u>
Owner: <u>Langer Parkway South, LLC (Tax Lots 1100, 1200, 1400, 1500)</u>	Phone: <u>Please contact consultant, below</u>
Owner Address: <u>28185 SW Heater Road</u>	Email: <u>Please contact consultant, below</u>
Contact for Additional Information: <u>AKS Engineering & Forestry, LLC (Chris Goodell)</u>	
<u>12965 SW Herman Road, Tualatin, OR 97062</u>	
Phone: <u>(503) 563-6151; Email: chrisg@aks-eng.com</u>	

Property Information:

Street Location: Southeast of the intersection of SW Langer Farms Parkway and SW Century Drive

Tax Lot and Map No: TL 1100, TL 1200, TL 1400, TL 1500 of Washington County Assessor's Map 2S 1 29DC

Existing Structures/Use: Vacant site

Existing Plan/Zone Designation: Light Industrial Planned Unit Development (LI-PUD)

Size of Property(ies) ±8.19 acres

Proposed Action:

Purpose and Description of Proposed Action:

The project involves site plan review for a self-storage facility with flexible tenant spaces (TL 1100) and a site plan modification and conditional use permit to site a hotel (TL 1200). The Lot Line Adjustment and Modification applications have associated impacts on TL 1400 and TL 1500. Please see the written narrative for further details.

Proposed Use: Light Industrial/Commercial

Proposed No. of Phases (one year each): TBD

LAND USE APPLICATION FORM

Authorizing Signatures:

I am the owner/authorized agent of the owner empowered to submit this application and affirm that the information submitted with this application is correct to the best of my knowledge.

I further acknowledge that I have read the applicable standards for review of the land use action I am requesting and understand that I must demonstrate to the City review authorities compliance with these standards prior to approval of my request.

APPLICATION MATERIALS REQUIRED FOR SITE PLAN REVIEW

Submit the following to the City of Sherwood Planning Department, 22560 SW Pine St., Sherwood, OR 97140: (503) 925-2308.

It is strongly suggested that you have a pre-application meeting with the City prior to submitting for Site Plan Review. (See *Pre-application Process* form for information.)

Note: Clean Water Services (CWS) requires a pre-screening to determine if water quality sensitive areas exist on the property. If these sensitive areas exist, a Site Assessment and Service Provider Letter are required prior to submitting for Site Plan Review or undertaking any development. **This application will not be accepted without a completed Pre-Screening Form and if required a Service Provider Letter.** Please contact CWS at (503) 681-3600.

If the proposal is next to a Washington County roadway, the applicant must submit an Access Report (Traffic Study) to Washington County Department of Land Use and Transportation (503) 846-8761. **This application will not be accepted until an Access Report (Traffic Study) is submitted to Washington County and the Access Report is deemed complete by the County; or written verification from Washington County that an Access Report is not required is provided.**

-
- ✓ I. **FEES** - See City of Sherwood current Fee Schedule, which includes the “Publication/ Distribution of Notice” fee, at <http://www.sherwoodoregon.gov> Click on Government/Planning/Planning Fees.

Note: The above fees are required at the time you submit for site plan review. Additional fees will be charged for building permit, system development charges, impact fees and other fees applicable to the development. These fees will be charged when you make application for building permit. Building permit application will not be accepted until site plan approval is issued.

- ✓ II. **BACKGROUND INFORMATION** (All materials to be collated & folded (not rolled) to create *fifteen (15) sets).

*Note that the *final* application must contain fifteen (15) folded sets of the above, however, upon initial submittal of the application and prior to completeness review, the applicant may submit three (3) complete folded sets with the application in lieu of fifteen (15), with the understanding that fifteen (15) complete sets of the application materials will be required before the application is deemed complete and scheduled for review.

✓ **Application Form** – One original and fourteen (14) copies of a completed **City of Sherwood Application for Land Use Action** form. Original signatures from all owners must be on the application form.

✓ **See Exhibit B**
Documentation of Neighborhood Meeting (Type III- Type V) - Affidavits of mailing, sign-in sheets and a summary of the meeting notes shall be included with the application.

✓ **See Exhibit F**
Tax Map - Fifteen (15) copies of the latest Tax Map available from the Washington County Assessor's Office showing property within at least 300 feet with scale (1"=100' or 1"= 200') north point, date and legend.

✓ **See Exhibit J**
Mailing Labels – Two (2) sets of mailing labels for property owners within 1,000 feet of the subject site, including a map of the area showing the properties to receive notice. Mailing labels can be obtained from a private title insurance company. Ownership records shall be based on the most current available information from the Tax Assessor's office. *It is the applicant's responsibility to provide mailing labels that accurately reflect all property owners that reside within 1,000 feet of the subject site.*

✓ **See Exhibit G**
Vicinity Map – Fifteen (15) copies of a vicinity map showing the City limits and the Urban Growth Boundary.

✓ **See Exhibit A**
Narrative – Fifteen (15) copies and **an electronic copy** of a narrative explaining the proposal in detail and a response to the Required Findings for Site Plan Review, located in Chapter 16 of the Municipal Code/Zoning & Development, Section 16.90.010. The Municipal Code/Zoning & Development is available online at www.sherwoodoregon.gov, Click on Government/Municipal Code.

✓ **Electronic Copy** – An electronic copy of the **entire** application packet. This should include all submittal materials (narrative, vicinity map, mailing labels, site plan, preliminary plat, etc.).

✓ III. **REQUIRED PLANS** **See Exhibit A**

Submit fifteen (15) sets of the following folded full-size plans and **an electronic copy in .PDF format.** Plans must have:

- 1) The proposed name of the development. If a proposed project name is the same as or similar to other existing projects in the City of Sherwood, the applicant may be required to modify the project name.
- 2) The name, address and phone of the owner, developer, applicant and plan producer.
- 3) North arrow,
- 4) Legend,
- 5) Date plans were prepared and date of any revisions
- 6) Scale clearly shown. Other than architectural elevations, all plans must be drawn to an engineer scale.
- 7) All dimensions clearly shown.

✓ **Existing Conditions Plan** - Existing conditions plan drawn to scale showing: property lines and dimensions, existing structures and other improvements such as streets and utilities, existing vegetation including trees, any floodplains or wetlands and any easements on the property. The existing conditions plan shall also include the slope of the site at 5-foot contour intervals

Preliminary Development Plans- Plans must be sufficient for the Hearing Authority to determine compliance with applicable standards. The following information is typically needed for adequate review:

1. The subject parcel (s), its dimensions and area.
2. The location and dimensions of proposed development, including the following:

Transportation

- a. Public and private streets with proposed frontage improvements including curb, gutters, sidewalks, planter strip, street lighting, distances to street centerline, pavement width, right-of-way width, bike lanes and driveway drops.
- b. Public and private access easements, width and location.
- c. General circulation plan showing location, widths and direction of existing and proposed streets, bicycle and pedestrian ways, and transit routes and facilities within ½ mile of the subject property.
- d. Show the location and distance to neighboring driveways and the width and locations of driveways located across the street.
- e. The location and size of accesses, sight distance and any fixed objects on collectors or arterial streets.
- f. Emergency accesses.
- g. Indicate the location and size of off-street parking spaces including curbing and wheel stop locations.
- h. Proposed transit facilities.
- i. Indicate loading and maneuvering areas.
- j. Delivery truck and bus circulation patterns.

Grading and Erosion Control

- k. Indicate the proposed grade at two (2)-foot contour intervals.
- l. Indicate the proposed erosion control measures to CWS standards (refer to CWS R&O 07-20).
- m. Show areas of cut and fill with areas of structural fill.
- n. Show the location of all retaining walls, the type of material to be used, the height of the retaining wall from the bottom of the footing to the top of the wall and the exposed height of the wall.

Utilities

- o. Utilities must be shown after proposed grade with 2-foot contour intervals.
- p. Map location, purpose, dimensions and ownership of easements.
- q. Fire hydrant locations and fire flows.
- r. Water, sewer and stormwater line locations, types and sizes.
- s. Clearly indicate the private and public portions of the system.
- t. Above-ground utilities and manhole locations.

Preliminary Stormwater Plan

- u. Show location, size and slope of water quality facility.
- v. Preliminary calculations justifying size of facility.

- w. The total square footage of the new and existing impervious area.
- x. The stormwater facility to CWS standards. (R&O 07-20).

Sensitive Areas

- y. Show any and all streams, ponds, wetlands and drainage ways.
- z. Indicate the vegetative corridor for sensitive areas to CWS standards. (R&O 07-20).
- aa. Indicate measures to avoid environmental degradation that meet CWS, DSL and Army Corp requirements.
- bb. Flood elevation.
- cc. Wetland delineation and buffering proposed.
- dd. Location and size of all trees greater than 5 inches DBH (indicate if trees are proposed for removal).

Land Use

- ee. The square footage of each building and a breakdown of square footage by use. (i.e. retail, office, industrial, residential, etc.).
- ff. Net buildable acres. (The land remaining after unbuildable areas are taken out, such as the floodplain and wetland areas).
- gg. Net density calculation for residential use.
- hh. Landscaping areas including the square footage of the site covered by landscaping and planting types. (refer to Ch. 5 of the Community Development Code).
- ii. Existing trees proposed to remain and trees to be removed and the drip-lines of trees proposed to remain.
- jj. Street tree location, size and type. (refer to Ch. 8, Section 8.304.06 of the Community Development Code).
- kk. Bicycle parking areas. (Refer to Ch 5 of the Community Development Code).
- ll. On-site pathways and sidewalk locations.
- mm. Structures proposed to be built and structures proposed to remain with their dimensions and the distances to property lines.
- nn. Outdoor storage areas and proposed screening.
- oo. Outdoor sales and merchandise display areas and proposed screening.
- pp. Truck loading and maneuvering areas.
- qq. Number of parking spaces and required parking calculations based on Section 5.302 of the Community Development Code.
- rr. The size and location of solid waste and recycle storage areas and screening.
- ss. Location, size and height of proposed free-standing signs.
- tt. Location, height and type of fencing and walls.
- uu. For each lot indicated the building envelope.

Reduced - Proposed Development Plans – One (1) reduced copies of the Proposed Development Plan on 8 1/2” by 11” sheets and fifteen (15) reduced copies on 11” by 17” sheets.

Lighting Plan – Photometric lighting plan indicating foot candle power on and along the perimeter of the site. Proposed locations, height and size of lights. (If outdoor lighting is proposed).

Surrounding Land Uses – Existing land use including nature, size and location of existing structures within 300 feet.

-  **Architectural Exterior** – Scaled architectural sketches and elevations of all proposed structures. Include a description of materials, textures and colors. Show the size, placement and dimensions of proposed wall signs on the elevation drawings. These drawings can be done at an architectural or engineering scale. If color is used, two color copies and eight black and white copies are acceptable.
[See Exhibit D](#)

IV. DOCUMENTS REQUIRED

-  **Title Report** – Two (2) copies of a current preliminary title report available from a private title insurance company.
[See Exhibit C](#)
-  **CWS Service Provider Letter** – Four (4) copies of the CWS service provider letter
[See Exhibit E](#)

V. ADDITIONAL DOCUMENTS THAT MAY BE REQUIRED

- N/A** **Army Corps and DSL wetland applications and/or permits** – Four (4) copies of required Divisions of State Lands and/or Army Corp of Engineers permits and/or permit applications if applicable.
-  **Traffic Study** – Four (4) copies of a traffic study. (If required by the City Engineer).
[See Exhibit L](#)
- N/A** **Soils Analysis and/or Geotechnical Report** – Four (4) copies completed by a registered Soils Engineer or Geologist including measures to protect natural hazards. (If required by the City Engineer).
- N/A** **Tree Report** – Two (2) copies of a tree report prepared by an arborist, forester, landscape architect, botanist or other qualified professional. (If required trees are on-site).
- N/A** **Natural Resource Assessment** – If required by Clean Water Services (CWS). The CWS Pre-Screening indicates as to whether this report is required or not.
- N/A** **Wetland Delineation Study** – if required by Oregon Division of State Lands (DSL) or the Army Corps of Engineers.
- N/A** **Other Special Studies and/or Reports** – if required by the Planning Director or the City Engineer to address issues identified in the pre-application meeting or during project review.
-  Verification of compliance with other agency standards such as CWS, DSL, Army Corps of Engineers, ODOT, PGE, BPA, Washington County.
[See Exhibit M for TVFR SPL](#)

APPLICATION MATERIALS REQUIRED FOR

CONDITIONAL USE PERMIT REVIEW

Submit the following to the City of Sherwood Planning Department, 22560 SW Pine St., Sherwood, OR 97140: (503) 925-2308.

It is strongly suggested that you have a pre-application meeting with the City prior to submitting for Site Plan Review. (See *Pre-application Process* form for information.)

Note: Clean Water Services (CWS) requires a pre-screening to determine if water quality sensitive areas exist on the property. If these sensitive areas exist, a Site Assessment and Service Provider Letter is required prior to submitting for Site Plan Review or undertaking any development. **This application will not be accepted without a completed Pre-Screening Form and if required a Service Provider Letter.** Please contact CWS at (503) 681-3600.

If the proposal is next to a Washington County roadway, the applicant must submit an Access Report (Traffic Study) to Washington County Department of Land Use and Transportation (503) 846-8761. **This application will not be accepted until an Access Report (Traffic Study) is submitted to Washington County and the Access Report is deemed complete by the County; or written verification from Washington County that an Access Report is not required is provided.**

-
-
- ✓ I. **Fees** - See City of Sherwood current Fee Schedule, which includes the “Publication/Distribution of Notice” fee, at www.sherwoodoregon.gov. Click on Government/Planning/Planning Fees.

Note: The above fee is required at the time you submit for land use review. Additional fees will be charged for building permit, system development charges, impact fees and other fees applicable to the development. These fees will be charged when you make application for building permit. Building permit application will not be accepted until site plan approval is issued.

- ✓ II. **BACKGROUND INFORMATION** (all materials collated to create 12 sets)

*Note that the *final* application must contain twelve (12) folded sets of the above, however, upon initial submittal of the application and prior to completeness review, the applicant may submit three (3) complete folded sets with the application in lieu of twelve (12), with the understanding that twelve (12) complete sets of the application materials will be required before the application is deemed complete and scheduled for review.

✓ **Application Form** – One original and eleven (11) copies of a completed City of Sherwood Application for Land Use Action form. All owners must sign the application form.

✓ **Documentation of Neighborhood Meeting** - Affidavits of mailing, sign-in sheets and a summary of the meeting notes shall be included with the application.
See Exhibit F

✓ **Tax Map** - Twelve (12) copies of the latest Tax Map available from the Washington County Assessor's Office showing property within at least 300 feet with scale (1"=100' or 1"= 200') north point, date and legend.
See Exhibit J

✓ **Mailing Labels** – Two (2) sets of mailing labels for property owners within 1,000 feet of the subject site, including a map of the area showing the properties to receive notice. Mailing labels can be obtained from a private title insurance company. Ownership records shall be based on the most current available information from the Tax Assessor's office. *It is the applicant's responsibility to provide mailing labels that accurately reflect all property owners that reside within 1,000 feet of the subject site.*
See Exhibit G

✓ **Vicinity Map** – Twelve (12) copies of a vicinity map showing the City limits and the Urban Growth Boundary
See Exhibit A

✓ **Narrative** – Twelve (12) copies and **an electronic copy** of a narrative explaining the proposal in detail and a response to the Findings of Fact for Conditional Use Permit Approval, located in Chapter 16 of the Municipal Code/Zoning & Development, Section 16.82. The Municipal Code/Zoning & Development is available online at www.sherwoodoregon.gov. Click Government/ Municipal Code

✓ **Electronic Copy** – An electronic copy of the entire application packet. This should include all submittal materials (narrative, vicinity map, mailing labels, site plan, preliminary plat, etc.).

III. **REQUIRED PLANS**

Submit twelve (12) sets of the following folded full-size plans and **an electronic copy**. Plans must have:

- 1) The proposed name of the development. If a proposed project name is the same as or similar to other existing projects in the City of Sherwood, the applicant may be required to modify the project name.
- 2) The name, address and phone of the owner, developer, applicant and plan producer.
- 3) North arrow,
- 4) Legend,
- 5) Date plans were prepared and date of any revisions
- 6) Scale clearly shown. Other than architectural elevations, all plans must be drawn to an engineer scale.
- 7) All dimensions clearly shown.

✓ **Existing Conditions Plan** - Existing conditions plan drawn to scale showing: property lines and dimensions, existing structures and other improvements such as streets and utilities, existing vegetation, any floodplains or wetlands and any easements on the property. The existing conditions plan shall also include the slope of the site at 5-foot contour intervals. .

See Exhibit A

Preliminary Development Plans- Plans must be sufficient for the Hearing Authority to determine compliance with applicable standards. The following information is typically needed for adequate review:

1. The subject parcel(s), its dimensions and area.
2. The location and dimensions of proposed development, including the following:

Transportation

- a. Public and private streets with proposed frontage improvements including curb, gutters, sidewalks, planter strip, street lighting, distances to street centerline, pavement width, right-of-way width, bike lanes and driveway drops.
- b. Public and private access easements, width and location.
- c. General circulation plan showing location, widths and direction of existing and proposed streets, bicycle and pedestrian ways and transit routes and facilities.
- d. Show the location and distance to neighboring driveways and the width and locations of driveways located across the street.
- e. The location and size of accesses, sight distance and any fixed objects on collectors or arterial streets.
- f. Emergency accesses.
- g. Indicate the location and size of off-street parking spaces including curbing and wheel stop locations.
- h. Proposed transit facilities.
- i. Indicate loading and maneuvering areas.
- j. Delivery truck and bus circulation patterns.

Grading and Erosion Control

- k. Indicate the proposed grade at two (2)-foot contour intervals.
- l. Indicate the proposed erosion control measures to CWS standards (refer to CWS R&O 07-20).
- m. Show areas of cut and fill with areas of structural fill.
- n. Show the location of all retaining walls, the type of material to be used, the height of the retaining wall from the bottom of the footing to the top of the wall and the exposed height of the wall.

Utilities

- o. Utilities must be shown after proposed grade with 2-foot contour intervals.
- p. Map location, purpose, dimensions and ownership of easements.
- q. Fire hydrant locations and fire flows.
- r. Water, sewer and stormwater line locations, types and sizes.
- s. Clearly indicate the private and public portions of the system.
- t. Above-ground utilities and manhole locations.

Preliminary Stormwater Plan

- u. Show location, size and slope of water quality facility.
- v. Preliminary calculations justifying size of facility.
- w. The total square footage of the new and existing impervious area.
- x. The stormwater facility to CWS standards (CWS R&O 07-20).

Sensitive Areas

- y. Show any and all streams, ponds, wetlands and drainage ways.

- z. Indicate the vegetative corridor for sensitive areas to CWS standards. (CWS R&O 07-20).
- aa. Indicate measures to avoid environmental degradation that meet CWS, DSL and Army Corp requirements.
- bb. Flood elevation.
- cc. Wetland delineation and buffering proposed.
- dd. Location and size of all trees greater than 5 inches DBH (indicate if they are proposed for removal).

Land Use

- ee. The square footage of each building and a breakdown of square footage by use. (i.e. retail, office, industrial, residential, etc.).
- ff. Net buildable acres. (The land remaining after unbuildable areas are taken out, such as the floodplain and wetland areas).
- gg. Net density calculation for residential use.
- hh. Landscaping areas including the square footage of the site covered by landscaping and planting types. (refer to Ch. 5 of the Community Development Code).
- ii. Existing trees proposed to remain and trees to be removed and the drip-lines of trees proposed to remain.
- jj. Street tree location, size and type. (refer to Ch. 8, Section 8.304.06 of the Community Development Code).
- kk. Bicycle parking areas. (Refer to Ch 5 of the Community Development Code).
- ll. On-site pathways and sidewalk locations.
- mm. Structures proposed to be built and structures proposed to remain with their dimensions and the distances to property lines.
- nn. Outdoor storage areas and proposed screening.
- oo. Outdoor sales and merchandise display areas and proposed screening.
- pp. Truck loading and maneuvering areas.
- qq. Number of parking spaces and required parking calculations based on Section 5.302 of the Community Development Code.
- rr. The size and location of solid waste and recycle storage areas and screening.
- ss. Location, size and height of proposed free-standing signs.
- tt. Location, height and type of fencing and walls.
- uu. For each lot indicated the building envelope.

Reduced - Proposed Development Plans – One (1) reduced copies of the Proposed Development Plan on 8 1/2” by 11” sheets and twelve (12) reduced copies on 11” by 17” sheets.

Lighting Plan – Photometric lighting plan indicating foot candle power on and along the perimeter of the site. Proposed locations, height and size of lights. (If outdoor lighting is proposed).

Surrounding Land Uses – Existing land use including nature, size and location of existing structures within 300 feet. A recent air photo may satisfy this requirement if tree coverage does not block the view of buildings and accessory structures. If color is used you may submit a color original and fourteen (14) black and white photocopies. Air photos are available from Metro.

- Architectural Exterior** – Scaled architectural sketches and elevations of all proposed structures. Include a description of materials, textures and colors. Show the size, placement and dimensions of proposed wall signs on the elevation drawings. These drawings can be done at an architectural or engineering scale. If color is used, two color copies and eight black and white copies is acceptable.
[See Exhibit D](#)

IV. DOCUMENTS REQUIRED

- Title Report** – Two (2) copies of a title report available from a private title insurance company.
[See Exhibit C](#)

V. ADDITIONAL DOCUMENTS THAT MAY BE REQUIRED

- N/A **Army Corps and DSL wetland applications and/or permits** – Four (4) copies of required Divisions of State Lands and/or Army Corp of Engineers permits and/or permit applications if applicable.
- CWS Service Provider Letter** – Four (4) copies of the CWS service provider letter if applicable.
[See Exhibit E](#)
- Traffic Study** – Four (4) copies of a traffic study. (If required by the City Engineer).
[See Exhibit L](#)
- Soils Analysis and/or Geotechnical Report** – Four (4) copies completed by a registered Soils Engineer or Geologist including measures to protect natural hazards. (If required by the City Engineer).
- N/A **Tree Report** – Two (2) copies of a tree report prepared by an arborist, forester, landscape architect, botanist or other qualified professional. (If trees are on-site).
- N/A **Natural Resource Assessment** – If required by Clean Water Services (CWS). The CWS Pre-Screening indicates as to whether this report is required or not.
- N/A **Wetland Delineation Study** – if required by Oregon Division of State Lands (DSL) or the Army Corps of Engineers.
- N/A **Other Special Studies and/or Reports** – if required by the Planning Director or the City Engineer to address issues identified in the pre-application meeting or during project review.
- Verification of compliance with other agency standards such as CWS, DSL, Army Corps of Engineers, ODOT, PGE, BPA, Washington County.
[See Exhibit M for TVFR SPL](#)

LOT LINE ADJUSTMENT APPLICATION

APPLICATION MATERIALS
REQUIRED FOR

LOT LINE ADJUSTMENT

Submit the following to the City of Sherwood Planning Department, 22560 SW Pine St., Sherwood, OR 97140: (503) 625-5522.

-
-
- ✓ **Fee** - See City of Sherwood current Fee Schedule, which includes the “Publication/Distribution of Notice” fee, at www.sherwoodoregon.gov. Click on Departments/Planning/Fee Schedule.
 - ✓ **Application Form** – One original and three (3) copies of a completed **City of Sherwood Application for Land Use Action** form. All owners must sign the application form.
See Exhibit B
 - ✓ **Tax Map** - Four (4) copies of the latest Tax Map available from the Washington County Assessors Office.
See Exhibit J
 - ✓ **Narrative** – Four (4) copies of a narrative explaining the proposal in detail.
 - ✓ **Proposed Plan** – Four (4) copies of the proposed plan including the location of the proposed lot line adjustment as well as easements, existing structures, trees, driveways, access points, above and below ground utilities, parking areas, landscaping areas and natural features.
See Exhibit A
 - ✓ **Legal Descriptions** – Four (4) copies of existing and proposed legal descriptions.
See Exhibit Q
 - ✓ **Reduced Copy** – One copy of the proposed lot line adjustment on an 8 ½ by 11 sheet.
See Exhibit Q
 - ✓ **Electronic Copy** - All above materials also submitted in electronic form, either by email to the project manager, or copied to a CD and submitted with above documents.

Exhibit C [UPDATED]: Preliminary Title Report

1433 SW 6th Avenue
(503)646-4444

OWNERSHIP AND ENCUMBRANCES REPORT WITH GENERAL INDEX LIENS
Informational Report of Ownership and Monetary and Non-Monetary Encumbrances

To ("Customer"): Matt Langer
28185 SW Heater Road
Sherwood, OR 97140

Customer Ref.: _____
Order No.: 472522002736
Effective Date: May 4, 2022 at 08:00 AM
Charge: \$350.00

The information contained in this report is furnished by Chicago Title Company of Oregon (the "Company") as a real property information service based on the records and indices maintained by the Company for the county identified below. THIS IS NOT TITLE INSURANCE OR A PRELIMINARY TITLE REPORT FOR, OR COMMITMENT FOR, TITLE INSURANCE. No examination has been made of the title to the herein described property, other than as specifically set forth herein. Liability for any loss arising from errors and/or omissions is limited to the lesser of the charge or the actual loss, and the Company will have no greater liability by reason of this report. THIS REPORT IS SUBJECT TO THE LIMITATIONS OF LIABILITY STATED BELOW, WHICH LIMITATIONS OF LIABILITY ARE A PART OF THIS REPORT.

THIS REPORT INCLUDES MONETARY AND NON-MONETARY ENCUMBRANCES.

Part One - Ownership and Property Description

Owner. [The apparent vested owner](#) of property ("the Property") as of the Effective Date is:

Langer Parkway South LLC, an Oregon limited liability company

Premises. The Property is:

(a) Street Address:

No Situs (Lot 1 Parkway Village South), Sherwood, OR 97140

(b) Legal Description:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

Part Two - Encumbrances

Encumbrances. As of the Effective Date, the Property appears subject to the following monetary and non-monetary encumbrances of record, not necessarily listed in order of priority, including liens specific to the subject property and general index liens (liens that are not property specific but affect any real property of the named person in the same county):

EXCEPTIONS

SPECIFIC ITEMS AND EXCEPTIONS:

1. City Liens, if any, in favor of the City of Sherwood.
2. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: City of Sherwood
Purpose: Public utilities
Recording Date: April 22, 2011
[Recording No: 2011-030292](#)
Affects: 8.0 feet along street frontage
(Also delineated on the recorded plat)
3. Restrictions, but omitting restrictions, if any, based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said restriction is permitted by applicable law, as shown on that certain plat

[Name of Plat: Langer Farms](#)
Recording Date: March 21, 2013
Recording No: 2013-025409
4. Restrictions, but omitting restrictions, if any, based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said restriction is permitted by applicable law, as shown on that certain plat

[Name of Plat: Partition Plat No. 2017-019](#)
Recording Date: June 27, 2017
Recording No: 2017-050998
5. Building Setback Covenant and Agreement, including the terms and provisions thereof,

Recording Date: July 19, 2017
[Recording No.: 2017-056720](#)
6. Restrictions, but omitting restrictions, if any, based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said restriction is permitted by applicable law, as shown on that certain plat

[Name of Plat: Parkway Village South](#)
Recording Date: June 5, 2019
Recording No: 2019-034798
7. Easement(s) for the purpose(s) shown below and rights incidental thereto as delineated or as offered for dedication, on the map of said tract/plat;

Purpose: Sanitary sewer and storm drainage
Affects: Multiple locations - See plat for specifics

Purpose: Private waterline easement for the benefit of Lots 1 and 2
Affects: A strip 10.00 feet in width, as shown on plat

Purpose: Public utility
Affects: 8 feet along the North lot line

8. Covenants, conditions and restrictions but omitting any covenants or restrictions, if any, including but not limited to those based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, source of income, gender, gender identity, gender expression, medical condition or genetic information, as set forth in applicable state or federal laws, except to the extent that said covenant or restriction is permitted by applicable law, as set forth in the document

Recording Date: June 24, 2019
[Recording No: 2019-039827](#)

NOTE: The above document includes provisions for payment of Common Facilities Costs to the Manager, as defined in said document.

9. Existing leases and tenancies, if any.
10. We find no Notice of Completion recorded on said Land.
11. Please be advised that our search did not disclose any open Deeds of Trust of record.
12. The Oregon Corporation Commission records show that as of May 13, 2022 , Langer Parkway South, LLC is an active Oregon limited liability company and is currently in good standing.

Note: Property taxes for the fiscal year shown below are paid in full.

Fiscal Year: 2021-22
Amount: \$14,457.64
Levy Code: 088.10
[Account No.: R2211558](#)
Map No.: 2S129DC 01100

LIMITATIONS OF LIABILITY

"CUSTOMER" REFERS TO THE RECIPIENT OF THIS REPORT.

CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES THAT IT IS EXTREMELY DIFFICULT, IF NOT IMPOSSIBLE, TO DETERMINE THE EXTENT OF LOSS WHICH COULD ARISE FROM ERRORS OR OMISSIONS IN, OR THE COMPANY'S NEGLIGENCE IN PRODUCING, THE REQUESTED REPORT, HEREIN "THE REPORT." CUSTOMER RECOGNIZES THAT THE FEE CHARGED IS NOMINAL IN RELATION TO THE POTENTIAL LIABILITY WHICH COULD ARISE FROM SUCH ERRORS OR OMISSIONS OR NEGLIGENCE. THEREFORE, CUSTOMER UNDERSTANDS THAT THE COMPANY IS NOT WILLING TO PROCEED IN THE PREPARATION AND ISSUANCE OF THE REPORT UNLESS THE COMPANY'S LIABILITY IS STRICTLY LIMITED. CUSTOMER AGREES WITH THE PROPRIETY OF SUCH LIMITATION AND AGREES TO BE BOUND BY ITS TERMS

THE LIMITATIONS ARE AS FOLLOWS AND THE LIMITATIONS WILL SURVIVE THE CONTRACT:

ONLY MATTERS IDENTIFIED IN THIS REPORT AS THE SUBJECT OF THE REPORT ARE WITHIN ITS SCOPE. ALL OTHER MATTERS ARE OUTSIDE THE SCOPE OF THE REPORT.

CUSTOMER AGREES, AS PART OF THE CONSIDERATION FOR THE ISSUANCE OF THE REPORT AND TO THE FULLEST EXTENT PERMITTED BY LAW, TO LIMIT THE LIABILITY OF THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS FOR ANY AND ALL CLAIMS, LIABILITIES, CAUSES OF ACTION, LOSSES, COSTS, DAMAGES AND EXPENSES OF ANY NATURE WHATSOEVER, INCLUDING ATTORNEY'S FEES, HOWEVER ALLEGED OR ARISING, INCLUDING BUT NOT LIMITED TO THOSE ARISING FROM BREACH OF CONTRACT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF WARRANTY, EQUITY, THE COMMON LAW, STATUTE OR ANY OTHER THEORY OF RECOVERY, OR FROM ANY PERSON'S USE, MISUSE, OR INABILITY TO USE THE REPORT OR ANY OF THE MATERIALS CONTAINED THEREIN OR PRODUCED, **SO THAT THE TOTAL AGGREGATE LIABILITY OF THE COMPANY AND ITS AGENTS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS SHALL NOT IN ANY EVENT EXCEED THE COMPANY'S TOTAL FEE FOR THE REPORT.**

CUSTOMER AGREES THAT THE FOREGOING LIMITATION ON LIABILITY IS A TERM MATERIAL TO THE PRICE THE CUSTOMER IS PAYING, WHICH PRICE IS LOWER THAN WOULD OTHERWISE BE OFFERED TO THE CUSTOMER WITHOUT SAID TERM. CUSTOMER RECOGNIZES THAT THE COMPANY WOULD NOT ISSUE THE REPORT BUT FOR THIS CUSTOMER AGREEMENT, AS PART OF THE CONSIDERATION GIVEN FOR THE REPORT, TO THE FOREGOING LIMITATION OF LIABILITY AND THAT ANY SUCH LIABILITY IS CONDITIONED AND PREDICATED UPON THE FULL AND TIMELY PAYMENT OF THE COMPANY'S INVOICE FOR THE REPORT.

THE REPORT IS LIMITED IN SCOPE AND IS NOT AN ABSTRACT OF TITLE, TITLE OPINION, PRELIMINARY TITLE REPORT, TITLE REPORT, COMMITMENT TO ISSUE TITLE INSURANCE, OR A TITLE POLICY, AND SHOULD NOT BE RELIED UPON AS SUCH. THE REPORT DOES NOT PROVIDE OR OFFER ANY TITLE INSURANCE, LIABILITY COVERAGE OR ERRORS AND OMISSIONS COVERAGE. THE REPORT IS NOT TO BE RELIED UPON AS A REPRESENTATION OF THE STATUS OF TITLE TO THE PROPERTY. THE COMPANY MAKES NO REPRESENTATIONS AS TO THE REPORT'S ACCURACY, DISCLAIMS ANY WARRANTY AS TO THE REPORT, ASSUMES NO DUTIES TO CUSTOMER, DOES NOT INTEND FOR CUSTOMER TO RELY ON THE REPORT, AND ASSUMES NO LIABILITY FOR ANY LOSS OCCURRING BY REASON OF RELIANCE ON THE REPORT OR OTHERWISE.

IF CUSTOMER (A) HAS OR WILL HAVE AN INSURABLE INTEREST IN THE SUBJECT REAL PROPERTY, (B) DOES NOT WISH TO LIMIT LIABILITY AS STATED HEREIN AND (C) DESIRES THAT ADDITIONAL LIABILITY BE ASSUMED BY THE COMPANY, THEN CUSTOMER MAY REQUEST AND PURCHASE A POLICY OF TITLE INSURANCE, A BINDER, OR A COMMITMENT TO ISSUE A POLICY OF TITLE INSURANCE. NO ASSURANCE IS GIVEN AS TO THE INSURABILITY OF THE TITLE OR STATUS OF TITLE. CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES IT HAS AN INDEPENDENT DUTY TO ENSURE AND/OR RESEARCH THE ACCURACY OF ANY INFORMATION OBTAINED FROM THE COMPANY OR ANY PRODUCT OR SERVICE PURCHASED.

NO THIRD PARTY IS PERMITTED TO USE OR RELY UPON THE INFORMATION SET FORTH IN THE REPORT, AND NO LIABILITY TO ANY THIRD PARTY IS UNDERTAKEN BY THE COMPANY.

CUSTOMER AGREES THAT, TO THE FULLEST EXTENT PERMITTED BY LAW, IN NO EVENT WILL THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS, AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES AND SUBCONTRACTORS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, PUNITIVE, EXEMPLARY, OR SPECIAL DAMAGES, OR LOSS OF PROFITS, REVENUE, INCOME, SAVINGS, DATA, BUSINESS, OPPORTUNITY, OR GOODWILL, PAIN AND SUFFERING, EMOTIONAL DISTRESS, NON-OPERATION OR INCREASED EXPENSE OF OPERATION, BUSINESS INTERRUPTION OR DELAY, COST OF CAPITAL, OR COST OF REPLACEMENT PRODUCTS OR SERVICES, REGARDLESS OF WHETHER SUCH LIABILITY IS BASED ON BREACH OF CONTRACT, TORT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTIES, FAILURE OF ESSENTIAL PURPOSE, OR OTHERWISE AND WHETHER CAUSED BY NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF CONTRACT, BREACH OF WARRANTY, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE OR ANY OTHER CAUSE WHATSOEVER, AND EVEN IF THE COMPANY HAS BEEN ADVISED OF THE LIKELIHOOD OF SUCH DAMAGES OR KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY FOR SUCH DAMAGES.

[Legal Description](#)

Lot 2, PARKWAY VILLAGE SOUTH, City of Sherwood, Washington County, Oregon, recorded June 5, 2019, as Document No. 2019-034798

LIMITATIONS OF LIABILITY

"CUSTOMER" REFERS TO THE RECIPIENT OF THIS REPORT.

CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES THAT IT IS EXTREMELY DIFFICULT, IF NOT IMPOSSIBLE, TO DETERMINE THE EXTENT OF LOSS WHICH COULD ARISE FROM ERRORS OR OMISSIONS IN, OR THE COMPANY'S NEGLIGENCE IN PRODUCING, THE REQUESTED REPORT, HEREIN "THE REPORT." CUSTOMER RECOGNIZES THAT THE FEE CHARGED IS NOMINAL IN RELATION TO THE POTENTIAL LIABILITY WHICH COULD ARISE FROM SUCH ERRORS OR OMISSIONS OR NEGLIGENCE. THEREFORE, CUSTOMER UNDERSTANDS THAT THE COMPANY IS NOT WILLING TO PROCEED IN THE PREPARATION AND ISSUANCE OF THE REPORT UNLESS THE COMPANY'S LIABILITY IS STRICTLY LIMITED. CUSTOMER AGREES WITH THE PROPRIETY OF SUCH LIMITATION AND AGREES TO BE BOUND BY ITS TERMS

THE LIMITATIONS ARE AS FOLLOWS AND THE LIMITATIONS WILL SURVIVE THE CONTRACT:

ONLY MATTERS IDENTIFIED IN THIS REPORT AS THE SUBJECT OF THE REPORT ARE WITHIN ITS SCOPE. ALL OTHER MATTERS ARE OUTSIDE THE SCOPE OF THE REPORT.

CUSTOMER AGREES, AS PART OF THE CONSIDERATION FOR THE ISSUANCE OF THE REPORT AND TO THE FULLEST EXTENT PERMITTED BY LAW, TO LIMIT THE LIABILITY OF THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS FOR ANY AND ALL CLAIMS, LIABILITIES, CAUSES OF ACTION, LOSSES, COSTS, DAMAGES AND EXPENSES OF ANY NATURE WHATSOEVER, INCLUDING ATTORNEY'S FEES, HOWEVER ALLEGED OR ARISING, INCLUDING BUT NOT LIMITED TO THOSE ARISING FROM BREACH OF CONTRACT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF WARRANTY, EQUITY, THE COMMON LAW, STATUTE OR ANY OTHER THEORY OF RECOVERY, OR FROM ANY PERSON'S USE, MISUSE, OR INABILITY TO USE THE REPORT OR ANY OF THE MATERIALS CONTAINED THEREIN OR PRODUCED, **SO THAT THE TOTAL AGGREGATE LIABILITY OF THE COMPANY AND ITS AGENTS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS SHALL NOT IN ANY EVENT EXCEED THE COMPANY'S TOTAL FEE FOR THE REPORT.**

CUSTOMER AGREES THAT THE FOREGOING LIMITATION ON LIABILITY IS A TERM MATERIAL TO THE PRICE THE CUSTOMER IS PAYING, WHICH PRICE IS LOWER THAN WOULD OTHERWISE BE OFFERED TO THE CUSTOMER WITHOUT SAID TERM. CUSTOMER RECOGNIZES THAT THE COMPANY WOULD NOT ISSUE THE REPORT BUT FOR THIS CUSTOMER AGREEMENT, AS PART OF THE CONSIDERATION GIVEN FOR THE REPORT, TO THE FOREGOING LIMITATION OF LIABILITY AND THAT ANY SUCH LIABILITY IS CONDITIONED AND PREDICATED UPON THE FULL AND TIMELY PAYMENT OF THE COMPANY'S INVOICE FOR THE REPORT.

THE REPORT IS LIMITED IN SCOPE AND IS NOT AN ABSTRACT OF TITLE, TITLE OPINION, PRELIMINARY TITLE REPORT, TITLE REPORT, COMMITMENT TO ISSUE TITLE INSURANCE, OR A TITLE POLICY, AND SHOULD NOT BE RELIED UPON AS SUCH. THE REPORT DOES NOT PROVIDE OR OFFER ANY TITLE INSURANCE, LIABILITY COVERAGE OR ERRORS AND OMISSIONS COVERAGE. THE REPORT IS NOT TO BE RELIED UPON AS A REPRESENTATION OF THE STATUS OF TITLE TO THE PROPERTY. THE COMPANY MAKES NO REPRESENTATIONS AS TO THE REPORT'S ACCURACY, DISCLAIMS ANY WARRANTY AS TO THE REPORT, ASSUMES NO DUTIES TO CUSTOMER, DOES NOT INTEND FOR CUSTOMER TO RELY ON THE REPORT, AND ASSUMES NO LIABILITY FOR ANY LOSS OCCURRING BY REASON OF RELIANCE ON THE REPORT OR OTHERWISE.

IF CUSTOMER (A) HAS OR WILL HAVE AN INSURABLE INTEREST IN THE SUBJECT REAL PROPERTY, (B) DOES NOT WISH TO LIMIT LIABILITY AS STATED HEREIN AND (C) DESIRES THAT ADDITIONAL LIABILITY BE ASSUMED BY THE COMPANY, THEN CUSTOMER MAY REQUEST AND PURCHASE A POLICY OF TITLE INSURANCE, A BINDER, OR A COMMITMENT TO ISSUE A POLICY OF TITLE INSURANCE. NO ASSURANCE IS GIVEN AS TO THE INSURABILITY OF THE TITLE OR STATUS OF TITLE. CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES IT HAS AN INDEPENDENT DUTY TO ENSURE AND/OR RESEARCH THE ACCURACY OF ANY INFORMATION OBTAINED FROM THE COMPANY OR ANY PRODUCT OR SERVICE PURCHASED.

NO THIRD PARTY IS PERMITTED TO USE OR RELY UPON THE INFORMATION SET FORTH IN THE REPORT, AND NO LIABILITY TO ANY THIRD PARTY IS UNDERTAKEN BY THE COMPANY.

CUSTOMER AGREES THAT, TO THE FULLEST EXTENT PERMITTED BY LAW, IN NO EVENT WILL THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS, AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES AND SUBCONTRACTORS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, PUNITIVE, EXEMPLARY, OR SPECIAL DAMAGES, OR LOSS OF PROFITS, REVENUE, INCOME, SAVINGS, DATA, BUSINESS, OPPORTUNITY, OR GOODWILL, PAIN AND SUFFERING, EMOTIONAL DISTRESS, NON-OPERATION OR INCREASED EXPENSE OF OPERATION, BUSINESS INTERRUPTION OR DELAY, COST OF CAPITAL, OR COST OF REPLACEMENT PRODUCTS OR SERVICES, REGARDLESS OF WHETHER SUCH LIABILITY IS BASED ON BREACH OF CONTRACT, TORT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTIES, FAILURE OF ESSENTIAL PURPOSE, OR OTHERWISE AND WHETHER CAUSED BY NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF CONTRACT, BREACH OF WARRANTY, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE OR ANY OTHER CAUSE WHATSOEVER, AND EVEN IF THE COMPANY HAS BEEN ADVISED OF THE LIKELIHOOD OF SUCH DAMAGES OR KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY FOR SUCH DAMAGES.

LIMITATIONS OF LIABILITY

"CUSTOMER" REFERS TO THE RECIPIENT OF THIS REPORT.

CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES THAT IT IS EXTREMELY DIFFICULT, IF NOT IMPOSSIBLE, TO DETERMINE THE EXTENT OF LOSS WHICH COULD ARISE FROM ERRORS OR OMISSIONS IN, OR THE COMPANY'S NEGLIGENCE IN PRODUCING, THE REQUESTED REPORT, HEREIN "THE REPORT." CUSTOMER RECOGNIZES THAT THE FEE CHARGED IS NOMINAL IN RELATION TO THE POTENTIAL LIABILITY WHICH COULD ARISE FROM SUCH ERRORS OR OMISSIONS OR NEGLIGENCE. THEREFORE, CUSTOMER UNDERSTANDS THAT THE COMPANY IS NOT WILLING TO PROCEED IN THE PREPARATION AND ISSUANCE OF THE REPORT UNLESS THE COMPANY'S LIABILITY IS STRICTLY LIMITED. CUSTOMER AGREES WITH THE PROPRIETY OF SUCH LIMITATION AND AGREES TO BE BOUND BY ITS TERMS

THE LIMITATIONS ARE AS FOLLOWS AND THE LIMITATIONS WILL SURVIVE THE CONTRACT:

ONLY MATTERS IDENTIFIED IN THIS REPORT AS THE SUBJECT OF THE REPORT ARE WITHIN ITS SCOPE. ALL OTHER MATTERS ARE OUTSIDE THE SCOPE OF THE REPORT.

CUSTOMER AGREES, AS PART OF THE CONSIDERATION FOR THE ISSUANCE OF THE REPORT AND TO THE FULLEST EXTENT PERMITTED BY LAW, TO LIMIT THE LIABILITY OF THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS FOR ANY AND ALL CLAIMS, LIABILITIES, CAUSES OF ACTION, LOSSES, COSTS, DAMAGES AND EXPENSES OF ANY NATURE WHATSOEVER, INCLUDING ATTORNEY'S FEES, HOWEVER ALLEGED OR ARISING, INCLUDING BUT NOT LIMITED TO THOSE ARISING FROM BREACH OF CONTRACT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF WARRANTY, EQUITY, THE COMMON LAW, STATUTE OR ANY OTHER THEORY OF RECOVERY, OR FROM ANY PERSON'S USE, MISUSE, OR INABILITY TO USE THE REPORT OR ANY OF THE MATERIALS CONTAINED THEREIN OR PRODUCED, **SO THAT THE TOTAL AGGREGATE LIABILITY OF THE COMPANY AND ITS AGENTS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS SHALL NOT IN ANY EVENT EXCEED THE COMPANY'S TOTAL FEE FOR THE REPORT.**

CUSTOMER AGREES THAT THE FOREGOING LIMITATION ON LIABILITY IS A TERM MATERIAL TO THE PRICE THE CUSTOMER IS PAYING, WHICH PRICE IS LOWER THAN WOULD OTHERWISE BE OFFERED TO THE CUSTOMER WITHOUT SAID TERM. CUSTOMER RECOGNIZES THAT THE COMPANY WOULD NOT ISSUE THE REPORT BUT FOR THIS CUSTOMER AGREEMENT, AS PART OF THE CONSIDERATION GIVEN FOR THE REPORT, TO THE FOREGOING LIMITATION OF LIABILITY AND THAT ANY SUCH LIABILITY IS CONDITIONED AND PREDICATED UPON THE FULL AND TIMELY PAYMENT OF THE COMPANY'S INVOICE FOR THE REPORT.

THE REPORT IS LIMITED IN SCOPE AND IS NOT AN ABSTRACT OF TITLE, TITLE OPINION, PRELIMINARY TITLE REPORT, TITLE REPORT, COMMITMENT TO ISSUE TITLE INSURANCE, OR A TITLE POLICY, AND SHOULD NOT BE RELIED UPON AS SUCH. THE REPORT DOES NOT PROVIDE OR OFFER ANY TITLE INSURANCE, LIABILITY COVERAGE OR ERRORS AND OMISSIONS COVERAGE. THE REPORT IS NOT TO BE RELIED UPON AS A REPRESENTATION OF THE STATUS OF TITLE TO THE PROPERTY. THE COMPANY MAKES NO REPRESENTATIONS AS TO THE REPORT'S ACCURACY, DISCLAIMS ANY WARRANTY AS TO THE REPORT, ASSUMES NO DUTIES TO CUSTOMER, DOES NOT INTEND FOR CUSTOMER TO RELY ON THE REPORT, AND ASSUMES NO LIABILITY FOR ANY LOSS OCCURRING BY REASON OF RELIANCE ON THE REPORT OR OTHERWISE.

IF CUSTOMER (A) HAS OR WILL HAVE AN INSURABLE INTEREST IN THE SUBJECT REAL PROPERTY, (B) DOES NOT WISH TO LIMIT LIABILITY AS STATED HEREIN AND (C) DESIRES THAT ADDITIONAL LIABILITY BE ASSUMED BY THE COMPANY, THEN CUSTOMER MAY REQUEST AND PURCHASE A POLICY OF TITLE INSURANCE, A BINDER, OR A COMMITMENT TO ISSUE A POLICY OF TITLE INSURANCE. NO ASSURANCE IS GIVEN AS TO THE INSURABILITY OF THE TITLE OR STATUS OF TITLE. CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES IT HAS AN INDEPENDENT DUTY TO ENSURE AND/OR RESEARCH THE ACCURACY OF ANY INFORMATION OBTAINED FROM THE COMPANY OR ANY PRODUCT OR SERVICE PURCHASED.

NO THIRD PARTY IS PERMITTED TO USE OR RELY UPON THE INFORMATION SET FORTH IN THE REPORT, AND NO LIABILITY TO ANY THIRD PARTY IS UNDERTAKEN BY THE COMPANY.

CUSTOMER AGREES THAT, TO THE FULLEST EXTENT PERMITTED BY LAW, IN NO EVENT WILL THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS, AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES AND SUBCONTRACTORS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, PUNITIVE, EXEMPLARY, OR SPECIAL DAMAGES, OR LOSS OF PROFITS, REVENUE, INCOME, SAVINGS, DATA, BUSINESS, OPPORTUNITY, OR GOODWILL, PAIN AND SUFFERING, EMOTIONAL DISTRESS, NON-OPERATION OR INCREASED EXPENSE OF OPERATION, BUSINESS INTERRUPTION OR DELAY, COST OF CAPITAL, OR COST OF REPLACEMENT PRODUCTS OR SERVICES, REGARDLESS OF WHETHER SUCH LIABILITY IS BASED ON BREACH OF CONTRACT, TORT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTIES, FAILURE OF ESSENTIAL PURPOSE, OR OTHERWISE AND WHETHER CAUSED BY NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF CONTRACT, BREACH OF WARRANTY, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE OR ANY OTHER CAUSE WHATSOEVER, AND EVEN IF THE COMPANY HAS BEEN ADVISED OF THE LIKELIHOOD OF SUCH DAMAGES OR KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY FOR SUCH DAMAGES.

LIMITATIONS OF LIABILITY

"CUSTOMER" REFERS TO THE RECIPIENT OF THIS REPORT.

CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES THAT IT IS EXTREMELY DIFFICULT, IF NOT IMPOSSIBLE, TO DETERMINE THE EXTENT OF LOSS WHICH COULD ARISE FROM ERRORS OR OMISSIONS IN, OR THE COMPANY'S NEGLIGENCE IN PRODUCING, THE REQUESTED REPORT, HEREIN "THE REPORT." CUSTOMER RECOGNIZES THAT THE FEE CHARGED IS NOMINAL IN RELATION TO THE POTENTIAL LIABILITY WHICH COULD ARISE FROM SUCH ERRORS OR OMISSIONS OR NEGLIGENCE. THEREFORE, CUSTOMER UNDERSTANDS THAT THE COMPANY IS NOT WILLING TO PROCEED IN THE PREPARATION AND ISSUANCE OF THE REPORT UNLESS THE COMPANY'S LIABILITY IS STRICTLY LIMITED. CUSTOMER AGREES WITH THE PROPRIETY OF SUCH LIMITATION AND AGREES TO BE BOUND BY ITS TERMS

THE LIMITATIONS ARE AS FOLLOWS AND THE LIMITATIONS WILL SURVIVE THE CONTRACT:

ONLY MATTERS IDENTIFIED IN THIS REPORT AS THE SUBJECT OF THE REPORT ARE WITHIN ITS SCOPE. ALL OTHER MATTERS ARE OUTSIDE THE SCOPE OF THE REPORT.

CUSTOMER AGREES, AS PART OF THE CONSIDERATION FOR THE ISSUANCE OF THE REPORT AND TO THE FULLEST EXTENT PERMITTED BY LAW, TO LIMIT THE LIABILITY OF THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS FOR ANY AND ALL CLAIMS, LIABILITIES, CAUSES OF ACTION, LOSSES, COSTS, DAMAGES AND EXPENSES OF ANY NATURE WHATSOEVER, INCLUDING ATTORNEY'S FEES, HOWEVER ALLEGED OR ARISING, INCLUDING BUT NOT LIMITED TO THOSE ARISING FROM BREACH OF CONTRACT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF WARRANTY, EQUITY, THE COMMON LAW, STATUTE OR ANY OTHER THEORY OF RECOVERY, OR FROM ANY PERSON'S USE, MISUSE, OR INABILITY TO USE THE REPORT OR ANY OF THE MATERIALS CONTAINED THEREIN OR PRODUCED, **SO THAT THE TOTAL AGGREGATE LIABILITY OF THE COMPANY AND ITS AGENTS, SUBSIDIARIES, AFFILIATES, EMPLOYEES, AND SUBCONTRACTORS SHALL NOT IN ANY EVENT EXCEED THE COMPANY'S TOTAL FEE FOR THE REPORT.**

CUSTOMER AGREES THAT THE FOREGOING LIMITATION ON LIABILITY IS A TERM MATERIAL TO THE PRICE THE CUSTOMER IS PAYING, WHICH PRICE IS LOWER THAN WOULD OTHERWISE BE OFFERED TO THE CUSTOMER WITHOUT SAID TERM. CUSTOMER RECOGNIZES THAT THE COMPANY WOULD NOT ISSUE THE REPORT BUT FOR THIS CUSTOMER AGREEMENT, AS PART OF THE CONSIDERATION GIVEN FOR THE REPORT, TO THE FOREGOING LIMITATION OF LIABILITY AND THAT ANY SUCH LIABILITY IS CONDITIONED AND PREDICATED UPON THE FULL AND TIMELY PAYMENT OF THE COMPANY'S INVOICE FOR THE REPORT.

THE REPORT IS LIMITED IN SCOPE AND IS NOT AN ABSTRACT OF TITLE, TITLE OPINION, PRELIMINARY TITLE REPORT, TITLE REPORT, COMMITMENT TO ISSUE TITLE INSURANCE, OR A TITLE POLICY, AND SHOULD NOT BE RELIED UPON AS SUCH. THE REPORT DOES NOT PROVIDE OR OFFER ANY TITLE INSURANCE, LIABILITY COVERAGE OR ERRORS AND OMISSIONS COVERAGE. THE REPORT IS NOT TO BE RELIED UPON AS A REPRESENTATION OF THE STATUS OF TITLE TO THE PROPERTY. THE COMPANY MAKES NO REPRESENTATIONS AS TO THE REPORT'S ACCURACY, DISCLAIMS ANY WARRANTY AS TO THE REPORT, ASSUMES NO DUTIES TO CUSTOMER, DOES NOT INTEND FOR CUSTOMER TO RELY ON THE REPORT, AND ASSUMES NO LIABILITY FOR ANY LOSS OCCURRING BY REASON OF RELIANCE ON THE REPORT OR OTHERWISE.

IF CUSTOMER (A) HAS OR WILL HAVE AN INSURABLE INTEREST IN THE SUBJECT REAL PROPERTY, (B) DOES NOT WISH TO LIMIT LIABILITY AS STATED HEREIN AND (C) DESIRES THAT ADDITIONAL LIABILITY BE ASSUMED BY THE COMPANY, THEN CUSTOMER MAY REQUEST AND PURCHASE A POLICY OF TITLE INSURANCE, A BINDER, OR A COMMITMENT TO ISSUE A POLICY OF TITLE INSURANCE. NO ASSURANCE IS GIVEN AS TO THE INSURABILITY OF THE TITLE OR STATUS OF TITLE. CUSTOMER EXPRESSLY AGREES AND ACKNOWLEDGES IT HAS AN INDEPENDENT DUTY TO ENSURE AND/OR RESEARCH THE ACCURACY OF ANY INFORMATION OBTAINED FROM THE COMPANY OR ANY PRODUCT OR SERVICE PURCHASED.

NO THIRD PARTY IS PERMITTED TO USE OR RELY UPON THE INFORMATION SET FORTH IN THE REPORT, AND NO LIABILITY TO ANY THIRD PARTY IS UNDERTAKEN BY THE COMPANY.

CUSTOMER AGREES THAT, TO THE FULLEST EXTENT PERMITTED BY LAW, IN NO EVENT WILL THE COMPANY, ITS LICENSORS, AGENTS, SUPPLIERS, RESELLERS, SERVICE PROVIDERS, CONTENT PROVIDERS, AND ALL OTHER SUBSCRIBERS OR SUPPLIERS, SUBSIDIARIES, AFFILIATES, EMPLOYEES AND SUBCONTRACTORS BE LIABLE FOR CONSEQUENTIAL, INCIDENTAL, INDIRECT, PUNITIVE, EXEMPLARY, OR SPECIAL DAMAGES, OR LOSS OF PROFITS, REVENUE, INCOME, SAVINGS, DATA, BUSINESS, OPPORTUNITY, OR GOODWILL, PAIN AND SUFFERING, EMOTIONAL DISTRESS, NON-OPERATION OR INCREASED EXPENSE OF OPERATION, BUSINESS INTERRUPTION OR DELAY, COST OF CAPITAL, OR COST OF REPLACEMENT PRODUCTS OR SERVICES, REGARDLESS OF WHETHER SUCH LIABILITY IS BASED ON BREACH OF CONTRACT, TORT, NEGLIGENCE, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTIES, FAILURE OF ESSENTIAL PURPOSE, OR OTHERWISE AND WHETHER CAUSED BY NEGLIGENCE, ERRORS, OMISSIONS, STRICT LIABILITY, BREACH OF CONTRACT, BREACH OF WARRANTY, THE COMPANY'S OWN FAULT AND/OR NEGLIGENCE OR ANY OTHER CAUSE WHATSOEVER, AND EVEN IF THE COMPANY HAS BEEN ADVISED OF THE LIKELIHOOD OF SUCH DAMAGES OR KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY FOR SUCH DAMAGES.

OWNERSHIP AND ENCUMBRANCES REPORT WITH GENERAL INDEX LIENS
Informational Report of Ownership and Monetary and Non-Monetary Encumbrances

To ("Customer"): Matt Langer
28185 SW Heater Road
Sherwood, OR 97140

Customer Ref.: _____
Order No.: 472522002743
Effective Date: May 4, 2022 at 08:00 AM
Charge: \$350.00

The information contained in this report is furnished by Chicago Title Company of Oregon (the "Company") as a real property information service based on the records and indices maintained by the Company for the county identified below. THIS IS NOT TITLE INSURANCE OR A PRELIMINARY TITLE REPORT FOR, OR COMMITMENT FOR, TITLE INSURANCE. No examination has been made of the title to the herein described property, other than as specifically set forth herein. Liability for any loss arising from errors and/or omissions is limited to the lesser of the charge or the actual loss, and the Company will have no greater liability by reason of this report. THIS REPORT IS SUBJECT TO THE LIMITATIONS OF LIABILITY STATED BELOW, WHICH LIMITATIONS OF LIABILITY ARE A PART OF THIS REPORT.

THIS REPORT INCLUDES MONETARY AND NON-MONETARY ENCUMBRANCES.

Part One - Ownership and Property Description

Owner. [The apparent vested owner](#) of property ("the Property") as of the Effective Date is:

Langer Parkway South LLC, an Oregon limited liability company

Premises. The Property is:

(a) Street Address:

No Situs (Lot 5, Parkway Village South), Sherwood, OR 97140

(b) Legal Description:

SEE EXHIBIT "A" ATTACHED HERETO AND MADE A PART HEREOF

Part Two - Encumbrances

Encumbrances. As of the Effective Date, the Property appears subject to the following monetary and non-monetary encumbrances of record, not necessarily listed in order of priority, including liens specific to the subject property and general index liens (liens that are not property specific but affect any real property of the named person in the same county):

EXCEPTIONS

SPECIFIC ITEMS AND EXCEPTIONS:

1. City Liens, if any, in favor of the City of Sherwood.
2. Easement(s) for the purpose(s) shown below and rights incidental thereto, as granted in a document:

Granted to: City of Sherwood
Purpose: Public utilities
Recording Date: April 22, 2011
[Recording No: 2011-030292](#)
Affects: 8.0 feet along street frontage
3. Restrictions, but omitting restrictions, if any, based upon race, color, religion, sex, sexual orientation, familial status, marital status, disability, handicap, national origin, ancestry, or source of income, as set forth in applicable state or federal laws, except to the extent that said restriction is permitted by applicable law, as shown on that certain plat

**AMENDED AND RESTATED
DECLARATION OF EASEMENTS AND RESTRICTIONS
FOR
PARKWAY VILLAGE SOUTH**

THIS AMENDED AND RESTATED DECLARATION OF EASEMENTS AND RESTRICTIONS FOR PARKWAY VILLAGE SOUTH ("Declaration") is made as of June 18, 2019, by LANGER PARKWAY SOUTH LLC, an Oregon limited liability company ("Declarant"). This Declaration is a complete amendment and restatement of the Declaration of Easements and Restrictions for Parkway Village South dated May 14, 2019, and recorded in the land records of Washington County, Oregon, on June 5, 2019, as document number 2019-034799.

Recitals

- A. Declarant is the owner of real property located in Sherwood, Washington County, Oregon, legally described on Exhibit A attached hereto and incorporated by this reference ("Retail Center Land"). The Retail Center (defined below) shall consist of the lots, building, and improvements shown on the sketch on the Site Plan (defined below) and as further illustrated on the plat attached hereto as Exhibits B and C, respectively, and incorporated by this reference. Declarant plans to develop and build the Retail Center described herein on the Retail Center Land. In connection therewith, Declarant intends to develop Lot 3 as an entertainment center and parking as shown on the Site Plan.
- B. Declarant desires to restrict the Retail Center in accordance with the terms and provisions of this Declaration in order to provide for (a) the orderly development and operation of the Retail Center, (b) the construction of compatible improvements in the Retail Center, (c) common easements for ingress and egress of pedestrian and vehicular traffic, (d) reciprocal parking rights, (e) procedures for the maintenance of the Retail Center, and (f) such other matters as are provided herein.

Declaration

NOW, THEREFORE, in consideration of the foregoing recitals, which are hereby incorporated into this Declaration, Declarant declares that the Retail Center Land shall be held, transferred, sold, conveyed, and occupied subject to the following covenants, conditions, restrictions, easements, charges, and liens, which

shall run with the land and shall be binding upon all parties having or acquiring any right, title, or interest in the Retail Center Land or any part thereof, all of which shall inure to the benefit of each Owner:

1. DEFINITIONS

- 1.1 "Approving Person" is defined in Section 15.7.
- 1.2 "Building Areas" means the areas designated as Retail A, Retail B, Retail C, Retail D, Daycare Center, and Fun Center on the Site Plan.
- 1.3 "Center Sign(s)" means the monument and/or pylon signs, if any, that will be located in areas allowed by the City and approved by Declarant.
- 1.4 "City" means the City of Sherwood, Oregon.
- 1.5 "Collection Costs" is defined in Section 10.1.
- 1.6 "Common Facilities" means all those areas on each Lot that are not Building Areas, together with those portions of the Building Area on each Lot that are not from time to time actually covered by a building or other commercial structure or that cannot under the terms of this Declaration be used for buildings, including without limitation sidewalks, walkways, aisles and driveways providing ingress and egress to the buildings and parking areas and to and from adjacent streets and highways, all parking areas, any storm water retention basins if applicable, unloading areas (except for trash facilities, truck docks, and ramps that are for the exclusive use of a particular tenant), shrubbery, plantings, other landscaping, illuminating and mechanical equipment used exclusively in connection with any of the foregoing, all utility lines and facilities, all sewers servicing the Lots to the perimeter walls of any building in the Retail Center, Center Signs, and all other portions of the Retail Center designated by the Owners from time to time as Common Facilities. Areas under a canopy that extends from buildings, together with any columns or posts supporting the same, shall be maintained by the Owners of the buildings to which the applicable canopy is attached and shall not be considered part of the Common Facilities.
- 1.7 "Common Facilities Budget" is defined in Section 6.1.1.
- 1.8 "Common Facilities Charge" is defined in Section 6.3.1(a).
- 1.9 "Common Facilities Lien" is defined in Section 11.1.
- 1.10 "Common Facilities Maintenance" is defined in Section 5.1.
- 1.11 "Common Lighting" is defined in Section 2.2.
- 1.12 "Condemnation Award" is defined in Article 14.
- 1.13 "Contracting Party" is defined in Section 2.4.1(b).
- 1.14 "Declarant" is defined above and includes any Owner to whom Declarant or a successor thereto assigns all of its rights to be Declarant hereunder, or any Declarant approved by the Owners pursuant to Section 5.5.
- 1.15 "Declaration" is defined above.

1.16 "Default Rate" means a rate of interest equal to the lesser of (a) the highest rate allowed by law or (b) four percentage points over the Prime Rate.

1.17 "Defaulting Party" is defined in Section 10.1.

1.18 "Deficiencies" is defined in Section 10.2.

1.19 "Environmental Laws" is defined in Section 12.3.2.

1.20 "Expansion Land" is defined in Section 15.21.

1.21 "Floor Area" means the total number of square feet of ground floor space in a fully constructed building, whether or not actually occupied, excluding basement, subterranean, balcony, and mezzanine space, unless that space is used as selling area. Floor Area shall be measured from the exterior line of the exterior walls and from the center line of any party or common interior walls without deduction for columns, walls, or other structural or non-structural components.

1.22 "Hazardous Substance" is defined in Section 12.3.2.

1.23 "Lienholder" means any mortgagee under a mortgage or a trustee or beneficiary under a deed of trust constituting a lien or encumbrance on any Lot.

1.24 "Management Fee" is defined in Section 6.3.1.

1.25 "Manager" is defined in Section 5.2.

1.26 "Non-defaulting Party" is defined in Section 10.1.

1.27 "Occupant" means any party rightfully occupying a Lot in compliance with the provisions hereof.

1.28 "Operating Costs" is defined in Section 6.2.

1.29 "Owner" means the record holder of fee simple title to a Lot and its heirs, personal representatives, successors, and assigns.

1.30 "Lot(s)" means any of Lots 2 through 5 shown on the Plat and "Lots" shall mean any two or more thereof, as well as any Lots added to the Retail Center as provided in Section 15.21.

1.31 "Lot Area" means total number of square feet of each Lot when viewed separately or, as the context requires, the combined total number of square feet of all Lots collectively, all as shown on the recorded plat for the Retail Center.

1.32 "Lot Monument Sign" means monument signs to be located on each Lot in locations allowed by the City and approved by Declarant.

1.33 "Person" means individuals, partnerships, limited liability companies, firms, associations, corporations, trusts, governmental agencies, administrative tribunals, or any other form of business or legal entity.

1.34 "Plat" means the Subdivision plat attached hereto as Exhibit C.

1.35 "Prime Rate" means the rate of interest as designated from time to time in the *Wall Street Journal – Western Edition* or equivalent thereof.

1.36 "Proportionate Share" means a percentage derived by dividing the total Lot Area of the particular Lot owned by an Owner by the total Lot Area of all Lots in the Retail Center.

1.37 "Real Estate Taxes" is defined in Section 8.1.

1.38 "Receipt" is defined in Section 15.11.2.

1.39 "Requesting Person" is defined in Section 15.7.

1.40 "Restrictions" means the easements, covenants, restrictions, liens, and encumbrances contained in this Declaration.

1.41 "Service Facilities" means the loading docks, storage facilities, trash enclosures, and other similar service facilities.

1.42 "Retail Center" means the Retail Center Land, together with all improvements located thereon and all appurtenances thereunto pertaining. Upon recording of the Declaration, the following comprises the entirety of the Retail Center, as further depicted on Exhibit C:

<i>Lot</i>	<i>Size (acres)</i>	<i>% of Retail Center</i>
2	0.84	6.96%
3	7.479	61.99%
4	2.504	20.75%
5	1.242	10.29%
Total	12.065	100.00%

1.43 "Retail Center Land" is defined above and includes any land added thereto from time to time pursuant to Section 15.21.

1.44 "Site Plan" means the site plan attached as Exhibit B and incorporated by this reference, as the same may be amended from time to time in accordance with the provisions of this Declaration.

1.45 "Storm Drainage System" is defined in Section 3.4.

2. **BUILDING AND COMMON FACILITIES DEVELOPMENT**

2.1 **Standard.** All buildings and other structures shall be constructed and maintained in accordance with all local, state, and federal laws, rules, and regulations applicable thereto. Buildings shall be constructed upon the Lots only within the Building Areas and (a) shall not result in (1) the unreasonable impairment of the visibility of the Retail Center or any building, (2) a material impairment of access between any Lot and the public streets SW Century Drive and SW Langer Farm Parkway and/or parking in Retail Center, all as shown on the Site Plan, (3) a reduction in the number of parking spaces in the Retail Center below the minimum aggregate number required hereunder, or (4) any material impairment of the ability of any Occupant within the Retail Center to conduct its business as permitted herein and (b) subject to the remainder of this section, the buildings located on Lot 4, which front on SW Century Drive and SW Langer Farm Parkway each shall not exceed 12,000 square feet in total Floor Area. The Floor Area of the building located on any Lot may be increased by Declarant by a maximum

of 10% in order to accommodate the needs of the user thereof, provided that in no event shall the aggregate number of parking spaces in the Retail Center be reduced below the minimum required hereunder as a result of any such increase. In addition, the Floor Area allocation of any two or more Lots may be combined for a single building thereon.

2.2 Common Facilities. The Common Facilities are hereby reserved for the use of all Owners of the Retail Center, their tenants, contractors, employees, agents, customers, licensees, and invitees, and the subtenants, contractors, employees, agents, customers, licensees, and invitees of such tenants, and Occupants. The Common Facilities may be used for vehicular driving, parking (except that there shall be no multi-level parking), pedestrian traffic, directional signs, permitted signage, sidewalks, walkways, landscaping, perimeter walls and fences, Common Facilities lighting including seasonal holiday illumination and decorations (collectively "Common Lighting"), utilities, and Service Facilities and for no other purpose unless otherwise specifically provided in this Declaration. The Common Facilities shall be constructed in accordance with the Site Plan and shall be kept and maintained as provided herein. The sizes and arrangements of the Common Facilities improvements, including without limitation service drives and parking areas, striping, traffic directional arrows and signs, concrete bumpers, Common Lighting, perimeter walls and fences, and landscaped areas together with necessary planting, may not be materially changed without the prior written consent of the Owners. Persons using the Common Facilities in accordance with this Declaration shall not be charged any fee for such use. Notwithstanding the foregoing, each Owner hereby covenants and agrees that, to the extent allowed by law, no Owner or occupant will allow the Common Facilities on its tract to be used for rallies, demonstrations, protests, picketing, or handbilling to protest, publicize, or allege improprieties regarding the acts, policies, or operating practices of any business operating within the Retail Center or any political or social cause.

2.3 Type and Design of Building. The following terms apply to the design of buildings at the Retail Center.

2.3.1 Quality and Compatibility. Each building in the Retail Center shall be of first quality construction and architecturally designed so that its exterior elevations (including without limitation signs and color) will be architecturally and aesthetically compatible and harmonious with all other buildings in the Retail Center as reasonably determined by Declarant, subject to the following:

(a) No building may be constructed and the exterior of any existing building shall not be changed in any way (including without limitation signs and color) without the prior written approval of Declarant as to the exterior elevations (including without limitation signs and color) of the building to be constructed or modified, which consent will not be unreasonably withheld. Notwithstanding the foregoing, subject to all other restrictions contained herein and except as otherwise required herein, the design of standard building elevations, signs, and logos of national franchise businesses located on Lots shall not require prior approval but the size and location of placement of any such elevations, signs, and logos shall require prior written approval under this section.

(b) Before the construction of any building or any modification of an existing building is commenced, sufficient information shall be sent to Declarant to enable Declarant to make a reasonable determination as to the architectural and aesthetic compatibility of the building or modification with all other buildings in the Retail Center.

2.3.2 Sprinkler Systems. Every building either shall be equipped with automatic sprinkler systems that meet all applicable building codes (or other similar systems that meet all applicable building codes) or shall be constructed in such a manner as not to affect adversely the fire rating for

insurance purposes of any building built upon any other Lot. The purpose of this section is to allow buildings built on each Lot to be fire-rated as separate and distinct units without deficiency charge.

2.3.3 *Structural Integrity.* No building shall be built in such a manner as to adversely affect the structural integrity of any other building in the Retail Center.

2.3.4 *Height.* All buildings in the Retail Center located on Lots that front on SW Century Drive and SW Langer Farm Parkway shall be single story and shall not exceed forty feet in height from the finished grade. All buildings on Lot 3 shall be limited to sixty feet in height from the finished grade. The foregoing height limitations (a) include mechanical fixtures and equipment and architectural embellishments and screening for same, (b) exclude incidental architectural embellishments and peaks, and (c) are to be measured in each case from the finished grade at the centerline at the front side of the building (i.e. the side of the building facing the customer parking lot, or if more than one customer parking lot abuts the building, the side of the building containing the main entrance).

2.3.5 *Building Maintenance.* Each Owner shall maintain or cause to be maintained the exterior of any building, including any canopies and supporting columns or posts, located on such Owner's Lot(s) in a quality and condition comparable to that of first class retail centers of comparable size and nature located in the same geographic area as the Retail Center. All Service Facilities and rooftop equipment otherwise visible from the parking areas shall be attractively screened from view from the parking areas.

2.4 *Construction Requirements.* The following construction requirements apply under this Declaration.

2.4.1 *Timing and Manner of Work.* All work performed in the construction, maintenance, repair, replacement, alteration, or expansion of any building, sign, or Common Facilities improvements located in the Retail Center shall be effected as expeditiously as possible and in such a manner as not unreasonably to interfere, obstruct, or delay (1) access to or from the Retail Center, or any part thereof, to or from any public right-of-way, (2) customer vehicular parking in that portion of the improved Common Facilities located in front of any building constructed in the Retail Center, or (3) the receiving of merchandise by any business in the Retail Center including without limitation access to Service Facilities. All Common Facilities shown on the Site Plan for a Lot shall be constructed and installed in advance of or in connection with the construction of the building on the Lot.

(a) Staging for the construction, replacement, alteration, or expansion of any building, sign, or Common Facilities improvements located in the Retail Center including without limitation the location of any temporary buildings or construction sheds, the storage of building materials, and the parking of construction vehicles and equipment shall be limited to that portion of the Retail Center approved in writing by Declarant and in all cases the staging area must be self-contained on the Lot where construction activity is to occur to the extent possible.

(b) Unless otherwise specifically stated herein, the person contracting for the performance of such work ("Contracting Party") shall, at its sole cost and expense, promptly repair and restore or cause promptly to be repaired and restored to its prior condition all buildings, signs, and Common Facilities improvements damaged or destroyed in the performance of such work.

2.4.2 *Liens.* The Contracting Party shall not permit any liens to arise or remain against any Lot for any work done or materials furnished in connection with the performance of the work described in Section 2.4.1, subject to the following:

(a) The Contracting Party may contest the validity of any such lien, but upon a final determination of the validity thereof, the Contracting Party shall cause the lien to be satisfied and released of record.

(b) The Contracting Party shall, within thirty days after receipt of written notice from an Owner, cause any such outstanding lien or claim of lien to be released of record or transferred to bond in a manner reasonably satisfactory to the person giving notice, failing which such Owner shall have the right, at the Contracting Party's expense, to transfer the lien to the bond.

(c) The Contracting Party shall indemnify, defend, and hold harmless all other Owners and Occupants from any and all liability, claims, damages, expenses (including reasonable attorney fees incurred in or before any action, at trial, on appeal or in bankruptcy court), liens, claims of liens, judgments, proceedings, and causes of action arising out of or in any way connected with the performance of such work, unless caused by the negligent or willful act or omission of the otherwise indemnified person or its tenants, subtenants, agents, contractors, or employees.

2.4.3 Incidental Encroachments. The Owners acknowledge and agree that incidental encroachments upon the Common Facilities may occur as a result of the use of ladders, scaffolds, store front barricades, and similar facilities in connection with the construction, maintenance, repair, replacement, alteration, or expansion of buildings, signs, and Common Facilities improvements located in the Retail Center, all of which are permitted hereunder so long as all activities requiring the use of such facilities are expeditiously pursued to completion and are performed in such a manner as to minimize any interference with use of the improved Common Facilities or with the normal operation of any business in the Retail Center.

2.4.4 Insurance. During the course of any construction or repair as to any building on a Lot, the person responsible for such construction or repair shall obtain and maintain:

(a) Commercial general liability insurance (as to which the other Owners shall be additional insureds) on an occurrence basis against claims for bodily injury, personal injury, death, or property damage occurring on, in, or about the Retail Center and the adjoining streets, sidewalks, and passageways, with limits not less than \$1,000,000 per occurrence, \$2,000,000 general aggregate, \$2,000,000 products-completed operations, \$1,000,000 personal and advertising injury, and \$1,000,000 sudden and accidental pollution coverage;

(b) Workers' compensation insurance for all employees of the entity conducting such construction who are engaged in the construction including without limitation employers' liability insurance policy to cover damages that become due in case of bodily injury, occupational sickness or disease, or death of subcontractor employees, with such policy written with limits of not less than \$1,000,000 for each accident policy, \$1,000,000 for each disease policy, and \$1,000,000 per disease, per each employee;

(c) Commercial automobile liability coverage with limits not less than \$1,000,000 combined single limits; and

(d) "Builder's completed value all risk" insurance against "all risks of physical loss" including collapse and transit coverage, during construction or repair, with deductibles not to exceed \$5,000, with a limit of not less than \$1,000,000.

2.4.5 Condition Pending Construction. Each Owner of any Lot in the Retail Center, at its expense, shall maintain the undeveloped portion thereof in a clean condition, free from weeds, and

either landscaped and/or covered with gravel base; provided, however, that on or before the date which will be two years after the date that any building on any Lot first opens for business, each Owner at its expense shall either (a) install an asphalt cap on the Lot or (b) commence or cause to be commenced construction of a building upon the Lot and thereafter diligently pursue the construction to completion. Each Owner of any Lot shall maintain its Lot in a clean condition and free from weeds pending construction of development thereon and shall use reasonable efforts to minimize the creation and distribution of dust that may affect adversely the Retail Center.

2.5 **Casualty and Condemnation.** In the event all or any portion of any building in the Retail Center is (a) damaged or destroyed by fire or other casualty or (b) taken or damaged as a result of the exercise of the power of eminent domain or any transfer in lieu thereof, the Owner of such building shall promptly restore or cause to be restored the remaining portion of such building or, in lieu thereof, shall remove or cause to be removed the damaged portion of the building together with all rubble and debris related thereto. All portions of Lots on which buildings are not reconstructed following a casualty or condemnation shall be graded or caused to be graded by the Owner thereof to the level of the adjoining Retail Center Land and in such a manner as to not adversely affect the drainage of the Retail Center or any portion thereof and further shall be covered by a one inch asphalt dust cap (or a compacted gravel base). In the event any Common Facilities are damaged or destroyed by fire or other casualty or taken or damaged as a result of the exercise of the power of eminent domain or any transfer in lieu thereof, any insurance or condemnation proceeds or awards shall be used to restore the remaining portion of the Common Facilities so that they are in operative condition. If there are insufficient proceeds or awards, the Owners shall each pay their Proportionate Share of the costs of reconstructing, repairing, and restoring the Common Facilities.

3. EASEMENTS

3.1 **Ingress, Egress, and Parking.** Declarant hereby declares and each Owner as grantor hereby grants to each other Owner and Occupant and to their tenants, contractors, employees, agents, customers, licensees, and invitees, and the subtenants, contractors, employees, agents, customers, licensees, and invitees of such tenants, for the benefit of each Lot, a nonexclusive easement for ingress and egress by vehicular and pedestrian traffic and vehicular parking upon, over, and across that portion of the Common Facilities located on the grantor's Lot(s), except for (a) those areas devoted to Service Facilities or drive-up or drive-through customer service facilities (b) and the parking area located on the southeastern portion of Lot 3 that may be closed from time to time on temporary bases by the Owner of Lot 3 for usage as determined by the Owner of Lot 3 in its sole discretion. The rights of ingress, egress, and parking set forth in this section shall apply to the Common Facilities for each Lot.

3.2 **Utility Lines and Facilities.** The following terms apply to utility lines and utility facilities in the Retail Center.

3.2.1 **Grant.** Declarant hereby declares, and each Owner as grantor hereby grants to each other Owner, for the benefit of each Lot belonging to such other Owners as grantees, a non-exclusive easement under, through, and across the portion of the Common Facilities of the grantor's Lot(s) that are not usable for building locations under applicable codes for the installation, operation, maintenance, repair, and replacement of water drainage systems or structures, water mains, storm and sanitary sewers, water sprinkler system lines, telephones, electrical conduits or systems, gas mains, television and internet lines, and other public or private utilities. In connection therewith, Declarant and each Owner agree and are bound by the following:

(a) All such systems, structures, mains, sewers, conduits, lines, and other utilities shall be installed and maintained below ground level or ground surface of such easements except

for ground-mounted electrical transformers and such other facilities as are required to be above ground by the utility providing such service (including temporary service required during the construction, maintenance, repair, replacement, alteration, or expansion of any buildings or improvements located in the Retail Center).

(b) The installation, operation, maintenance, repair, and replacement of such easement facilities shall not unreasonably interfere with the use of the improved Common Facilities or with the normal operation of any business in the Retail Center. The grantee shall bear all costs related to the installation, operation, maintenance, repair, and replacement of such easement facilities and, within thirty days after the date of completion of construction of same, shall repair to the original specifications any damage to the Common Facilities resulting from such use and shall provide as-built plans for all such facilities to the Owners of all Lots upon which such utility lines and facilities are located.

(c) The grant of easements provided in this declaration includes without limitation a grant of a non-exclusive easement under, through, and across all portions of the grantor's Lot(s) for purposes of easements for public utilities, waterline, sanitary and storm drainage, access and maintenance, all as depicted in the plat recorded for the Retail Center.

3.2.2 *Relocation.* At any time and from time to time the Owner of a Lot shall have the right to relocate on its Lot any utility line or facility installed pursuant to the foregoing grant of easement that is then located on the land of such Owner, provided that any such relocation (a) shall be performed only after sixty days notice of the Owner's intention to undertake the relocation shall have been given to the Owner of each Lot served by the utility line or facility, (b) shall not unreasonably interfere with or diminish utility service to the Lots serviced by the utility line or facility, (c) shall not reduce or unreasonably impair the usefulness or function of the utility line or facility, (d) shall be performed without cost or expense to any other Owner or Occupant, and (e) shall provide for the original and relocated area to be restored to the original specifications. The Owner or Occupant performing such relocation shall provide as-built plans for all such relocated utility lines and facilities to the Owners of all Lots served by all such utility lines and facilities within thirty days after the date of completion of such relocation.

3.2.3 *Additional Grants.* Each Owner agrees to grant such additional easements as are reasonably required by any public or private utility for the purpose of providing the utility lines and facilities described herein, provided such easements are not otherwise inconsistent with the provisions of this Declaration and provided further that such easements do not unreasonably interfere with or limit the use of the subject Lots.

3.3 *Sign Easement.* Declarant hereby declares and each Owner as grantor hereby grants to (a) the Owner, Declarant, and the Manager, and the party responsible for the construction and maintenance of the Center Signs, as applicable, as grantees, an easement under, through and across the Common Facilities of the grantor's Lot(s) for the installation, operation, maintenance, repair, and replacement of the Center Signs of this Declaration and all utility lines and facilities appurtenant thereto, (b) the Owners, if they should have a right to use a sign panel or sign panels on a Center Sign, an easement under, through, and across the Common Facilities of the grantor's Lot(s) for the installation, maintenance, repair, and replacement of such sign panels and to exercise its rights as to such sign panels, and (c) the owner of Lot 1 of the duly recorded plat of Parkway Village South, located in the City of Sherwood, Washington County, Oregon, an easement under, through, and across the Common Facilities of such owner's Lot(s) for the installation, maintenance, repair, and replacement of such sign panels and to exercise its rights as to such sign panels.

3.4 **Water Flow.** Each Owner hereby establishes and grants a nonexclusive easement on its Lot for the benefit of the owner of each other Lot to use, maintain, and repair any storm water drainage system ("Storm Drainage System") now or hereafter located on a Lot, together with the right to discharge surface water runoff across portions of a Lot in accordance with the design of the Storm Drainage System. Any alteration in the natural water flow that may occur as a reasonable consequence of normal construction activities and the existence of the party's improvements substantially as shown on Exhibit B (including without limitation building and building expansion, curbs, drives, and paving) shall be permitted.

4. OPERATION OF COMMON FACILITIES

4.1 **Parking Charges.** There shall be no charge for parking in the Common Facilities without prior written consent of Declarant or unless otherwise required by law.

4.2 **Parking Spaces.** All Owners in the Retail Center shall install and maintain on each of their Lots, at all times after initial paving thereof, a parking ratio at least equal to the number required by the City. The size of the parking spaces must satisfy the requirements of the City. Each Lot must meet the foregoing parking requirements solely with parking spaces located on such Lot itself. The cross-parking rights/easement(s) created by this Declaration are for customer convenience only, and off-Lot parking available pursuant thereto may not be used to any extent to satisfy any Lot's parking requirements.

4.3 **Employee and Owner Parking.** The employees, contractors, agents, officers, partners, and principals of all Owners and Occupants shall park only on their own Lot(s).

4.4 **Signs.** The following terms apply to all signs at the Retail Center visible from the exterior of any building.

4.4.1 **Location, Design, Content, and Costs.** Subject to governmental approval and the approval of Declarant with respect to location, size, and design of signs located on the entire Retail Center, which consent shall not be unreasonably withheld, conditioned, or delayed, (a) Center Signs shall be erected and maintained in the Retail Center on Lot 5 at the entrances to the Retail Center at SW Century Drive, (b) a limited Center Sign shall be maintained in the Retail Center opposite the roundabout on Lot 4, (c) Declarant may erect and maintain additional Center Signs at such locations in the Retail Center as Declarant may determine in its sole discretion, and (d) Lot Monument Signs may be placed on each of the Lots except Lot 2, subject to the following terms and conditions::

(a) The cost of constructing, maintaining, repairing, and replacing the Center Signs (excluding electrical hookup to the Common Facilities meter) shall be paid by the Owners who actually use the same (other than the Retail Center designation, which shall be a Common Area cost), prorata based on the number of signs such Owner uses to the total number of signs on the Center Signs. Declarant shall have the right to decide which Owners may use the Center Signs for a sign panel and the placement of the same. The cost of constructing, maintaining, repairing, and replacing the Lot Monument Signs shall be paid by the Owner of the Lot on which the sign is located or to which it pertains.

(b) Each person displaying a designation on the Center Signs shall supply and maintain its own sign fascia, can, or sign panel and shall pay Declarant a fee for use of such of the Center Signs in an amount and for time periods established by Declarant, as the same may be adjusted by Declarant after reasonable notice to the Owners using each Center Sign (other than the Retail Center designation). The design of Center Sign structures shall be subject to the fascia used.

(c) Any Lot Monument Sign may advertise only the business of the Occupant on such Lot. Lot Monument Signs may not be higher than six feet above the finished landscape of the immediately surrounding area and may not be longer than twenty feet.

4.4.2 *Restrictions and Types.* Other than as set forth in this section, there shall be no other signs except directional signs in the Retail Center. All exterior building signs shall be restricted to identification of the business(es) located on the related Lot. No exterior building sign shall extend above the building silhouette line or be painted on the exterior building surface without the approval of Declarant. No building or free-standing sign visible from the exterior shall utilize flashing, moving, or audible lights or appurtenances.

4.5 *Protection of Common Facilities.* Each Owner shall have the right to take such reasonable steps as it deems necessary to prevent those persons not authorized by this Declaration to use the Common Facilities from using the Common Facilities, provided such steps do not deprive any Owner or Occupant of the substantial benefit and enjoyment of the Retail Center and further provided any such Owner or Occupant shall be given thirty days prior written notice of such steps.

4.6 *Common Lighting.* Common Lighting shall be kept on during those dawn, dusk, and nighttime hours that fall between evening civil twilight and morning civil twilight regardless of the standard operation hours of the Retail Center ("Common Lighting Hours"). In addition to general illumination of the Retail Center as provided herein, Common Lighting shall include without limitation the costs of design, acquisition, installation, operation, maintenance, removal, replacement, and storage of holiday illumination equipment and holiday decorations for the Retail Center as implemented by the Manager. Common Lighting need not be maintained in the event of power failure, restrictive governmental law or regulations, riots, insurrection, war, act of God, or other reason of a like nature not the fault of the party responsible for Common Lighting, in which instance performance of the foregoing covenant shall be excused. Notwithstanding the foregoing, the Owner of any Lot may require the Manager to light the Common Facilities on its Lot beyond Common Lighting Hours, provided that such Owner shall pay the cost thereof as reasonably determined by the Manager unless the Common Lighting on that Owner's Lot is separately metered and billed directly to that Owner.

5. MAINTENANCE AND REPAIR OF COMMON FACILITIES.

5.1 *Operation of the Common Facilities.* The Common Facilities shall be operated and maintained in compliance with all applicable governmental laws, rules, regulations, orders, ordinances, and the provisions of this Declaration and in a safe and sound condition, clean and free of rubbish, debris, or other hazards to persons using the same. Except as set forth herein, the Manager shall be responsible to operate and maintain all Common Facilities improvements and to repair and replace the same with materials at least equal to the original quality of the materials being repaired or replaced, so as to maintain the architectural and aesthetic harmony of the Retail Center as a whole. This operation, maintenance, and repair ("Common Facilities Maintenance") shall be performed and carried out promptly and in a first class and workmanlike manner, quality, and condition comparable to that of first class retail centers of comparable size and nature located in the same geographic area as the Retail Center and in an equitable and non-discriminatory manner among the various Lots. The Common Facilities shall include without limitation the following:

5.1.1 *Drive and Parking Areas.* Maintaining, repairing, cleaning, and replacing all paved surfaces and curbs in a smooth and evenly covered condition, and such work shall include without limitation sweeping, restriping, resealing and resurfacing as such is determined to be needed by the Manager. For the purpose of this section, an overlay of the drive and parking areas shall be considered a maintenance item.

5.1.2 Debris, Refuse, Trash, and Ice/Snow Removal. Periodic removal of all litter, filth, refuse, ice, and snow, including sweeping to the extent necessary to keep the Common Facilities in a first-class, clean and orderly condition. All sweeping shall be done at appropriate intervals during such times as shall not interfere with the conduct of business or use of the Common Facilities by persons intending to conduct business with Occupants of the Retail Center. Retail Center trash removal shall be part of the Common Facilities Maintenance, shall be performed in such manner as shall keep the rest of the Retail Center in a first-class clean and orderly condition, and shall be charged as a Common Area Cost to all of the Lots. To the extent that secure disposal of sensitive or propriety information is desired by an Owner, shredding or other secure destruction services shall be contracted by the Owner at its own expense.

5.1.3 Signs and Markers. Placing, cleaning, keeping in repair, replacing, and repainting any appropriate directional signs or markers including any disabled parking signs and the Center Signs, except as otherwise provided in this Declaration with regard to sign fascia and cans, which shall be supplied and maintained by the businesses designated thereon. The Owner of each Lot shall pay the cost of maintaining the Lot Monument Signs on the Owner's Lot.

5.1.4 Common Lighting. Maintaining, cleaning, and replacing Common Lighting facilities including poles, lamps, ballasts, lenses, and holiday illumination and decorations for the Common Facilities.

5.1.5 Landscape Areas. Maintaining all landscape areas, including landscaping and planters adjacent to exterior walls of buildings, in an attractive and thriving condition, and replacing shrubs and other landscaping as necessary; provided, however, that if any Occupant requires special landscaping, the cost of installation, replacement, and maintenance of such special landscaping shall be borne solely by such Occupant and shall not be included in Operating Costs.

5.1.6 Common Utilities. Maintaining, cleaning, replacing, and repairing any and all common utility lines including any sprinkling systems, Common Facilities, Storm Drainage System, water lines, and payment of all electrical, water, and other utility charges or fees for service furnished to such Common Facilities, including lighting for the Center Signs and Common Lighting.

5.1.7 Obstructions. Keeping the Common Facilities free from any obstructions including those caused by the sale or display of merchandise, unless such obstruction is permitted under the provisions of this Declaration.

5.1.8 Sidewalks. Maintaining, cleaning, and replacing of all sidewalks, including those adjacent and contiguous to buildings located within the Retail Center, to the extent the same is not performed as otherwise provided hereunder. Sidewalks shall be cleaned and swept at appropriate intervals during such time as shall not interfere with the conduct of business or use of the Common Facilities.

5.1.9 Traffic. Regulation of traffic at entrances and exits to the Retail Center and within the Retail Center as conditions reasonably require in order to maintain an orderly and proper traffic flow. Notwithstanding anything to the contrary, each Owner and/or Occupant, as the case may be, shall maintain and repair, at its sole cost, in a clean, attractive, and safe condition any exterior shipping/receiving dock area, any truck ramp, or truck parking area, any other delivery area, and any refuse, compactor, or dumpster area on or intended to service such Owner's or Occupant's Lot.

5.1.10 Insurance. Obtaining and paying premiums for insurance coverage on the Common Facilities as provided in Section 6.4.

5.1.11 *Walls and Capped or Landscaped Lots.* Maintaining, repairing, and replacing, when necessary, all Common Facilities walls, fences, and barricades; provided, however, that this section shall not alleviate the obligation of each Owner of an undeveloped Lot to maintain its Lot at its expense in accordance with the provisions of Section 2.4.5 but provided further that if an asphalt cap or landscaping is installed thereon pursuant to Section 2.4.5, then the Manager shall perform Common Facilities Maintenance thereon until such area is improved with a building.

5.2 *Manager.* The person who is responsible for the operation and maintenance of the Common Facilities from time to time shall be referred to herein as the "Manager" and shall be selected and shall operate as follows:

5.2.1 *Initial Manager.* Initially, Declarant shall either operate and maintain the Common Facilities as the Manager (either directly or through an affiliate of Declarant) or enter into a contract with a qualified Manager.

5.2.2 *Replacement.* Subject to the approval of the Owners by vote as provided in Section 15.7, Declarant shall have the right to replace the Manager at any time and from time to time. The Owners shall also have the right to replace the Manager at any time by vote as provided in Section 15.7.

5.2.3 *Resignation.* Upon giving Declarant at least sixty days advance written notice, the Manager may resign, whereupon a replacement Manager shall be named by Declarant, provided that the replacement Manager must be approved by the Owners by vote as provided in Section 15.7. In the event that Declarant no longer owns a Lot, notice of the Manager's resignation under this section shall be provided to all Owners and a replacement Manager shall be designated by vote of the Owners as provided in Section 15.7.

5.3 *Promulgation of Rules.* Declarant may promulgate such reasonable non-discriminatory rules and regulations to govern the use of the Common Facilities as it may deem appropriate, including the regulation of employee parking.

5.4 *License to Carry Out Intent of this Declaration.* Each Owner hereby grants to the Manager, its agents and employees a license to enter upon its Lot to discharge the duties to perform the Common Facilities Maintenance.

5.5 *Replacement of Declarant.* The Owners shall have the right to replace Declarant at any time by vote of the Owners as provided in Section 15.7.

6. COMMON FACILITIES COSTS

6.1 *Common Facilities Budget.* A budget for Common Facilities Costs shall be formulated and made effective in the following manner, as applicable:

6.1.1 *Submission for Review.* At least sixty days prior to the beginning of each calendar year, the Manager shall submit to the Owners an estimated budget ("Common Facilities Budget") for the projected Operating Costs, Management Fee, and Common Facilities Charges for the ensuing calendar year (or, in the case of an initial partial calendar year, that ensuing partial year). The Common Facilities Budget shall identify separate cost estimates for major categories in accordance with good retail center management practice.

6.1.2 *Bids.* In determining the Common Facilities Budget, the Manager shall submit major items of Common Facilities maintenance work for competitive bid to responsible bidders. Upon an Owner's request, the names of the bidders and their respective bids shall be furnished to such Owner together with the Common Facilities Budget. The contract shall be awarded to the low bidder unless the Manager shall otherwise reasonably determine.

6.1.3 *Approval by Owners.* The Common Facilities Budget shall require the prior written approval of the Owners. The Owners shall give written notice to the Manager of their approval or disapproval of the Common Facilities Budget before the later of December 10 or thirty days after receipt of the Budget. Failure to give notice of approval or disapproval shall be deemed to be approval. The Manager and any objecting Owner shall seek to resolve any objections between them. If the objection relates to any bid(s) and the Owner requests that such item(s) be re-bid, the Manager shall do so and the lowest responsible bid (as determined by the Manager) in each category of the previous and new bids shall be accepted. If the objecting Owner and the Manager cannot agree, the matter shall be referred to all Owners for approval.

6.1.4 *Implementing Budget.* After the Common Facilities Budget is approved, the Manager shall contract with the approved low bidders, pay all of the Operating Costs, and use its reasonable efforts to perform the Common Facilities Maintenance in accordance with the Common Facilities Budget.

6.1.5 *Emergency Repairs.* Notwithstanding the foregoing, the Manager shall have the right to make emergency repairs to the Common Facilities to prevent injury or damage to person or property or to prevent disruption in the use of the Common Facilities, provided that the Manager shall nevertheless advise the Owners of such emergency condition as soon as reasonably possible, including any corrective measure(s) taken and the cost thereof. If the cost of the emergency action exceeds \$5,000, the Manager may charge a supplemental billing to the Owners together with supporting evidence and the parties responsible for payment of Operating Costs shall pay their Proportionate Share thereof within thirty days. If the emergency cost is less than the amount collected, the excess is to be reimbursed appropriately or refunded at year end as provided herein.

6.1.6 *Unforeseen Items.* The Manager shall be entitled to reimbursement of actual expenses for any reasonably unforeseen non-emergency items not included in the Common Facilities Budget without first obtaining each Owner's approval so long as such Owner's Proportionate Share of the cumulative amount of such items does not exceed \$10,000 in any calendar year.

6.1.7 *Disagreement over Unbudgeted Items.* In the event of a good faith disagreement between the Manager and any Owner over the amount of or validity of any unbudgeted Common Facilities Charge billed to such Owner by the Manager, such Owner may pay such amount under protest, and such Owner's sole remedy shall be to refer such disagreement to binding arbitration in accordance with the provisions of this Declaration.

6.1.8 *Reimbursement.* The Manager shall be reimbursed for all of its out-of-pocket expenses incurred in performing Common Facilities Maintenance to the extent such expenses are provided in the approved Common Facilities Budget or incurred as emergency repairs or unforeseen items as provided herein.

6.1.9 *Operating Costs.* If the Manager employs its own personnel to perform parking lot sweeping, snow removal, refuse removal, or other like actions for which the Manager incurs Operating Costs, the Manager shall be entitled to collect for such services its actual direct and indirect costs (including amortization on equipment, if any), as reasonably estimated by the Manager and approved by

the Owners, provided that the total charge is not greater than the lowest available bid from a qualified independent contractor for a comparable service.

6.2 *Operating Costs.* The following expenses shall be referred to as "Operating Costs:"

6.2.1 *General.* Costs for performing Common Facilities Maintenance, including without limitation reimbursements of out-of-pocket expenses described in Section 6.1.8 and Common Lighting costs as described in Section 4.6.

6.2.2 *Employees.* The expenses (including without limitation hourly compensation paid to or on behalf of employees based on competitive hourly rates) of the Manager for work done at the Retail Center in performing the Common Facilities Maintenance.

6.2.3 *Third Parties.* The expenses incurred to unrelated third parties in performing the Common Facilities Maintenance.

6.2.4 *Liability Insurance.* Commercial general liability insurance premiums on the Common Facilities in an amount of not less than \$3,000,000 as provided in Section 6.4 and casualty insurance on the Common Facilities; and

6.2.5 *Real Estate Taxes.* Real Estate Taxes on the Retail Center, unless paid separately pursuant to Article 8.

6.3 *Common Facilities Charge.* The following terms apply to Common Facilities Charges.

6.3.1 *Determination.* Each Owner shall pay to the Manager its Proportionate Share of the Operating Costs (as calculated pursuant to Section 6.3.2) plus its Proportionate Share of a management fee ("Management Fee") equal to 7% of the Operating Costs, which Management Fee may be charged to Owners in addition to the Operating Costs as defined herein, subject to the following terms and conditions:

(a) The amount due from each Owner pursuant to this section is referred to as the "Common Facilities Charge."

(b) In the event of a disagreement between the Manager and an Owner over the amount of or validity of any Common Facilities Charge billed to such Owner by the Manager, the Owner shall have the right to protest the amount in controversy and to refer such matter to binding arbitration in accordance with the provisions of this Declaration. No single non-budgeted capital expenditure in excess of \$10,000 shall be made without the prior written consent of the Owners, which consent shall not be unreasonably withheld or delayed.

6.3.2 *Payment.* Each Owner shall pay its Common Facilities Charge monthly in advance (on or before the first day of each month) based on the Manager's reasonable estimates, which estimates shall be provided to each Owner in writing only once each year and shall be deemed to be in effect until further written notice. Within sixty days following the close of each calendar year, the Manager will furnish to each Owner a statement of the actual amount of Operating Costs, the Management Fee, and the Owner's Common Facilities Charge based on actual expenditures for the previous calendar year. If the actual amount of an Owner's Common Facilities Charge is less than the total amount paid by such Owner for such period and such amount is more than one month's budgeted Common Facilities Charge to the Owner, the excess will be refunded to the Owner together with the Manager's statement; otherwise the amount will be applied to the Common Facilities Charge for the next

month. If the actual amount of an Owner's Common Facilities Charge exceeds the amount paid by the Owner for such period, the Owner shall pay to the Manager the amount shown as due thereon within thirty days following the receipt of the Manager's statement. If at any time or times it reasonably appears to the Manager that the amount of such Owner's Common Facilities Charge for the current calendar year will vary from the Manager's estimate, the Manager may, by written notice to the Owner, revise the Manager's estimate for such year and subsequent monthly payments by the Owner for such year will be based upon the Manager's reasonably revised estimate.

6.3.3 *Audit.* The Manager's annual statement shall include reasonable detail as to each Operating Cost and the related Management Fee incurred throughout the year. Each Owner shall have the right to audit the Manager's records relating to Operating Costs, Management Fees and Common Facilities Charges within one year after the end of each year upon ten days written notice to the Manager. If the audit should reveal an overstatement of actual expenses by 5%, the Manager shall refund any excess amount paid by the Owner within thirty days after written notice thereof.

6.4 *Common Facilities Liability Insurance.* The Manager shall obtain and maintain a policy of commercial general liability on an occurrence basis against claims for bodily injury, personal injury, and property damage occurring on, in, or about the Retail Center and the adjoining streets, sidewalks, and passageways, with a combined single limit coverage in the minimum amount of \$3,000,000 and with broad form contractual liability coverage. In the event such a policy is not available in such coverage amount, such policy may be supplemented with an umbrella policy to achieve the coverage amount. The policy shall endorse the Owners and Occupants requesting the same in writing ("Qualified Occupants") as additional insureds. The liability insurance maintained by the Manager shall be primary coverage to the liability insurance maintained by any Owners or Occupants, whose liability insurance coverage shall be secondary. In the event any Owner or Qualified Occupant maintains a primary liability insurance coverage and notifies the Manager thereof in writing requesting the following described subordination with reference to this section, the Manager shall cause its insurance carrier to waive any rights of subrogation against such party. The Manager's policy of liability insurance shall be issued by an insurance company with an AM Best rating of at least A- authorized to do business in Oregon. The Manager agrees to furnish the Owners, and Qualified Occupants certificates evidencing the insurance coverage required under this Declaration upon written request referencing this section. If the limits of the Manager's liability insurance and/or deductibles become inadequate due to the changes in overall price level or the size of claims being experienced, the Manager and the Owners shall negotiate in good faith new limits and deductibles based on retail center industry practices for similarly situated and comparable retail centers. If at any time the Manager shall not have collected sufficient amounts from Occupants of the Retail Center during prior time periods to pay the premium of the liability insurance, the Owners agree to pay the Manager the Owners' Proportionate Shares thereof within ten days of the Manager's written request therefor accompanied by evidence of the premium amount but not more than ten days before such premium will be due.

6.5 *Manager's Rights.* The Manager shall have the following rights, among others, in carrying out the Common Facilities Maintenance:

6.5.1 *Rules.* To establish and enforce reasonable rules and regulations concerning the maintenance, management, use, and operation of the Common Facilities, so long as such rules and regulations do not violate or contradict the terms of this Declaration or any rules and regulations approved by the Owners pursuant to Section 5.3 and are uniformly administered and enforced in a non-discriminatory manner;

6.5.2 *Close Off Facilities.* From time to time to close off any of the Common Facilities to whatever extent required in the reasonable judgment of the Manager and its counsel or the Owners to

prevent a dedication of any of the Common Facilities or the accrual of any rights by any person or the public to the Common Facilities, provided such closure does not deprive any Owner or Occupant of the substantial benefit and enjoyment of the Retail Center and further provided any such Owner or Occupant shall be given thirty days prior written notice of such closure except in the case of an emergency when no prior notice need be given but notice shall be given the Owners in such event as soon as feasibly possible.

6.5.3 *Construction.* From time to time to perform such construction relating to the renewal, restoration, remodeling, or replacement of the Common Facilities as is authorized or required of the Manager as part of the Common Facilities Maintenance; provided, however that no such construction shall be performed without the prior written consent of Declarant as to the nature, manner of proceeding, and timing of such construction, which consent shall not be unreasonably withheld, except (a) such prior written consent shall not be required in the case of an emergency but notice shall be given the Owners in such event as soon as feasibly possible and (b) no consent or approval will be required if such construction does not interfere with the business(es) on the affected Lots.

6.6 *Conflict between Declaration and Leases.* In the event of any conflict between this Declaration and any lease in the Retail Center, the provisions of this Declaration shall prevail except as between an Owner and its lessee (or a sublessor and sublessee), in which case nothing contained herein shall excuse the performance of any obligations under the applicable leases, subleases, or occupancy agreements affecting such Lot. If and when there shall be no the Manager appointed pursuant to this Declaration, each Owner (a) shall maintain at its expense the improved Common Facilities from time to time located on its Lot, (b) shall pay the Owner's prorata share of any general Operating Costs, such as liability insurance, and (c) shall cooperate with each other Owner in procuring liability insurance for Common Facilities as contemplated by Section 6.4. Required maintenance shall include without limitation the Common Facilities Maintenance.

7. INSURANCE FOR THE RETAIL CENTER

7.1 *Liability Insurance.* Each Owner shall obtain and maintain, or cause its Occupant to obtain and maintain, from the time development of its respective Lot occurs, a policy of commercial general liability on an occurrence basis against claims for bodily injury, personal injury, and property damage occurring on, in, or about the Owner's Lot and the adjoining streets, sidewalks, and passageways, with such insurance to be in single limit coverage in the minimum amount of \$2,000,000 and with a deductible not in excess of \$5,000. In the event a policy is not available in this coverage amount, the policy may be supplemented with an umbrella policy to achieve such coverage amount. Each policy shall endorse the other Owners and the Manager as an additional insured. The liability insurance maintained by each Owner and Occupant shall be secondary coverage and non-contributing to the liability insurance maintained by the Manager, whose liability insurance coverage shall be primary. All such policies of insurance shall be issued by companies with an AM Best rating of at least A- authorized to do business in Oregon. Upon request, each Owner agrees to furnish the Manager and the other Owners with certificates evidencing the insurance coverage required under this Declaration.

7.2 *Hazard Insurance.* Each Owner shall obtain and maintain a commercial property insurance policy with special perils/all-risk form covering all of the buildings located on its Lot, in an amount equal to the full replacement cost thereof.

7.3 *Release/Waiver of Subrogation.* Whenever (a) any loss, cost, damage, or expense resulting directly or indirectly from fire, explosion, or any other casualty, accident, or occurrence is incurred by an Owner and (b) at the time such Owner is required to be covered in whole or in part by insurance with respect to such loss, cost, damage, or expense, then such Owner hereby releases each other Owner and Occupant from any liability such Owner may have on account of such loss, cost, damage, or

expense and shall cause its commercial property insurance carriers to waive any rights of subrogation under such policy.

8. TAXES

8.1 **Real Estate Taxes.** "Real Estate Taxes" shall mean, with regard to any Lot (a) all ad valorem real estate taxes and assessments on the land and improvements comprising the Lot including any Common Facilities located on the Lot (adjusted after protest or litigation), exclusive of penalties and (b) the expense of protesting, negotiating or contesting the amount or validity of any real estate taxes, charges or assessments, with such expenses to be applicable to the tax calendar year of the Real Estate Taxes contested, protested, or negotiated.

8.2 **Tax Obligations.** If the applicable Lot constitutes a separate tax Lot or Lots, each Owner shall pay directly to the tax collector when due the Real Estate Taxes assessed against the Lot in which the Owner has an interest, including the portion of the Common Facilities on such Owner's Lot. Each Owner shall have the right to contest the amount or validity of all or any part of the taxes and assessments and to obtain reimbursement from its tenant(s) pursuant to agreement with such tenant(s). In the event of such contest, the contesting person shall prosecute such contest with diligence, shall take such steps as are necessary to avoid a tax sale of its Lot, and shall promptly pay when due the taxes and assessments then due, upon final determination of such contest. In the event that the Lots are not separate tax Lots, the Manager shall, to the extent the Manager has received payment therefor from the Owners, pay the Real Estate Taxes for all of such Lots that are not separately assessed and such Real Estate Taxes shall be an element of Operating Costs allocable to and payable by the Owners of such Lots as set forth in Article 6. If any Owner pays real estate taxes separately assessed to its Lot, the Owner shall not be obligated to contribute toward similar real estate taxes of another Lot.

9. EFFECT OF SALE OF A LOT BY AN OWNER

9.1 **Sale by Owner.** In the event an Owner sells its Lot, the Owner shall thereupon be released and discharged from any and all future obligations related to such Lot.

9.2 **Obligation of New Owner.** The new Owner of any Lot (including without limitation any Owner who acquires its interest by foreclosure, trustee's sale, or otherwise) shall be liable for all obligations arising under this Declaration with respect to the Lot from the date of sale.

9.3 **Miscellaneous.** Nothing contained herein shall bar or restrict the operation of Articles 10 and 11, which permit a lien on and foreclosure of a Lot for certain defaults under this Declaration. Notwithstanding the foregoing to the contrary, no first Lienholder or purchaser at a foreclosure sale of a first mortgage or first deed of trust shall be personally liable for any obligation arising under this Declaration prior to the sale or conveyance of title; provided, however, that the Lot shall remain obligated and encumbered by any lien asserted for the payment thereof.

10. DEFAULTS

10.1 **Common Facilities and Other Charges.** In the event any Owner fails or refuses to pay when due its Common Facilities Charge or any other amount owed to the Manager, Declarant or any non-defaulting Owner pursuant to the provisions of this Declaration ("Non-defaulting Party," which term shall include Declarant and the Manager and any non-defaulting Owner), which failure continues for a period of ten days after receipt of written notice thereof, such failure shall constitute a default and legal action may thereafter be instituted by the Non-defaulting Party against the defaulting Owner ("Defaulting Party," which term shall apply to any Owner in default pursuant to the provisions of this article) for such amount

plus interest from and after the date the Common Facilities Charge or any other amount owed to the Manager was due and payable at the Default Rate. Furthermore, the Non-defaulting Party shall have a "Common Facilities Lien" on the Lot of the Defaulting Party (or on the Defaulting Party's interest therein, as applicable) for such amount plus accrued interest as set forth above, plus any costs and expenses of pursuing any legal or other action to obtain such amount, including without limitation reasonable attorney fees (including without limitation such attorney fees as may be incurred in any appeal or in bankruptcy court), which shall also include all such attorney fees and collection costs, expenses, and fees as the Non-defaulting Party may be entitled pursuant to this Declaration (collectively "Collection Costs").

10.2 **Deficiencies.** In the event that any Owner shall fail properly to perform Common Facilities Maintenance for Common Facilities from time to time located on its Lot or to obtain and maintain insurance as required by this Declaration, any Non-defaulting Party may send written notice of such failure to the Defaulting Party. Such notice shall contain an itemized statement of the specific deficiencies ("Deficiencies") in the Defaulting Party's performance of duties under this Declaration, including without limitation the failure to provide such insurance or otherwise perform any required Common Facilities Maintenance to be performed by it. The Defaulting Party shall have thirty days after receipt of the this notice in which to correct the Deficiencies or in which to commence to correct the Deficiencies if the Deficiencies cannot be corrected within the thirty day period and thereafter to proceed diligently to complete the correction of the Deficiencies. (If necessary for the safety of the Retail Center or to prevent a gap in or a lapse of any insurance, the thirty) day time period referred to above may be appropriately shortened.) In the event that the Defaulting Party shall fail or refuse to correct or to begin and continue diligently thereafter to correct the Deficiencies, as the case may be, the Non-defaulting Party may, at its option, correct the Deficiencies. In the event that the Non-defaulting Party shall exercise this option and shall correct the Deficiencies, the Defaulting Party shall, promptly upon receipt from the Non-defaulting Party of an itemized invoice for the costs incurred by the Non-defaulting Party in correcting the Deficiencies, pay all such costs and expenses to the Non-defaulting Party, together with interest at the Default Rate from the date of the Non-defaulting Party's payment of the same until paid, plus Collection Costs. Furthermore, the Non-defaulting Party shall have a Common Facilities Lien on the Lot of the Defaulting Party (or on the Defaulting Party's interest therein, as applicable) for such amounts.

10.3 **Taxes.** In the event any Owner fails to pay when due all Real Estate Taxes that the Owner is obligated to pay hereunder, which failure continues for a period of ten days after receipt of written notice thereof from any Non-defaulting Party, such failure shall constitute a default and any Non-defaulting Party may thereafter pay such Real Estate Taxes if the Real Estate Taxes are delinquent and the Defaulting Party has not commenced and is not duly prosecuting any contest of the taxes. The Non-defaulting Party shall then bill the Defaulting Party for the expenses incurred. The Defaulting Party shall have ten days within which to pay the bill together with interest at the Default Rate from the date of the Non-defaulting Party's payment of the Real Estate Taxes until paid plus Collection Costs. If the Defaulting Party does not so pay, then the Non-defaulting Party shall have a Common Facilities Lien on the Lot of the Defaulting Party (or on the Defaulting Party's interest therein, as applicable) for such amounts.

10.4 **Remedies.** In addition to the remedies set forth in this article and Article 11, each person entitled to enforce this Declaration shall have all other remedies provided by law to the same extent as if fully set forth herein word for word. No remedy herein conferred upon or reserved to any person shall exclude any other remedy herein or by law and each shall be cumulative.

11. LIEN FOR COMMON FACILITIES CHARGES AND OTHER OBLIGATIONS

11.1 **Procedure.** The lien provided in Article 10 and Section 12.3.5 shall be referred to herein as the "Common Facilities Lien" and shall only be effective when filed for record by the Manager or

another Non-defaulting Party as a claim for a Common Facilities Lien against the Defaulting Party's Lot or interest therein in the office of the Washington County, Oregon, recorder. Such claim for a Common Facilities Lien shall contain at least the following:

11.1.1 *Statement.* A reference to this section of the Declaration and an itemized statement of all amounts due and payable pursuant hereto except as to Collection Costs and a statement that Collection Costs are included in the Common Facilities Lien and will be itemized and specifically set forth at the time of foreclosure;

11.1.2 *Lot Description.* A description sufficient for identification of that Lot in which the Defaulting Party has an interest that is the subject of the Common Facilities Lien;

11.1.3 *Owner.* The name of the record Owner of the Lot that is the subject of the Common Facilities Lien;

11.1.4 *Defaulting Party.* The name of the Defaulting Party and the extent of the Defaulting Party's interest in the Lot if the Defaulting Party is other than the Owner; and

11.1.5 *Non-defaulting Party.* The name and address of the Non-defaulting Party.

11.2 *Priority.* The Common Facilities Lien, when so established against the Lot described in a claim for a Common Facilities Lien, shall be prior and superior to any right, title, interest, lien, or claim which may be or has been acquired or attached to such Lot after the time of filing the Common Facilities Lien. The Common Facilities Lien shall be for the use and benefit of the Non-defaulting Party having a right thereto pursuant to this Declaration and may be enforced and foreclosed as a mortgage in a suit or action brought in any court of competent jurisdiction.

12. INDEMNITY

12.1 *Subrogation Waiver and General Indemnity.* To the extent that any liability of an Owner or Occupant to another Owner or Occupant or employees, agents, contractors, invitees, tenants, subtenants, successors, and assigns is covered by insurance, each Owner or Occupant respectively waives all rights of subrogation against the other Owners or Occupants.

12.2 *Indemnification.* Subject to the provisions of Section 12.1, each Owner and Occupant hereby agrees to indemnify, defend, and hold harmless the other Owners and Occupants from and against any and all liabilities, claims, damages, expenses (including reasonable attorney fees in arbitration, trial, and appeal), judgments, proceedings, and causes of action for injury to or death of any person or damage to or destruction of any property occurring in the interior of any building or Service Facilities constructed on the indemnifying Owner's or Occupant's Lot, unless caused by the negligent or willful act or omission of the otherwise indemnified person or its tenants, subtenants, agents, contractors, or employees.

12.3 *Hazardous Substances.* Each Owner agrees as follows with respect to its Lot(s).

12.3.1 *Care of Lot.* The Owner shall not use, produce, store, release, dispose, or handle in or about its Lot or transfer to or from its Lot (or permit any other person under its control to do such acts) any Hazardous Substance except in compliance with all applicable Environmental Laws (defined below). No Owner shall construct or use any improvements, fixtures, or equipment or engage in any act on or about its Lot that would require the procurement of any license or permit pursuant to any Environmental Law, except in compliance with all applicable laws and for (a) the routine use and sale of substances necessary to the use and occupancy of the Lot, (b) the pursuit of the Owner's or occupant's

business on the Lot, and (c) for the sale to the public of substances generally handled or sold in businesses similar to the Owner's or Occupant's business, so long as the requisite licenses or permits, if any, are obtained and maintained.

12.3.2 Definitions. In this Declaration the term "Environmental Laws" shall mean any federal, state, or local statute, ordinance, rule, regulation, or guideline pertaining to health, industrial hygiene, or the environment, including without limitation the federal Comprehensive Environmental Response, Compensation, and Liability Act. The term "Hazardous Substance" shall mean all substances, materials, and wastes that are or become regulated or classified as hazardous or toxic under any Environmental Law.

12.3.3 No Knowledge. To the best of the Owner's knowledge after reasonable inquiry, each Owner represents and warrants the following to the other Owners with respect to its Lot. The representations and warranties shall be effective first at the time the Owner acquires an interest in its Lot and shall continue while the Owner holds an interest in its Lot. If at any time the representation or warranty is inaccurate, the Owner shall immediately give written notice thereof to the other Owners. The representations and warranties are:

(a) Except as permitted by Environmental Laws there are no Hazardous Substances or regulated substances thereon or to be installed thereon, whether contained in barrels, tanks, equipment (movable or fixed), or other containers, deposited or located in land, waters, or sumps, or incorporated into any structure or in any other part of the Lot.

(b) No asbestos-containing materials have been or will be installed or affixed to the structure on the Lot at any time in violation of any Environmental Laws.

(c) The Lot and all operations thereon are not in violation of any Environmental Laws, whether they govern the existence, clean-up, and/or remedy of contamination from any Hazardous Substance or regulated substances, and no governmental entity has served upon such Owner any notice claiming any violation of any such statute, ordinance or regulation.

12.3.4 Notification. If any Owner becomes aware of any condition relating to the existence, release, or threatened release of any Hazardous Substance or violation of any Environmental Law on its Lot the cure or remediation of which is required by law or dictated by commercially reasonable business practices, such Owner shall promptly notify the other Owners in writing thereof and shall promptly cure or remediate such condition.

12.3.5 Right to Cure. If any Owner ("Defaulting Party") fails to perform its duty to cure or remediate as set forth herein, a Non-defaulting Party may proceed to cure after thirty days written notice and failure of the Defaulting Party to commence and thereafter diligently to prosecute such cure, and the Non-defaulting Party shall be entitled to reimbursement of all costs incurred in effecting such cure together with interest at the Default Rate from the date such costs were paid, plus Collection Costs. Furthermore, the Non-defaulting Party shall have a Common Facilities Lien on the Lot of the Defaulting Party (or on the Defaulting Party's interest therein, as applicable) for all such amounts. In case of an emergency, the person becoming aware of the condition shall attempt reasonable efforts to notify the person with the duty of cure of the condition requiring attention; provided, however, in an emergency any person may proceed in good faith without notice to effect a cure, giving such notice thereafter as soon as possible. The Common Facilities Lien shall be in the form set forth in Section 11.1 and have the priority set forth in Section 11.2.

12.3.6 *Indemnity.* The Owner of each Lot agrees to indemnify, defend, and hold harmless the other Owners, the Manager, and Occupants from and against any and all liabilities, claims, damages, expenses (including reasonable attorney fees at arbitration, trial, and appeal), judgments, proceedings, and causes of action relating to or connected with any of the foregoing for injury to or death of any person or damage to or destruction of any property occurring on or originating from the Owner's Lot or arising out of the act or omission of the Owner or its tenants and subtenants and their respective successors and assigns, unless caused by the negligent or willful act or omission of the otherwise indemnified person or its agents, contractors or employees.

13. RESTRICTIONS ON USE

13.1 *Family Entertainment Center.* For as long as Lot 3 is operated as a family entertainment center, no other Lot shall be used for the operation of a competing entertainment or recreational facility. For the purposes of this section, the phrase "entertainment or recreational facility" shall include without limitation a theater, bowling alley, skating rink, dance hall, billiard or pool hall, massage parlor (except as part of a permitted spa), amusement arcade, game parlor, video arcade (including without limitation any store containing more than four coin or token operated electronic games or electronic games for hire and use on the premises), or other similar activities.

13.2 *Prohibited Uses.* The following uses are prohibited at the Retail Center.

13.2.1 *Specific Uses.* No part of the Retail Center shall be used as or for a bar, tavern, cocktail lounge (except as an incidental use associated with a restaurant); sexually-oriented or pornographic business or sales; flea market; warehouse (except as incidental to an otherwise permitted use); renting, leasing, or selling of, or displaying for the purpose of renting, leasing, or selling of, any boat, motor vehicle, or trailer; a warehouse or industrial purposes (except where incidental to permitted businesses); any use that emits an obnoxious odor, noise, or sound that can be heard or smelled outside of any building in the Retail Center, or any noise or sound that is objectionable due to intermittence, beat, frequency, shrillness, or loudness (except all uses of the family entertainment center on Lot 3 shall not be deemed to violate this section); any mobile home park, trailer court, junkyard, or stockyard; any fire sale, bankruptcy sales (unless pursuant to a court order), or auction house; any pawn shop, thrift store, or second hand store; any variety, general, or dollar type store use (meaning a store selling a broad range of consumer goods at a discount); any central laundry or laundromat; any residences, living quarters, sleeping apartments, or lodging room; any veterinary hospitals; any cemetery, mortuaries, funeral homes, or similar service establishments; any liquor stores; any schools, beauty schools, barber colleges, or places of instruction (except a day care facility on Lot 2); any gas station; any church, synagogue, mosque, or place of worship.

13.2.2 *Additional Limitations.* So long as Walmart or any affiliate of Walmart is the user of retail land adjacent and directly to the north of the Retail Center (which retail land is legally described as Lot 2, LANGER FARMS, in the City of Sherwood, County of Washington and State of Oregon), no Lot shall be leased or occupied by or conveyed to any other party for use as (a) a membership warehouse club, (b) a pharmacy, (c) a discount department store or other discount store as such terms are defined below, (d) a grocery store or supermarket as such terms are defined below, or (e) as any combination of the foregoing uses. As used herein, "grocery store" and "supermarket" shall mean a food store or a food department containing more than 12,000 square feet of building space used for the purpose of selling food for off premises consumption, which shall include without limitation the sale of dry, refrigerated, or frozen groceries, meat, seafood, poultry, produce, delicatessen or bakery products, refrigerated or frozen dairy products, or any grocery products normally sold in such stores or departments. Any grocery store or supermarket permitted in the Retail Center must be a specialty grocery store or supermarket, such as without limitation a Trader Joe's or a Cost Plus World Market, but

specifically excluding any store carrying a general line of grocery items, such as without limitation Grocery Warehouse or Fresh and Easy. As used herein, "discount department store" and/or "discount store" shall mean a discount department store or discount store containing more than 35,000 square feet of building space used for the purpose of selling a full line of hard goods and soft goods (e.g., clothing, cards, gifts, electronics, garden supplies, furniture, lawnmowers, toys, health and beauty aids, hardware items, bath accessories, and auto accessories) at a discount in a retail operation similar to that of Walmart.

13.2.3 *Enforcement.* If the provisions of this article shall be breached or shall be threatened to be breached, any Owner, Declarant, or the Manager shall be entitled to injunctive relief or any other appropriate remedy at law or in equity whether provided by statute or otherwise.

14. CONDEMNATION

The provisions of this article shall apply if at any time all or any part of the Common Facilities shall be taken or condemned by any public authority under power of eminent domain. A voluntary sale or conveyance of all or any part of the Common Facilities in lieu of condemnation but under threat of condemnation shall be deemed to be a taking by eminent domain. All compensation, damages, and other proceeds from any such taking by power of eminent domain ("Condemnation Award") attributable to the value of any land within the Common Facilities shall be payable only to the Owner thereof (and its assigns, as per any lease or otherwise) and no claim thereon shall be made by the other Owners; provided, however, that all other Owners may file collateral claims with the condemning authority over and above the value of the land and improvements located within the Common Facilities so taken to the extent of any damage suffered by their respective Lots (as intended and permitted hereunder if there is then no building thereon) resulting from severance of the appurtenant portions of the Common Facilities so taken. The Owner of the portions of the Common Facilities so condemned shall promptly repair and restore the remaining portion of the Common Facilities so owned by such Owner as near as practicable to the condition of the same immediately prior to the condemnation and without contribution from any other Owner; provided, however, that the obligation to repair or reconstruct shall be limited such that the cost thereof shall not exceed the amount of the Condemnation Award payable to the Owner of the Common Facilities so condemned less the Owner's costs associated with the condemnation, including without limitation attorney fees and court costs arising out of the condemnation proceedings.

15. GENERAL PROVISIONS

15.1 *Covenants Run With the Land.* Each restriction on each Lot shall be a burden on that Lot, shall be appurtenant to and for the benefit of the other Lots and each part thereof, and shall run with the land.

15.2 *Successors and Assigns.* This Declaration and the Restrictions created hereby shall inure to the benefit of and be binding upon the Owners and their heirs, personal representatives, successors, and assigns and upon any person acquiring a Lot, any portion thereof, or any interest therein, whether by operation of law or otherwise, to the extent that the foregoing is consistent with the provisions of Article 9. With respect to rights in or to any Lot that have been severed from the rights or estates owned by Declarant pursuant to the terms of this Declaration, Declarant intends that such rights remain severed notwithstanding that during any time in which this Declaration is in effect Declarant or any other person may own the underlying estate or servient estate as well as the lesser right or dominant estate, respectively, so that Declarant's purposes in making this Declaration, as listed in the recitals, may be served, and any doctrine of merger of estates or principle of law having similar effect shall not apply to diminish any right hereunder or combine any right created or severed hereunder with any other estate or interest.

15.3 **Duration.** Except as otherwise provided herein, the term of this Declaration shall be for fifty years and shall be thereafter automatically renewed for successive terms of ten years unless terminated by a termination notice from Owners and first mortgage Lienholders owning or having first mortgage (including trust deed) liens upon more than 75% of the land area in the Retail Center, which termination notice shall be executed by the Owners and Lienholders and recorded in the records of the Washington County recorder at least one year before the termination of the primary term or any renewal term.

15.4 **Arbitration.** As required by specific references within this Declaration to arbitration but otherwise only with the consent of the persons affected thereby, any controversy or claim arising out of or relating to this Declaration or the breach hereof shall be settled by arbitration in accordance with then effective arbitration rules of and by filing a claim with Arbitration Service of Portland, Inc., and any judgment upon the award rendered pursuant to such arbitration may be entered in any court having jurisdiction thereof.

15.5 **Injunctive Relief.** In the event of any violation or threatened violation by any person of any of the Restrictions contained in this Declaration, any or all of the Owners and Occupants of the property included within the Retail Center shall have the right to enjoin such violation or threatened violation in a court of competent jurisdiction. The right of injunction shall be in addition to all other remedies set forth in this Declaration or provided by law.

15.6 **Modification, Termination, and Variances.** This Declaration may not be modified in any respect or terminated in whole or in part except with the consent of the Owners and the Lienholders of record of Lot 3, and then only by written instrument duly executed and acknowledged by the required percentage of Owners as set forth in Section 15.7 and recorded with the Washington County recorder. No modification or termination of the Declaration shall affect the rights of any Lienholder unless the Lienholder consents in writing to the modification or termination. Notwithstanding any other provision hereof, this Declaration may not be terminated or modified in such a manner as would prohibit or restrict or have a material adverse effect on the operation of a then-permitted and operating business without the written consent of the Owner of the Lot and Lienholders as to that Owner (collectively "Adversely Affected Owner") on which such business is then being operated. Variances to the provisions of this Declaration that do not have a material adverse effect on the operation of a then-permitted and operating business without its written consent may be granted by Declarant, must be in writing, and are not subject to the provisions of Section 15.7 or any other deemed approval under any circumstances.

15.7 **Method of Approval.** Whenever consent or approval is required under this Declaration, such consent or approval must be given in accordance with the particular provision requiring consent by the other person or persons from whom consent is required. All matters requiring a vote, consent, or approval under this Declaration shall be approved upon the affirmative vote of the Owners holding a majority of the acreage of Lots in the Retail Center as set forth in Section 1.42 and Exhibit C; provided, however, that in all matters (including without limitation if and when Lot 1 is added to the Retail Center, if at all), the Owner of Lot 3 (and any assignee of or Lienholder against Lot 3 exercising the rights of that Owner upon completed foreclosure) shall be deemed to own a majority of the acreage of the Lots in the Retail Center. A person requesting approval or consent ("Requesting Person") shall give notice in writing to the person or persons whose consent or approval is required ("Approving Person"). Within thirty days after receipt of the written request, each Approving Person shall notify the Requesting Person whether or not such consent or approval is granted. In the event that the Approving Person does not provide notification to the Requesting Person within thirty days from the date of receipt of notice sent pursuant to Section 15.11.1, then the Approving Person shall be deemed to have granted consent or approval. Notwithstanding the above, this section shall not be interpreted to permit a modification or termination of this Declaration without the express written consent of an Adversely Affected Owner as provided in

Section 15.6 and in such situation the failure to respond or notify any Requesting Person shall not be deemed an approval or consent thereto. Approval of any act, plan, budget, or any other item or fact under this Declaration shall not constitute a waiver of any requirements, duties, or obligations of any person under this Declaration.

15.8 ***Not a Public Dedication.*** Nothing herein contained shall be deemed to be a gift or dedication of any portion of the Retail Center to the general public or for the general public or for any public purpose whatsoever, it being the intention of the Owners that this Declaration shall be strictly limited to and for the purposes herein expressed.

15.9 ***Breach Shall Not Permit Termination.*** It is expressly agreed that no breach of this Declaration shall entitle any Owner or Occupant to terminate this Declaration, but such limitation shall not affect in any manner any other rights or remedies that the Owner or Occupant may have hereunder by reason of any breach of this Declaration. Any breach of the Declaration shall not defeat or render invalid the lien of any mortgage or deed of trust made in good faith for value, but this Declaration shall be binding upon and effective against any Owner whose title is acquired by foreclosure, trustee's sale, or otherwise.

15.10 ***Default.*** A person shall be deemed to be in default of this Declaration only upon the expiration of thirty days (unless another period is specified elsewhere in this Declaration with regard to a specific kind of default, such as a payment of money as in Section 10.1 or a payment of taxes as in Section 10.3) from receipt of written notice from any Owner, Occupant, or the Manager specifying the particulars in which such person has failed to perform the obligations of this Declaration unless such person, prior to the expiration of the thirty days (or other such period as is elsewhere specified), has rectified the particulars specified in the notice of default. Such person shall not be deemed to be in default, however, if such failure cannot be rectified within the thirty day period (or other specified time period) and the person is using good faith and its reasonable efforts to rectify the particulars specified in the notice of default.

15.11 ***Notices.*** The following applies to notices issued under this Declaration.

15.11.1 ***Method of Delivery.*** All notices given pursuant to this Declaration shall be in writing and shall be given by personal delivery, by United States mail or express mail, or other established express delivery service (such as Federal Express), postage or delivery charge prepaid, return receipt requested, addressed to the person and address designated below or, in the absence of such designation, to the person and address shown on then current Manager:

Langer Parkway South LLC
Attn: Langer Asset Management, Inc.
28185 SW Heater Road
Sherwood, Oregon 97140

Notices to an Owner other than Declarant shall be given to the address then on file with the Washington County tax assessor's office. The person and address to which notices are to be given may be changed at any time by any party upon written notice to the other parties. All notices given pursuant to this Declaration shall be deemed given upon receipt.

15.11.2 ***Receipt.*** For the purpose of this Declaration, the term "receipt" shall mean the earlier of any of (a) the date of delivery of the notice or other document to the address specified pursuant to Section 15.11.1 as shown on the return receipt, (b) the date of actual receipt of the notice or other document by the person or entity specified pursuant to Section 15.11.1, or (c) in the case of refusal to

accept delivery or inability to deliver the notice or other document, the earlier of (1) the date of the attempted delivery or refusal to accept delivery, (2) the date of the postmark on the return receipt, or (3) the date of receipt of notice of refusal or notice of non-delivery by the sending person.

15.11.3 *Notice to Lienholders.* Upon written request from any Lienholder and until the Lien terminates, a copy of any notice to an Owner that may affect the rights of the Lienholder under the Declaration shall be sent to the Lienholder.

15.12 *Waiver.* The failure of a person to insist upon strict performance of any of the Restrictions contained herein shall not be deemed a waiver of any rights or remedies that the person may have and shall not be deemed a waiver of any subsequent breach or default in the performance of any of the Restrictions contained herein by the same or any other person.

15.13 *Attorney Fees.* In the event any person initiates or defends any legal action or proceeding to enforce or interpret any of the terms of this Declaration, the prevailing party in any such action or proceeding shall be entitled to recover from the losing party in any such action or proceeding its reasonable costs and attorney fees in arbitration, at trial, and on appeal.

15.14 *Severability.* If any term or provision of this Declaration or the application of it to any person or circumstance shall to any extent be invalid or unenforceable, the remainder of this Declaration or the application of such term or provision to persons or circumstances other than those as to which it is invalid or unenforceable shall not be affected thereby, and each term and provision of this Declaration shall be valid and shall be enforced to the extent permitted by law.

15.15 *Not a Partnership.* The provisions of this Declaration are not intended to create, nor shall they be in any way interpreted or construed to create, a joint venture, partnership, or any other similar relationship between the Owners or other beneficiaries hereof.

15.16 *Third Party Beneficiary Rights.* This Declaration is not intended to create, nor shall it be in any way interpreted or construed to create, any third party beneficiary rights in any person or entity not specifically mentioned herein (such as Owner, Declarant, or Lienholder) unless otherwise expressly provided herein.

15.17 *Captions and Headings.* The captions and headings in this Declaration are for reference only and shall not be deemed to define or limit the scope or intent of any of the terms, covenants, conditions, or agreements contained herein.

15.18 *Construction.* In construing the provisions of this Declaration and whenever the context so requires, the use of a gender shall include all other genders, the use of the singular shall include the plural, and the use of the plural shall include the singular.

15.19 *Joint and Several Obligations.* In the event any party hereto is composed of more than one person, the obligations of the party shall be joint and several.

15.20 *Recordation.* This Declaration shall be recorded in the office of the Washington County, Oregon, recorder.

15.21 *Expansion.* In the event Declarant or any affiliate thereof or party related thereto with a controlling interest therein develops any adjacent property ("Expansion Land") as a retail center, Declarant shall have the right but not the obligation to submit the same to the terms and conditions of this Declaration by recordation of a supplementary declaration and upon so doing the term "Retail Center

Exhibit F [UPDATED]: Neighborhood Meeting Documentation

Revised May 9, 2022

March 23, 2022

Neighborhood Meeting Summary: Parkway Village South

Meeting Date: March 21, 2022

Time: 6:00 PM

Location: Virtual Meeting via Zoom Webinar

The following serves as a summary of the Neighborhood Meeting process in accordance with the applicable City regulations. On March 7, 2022, property owners within 1,000 feet of the project site were sent notification of the planned land use application. This notification included the project description, the neighborhood meeting date and time, and a map of the project location and vicinity area. Information on how to join the meeting remotely was provided in the notification letter.

On March 21, 2022, Marie Holladay, and Andreas Collins from AKS Engineering & Forestry, LLC and Frank Schmidt from Schmidt Architects, P.C. (the Applicant) collaborated on a presentation to attendees. The presentation lasted about 15 minutes and included an overview of the preliminary site plan and architectural materials, description of planned improvements, and conceptual graphics of the future facilities. Two members of the public had registered to attend the meeting, and only one joined the meeting. **No questions were received from the public.** At 6:18 PM, the meeting concluded. Affidavit and proof of mailed notice, materials presented at the meeting, and other required documentation is included with the land use application materials.

Sincerely,

AKS ENGINEERING & FORESTRY, LLC

A handwritten signature in black ink, appearing to read 'MH' with a stylized flourish.

RE: VIRTUAL NEIGHBORHOOD MEETING NOTICE
City of Sherwood Land Use Application for Site Plan Review

Dear Property Owner/Neighbor:

AKS Engineering & Forestry, LLC is holding a virtual neighborhood meeting regarding the potential submittal of a site plan review application for a new hotel and self-storage facility with flexible tenant spaces. The site is located southeast of the intersection of SW Langer Farms Parkway and SW Century Drive (Tax Lots 1100 and 1200 of Washington County Assessor's Map 2S 1 29DC). A portion of the property is associated with a previous land use approval for Parkway Village South subdivision and site plan review, requiring a modification and additional site plan review application for the new improvements. The project involves review of a hotel, self-storage facility with flexible tenant spaces, and associated amenities (parking, circulation, landscaping, lighting, etc.). The attached preliminary site plans show the specific location of the subject site.

The purpose of this virtual meeting is to provide a forum for the applicant and surrounding property owners/neighbors to review the preliminary plans and to provide feedback so that it may be considered before a land use application is submitted to the City of Sherwood. This meeting gives you the opportunity to share with us any special information you know about the property involved. We will attempt to answer questions which may be relevant to meeting development standards consistent with the City of Sherwood Zoning and Community Development Code.

You are invited to attend the virtual meeting on:

March 21, 2022 at 6:00 PM

Please see enclosed instructions to join the meeting.

Please note this meeting will be an informational meeting on preliminary plans. These plans may be altered prior to submittal of the application to the City of Sherwood.

I look forward to discussing this project with you. If you have questions but will be unable to attend, please feel free to call me at 503-563-6151.

Sincerely,

AKS ENGINEERING & FORESTRY, LLC

**Instructions for Joining & Participating in the
Public Neighborhood Meeting for
Parkway Village South Site Plan Review**
Virtual Meeting provided via Zoom Webinar

March 21, 2022 at 6:00 PM

Please Register in Advance

(a list of attendees will be submitted to the City of Sherwood):

- Go online to <https://www.aks-eng.com/parkway-village-south/>
- Click on the link provided to complete the online registration form.
- You will receive a confirmation email containing a link to join the Zoom webinar at the scheduled time as well as additional instructions.
- Meeting materials will be available upon request at least 10 days after the meeting concludes.

How to Join the Meeting:

Join by computer, tablet or smartphone

- **This is the preferred method as it allows you to see the Presenter’s materials on screen.**
- Click on the “Click this URL join” link provided in your registration confirmation email.
- (If you registered but did not receive a confirmation email, please check your junk/spam folder before contacting the Meeting Administrator.)
- You may be prompted to “download and run Zoom” or to install the App (ZOOM cloud meetings). Follow the prompts or bypass this process by clicking “join from your browser”.
- You should automatically be connected to the virtual neighborhood meeting.

Join by telephone

- Dial any of the toll-free Zoom numbers below to connect to the neighborhood meeting:

+ 1-346-248-7799	+ 1-669-900-6833
+ 1-253-215-8782	+ 1-312-626-6799
+ 1-929-205-6099	+ 1-301-715-8592

- If you experience trouble connecting, please pick another number and try again.
- After dialing in, enter this Zoom ID when prompted: **815 2385 5233**
- The Password if needed is: **6151**

MEETING ADMINISTRATOR:

For technical assistance or to submit a question for the meeting:

Email: holladaym@aks-eng.com

During the Meeting

Audio Help

- Meeting attendees will be muted throughout the presentation. This will allow everyone to hear the presentation clearly without added distractions.
- Make sure that the speakers on your device are turned on and not muted.
- If you do not have speakers on your computer, you can join by phone (using the “Join by telephone” instructions) to hear the presentation while watching the presentation on your computer monitor.

Questions & Answers

Your questions are important to us. There will be time reserved during the meeting to take questions, using one of the submission options below. Our presentation team will make their best effort to answer all question(s) during the meeting.

Prior to the Meeting:

- If you cannot attend the meeting, you can email your question(s) in advance to the Meeting Administrator.

Email holladaym@aks-eng.com

During the Meeting:

- ***Preferred Method:*** Participants may ask questions live at the meeting and through the "Chat" button on the bottom of the presentation screen to submit a question in real time.

After the Meeting:

- We will continue to take questions after the meeting has ended. Please submit your question(s) to the Meeting Administrator:

Email holladaym@aks-eng.com

Helpful Hints/Troubleshooting

We want to start on time! Please join the meeting 5-10 minutes prior to the 6:00 PM start time to ensure successful connection.

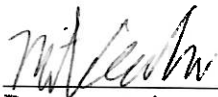

- You do not need a Zoom account to join the meeting.
- You will need a valid email address at the time of registration to receive the confirmation email and link to join the webinar or receive answers to any questions submitted after the meeting.
- For first-time Zoom users, we recommend downloading and installing the Zoom App well in advance, by clicking on the “Click Here to Join” link in your confirmation email.
- For technical assistance, please contact the Meeting Administrator (contact above).
- If you have difficulties connecting by computer, tablet or smartphone, we suggest disconnecting and instead use the “Join by telephone” instructions to listen in.

Affidavit of Mailing

Exhibit H: Amended and Restated Development Agreement (2010)

CURRENTLY IN-USE 5-4-11
AMENDED AND RESTATED DEVELOPMENT AGREEMENT

PARTIES

The Parties to this Amended and Restated Development Agreement ("Agreement") are the City of Sherwood, Oregon ("City") and Pamela and Clarence Langer, as to Phase 4, and the Langer Family, LLC, as to the remainder of the PUD (collectively, "Langer").

RECITALS

1. On April 26, 1995, the City approved a Preliminary Development Plan for a Planned Unit Development ("PUD") on property owned by Langer. The subject property is located generally southeast of Hwy 99W and south of the Tualatin-Sherwood Road, in the City.
2. The decision approved development of the property in eight (8) separate phases. The decision contemplated and assigned specific uses to each phase, including High Density Residential, Retail/Commercial, and Light Industrial (LI).
3. The portions of the PUD designated LI have not yet developed, except for a portion of Phase 4, which was developed as a mini-warehouse use under the General Retail Trade category of allowed uses in the LI zone. Since the approval of the PUD, the City has amended its list of permitted and conditional uses in the LI zone, subject to the City's Zoning and Community Development Code ("ZCDC") 16.32.020.H, which provides the following: "Approved PUDs may elect to establish uses which are permitted or conditionally permitted under the base zone text at the time of final approval of the PUD."
4. The PUD approval contained conditions of approval including: a requirement for a wetlands delineation prior to development of Phase 8; the construction of Adams Drive at the time of development of Phase 6; and the elimination of the then-proposed extension of Century Drive east of Adams Drive.
5. The Final Development Plan was approved August 3, 1995. Neither the Preliminary Development Plan nor the Final Development Plan approvals related to a site plan. Thus, site plan review is required for each phase as development is proposed for that phase.
6. Phases 1 through 3 and 5 have been developed, and a portion of Phase 4 was developed as above-described and is anticipated for future redevelopment. The purpose of this Agreement is to clarify and refine the intent of the Parties regarding the following issues (collectively, the "PUD Issues"):

- (a) The allowed uses of Phases 4, 6, 7 and 8 of the PUD, all of which are designated for LI uses;
 - (b) The timing of related improvements, including the construction of Adams Drive and Century Drive;
 - (c) The cost-sharing of public improvements, including the construction of Adams Drive and Century Drive; and
 - (d) Certain related matters.
7. The City and Langer previously set forth their respective commitments relative to the PUD Issues in that certain Development Agreement dated January 3, 2008 ("2008 Agreement"), which was a condition of approval to a companion Minor Change to the PUD approved contemporaneously by the City.
8. Subsequent to entering into the 2008 Agreement, economic conditions have changed such that the Parties find it necessary to re-evaluate their respective commitments under the 2008 Agreement. The City and Langer now desire to amend and restate their commitments relative to the PUD Issues set forth below.
9. This Agreement represents the only Agreement between the City and Langer with respect to the PUD Issues and does not preclude or require any conditions that may arise from a subsequent application for site plan review. It is the intent of the parties that the site plan review conditions should not be inconsistent with this Agreement.
10. This Agreement is only between the City and Langer and does not affect any conditions or improvements that may be required by other jurisdictions.

AGREEMENT

A. PUD USES

1. Applicable Code. ZCDC 16.32.020.H, provides that "Approved PUDs may elect to establish uses which are permitted or conditionally permitted under the base zone text at the time of final approval of the PUD." The Langer PUD was approved and Phases 4, 6, 7 and 8 were assigned the Light Industrial ("LI") base zone designation on August 3, 1995.
2. Permitted and Conditional Uses. Accordingly, Langer elects to establish uses on the LI-designated phases of the PUD that were permitted or conditionally permitted under the LI base zone text applicable on August 3, 1995, including: "Uses permitted outright in the GC zone Section 2.109.02, except for adult entertainment businesses, which are prohibited." A copy of the uses permitted in the LI and GC zones on August 3, 1995 is set forth in Attachment A, attached hereto and incorporated herein by reference.

3. Election of Uses and Acceptance. The City acknowledges and accepts Langer's decision to elect to develop Phases 4, 6, 7 and 8 under ZCDC 16.32.020.H, including the ability to develop those phases for General Retail Trade under Section 2.109.02 of the 1995 ZCDC. Accordingly, the current provisions of ZCDC 16.32.030.K, which restrict retail uses in the LI zone to a maximum of 60,000 square feet, will not apply to site plan review of the PUD.

B. ADAMS DRIVE SOUTH EXTENSION

1. City Commitments. Except as otherwise provided in this section, as soon as reasonably practicable and in any event prior to Langer's construction of any portion of Adams Drive south of the PUD's southern boundary, the City, at the City's sole cost and expense, will take the following actions:
 - a. Acquire the necessary right-of-way and complete the design and engineering for construction of the extension of Adams Drive ("South Extension") south from its present terminus up to but not including the railroad crossing between the southern PUD boundary and Oregon Street ("Rail Crossing");
 - b. Obtain all necessary permits for the construction and operation of the South Extension, including without limitation, all permits associated with allowing impacts to wetlands;
 - c. Provide for the mitigation of any impacts to wetlands related to the alignment and construction of the South Extension; and
 - d. Pursuant to the City's standard timeline and procedure in such instances, accept Langer's dedication of that portion of the South Extension located within the boundaries of the PUD following final inspection approval and thereupon assume maintenance obligations for all of the South Extension.
2. Langer Commitments. Subsequent to the City's performance of its obligations set forth in Section B.1.a. to B.1.c. of this Agreement but prior to issuance of final occupancy permits for any structures included in Phases 6 or 7, Langer will substantially construct the South Extension, including the traffic circle and island at the intersection with Century Drive and the twelve-foot (12') wide multi-use path extending the length of the South Extension as identified in the City Transportation Systems Plan (the "Path"). The street will be aligned and constructed in a manner consistent with the "90-percent drawings" prepared by Hopper Dennis Jellison, PLLC dated April 2008 and on file with the City (the "South Extension Plans"). Upon completion of the construction of the South Extension, Langer will dedicate and record a public right-of-way easement to the City for Adams Drive south from its present terminus to the southern boundary of the PUD (the "South Extension Right-of-Way").

3. Alternative Commitments.
- a. Alternatively, in the event the City has completed the obligations set forth in Section B.1.a. to B.1.c. of this Agreement and the City receives or accrues funding equal to the cost estimate for the construction of the South Extension prior to the time Langer has substantially commenced the obligations set forth in Section B.2. of this Agreement, the City may, in its sole discretion, elect to construct the South Extension, including the traffic circle and island at the intersection with Century Drive, the Path, and if warranted, the traffic signal at Tualatin-Sherwood Road, at the City's sole expense. In the event the City undertakes construction of the South Extension, the City will deliver written notice ("Written Election") to Langer of the City's intent in accordance with Section I.7. of this Agreement prior to undertaking construction of the South Extension.
- b. The City will issue a Notice to Proceed to the selected bidder(s) ("Contractor") for completion of the physical construction of the South Extension within ninety (90) days after delivery of the Written Election to Langer ("Commencement Date"). In the event the City fails to issue the Notice to Proceed by the Commencement Date and Langer has obtained final site plan approval for either Phases 6 and/or 7 by said date, the City will forfeit its right to undertake construction of the South Extension, and Langer will re-assume the obligation to substantially construct the South Extension in accordance with Section B.2. of this Agreement, unless Langer agrees in writing to extend the Commencement Date. If the City has not forfeited its right to undertake construction of the South Extension, the City will substantially complete the construction of the South Extension within fourteen (14) months after the Commencement Date ("Completion Date"), and in any event, prior to the issuance of an occupancy permit for any structure included in Phases 6 or 7.
- c. To ensure the Completion Date is met, the City will include the required Completion Date and penalties for late completion in the contract ("Contract") the City enters with the Contractor. The penalties shall be an amount calculated to reimburse Langer for any losses incurred by Langer due to Contractor's failure to substantially complete construction by the Completion Date when such failure prevents the reasonable use of Phases 6 or 7 for retail commercial purposes, but in any event not less than \$10,000.00 per day Langer is unable to make reasonable use of Phases 6 or 7 for commercial retail purposes. The City shall take all necessary and appropriate action to enforce the penalty provision in the Contract and forward any amounts collected to Langer within 30 days of the date the City receives payment.
- d. If the City elects to construct the South Extension under this Section B.3, the City will perform its construction activities in a manner that minimizes obstruction or interference with access to, from, or within the PUD and

Langer's construction, if any, and use of the subject property in accordance with the PUD. The City will mobilize, conduct, and maintain all construction activities, equipment and materials on and around the PUD in such manner to allow use of the South Extension and access between the PUD and the South Extension through all access driveways. The City's agreement to perform its construction activities consistent with this section is a material inducement for Langer to enter this Agreement as it will facilitate Langer's timely completion of the PUD in accordance with Langer's agreement with its end users of the PUD.

e. If the City elects to construct the South Extension, Langer will take the following actions prior to the City's commencement of construction:

(A) Grant the South Extension Right-of-Way to the City, provided the City shall bear the expense of preparing the legal description for the South Extension Right-of-Way.

(B) Grant to the City reasonable temporary construction easement(s) to allow the City to complete its construction commitments, provided Langer's grant of an easement(s) may be conditioned to ensure that the City's use of the PUD property does not unreasonably interfere with Langer's use and development of the PUD.

(C) If Langer has not yet constructed the stormwater facility on Phase 8 as provided in Section F.1 of this Agreement ("Stormwater Facility"), allow temporary location of stormwater detention and treatment from the South Extension on Phase 8 in either a temporary facility ("Temporary Facility") or the existing stormwater facilities located on Phase 7 and Phase 8 ("Existing Facilities"). To the extent that the Temporary Facility or the Existing Facilities will require any expenses for engineering, construction, design, maintenance, or modification to existing land use approvals, the City will bear the expenses. If applicable, Langer and the City shall execute and record appropriate easement documents or amendments to the existing easement for the Existing Facilities to formalize the parties' respective obligations under this subsection (C).

(D) Use reasonable best efforts to avoid damaging the Path during construction and development of the PUD, provided that if Langer causes any such damage, Langer shall, at its sole expense, repair and replace the Path back to its original condition.

C. ADAMS DRIVE NORTH EXTENSION

1. City Commitments. Except as otherwise provided in this section, as soon as reasonably practicable and in any event prior to Langer's construction of any portion of Adams Drive north of the PUD's northern boundary, the City, at the City's sole cost and expense, will take the following actions:
 - a. Acquire the necessary right-of-way for and complete the surveying, design, and engineering for construction of an extension of Adams Drive ("North Extension") from the north side of the intersection with Tualatin-Sherwood Road, north to the existing stub road connecting to Highway 99W, with the alignment to curve east around the PGE substation and connect to the east end of the Home Depot stub road. The street will be aligned and constructed in a manner consistent with the "60-percent drawings" prepared by Harper Hoff Peterson Righellis Inc, dated February 2010 and on file with the City (the "North Extension Plans"). The right-of-way, design and engineering shall anticipate and include at least 43 p.m. peak-hour vehicle trips per acre from Phase 4 to accommodate redevelopment of Phase 4.

Any substantial changes to the alignment and cross-section shall require an amendment to this Agreement. Such amendment shall only relate to this section of the Agreement, and all other terms and conditions of this Agreement shall remain in full force and effect. A "substantial change" may include but is not limited to an increase in the number of lanes, an increase in the right-of-way width by 10 or more feet, requiring additional landscaping, medians, or pedestrian paths, shifting the alignment east or west by fifty (50) or more feet, and/or any other changes that will substantially increase the cost of construction.

- b. Obtain all necessary permits for the construction and operation of the North Extension, including without limitation, all permits associated with impacts to wetlands, all approach and/or signal permits required by the Oregon Department of Transportation for the intersection of Highway 99W and the existing stub road, and all approach permits required by Washington County for the connection of the North Extension and Tualatin-Sherwood Road.
- c. Provide for the mitigation of any impacts to wetlands associated with the alignment and construction of the North Extension.
- d. Otherwise remove any legal or planning constraints to the construction of the North Extension.
- e. Pay any extraordinary labor costs associated with Langer's performance of its obligations under Section C.2., where "extraordinary labor costs" means any

costs required by law to exceed an arms-length privately negotiated rate solely due to the nature of the improvement.

- f. Pay any extraordinary construction costs associated with Langer's performance of its obligations under Section C.2. that are attributable to extraordinary environmental or geographic conditions.
- g. Pursuant to the City's standard timeline and procedure in such instances, assume maintenance obligations for all of the North Extension following the City's final inspection approval of the North Extension.
- h. Permit Langer to assume, for purposes of completing the required traffic study, that the North Extension has been planned and funded for construction prior to development of Phases 6 and 7 pursuant to Langer's alternative commitments to construct the North Extension or make a payment in lieu thereof pursuant to Section C.2. below.
- i. Permit Langer to assume, for purposes of completing the required traffic study, that the North Extension has been planned and funded for construction prior to the redevelopment of Phases 4 pursuant to Langer's alternative commitments to construct the North Extension or make a payment in lieu thereof pursuant to Section C.2. below.
- j. The City will not require the closure of any residential access to Phase 4 from Tualatin-Sherwood Road until redevelopment of Phase 4. The City will reimburse Langer for the cost of relocating and rebuilding any access to and from the existing commercial uses on Phase 4 resulting from the closure of any access due to the construction of the North Extension, including any necessary relocation of administrative facilities associated with the commercial use.
- k. In the event Langer pays a fee in lieu of construction as described in Section C.2. below, the City will:
 - (A) Place the payment into an existing or newly-created interest-bearing City Trust and Agency Fund;
 - (B) Grant credits for transportation System Development Charges ("SDC's") otherwise payable by Langer as if Langer had constructed the North Extension; and
 - (C) Use the payment-in-lieu exclusively for the construction of the North Extension. However, if the City has not entered into a contract for the construction of the North Extension or any portion thereof within five (5) years after Langer deposits the fee with the City, the City shall return the fee-in lieu, together with any interest thereon to Langer, Langer's successor or a

person designated by Langer's successor, minus any amount provided as a credit against transportation SDC's under paragraph (B) above. This Agreement does not constitute a "contract for construction of the North Extension" for purposes of this subsection.

2. Langer Commitments. Langer agrees to take the following actions with respect to the North Extension:
 - a. Subsequent to the City's performance of its obligations set forth in Section C.1. of this Agreement but prior to issuance of the final occupancy permit for any structure included in the development of Phase 6, Langer will substantially construct the North Extension consistent with the alignment and cross-section described in Section C.1.a. of this Agreement. However, in the event the City exercises its option to construct the South Extension under Section B.3. of this Agreement, Langer will substantially construct the North Extension prior to issuance of the final occupancy permit for any structure included in the development of Phases 6 or 7.
 - b. Alternatively, in the event the City has not substantially performed the obligations set forth in Section C. 1.a. to C.1.d. of this Agreement by a date that is sixty (60) days after Langer submits construction drawings for public improvements associated with the development of Phase 6 to the City, Langer shall submit a fee in lieu of construction in an amount equal to the cost estimate for the construction of the North Extension prior to the issuance of an occupancy permit for any structure included in the development of Phase 6. Langer's timely deposit of a fee in lieu under this paragraph shall fully satisfy Langer's obligations under Section C.2.a. of this Agreement and shall trigger the City's performance of its commitments under Section C.1.k. of this Agreement. In the event the City exercises its option to construct the South Extension under Section B.3. of this Agreement, the references to "Phase 6" in this subparagraph b. shall be replaced with "Phases 6 or 7."
 - c. In the event the City refunds the fee-in-lieu as described in Section C.1.k(C) of this Agreement prior to the redevelopment of Phase 4, and subsequent to the performance of the City's other obligations under Section C.1., Langer will substantially construct the North Extension consistent with the alignment and cross-section provided by the City prior to the issuance of an occupancy permit for any structure included in the redevelopment of Phase 4. In the event the City is still in possession of the fee-in-lieu at the time Phase 4 redevelops, the City will refund the fee to Langer, including any interest thereon, or will not require the construction of the North Extension as a condition of redevelopment.

D. RAIL CROSSING

1. City Commitments. As soon as reasonably practicable, the City, at the City's sole cost and expense, will take the following actions with respect to the Rail Crossing:
 - a. Acquire the necessary right-of-way for the Rail Crossing;
 - b. Obtain all required crossing or other permits from ODOT Rail and any other applicable agencies associated with the Rail Crossing;
 - c. Complete the design, engineering, and construction of the Rail Crossing; and
 - d. Use all reasonable best efforts to complete these actions and connect the South Extension to Oregon Street via the Rail Crossing no later than the date of issuance of occupancy permits for the development of Phases 6 and 7; provided, however, the failure to complete these actions by such date shall not be grounds to deny the issuance of such occupancy permits.
2. Langer Commitments. None.

E. CENTURY DRIVE

1. Langer Commitments. Langer agrees to take the following actions with respect to Century Drive:
 - a. Prior to issuance of final occupancy permits for any structure located in Phase 6 or Phase 7, design and substantially construct a reasonably direct vehicular connection between the existing terminus of Century Drive on the western boundary of the PUD and existing City right-of-way at the eastern boundary of the PUD ("Century Drive Connection"). The Century Drive Connection shall be constructed to the adjusted street standard described in Section E.2.a. below.
 - b. Following construction, dedicate a right-of-way easement to the City for the Century Drive Connection.
 - c. Provide the City with copies of receipts of eligible expenses where "eligible expenses" is defined to include all hard and soft costs of labor and materials associated with all aspects of the design, engineering, and construction, including applicable consultant fees, of the Century Drive Connection that exceed the cost of designing and constructing the Century Drive Connection as a standard parking lot drive aisle ("Eligible Expenses").

2. City Commitments. The City agrees to take the following actions with respect to Century Drive:
 - a. To work with Langer to achieve an adjustment to the relevant City street standards so that the nature, location, and design of the Century Drive Connection requires the minimum necessary right-of-way to provide a vehicular connection and includes traffic calming measures such as restrictions on through traffic for trucks.
 - b. Reimburse Langer for all undisputed Eligible Expenses within thirty (30) days after the City receives the receipts described in Section E.1.c.. City will immediately contact Langer regarding any disputed expenses and attempt to resolve the dispute within 90 days of the date the receipt containing the expense is received by the City. Any disputed expense that remains unresolved after 90 days shall be submitted to mediation as provided in Section I.12. of this Agreement; and
 - c. Pursuant to the City's standard timeline and procedure in such instances, accept Langer's dedication of the Century Drive Connection following final inspection approval and thereafter assume maintenance obligations for same.

F. STORMWATER FACILITY

1. Langer Commitments.
 - a. Prior to issuance of a final occupancy permit for the first structures located in Phases 6 or 7, Langer will design and substantially construct the "Stormwater Facility on Phase 8 (including any necessary portions of Phase 6), to accommodate existing stormwater detention and treatment for the PUD (including development of Phases 6, 7 and 8), and any detention and treatment associated with the South Extension and the Century Drive Connection. In conjunction with this construction, Langer retains the right to terminate use of the Existing Facilities and any Temporary Facility constructed pursuant to Section B.3.c. of this Agreement, provided the stormwater detention and treatment functions of the Existing Facilities and any Temporary Facility are incorporated into the Stormwater Facility and subject to any written agreements relating to the Existing Facilities. Langer retains the right to expand the Stormwater Facility to serve other public rights-of-way and uses outside the PUD in Langer's sole discretion, provided such expansion otherwise complies with City standards, including without limitation, awarding credits for SDC's.
 - b. Following construction, Langer will dedicate the Stormwater Facility to the public for use as a stormwater detention and treatment facility.

2. City Commitments.

- a. The City agrees to work with Langer, to the extent allowed by law, to issue any land use approvals related to termination of the Existing Facilities through an administrative process, to facilitate any related process for the vacation of any prior public dedications associated with the Existing Facilities, and to modify the existing recorded easement document among Langer and the City relating to the Existing Facilities.
- b. The City agrees to accept the dedication of the Stormwater Facility following final inspection approval and thereafter assume the maintenance obligations for same.

G. RENAMING OF ADAMS DRIVE

1. Langer Commitments. Prior to Langer's dedication of any portion of Adams Drive as described in this Agreement, Langer will submit a petition to the City to rename the completed portion of Adams Drive in accordance with the street name standards of ZCDC 16.108.010.4.A-C. Langer agrees to select a single name for Adams Drive from the southern end of the South Extension to the northern end of the North Extension.
2. City Commitments.
 - a. Provided the petition is submitted in the manner described in ZCDC 16.108.010.3, the City will support a petition received from Langer to rename the completed portion of Adams Drive.
 - b. If the petition is approved by the City Council, the City shall install standard City street signage identifying Adams Drive by its new name.

H. TRANSPORTATION CHARGES, FEES, AND CREDITS

1. Transportation Development Tax. The calculation and assessment of any Transportation Development Tax ("TDT"), including any TDT credits, will be made according to the Washington County TDT ordinance. Improvements to Tualatin-Sherwood Road will be creditable towards Washington County TDT's as allowed in Washington County's ordinance. It is the parties' mutual understanding that this ordinance provides full TDT credits for turn lanes and 50% or 66.67% for traffic signals for a four- and three-leg intersection, respectively. The City's commitment to this provision is a material inducement for Langer's agreement to complete the various public improvements set forth in this Agreement.

For the purpose of determining the number of weekday trips generated by all commercial land uses in Phases 4, 6, 7, and 8 of the PUD, the land use

category "Shopping Center" from ITE Trip Generation, 7th Edition, shall be applied to the Washington County TDT Ordinance for the calculations of the Washington County TDT.

2. Transportation SDC's.

The City shall calculate and assess the Project with SDC's and credits for SDC's, pursuant to the City's Municipal Code, as it may be amended from time to time, and subject to any resolutions adopted by the City implementing same.

For the purpose of determining the number of weekday trips generated by all commercial land uses in Phases 4, 6, 7, and 8 of the PUD, the land use category "Shopping Center" from ITE Trip Generation, 7th Edition, shall be applied to the City's SDC ordinance for the calculations of the City's SDC's.

3. Credits.

- a. Langer shall be entitled to seek SDC credits from the City and TDT credits from Washington County for all qualifying improvements and right-of-way dedications made by Langer, subject to the then applicable provisions of Oregon law and applicable ordinances. To the extent allowed by law, the City shall apportion SDC and TDT charges in the manner that maximizes the beneficial use of any resulting credits for Langer. In the event the City amends its SDC ordinance to eliminate the Transportation SDC prior to Langer's redemption of otherwise valid SDC credits, the City shall exercise good faith and best efforts to provide Langer a financial benefit in an amount equal to the value of any unredeemed credits in a manner consistent with applicable law, provided the City is not obligated to ensure such benefit or other return on the unredeemed credits.
 - b. The City hereby determines that, for purposes of qualifying for and administering SDC and TDT credits, Langer's construction of public improvements and dedication of right-of-way to the City pursuant to this Agreement are existing condition(s) of approval of the PUD, as it has been modified by the Minor Change approved in 2007.
4. Highway 99W Capacity Allocation Program. For purposes of calculating whether the trips associated with the regulated activities in Phases 6, 7, and 8 of the PUD exceed the trip limit of ZCDC 6.306.D.4, the City shall aggregate the trips and acreage of all such phases. As a result, the trips associated with the regulated activities of a single phase may exceed the trip limit that would otherwise apply if that phase were calculated individually, provided that the trips associated with all regulated activities for Phases 6, 7, and 8 do not exceed the trip limit in the aggregate. At each phase of development of the PUD, the number of reserve trips for the remaining phases will be identified in the applicable Trip Allocation Certificate.

I. TERMS AND CONDITIONS

1. Further Assurances. Each party shall execute and deliver any and all additional papers, documents and other assurances, and shall do any and all acts and things reasonably necessary in connection with the performance of its obligations hereunder in good faith, to carry out the intent of the parties hereto.
2. Modification of Amendment. No amendment, change or modification of this Agreement shall be valid, unless in writing and signed by the parties hereto.
3. Relationship. Nothing herein shall be construed to create an agency relationship or a partnership or joint venture between the parties.
4. Waiver of Default or Condition. In the event a party defaults in the performance of one or more of its obligations under this Agreement or in the event of the failure of a condition precedent to be satisfied under this Agreement, the nondefaulting party or beneficiary of the condition may, in its discretion, waive, as applicable, the default or satisfaction of condition hereunder and rescind any consequence of such default or failure of a condition, and in case of any such waiver or rescission, the parties shall be restored to their former positions and rights hereunder respectively, but no such waiver or rescission shall extend to or affect any subsequent or other default or condition precedent, or impair any right consequent thereon. No such waiver or rescission shall be in effect unless the same is in writing and signed by the nondefaulting party.
5. Burden and Benefit; Assignment. The covenants and agreements contained herein shall be binding upon and inure to the benefit of the parties and their successors and assigns and shall run with the land. Neither party may assign this Agreement without the prior written consent of the other party, which consent shall not be unreasonably withheld, conditioned or delayed.
6. Applicable Law. This Agreement shall be interpreted under the laws of the State of Oregon.
7. Notices. All notices, demands, consents, approvals and other communications which are required or desired to be given by either party to the other hereunder shall be in writing and shall be faxed, hand delivered, or sent by overnight courier or United States mail at its address set forth below, or at such other address as such party shall have last designated by notice to the other. Notices, demands, consents, approvals, and other communications shall be deemed given when delivered, three days after mailing by United States Mail or upon receipt if sent by courier; provided, however, that if any such notice or other communication shall also be sent by telecopy or fax machines,

such notice shall be deemed given at the time and on the date of machine transmittal.

8. Merger. This Agreement contains the entire agreement among the parties hereto with respect to the subject matter hereof and cannot be amended or supplemented except by a written agreement signed by all parties.
9. Rights Cumulative. All rights, remedies, powers and privileges conferred under this Agreement on the parties shall be cumulative of and in addition to, but not restrictive of or in lien of, those conferred by law.
10. No Third Party Beneficiaries. None of the duties and obligations of any party under this Agreement shall in any way or in any manner be deemed to create any rights in, any person or entity other than the parties hereto.
11. Force Majeure. The parties shall use reasonable diligence to accomplish the purpose of this Agreement but shall not be liable to each other, or their successors or assigns, for damages, costs, attorneys' fees (including costs or attorneys' fees on appeal) for breach of contract, or otherwise for failure, suspension, diminution, or other variations of services occasioned by any cause beyond the control and without the fault of the parties. Such causes may include but shall not be limited to acts of God, acts of terrorism or the public enemy, acts of other governments (including regulatory entities or courts) in their sovereign or contractual capacity, fires, floods, epidemics, quarantines, restrictions, strikes, or failure or breakdown of transmission or other facilities ("Force Majeure"). If any party is delayed, hindered, or prevented in or from performing its respective obligations under this Agreement by any occurrence or event of Force Majeure, then the period for such performance shall be extended for that period that such performance is delayed, hindered, or prevented.
12. Mediation. Should the parties arrive at an impasse regarding any of the provisions of this Agreement, the parties agree to submit to the dispute to mediation prior to the commencement of litigation. The mediator shall be an individual mutually acceptable to both parties, but in the absence of agreement, either party may apply to the Presiding Judge, Washington County Circuit for appointment of a mediator. Each party shall share equally in the fees and costs of the mediator. Each party shall be responsible for its own attorneys fees and other expert fees. Mediation shall be at Portland, Oregon unless the parties agree otherwise. Both parties agree to exercise their best effort in good faith to resolve all disputes in mediation. Participation in mediation is a mandatory requirement of both the City and Langer and failure to comply with this requirement is a material breach of this Agreement. The schedule and time allowed for mediation will be mutually acceptable. If the dispute is not resolved by mediation, either party may file a lawsuit to resolve the dispute in a court with proper jurisdiction located in Washington County,

Oregon. Any trial shall be to the court without a jury. In the event of any such mediation or litigation, each party shall bear its own attorneys' fees and costs.

13. Conditions Precedent to Langer's Performance. Langer's commitments set forth in this Agreement are conditioned entirely upon the City's performance of all of its commitments that are precedent to the City's commitments under and in accordance with this Agreement, and the City's timely issuance of a PUD modification for the subject property.
14. Conditions Precedent to City's Performance. City's commitments set forth in this Agreement are conditioned entirely upon Langer's performance of all of its commitments that are precedent to the City's commitments under and in accordance with this Agreement.
15. Nature of Agreement. The City hereby confirms that it has approved and executed this Agreement pursuant to its governing charter and not pursuant to ORS 94.504 *et seq.*, and does further confirm that this Agreement does not constitute or concern the adoption, amendment, or application of the Statewide Planning Goals, a comprehensive plan provision, or a land use regulation, the City and Langer acknowledging and agreeing that any and all land use approvals required for the PUD are to be obtained (or have been obtained) in due course on another date in accordance with all applicable laws and regulations.
16. Amendment and Restatement. The Parties intend that this Agreement acts as a full and amended restatement of the original 2008 Agreement. Upon this Amended and Restated Agreement taking effect, the original 2008 Agreement shall no further force or effect.
17. Duration. This Agreement expires not later than January 1, 2015; provided, however, the expiration date of this Agreement shall be automatically extended to January 1, 2017 in the event that on January 1, 2015, Langer is not in material default of any provisions of this Agreement, has substantially built out Phase 7, and has obtained a certificate of occupancy for at least one (1) structure in Phase 6.

February 28, 1995

2.109 GENERAL COMMERCIAL (GC)

2.109.01 Purpose

The GC zoning district provides for wholesale and commercial uses which require larger parcels of land, and or uses which involve products or activities which require special attention to environmental impacts as per Chapter 8.

2.109.02 Permitted Uses

The following uses are permitted outright, provided such uses meet the applicable environmental performance standards contained in Chapter 8:

- A. Professional services, including but not limited to financial, medical and dental, social services, real estate, legal, artistic, and similar uses.
- B. General retail trade, including bakeries where product distribution is limited to retailing on the premises only.
- C. Personal and business services, including day cares, preschools, and kindergartens.
- D. Postal substations when located entirely within and incidental to a use permitted outright.
- E. Temporary uses, including but not limited to portable construction offices and real estate sales offices, subject to Section 4.500.
- F. Farm and garden supply stores, and retail plant nurseries, but excluding wholesale plant nurseries, and commercial farm equipment and vehicle sales which are prohibited.
- G. Agricultural uses such as truck farming and horticulture, excluding commercial buildings and structures, or the raising of animals other than household pets.
- H. Commercial trade schools.
- I. Motion picture and live theaters, but excluding drive-ins which are prohibited.
- J. Restaurants, taverns, and lounges.

- K. Automotive and other appliance and equipment parts sales, but excluding junkyards and salvage yards which are prohibited.
- L. Blueprinting, printing, publishing, or other reproduction services.
- M. Automobile, recreational vehicle, motorcycle, truck, manufactured home, boat, farm, and other equipment sales, parts sales, repairs, rentals or service.
- N. Wholesale trade, warehousing, commercial storage and mini-warehousing, except as prohibited in Sections 2.110.04E and 2.111.04E.
- O. Limited manufacturing, including only: beverage bottling plants, commercial bakeries, machine shops, and handicraft manufacturing.
- P. Building material sales, lumberyards, contractors storage and equipment yards, building maintenance services, and similar uses.
- Q. Veterinarian offices and animal hospitals.
- R. Agricultural uses including but not limited to farming, and wholesale and retail plant nurseries, with customarily associated commercial buildings and structures permitted.
- S. Medical, dental, and similar laboratories.
- T. Truck and bus yards and terminals.
- U. Adult entertainment businesses, subject to Section 2.208.

2.109.03 Conditional Uses

The following uses are permitted as conditional uses, provided such uses meet the applicable environmental performance standards contained in Chapter 8, and are approved in accordance with Section 4.300:

- A. Special care facilities, including but not limited to hospitals, sanitariums, convalescent homes, correctional institutions, and residential care facilities.
- B. Radio, television, and similar communication stations, including transmitters.
- C. Churches and parsonages.

- D. Cemeteries and crematory mausoleums.
- E. Public and private utility buildings, including but not limited to telephone exchanges, electric substation, gas regulator stations, treatment plants, water wells, and public works yards.
- F. Government offices, including but not limited to administrative office, post offices, and police and fire stations.
- G. Public use buildings including but not limited to libraries, museums, community centers and senior centers.
- H. Private lodges, fraternal organizations, country clubs, sports and racquet clubs, and other similar clubs, but excluding golf courses which are prohibited.
- I. Motels or hotels.
- J. Residential apartments when located on the upper floors, in the rear of, or otherwise clearly secondary to a commercial building.
- K. Public recreational facilities, including but not limited to parks, playfields, and sports and racquet courts, but excluding golf courses which are prohibited.
- L. Public and private schools providing education at the elementary school level or higher.
- M. Any incidental business, service, process, storage or display, not otherwise permitted by Section 2.109, that is essential to and customarily associated with any use permitted outright.

2.109.04 Prohibited Uses

The following uses are expressly prohibited:

- A. Junkyards and salvage yards.
- B. Industrial and manufacturing uses, except as specifically permitted by Sections 2.109.02 and 2.109.03.
- C. Any other prohibited use noted in Section 2.109.03.

2.109.05 Dimensional Standards

No lot area, setback, yard, landscaped area, open space, off-street parking or loading area, or other site dimension or

requirement, existing on, or after, the effective date of this Code shall be reduced below the minimum required by this Code. Nor shall the conveyance of any portion of a lot, for other than a public use or right-of-way, leave a lot or structure on the remainder of said lot with less than minimum Code dimensions, area, setbacks or other requirements, except as permitted by Section 4.400.

A. Lot Dimensions

Except as otherwise provided, required minimum lot areas and dimensions shall be:

1. Lot area: 10,000 square feet
2. Lot width at front property line: 70 feet
3. Lot width at building line: 70 feet

B. Setbacks

Except as otherwise provided, required minimum setbacks shall be:

1. Front yard: None, unless the lot abuts a residential zone, then the front yard shall be that required in the residential zone.
2. Side yards: None, unless abutting a residential zone or public park property, then there shall be a minimum of twenty (20) feet.
3. Rear yard: None, unless abutting a residential zone, then there shall be a minimum of twenty (20) feet.
4. Existing residential uses shall maintain setbacks specified in Section 2.105.04.

C. Height

Except as otherwise provided, the maximum height of structures shall be fifty (50) feet, except structures within one hundred (100) feet of a residential zone shall be limited to the height requirements of that residential area. Structures over fifty (50) feet in height may be permitted as conditional uses, subject to Section 4.300.

2.109.06 Community Design

For standards relating to off-street parking and loading, energy conservation, historic resources, environmental resources, landscaping, access and egress, signs, parks and open space, on-site storage, and site design, see Chapters 5, 8 and 9.

2.109.07 Flood Plain

Except as otherwise provided, Section 8.202 shall apply.

2.110 LIGHT INDUSTRIAL (LI)

2.110.01 Purpose

The LI zoning district provides for the manufacturing, processing, assembling, packaging and treatment of products which have been previously prepared from raw materials. Industrial establishments shall not have objectionable external features and shall feature well-landscaped sites and attractive architectural design, as determined by the Commission.

2.110.02 Permitted Uses

The following uses are permitted outright, provided such uses meet the applicable environmental performance standards contained in Chapter 8.

- A. Veterinarians offices and animal hospitals.
- B. Contractor's offices, and other offices associated with a use permitted in the LI zone.
- C. Public and private utilities including but not limited to telephone exchanges, electric substations, gas regulator stations, sewage treatment plants, water wells and public works yards.
- D. Glass installation and sales.
- E. Government offices, including but not limited to postal stations, administrative offices, police and fire stations.
- F. Automobile, boat, trailer, and recreational vehicle storage.
- G. Laboratories for testing and medical, dental, photographic, or motion picture processing, except as prohibited by Section 2.110.04E.
- H. Industrial hand tool and supply sales, primarily wholesaled to other industrial firms or industrial workers.
- I. Other similar light industrial uses subject to Section 4.600.
- J. Uses permitted outright in the GC zone, Section 2.109.02, except for adult entertainment businesses which are prohibited.

- K. Dwelling unit for one (1) security person employed on the premises, and their immediate family.
- L. PUDs, subject to the provisions of Section 2.202.
- M. Temporary uses, including but not limited to construction and real estate sales offices, subject to Section 4.500.

2.110.03 Conditional Uses

The following uses are permitted as Conditional Uses provided such uses meet the applicable environmental performance standards contained in Chapter 8 and are approved in accordance with Section 4.300:

- A. Manufacture, compounding, processing, assembling, packaging, treatment, fabrication, wholesaling, warehousing or storage of the following articles or products:
 - 1. Food products, including but not limited to candy, dairy products, beverages, coffee, canned goods and baked goods, and meat and poultry, except as prohibited by Section 2.110.03.
 - 2. Appliances, including but not limited to, refrigerators, freezers, washing machines, dryers; small electronic motors and generators; heating and cooling equipment; lawn mowers, rototillers, and chain saws; vending machines; and similar products and associated small parts.
 - 3. Cosmetics, drugs, pharmaceutical, toiletries, chemicals and similar products, except as prohibited by Section 2.110.04.
 - 4. Electrical, radio, television, optical, scientific, hearing aids, electronic, computer, communications and similar instruments, components, appliances and systems, and similar products and associated small parts.
 - 5. Building components and household fixtures, including but not limited to furniture, cabinets, and upholstery; ladders; mattresses, doors and windows; signs and display structures; and similar products and associated small parts.
 - 6. Recreational vehicles and equipment, including but not limited to bicycles, recreational watercraft, exercise equipment, and similar products and

associated small parts, but excluding motorized equipment unless otherwise permitted by Section 2.110.02 or 2.110.03.

7. Musical instruments, toys and novelties.
 8. Pottery and ceramics, limited to products using previously pulverized clay.
 9. Textiles and fiber products.
 10. Other small products and tools manufactured from previously prepared or semi-finished materials, including but not limited to bone, fur, leather, feathers, textiles, plastics, glass, wood products, metals, tobacco, rubber, and precious or semi-precious stones.
- B. Laundry, dry cleaning, dyeing or rug cleaning plants.
- C. Light metal fabrication, machining, welding and electroplating and casting or molding of semi-finished or finished metals.
- D. Offices associated with a use conditionally permitted in the LI Zone.
- E. Sawmills.

2.110.04 Prohibited Uses

The following uses are expressly prohibited:

- A. Adult Entertainment Businesses.
- B. Any use permitted or conditionally permitted under Section 2.111 that is not specifically listed in this Section, and any use listed in Section 2.111.04.
- C. Auto wrecking and junk or salvage yards.
- D. Distillation of oil, coal, wood or tar compounds and the creosote treatment of any products.
- E. Manufacture, compounding, processing, assembling, packaging, treatment, fabrication, wholesale, warehousing, or storage of the following products of substances, except for any incidental business, service, process, storage, or display that is essential to and customarily associated, in the City's determination, with any otherwise permitted or conditionally permitted use:

1. Abrasives, acids, disinfectants, dyes and paints, bleaching powder and soaps and similar products.
 2. Ammonia, chlorine, sodium compounds, toxics, and similar chemicals.
 3. Celluloid or pyroxylin.
 4. Cement, lime, gypsum, plaster of Paris, clay, creosote, coal and coke, tar and tar-based roofing and waterproofing materials and similar substances.
 5. Explosives and radioactive materials.
 6. Fertilizer, herbicides and insect poison.
- F. Metal rolling and extraction mills, forge plants, smelters and blast furnaces.
- G. Pulp mills and paper mills.
- H. Slaughter of livestock or poultry, the manufacture of animal by-products or fat rendering.
- I. Leather tanneries.
- J. General purpose solid waste landfills, incinerators, and other solid waste facilities.

2.110.05 Dimensional Standards

No lot area, setback, yard, landscaped area, open space, off-street parking or loading area, or other site dimension or requirement, existing on, or after, the effective date of this Code shall be reduced below the minimum required by this Code. Nor shall the conveyance of any portion of a lot, for other than a public use or right-of-way, leave a lot or structure on the remainder of said lot with less than minimum Code dimensions, area, setbacks or other requirements, except as permitted by Section 4.400.

A. Lot Dimensions

Except as otherwise provided, required minimum lot area and dimensions shall be:

1. Lot area: 10,000 sq. feet
2. Lot width at front property line: 100 feet
3. Lot width at building line: 100 feet

B. Setbacks

Except as otherwise provided, required minimum setbacks shall be:

1. Front yard: Twenty (20) feet, except when abutting a residential zone or public park, then there shall be a minimum of forty (40) feet.
2. Side yards: None, except when abutting a residential zone, then there shall be a minimum of forty (40) feet.
3. Rear yard: None, except when abutting a residential zone, then there shall be a minimum of forty (40) feet.
4. Corner lots: Twenty (20) feet on any side facing a street, except when abutting a residential zone, then there shall be a minimum of forty (40) feet.

C. Height

Except as otherwise provided, the maximum height shall be fifty (50) feet, except that structures within one hundred (100) feet of a residential zone shall be limited to the height requirements of the residential zone.

2.110.06 Community Design

For standards relating to off-street parking and loading, energy conservation, historic resources, environmental resources, landscaping, access and egress, signs, parks and open space, on-site storage, and site design, see Chapters 5, 8 and 9.

2.110.07 Flood Plain

Except as otherwise provided, Section 8.202 shall apply.

Exhibit I: Pre-Application Conference Documentation

Pre-Application Conference Notes

File # PAC 2021-015 Chestnut Inn & Storage

Meeting Date – January 6, 2022

Staff Contact - Eric Rutledge

rutledge@sherwoodoregon.gov

503-625-4242

Type IV Site Plan / Type IV Major Modification / Type III Conditional Use Permit / Type I Property Line Adjustment

The pre-application conference and notes cannot cover all code requirements and aspects that apply to the proposal. Failure of staff to provide information required by the code does not constitute a waiver of the applicable standards or requirements. It is recommended that a prospective applicant obtain and read the Zoning and Community Development Code and/or ask any questions of City staff relative to code requirements prior to submitting an application.

PROJECT SUMMARY

Proposed Project Name:	Chestnut Inn and Storage
Proposal Description:	The applicant is proposing a new 100-room hotel and 75,000 SF storage building on Lots 1 and 2 of the Parkway Village South subdivision. The property is zoned Light Industrial PUD and is identified as Phase 8 of the Langer Planned Unit Development. Access to the development is proposed from existing driveways along SW Century Dr. and SW Langer Farms Parkway.
Applicant:	Langer Parkway South, LLC 28185 SW Heater Rd. Sherwood, OR 97140
Property Owner:	Same as above
Site Address:	No site address
Tax Lot ID:	2S129DC01100 (Lot 1) and 2S129DC01200 (Lot 2)
Land Use Designation:	Light Industrial PUD

APPLICATION TYPE, TIMELINE & FEES

Full details on application type, noticing, and public hearing procedures listed under SZCDC § 16.72

Application Type and Hearing Authority

Type IV Site Plan Review and Major Modification

- The Type IV Hearing Authority is Planning Commission and the Appeal Authority is City Council
- All applications, including the Type III Conditional Use Permit and Type I PLA can be reviewed concurrently under the Type IV procedures

Estimated Approval Timeline

- 30 day completeness review
- 30-45 days for public hearing date after application is deemed complete
- 14 day appeal period for all land use decisions

Land Use Fees

Fees as of July 1, 2021. Please confirm fees with staff prior to submittal as fee schedule is revised annually. Engineering plan review, building permit, and SDC fees separate.

- | | |
|--|------------|
| • Type IV Site Plan Review (storage) | \$6,843.14 |
| <i>Additional \$102 for every 10,000 SF over the first 15,000 SF</i> | |
| • Type IV Major Modification to Approved Site Plan (hotel) | \$2,667.12 |
| • Type IV Publication and Distribution Notice | \$466 |
| • Type III Conditional Use Permit (w/ concurrent app) | \$2,278.52 |
| • Type I Final Site Plan Review | \$713.13 |
| • Type I Property Line Adjustment | \$817.23 |

APPLICATION SUBMITTAL REQUIREMENTS

See attached Land Use Application form and Site Plan Review Checklist. A Neighborhood Meeting is required prior to submitting a Type IV land use application.

The following items require review by outside agencies prior to submittal to the City of Sherwood and are completeness items:

- Clean Water Service SPL
- Tualatin Valley Fire & Rescue SPL

Note: Applicants are encouraged to submit 4 full and reduced size paper copies and one electronic copy for completeness review. The full number of paper copies and one updated electronic copy will be required after the application is deemed complete

STAFF COMMENTS ON APPLICABLE CRITERIA AND GENERAL REQUIREMENTS

The following comments are based on staff's review of the information provided on the pre-application form and accompanying attachments.

Summary of important issues / information:

Required Land Use Permits

- Type IV Site Plan Review (Lot 1, storage)
- Type IV Major Modification to Approved Site Plan (Lot 2, hotel)
 - An increase in the floor area or height proposed for non-residential use by more than ten (10) percent requires a Major Modification.
- Type III Conditional Use Permit (Lot 2, hotel)
- Type I Property Line Adjustment
- Type I Final Site Plan Review

Zoning & Proposed Land Uses

- The proposed self-storage use is not permitted in the LI zone under the current development code; however, “mini-warehousing” was a permitted use on the site in 2012 when the parent parcel was created by subdivision (Case File SUB 12-012). Mini-warehousing or “self-storage” is therefore a permitted use on the site until August 28, 2022 pursuant to ORS 92.040.
 - To avoid the risk of an appeal on the timing of the 10-year vesting period, the applicant is encouraged to obtain a final local decision on the application before August 28, 2022, the expiration date of the 10-year vesting period under ORS 92.040.
- The proposed hotel use is permitted as a Conditional Use in the current LI zone (when located within ¼ mile of a Retail Commercial / General Commercial zone) and was permitted as a Conditional Use on the site in 2012 when the parent parcel was created by subdivision (Case File SUB 12-012).
 - The application shall indicate which code the use is proposed under. Staff recommends applying for the use under the current LI zoning district to avoid any issues with the vesting timeline and findings.

Major Modification Site Plan Review

- Lot 2 received Site Plan approval in 2017 (SP 17-01) and Minor Modification approval in 2018 (MMSP 18-08). The proposed hotel represents an increase in floor area and height by more than 10% and Major Modification approval is required.
- Please address SZCDC § 16.90.030 in the narrative

Development Standards

Development Standards	LI Zone
Lot area - industrial uses:	10,000 SF
Lot area - commercial uses (subject to <u>Section 16.31.050</u>):	10,000 SF
Lot width at front property line:	100 feet
Lot width at building line:	100 feet
Front yard setback ¹¹	20 ft.
Side yard setback ¹⁰	None
Rear yard setback ¹¹	None
Corner lot street side ¹¹	20 ft.
Height ¹¹	50 feet

¹⁰ When a yard is abutting a residential zone or public park, there shall be a minimum setback of forty (40) feet provided for properties zoned Employment Industrial and Light Industrial zones, and a minimum setback of fifty (50) feet provided for properties zoned General Industrial.

¹¹ Structures located within one hundred (100) feet of a residential zone shall be limited to the height requirements of that residential zone.

Site and Building Design Standards

- The proposed storage use is classified as “industrial” and is located along a collector street. Portions of the development visible from SW Century Dr. and within 200 ft. of the street are required to meet the design standards in SZCDC § 16.90.020(D)(7).
- The proposed hotel use is classified as “commercial” and is required to meet the design standards in SZCDC § 16.90.020(D)(6).
 - If the hotel use is proposed under the current LI zoning district, SZCDC 16.31.040 applies. The hotel shall provide a minimum of 200 square feet of interior floor area for conference and/or meeting rooms, exclusive of dining, breakfast and lobby areas.
- Both proposed developments are required to meet the applicable Community Design Standards in SZCDC Division V and the design standards of the 1995 PUD.

Landscaping

- A 10 ft. wide landscaped visual corridor is required on private property along the SW Century Dr. frontage.
- Commercial and industrial developments require 30% tree canopy over the development site. Specific tree canopy calculations apply. See SZCDC § 16.142.070(D).
- 45 SF of parking area landscaping is required per stall. Industrial land uses require one (1) landscaped island for every twelve (12) contiguous stalls, commercial uses require one (1) landscaped island for every ten (10) contiguous stalls. Specific planting requirements are listed under SZCDC § 16.92.030(B)(4)

Parking, Loading, and Maneuvering Areas

- Hotel uses require a minimum of 1 stall per room with no maximum.
- Parking requirements for self-storage or mini-storage are not provided in the development code. The applicant can propose a parking ratio for the self-storage use based on floor area or units, to be approved by Planning Commission.
- All uses shall provide adequate parking to meet the minimum code requirement on their own lot, unless a shared parking agreement is executed. Please submit any existing or proposed shared parking agreement and/or CC&Rs with the application.
- Parking layout and dimensional standards are listed under SZCDC § 16.94.020(B). 25% of the required stalls can be compact.
- Any area to be used for the maneuvering of delivery vehicles and the unloading or loading of materials shall be separated from designated off-street parking areas and designed to prevent the encroachment of delivery vehicles onto off-street parking areas or public streets.
- Partition Plat 2017-019 contains a private 30 ft. wide access easement between SW Langer Farms Pkwy. and Lot 2. An access easement between SW Langer Farms Parkway / SW Century Dr. and Lot 1 is not shown on the plat. An access easement between Lot 1 and the driveways providing access to both public streets is required.

Pedestrian Circulation

- An on-site pedestrian circulation system is required. The system “shall extend from the ground floor entrances or the ground floor landing of stairs, ramps or elevators to the public sidewalk or curb of the public street which provides required ingress and egress”.
 - The pathway system shall also connect all building entrances to one another and to parking and storage areas.
 - The minimum width of the pedestrian pathways is 6 ft. for “primary” pathways which connect directly to a public street and 4 ft. for “secondary” pathways.
 - See SZCDC § 16.96 for full on-site circulation requirements.
- An easement or other shared use agreement (CC&Rs) is required for the proposed sky bridge connecting Lots 2 and 3.

On-Site Storage

- Solid waste and recycling storage areas shall be screened by a six (6) foot tall sight-

obscuring fence or masonry wall and be easily accessible to collection vehicles. See Pride Disposal standards attached.

- Outdoor material storage - All service, repair, storage, and merchandise display activities carried on in connection with any commercial or industrial activity, and not conducted within an enclosed building, shall be screened from the view of all adjacent properties and adjacent streets by a six (6) foot to eight (8) foot high, sight obscuring fence subject to chapter 16.58.020.

Environmental

- Environmental resources located near the property were identified and protected as part the Langer Farms Subdivision (2012). A wetland and habitat buffer are located on Tract A to the south of Lots 1 and 2. Tract A is owned and maintained by the City.

Utilities, Transportation, and Public Improvements

- Utilities, Stormwater, Transportation, and Public Improvement Requirements – please refer to the City of Sherwood Engineering Comments (attached)

AGENCY COMMENTS

City of Sherwood Engineering Comments

APPLICANT QUESTIONS

Applicant Questions

1. Please confirm that self-storage is a permitted use of the property (Lot 1 of South Parkway Village) by way of the 1995 Langer PUD, the 2010 Amended and Restated Development Agreement, and the Langer Farms Subdivision Plat.

Response: The proposed land use of self-storage is not permitted in the LI zone under the current development code; however, “mini-warehousing” was a permitted use on the site in 2012 when the parent property was created by subdivision (Case File SUB 12-012). Mini-warehousing or “self-storage” is therefore a permitted use on the site until August 28, 2022 pursuant to ORS 92.040.

To avoid the risk of an appeal on the timing of the 10-year vesting period, the applicant is encouraged to obtain a final local decision on the application before August 28, 2022, the expiration date of the 10-year vesting period under ORS 92.040.

The 1995 PUD requirements and conditions of approval still apply to the site; however, the 2010 Development Agreement has expired and does not apply to the application or development site.

2. The City has granted Final Site Plan approval for South Parkway Village (City File No.’s SP 17-01 and MMSP 18-08) including a planned day care facility on Lot 2. The City has also determined that sufficient construction has been completed for South Parkway Village such that the project is vested and permitted to proceed. Due to market changes that have occurred since the final site plan was approved, the property owner would like to discuss a different potential land use/site plan for Lot 2 (a hotel). A hotel would be considered a permitted use on Lot 2 of South Parkway Village similar to self-storage being a permitted use on Lot 1, as described above. Regardless of any potential update/change to this portion of South Parkway Village (Lot 2), the approval/vesting status for the rest of the project remains intact is not planned to be abandoned. Please confirm if this is acceptable to City staff and provide relevant comments.

Response: Hotel and motels require a Conditional Use Permit in the LI zone under the current development code. Hotels and motels were also permitted as a Conditional Use on the site in 2012 when the parent property was created by subdivision (Case File SUB 12-012). Therefore hotels and motels are permitted on the site with a Conditional Use permit. Staff recommends applying for the hotel use under the current LI code to avoid any issues with the vesting deadline.

The Planning Dept. is confirming the question above regarding the vesting status of the remainder of the site.

3. Please discuss the visual corridor requirements and their applicability to this project.

Response: A 10 ft. wide visual corridor is required on private property within the front setback along SW Century Dr. Trees shall be located outside of the 8 ft. wide PUE. Shrubs and groundcover are acceptable within the PUE.

4. Please confirm the applicability of the commercial/industrial design matrices.

Response: Mini-storage is required to meet the industrial design standards in SZCDC § 16.90.020(D)(7). The hotel is required to comply with the commercial design standards in

SZCDC § 16.90.020(D)(6). Both buildings are required to comply with the design standards of the 1995 PUD.

5. Please confirm the applicable minimum building setbacks and how they will be applied to the new buildings shown on the Preliminary Site Plan.

Response: The mini-storage building is industrial and is required to comply with the current Light Industrial zone setback standards, including 20 ft. setback along SW Century Dr. The hotel is commercial and is required to comply with the Light Industrial zone setback unless located along the street frontage. If located on the street frontage, previous land use decisions have established a 10 ft. setback along SW Century Dr. to accommodate the 10 ft. visual corridor. No additional front setback would be required.

6. Please confirm the maximum floor area ratio and/or lot coverage requirements, if any.

Response: There are no minimum or maximum FARs that apply to the project. Setback, height, and other development standards for the LI zone apply.

7. SZCDC Section 16.94.020 states a hotel requires a minimum of 1 vehicle parking space per room and self-storage is an unlisted use. Please confirm the parking requirements for both planned uses.

Response: Hotels require 1 stall per room. The applicant can propose a parking ratio for self-storage with final approval provided by the Hearing Authority. All uses shall provide adequate parking to meet the minimum code requirement on their own lot, unless a shared parking agreement is executed.

8. Are there any building/planning requirements we should be aware of regarding the skybridge connecting the planned hotel building to the existing Langer's Entertainment Center building, as shown on the Preliminary Site Plan? Please describe any special standards/requirements for the skybridge crossing an existing property line?

Response: In addition to building and fire code requirements, an easement or other shared use agreement (CC&Rs) is required for the proposed sky bridge connecting Lots 2 and 3.

9. Please confirm the landscaping and tree canopy requirements as they relate to this site/each use.

Response: The storage use and site is considered "industrial" for determining landscaping and tree canopy requirements. The hotel use and site is considered "commercial" for determining landscaping and tree canopy requirements. See SZCDC § 16.92 and 16.142 for full landscaping requirements.

10. Please discuss solid waste and recycling storage requirements (i.e., location, screening,

accessibility).

Response: SZCDC 16.98.020 - Solid Waste and Recycling Storage - All uses shall provide solid waste and recycling storage receptacles which are adequately sized to accommodate all solid waste generated on site. All solid waste and recycling storage areas and receptacles shall be located out of public view. Solid waste and recycling receptacles for multi-family, commercial, industrial and institutional uses shall be screened by six (6) foot high sight-obscuring fence or masonry wall and shall be easily accessible to collection vehicles.

In addition, access and design standards from Pride Disposal apply. See attached provider handout.

11. Please let us know if any additional studies or analyses are necessary. Is a transportation impact study (TIS) required for this project?

Response: Yes, a TIA is required for the project. Please refer to the City of Sherwood Engineering comments.

12. Please confirm the planned project may be submitted as a combined or separate Site Plan Review application(s). Additionally, please discuss the anticipated review process and timeline.

Response: The hotel, mini-storage, and lot line adjustment application can be processed concurrently under the City's Type IV land use procedures. See estimated application timeline above.

13. Please discuss all application fees (Land Use, SDCs, TDTs, etc.).

Response: See above for land use fees. Building permit fees can be determined by contacting the Building Dept. See contact info for Karen Abdill below. Engineering fees can be determined by contacting Craig Christensen or Jo Guediri, see contact info below. SDC fees can be determined using the link below.

<https://www.sherwoodoregon.gov/engineering/page/system-development-charges-sdc>

14. Please discuss any future changes to the SZCDC and/or any other applicable standards, regulations, etc. and what impact those changes may have on this project.

Response: No changes are anticipated to the zoning code that would impact the project.

Street/Transportation/Circulation

15. Please discuss the frontage improvements required along SW Century Drive, if any, and/or confirm the existing improvements (paved road with, street trees, sidewalk, etc.) are adequate per City of Sherwood standards.

Response: Please refer to the attached City of Sherwood Engineering comments.

16. Please confirm the site circulation, drive aisles, and shared parking areas shown on the Preliminary Site Plans are sufficient and meet City standards.

Response: The eastern drive aisle on SW Century Dr. (collector) may be limited to loading / emergency vehicles due to its proximity to another existing driveway to the east.

Lot 1 does not appear to have an access easement for movement between the lot and others in the subdivision or public street driveways. An access easement between Lot 1 and one or more points of access is required.

Each lot is required to meet the minimum parking requirement on their own unless a reduction to parking is approved under SZCDC § 16.94.010(C) and a shared parking agreement is implemented. The shared parking agreement would be required as a Condition of Approval.

Compact stalls at 90° are required to have a 26 ft. wide drive aisle. Regular sized at 90° are required to have a 24 ft. drive aisle. The Site Plan appears to meet the drive aisle requirements if all stalls are standard size (20' x 9'). 3 ft. overhang into an adjacent sidewalk or planter strip is allowed, however, minimum ADA requirements for sidewalks must be maintained with the 3 ft. overhang.

A TVF&R SPL is required to determine fire access requirements. Please contact Ty Darby or obtain a Fire SPL.

17. Please confirm the existing site accesses to SW Century Drive are permitted to remain unchanged.

Response: The eastern drive aisle on SW Century Dr. (collector) may be limited to loading / emergency vehicles due to its proximity to another existing driveway to the east.

18. Please confirm the Fire District does not have any issues with the layout as planned.

Response: A TVF&R SPL is required to determine fire access requirements. Please contact Ty Darby or obtain a Fire SPL.

Public Services/Utilities/Natural Resources

19. Are there any special requirements or considerations for connecting to public services?

Response: Please refer to the attached City of Sherwood Engineering comments.

20. Please confirm if sufficient City water system (pressure and flow) capacity exists to serve the

project site. Please provide any flow test information for the project vicinity.

Response: Please refer to the attached City of Sherwood Engineering comments.

21. Please confirm if sufficient City sanitary sewer capacity exists to serve the project site.

Response: Please refer to the attached City of Sherwood Engineering comments.

22. Please confirm the utilities (depths and sizes) that exist in SW Century Drive. Please provide any available as-builts.

Response: Please refer to the attached City of Sherwood Engineering comments.

23. Please discuss stormwater management requirements (detention or treatment) for the project.

Response: Please refer to the attached City of Sherwood Engineering comments.

Engineering Pre-Application Comments

To: Eric Rutledge, Associate Planner
From: Craig Christensen, P.E., Engineering Department
Project: PAC 2021-015 Chestnut Inn
Date: December 30, 2021

Engineering staff has reviewed the information provided for the above cited project. Final construction plans will need to meet the standards established by the City of Sherwood Engineering Department and Public Works Department, Clean Water Services (CWS) and Tualatin Valley Fire & Rescue in addition to requirements established by other jurisdictional agencies providing land use comments. City of Sherwood Engineering Department comments are as follows:

Sanitary Sewer

An 8-inch diameter public sanitary sewer main exists along the south and east sides of the subject property within a public easement. There is also an existing 8-inch diameter public sanitary sewer within SW Century Drive along the full length of the subject property.

All properties have access to public sanitary sewer in this area. Therefore no extension of the existing sanitary sewer system is anticipated. The subject development will need to provide sanitary sewer service to the subject property. The subject property shall make use of existing lateral unless otherwise approved.

Water

A 12-inch diameter water main exists within SW Century Drive along the full length of the subject property. This main provides all the needed service within this area. Therefore no extension of the existing water system is anticipated. A backflow assembly will likely be required. If private fire line is desired/needed then appropriate backflow/vault will be required. Contact City of Sherwood Public Works department to obtain a water system flow test. The subject property shall make use of existing water services unless otherwise approved.

Storm Sewer

A 36-inch diameter public storm sewer exists along the east side of the subject property while an 18-inch diameter public storm sewer exists along the south side of the subject property. Both are within public storm sewer easements.

An 18-inch diameter water main exists within SW Century Drive along the full length of the subject property. All properties have access to public storm sewer in this area. Therefore no extension of the existing storm sewer system is anticipated. The subject development will need to provide storm sewer service to the subject property.

A regional water quality facilities was created for the subject property. Confirmation that the facility has enough capacity remaining for the new impervious area proposed will likely be required.

On-site hydro-modification will likely be required in compliance with Clean Water Services (CWS) standards. It may be possible for the existing regional water treatment facility to provide hydro-modification for the subject property. A storm water report in compliance with CWS standards will likely be required.

Transportation

The subject property is bordered by SW Century Drive (Collector) to the north. This subject property is part of the Parkway Village South subdivision. There are 5 driveways that provide access into this subdivision. Two are on SW Langer Farms parkway west of the subdivision and three that are on SW Century Drive north of the subdivision. Both streets are at ultimate buildout. Therefore no public street improvements are anticipated.

Due to its location in relation to the neighboring driveway to the east, the existing eastern driveway is for loading purposes only and is not to be used as an access for a parking lot within Lot 1. The main access to Lot 1 should be through the existing central driveway along SW Century Drive.

A trip analysis of the subject property will likely be required to determine if any of the following conditions exist that would require a Traffic Impact Analysis and also to determine if the new property usage is within the parameters of the original traffic report:

- a) Per City Municipal Code Section 16.106.040.K.2 “For all other proposed developments including commercial, industrial or institutional uses with over an estimated 400 ADT, or as otherwise required by the City Engineer, the application must include a traffic impact analysis to determine the number and types of traffic controls necessary to accommodate anticipated traffic flow.”
- b) Per City Municipal Code Section 16.106.080.B.3 “The proposed development generates fifty (50) or more PM peak-hour trips on Highway 99W, or one hundred (100) PM peak-hour trips on the local transportation system.”
- c) Per City Municipal Code Section 16.106.080.B. 4. “An increase in use of any adjacent street or direct property approach road to Highway 99W by ten (10) vehicles or more per day that exceed the twenty thousand-pound gross vehicle weight.”

Project: Chestnut Inn
Date: December 30, 2021
Page: 3 of 3

Other Engineering Issues:

A CWS Service Provider Letter is required.

A CWS Storm Water Connection Permit Authorization is required.

The subject property is less than 5 acres in size, but since the original development exceeded 5 acres, a DEQ NPDES 1200-C permit is required.

An 8-foot wide Public Utility Easement exists along all right-of-way frontage of the subject property.

There is an As-Built Request Form on the City of Sherwood website for acquisition of as-built plans. <https://www.sherwoodoregon.gov/engineering/page/built-request-form-0>

A System Development Charge spreadsheet is available for use in the forms section on the City of Sherwood website. <https://www.sherwoodoregon.gov/engineering/page/system-development-charges-sdc>

Sherwood Broadband utilities (conduits and vaults) are will likely not be required along SW Century Drive.

END OF COMMENTS

DISCLAIMER: The comments provided above are initial in nature and are in no way binding as to what conditions may or may not be imposed upon the development in the Notice of Decision.

- Appendix D:** USDA-NRCS Soil Resource Report

PRELIMINARY STORMWATER REPORT

PARKWAY VILLAGE SOUTH SHERWOOD, OREGON

1.0 Purpose of Report

The purpose of this report is to analyze the effects the proposed development will have on the existing stormwater conveyance system; document the criteria, methodology, and informational sources used to design the proposed stormwater system; and present the results of the preliminary hydraulic analysis.

2.0 Project Location/Description

The Parkway Village South project is located at Tax Lot 1100 and 1200, Washington County Tax Map 2S 1 29DC, Sherwood, Oregon. Improvements will include the construction of a three-story mini storage building, a three-story Hotel, paved site access, and private underground utilities. The development will add approximately 3.94 acres of impervious area to the existing site.

A drainage report, titled *Langer Farms Regional Stormwater Facility Final Stormwater Report (Regional Facility Report)* and dated May of 2013 by AKS Engineering, LLC (AKS), was prepared for the Langer Farms Regional Stormwater Facility (Regional Facility) project constructed during the summer of 2013. Based on the information provided in the report, the subject site was included within the planning area of the Regional Facility. The Regional Facility Report includes an exhibit titled *Post-Development Catchment Basins Map* that shows the "Area to be Treated by Proposed Regional Stormwater Facility." An annotated version of this exhibit highlighting the subject site is included in Appendix A of this report.

In addition, the existing public storm drainage system downstream of the subject site was reanalyzed during the Sentinel Storage Annex Phase II (Sentinel Phase II) and previous Parkway Village South (Langer's Entertainment Center) development. This was warranted because the drainage areas of the subject site, Sentinel Phase II, and Langer's Entertainment Center had changed from the assumed post-development conditions listed in the *Reginal Facility Report*. It was validated in both reports that the existing public storm drain could serve the subject site as originally intended. Therefore, the Parkway Village South development will use the existing Regional Facility for stormwater quality and quantity management.

3.0 Regulatory Design Criteria

3.1 Stormwater Quantity

Per *CWS Design and Construction Standards Manual for Sanitary Sewer and Surface Water Management* (R&O 19-5, as amended by R&O 19-22), Section 4.02.1, Mitigation Requirement, the District or City shall determine which of the following techniques may be used:

- a. *Construction of permanent on-site stormwater quantity detention facilities designed in accordance with this Chapter; or*
 - b. *Enlargement or improvement of the downstream conveyance system in accordance with this Chapter and Chapter 5; or*
 - c. *Payment of a Storm and Surface Water Management System Development Charge (SWM SDC), as provided in CWS Ordinance 28, which includes a water quantity component to meet these requirements. If district or City requires that an on-site detention facility be constructed, the development shall be eligible for a credit against SWM SDC fees, as provided in District Ordinance and Rules.*
-

Per R&O 19-5, as amended by R&O 19-22, Section 4.02.2, Criteria for Requiring On-Site Detention for Conveyance Capacity, on-site detention is required when any of the following conditions exist:

1. *There is an identified downstream deficiency and the District or City determines that detention rather than conveyance system enlargement is the more effective solution.*
2. *There is an identified regional detention site within the boundary of the development.*
3. *Water quantity facilities are required by District-adopted watershed management plans or subbasin master plans or District- approved subbasin strategy.*

3.2 Hydromodification

Per R&O 19-5, as amended by R&O 19-22, Section 4.03, Hydromodification Approach Requirements, implementing or funding techniques to reduce impacts to the downstream receiving water body is required when a new development or other activities create or modify 1,000 square feet or more of impervious surfaces or increase the amount or rate of surface water leaving the site. The funding can be directed, or the following techniques can be implemented to reduce impacts to the downstream receiving water body:

- a. *Construction of permanent LIDA designed in accordance with this Chapter; or*
- b. *Construction of a permanent stormwater detention facility designed in accordance with this Chapter; or*
- c. *Construction or funding of a hydromodification approach that is consistent with a District-approved subbasin strategy; or*
- d. *Payment of a Hydromodification Fee-In-Lieu.*

Per R&O 19-5, as amended by R&O 19-22, Section 4.03.3, the receiving reach for this project is Rock Creek. The Risk Level for the receiving reach identified for this project is Low. The Development Class was determined using the Hydromodification Map provided by CWS. The project site is classified as a Developed Area. Per Section 4.08.1, Impervious Area Used in Design, the project site is classified as a Large Project as it is greater than 80,000 square feet. Using these input parameters, per Table 4-2, Hydromodification Approach Project Category Table (shown below), the project falls within Category 2. See details in the appendices of this report for further information.

TABLE 4-2
HYDROMODIFICATION APPROACH PROJECT CATEGORY TABLE

Development Class/ Risk Level	Small Project 1,000 – 12,000 SF	Medium Project >12,000 – 80,000 SF	Large Project > 80,000 SF
Expansion/High	Category 1	Category 3	Category 3
Expansion/ Moderate		Category 2	
Expansion/ Low		Category 3	
Developed/ High		Category 2	Category 2
Developed/ Moderate			
Developed/ Low			Category 2

Table 4-2 from R&O 19-5, as amended by R&O 19-22

Per R&O 19-5, as amended by R&O 19-22, Section 4.03.5b, Hydromodification Approach Selection – Category 2, any of the following options may be used to address hydromodification:

1. *Infiltration facility, using the Standard LIDA Sizing, described in Section 4.08.5; or*
2. *Peak-Flow Matching Detention, using design criteria described in Section 4.08.6; or*
3. *Combination of Infiltration facility and Peak-Flow Matching Detention, using criteria described in Section 4.08.5 and 4.08.6; or*
4. *Any option listed in Category 3.*

3.3 Stormwater Quality

Per R&O 19-5, as amended by R&O 19-22, Section 4.04, Water Quality Treatment Requirements, implementing or funding a permanent water quality approach is required when a new development or other activities create or modify 1,000 square feet or more of impervious surfaces, or increase the amount of stormwater runoff or pollution leaving the site. Unless there is a more efficient and effective regional approach within the subbasin that was designed to incorporate the development, or there is an approach in the subbasin which is demonstrated to have the capacity to treat the site.

A drainage report, titled *Langer Farms Regional Stormwater Facility Final Stormwater Report (Regional Facility Report)* and dated May 2013 by AKS Engineering, LLC (AKS), was prepared for the Langer Farms Regional Stormwater Facility (Regional Facility) constructed during the summer of 2013. Based on the information provided in the report, the subject site was included within the planning area of the Regional Facility. The previous report includes an exhibit that shows the “Area to be Treated by Regional Stormwater Facility.” An annotated version of this exhibit highlighting the subject site is included in Appendix A of this report. Therefore, the Parkway Village South development will utilize the existing Regional Facility for Stormwater quality management.

4.0 Design Methodology

The Santa Barbara Urban Hydrograph (SBUH) Method was used to analyze stormwater runoff from the site. This method uses the Soil Conservation Service (SCS) Type 1A 24-hour design storm. HydroCAD 10.00-22 computer software aided in the analysis. Representative runoff curve numbers (CN) were obtained from the Natural Resources Conservation Service (NRCS) *Technical Release 55* and are included in the appendices.

5.0 Design Parameters

5.1 Design Storms

Stormwater mains, inlets, and laterals for the site are placed at locations that adequately collect and convey the stormwater for the proposed improvements. Per R&O 19-5, as amended by R&O 19-22, Section 5.05.2, the stormwater analysis used the 24-hour design storm for the evaluation and design of the existing and proposed stormwater facilities. The following 24-hour rainfall intensities from CWS Standard Drawing No. 1280 were used as the design storms for the recurrence interval:

Table 5-1: Rainfall Intensities

Recurrence Interval (Years)	Total Precipitation Depth (Inches)
2	2.50
5	3.10
10	3.45
25	3.90

5.2 Predeveloped Site Conditions

5.2.1 Site Topography

Existing on-site grades generally vary from ± 1 to 5 percent, with most of the site draining to the east towards Tax Lot 150. There are two spoils piles located on the northern half of the project site that have slopes of ± 50 percent.

5.2.2 Land Use

The property is zoned Light Industrial – Planned Unit Development (LI – PUD). The property is open farmland and contains a temporary soil stockpile.

5.3 Soil Type

The soil beneath the project area is classified as Quatama Loam, according to the NRCS Web Soil Survey for Washington County. The following table outlines the Hydrologic Soil Group rating for the soil type:

Table 5-2: Hydrologic Soil Group Ratings

NRCS Map Unit Identification	NRCS Soil Classification	Hydrologic Soil Group Rating
37A	Quatama Loam	C
37B	Quatama Loam	C

Further information on this soil type is included in the NRCS Soil Resource Report located in the appendices of this report.

5.4 Post-Developed Site Conditions

5.4.1 Site Topography

The on-site slopes will be modified to create flat pads for the new buildings and low points for area drains. All stormwater from the new impervious areas will be collected by new or existing stormwater infrastructure and will not impact surrounding properties.

5.4.2 Land Use

The property's zoning will remain LI – PUD. Post-developed site conditions will include a new self-storage facility, hotel, paved site access, and public and private underground utilities.

5.4.3 Description of Off-Site Contributing Basins

The surrounding properties do not direct any stormwater runoff towards the development area.

6.0 Stormwater Analyses

6.1 Proposed Stormwater Conduit Sizing and Inlet Spacing

The proposed storm system pipes will be sized using Manning's equation to convey the peak flows from the 25-year storm event.

6.2 Proposed Stormwater Quality Control Facility

Stormwater quality treatment for newly created impervious surfaces will be provided by the existing off-site Regional Facility (vegetated swale). Per Section 6.2 of the *Regional Facility Report*, the vegetated swale was designed to treat stormwater runoff from future impervious surfaces developed within Tax Lot 300. The subject site, Tax Lot 1100 and 1200, were formerly part of Tax Lot 300 noted in the *Regional Facility Report*. See the Post-Development Catchment Basins Map in Appendix A for reference.

Additionally, the subject site was created as part of a lot partition that took place during the Langer's Entertainment Center development. The Langer's Entertainment Center report contains a preliminary

analysis of the subject site assuming a new day care center and 10% pervious and 90% impervious area ratio for the remaining area allocated for future development. The portion of the site initially designated for the day care center has since been modified for a new hotel. Consequently, the impervious area quantities for Sub catchments 30.7S, 3.11S – 3.13S, and 3.16S – 3.19S have been modified from the values assumed in the Langer’s Entertainment Center Report to reflect the new site improvements.

The following table summarizes the impervious area within this project area for validation with the Langer’s Entertainment Center Report:

Table 6-1: Impervious Area Summary		
Sub catchment	Langer’s Entertainment Center	Post-development Parkway Village South
	Impervious Area (acres)	Impervious Area (acres)
3.07S ^a	0.47	0.47 ^b
3.11S ^a thru 3.13S ^a	1.11	1.07 ^b
3.16S ^a thru 3.19S ^a	3.43	2.88 ^b
Total	5.01	4.42^b

Note:

- ^a Sub catchment 3.01S through 3.19S were created for the Langer’s Entertainment Center report by subdividing Sub catchment 3S from the Sentinel Phase II Report.
- ^b These values are based on modified Sub catchment boundaries. Sub catchments were updated to reflect the planned site grading and new drainage paths of stormwater runoff.

The Impervious Area Summary table shows that the total post-developed impervious area on the subject site is 0.59 acres less than originally anticipated in the Langer’s Entertainment Center Report. Therefore, no water quality calculations are required to be included as part of this analysis.

6.3 Hydromodification

The proposed site improvements will reduce impacts to the downstream receiving water body by implementing an underground detention vault and flow control manhole designed per CWS standards. Per R&O 19-5, as amended by R&O 19-22, Section 4.03.5b, Hydromodification Approach Selection – Category 2, hydromodification will be met to the fullest potential of the site by peak-flow matching. Post-developed runoff rates from the site will not exceed the predeveloped runoff rates for the 2-year, 5-year and 10-year design storms, when on-site stormwater infrastructure is accounted for.

6.4 Proposed Stormwater Quantity Control Facility

Stormwater quantity management for the newly created impervious surfaces will be provided by the existing off-site Regional Facility (vegetated swale). Per section 6.3 of the *Regional Facility Report*, the vegetated swale was designed to detain post developed flows from impervious areas within Tax Lot 300 to pre-developed levels for the 2, 10, and 25-yr storm events. The subject site, Tax Lot 1100 and 1200, were formerly part of Tax Lot 300 noted in the *Regional Facility Report*. See the Post-Development Catchment Basins Map in Appendix A for reference. Since the construction of the Regional Facility in 2013

the CWS stormwater management standards have been revised to require sites undergoing Hydromodification to further detain their post developed flows to ½ of the pre-developed level for the 2-yr storm event. As the total post-developed impervious areas on the subject site are less than those originally anticipated during its design, the Regional Facility will still act to reduce the post developed flows to their 2, 10, and 25-yr pre-developed rates as originally designed. In order to comply with the new CWS flow matching standards additional stormwater detention will be provided on site to reduce the downstream flow of the Regional Facility by ½ of the subject sites pre developed run off rate. This effectively reduces the development’s post developed flow to ½ of the 2-yr pre-developed rate meeting current CWS standards.

Runoff from Sub catchments 3.07S, 3.11S thru 3.13S, and 3.16S thru 3.18S will provide undetained runoff to the Regional Facility. Consequently, runoff from the new impervious areas in Sub catchment 3.19S will be over detained using an underground storage facility to provide the necessary flow reduction to meet current CWS standards.

See Equations 1 for additional information regarding the allowable release rate from the Regional Facility for the 2-yr storm event.

Equation 1: 50 percent of the 2-Year Storm

$$Pre\ Developed\ 2\ Year = 0.59\ cfs$$

$$Required\ Regional\ Facility\ Flow\ Reduction\ (50\% \ of\ 2\ Year) = \frac{(0.59\ cfs)}{2} = 0.30\ cfs$$

$$Allowable\ Regional\ Facility\ Flow\ (Unmodified\ 2\ Year\ outflow - 50\% \ of\ 2\ Year) = 20.38\ cfs - 0.30\ cfs = 20.09\ cfs$$

According to the Regional Facility Report, the existing off-site stormwater facility was designed to provide detention for future development of the subject site in accordance with CWS R&O 07-20 Section 4.03.4(b). The following table summarizes the peak 2-yr flow rate from the regional facility before and after the implementation of stormwater detention on the subject site. As demonstrated in the table below the Regional Facility’s 2-yr post development flow rate has been reduced to the allowable 2-yr flow calculated using Equation 1. This has effectively reduced the development’s post developed 2-yr flow to ½ of the 2-yr pre-developed rate meeting current CWS standards (R&O 19-5, as amended by R&O 19-22).

Table 6-2: 2-yr Flow Summary		
Storm Event	Pre Additional Detainment Regional Facility Flows	Post Additional Detainment Regional Facility Flows
2-year	20.38 cfs ^a	20.09 cfs ^{a,b}

Note:

^a Peak flow discharging from the Regional Facility.

^b Flow rate equals allowable rate calculated using Equation 1.

According to the Regional Facility Report, the existing off-site stormwater facility was designed to provide detention for future development of the subject site in accordance with CWS R&O 07-20, Section

4.03.4(b). The former detention requirements for the 5, 10, and 25-yr storm events remain valid under R&O 19-5, as amended by R&O 19-22.

Prior to the Parkway Village South development, stormwater quantity management for the subject site was analyzed in the Sentinel Phase II Report under assumed post-development conditions. The following table summarizes the peak flow rates on the subject site for the 5, 10 and 25-yr storm events under post-developed conditions for validation with the Sentinel Phase II Report:

NODE	Sentinel Storage Annex Phase II			Parkway Village South		
	5-Year Peak Flow (cfs)	10-Year Peak Flow (cfs)	25-Year Peak Flow (cfs)	5-Year Peak Flow (cfs)	10-Year Peak Flow (cfs)	25-Year Peak Flow (cfs)
Subcatchment 3S	10.17	11.42	13.02	-	-	-
Pond MH 1.1 ^a	-	-	-	8.10	10.84	12.55

Note:

^a Peak flow discharging from the site.

Based on the peak flow comparison in the table above, the total peak flow rates on the subject site do not exceed the 5, 10, and 25-yr design flows anticipated in the Sentinel Phase II Report. Therefore, public storm drain conduits and the Regional Facility will convey post-developed peak flows for the subject site as originally intended in the initial design and additional on-site detention for the 5, 10, and 25-yr storm events is not required.

6.5 Downstream Analysis

A review of the public storm drain system downstream of the subject site was performed in the Sentinel Phase II Report. It was concluded in the Sentinel Phase II Report that the drainage model indicated that the existing public storm drain serving the site would convey 25-year peak flows while maintaining the minimum freeboard requirement under post-developed conditions. The post-developed peak flows for the subject site do not exceed the peak flows anticipated in the *Sentinel Phase II Report*, as shown in Table 6-3. Therefore, the prior conclusion of the storm drain system downstream of the site remains valid.

Appendix C: TR-55 Runoff Curve Numbers

Table 2-2a Runoff curve numbers for urban areas ^{1/}

Cover description	Average percent impervious area ^{2/}	Curve numbers for hydrologic soil group			
		A	B	C	D
Fully developed urban areas (vegetation established)					
Open space (lawns, parks, golf courses, cemeteries, etc.) ^{3/} :					
Poor condition (grass cover < 50%)		68	79	86	89
Fair condition (grass cover 50% to 75%)		49	69	79	84
Good condition (grass cover > 75%)		39	61	74	80
Impervious areas:					
Paved parking lots, roofs, driveways, etc. (excluding right-of-way)		98	98	98	98
Streets and roads:					
Paved; curbs and storm sewers (excluding right-of-way)		98	98	98	98
Paved; open ditches (including right-of-way)		83	89	92	93
Gravel (including right-of-way)		76	85	89	91
Dirt (including right-of-way)		72	82	87	89
Western desert urban areas:					
Natural desert landscaping (pervious areas only) ^{4/}		63	77	85	88
Artificial desert landscaping (impervious weed barrier, desert shrub with 1- to 2-inch sand or gravel mulch and basin borders)		96	96	96	96
Urban districts:					
Commercial and business	85	89	92	94	95
Industrial	72	81	88	91	93
Residential districts by average lot size:					
1/8 acre or less (town houses)	65	77	85	90	92
1/4 acre	38	61	75	83	87
1/3 acre	30	57	72	81	86
1/2 acre	25	54	70	80	85
1 acre	20	51	68	79	84
2 acres	12	46	65	77	82

Developing urban areas

Newly graded areas
(pervious areas only, no vegetation) ^{5/}

	77	86	91	94
--	----	----	----	----

Idle lands (CN's are determined using cover types
similar to those in table 2-2c).

^{1/} Average runoff condition, and $I_a = 0.2S$.

^{2/} The average percent impervious area shown was used to develop the composite CN's. Other assumptions are as follows: impervious areas are directly connected to the drainage system, impervious areas have a CN of 98, and pervious areas are considered equivalent to open space in good hydrologic condition. CN's for other combinations of conditions may be computed using figure 2-3 or 2-4.

^{3/} CN's shown are equivalent to those of pasture. Composite CN's may be computed for other combinations of open space cover type.

^{4/} Composite CN's for natural desert landscaping should be computed using figures 2-3 or 2-4 based on the impervious area percentage (CN = 98) and the pervious area CN. The pervious area CN's are assumed equivalent to desert shrub in poor hydrologic condition.

^{5/} Composite CN's to use for the design of temporary measures during grading and construction should be computed using figure 2-3 or 2-4 based on the degree of development (impervious area percentage) and the CN's for the newly graded pervious areas.

Stations, and local
participants

Custom Soil Resource Report for **Washington County, Oregon**

Parkway Village South

March 22, 2022

Preface

Soil surveys contain information that affects land use planning in survey areas. They highlight soil limitations that affect various land uses and provide information about the properties of the soils in the survey areas. Soil surveys are designed for many different users, including farmers, ranchers, foresters, agronomists, urban planners, community officials, engineers, developers, builders, and home buyers. Also, conservationists, teachers, students, and specialists in recreation, waste disposal, and pollution control can use the surveys to help them understand, protect, or enhance the environment.

Various land use regulations of Federal, State, and local governments may impose special restrictions on land use or land treatment. Soil surveys identify soil properties that are used in making various land use or land treatment decisions. The information is intended to help the land users identify and reduce the effects of soil limitations on various land uses. The landowner or user is responsible for identifying and complying with existing laws and regulations.

Although soil survey information can be used for general farm, local, and wider area planning, onsite investigation is needed to supplement this information in some cases. Examples include soil quality assessments (<http://www.nrcs.usda.gov/wps/portal/nrcs/main/soils/health/>) and certain conservation and engineering applications. For more detailed information, contact your local USDA Service Center (<https://offices.sc.egov.usda.gov/locator/app?agency=nrcs>) or your NRCS State Soil Scientist (http://www.nrcs.usda.gov/wps/portal/nrcs/detail/soils/contactus/?cid=nrcs142p2_053951).

Great differences in soil properties can occur within short distances. Some soils are seasonally wet or subject to flooding. Some are too unstable to be used as a foundation for buildings or roads. Clayey or wet soils are poorly suited to use as septic tank absorption fields. A high water table makes a soil poorly suited to basements or underground installations.

The National Cooperative Soil Survey is a joint effort of the United States Department of Agriculture and other Federal agencies, State agencies including the Agricultural Experiment Stations, and local agencies. The Natural Resources Conservation Service (NRCS) has leadership for the Federal part of the National Cooperative Soil Survey.

Information about soils is updated periodically. Updated information is available through the NRCS Web Soil Survey, the site for official soil survey information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require

alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

How Soil Surveys Are Made

Soil surveys are made to provide information about the soils and miscellaneous areas in a specific area. They include a description of the soils and miscellaneous areas and their location on the landscape and tables that show soil properties and limitations affecting various uses. Soil scientists observed the steepness, length, and shape of the slopes; the general pattern of drainage; the kinds of crops and native plants; and the kinds of bedrock. They observed and described many soil profiles. A soil profile is the sequence of natural layers, or horizons, in a soil. The profile extends from the surface down into the unconsolidated material in which the soil formed or from the surface down to bedrock. The unconsolidated material is devoid of roots and other living organisms and has not been changed by other biological activity.

Currently, soils are mapped according to the boundaries of major land resource areas (MLRAs). MLRAs are geographically associated land resource units that share common characteristics related to physiography, geology, climate, water resources, soils, biological resources, and land uses (USDA, 2006). Soil survey areas typically consist of parts of one or more MLRA.

The soils and miscellaneous areas in a survey area occur in an orderly pattern that is related to the geology, landforms, relief, climate, and natural vegetation of the area. Each kind of soil and miscellaneous area is associated with a particular kind of landform or with a segment of the landform. By observing the soils and miscellaneous areas in the survey area and relating their position to specific segments of the landform, a soil scientist develops a concept, or model, of how they were formed. Thus, during mapping, this model enables the soil scientist to predict with a considerable degree of accuracy the kind of soil or miscellaneous area at a specific location on the landscape.

Commonly, individual soils on the landscape merge into one another as their characteristics gradually change. To construct an accurate soil map, however, soil scientists must determine the boundaries between the soils. They can observe only a limited number of soil profiles. Nevertheless, these observations, supplemented by an understanding of the soil-vegetation-landscape relationship, are sufficient to verify predictions of the kinds of soil in an area and to determine the boundaries.

Soil scientists recorded the characteristics of the soil profiles that they studied. They noted soil color, texture, size and shape of soil aggregates, kind and amount of rock fragments, distribution of plant roots, reaction, and other features that enable them to identify soils. After describing the soils in the survey area and determining their properties, the soil scientists assigned the soils to taxonomic classes (units). Taxonomic classes are concepts. Each taxonomic class has a set of soil characteristics with precisely defined limits. The classes are used as a basis for comparison to classify soils systematically. Soil taxonomy, the system of taxonomic classification used in the United States, is based mainly on the kind and character of soil properties and the arrangement of horizons within the profile. After the soil

Custom Soil Resource Report

scientists classified and named the soils in the survey area, they compared the individual soils with similar soils in the same taxonomic class in other areas so that they could confirm data and assemble additional data based on experience and research.

The objective of soil mapping is not to delineate pure map unit components; the objective is to separate the landscape into landforms or landform segments that have similar use and management requirements. Each map unit is defined by a unique combination of soil components and/or miscellaneous areas in predictable proportions. Some components may be highly contrasting to the other components of the map unit. The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The delineation of such landforms and landform segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, onsite investigation is needed to define and locate the soils and miscellaneous areas.

Soil scientists make many field observations in the process of producing a soil map. The frequency of observation is dependent upon several factors, including scale of mapping, intensity of mapping, design of map units, complexity of the landscape, and experience of the soil scientist. Observations are made to test and refine the soil-landscape model and predictions and to verify the classification of the soils at specific locations. Once the soil-landscape model is refined, a significantly smaller number of measurements of individual soil properties are made and recorded. These measurements may include field measurements, such as those for color, depth to bedrock, and texture, and laboratory measurements, such as those for content of sand, silt, clay, salt, and other components. Properties of each soil typically vary from one point to another across the landscape.

Observations for map unit components are aggregated to develop ranges of characteristics for the components. The aggregated values are presented. Direct measurements do not exist for every property presented for every map unit component. Values for some properties are estimated from combinations of other properties.

While a soil survey is in progress, samples of some of the soils in the area generally are collected for laboratory analyses and for engineering tests. Soil scientists interpret the data from these analyses and tests as well as the field-observed characteristics and the soil properties to determine the expected behavior of the soils under different uses. Interpretations for all of the soils are field tested through observation of the soils in different uses and under different levels of management. Some interpretations are modified to fit local conditions, and some new interpretations are developed to meet local needs. Data are assembled from other sources, such as research information, production records, and field experience of specialists. For example, data on crop yields under defined levels of management are assembled from farm records and from field or plot experiments on the same kinds of soil.

Predictions about soil behavior are based not only on soil properties but also on such variables as climate and biological activity. Soil conditions are predictable over long periods of time, but they are not predictable from year to year. For example, soil scientists can predict with a fairly high degree of accuracy that a given soil will have a high water table within certain depths in most years, but they cannot predict that a high water table will always be at a specific level in the soil on a specific date.

After soil scientists located and identified the significant natural bodies of soil in the survey area, they drew the boundaries of these bodies on aerial photographs and

Custom Soil Resource Report

identified each as a specific map unit. Aerial photographs show trees, buildings, fields, roads, and rivers, all of which help in locating boundaries accurately.

Soil Map

The soil map section includes the soil map for the defined area of interest, a list of soil map units on the map and extent of each map unit, and cartographic symbols displayed on the map. Also presented are various metadata about data used to produce the map, and a description of each soil map unit.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:20,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
 Web Soil Survey URL:
 Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Washington County, Oregon
 Survey Area Data: Version 21, Oct 27, 2021

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 16, 2021—Apr 18, 2021

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
21A	Hillsboro loam, 0 to 3 percent slopes	0.0	0.1%
37A	Quatama loam, 0 to 3 percent slopes	3.8	72.5%
37B	Quatama loam, 3 to 7 percent slopes	1.4	27.4%
Totals for Area of Interest		5.2	100.0%

Map Unit Descriptions

The map units delineated on the detailed soil maps in a soil survey represent the soils or miscellaneous areas in the survey area. The map unit descriptions, along with the maps, can be used to determine the composition and properties of a unit.

A map unit delineation on a soil map represents an area dominated by one or more major kinds of soil or miscellaneous areas. A map unit is identified and named according to the taxonomic classification of the dominant soils. Within a taxonomic class there are precisely defined limits for the properties of the soils. On the landscape, however, the soils are natural phenomena, and they have the characteristic variability of all natural phenomena. Thus, the range of some observed properties may extend beyond the limits defined for a taxonomic class. Areas of soils of a single taxonomic class rarely, if ever, can be mapped without including areas of other taxonomic classes. Consequently, every map unit is made up of the soils or miscellaneous areas for which it is named and some minor components that belong to taxonomic classes other than those of the major soils.

Most minor soils have properties similar to those of the dominant soil or soils in the map unit, and thus they do not affect use and management. These are called noncontrasting, or similar, components. They may or may not be mentioned in a particular map unit description. Other minor components, however, have properties and behavioral characteristics divergent enough to affect use or to require different management. These are called contrasting, or dissimilar, components. They generally are in small areas and could not be mapped separately because of the scale used. Some small areas of strongly contrasting soils or miscellaneous areas are identified by a special symbol on the maps. If included in the database for a given area, the contrasting minor components are identified in the map unit descriptions along with some characteristics of each. A few areas of minor components may not have been observed, and consequently they are not mentioned in the descriptions, especially where the pattern was so complex that it was impractical to make enough observations to identify all the soils and miscellaneous areas on the landscape.

The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The objective of mapping is not to delineate pure taxonomic classes but rather to separate the landscape into landforms or

Custom Soil Resource Report

landform segments that have similar use and management requirements. The delineation of such segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, however, onsite investigation is needed to define and locate the soils and miscellaneous areas.

An identifying symbol precedes the map unit name in the map unit descriptions. Each description includes general facts about the unit and gives important soil properties and qualities.

Soils that have profiles that are almost alike make up a *soil series*. Except for differences in texture of the surface layer, all the soils of a series have major horizons that are similar in composition, thickness, and arrangement.

Soils of one series can differ in texture of the surface layer, slope, stoniness, salinity, degree of erosion, and other characteristics that affect their use. On the basis of such differences, a soil series is divided into *soil phases*. Most of the areas shown on the detailed soil maps are phases of soil series. The name of a soil phase commonly indicates a feature that affects use or management. For example, Alpha silt loam, 0 to 2 percent slopes, is a phase of the Alpha series.

Some map units are made up of two or more major soils or miscellaneous areas. These map units are complexes, associations, or undifferentiated groups.

A *complex* consists of two or more soils or miscellaneous areas in such an intricate pattern or in such small areas that they cannot be shown separately on the maps. The pattern and proportion of the soils or miscellaneous areas are somewhat similar in all areas. Alpha-Beta complex, 0 to 6 percent slopes, is an example.

An *association* is made up of two or more geographically associated soils or miscellaneous areas that are shown as one unit on the maps. Because of present or anticipated uses of the map units in the survey area, it was not considered practical or necessary to map the soils or miscellaneous areas separately. The pattern and relative proportion of the soils or miscellaneous areas are somewhat similar. Alpha-Beta association, 0 to 2 percent slopes, is an example.

An *undifferentiated group* is made up of two or more soils or miscellaneous areas that could be mapped individually but are mapped as one unit because similar interpretations can be made for use and management. The pattern and proportion of the soils or miscellaneous areas in a mapped area are not uniform. An area can be made up of only one of the major soils or miscellaneous areas, or it can be made up of all of them. Alpha and Beta soils, 0 to 2 percent slopes, is an example.

Some surveys include *miscellaneous areas*. Such areas have little or no soil material and support little or no vegetation. Rock outcrop is an example.

Washington County, Oregon

21A—Hillsboro loam, 0 to 3 percent slopes

Map Unit Setting

National map unit symbol: 21y5
Elevation: 160 to 240 feet
Mean annual precipitation: 40 to 50 inches
Mean annual air temperature: 52 to 54 degrees F
Frost-free period: 165 to 210 days
Farmland classification: All areas are prime farmland

Map Unit Composition

Hillsboro and similar soils: 90 percent
Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Hillsboro

Setting

Landform: Terraces
Landform position (three-dimensional): Tread
Down-slope shape: Linear
Across-slope shape: Linear
Parent material: Silty and loamy old alluvium

Typical profile

H1 - 0 to 15 inches: loam
H2 - 15 to 48 inches: loam
H3 - 48 to 57 inches: fine sandy loam
H4 - 57 to 81 inches: fine sand

Properties and qualities

Slope: 0 to 3 percent
Depth to restrictive feature: More than 80 inches
Drainage class: Well drained
Capacity of the most limiting layer to transmit water (Ksat): Moderately high to high
(0.57 to 1.98 in/hr)
Depth to water table: More than 80 inches
Frequency of flooding: None
Frequency of ponding: None
Available water supply, 0 to 60 inches: High (about 10.6 inches)

Interpretive groups

Land capability classification (irrigated): 1
Land capability classification (nonirrigated): 1
Hydrologic Soil Group: B
Ecological site: R002XC008OR - Valley Terrace Group
Hydric soil rating: No

37A—Quatama loam, 0 to 3 percent slopes

Map Unit Setting

National map unit symbol: 21zl
Elevation: 140 to 250 feet
Mean annual precipitation: 40 to 50 inches
Mean annual air temperature: 52 to 54 degrees F
Frost-free period: 165 to 210 days
Farmland classification: All areas are prime farmland

Map Unit Composition

Quatama and similar soils: 85 percent
Minor components: 4 percent
Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Quatama

Setting

Landform: Terraces
Landform position (three-dimensional): Tread
Down-slope shape: Linear
Across-slope shape: Linear
Parent material: Loamy alluvium

Typical profile

H1 - 0 to 15 inches: loam
H2 - 15 to 30 inches: clay loam
H3 - 30 to 62 inches: loam

Properties and qualities

Slope: 0 to 3 percent
Depth to restrictive feature: More than 80 inches
Drainage class: Moderately well drained
Capacity of the most limiting layer to transmit water (Ksat): Moderately high (0.20 to 0.57 in/hr)
Depth to water table: About 24 to 36 inches
Frequency of flooding: None
Frequency of ponding: None
Available water supply, 0 to 60 inches: Moderate (about 8.8 inches)

Interpretive groups

Land capability classification (irrigated): 2w
Land capability classification (nonirrigated): 2w
Hydrologic Soil Group: C
Ecological site: R002XC008OR - Valley Terrace Group
Forage suitability group: Moderately Well Drained < 15% Slopes (G002XY004OR)
Other vegetative classification: Moderately Well Drained < 15% Slopes (G002XY004OR)
Hydric soil rating: No

Minor Components

Huberly

Percent of map unit: 4 percent
Landform: Terraces

 Sherwood, OR 97140

RE: Trip Generation Estimates for Parkway Village South (Hotel and Self-Storage Facility)

Dear Bob and Craig,

Parkway Village South, LLC proposes to develop a hotel on a vacant pad site (on Tax Lot 1200 of Washington County Assessor’s Map 2S129DC) within the previously approved Parkway Village South campus. Additionally, the project proposes a new self-storage facility on Tax Lot 1100 of Washington County Assessor’s Map 2S129DC, land not previously included or assessed in the original trip generation for the campus. This letter documents the projected change in Average Daily Traffic (ADT) associated with the hotel and self-storage facility compared to prior Transportation Impact Study (TIS) assumptions. As detailed herein, the proposed site plan (shown in Appendix 1) will result in ADT levels that remain below those previously approved by the City. Given there is no ADT increase projected and no change to the previously constructed site access driveways, the proposed site plan modification should not trigger the need for additional traffic impact analysis. Further details are provided herein.

PRIOR APPROVED SITE TRIP GENERATION

The original TIS was based on the ADT estimates shown in Table 1¹.

Table 1: Approved Parkway Village South Trip Generation Estimates

Approved Trips	ADT
Total Trips	7,887
<i>Less Internal Trips</i>	<i>-122</i>
<i>Less Pass-by Trips</i>	<i>-2,042</i>
Net New Primary Trips	5,723

Following the original approvals, plans for Pad “A” were changed from an originally vested 10,000 square feet of retail space to a proposed 12,275 square foot daycare facility. In addition to Pad A, changes were approved by the City for Retail A, C and D².

¹ Source: Parkway Village South – Transportation Impact Study dated July 18, 2017.

² Source: Revised Trip Generation for Minor Site Plan Changes to Parkway Village South dated October 1, 2018. A copy of this document is included in Appendix 2.

PROPOSED SITE PLAN CHANGES

Parkway Village South, LLC now proposes to develop a hotel and a self-storage facility within the overall project site. The hotel is planned to be located on “Pad A” (on Tax Lot 1200 of Washington County Assessor’s Map 2S129DC) and replace the approved aforementioned daycare facility. The hotel could include up to 105 rooms. The self-storage building (to be located on Tax Lot 1100 of Washington County Assessor’s Map 2S129DC) will provide up to 690 self-storage units, includes a leasing office and will also offer four industrial flex tenant spaces each with approximately 2,550 square feet of space. The flex tenant spaces will be located along the south side of SW Century Drive and will operate as contractor units with individual building entrances/roll-up doors that access the on-site parking/circulation area.

REVISED TRIP GENERATION ESTIMATE

Daily trip estimates for the new uses were prepared using the average trip rates contained in the Institute of Transportation Engineers’ (ITE) *Trip Generation Manual, 11th Edition* published in 2021. The Specialty Trade Contractor uses was selected to represent the four proposed flex space units. Per the *Trip Generation Manual, 11th Edition*:

“A specialty trade contractor is a business primarily involved in providing contract repairs and services to meet industrial or residential needs. This land use includes businesses that provide the following services: plumbing, heating and cooling, machine repair, electrical and mechanical repair, industrial supply, roofing, locksmith, weed and pest control, and cleaning.”

We note that there are no pass-by trips associated with self-storage, specialty trade contractor or the hotel uses. Daily internal hotel trips were assumed to be the same as those associated with the previously approved daycare (actual rates may be higher given the potential for trips between the hotel and retail/community center uses).

Table 2 summarizes the revised average daily trip estimates for the Parkway Village South project. The proposed new uses are included as line items near the top of the table while the previously approved average daily trips for the Shopping Center (includes year 2018 updates for Retail A, C and D), Fast Food and Recreational Community Center were obtained directly from the prior 2018 update and are shaded³.

³ Refer to Table 2 of the *Revised Trip Generation for Minor Site Plan Changes to Parkway Village South* prepared by Kittelson & Associates, Inc. dated October 1, 2018 (refer to Appendix 2 of this letter).

Table 2: Revised Parkway Village South Average Daily Trip Generation Estimate

Land Use Category	ITE Code	Size (SF)	Average Daily Trips ¹
All-Suites Hotel ¹	311	105 rooms	462
<i>Less Internal Trips (4% Daily)</i>			-18
<i>Less Pass-By Trips (0% Daily)</i>			0
Self-Storage ¹	151	690 units	126
Specialty Trade Contractor ¹	180	10,200 Square Feet	100
Shopping Center (Retail A, B, D + 70% Retail C + 67% Retail D) ²	820	24,194 Square Feet	2,291
<i>Less Internal Trips (2% Daily)</i>			-46
<i>Less Pass-By Trips (34% Daily)</i>			-763
Fast-Food Restaurant with Drive Through (30% Retail C, 33% Retail D) ²	934	3,600 Square Feet	1,695
<i>Less Internal Trips (3% Daily)</i>			-51
<i>Less Pass-By Trips (49% Daily)</i>			-806
Recreational Community Center ²	495	92,899 Square Feet	2,677
<i>Less Internal Trips (0.5% Daily)</i>			-13
<i>Less Pass-By Trips (0% Daily)</i>			0
Total Trips			7,351
<i>Less Internal Trips</i>			<i>-128</i>
<i>Less Pass-by Trips</i>			<i>-1,569</i>
Net New Primary Trips			5,654
Original Approved Net New Trips (from Table 1)			5,723
Current Net New Primary Trips – Original Approved Net New Trips			-69

¹ Trips calculated from average rates in *Trip Generation Manual, 11th Edition*

² Trips estimates obtained from October 2018 approval and retained for consistency.

As shown in Table 2, the current proposal generates fewer net new daily trips than were originally approved in 2017. Given the reduction in daily trips, there will be a corresponding reduction in weekday PM peak hour trips and there should be no new trip impact to the local street system or Highway 99W.

SITE ACCESS

The overall project site is accessible to vehicles by five driveways today (two on SW Langer Farms Parkway and three on SW Century Drive). No changes to the existing vehicle access are proposed. While the on-site parking and circulation connects to five access points, primary access to the hotel and storage facility is expected to be via the site’s central access on SW Century Drive and the northern access on SW Langer Farms Parkway based on building, parking lot, and on-site drive aisle orientation.

The easternmost site access on SW Century Drive is expected to function as a secondary/service and emergency access for the storage building given the access is located on the rear side of the building

parking and loading. Similarly, a limited number of hotel patrons are expected to use the east access given the hotel building lobby drop off area, the building entry locations and the parking location/orientation.

Full movement access is proposed for the new north-south drive aisle to be created at the existing east driveway approach on SW Century Drive. It is noted that the existing east site driveway aligns with a full movement service entrance to the Walmart building to the north. A two-way center left-turn lane is striped on SW Century Drive serving the two aligned driveways as well as an off-site access approximately 50 feet to the east along the south side of SW Century Drive (the access to the east is one of two driveways serving the building located at 15028 SW Century Drive). Given the clear lines of sight available and the relatively low volumes anticipated at the east site driveway, the service access to the north, and the neighboring driveway to the east, no turn movement restrictions or lane additions should be needed. We recommend installation of a City-standard STOP sign on the northbound approach of the east driveway at SW Century Drive.

CONCLUSIONS

Based on the findings herein, the proposed site plan revisions for the Parkway Village South project will result in lower ADT volumes than were forecast in the original 2017 Transportation Impact Study approved by the City. The proposed development will be accessible via existing shared driveways. No new driveway access is proposed. Given these findings, it appears that no additional traffic impact analysis should be needed.

Please call us if you have any questions or if further information is required.

Sincerely,
KITTELSON & ASSOCIATES, INC.

Project #: 21487.0

 Bob J. Galati, PE
 City of Sherwood
 22560 SW Pine St.
 Sherwood, OR 97140

RE: Revised Trip Generation for Minor Site Plan Changes to Parkway Village South

Dear Mr. Galati,

This letter documents a revised estimate of Average Daily Traffic (ADT) for the Parkway Village South project to reflect minor site plan revisions proposed by the owner (Langer Family, LLC). As detailed herein, the proposed site plan modification will result in ADT levels below the threshold approved by the City and documented in the original transportation impact study prepared by Kittelson & Associates, Inc. (Reference 1). With an expected reduction in overall ADT, the proposed site plan modification should, therefore, be processed by the City as a *Minor Modification*, requiring a staff level decision only. Additional details to support our findings are provided in this letter.

CITY-APPROVED SITE TRIP GENERATION

The original TIS prepared by Kittelson included ADT estimates for the original site plan provided in Attachment “A” of this letter. These ADT estimates, as approved by City, are shown in Table 1 below.

Table 1: Approved Parkway Village South Trip Generation Estimates

Approved Trips	ADT
Total Trips	7,887
<i>Less Internal Trips</i>	<i>-122</i>
<i>Less Pass-by Trips</i>	<i>-2,042</i>
Net New Primary Trips	5,723

As shown in the table above, the Parkway Village South project was approved for up to 7,887 total ADT and 5,723 net new ADT, which reflects the removal of internal and pass-by trips.

REVISED SITE PLAN

The revised site plan proposed by Langer Family, LLC for the Parkway Village South project is provided in Attachment “B” of this letter. Relative to the original site plan, the following changes are proposed:

- “Pad A” in the southeast corner of the site has changed from a 10,000 SF retail space to a 12,275 SF daycare facility;

- The drive-thru coffee kiosk in the northeast corner of the site has changed to a retail building (shown as Retail D) totaling 5,370 SF in size. This building will include a 1,800 SF fast-food restaurant with drive-through window; and,
- Other minor square footage changes have been made to Retail A and Retail C buildings.

REVISED TRIP GENERATION ESTIMATE

New ADT estimates were prepared for the revised site plan using the trip rates/equations contained in the Institute of Transportation Engineers’ (ITE) *Trip Generation Manual*, 10th Edition (Reference 2). It should be emphasized that the original July 2017 TIS relied on trip rates/equations contained in the ITE 9th Edition as it was the current resource at the time of land use submittal. Since its publication in September 2017, the ITE 10th Edition has now become the current resource, having a more robust and reliable database of land use descriptions. Trip internalization between individual uses on-site was also recalculated based on guidance in the *Trip Generation Handbook*, 3rd Edition (Reference 3) and through the use of OTISS Traffic software with pass-by rates also drawn from ITE’s *Trip Generation Handbook*, 3rd Edition.

Table 2 summarizes the revised average daily trip estimates for the Parkway Village South project, including a breakdown of average daily trips by individual on-site buildings.

Table 2: Revised Parkway Village South Average Daily Trip Generation Estimate

Land Use Category	ITE Code	Size (SF)	Average Daily Trips ¹
Daycare	565	12,275	585
<i>Less Internal Trips (3% Daily)</i>			-18
<i>Less Pass-By Trips (0% Daily)</i>			0
Shopping Center (Retail A, B, D + 70% Retail C + 67% Retail D)	820	24,194	2,291
<i>Less Internal Trips (2% Daily)</i>			-46
<i>Less Pass-By Trips (34% Daily)</i>			-763

Total Trips			7,248
<i>Less Internal Trips</i>			-128
<i>Less Pass-by Trips</i>			-1569
Net New Primary Trips			5,551

¹ Trips calculated from rates or equations in ITE Trip Generation Manual, 10th Edition (September 2017)

As shown by the previous table, the revised project is now estimated to generate up to 7,248 total ADT and 5,551 net new ADT.

CONCLUSIONS

Based on the findings herein, the proposed site plan revisions for the Parkway Village South project will result in lower ADT volumes what were forecast in Kittelson's original Transportation Impact Analysis report approved by the City. As such, we request the City process the proposed site plan modification as a *Minor Modification*, requiring a staff level decision only.

This concludes our findings regarding a revised trip generation analysis for the Parkway Village South project. If you have any further comments regarding our findings and recommendations, please give me a call.

Sincerely,

Kittelson & Associates, Inc.

Brian J. Dunn, P.E.

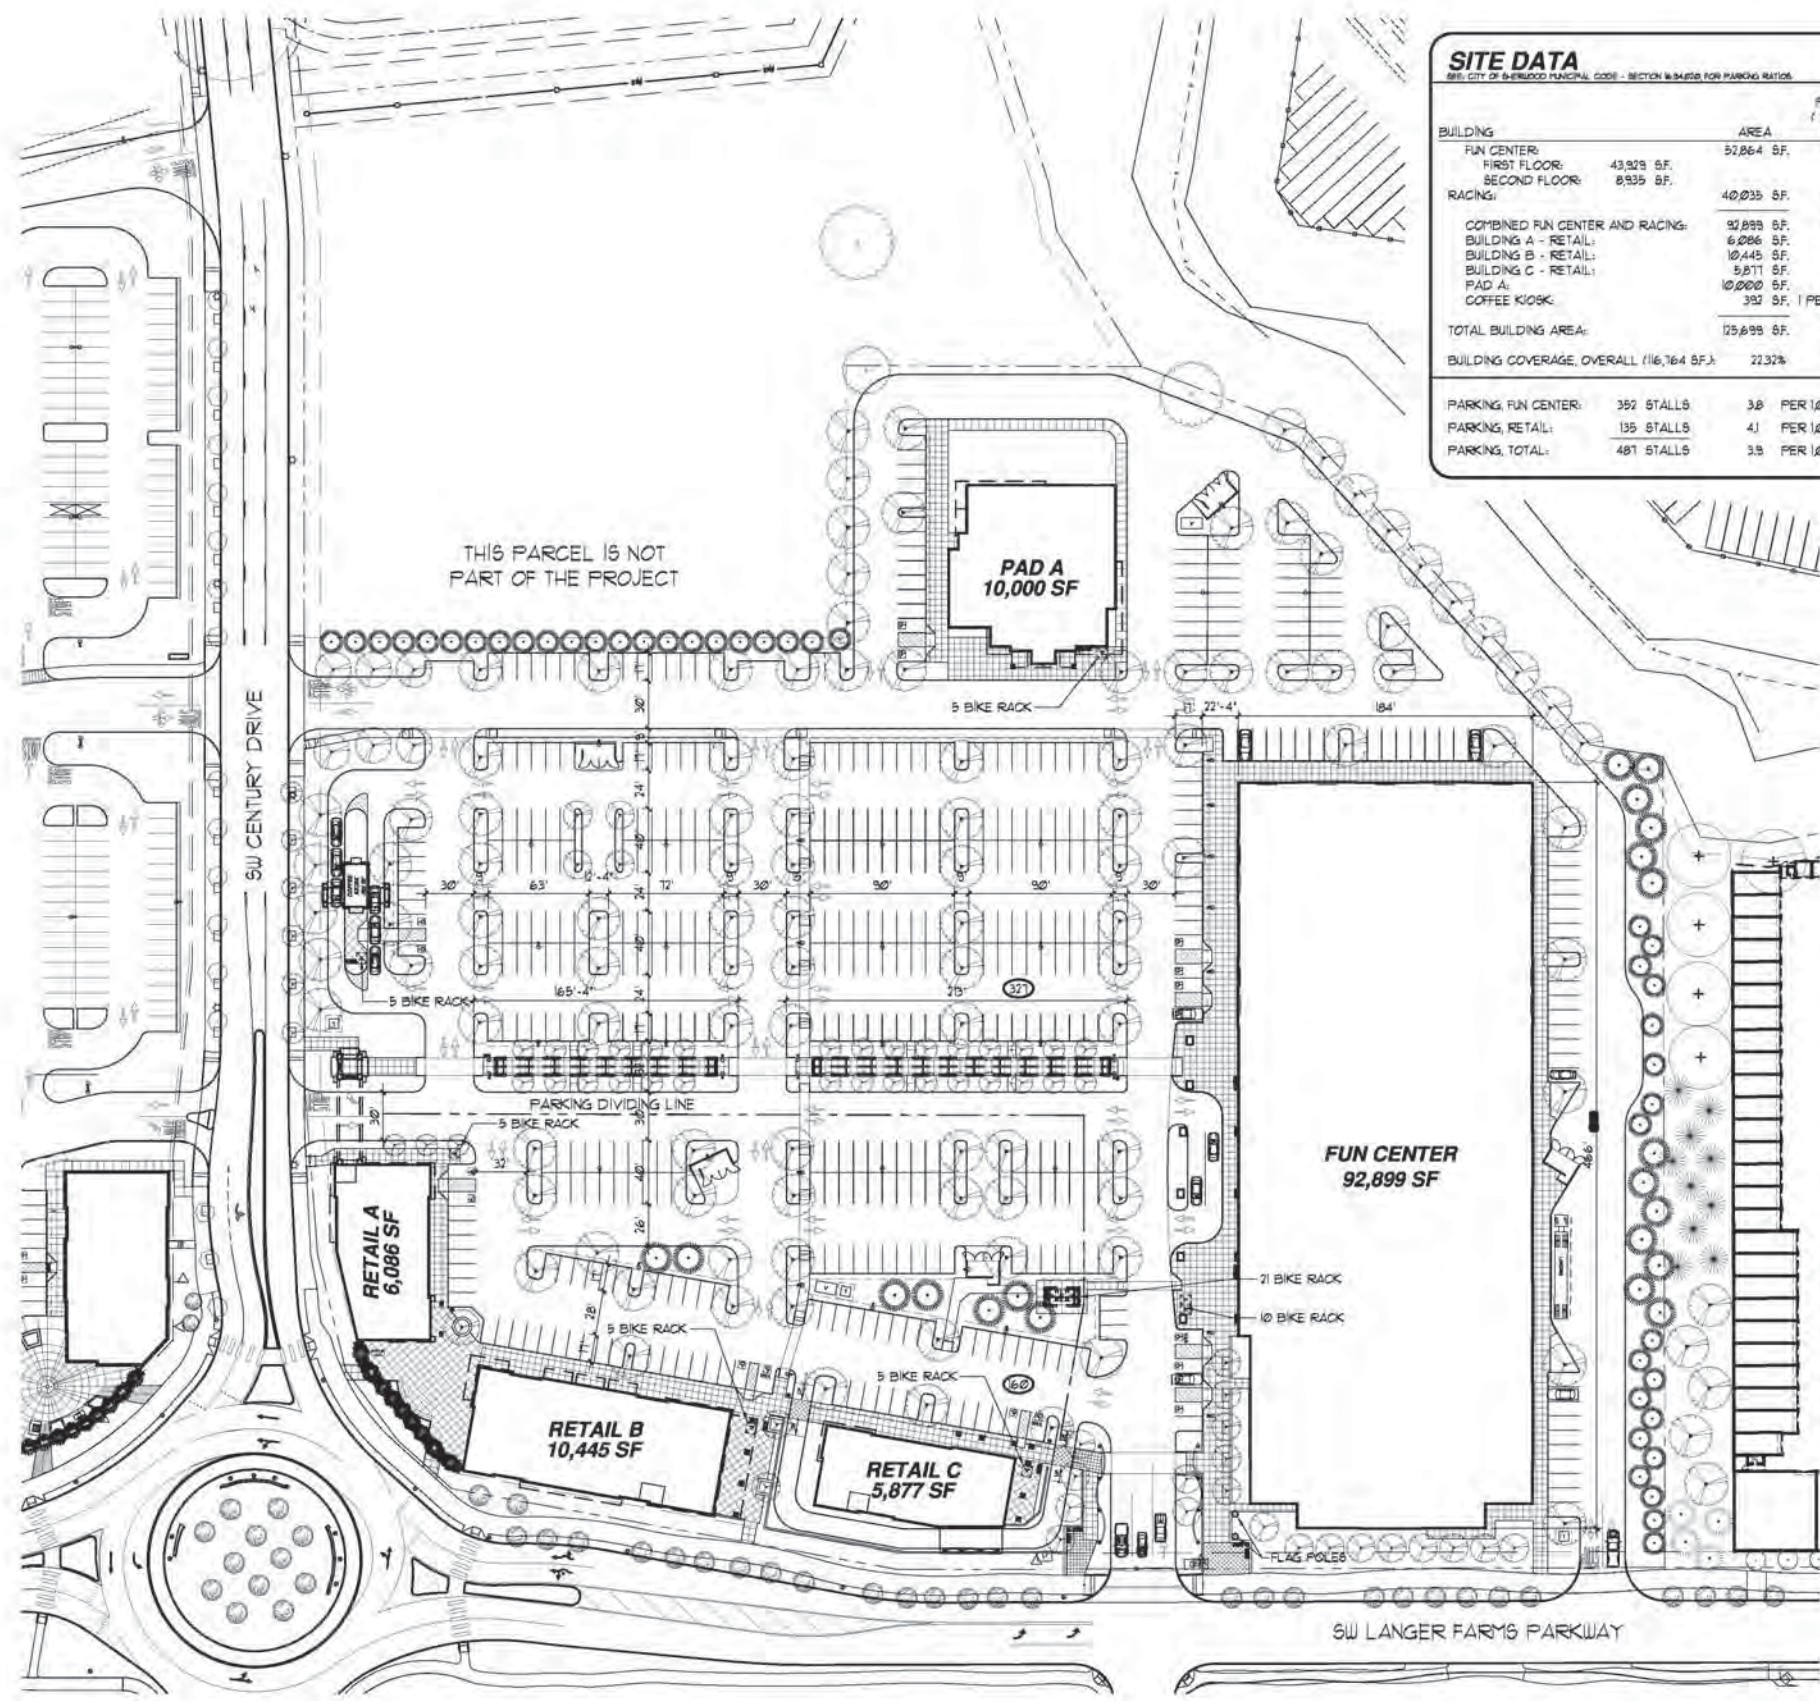

Associate Engineer

Project Description

Construction of a self-storage facility (TL 1100) and a hotel (TL 1200) with associated parking and private utilities.

Permit/Review Type (check one):

- Land Use / Building Review - Service Provider Permit
- Emergency Radio Responder Coverage Install/Test
- LPG Tank (Greater than 2,000 gallons)
- Flammable or Combustible Liquid Tank Installation (Greater than 1,000 gallons)
 - * Exception: Underground Storage Tanks (UST) are deferred to DEQ for regulation.
- Explosives Blasting (Blasting plan is required)
- Exterior Toxic, Pyrophoric or Corrosive Gas Installation (in excess of 810 cu.ft.)
- Tents or Temporary Membrane Structures (in excess of 10,000 square feet)
- Temporary Haunted House or similar
- OLCC Cannabis Extraction License Review
- Ceremonial Fire or Bonfire (For gathering, ceremony or other assembly)

RE: Response to vesting determination request for SP 17-01

Dear Seth,

Thank you for your letter and documentation regarding the vested status of the project at 21650 SW Langer Farms Parkway and the file number referenced above. Upon review of the information provided, we concur that sufficient work has taken place on the property in conjunction with the approved land use that we can find that the project has begun substantial construction and the project approval is vested. We look forward to working with your clients on completion of all phases of the approved project going forward.

Please contact us with additional questions.

**Re: 21650 SW Langer Farms Parkway
Final Site Plan (City File No.: SP 17-01)
Request for Vesting Determination**

Dear Julia:

This office represents Langer Family, LLC (“Langer”), the owner of the approximately 15.67-acre property located at the southeast corner of SW Langer Farms Parkway and SW Century Drive (“Property”) in the City of Sherwood (“City”), which is the site of Parkway Village South. As explained in more detail below, the City approved a Final Site Plan Review application in 2018 (City File No.: SP 17-01) (“Final Site Plan”) authorizing development of the Property. The purpose of this letter is to request a determination by the City that “construction on the site ha[d] begun” within the original two-year approval period of the Final Site Plan for purposes of Sherwood Zoning and Community Development Code (“ZCDC”) 16.90.020.F., and therefore, the Final Site Plan is vested and has not expired.

1. Background.

On December 14, 2017, the City issued a decision approving the Preliminary Site Plan, which authorized development of an approximately 92,889-square foot indoor entertainment and recreation fun center; approximately 32,408 square feet of retail uses across four additional buildings; an approximately 392-square foot drive-through coffee kiosk; and related parking, circulation, underground utilities, and landscaping on

four lots on the Property. On May 31, 2018, the City issued a decision approving the Final Site Plan.

The Final Site Plan was not timely appealed and became final. The Final Site Plan is subject to a condition stating that the “approval is valid for a period of two (2) years from the date of the decision notice.” It also provides that the City may grant extensions of the Final Site Plan pursuant to the ZCDC.¹

On April 1, 2019, the City approved a minor modification to the Final Site Plan (City File No. MMSP 18-08) to modify lot sizes, uses, building design, and site design for Pad A to allow a day care use and to change the proposed coffee kiosk to a retail building with a drive-through use. For purposes of this letter, the “Final Site Plan” refers to the Final Site Plan, as modified by the decision in City File No. MMSP 18-08.

2. Construction began on the Property in furtherance of the Final Site Plan within the original effective period of the Final Site Plan.

The Final Site Plan does not establish a vesting standard. Accordingly, the applicable vesting standard is set forth in ZCDC 16.90.020.F. and reads as follows (underline added):

“F. Time Limits

Site plan approvals are void after two (2) years unless construction on the site has begun, as determined by the City. The City may extend site plan approvals for an additional period not to exceed one (1) year, upon written request from the applicant showing adequate cause for such extension, and payment of an extension application fee as per Section 16.74.010. A site plan approval granted on or after January 1, 2007 through December 31, 2009, is extended until December 31, 2013.”

Thus, the relevant consideration under this standard is whether “construction * * * has begun.” Notably, this vesting standard does not require a certain type or amount of

¹ In conjunction with approving the Preliminary Site Plan, the City also approved a five-lot subdivision of the Property (City File No. SUB 17-03). Langer has implemented the subdivision by recording a final plat consistent with the City’s approval. The subdivision approval is not part of this vesting request.

“construction;” instead, it simply requires “construction.” Further, although the term “construction” is not defined in the ZCDC, Merriam-Webster defines “construction” as “the process, art, or manner of constructing something,” and then further defines “construct” as “to make or form by combining or arranging parts or elements.” See definitions in Exhibit 1.

Langer has taken steps to implement the Final Site Plan that clearly constitute “mak[ing] or form[ing] by combining or arranging parts or elements.” In short, Langer has engaged in construction on the Property. Specifically, pursuant to permits granted by the City, Langer has extended essential underground utilities (including electrical power, communications, water, and sanitary sewer); has completed frontage improvements along SW Century Drive; has installed a significant amount of the on-site circulation, parking and landscaping approved by the Final Site Plan; and has constructed and opened Phase 1 of the indoor entertainment and recreation center (Langer’s Entertainment Center) (which is approximately 56,000 square feet in size and is easily the largest building approved by the Final Site Plan). See aerial photo of site in Exhibit 2.²

In completing these activities, Langer has incurred substantial expenses, including approximately \$14,000,000.00 in construction costs and another \$2,500,000.00 in design costs. Together, Langer estimates that these costs are equal to nearly 50% of the overall cost necessary to implement the Final Site Plan, which significantly exceeds the Oregon common law standard for finding that a project has vested. See *Clackamas County v. Holmes*, 265 Or 193, 508 P2d 190 (1973) (finding vested right to complete and continue construction of a development project when costs incurred were seven percent of the estimated total project cost).

Notably, Langer completed all of this work and incurred all of these expenses before May 2020, the original date the Final Site Plan would have expired. Thus, although this vesting request is filed outside the original two-year effective period of the Final Site Plan, the referenced expenses are all eligible for consideration in the vesting analysis.

² The City has previously acknowledged that “[c]onstruction on the site has started.” See City Staff Report and Notice of Decision for the minor modification to Site Plan 17-01 (City File No. MMSP-18-08) at page 1.

Julia Hajduk
October 18, 2021
Page 4

Langer has vested the Final Site Plan.

3. Conclusion.

Based upon the argument and evidence in this letter and its enclosures, the City should find that “construction ha[d] begun on the site” within the original two-year approval period of the Final Site Plan pursuant to ZCDC 16.90.020.F. As a result, the City should further find that the Final Site Plan is vested and not subject to expiration or extension.

Please feel free to contact me if you have questions or would like additional information. Thank you for your consideration of the points in this letter.

Very truly yours,

Seth J. King

Exhibit O: 1995 PUD Design Guidelines

SHERWOOD VILLAGE RETAIL/COMMERCIAL DESIGN GUIDELINES

1. RETAIL BUILDING CONSTRUCTION

- A. Exterior materials and treatment (trim, etc.)
 - 1) Predominantly wood exterior.
 - 2) Exterior windows and doors will have minimum 1 inch x 3 inch surrounds painted white.
 - 3) Paint: Light tone palettes (white, off-white, grey, beige, tan), or similar as per Design Review Committee's approval.
- B. Shapes of openings
 - 1) Arched openings and bays encouraged.
- C. Storefronts
 - 1) Storefronts should have trimmed openings similar to above A.2.).
- D. Roofs
 - 1) Pitched roof forms are encouraged.
 - 2) Large amounts of flat roof are discouraged.

2. LANDSCAPING

- A. Barkdust is not to be substituted as grass in front yards.
- B. All driveways and vehicular storage areas shall be paved with asphalt, gravel, or other dust minimizing material.
- C. Trash and service areas must be screened from public view.

3. SIGNAGE

- A. Sign Post Standards
 - 1) Main thoroughfares will have upgraded sign post standards.
 - 2) Retail and commercial development areas will use the approved City of Sherwood sign posts painted to match the main thoroughfare posts and the pedestrian light posts.

Att. 10

B. Entry Monuments

1) All entry monuments and common area signage will be designed by JKS Architects.

2) Sherwood Village monument signage will be at the following location:

a. The intersection of 12th street and Sherwood Blvd.

b. The opposite end of 12th street.

c. The intersection of Langer Drive and Tualatin-Sherwood Hwy.

C. Building signage

1) All freestanding building signage will be of similar construction to the monument signage: wood or concrete, painted white, with a shingled roof, and approved by Design Review Committee.

2) Shall follow City of Sherwood signage restrictions.

4. LIGHTING

A. In addition to the City of Sherwood approved intersection street lights, all residential areas, 12th street, and common areas will use a 6200MC-100HPS/12-DB-BK, RTANA-9'-6"-4" w/lamp TrimbleHouse pedestrian light fixture in pre-painted forest green, spaced at approximately 150 lineal feet apart, placing them on alternating sides of the street.

GENERAL NOTES

- ALL WORK AND MATERIAL SHALL CONFORM TO THESE PLANS, THE APPLICABLE PROVISIONS OF THE INTERNATIONAL BUILDING CODE, UNIFORM PLUMBING CODE, THE CITY OF SHERWOOD, AND ALL APPLICABLE LOCAL, STATE, AND FEDERAL REGULATIONS.
- THE LOCATIONS, DEPTH AND DESCRIPTION OF EXISTING UTILITIES SHOWN ARE COMPILED FROM AVAILABLE RECORDS AND/OR FIELD SURVEYS. THE ENGINEER OR UTILITY COMPANIES DO NOT GUARANTEE THE ACCURACY OR THE COMPLETENESS OF SUCH RECORDS. ADDITIONAL UTILITIES MAY EXIST WITHIN THE WORK AREA.
- THE LOCATION OF EXISTING UTILITIES SHOWN ON THE PLANS ARE APPROXIMATE AND SHOWN FOR INFORMATION PURPOSES ONLY. THE CONTRACTOR SHALL HAVE ALL UTILITIES LOCATED PRIOR TO COMMENCING CONSTRUCTION. NOTIFY ENGINEER OF ANY DISCREPANCIES PRIOR TO CONSTRUCTION. ADDITIONAL UNDERGROUND UTILITIES MAY EXIST.
- CONTRACTOR MUST VERIFY ALL EXISTING UTILITIES FOR BOTH VERTICAL ELEVATION AND HORIZONTAL LOCATION PRIOR TO START OF WORK (POTHOLE BEFORE DIGGING IF NECESSARY). IF CONFLICTS EXIST, NOTIFY THE ENGINEER AND CITY OF SHERWOOD OF THE DISCREPANCIES. CONTINUING WORK, WITHOUT ADVISING THE ENGINEER AND CITY OF SHERWOOD WILL BE AT THE CONTRACTOR'S RISK AND ANY REDESIGN OR RELOCATION OF FACILITIES NECESSARY SHALL BE DONE AT THE CONTRACTOR'S EXPENSE. CHANGES MUST BE APPROVED BY THE PROJECT ENGINEER AND CITY OF SHERWOOD IN ADVANCE OF WORK. CONTRACTOR SHALL COORDINATE THE WORK WITH UTILITY AGENCIES.
- SUBSEQUENT SETTLEMENT OR CRACKING OF FINISHED SURFACE WITHIN THE WARRANTY PERIOD SHALL BE CONSIDERED TO BE A FAILURE OF THE SUBGRADE AND REPAIRED.
- THE CONTRACTOR SHALL CONTROL TRAFFIC IN CONFORMANCE WITH THE LATEST EDITION OF "MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES", "OREGON SUPPLEMENTS", AND CITY OF SHERWOOD REQUIREMENTS. THE CONTRACTOR SHALL AT ALL TIMES MAINTAIN LOCAL ACCESS ALONG THE PROJECT SITE. THE CONTRACTOR SHALL PROVIDE A PROJECT SPECIFIC TRAFFIC CONTROL PLAN, APPROVED BY THE OWNER, AND AVAILABLE ON THE PROJECT SITE.
- THE CONTRACTOR SHALL HAVE A MINIMUM OF ONE (1) SET OF APPROVED CONSTRUCTION PLANS ON THE JOB SITE AT ALL TIMES DURING THE CONSTRUCTION PHASES.
- CONTRACTOR SHALL COORDINATE AND SCHEDULE ALL EARTHWORK, TRENCH BACKFILL, ROAD CONSTRUCTION COMPACTION TESTS, AND GEOTECHNICAL REVIEWS WITH THE PROJECT'S GEOTECHNICAL ENGINEER.
- CONTRACTOR SHALL MAINTAIN BENCHMARKS, PROPERTY CORNERS, MONUMENTS, AND OTHER REFERENCE POINTS. IF SUCH POINTS ARE DISTURBED OR DESTROYED BY CONSTRUCTION ACTIVITIES, THE CONTRACTOR SHALL NOTIFY THE PROJECT ENGINEER AND PAY FOR THEIR REPLACEMENT BY EMPLOYING A PROFESSIONAL LAND SURVEYOR TO RESET PROPERTY CORNERS AND OTHER SUCH MONUMENTS.
- PRIOR TO BEGINNING WORK, THE CONTRACTOR SHALL PRESENT AT THE PRE-CONSTRUCTION MEETING A LIST OF SUBCONTRACTORS, A PROJECT SCHEDULE, A TRAFFIC CONTROL PLAN, AND AN EMERGENCY CONTACT NAME AND PHONE NUMBER.
- PRIOR TO FINAL ACCEPTANCE AND PAYMENT, THE CONTRACTOR SHALL CLEAN THE WORK SITE AND ADJACENT AREAS OF ANY DEBRIS, DISCARDED ASPHALTIC CONCRETE MATERIAL, OR OTHER ITEMS DEPOSITED BY THE CONTRACTOR'S PERSONNEL DURING THE PERFORMANCE OF THIS CONTRACT.
- PUBLIC ROADWAY SHALL NOT BE CLOSED TO TRAFFIC, AT ANY TIME, WITHOUT HAVING FIRST OBTAINED WRITTEN APPROVAL FROM THE CITY. THE CONTRACTOR IS RESPONSIBLE FOR PROVISION OF TIMELY NOTIFICATION OF TRAFFIC FLOW DISRUPTIONS TO AREA WIDE EMERGENCY SERVICES.
- TRAFFIC CONTROL DEVICES, FLAG PERSONS, ETC., SHALL BE IN PLACE PRIOR TO INITIATION OF CONSTRUCTION WORK AND SHALL BE EFFECTIVELY MAINTAINED.
- A COPY OF THE PERMIT WITH ALL ATTACHMENTS, A COPY OF THE APPROVED CONSTRUCTION PLANS, AND ALL AMENDMENTS SHALL BE AVAILABLE AT THE PROJECT SITE AT ALL TIMES. ALL WORK SHALL CONFORM TO THE PERMIT TERMS, CONDITIONS/PROVISIONS, THE CITY APPROVED CONSTRUCTION PLANS, APPROVED PLAN AMENDMENTS, AND TO THESE GENERAL CONDITIONS. CHANGES TO ANY OF THE AFORESAID MUST BE APPROVED BY THE PROJECT ENGINEER AND THE CITY, IN ADVANCE OF WORK PERFORMANCE.
- MAINTENANCE OF THE WORK AREA AND APPROACH ROADS IS THE RESPONSIBILITY OF THE CONTRACTOR. THE WORK AREA AND APPROACH ROADS SHALL BE MAINTAINED IN A CLEAN AND SANITARY CONDITION, FREE FROM OBSTRUCTIONS, HAZARDS, DEBRIS, AND TRASH AT ALL TIMES. A COPY OF THE CONTRACTOR CERTIFICATE OF INSURANCE SHALL BE AVAILABLE AT THE WORK AREA.
- THE SPREADING OF MUD OR DEBRIS OR STORAGE OF MATERIAL OR EQUIPMENT OF ANY KIND UPON ANY PUBLIC ROADWAY IS STRICTLY PROHIBITED AND VIOLATION SHALL BE CAUSE FOR IMMEDIATE SUSPENSION OF THE PERMIT. THE PROJECT ENGINEER AND/OR THE CITY MAY AT ANY TIME ORDER IMMEDIATE CLEAN UP AND STOPPAGE OF WORK TO ACCOMPLISH CLEAN UP.
- EFFECTIVE EROSION CONTROL IS REQUIRED. EROSION CONTROL DEVICES MUST BE INSTALLED AND MAINTAINED.
- EFFECTIVE DRAINAGE CONTROL IS REQUIRED. DRAINAGE SHALL BE CONTROLLED WITHIN THE SITE AND SHALL BE ROUTED SO THAT ADJACENT PRIVATE PROPERTY, PUBLIC PROPERTY, AND THE RECEIVING SYSTEM ARE NOT ADVERSELY IMPACTED. THE PROJECT ENGINEER AND/OR THE CITY MAY AT ANY TIME ORDER CORRECTIVE ACTION AND STOPPAGE OF WORK TO ACCOMPLISH EFFECTIVE DRAINAGE CONTROL.
- A TEMPORARY HARD-SURFACE PATCH (COLD MIX AC OR HOT MIX BASE PAVING) SHALL BE PLACED ON TRENCHES WITHIN EXISTING ROADWAYS AT THE END OF EACH DAY'S WORK. NO TRENCH ON-SITE OR OFF-SITE, SHALL BE LEFT AT ANY TIME IN AN UNSAFE CONDITION. THE CONTRACTOR IS RESPONSIBLE FOR AND IS LIABLE FOR HAZARDS OR DAMAGE RESULTING FROM THE PROSECUTION OF THE WORK.
- THE CONTRACTOR SHALL PROTECT AND MAINTAIN OPERATION OF ALL EXISTING UTILITIES WITHIN THE CONSTRUCTION AREA THROUGHOUT THE CONSTRUCTION PROCESS AND SHALL BE RESPONSIBLE FOR REPLACEMENT OR REPAIR OF ALL EXISTING UTILITIES WHICH ARE DISTURBED. THE CONTRACTOR SHALL COORDINATE ALL WORK ON UTILITIES WITH THE VARIOUS OWNERS.
- DOWNTIME FOR UTILITIES SHALL BE HELD TO A MINIMUM AND COORDINATED WITH THE OWNER PRIOR TO DISRUPTION. INTERRUPTION SHALL BE IN ACCORDANCE WITH A SCHEDULE OF SHUTDOWNS TO BE PROVIDED BY THE CONTRACTOR AND APPROVED BY THE OWNER.
- UPON COMPLETION OF CONSTRUCTION, THE CONTRACTOR SHALL SUBMIT "REDLINE DRAWINGS" TO THE PROJECT ENGINEER AND OWNER. "REDLINE DRAWINGS" DOCUMENT ALL DEVIATIONS AND REVISIONS TO THE APPROVED PLANS; THEY ALSO RECORD A DESCRIPTION OF CONSTRUCTION MATERIALS ACTUALLY USED (PIPE MATERIALS, ETC.).
- THE CONTRACTOR SHALL PROCURE AND CONFORM TO ALL CONSTRUCTION PERMITS REQUIRED BY THE CITY OR OTHER APPLICABLE AGENCIES.
- ANY INSPECTION BY THE CITY, COUNTY, STATE, OR FEDERAL AGENCIES OR THE PROJECT ENGINEER SHALL NOT, IN ANY WAY, RELIEVE THE CONTRACTOR FROM ANY OBLIGATION TO PERFORM THE WORK IN COMPLIANCE WITH THE APPLICABLE CODES, REGULATION, CITY STANDARDS, AND PROJECT CONTRACT DOCUMENTS.
- THE PROJECT ENGINEER MUST BE NOTIFIED OF ALL CONSTRUCTION MODIFICATIONS. PRIOR APPROVAL MUST BE PROVIDED BY THE PROJECT ENGINEER BEFORE MODIFICATIONS TO THE APPROVED DESIGN ARE INITIATED.
- SITE CONSTRUCTION PRACTICES SHALL BE IN ACCORDANCE WITH OSHA REGULATIONS. THE CONTRACTOR SHALL MAINTAIN ON-SITE LEGIBLE MATERIAL SAFETY SHEETS FOR ALL HAZARDOUS MATERIALS USED ON-SITE.
- THE CONTRACTOR SHALL GIVE THE APPROPRIATE INSPECTION AGENCY TWO (2) WORKING DAYS ADVANCE NOTICE WHEN REQUESTING INSPECTIONS.
- THE CONTRACTOR SHALL TAKE NO ADVANTAGE OF ANY ERRORS, OMISSIONS, OR DISCREPANCIES IN THE PLANS. WHEN ERRORS, OMISSIONS, OR DISCREPANCIES ARE FOUND, THE ENGINEER SHALL BE NOTIFIED. WORK PERFORMED BY THE CONTRACTOR AS A RESULT OF AN ERROR, OMISSION, OR DISCREPANCY IN THE PLANS SHALL BE AT THE CONTRACTOR'S RISK AND EXPENSE WHEN SUCH ERROR, OMISSION, OR DISCREPANCY HAS NOT BEEN BROUGHT TO THE ATTENTION OF THE ENGINEER.
- CONTRACTOR SHALL MAINTAIN AN ADEQUATE FIRE LANE DURING CONSTRUCTION.
- CONTRACTOR SHALL RE-STRIPE AC PAVEMENT AND CONCRETE PAVEMENT WHERE REQUIRED DUE TO NEW CONSTRUCTION.
- CONTRACTOR SHALL MAINTAIN ACCESS TO EXISTING ROADWAYS AND FACILITIES AS DETERMINED NECESSARY BY OWNER.
- CONTRACTOR SHALL REPLACE, IN KIND, ALL AC PAVEMENT, CONCRETE, LANDSCAPING, AND IRRIGATION WHICH IS REMOVED OR DISTURBED DURING INSTALLATION OF PIPELINE AND PLACEMENT OF MANHOLES.
- CONTRACTOR SHALL COORDINATE CONSTRUCTION TO PREVENT ELEVATION CONFLICTS.
- THE RESPONSIBILITY FOR CONSTRUCTION OF SITE UTILITIES SHALL BEGIN AT 5' OUTSIDE THE BUILDING SLAB.
- UTILITIES SHOWN ARE DRAWN SCHEMATICALLY. UTILITY PLANS MAY NOT REFLECT THE ACTUAL SPACING AND HORIZONTAL/VERTICAL LOCATION OF NEW OR EXISTING UTILITIES. PLANS DO NOT SHOW ALL BENDS, REDUCERS, WYES, GASKETS, CLEANOUTS, FITTINGS, AND STRUCTURES. CONTRACTOR IS RESPONSIBLE FOR MATERIALS AND LABOR NECESSARY TO CONSTRUCT UTILITIES SHOWN AS INTENDED IN ACCORDANCE WITH APPLICABLE MANUFACTURER, LOCAL, STATE, AND FEDERAL REQUIREMENTS.

ADDITIONAL NOTES:

- PIPE LENGTHS SHOWN ARE APPROXIMATE.
- PROPERTY AND RIGHT-OF-WAY LINES SHOWN ARE APPROXIMATE. THESE PLANS ARE NOT MEANT TO SERVE BOUNDARY SURVEY PURPOSES.
- THE CONTRACTOR SHALL PERFORM ALL WORK NECESSARY TO COMPLETE THIS PROJECT IN ACCORDANCE WITH THE PLANS AND SPECIFICATIONS INCLUDING SUCH INCIDENTALS AS MAY BE NECESSARY TO MEET THE INTENT OF THE PROJECT CONTRACT DOCUMENTS, APPLICABLE AGENCY REQUIREMENTS, AND OTHER WORK AS NECESSARY TO PROVIDE A COMPLETE PROJECT.
- THE PROJECT ENGINEER RESERVES THE RIGHT TO ADJUST GRADES OR ALIGNMENT TO ACCOMMODATE OTHER UTILITIES AS REQUIRED; SUCH ADJUSTMENTS OR REVISIONS SHALL BE REVIEWED AND APPROVED BY THE CITY PRIOR TO COMMENCEMENT OF WORK.
- THESE PLANS ASSUME THAT CONSTRUCTION STAKING WILL BE NECESSARY TO CONSTRUCT THE IMPROVEMENTS SHOWN AND THAT CONSTRUCTION STAKING ACTIVITIES WILL BE PERFORMED BY AKS ENGINEERING & FORESTRY LLC. AKS ENGINEERING & FORESTRY LLC DOES NOT ACCEPT ANY RESPONSIBILITY FOR ITEMS CONSTRUCTED INCORRECTLY BASED ON MISINTERPRETATIONS OF ITEMS SHOWN ON THESE PLANS.

FIRE DEPARTMENT NOTES - FOR PRIVATE WATER SYSTEMS:

- PRIVATE FIRE SERVICE MAINS SHALL COMPLY WITH THE LATEST EDITION OF THE NATIONAL FIRE PROTECTION ASSOCIATION (NFPA) STANDARD 24, INSTALLATION OF PRIVATE FIRE SERVICE MAINS AND THEIR APPURTENANCES.
- SEE BUILDING FIRE SPRINKLER PLANS (BY OTHERS) FOR ADDITIONAL INFORMATION.

STORM SEWER CONSTRUCTION NOTES - PRIVATE

- THE FOLLOWING STANDARD SPECIFICATIONS ARE INCORPORATED BY REFERENCE. ALL MATERIALS AND WORK SHALL CONFORM TO APPLICABLE REQUIREMENTS OF THE INTERNATIONAL BUILDING CODE (IBC), UNIFORM PLUMBING CODE (UPC), CITY OF SHERWOOD STANDARD CONSTRUCTION SPECIFICATIONS, AND THE AMERICAN PUBLIC WORKS ASSOCIATION.
- ALL STORM SYSTEMS SHALL BE CLEANED AND FLUSHED. SEDIMENT, ROCK, AND OTHER DEBRIS SHALL BE COLLECTED AND DISPOSED OF IN A PROPER MANNER. IN NO CASE SHALL DEBRIS BE FLUSHED DOWN A STORM OR SANITARY SEWER FOR DISPOSAL. ALL DAMAGED IRRIGATION AND DRAINAGE PIPE, DRAIN TILES, SEWER LATERALS AND CULVERTS SHALL BE REPAIRED EXPEDITIOUSLY. DEBRIS COLLECTED SHALL BE DISPOSED OF IN A COMMERCIAL LANDFILL OR OTHER APPROVED LOCATION.
- INSTALLATION OF THE STORM SEWER SHALL BE PERFORMED ACCORDING TO THE STANDARD PRACTICE. ALL BACKFILL WITHIN TRAFFIC AREAS SHALL BE 3/4"-0" COMPACTED CRUSHED ROCK, COMPACTED TO 92% OF MAX DRY DENSITY PER AASHTO T-180.
- CONTRACTOR TO COORDINATE THE RELOCATION OF DRY UTILITIES (CABLE, PHONE, GAS, POWER, ETC.) WITH OWNER AS NECESSARY.
- STORM SEWER PIPE SHALL BE OF THE SIZE AND TYPE LISTED UNLESS SPECIFICALLY SHOWN ON THE PLANS. STORM STRUCTURES SHALL BE THE TYPE SHOWN ON THE DETAIL SHEET. INSTALLATION SHALL BE PER MANUFACTURER'S RECOMMENDATIONS.

SANITARY SYSTEM NOTES – PRIVATE

- 1. THE FOLLOWING STANDARD SPECIFICATIONS ARE INCORPORATED BY REFERENCE. ALL MATERIALS AND WORK SHALL CONFORM TO APPLICABLE REQUIREMENTS OF THE INTERNATIONAL BUILDING CODE (IBC), UNIFORM PLUMBING CODE (UPC), CITY OF SHERWOOD STANDARD CONSTRUCTION SPECIFICATIONS, AND THE AMERICAN PUBLIC WORKS ASSOCIATION.
- 2. ALL SANITARY SEWER SYSTEMS SHALL BE CLEANED AND FLUSHED. SEDIMENT, ROCK, AND OTHER DEBRIS SHALL BE COLLECTED AND DISPOSED OF IN A PROPER MANNER. IN NO CASE SHALL DEBRIS BE FLUSHED DOWN A STORM OR SANITARY SEWER FOR DISPOSAL.
- 3. SANITARY SEWER PIPE SHALL BE OF THE SIZE AND TYPE NOTED ON THE PLANS.
- 4. INSTALLATION OF THE SANITARY SEWER SHALL BE PERFORMED ACCORDING TO THE STANDARD PRACTICE. ALL BACKFILL IN TRAFFIC AREAS SHALL BE 3/4"-0" COMPACTED CRUSHED ROCK, COMPACTED TO 92% OF MAX DRY DENSITY PER AASHTO T-180.
- 5. CONTRACTOR TO COORDINATE THE RELOCATION OF DRY UTILITIES (CABLE, PHONE, GAS, POWER, ETC.) WITH OWNER AS NECESSARY.
- 6. ALL SANITARY SEWER PIPES SHALL BE INSTALLED WITH TRACER WIRE (18 GAUGE, INSULATED COPPER, OR HEAVIER, GREEN IN COLOR OR APPROVED MATERIALS). THE TRACER WIRE SHALL RUN THE FULL LENGTH OF PIPE AND TO THE TOP OF STRUCTURES AT THE END OF THE PIPE RUN.
- 7. ALL SANITARY SEWER PIPING WITHIN 5 FEET OF BUILDINGS SHALL BE IN ACCORDANCE WITH BUILDING AND PLUMBING PLANS.
- 8. SANITARY SEWER PIPES SHALL BE PROVIDED WITH A CLEANOUT AT ITS UPPER TERMINAL AND EACH RUN OF PIPING, WHICH IS MORE THAN ONE HUNDRED (100) FEET IN TOTAL DEVELOPED LENGTH, SHALL BE PROVIDED WITH A CLEANOUT FOR EACH ONE HUNDRED (100) FEET, OR FRACTION THEREOF, IN LENGTH OF SUCH PIPING. ADDITIONAL CLEANOUTS SHALL BE PROVIDED FOR EACH AGGREGATE CHANGE IN HORIZONTAL DIRECTION EXCEEDING 135 DEGREES. ALL REQUIRED CLEANOUTS MAY NOT BE SHOWN ON PLANS. MAXIMUM MANHOLE SPACING SHALL BE 300 FEET.
- 9. ALL PRIVATE SANITARY SEWER PIPES SHALL BE TESTED AND INSPECTED PER IBC/UPC REQUIREMENTS. CONTRACTOR IS RESPONSIBLE FOR COORDINATING INSPECTIONS WITH THE APPROPRIATE CITY INSPECTOR.
- 10. ALL MANHOLES SHALL BE 48" DIAMETER UNLESS NOTED OTHERWISE.
- 11. WATER TESTING OF THE SANITARY SEWER IS ONLY ALLOWED IF THE ENTIRE PIPING SYSTEM IS EXPOSED TO VIEW AND NOT COVERED IN ANY WAY.
- 12. VIDEO LINE INSPECTION AND COMPACTION TESTING OF BACKFILL MAY BE REQUIRED AT THE REQUEST OF THE CITY INSPECTOR.
- 13. ABANDONED SANITARY SEWER LINES SHALL BE REMOVED IN THEIR ENTIRETY OR FULLY GROUTED. INSPECTION IS REQUIRED.

WATER SYSTEM NOTES – PRIVATE

- 1. ALL MATERIAL SHALL BE OF NEW MANUFACTURE. NO REBUILT OR USED MATERIALS WILL BE ALLOWED.
- 2. PRIVATE WATER LINES (BUILDING SIDE OF METER) SHALL BE INSTALLED IN ACCORDANCE WITH INTERNATIONAL BUILDING CODE (IBC)/UNIFORM PLUMBING CODE (UPC) REQUIREMENTS. OBTAIN REQUIRED BUILDING/PLUMBING PERMITS PRIOR TO CONSTRUCTION. PRIVATE IMPROVEMENTS INCLUDE ALL IMPROVEMENTS AFTER THE FIRE SERVICE VAULT AND DOMESTIC WATER METER.
- 3. WATER PIPES SHALL HAVE TRACER WIRE (12 GAUGE) INSTALLED BESIDE PIPE.
- 4. ALL WORK AND MATERIALS SHALL COMPLY WITH ALL APPLICABLE COUNTY CODES AND STANDARDS, THE OREGON STATE HEALTH DIVISION ADMINISTRATION RULES, A.W.W.A. STANDARDS, A.P.W.A. STANDARDS, AND THE CITY OF SHERWOOD STANDARDS, UPC AND IBC REQUIREMENTS.
- 5. ALL PIPE SHALL HAVE MINIMUM COVER OF THREE- FEET BELOW THE CURRENT AND FUTURE FINISH GRADES.
- 6. ALL VALVES SHALL BE PER AMERICAN WATER WORKS ASSOCIATION (AWWA) WATER SYSTEM DESIGN STANDARDS AND COUNTY CODES, STANDARD DETAILS, AND DRAWINGS.
- 7. ALL FIRE HYDRANTS SHALL BE PER AWWA WATER SYSTEM DESIGN STANDARDS AND COUNTY CODES, STANDARD DETAILS, AND DRAWINGS.
- 8. ALL TEES, ELBOWS, BENDS, AND BLOW-OFF LOCATIONS SHALL, UNLESS OTHERWISE NOTED, HAVE A Poured-IN-PLACE CONCRETE THRUST BLOCK OR MECHANICAL RESTRAINT.
- 9. ALL SANITARY SEWER LINES WITHIN 10 FEET LATERALLY OR 18 INCHES VERTICALLY OF A WATER MAIN SHALL BE ENCASED IN CONCRETE, OR CONSTRUCTED OF DUCTILE IRON PIPE WITH WATERTIGHT JOINTS.
- 10. ANY CROSSING OF WATER MAIN BY SANITARY SEWER SHALL BE MADE AT APPROXIMATELY 90 DEGREES AND HAVE 18 INCHES OF VERTICAL CLEARANCE OR SANITARY SEWER SHALL BE CONSTRUCTED OF DUCTILE IRON WATER PIPE WITH WATERTIGHT JOINTS FOR A DISTANCE OF 9 FEET FROM BOTH SIDES OF THE WATER LINE AND ENCASED IN CONCRETE. HYDROSTATIC TESTS SHALL CONFORM WITH ALL APPLICABLE CODES AND BE MONITORED BY THE CITY INSPECTOR.
- 11. DISINFECTION: POTABLE WATER PIPELINES SHALL BE FLUSHED AND DISINFECTED BEFORE PLACING INTO SERVICE, AFTER PERFORMING HYDROSTATIC TESTING. DISINFECTION SHALL CONFORM WITH ALL APPLICABLE CODES. DISCHARGING OF THE HIGHLY CHLORINATED WATER USED FOR DISINFECTION SHALL NOT BE DISCHARGED INTO SURFACE WATERS. APPLICABLE FEDERAL, STATE, AND LOCAL REGULATIONS CONCERNING DISCHARGE SHALL BE FOLLOWED. TESTING AND INSPECTION SHALL BE IN ACCORDANCE WITH ALL APPLICABLE CODES. CONTACT CITY OF SHERWOOD ENGINEERING TO COORDINATE TESTS.
- 12. BACKFILL WITHIN ALL TRAFFIC AREAS SHALL BE 3/4"-0 CRUSHED ROCK, COMPACTED TO 92% OF MAX DRY DENSITY PER AASHTO T-180.
- 13. WHEN FIRE PROTECTION, INCLUDING FIRE APPARATUS ACCESS ROADS AND WATER SUPPLIES FOR FIRE PROTECTION, IS REQUIRED TO BE INSTALLED, SUCH PROTECTION SHALL BE INSTALLED AND MADE SERVICEABLE PRIOR TO AND MAINTAINED THROUGHOUT THE TIME OF CONSTRUCTION. THIS INCLUDES FIELD INSPECTIONS, FLUSHING AND TESTING, AND FULL APPROVAL OF ALL FIRE LINES AND FIRE HYDRANTS.
- 14. A FIRE FLOW TEST SHALL BE MADE AT A NEW FIRE HYDRANT TO VERIFY WATER SUPPLY OF 1500 GPM AT 20 PSI AS A MINIMUM.
- 15. A "CONTRACTOR'S MATERIALS AND TESTING" – "CERTIFICATE OF COMPLIANCE" WILL BE REQUIRED FOR BOTH THE ABOVE GROUND AND UNDERGROUND PIPING OF THE FIRE SPRINKLER PROTECTION SYSTEMS.
- 16. ALL PRIVATE DOMESTIC AND FIRE WATER SERVICE LINES OUTSIDE OF THE BUILDING SHALL BE SCHEDULE 40 PVC, SCHEDULE 80 PVC OR C900 PVC CLASS 150, (IN ACCORDANCE WITH UPC REQUIREMENTS) UNLESS OTHERWISE NOTED. WHEN SPECIFIED, DUCTILE IRON PIPE SHALL BE CLASS 52 TYTON-JOINT DUCTILE IRON PIPE CONFORMING TO AWWA C110.

- 17. CONTRACTORS SHALL CONTACT CITY AT LEAST 2 BUSINESS DAYS, BUT NOT MORE THAN 10 BUSINESS DAYS, BEFORE COMMENCING AN EXCAVATION PRIOR TO CONSTRUCTION, ALL ON-SITE FIRE WATER SYSTEM LINE SIZES, METER SIZES, DOUBLE CHECK DETECTOR ASSEMBLY (DCCA) SIZES, AND OTHER APPURTENANCES SHOWN ON THE UTILITY PLAN SHALL BE VERIFIED BY THE FIRE PROTECTION ENGINEER FOR THE PROJECT. ANALYSIS OF THE SYSTEM SHALL BE FROM THE NEW FACILITY SERVICE TO THE POINT OF CONNECTION WITH THE PUBLIC WATER SYSTEM. THE MAKES AND MODELS OF ALL SYSTEM COMPONENTS SHALL BE ACCEPTABLE PER WATER DISTRICT LIST OF APPROVED COMPONENTS.
- 18. THE CONTRACTOR SHALL HAVE THE BACKFLOW PREVENTION ASSEMBLY TESTED BY A CERTIFIED BACKFLOW ASSEMBLY TESTER AT THE TIME OF INSTALLATION.
- 19. ANY WATER SYSTEM SHUTDOWNS MUST BE SCHEDULED WITH AND APPROVED BY THE OWNER.
- 20. FIRE HYDRANT PRESSURE AND FLOW TESTS SHALL BE COORDINATED AND APPROVED BY THE PROJECT'S FIRE PROTECTION ENGINEER.
- 21. LICENSED PLUMBERS WORKING FOR A LICENSED PLUMBING CONTRACTOR SHALL INSTALL ALL ON-SITE DOMESTIC WATER SERVICE, ORS 693.025.
- 22. A CERTIFIED BACKFLOW PREVENTION DEVICE TESTER SHALL TEST EACH APPROVED BACKFLOW PREVENTION DEVICE AND A COPY OF THE TESTER'S REPORT BE MADE AVAILABLE FOR THE PLUMBING INSPECTOR TO EXAMINE DURING FINAL PLUMBING INSPECTION, OFSC 603.3.3.
- 23. CONTRACTOR SHALL PROVIDE PROJECT ENGINEER WITH A COPY OF ALL SUBMITTAL DOCUMENTS FOR APPROVAL PRIOR TO INSTALLATION.
- 24. PRIOR TO THE START OF CONSTRUCTION, A CONSTRUCTION SITE FIRE SAFETY PLAN SHALL BE SUBMITTED TO THE FIRE MARSHAL'S OFFICE FOR REVIEW AND APPROVAL.
- 25. PRIOR TO THE START OF CONSTRUCTION, FIRE APPARATUS ACCESS ROADS ARE REQUIRED TO BE INSTALLED AND MADE SERVICEABLE.
- 26. PRIOR TO COMBUSTIBLE MATERIALS BEING MOVED ON-SITE, OR START OF VERTICAL CONSTRUCTION, FIRE PROTECTION WATER SUPPLIES SHALL BE INSTALLED AND MADE SERVICEABLE, UNLESS AN APPROVED ALTERNATIVE METHOD OF PROTECTION IS APPROVED BY THE FIRE MARSHAL.
- 27. PRIOR TO ISSUANCE OF THE PUBLIC UTILITY PERMIT, CONSTRUCTION DOCUMENTS FOR THE UNDERGROUND FIRE PROTECTION INFRASTRUCTURE IMPROVEMENTS, INCLUDING BUT NOT LIMITED TO PLANS, HYDRAULIC CALCULATIONS, AND MATERIALS DATA PACKAGES SHALL BE SUBMITTED. THIS INFORMATION CAN BE PROVIDED AS A DEFERRED SUBMITTAL WITH APPROVAL OF THE FIRE MARSHAL.
- 28. PRIOR TO THE START OF CONSTRUCTION, ADDRESS SIGNAGE SHALL BE PROVIDED AT EACH ENTRANCE TO THE CONSTRUCTION SITE. ALL SIGNAGE SHALL BE OF AN APPROVED SIZE, WEATHER RESISTANT AND BE MAINTAINED UNTIL REPLACED BY PERMANENT SIGNS.

CITY OF SHERWOOD STANDARD NOTES

- 1. CONTRACTOR SHALL NOTIFY CITY OF SHERWOOD ENGINEERING DEPARTMENT (AT 503-925-2306) TWO BUSINESS DAYS PRIOR TO COMMENCEMENT OF WORK ON GRADING, PUBLIC IMPROVEMENTS, OR STORM WATER TREATMENT FACILITIES.
- 2. ALL CONSTRUCTION WORK AND MATERIALS SHALL CONFORM TO APPLICABLE CITY OF SHERWOOD STANDARD CONSTRUCTION SPECIFICATIONS, CLEAN WATER SERVICES (CWS) DESIGN AND CONSTRUCTION STANDARDS, UNIFORM PLUMBING CODE (UPC) AND UNIFORM BUILDING CODE (UBC). CONTRACTOR AND SUBCONTRACTOR(S) SHALL HAVE A MINIMUM OF ONE SET OF APPROVED PLANS AND CITY OF SHERWOOD STANDARD CONSTRUCTION SPECIFICATIONS ON THE JOB SITE AT ALL TIMES DURING CONSTRUCTION.
- 3. APPLICANT(S) IS RESPONSIBLE FOR ALL COSTS OF CONSTRUCTION
- 4. CITY OF SHERWOOD BUILDING DEPARTMENT PERMITS ARE REQUIRED FOR PRIVATELY MAINTAINED SEWER, INLETS, INLET LEADS, AND SERVICE LATERALS CONSTRUCTION OUTSIDE OF PUBLIC RIGHT-OF-WAY OR PUBLIC EASEMENT. ALL WORK APPROVED UNDER PLUMBING PERMITS SHALL BE PRIVATELY OWNED AND MAINTAINED.
- 5. ALL TRENCH LINES AND EXCAVATIONS SHALL BE PROPERLY SHORED AND BRACED TO PREVENT CAVING. UNUSUALLY DEEP EXCAVATIONS MAY REQUIRE EXTRA SHORING AND BRACING. ALL SHEETING, SHORING, AND BRACINGS OF TRENCHES SHALL CONFORM TO OREGON OCCUPATIONAL SAFETY AND HEALTH DIVISION (OSHA) REGULATIONS AND CITY OF SHERWOOD STANDARD SPECIFICATIONS.
- 6. CONTRACTOR IS TO FIELD VERIFY LOCATION AND DEPTH OF ALL UTILITIES PRIOR TO CONSTRUCTION.
- 7. SITE EROSION CONTROL PLAN AND BMPs MEETING CWS STANDARDS TO BE IN PLACE AND APPROVED PRIOR TO CONSTRUCTION.
- 8. A TEMPORARY USE PERMIT, SUBJECT TO SECTION 16.86 OF THE CITY OF SHERWOOD CODE, IS REQUIRED PRIOR TO ANY USE OF AN ON-SITE CONSTRUCTION TRAILER. UNDER NO CIRCUMSTANCE SHALL THE TRAILER BE LOCATION IN THE PUBLIC RIGHT-OF-WAY.
- 9. THE CONTRACTOR SHALL OBTAIN ALL REQUIRED PERMITS AND LICENSES BEFORE STARTING CONSTRUCTION. A COPY OF THE REQUIRED PERMITS AND ATTACHMENTS SHALL BE AT THE WORK SITE AND AVAILABLE DURING CONSTRUCTION.
- 10. TRAFFIC CONTROL SHALL BE IN ACCORDANCE WITH THE CURRENT MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD). TRAFFIC CONTROL PLAN SHALL BE SUBJECT TO THE APPROVAL OF THE CITY.
- 11. ANY INSPECTION OR CONSTRUCTION OBSERVATION BY THE CITY, COUNTY, STATE, OR OTHER JURISDICTIONAL AGENCIES SHALL NOT, IN ANY WAY, RELIEVE THE CONTRACTOR FROM ANY OBLIGATION TO PERFORM THE WORK IN COMPLIANCE WITH THE APPLICABLE CODES, REGULATIONS, CITY STANDARDS, AND PROJECT CONTRACT DOCUMENTS.
- 12. NO TRENCHES OR FITS WILL BE ALLOWED TO REMAIN OPEN OVERNIGHT. ALL TRENCHES AND FITS SHALL BE COVERED WITH STEEL PLATES OR FILLED AT NIGHT.
- 13. ANY ALTERATIONS OR VARIATIONS FROM THESE PLANS, EXCEPT MINOR FIELD ADJUSTMENTS NEEDED TO MEET EXISTING FIELD CONDITIONS, SHALL BE APPROVED BY THE ENGINEER AND APPLICABLE REGULATORY AGENCY REPRESENTATIVE.
- 14. ANY PRIVATE UTILITIES TO BE INSTALLED WITHIN CITY OF SHERWOOD RIGHT-OF-WAY THAT IS NOT SHOWN ON THE APPROVED CONSTRUCTION PLANS (POWER, TELECOMMUNICATIONS, GAS, IRRIGATION, ETC.) SHALL HAVE PLANS SUBMITTED FOR A RIGHT-OF-WAY PERMIT PRIOR TO CONSTRUCTION OF UTILITY. ANY PRIVATE OR FRANCHISE UTILITIES INSTALLED WITHOUT A RIGHT-OF-WAY PERMIT IS SUBJECT TO REMOVAL.

CITY OF SHERWOOD SANITARY SEWER NOTES – PUBLIC

- 1. SANITARY SEWER PIPE MATERIAL SHALL BE AS NOTED ON PLANS AND CONFORM TO THE REQUIREMENTS BELOW.
- 2. SANITARY SEWER MATERIALS AND TESTING SHALL MEET CLEAN WATER SERVICES (CWS) DESIGN AND CONSTRUCTION SPECIFICATIONS AND THE CITY OF SHERWOOD'S ENGINEERING DESIGN MANUAL.

- 3. ALL SANITARY SERVICE STUB OUTS SHALL EXTEND A MINIMUM OF THREE FEET (3') BEYOND EASEMENT OR RIGHT-OF-WAY LINE AND BE MARKED WITH A PRESSURE TREATED 2x4. THE TOP 12 INCHES (12") SHALL BE PAINTED GREEN AND LABELED "SS" FOR FUTURE LOCATION. THE 2x4 SHALL BE MARKED WITH DETECTABLE UNDERGROUND MAGNETIC TAPE GREEN IN COLOR AND BE MARKED "CAUTION SEWER BURIED BELOW". THE MAGNETIC TAPE SHALL BE PLACED FROM THE MAIN PIPELINE TO THE END OF THE SIDE LATERAL. THE 18 INCHES (18") OF SEPARATION BETWEEN THE TAPE AND PIPE. THE SERVICE LATERAL SHALL ALSO HAVE TRACER WIRE INSTALLED. THE TRACER WIRE SHALL BE 12-GAUGE STRANDED COPPER WIRE WITH GREEN HMW-PE INSULATION. TRACER WIRE SHALL RUN TO THE TOP OF THE 2x4 MARKER.
- 4. ALL SANITARY SEWER LINES SHALL BE VIDEO INSPECTED BY THE CONTRACTOR AND HAVE A MANDREL PASSED THROUGH TO CHECK DEFLECTION. TESTING AND INSPECTION SHALL BE IN ACCORDANCE WITH ALL APPLICABLE CODES. THIS WILL BE WITNESSED BY THE CITY. MINIMUM 48 HOUR NOTICE IS REQUIRED. CITY WITNESSED VIDEO INSPECTION SHALL OCCUR AFTER THE PLACEMENT OF ASPHALT. CITY STRONGLY ENCOURAGES VIDEO INSPECTION BY THE DEVELOPER AND/OR CONTRACTOR PRIOR TO ASPHALT PLACEMENT. SHOULD CONTRACTOR OR DEVELOPER HAVE QUESTIONS REGARDING SPECIFIC SECTIONS OF PRE-ASPHALT VIDEO, CITY INSPECTOR SHALL PROVIDE A RECOMMENDATION UPON THE ACCEPTABILITY OF THE SECTION IN QUESTION.
- 5. ALL SANITARY SEWER LINES SHALL BE AIR TESTED. ALL MANHOLES SHALL BE HYDROSTATICALLY TESTED OR VACUUM TESTED. TESTING AND INSPECTION SHALL BE IN ACCORDANCE WITH ALL APPLICABLE CODES. THIS WILL WITNESSED BY THE CITY. MINIMUM 48 HOUR NOTICE IS REQUIRED.

CITY OF SHERWOOD STORM SEWER NOTES – PUBLIC

- 1. STORM SEWER PIPE SHALL BE AS NOTED ON PLANS AND CONFORM TO THE REQUIREMENTS BELOW.
- 2. STORM SEWER MATERIALS AND TESTING SHALL MEET CLEAN WATER SERVICES (CWS) DESIGN AND CONSTRUCTION SPECIFICATIONS AND THE CITY OF SHERWOOD'S ENGINEERING DESIGN MANUAL.
- 3. ALL STORM SERVICE STUB OUTS SHALL EXTEND A MINIMUM OF THREE FEET (3') BEYOND EASEMENT OR RIGHT-OF-WAY LINE AND BE MARKED WITH A PRESSURE TREATED 2x4. THE TOP 12 INCHES (12") SHALL BE PAINTED GREEN AND LABELED "ST" FOR FUTURE LOCATION. THE 2x4 SHALL BE MARKED WITH DETECTABLE UNDERGROUND MAGNETIC TAPE GREEN IN COLOR AND BE MARKED "CAUTION STORM DRAIN BURIED BELOW". THE MAGNETIC TAPE SHALL BE PLACED FROM THE MAIN PIPELINE TO THE END OF THE SIDE LATERAL. THE 18 INCHES (18") OF SEPARATION BETWEEN THE TAPE AND PIPE. THE SERVICE LATERAL SHALL ALSO HAVE TRACER WIRE INSTALLED. THE TRACER WIRE SHALL BE 12-GAUGE STRANDED COPPER WIRE WITH GREEN HMW-PE INSULATION. TRACER WIRE SHALL RUN TO THE TOP OF THE 2x4 MARKER. STORM SERVICE STUB OUTS TO BE A MINIMUM OF 4 INCH (4") DIAMETER PIPE AND HAVE A MINIMUM SLOPE OF 2%.
- 4. ALL STORM SEWER LINES SHALL BE VIDEO INSPECTED BY THE CONTRACTOR. TESTING AND INSPECTION SHALL BE IN ACCORDANCE WITH ALL APPLICABLE CODES. THIS WILL BE WITNESSED BY THE CITY. MINIMUM 48 HOUR NOTICE IS REQUIRED. CITY WITNESSED VIDEO INSPECTION SHALL OCCUR AFTER THE PLACEMENT OF ASPHALT. CITY STRONGLY ENCOURAGES VIDEO INSPECTION BY THE DEVELOPER AND/OR CONTRACTOR PRIOR TO ASPHALT PLACEMENT. SHOULD CONTRACTOR OR DEVELOPER HAVE QUESTIONS REGARDING SPECIFIC SECTIONS OF PRE-ASPHALT VIDEO, CITY INSPECTOR SHALL PROVIDE A RECOMMENDATION UPON THE ACCEPTABILITY OF THE SECTION IN QUESTION.
- 5. ALL STORM SEWER LINES SHALL HAVE A MANDREL PASSED THROUGH TO CHECK DEFLECTION. THIS WILL BE WITNESSED BY THE CITY. MINIMUM 48 HOUR NOTICE IS REQUIRED.

CITY OF SHERWOOD WATER SYSTEM NOTES – PUBLIC

- 1. ALL WORK AND MATERIALS SHALL COMPLY WITH ALL APPLICABLE CITY CODES AND STANDARDS, THE OREGON STATE HEALTH DIVISION ADMINISTRATION RULES, A.W.W.A. STANDARDS, A.P.W.A. STANDARDS, AND CITY OF SHERWOOD ENGINEERING DESIGN AND DETAILS MANUAL.
- 2. WATER MAINS SHALL BE PUSH-ON DUCTILE IRON PIPE THAT IS CEMENT-MORTAR LINED, SHALL CONFORM WITH ANSI A21.6 AND ANSI A21.11, AND SHALL BE U.S. TYTON JOINT POINT, AS MANUFACTURED BY UNITED STATES PIPE AND FOUNDRY COMPANY AND PACIFIC STATES CAST IRON COMPANY, OR AS APPROVED. THE TYPE AND THICKNESS CLASS SHALL BE PIPE CLASS 52 FOR PIPE DIAMETERS OF 10" AND SMALLER, PIPE CLASS 51 FOR PIPE DIAMETERS BETWEEN 12" AND 16", AND PIPE CLASS 50 FOR DIAMETERS OF 18" AND LARGER. THE RUBBER RING GASKETS SHALL CONFORM TO ANSI A21.11, AND SHALL BE FURNISHED WITH THE PIPE. A NON-TOXIC VEGETABLE SOAP LUBRICANT SHALL BE SUPPLIED FROM THE PIPE MANUFACTURER IN SUFFICIENT QUANTITIES FOR INSTALLING THE PIPE FURNISHED.
- 3. ALL PIPE SHALL HAVE MINIMUM COVER OF THREE- FEET BELOW THE FUTURE FINISHED GRADES IN EASEMENTS AND STREET RIGHTS-OF-WAY.
- 4. ALL VALVES SHALL BE PER CITY OF SHERWOOD WATER SYSTEM STANDARDS AND CITY CODES, STANDARD DETAILS, AND DRAWINGS.
- 5. ALL WATER METERS ARE TO BE SET BY THE CITY OF SHERWOOD.
- 6. ALL FIRE HYDRANTS SHALL BE PER CITY OF SHERWOOD WATER SYSTEM STANDARDS AND CITY CODES, STANDARD DETAILS, AND DRAWINGS.
- 7. ALL TEES, ELBOWS, BENDS, AND BLOW-OFF LOCATIONS SHALL, UNLESS OTHERWISE NOTED, HAVE A Poured-IN-PLACE CONCRETE THRUST BLOCK PER CITY OF SHERWOOD STANDARDS.
- 8. ALL SANITARY SEWER LINES WITHIN 10 FEET LATERALLY OR 18 INCHES VERTICALLY OF A WATER MAIN SHALL BE ENCASED IN CONCRETE, OR CONSTRUCTED OF DUCTILE IRON PIPE WITH WATERTIGHT JOINTS.
- 9. ANY CROSSING OF WATER MAIN BY SANITARY SEWER SHALL BE MADE AT APPROXIMATELY 90 DEGREES AND HAVE 18 INCHES OF VERTICAL CLEARANCE OR SANITARY SEWER SHALL BE CONSTRUCTED OF DUCTILE IRON WATER PIPE WITH WATERTIGHT JOINTS FOR A DISTANCE OF 9 FEET FROM BOTH SIDES OF THE WATER LINE AND ENCASED IN CONCRETE.
- 10. JOINT DEFLECTION ALLOWED ONLY WITH THE APPROVAL OF THE PROJECT ENGINEER AND INSPECTOR AND BE PER CITY OF SHERWOOD STANDARDS.
- 11. OREGON HEALTH AUTHORITY BACTERIOLOGICAL TESTS SHALL BE TAKEN BY THE CITY OF SHERWOOD.
- 12. HYDROSTATIC TESTS SHALL CONFORM WITH ALL APPLICABLE CODES AND BE MONITORED BY THE CITY.
- 13. DISINFECTION: PIPELINES SHALL BE FLUSHED AND DISINFECTED BEFORE PLACING INTO SERVICE, AFTER PERFORMING HYDROSTATIC TESTING. DISINFECTION SHALL CONFORM WITH ALL APPLICABLE CODES. DISCHARGING OF THE HIGHLY CHLORINATED WATER USED FOR DISINFECTION SHALL NOT BE DISCHARGED INTO SURFACE WATERS. APPLICABLE FEDERAL, STATE, AND LOCAL REGULATIONS CONCERNING DISCHARGE SHALL BE FOLLOWED. TESTING AND INSPECTION SHALL BE IN ACCORDANCE WITH ALL APPLICABLE CODES.

- 14. PRIOR TO TAPPING INTO EXISTING WATER MAINS, THE CONTRACTOR SHALL CONTACT THE CITY OF SHERWOOD INSPECTOR.
- 15. CONTRACTOR OPERATION OF PUBLIC WATER VALVES IS PROHIBITED.
- 16. CONTRACTOR SHALL NOT BACKFILL TRENCH UNTIL WATER LINE INSPECTION IS APPROVED.
- 17. CONTACT RICH SATTLER AT 503-925-2319, CITY OF SHERWOOD PUBLIC WORKS, A MINIMUM OF 48 HOURS IN ADVANCE TO SCHEDULE WATER LINE INSPECTIONS.
- 18. NEW FIRE HYDRANTS TO HAVE STORZ ADAPTER ON 4-1/2" PORT.
- 19. INSTALL BLUE REFLECTOR A CENTER LINE OF ROADWAY(S) PERPENDICULAR TO FIRE HYDRANT.

- NOTES:**
- INFORMATION SHOWN IS BASED ON DIGITAL INFORMATION PROVIDED BY OTHERS (INCLUDING CES NW AND HDJ DESIGN GROUP). AKS ENGINEERING & FORESTRY MAKES NO GUARANTEE THAT THE UTILITIES SHOWN REPRESENT THE ONLY UTILITIES IN THE AREA. CONTRACTORS ARE RESPONSIBLE FOR VERIFYING ALL EXISTING CONDITIONS PRIOR TO BEGINNING CONSTRUCTION.
 - PORTIONS OF SITE TOPOGRAPHY ARE PER A SURVEY BY CES NW (CES NW JOB NO. 2723) AND ARE LABELED. THE REMAINING TOPOGRAPHIC DATA IS PER DRAWINGS PROVIDED ON 12/05/11 BY HDJ. PORTIONS OF LARGER FARMS PARKWAY, CENTURY DRIVE, AND THE ACCESS DRIVE AT THE SOUTH END OF THE SITE WERE TIED BY AKS.
 - VERTICAL DATUM: ELEVATIONS ARE BASED ON WASHINGTON COUNTY BENCHMARK NO. 103, A BRASS DISK IN CONCRETE AT THE SW CORNER OF THE INTERSECTION OF SW TUALATIN-SHERWOOD ROAD AND THE RAILROAD CROSSING, APPROXIMATELY 1.1 MILE EAST OF SIX CORNERS, WITH A NGVD 29 ELEVATION OF 171.38 FEET.
 - THIS MAP DOES NOT CONSTITUTE A PROPERTY BOUNDARY SURVEY.
 - CONTOUR INTERVAL IS 1 FOOT.
 - ALL TREES SHOWN ARE APPROXIMATE LOCATION.
- SEE TREE PRESERVATION AND REMOVAL TABLE SHEET FOR TREE SIZES AND TYPES.

- GENERAL DEMOLITION NOTES:**
1. ALL UTILITIES SCHEDULED TO BE ABANDONED AND SERVICES SCHEDULED TO BE DECOMMISSIONED SHALL BE ABANDONED AND DECOMMISSIONED IN ACCORDANCE WITH CITY REQUIREMENTS.
 2. CONTRACTOR SHALL ENSURE THERE IS A CLEAN, STRAIGHT EDGE AT ALL PAVEMENT RESTORATION MATCH LINES.
 3. CONTRACTOR SHALL COORDINATE DEMOLITION OF EXISTING FACILITIES WITH OWNER'S REPRESENTATIVE.
 4. CONTRACTOR SHALL PROVIDE TEMPORARY STORMWATER AND SANITARY SEWER BYPASS DURING CONSTRUCTION.

- KEYED DEMOLITION NOTES:**
1. REMOVE EXISTING CURB AND GUTTER. SEE SITE PLANS FOR ADDITIONAL INFORMATION.
 2. REMOVE CATCH BASIN. INSTALL MECHANICAL PLUG 12" INTO CATCH BASIN LEAD AT BOTH ENDS. FILL REMAINING 12" OF PIPE WITH NON-SHRINK GROUT AND FINISH SMOOTH.
 3. REMOVE AND SALVAGE EXISTING STREET LIGHT AND HAND HOLE (TO BE RELOCATED).
 4. REMOVE SIDEWALK FOR COMMERCIAL DRIVEWAY CONSTRUCTION.
 5. REMOVE EXISTING SANITARY SEWER CLEANOUTS. SEE SHEET C350 FOR ADDITIONAL INFORMATION.
 6. REMOVE EXISTING CONCRETE PAVEMENT/SIDEWALK, CURB RAMP, AND CURB/GUTTER FOR ACCESSIBLE RAMP CONSTRUCTION PER PEDESTRIAN CROSSING PLAN ON SHEET C123. PRESERVE EDGE OF EXISTING ASPHALT.
 7. REMOVE EXISTING LANE STRIPING/PAVEMENT MARKINGS.
 8. REMOVE EXISTING TRAFFIC BARRICADE.

Total # of Existing Onsite Trees to be Preserved = 3
 Total # of Existing Onsite Trees to be Removed = 18

Total # of Existing Offsite Trees = 22

Total # of Existing Offsite Trees to be Preserved = 22
 Total # of Existing Offsite Trees to be Removed = 0

***Health Rating:**

1 = Good Health - A tree that exhibits typical foliage, bark, and root characteristics, for its respective species, shows no signs of infection or infestation, and has a high level of vigor and vitality.
 2 = Fair Health - A tree that exhibits some abnormal health characteristics and/or shows some signs of infection or infestation, but may be reversed or abated with supplemental treatment.
 3 = Poor Health - A tree that is in significant decline, to the extent that supplemental treatment would not likely result in reversing or abating its decline.

****Structure Rating:**

1 = Good Structure - A tree that exhibits typical physical form characteristics, for its respective species, shows no signs of structural defects of the canopy, trunk, and/or root system.
 2 = Fair Structure - A tree that exhibits some abnormal physical form characteristics and/or some signs of structural defects, which reduce the structural integrity of the tree, but are not indicative of imminent physical failure, and may be corrected using arboricultural abatement methods.
 3 = Poor Structure - A tree that exhibits extensively abnormal physical form characteristics and/or significant structural defects that substantially reduces the structural viability of the tree, cannot feasibly be abated, and are indicative of imminent physical failure.

Arborist Disclosure Statement:

Arborists are tree specialists who use their education, knowledge, training, and experience to examine trees, recommend measures to enhance the health of trees, and attempt to reduce the risk of living near trees. The Client and Jurisdiction may choose to accept or disregard the recommendations of the arborist, or seek additional advice. Arborists cannot detect every condition that could possibly lead to the structural failure of a tree. Trees are living organisms that fall in ways we do not fully understand. Conditions are often hidden within trees and below ground. Arborists cannot guarantee that a tree will be healthy or safe under all circumstances, or for a specified period of time. Likewise, remedial treatments, like medicine, cannot be guaranteed. Trees can be managed, but they cannot be controlled. To live near trees is to accept some degree of risk. The only way to eliminate all risk associated with trees is to eliminate all trees. Neither this author nor AKS Engineering & Forestry, LLC have assumed any responsibility for liability associated with the trees on or adjacent to this site.

At the completion of construction, all trees should once again be reviewed. Land clearing and removal of adjacent trees can expose previously unseen defects and otherwise healthy trees can be damaged during construction.

TREE PRESERVATION NOTES:

PLACING MATERIALS NEAR TREES:

- NO PERSON MAY CONDUCT ANY ACTIVITY WITHIN THE TREE PROTECTION AREA OF ANY TREE DESIGNATED TO REMAIN, INCLUDING, BUT NOT LIMITED TO, PARKING EQUIPMENT, PLACING SOLVENTS, STORING BUILDING MATERIAL AND SOIL DEPOSITS, DUMPING CONCRETE WASHOUT.

ATTACHMENTS TO TREES:

- DURING CONSTRUCTION, NO PERSON SHALL ATTACH ANY OBJECT TO ANY TREE DESIGNATED FOR PROTECTION.

GRADING NEAR TREES:

- THE GRADE SHALL NOT BE ELEVATED OR REDUCED WITHIN THE TREE PROTECTION AREA OF TREES TO BE PRESERVED WITHOUT THE PROJECT ARBORIST'S AUTHORIZATION. THE PROJECT ARBORIST MAY ALLOW COVERAGE OF UP TO ONE HALF OF THE AREA OF THE TREE'S OPTIMAL TREE ROOT PROTECTION ZONE WITH LIGHT SOILS (NO CLAY) TO THE MINIMUM DEPTH NECESSARY TO CARRY OUT GRADING OR LANDSCAPING PLANS, IF IT WILL NOT IMPERIL THE SURVIVAL OF THE TREE. AERATION DEVICES MAY BE REQUIRED TO ENSURE THE TREE'S SURVIVAL.
- IF THE GRADE ADJACENT TO A PRESERVED TREE IS RAISED SUCH THAT IT COULD SLOUGH OR ERODE INTO THE TREE PROTECTION AREA, IT SHALL BE PERMANENTLY STABILIZED TO PREVENT SUFFOCATION OF THE ROOTS.
- THE APPLICANT SHALL NOT INSTALL AN IMPERVIOUS SURFACE WITHIN THE TREE PROTECTION AREA WITHOUT THE AUTHORIZATION OF THE PROJECT ARBORIST. THE PROJECT ARBORIST MAY REQUIRE SPECIFIC CONSTRUCTION METHODS AND/OR USE OF AERATION DEVICES TO ENSURE THE TREE'S SURVIVAL AND TO MINIMIZE THE POTENTIAL FOR ROOT INDUCED DAMAGE TO THE IMPERVIOUS SURFACE.
- TO THE GREATEST EXTENT PRACTICAL, UTILITY TRENCHES SHALL BE LOCATED OUTSIDE OF THE TREE PROTECTION AREA. THE PROJECT ARBORIST MAY REQUIRE THAT UTILITIES BE TUNNELED UNDER THE ROOTS OF TREES TO BE RETAINED IF THE PROJECT ARBORIST DETERMINES THAT TRENCHING WOULD SIGNIFICANTLY REDUCE THE CHANCES OF THE TREE'S SURVIVAL.
- TREES AND OTHER VEGETATION TO BE RETAINED SHALL BE PROTECTED FROM EROSION AND SEDIMENTATION. CLEARING OPERATIONS SHALL BE CONDUCTED SO AS TO EXPOSE THE SMALLEST PRACTICAL AREA OF SOIL FOR THE LEAST POSSIBLE AMOUNT OF TIME. SHRUBS, GROUND COVER, AND STUMPS SHALL BE MAINTAINED TO CONTROL EROSION, WHERE FEASIBLE. WHERE NOT FEASIBLE, APPROPRIATE EROSION CONTROL PRACTICES SHALL BE IMPLEMENTED.

ADDITIONAL REQUIREMENTS:

- THE PROJECT ARBORIST MAY REQUIRE ADDITIONAL TREE PROTECTION MEASURES WHICH ARE CONSISTENT WITH ACCEPTED URBAN FORESTRY PRACTICES.

EXCAVATION WITHIN OPTIMAL TREE ROOT PROTECTION ZONES:

- EXCAVATION IN THE TOP 24 INCHES OF SOIL IN THE OPTIMAL TREE ROOT PROTECTION ZONE SHOULD BEGIN AT THE EXCAVATION LINE THAT IS CLOSEST TO THE TREE.
- THE EXCAVATION SHOULD BE DONE BY HAND/SHOVEL OR WITH AN EXCAVATOR AND A PERSON WITH A SHOVEL, PRUNING SHEARS, AND A PRUNING SAW.
- IF DONE BY HAND, ALL ROOTS 1-INCH DIAMETER OR LARGER SHOULD BE PRUNED AT THE EXCAVATION LINE.
- IF DONE WITH AN EXCAVATOR (MOST LIKELY SCENARIO), THEN THE OPERATOR SHALL START THE CUT AT THE EXCAVATION LINE AND CAREFULLY "FEEL" FOR ROOTS/RESISTANCE. WHEN THERE IS RESISTANCE, THE PERSON WITH THE SHOVEL HAND DIGS AROUND THE ROOTS AND PRUNES THE ROOTS 1-INCH DIAMETER OR LARGER.
- THE EXCAVATOR IS TO REMAIN OFF OF THE TREE ROOTS TO BE PRESERVED AT ALL TIMES.
- ALL ROOTS SHALL BE CUT CLEANLY WITH PRUNING SHEARS OR A PRUNING SAW.
- THE PROJECT ARBORIST MUST BE ON SITE DURING ANY WORK WITHIN THE OPTIMAL TREE ROOT PROTECTION ZONE THAT IS WITHIN THE TREE PROTECTION AREA.

PRUNING/TREE REMOVAL NOTES:

THE WORK TO BE COMPLETED UNDER THIS PROJECT SHALL CONSIST OF TREE REMOVAL AND TREE TRIMMING AS LISTED:

- THE CONTRACTOR SHALL PROVIDE AN ADEQUATE CREW OF PERSONNEL, EQUIPMENT, AND MATERIALS TO SAFELY AND EFFICIENTLY COMPLETE THE ASSIGNED WORK. EACH SUCH CREW SHALL INCLUDE AN INDIVIDUAL WHO SHALL BE DESIGNATED AS THE CREW SUPERVISOR, BE RESPONSIBLE FOR THE CREW'S ACTIVITIES, RECEIVE INSTRUCTION FROM THE OWNER OR THE OWNER'S REPRESENTATIVE, AND DIRECT THE CREW TO ACCOMPLISH SUCH WORK.
- WHENEVER A TREE, WHICH IS NOT SCHEDULED TO BE REMOVED, MUST BE TRIMMED OR PRUNED, THE CONTRACTOR SHALL ENSURE THAT SUCH TRIMMING AND PRUNING IS CARRIED OUT UNDER THE DIRECT SUPERVISION OF A CERTIFIED ARBORIST. ALL PRUNING AND TRIMMING SHALL BE PERFORMED IN ACCORDANCE WITH THE PROVISIONS OF ANSI A300 "STANDARD PRACTICES FOR TREE, SHRUB AND OTHER WOODY PLANT MAINTENANCE".
- UNLESS AS OTHERWISE DIRECTED BY THE OWNER, ROOT BALLS FROM TREES BEING REMOVED SHALL BE COMPLETELY REMOVED UNLESS THE ROOT REMOVAL CROSSES ONTO ADJACENT PROPERTIES OR WOULD COMPROMISE TREES BEING PRESERVED. IN THOSE CASES, THE STUMPS AND ROOTS SHALL BE GROUND DOWN A MINIMUM OF TWELVE (12) INCHES BELOW NORMAL GROUND LEVEL. LARGE HOLES FROM ROOT BALL REMOVAL SHALL BE REPLACED WITH COMPACTED STRUCTURAL FILL TO FINISHED GRADE.
- THE CONTRACTOR SHALL PERFORM ALL WORK IN ACCORDANCE WITH THE LATEST GOVERNMENTAL SAFETY REGULATIONS. ALL WORK SHALL BE PERFORMED IN STRICT ACCORDANCE WITH ANSI Z133.1 "PRUNING, TRIMMING, REPAIRING, MAINTAINING AND REMOVING TREES AND CUTTING BRUSH-SAFETY REQUIREMENTS" WITH SPECIAL EMPHASIS GIVEN TO THE REQUIREMENT THAT ONLY QUALIFIED LINE-CLEARANCE TREE TRIMMERS BE ASSIGNED TO WORK WHERE A POTENTIAL ELECTRICAL HAZARD EXISTS.
- THE CONTRACTOR SHALL MAKE ALL THE NECESSARY ARRANGEMENTS WITH ANY UTILITY THAT MUST BE PROTECTED OR RELOCATED IN ORDER TO ACCOMPLISH THE WORK. THE CONTRACTOR SHALL BE SOLELY RESPONSIBLE FOR THE PROTECTION OF THE OPERATING CONDITION OF ALL ACTIVE UTILITIES WITHIN THE AREA OF CONSTRUCTION AND SHALL TAKE ALL NECESSARY PRECAUTIONS TO AVOID DAMAGE TO EXISTING UTILITIES.
- ANY MATERIAL RESULTING FROM THE TRIMMING OR REMOVAL OF ANY TREES SHALL BECOME THE RESPONSIBILITY OF THE CONTRACTOR TO DISPOSE OF.
- HAZARDOUS TREE REPORTING: ANY PERSON ENGAGED IN TRIMMING OR PRUNING WHO BECOMES AWARE OF A TREE OF DOUBTFUL STRENGTH, THAT COULD BE DANGEROUS TO PERSONS AND PROPERTY, SHALL REPORT SUCH TREE(S) TO THE OWNER OR THE OWNER'S REPRESENTATIVE. SUCH TREES SHALL INCLUDE THOSE THAT ARE OVER MATURE, DISEASED, OR SHOWING SIGNS OF DECAY OR OTHER STRUCTURAL WEAKNESS.
- DAMAGES: ANY DAMAGE CAUSED BY THE CONTRACTOR, INCLUDING, BUT NOT LIMITED TO, BROKEN SIDEWALK, CURB, RUTTED LAWN, BROKEN WATER SHUT-OFFS, WIRE DAMAGE, BUILDING DAMAGE, STREET DAMAGE, ETC., WILL BE REPAIRED OR REPLACED IN A TIMELY MANNER, TO THE OWNER'S SATISFACTION, AND ALL COSTS PAID BY THE CONTRACTOR.
- ANY BRUSH CLEARING REQUIRED WITHIN THE TREE PROTECTION AREA SHALL BE ACCOMPLISHED WITH HAND OPERATED EQUIPMENT.
- TREES TO BE REMOVED SHALL BE FELLED SO AS TO FALL AWAY FROM OPTIMAL TREE ROOT PROTECTION ZONES AND TO AVOID PULLING AND BREAKING OF ROOTS TO REMAIN. DIRECTIONAL FELLING OF TREES SHALL BE USED TO AVOID DAMAGE TO TREES DESIGNATED FOR RETENTION.
- ALL DOWNED BRUSH AND TREES SHALL BE REMOVED FROM THE TREE PROTECTION AREA EITHER BY HAND OR WITH EQUIPMENT STAGED OUTSIDE OF THE TREE PROTECTION AREA. EXTRACTION SHALL OCCUR BY LIFTING THE MATERIAL OUT, NOT BY SKIDDING IT ACROSS THE GROUND.
- IF TEMPORARY HAUL OR ACCESS ROADS MUST PASS OVER TREE PROTECTION AREA, A ROADBED OF STEEL PLATES, OR 6 INCHES OF MULCH, OR 6 INCHES OF GRAVEL SHALL BE PLACED TO PREVENT SOIL COMPACTION IF DETERMINED NECESSARY BY THE PROJECT ARBORIST. THE ROADBED MATERIAL SHALL BE REPLISHED AS NECESSARY TO MAINTAIN A 6-INCH DEPTH.
- PRUNING: THE CONTRACTOR SHALL CONSULT WITH THE PROJECT ARBORIST PRIOR TO ANY PRUNING ACTIVITIES NECESSARY FOR CONSTRUCTION ACTIVITIES. ALL PRUNING ACTIVITIES SHALL BE PERFORMED IN ACCORDANCE WITH ANSI A300 PRUNING STANDARDS. PRUNING SHALL BE COMPLETED PRIOR TO THE START OF CONSTRUCTION ACTIVITIES.
- CUT BRANCHES AND ROOTS WITH SHARP PRUNING INSTRUMENTS THAT DO NOT CHOP OR TEAR.
- AT THE COMPLETION OF CONSTRUCTION, ALL TREES SHOULD ONCE AGAIN BE EVALUATED. LAND CLEARING AND REMOVAL OF ADJACENT TREES CAN EXPOSE PREVIOUSLY UNSEEN DEFECTS AND OTHERWISE HEALTHY TREES CAN BE DAMAGED DURING CONSTRUCTION.

Exhibit Q: Legal Descriptions and Reduced Copy of Property Line Adjustment Plan

LOT 1

Adjusted Description

A tract of land located in the Southeast One-Quarter of Section 29, Township 2 South, Range 1 West, Willamette Meridian, City of Sherwood, Washington County, Oregon, and being more particularly described as follows:

Beginning at the northeast corner of Lot 1 of the plat "Parkway Village South", Washington County Plat Records, said point also being on the south right-of-way line of SW Century Drive (31.00 feet from centerline); thence South $03^{\circ}56'24''$ East along the east line of said Lot 1, 293.64 feet; thence leaving said east line North $88^{\circ}38'14''$ West, 408.59 feet to a point on a line which is parallel with and 42.50 feet westerly of, when measured at right angles to, the west line of said Lot 1; thence North $01^{\circ}21'46''$ East along said parallel line, 285.71 feet to the south right-of-way line of said SW Century Drive; thence South $88^{\circ}29'30''$ East along said south right-of-way line, 280.98 feet; thence continuing along said south right-of-way line on a curve to the left with a Radius of 431.00 feet, a Delta of $05^{\circ}27'23''$, a Length of 41.04 feet, and a Chord of North $88^{\circ}46'48''$ East, 41.03 feet; thence continuing along said south right-of-way line North $86^{\circ}03'07''$ East, 59.74 feet to the Point of Beginning.

Contains 2.596 acres, more or less.

RENEWAL 12/31/2022

LOT 2

Adjusted Description

A tract of land located in the Southeast One-Quarter of Section 29, Township 2 South, Range 1 West, Willamette Meridian, City of Sherwood, Washington County, Oregon, and being more particularly described as follows:

Beginning at the most easterly corner of Lot 1 of the plat "Parkway Village South", Washington County Plat Records, said point also being on the northwesterly line of Tract 'A' of the plat "Langer Farms", Washington County Plat Records; thence tracing said northwesterly line along the following six (6) courses: South 62°02'52" West, 20.72 feet; North 40°45'56" West, 22.17 feet; South 73°35'05" West, 225.17 feet; South 82°09'35" West, 29.88 feet; South 59°23'32" West, 99.81 feet; and South 22°23'05" West, 109.00 feet to the southeasterly corner of Lot 2 of said "Parkway Village South" plat; thence North 88°38'14" West along the south line of said Lot 2 and its westerly extension, 171.64 feet to a point on a line which is parallel with and 16.00 feet westerly of, when measured at right angles to, the west line of said Lot 2; thence North 01°21'46" East along said parallel line, 339.61 feet; thence leaving said parallel line South 88°38'14" East, 408.59 feet to the easterly line of Lot 1 of said "Parkway Village South" plat; thence tracing the easterly line of said Lot 1 along the following three (3) courses: South 03°56'24" East, 30.33 feet; South 63°57'26" East, 153.77 feet; and South 40°46'30" East, 31.53 feet to the Point of Beginning.

Contains 2.690 acres, more or less.

RENEWAL 12/31/2022

LOT 3

Adjusted Description

A tract of land located in the Southeast One-Quarter of Section 29, Township 2 South, Range 1 West, Willamette Meridian, City of Sherwood, Washington County, Oregon, and being more particularly described as follows:

Beginning at the southwest corner of Lot 3 of the plat "Parkway Village South", Washington County Plat Records, said point also being on the east right-of-way line of SW Langer Farms Parkway (39.00 feet from centerline); thence North $01^{\circ}21'46''$ East along said east right-of-way line, 324.82 feet to the southwest corner of Lot 4 of said "Parkway Village South" plat; thence South $88^{\circ}38'14''$ East along the south line of said Lot 4, 136.06 feet to the southeast corner of said Lot 4; thence tracing the easterly line of said Lot 4 along the following five (5) courses: North $11^{\circ}21'46''$ East, 87.52 feet; South $88^{\circ}38'14''$ East, 62.85 feet; North $01^{\circ}21'46''$ East, 137.88 feet; South $88^{\circ}38'14''$ East, 68.00 feet; and North $01^{\circ}21'46''$ East, 177.75 feet to the southwest corner of Lot 5 of said "Parkway Village South" plat; thence South $88^{\circ}38'14''$ East along the south line of said Lot 5, 258.00 feet to a point on a line which is parallel with and 42.50 feet westerly of, when measured at right angles to, the west line of Lot 1 of said "Parkway Village South" plat; thence South $01^{\circ}21'46''$ West along said parallel line, 503.43 feet to the westerly extension of the south line of Lot 2 of said "Parkway Village South" plat; thence South $88^{\circ}38'14''$ East along said westerly extension and the south line of said Lot 2, 171.64 feet to the most easterly corner of Lot 3 of said "Parkway Village South" plat; thence South $49^{\circ}23'05''$ West along the easterly line of said Lot 3, 266.11 feet; thence continuing along said easterly line South $10^{\circ}37'14''$ West, 45.82 feet to the southeast corner of said Lot 3; thence North $88^{\circ}38'14''$ West along the south line of said Lot 3, 506.55 feet to the Point of Beginning.

Contains 7.163 acres, more or less.

Exhibit R [NEW]: Parkway Village South Modification Explanation

MODIFICATION CALCULATIONS (EXHIBIT R)

Tree Canopy Calculations

Trees in Modified Project Area

Type of Tree	Quantity	Canopy Per Unit (sf)	Total Canopy	Size
HTD	3	±314	±942 sf	small
SO	8	±1,257	±10,056 sf	Large
VC	21	±177	±3,717 sf	Small
LP	21	±1,257	±26,397 sf	Large
MH	2	±1,257	±2,514 sf	Large
GVZ	2	±1,134	±2,268 sf	Large
Total			±45,894 sf	

Tree quantities based on MMSP 18-08 Minor Modification Landscape Plans. See provided exhibits for additional information.

Total Tree Canopy Provided in MMSP 18-08 Minor Mod Plans	±184,786 sf
Tree Canopy in Modified Project Area for LU 2022-012	±45,894 sf
Unmodified Tree Canopy Area	±138,892 sf

Total Tree Canopy Provided with LU 2022-012	±75,080 sf
Total Tree Canopy After LU 2022-012	±213,972 sf
(Unmodified + New)	

Approximate Total Site Area	±682,585 sf	(±15.67 acres)
(Full Parkway Village South Lots 1-5)		

Required Tree Canopy (30% Site Area)	±204,776 sf
Parkway Village South will provide a total of ±213,972 sf of canopy exceeding the ±204,776 sf required.	

Total Landscape Area Calculations

Landscape Areas in Modified Project Area

Parking Lot Interior	±1,684 sf
Parking Lot Perimeter	±582 sf
Site Buffer	±56 sf
Other Site Landscaping	±2,437 sf
Total:	±4,760 sf

Landscape quantities based on MMSP 18-08 Minor Modification Landscape Plans. See provided exhibits for additional information.

Total Landscape Area Provided in MMSP 18-08 Minor Mod Plans	±81,854 sf
Landscape Area in Modified Project Area for LU 2022-012	±4,760 sf
Unmodified Landscape Area	±77,094 sf

Total Landscaping Provided with Project LU 2022-012	±63,883 sf
Total Landscaping After LU 2022-012	±140,977 sf
(Unmodified + New)	

Approximate Total Site Area	±682,585 sf	(15.67 acres)
(Full Parkway Village South Lots 1-5)		

Percent of Total Site Area Provided as Landscaping	21%
Parkway Village South will provide a total of ±140,977 sf of landscaping area.	

Parking Landscape Area Calculations

Landscape Areas in Modified Project Area

Parking Lot Interior	±1,684 sf
Parking Lot Perimeter	±582 sf
Total:	±2,266 sf

Parking Landscape quantities based on MMSP 18-08 Minor Modification Landscape Plans. See provided exhibits for additional information.

Total Parking Landscape Area Provided in MMSP 18-08 Minor Mod Plans	±35,307 sf
Parking Landscape Area in Modified Project Area for LU 2022-012	±2,266 sf
Unmodified Parking Landscape Area	±33,041 sf

Total Parking Landscaping Provided with Project LU 2022-012	±6,067 sf
Total Parking Landscaping After LU 2022-012 (Unmodified + New)	±39,108 sf

Number of Parking Stalls Provided in MMSP 18-08 Minor Mod Plans	444
Number of Parking Stalls in Modified Project Area for LU 2022-012	41
Number of Unmodified Parking Stalls	403

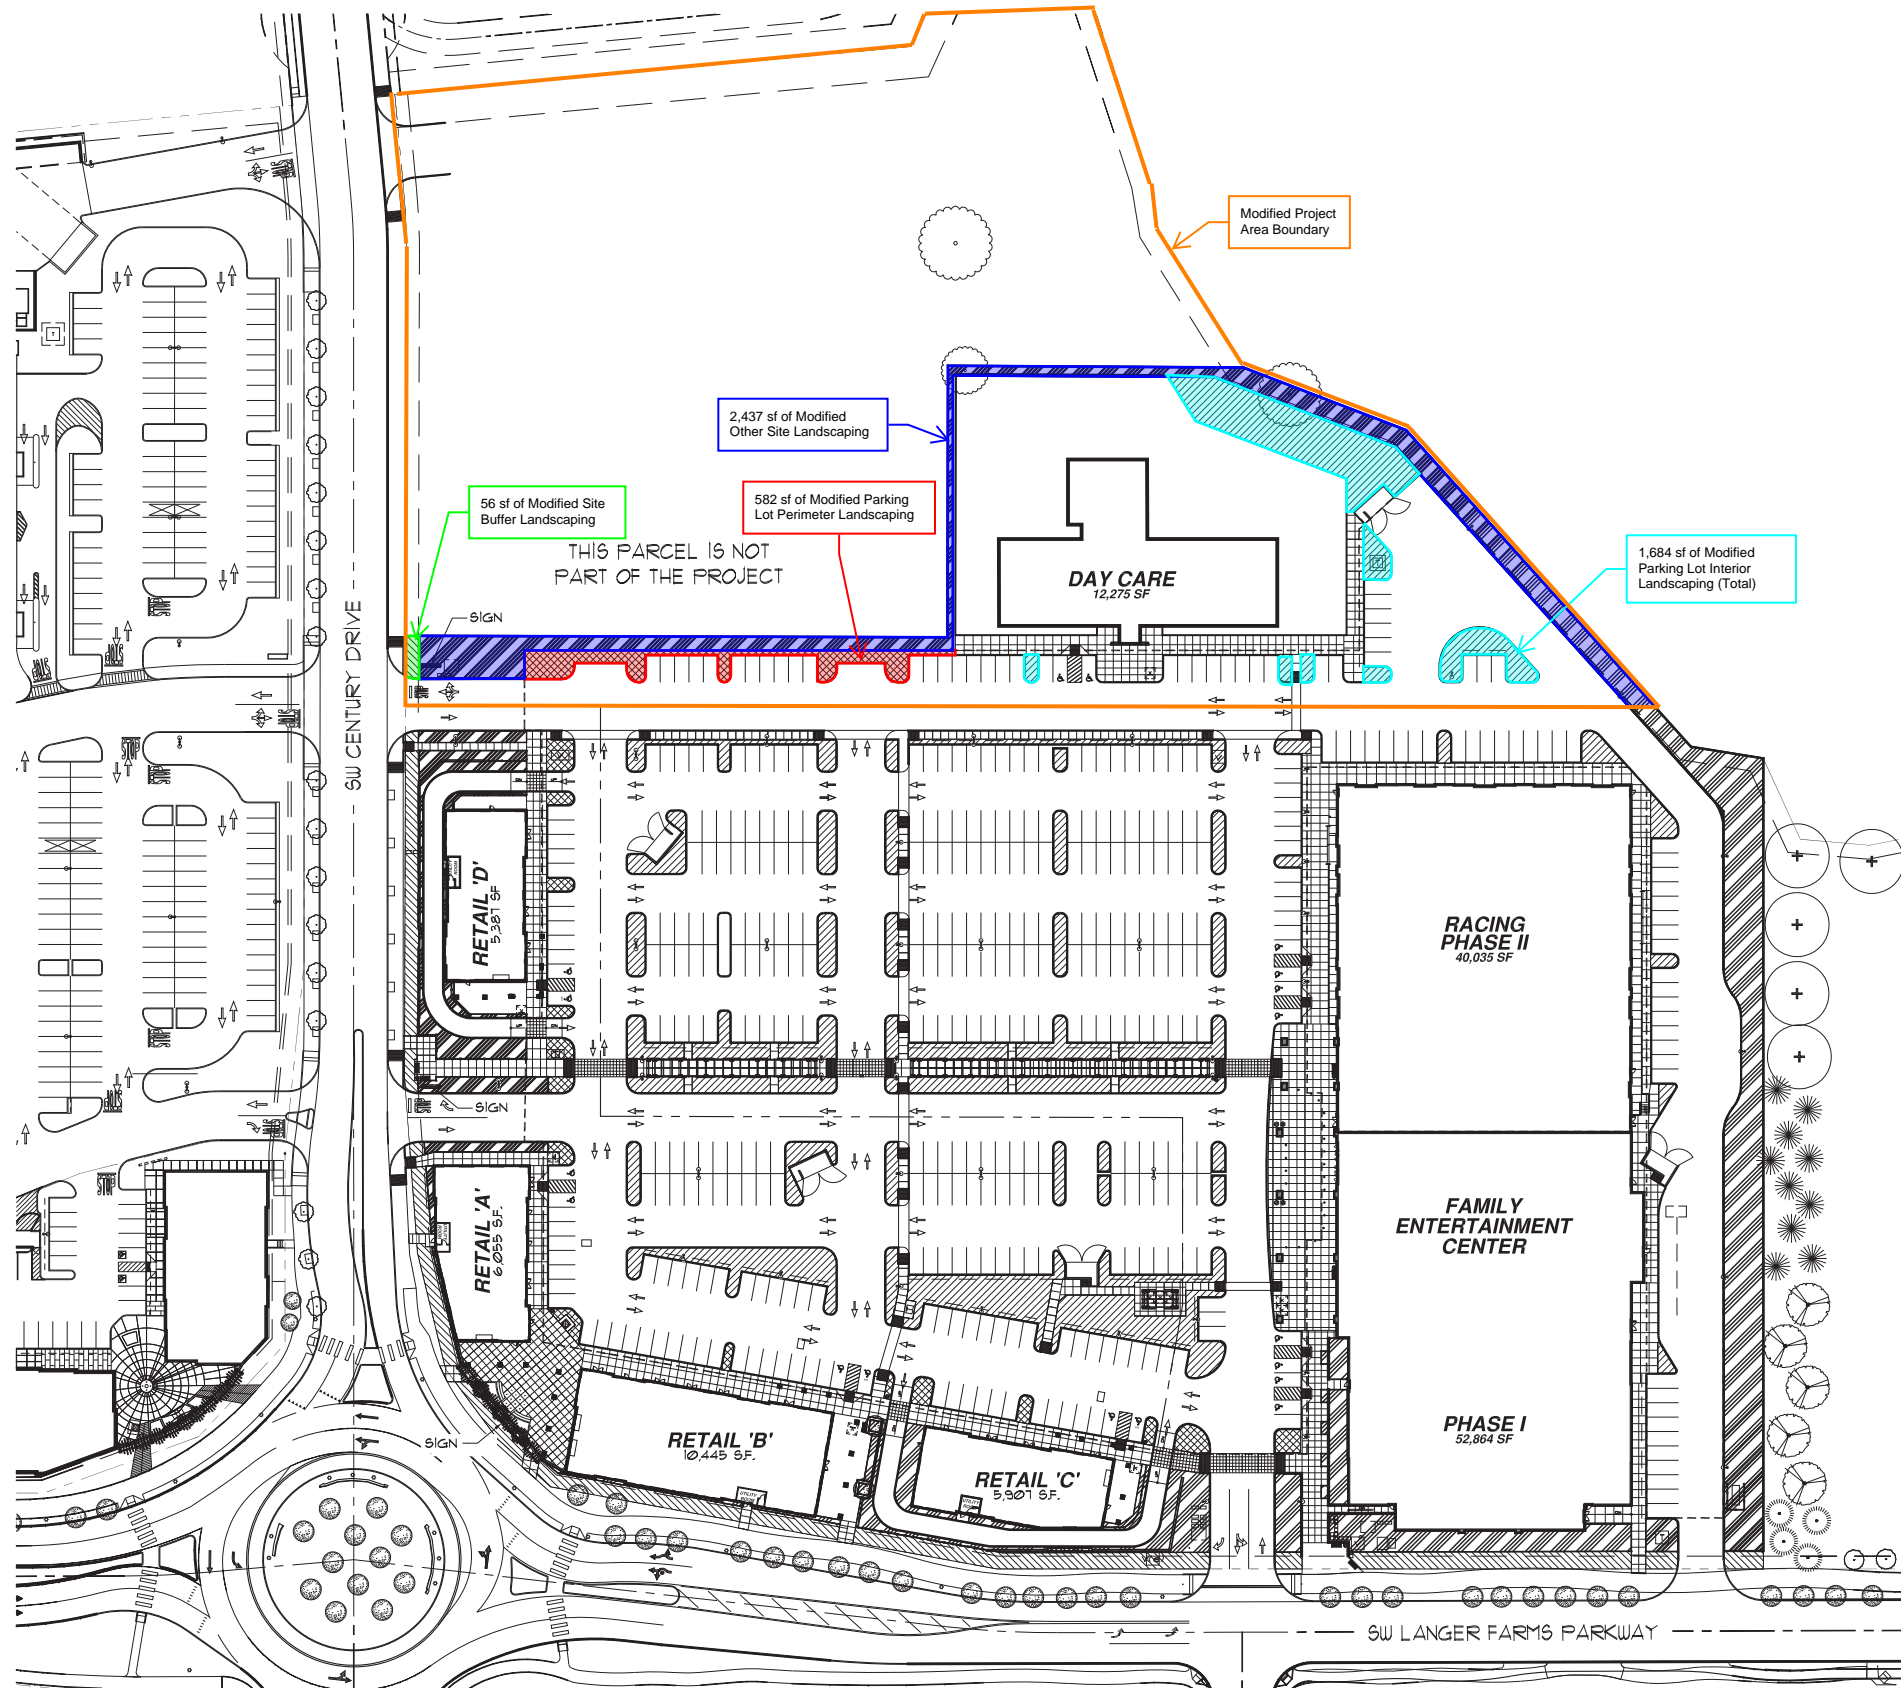

Total Number of Parking Stalls Provided with Project LU 2022-012	118
Total Number of Parking Stalls After LU 2022-012 (Unmodified + New)	521

Required Parking Lot Landscaping (45 sf per stall)	±23,445 sf
Parkway Village South will provide a total of ±39,108 sf of parking lot landscaping exceeding the ±23,445 sf required.	

Large Tree Calculations

Number of Large Trees Provided in MMSP 18-08 Minor Mod Plans	132
Number of Large Trees in Modified Project Area for LU 2022-012	33
Unmodified Number of Large Trees	99
Total Number of Large Trees Provided with Project LU 2022-012	56
Total Number of Large Trees After LU 2022-012	155
(Unmodified + New)	
Total Number of Parking Stalls After LU 2022-012	521 (Stalls Calculated In Section Above)
Required Number of Large Trees (1 tree per 4 parking stalls)	130
Parkway Village South will provide a total of 155 large trees exceeding the 130 required.	

TOTAL SITE AREA :	523,112 S.F.
TOTAL BUILDING AREA :	132,968 S.F.
10% LANDSCAPE REQ'D :	52,312 S.F.
PROPOSED LANDSCAPING :	
PARKING AREA :	35,129 S.F.
OTHER AREAS :	36,671 S.F.
BUFFERS :	10,401 S.F.
TOTAL SITE LANDSCAPE :	82,200 S.F.
PERCENT OF SITE :	15.1%
PARKING STALLS : 443	
PARKING STALL RATIO :	
443 / 132,968	= 3.33 PER 1000 S.F.
PARKING LANDSCAPE AREA PER STALL :	
45 S.F. x 443	= 19,935 S.F.
35,129 S.F. / 443	= 79.30 S.F.

NOTES:
 CAR BUMPER OVERHANGS ARE COUNTED IN PARKING AREA LANDSCAPING.

Modified Project Area Boundary

- NOTES**
- Installation must fully comply with all City of Sherwood landscape code requirements and any conditions of approval.
 - Plant spacing as per legend above except where noted otherwise on plans.
 - Provide specified root barriers whenever edge of root ball is within 5' of sidewalk, curb, and retaining walls. Install as specified and detailed. Do not undermine sidewalk, curb or utilities.
 - Submit representative sample of all proposed plant material for use on project for review/approval by landscape architect prior to installation. Provide samples at project site.
 - Layout and stake all landscape tree and shrub plantings for review/approval by landscape architect prior to planting.
 - Topsoil testing required as specified.
 - Receive approval of sub grade prior to topsoil placement.
 - Deposit Topsoil as follows: 18" minimum in planting beds, 6" minimum in lawn area, add more as required to meet finish civil grades. Berm all planting islands a minimum of 6" as measured from top of adjacent curb or sidewalk.
 - Receive approval of final finish landscape grade prior to any planting.
 - Provide jute erosion control netting on all slopes 3:1 and greater. See civil grading plans.
 - When shrubs/trees are planted as a group, shrubs/trees in group must be consistent in size and form.
 - Repair/restore damage to any existing landscape caused by construction to pre damage condition and satisfaction of owner.
 - Plant quantities listed in the legend above are required by the jurisdiction. If a discrepancy exists between the legend quantities above and the plan quantities, the plans shall prevail.

NOTES

- Installation must fully comply with all City of Sherwood landscape code requirements and any conditions of approval.
- Plant spacing as per legend above except where noted otherwise on plans.
- Provide specified root barriers whenever edge of root ball is within 5' of sidewalk, curb, and retaining walls. Install as specified and detailed. Do not undermine sidewalk, curb or utilities.
- Submit representative sample of all proposed plant material for use on project for review/approval by landscape architect prior to installation. Provide samples at project site.
- Layout and stake all landscape tree and shrub plantings for review/approval by landscape architect prior to planting.
- Topsoil testing required as specified.
- Receive approval of sub grade prior to topsoil placement.
- Deposit Topsoil as follows: 18" minimum in planting beds, 6" minimum in lawn area, add more as required to meet finish civil grades. Berm all planting islands a minimum of 6" as measured from top of adjacent curb or sidewalk.
- Receive approval of final finish landscape grade prior to any planting.
- Provide jute erosion control netting on all slopes 3:1 and greater. See civil grading plans.
- When shrubs/trees are planted as a group, shrubs/trees in group must be consistent in size and form.
- Repair/restore damage to any existing landscape caused by construction to pre damage condition and satisfaction of owner.
- Plant quantities listed in the legend above are required by the jurisdiction. If a discrepancy exists between the legend quantities above and the plan quantities, the plans shall prevail.

TOTAL EXPECTED TREE CANOPY COVERAGE PROVIDED: ±75,080 S.F.
 TREE CANOPY REQUIRED: ±233,552 S.F. (NET SITE AREA) x 30% TREE CANOPY = ±70,066 S.F. AREA REQUIRED.

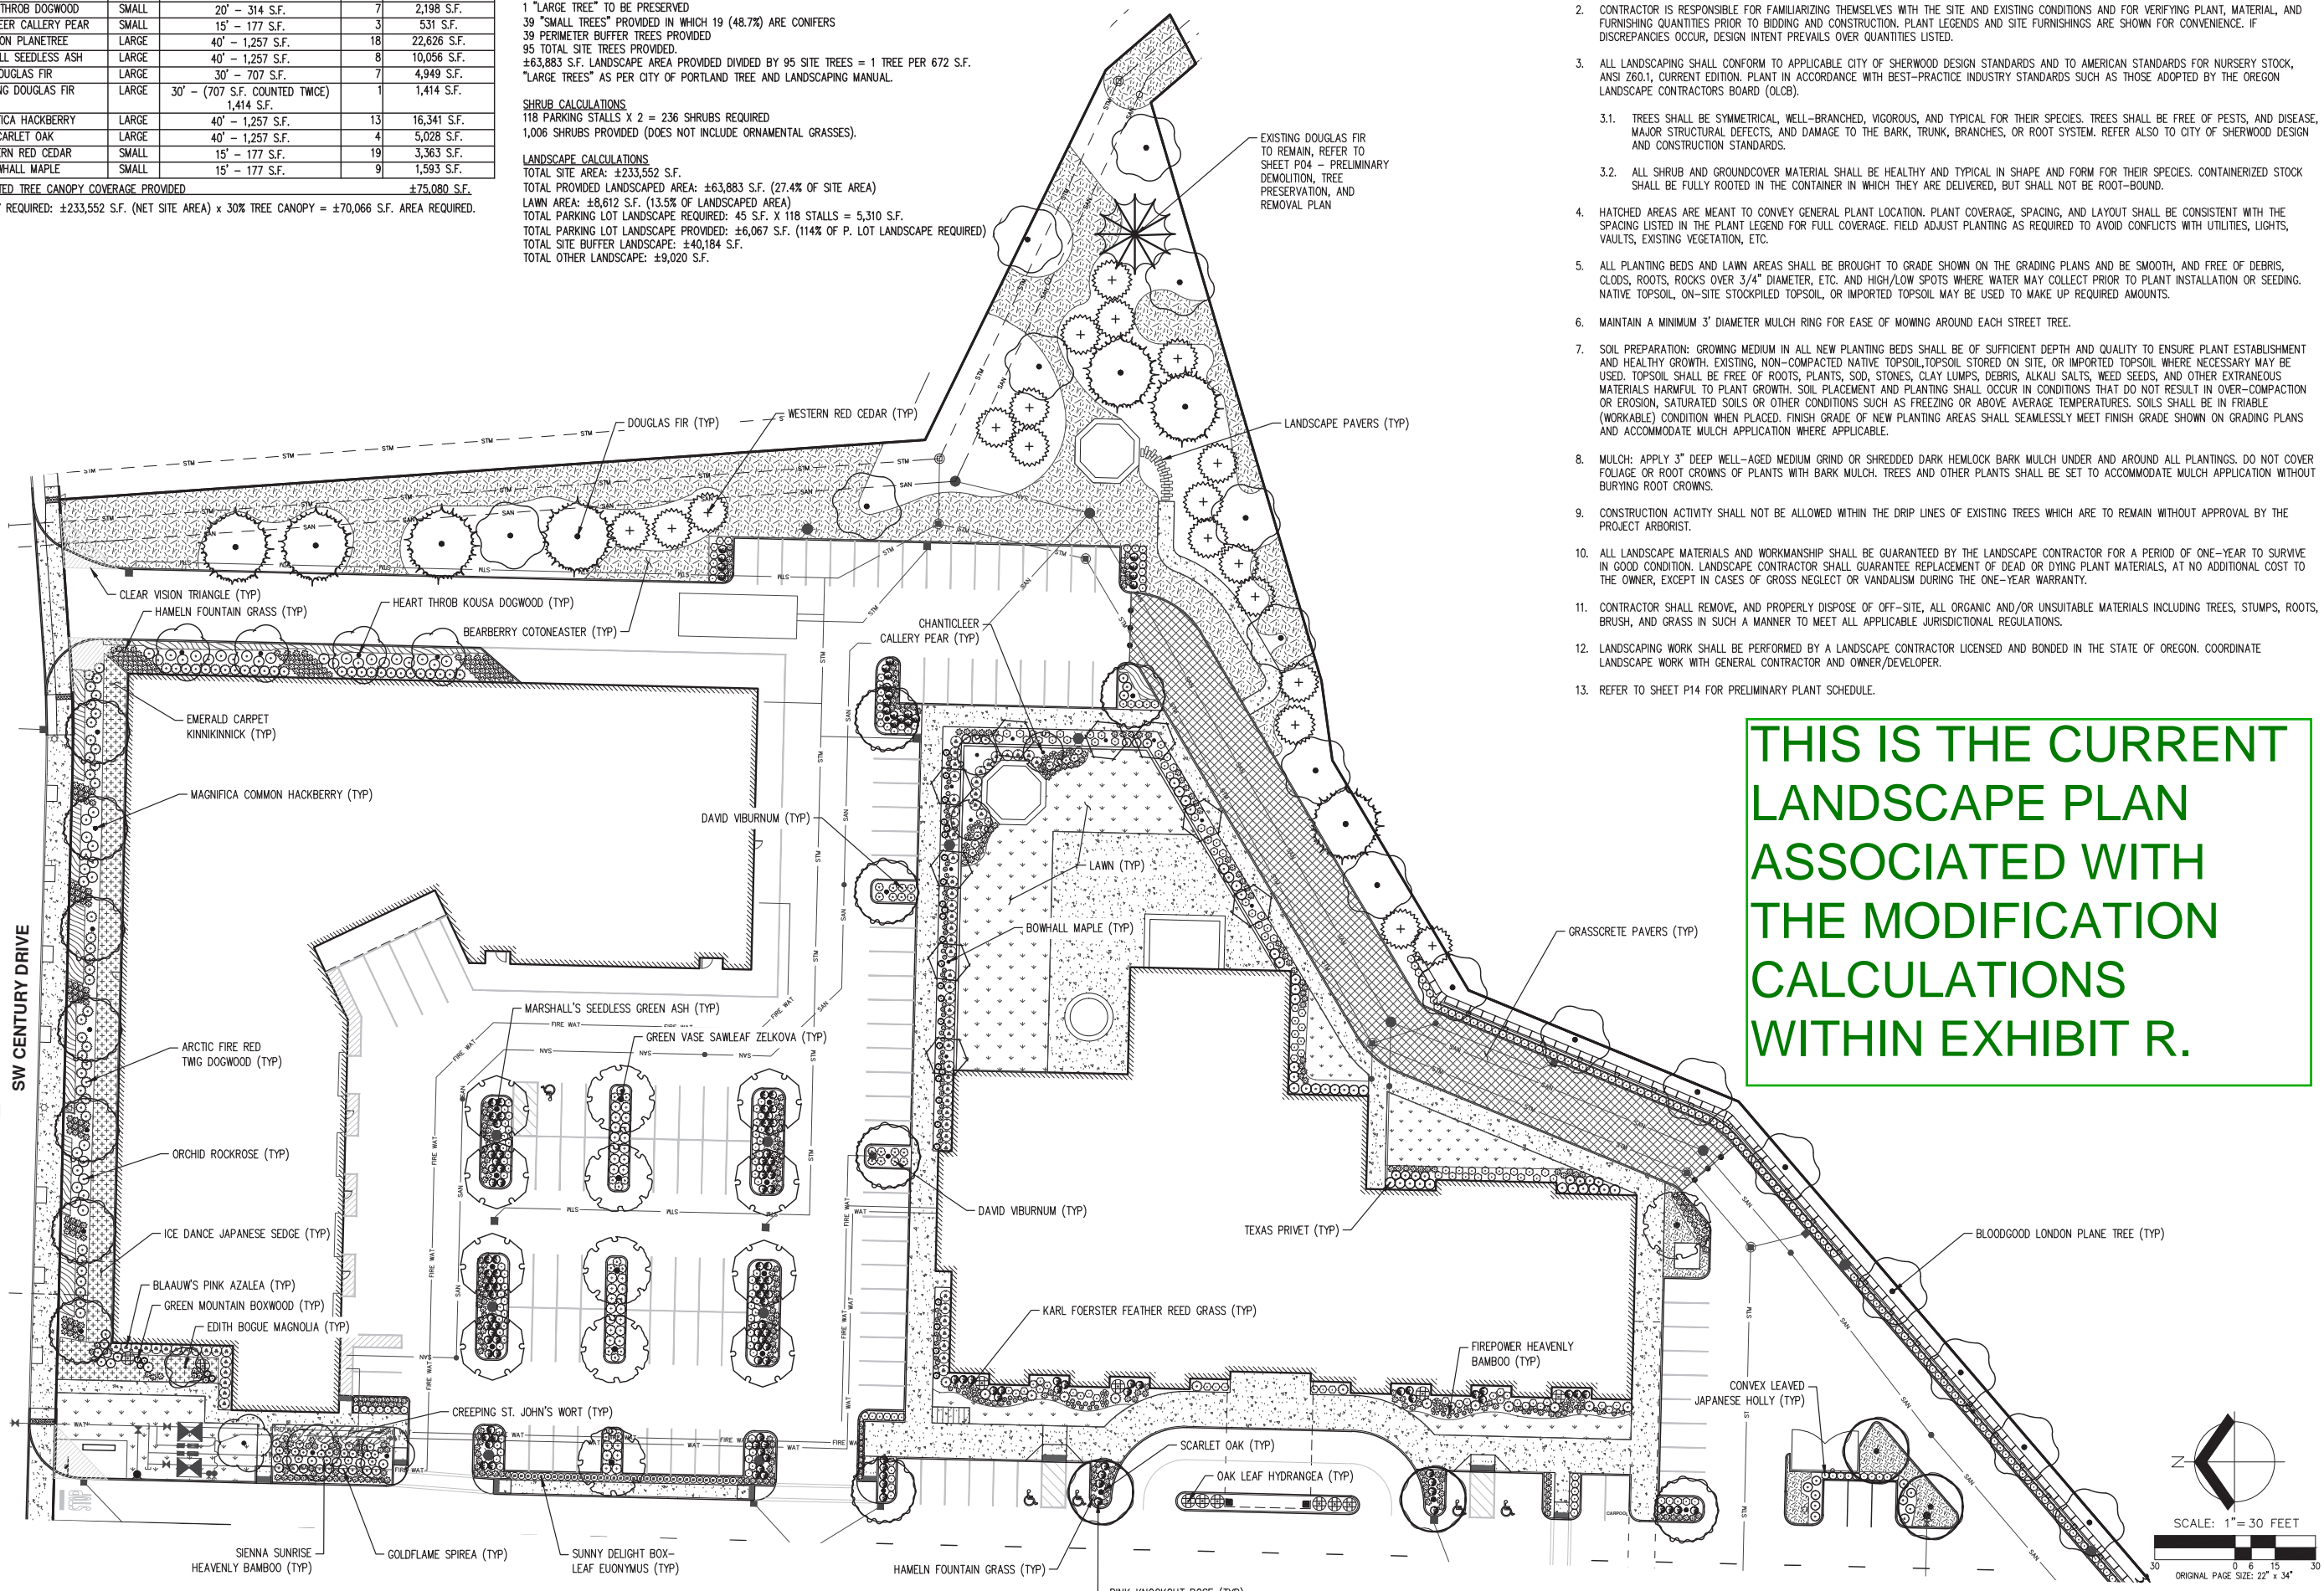

TREE CALCULATIONS
 118 PARKING STALLS/4 = 29.5 "LARGE TREES" REQUIRED UNDER CODE
 56 "LARGE TREES" PROVIDED IN WHICH 7 (12.5%) ARE CONIFERS
 1 "LARGE TREE" TO BE PRESERVED
 39 "SMALL TREES" PROVIDED IN WHICH 19 (48.7%) ARE CONIFERS
 39 PERIMETER BUFFER TREES PROVIDED
 95 TOTAL SITE TREES PROVIDED.
 ±63,883 S.F. LANDSCAPE AREA PROVIDED DIVIDED BY 95 SITE TREES = 1 TREE PER 672 S.F.
 "LARGE TREES" AS PER CITY OF PORTLAND TREE AND LANDSCAPING MANUAL.

SHRUB CALCULATIONS
 118 PARKING STALLS X 2 = 236 SHRUBS REQUIRED
 1,006 SHRUBS PROVIDED (DOES NOT INCLUDE ORNAMENTAL GRASSES).

LANDSCAPE CALCULATIONS
 TOTAL SITE AREA: ±233,552 S.F.
 TOTAL PROVIDED LANDSCAPED AREA: ±63,883 S.F. (27.4% OF SITE AREA)
 LAWN AREA: ±8,612 S.F. (13.5% OF LANDSCAPED AREA)
 TOTAL PARKING LOT LANDSCAPE REQUIRED: 45 S.F. X 118 STALLS = 5,310 S.F.
 TOTAL PARKING LOT LANDSCAPE PROVIDED: ±6,067 S.F. (114% OF P. LOT LANDSCAPE REQUIRED)
 TOTAL SITE BUFFER LANDSCAPE: ±40,184 S.F.
 TOTAL OTHER LANDSCAPE: ±9,020 S.F.

GENERAL LANDSCAPE NOTES

- PLANTING AND PRODUCT SPECIFICATIONS WHERE SHOWN ARE TO CONVEY DESIGN INTENT AND MAY BE REVISED OR SUBSTITUTED WITH APPROVAL PRIOR TO INSTALLATION DUE TO AVAILABILITY, UNFORESEEN SITE CONDITIONS, ETC. WHERE ALLOWABLE UNDER CITY OF SHERWOOD CODE STANDARDS.
- CONTRACTOR IS RESPONSIBLE FOR FAMILIARIZING THEMSELVES WITH THE SITE AND EXISTING CONDITIONS AND FOR VERIFYING PLANT, MATERIAL, AND FURNISHING QUANTITIES PRIOR TO BIDDING AND CONSTRUCTION. PLANT LEGENDS AND SITE FURNISHINGS ARE SHOWN FOR CONVENIENCE. IF DISCREPANCIES OCCUR, DESIGN INTENT PREVAILS OVER QUANTITIES LISTED.
- ALL LANDSCAPING SHALL CONFORM TO APPLICABLE CITY OF SHERWOOD DESIGN STANDARDS AND TO AMERICAN STANDARDS FOR NURSERY STOCK, ANSI Z60.1, CURRENT EDITION. PLANT IN ACCORDANCE WITH BEST-PRACTICE INDUSTRY STANDARDS SUCH AS THOSE ADOPTED BY THE OREGON LANDSCAPE CONTRACTORS BOARD (OLCB).
 - TREES SHALL BE SYMMETRICAL, WELL-BRANCHED, VIGOROUS, AND TYPICAL FOR THEIR SPECIES. TREES SHALL BE FREE OF PESTS, AND DISEASE, MAJOR STRUCTURAL DEFECTS, AND DAMAGE TO THE BARK, TRUNK, BRANCHES, OR ROOT SYSTEM. REFER ALSO TO CITY OF SHERWOOD DESIGN AND CONSTRUCTION STANDARDS.
 - ALL SHRUB AND GROUND COVER MATERIAL SHALL BE HEALTHY AND TYPICAL IN SHAPE AND FORM FOR THEIR SPECIES. CONTAINERIZED STOCK SHALL BE FULLY ROOTED IN THE CONTAINER IN WHICH THEY ARE DELIVERED, BUT SHALL NOT BE ROOT-BOUND.
- HATCHED AREAS ARE MEANT TO CONVEY GENERAL PLANT LOCATION. PLANT COVERAGE, SPACING, AND LAYOUT SHALL BE CONSISTENT WITH THE SPACING LISTED IN THE PLANT LEGEND FOR FULL COVERAGE. FIELD ADJUST PLANTING AS REQUIRED TO AVOID CONFLICTS WITH UTILITIES, LIGHTS, VAULTS, EXISTING VEGETATION, ETC.
- ALL PLANTING BEDS AND LAWN AREAS SHALL BE BROUGHT TO GRADE SHOWN ON THE GRADING PLANS AND BE SMOOTH, AND FREE OF DEBRIS, CLODS, ROOTS, ROCKS OVER 3/4" DIAMETER, ETC. AND HIGH/LOW SPOTS WHERE WATER MAY COLLECT PRIOR TO PLANT INSTALLATION OR SEEDING. NATIVE TOPSOIL, ON-SITE STOCKPILED TOPSOIL, OR IMPORTED TOPSOIL MAY BE USED TO MAKE UP REQUIRED AMOUNTS.
- MAINTAIN A MINIMUM 3" DIAMETER MULCH RING FOR EASE OF MOWING AROUND EACH STREET TREE.
- SOIL PREPARATION: GROWING MEDIUM IN ALL NEW PLANTING BEDS SHALL BE OF SUFFICIENT DEPTH AND QUALITY TO ENSURE PLANT ESTABLISHMENT AND HEALTHY GROWTH. EXISTING, NON-COMPACTED NATIVE TOPSOIL STORED ON SITE, OR IMPORTED TOPSOIL WHERE NECESSARY MAY BE USED. TOPSOIL SHALL BE FREE OF ROOTS, PLANTS, SOD, STONES, CLAY LUMPS, DEBRIS, ALKALI SALTS, WEED SEEDS, AND OTHER EXTRANEOUS MATERIALS HARMFUL TO PLANT GROWTH. SOIL PLACEMENT AND PLANTING SHALL OCCUR IN CONDITIONS THAT DO NOT RESULT IN OVER-COMPACTION OR EROSION, SATURATED SOILS OR OTHER CONDITIONS SUCH AS FREEZING OR ABOVE AVERAGE TEMPERATURES. SOILS SHALL BE IN FRIABLE (WORKABLE) CONDITION WHEN PLACED. FINISH GRADE OF NEW PLANTING AREAS SHALL SEAMLESSLY MEET FINISH GRADE SHOWN ON GRADING PLANS AND ACCOMMODATE MULCH APPLICATION WHERE APPLICABLE.
- MULCH: APPLY 3" DEEP WELL-ACED MEDIUM GRIND OR SHREDDED DARK HEMLOCK BARK MULCH UNDER AND AROUND ALL PLANTINGS. DO NOT COVER FOLIAGE OR ROOT CROWNS OF PLANTS WITH BARK MULCH. TREES AND OTHER PLANTS SHALL BE SET TO ACCOMMODATE MULCH APPLICATION WITHOUT BURYING ROOT CROWNS.
- CONSTRUCTION ACTIVITY SHALL NOT BE ALLOWED WITHIN THE DRIP LINES OF EXISTING TREES WHICH ARE TO REMAIN WITHOUT APPROVAL BY THE PROJECT ARBORIST.
- ALL LANDSCAPE MATERIALS AND WORKMANSHIP SHALL BE GUARANTEED BY THE LANDSCAPE CONTRACTOR FOR A PERIOD OF ONE-YEAR TO SURVIVE IN GOOD CONDITION. LANDSCAPE CONTRACTOR SHALL GUARANTEE REPLACEMENT OF DEAD OR DYING PLANT MATERIALS, AT NO ADDITIONAL COST TO THE OWNER, EXCEPT IN CASES OF GROSS NEGLIGENCE OR VANDALISM DURING THE ONE-YEAR WARRANTY.
- CONTRACTOR SHALL REMOVE, AND PROPERLY DISPOSE OF OFF-SITE, ALL ORGANIC AND/OR UNSUITABLE MATERIALS INCLUDING TREES, STUMPS, ROOTS, BRUSH, AND GRASS IN SUCH A MANNER TO MEET ALL APPLICABLE JURISDICTIONAL REGULATIONS.
- LANDSCAPING WORK SHALL BE PERFORMED BY A LANDSCAPE CONTRACTOR LICENSED AND BONDED IN THE STATE OF OREGON. COORDINATE LANDSCAPE WORK WITH GENERAL CONTRACTOR AND OWNER/DEVELOPER.
- REFER TO SHEET P14 FOR PRELIMINARY PLANT SCHEDULE.

THIS IS THE CURRENT LANDSCAPE PLAN ASSOCIATED WITH THE MODIFICATION CALCULATIONS WITHIN EXHIBIT R.
