Subject: Brookman Sanitary Sewer Extension Project - Year 2 Construction Activities

Dear Neighbor,

Clean Water Services (CWS) and the City of Sherwood are pleased to share that the first year of work installing a new sanitary sewer line in Sherwood is almost complete. Crews are ahead of schedule and will continue to work through the winter as weather allows to finish installing the first segment of the sewer line.

Year 2 of construction is set to begin January 2026 and will be focused in the area from SW Oberst Road to Middleton Elementary School. Neighbors can expect construction noise and dust, tree and vegetation removal, traffic impacts, and erosion control maintenance. Construction occurs from 7 am to 5 pm on weekdays, though longer hours and weekend hours are possible. Crews will limit construction noise before 8 am.

We plan to have a community meeting in early 2026 to provide an update on our progress and share next steps in completing this project.

Thank you for your patience during this important work to supply long-term sanitary sewer capacity for new and existing development, a one-time effort for the foreseeable future.

Please contact Jason Horner, at [BrookmanSewerProject@cleanwaterservices.org](mailto:BrookmanSewerProject@cleanwaterservices.org) with any questions.

Respectfully,

Daniel Rittatore
