Call to Order

Chair Amicci called the meeting to order at 7:00 pm.

Roll Call

Board Members Present: Chair Richard Amicci, David deBos, Brian Dorsey, Diane Foster, Mike Smith, Chris West and Laurie Zwingli

Board Members Absent: Vice Chair Amanda van Arcken and Lawrence O’Keefe

Staff Present: Chief Ty Hanlon, Council President-Kim Young and Executive Assistant-Angie Hass

Approval of April Meeting Minutes

Mr. West moved that the April meeting minutes be approved as presented and Mr. Smith seconded the motion. All present board members voted in favor of approval.

Citizen Comments-N/A

Meeting Summary:

- **Board Membership Changes:** Laurie Zwingli is resigning; Mike Smith and Larry O'Keefe will remain. Chair, Vice Chair and TSB Liaison elections postponed to next meeting.
- **Traffic Safety Board Updates:** New speed cameras are live; public education on signal operations recommended to address community confusion.
- **Staffing Progress:** Police department is hiring; currently two officers short.
- **Community Engagement:** Positive interactions at recent events; upcoming food drive and blood drive promote civic participation.
- **Funding Challenges:** Recent levies failed in neighboring counties, informing local funding strategy; Sherwood's model remains stable through November 2027.
- **Technology Security:** Speed camera data is encrypted, secure; no privacy breaches reported in 10 years of operation.

Meeting Notes:

Board Membership and Leadership Planning

The board confirmed upcoming membership changes and planned leadership nominations to ensure continuity and fresh involvement.

- Term renewals and departures confirmed for July 1st clarified current membership status.
 - Laurie Zwingli will not renew after approximately 10 years of service, marking a significant transition.
 - Mike Smith and Larry O'Keefe expressed interest in continuing their terms to maintain board stability.
 - Diane Foster and Chris West remain as original members, with Chris expected to be the longest-tenured member moving forward.
 - The board acknowledged Laurie's long-term contributions as an original member and chair.
- Chair and Vice Chair elections deferred to next meeting for better preparation.
 - Amanda, current Vice Chair, was absent, leading to a decision to postpone elections to the following month.
 - Richard offered to serve one more term as Chair but is open to passing leadership to new members to encourage fresh perspectives.
 - The internal election process does not require city council approval.

Traffic Safety Board & Speed Camera Deployment

Key traffic safety projects are moving forward with new speed cameras operational and plans for public education underway to improve community compliance.

- Traffic Safety Board reported no pending issues at their last meeting, marking completion of recent projects.
 - Speed cameras on Oregon are officially live as of the meeting day, with construction on Middleton and Brooklyn also in progress.

- The city council noted the Traffic Safety Board has been canceling meetings due to lack of new items, indicating project milestones are largely met.
- Requests for additional street patrols were encouraged to address ongoing speeding concerns, especially near schools.
- Social media and public communication plans recommended to clarify new traffic signal operations.
 - The new HAWK (High-Intensity Activated crossWalk) pedestrian signals on Timbrel and Sunset require public education to reduce confusion about when vehicles must stop or can turn.
 - A timely social media push was suggested to explain signal behavior, leveraging visual aids and possibly FAQs.
 - Reposting information about the Traffic Safety Board and its submission process was proposed to boost community engagement.
- Speed cameras initiated a 30-day warning period starting next Monday, with mixed public feedback expected.
 - Cameras took pictures prematurely over the weekend, causing calls from concerned residents. No tickets will be issued until after the warning period.
 - The eye-level placement of cameras makes flashes very visible, which some drivers reported as instantly behavior-changing.
 - The city owns all camera data and does not sell it, addressing privacy concerns in communications.
 - A FAQ page modeled on Redmond's approach will accompany outreach for transparency and trust-building.

Police Department Personnel and Community Engagement

The department is actively recruiting, integrating new officers, and emphasizing community involvement to sustain high service quality and public trust.

- New hires and internal promotions are progressing to fill staffing gaps.
 - A reserve officer was recently offered a full-time position and is undergoing background checks.
 - Two lateral hires are progressing and one former Portland Police Bureau Detective is starting June 1st. He brings significant experience.
 - Current staffing remains about two officers short, a known cycle the department expects to improve over time.
- Community outreach remains strong with recent events and positive public interactions.
 - The department supported a Boy Scouts visit where officers allowed hands-on experiences, reinforcing positive community ties.
 - Upcoming events include the annual food drive and shred event on May 30th and a Red Cross blood drive on May 29th, promoting civic participation.
 - Facility improvements underway include clearing decades of accumulated materials to create more workspace and improve operational efficiency.

City Council and Foundation Updates

Collaborations between the board, city council, and the police foundation are reinforcing alignment on community goals and funding successes.

- A roundtable meeting with city council and advisory boards scheduled for June 2nd to improve communication.
 - The goal is to ensure board activities align with city council priorities and to foster better coordination across commissions.
 - Attendance confirmation included at least five board members, ensuring robust representation.
- The Police Foundation's "Boots and Bling" gala recently raised substantial funds despite economic challenges.
 - The event attracted over 210 attendees and raised \$115,000 gross, nearly \$80,000 net, slightly below last year but above expectations.
 - The gala featured live music and auctioneering, which enhanced community engagement and donor enthusiasm.
- The Sherwood West Concept Plan includes a major road realignment project focused on safety and environmental goals.
 - The project entails realigning Elwert with options like a roundabout to improve mobility and livability.
 - It is a joint county-city initiative tied to the broader Sherwood West comprehensive plan with long-term feasibility studies underway.

Budget and Funding Considerations

The board discussed recent levy election results and funding approaches to sustain police services amid fiscal challenges.

- Recent public safety levies failed in neighboring counties, highlighting funding challenges.
 - Levy measures for public safety services were rejected in Clackamas and Clatsop counties, and a police station bond failed in Tigard.
 - Fire station bonds had mixed success, showing uneven voter support for public safety funding.
 - These outcomes inform advisory board recommendations to city council and the police chief regarding local fee and levy strategies.
- Sherwood's current funding model is stable through November next year but requires strategic planning.
 - Unlike other jurisdictions, Sherwood's proposed fees fund specific community-supported projects with clear uses, which may increase voter support.
 - The idea of a commercial fee was discussed to better reflect police resource use by businesses versus residential fees, which require charter approval.
 - The board emphasized transparent communication about fund allocation to maintain community trust and avoid funding failures.

- Technology security and privacy for speed cameras addressed to alleviate resident concerns.
 - The police chief confirmed no known hacking or security breaches in the camera system over a 10-year operational history.
 - Data is encrypted and securely stored in the cloud, with no third-party sales of information permitted.
 - These assurances will be included in upcoming public communications to reduce skepticism.

Adjourn (Chair)

The meeting was adjourned at 8 pm.

The next meeting is scheduled for June 18th at 7 p.m.
